Either time works for me on Thursday, as well. As you meet with constituents often, suggest where to meet and I'll be there.

Thanks!
John

> Hi John, Thanks for your work on this proposal and for reaching out and your kind offer to meet. I'm happy to meet and thinking if Kirk and I could do jointly, that'd be helpful for us all. I could meet Thursday or Friday of this week, if this might be doable for you and Kirk. Thank you, John! Jane

> I have been a part of a group led by Wayne Appleyard, Susan Hutton and Mike Garfield which has put together a
Climate Proposal for consideration at the City's December 12 working session. The proposal includes background
information on current climate science and impacts, A2's Climate Action Plan (CAP) and Sustainability Framework, and
then specific program recommendations derived from the original CAP's 84 Actions, including funding needs, for the
City's consideration in developing priorities for the FY17 budget and the FY18 plan.

individually or together, at your convenience. The proposal will be finalized at a Wednesday afternoon meeting so
anytime after that would be possible. Ideally, I'd like 45-60' of your time but 30' would suffice.

Subject: Library Lot

Dear Mr. Mayor and City Council,

The CORE developers of the Library Lot are asking for too many parking spaces at the expense of the public. The thing about developers is they don't go away, so standing up to them will be better for the city than giving into them.

Katherine French

Subject: Library lot & Parking hardships

It has just come to my attention that the CORE developers who would like to buy the Library Lot for a huge development, are asking for a total of 360 reserved parking spaces, 200 in the Library Lane structure as well as an additional 160 parking spaces in the 4th and William structure. I feel that this will be an additional hardship on downtown businesses, whose customers already have difficulty finding available parking.

Thank You for registering my concern,

Kathie K. Weinmann

Ann Arbor, 48103

Subject: Library lot development

I understand the developer is asking for over 300 parking spaces. Please!!! do not agree to this. Parking is much to sparse downtown already and this could very well kill interest in "going downtown" !

Thanks.
