

Materials Recovery Facility
Safety Observation Form

Date: Tuesday, July 5th, 2016

Name of Observer: Shawn Qualls

Issues: See below.

Photos:

Machine not locked out. (May fall under minor service exception? [1910.147(a)(2)(ii)])

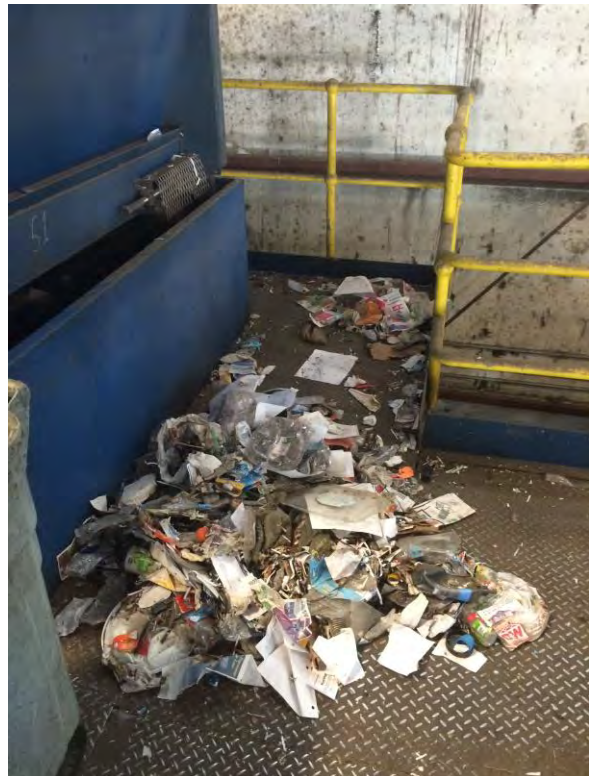

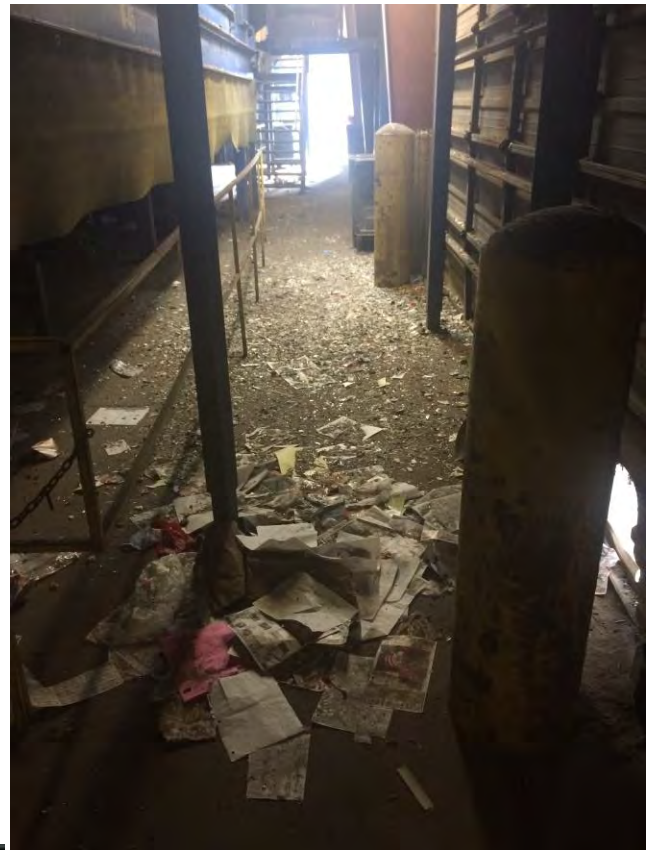

Lots of uncapped wires, potential shock hazard. (work in progress)

Top left: Possible clearance issue.

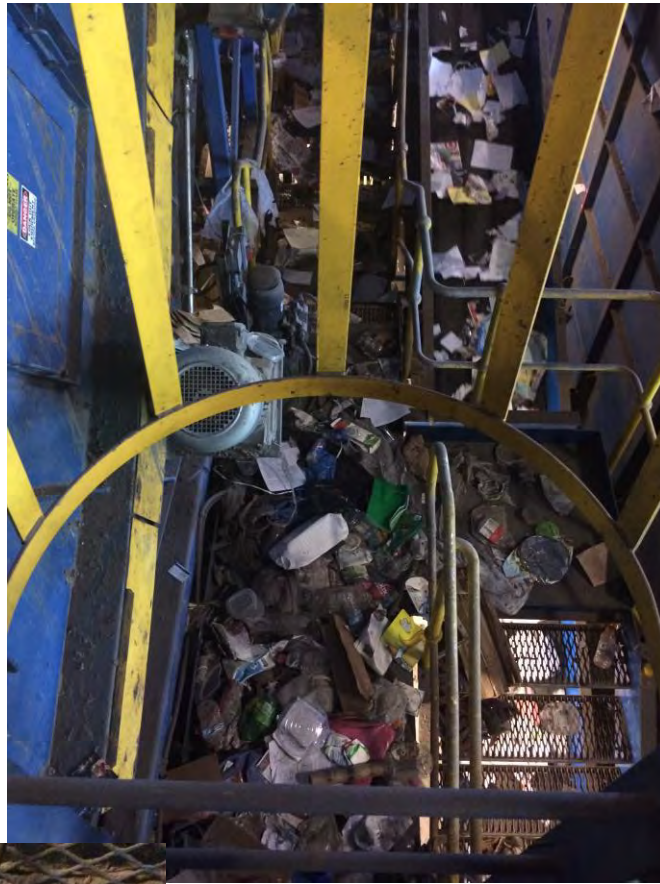

Top right: Fire extinguisher still missing

Bottom: Replace missing eye wash bottle

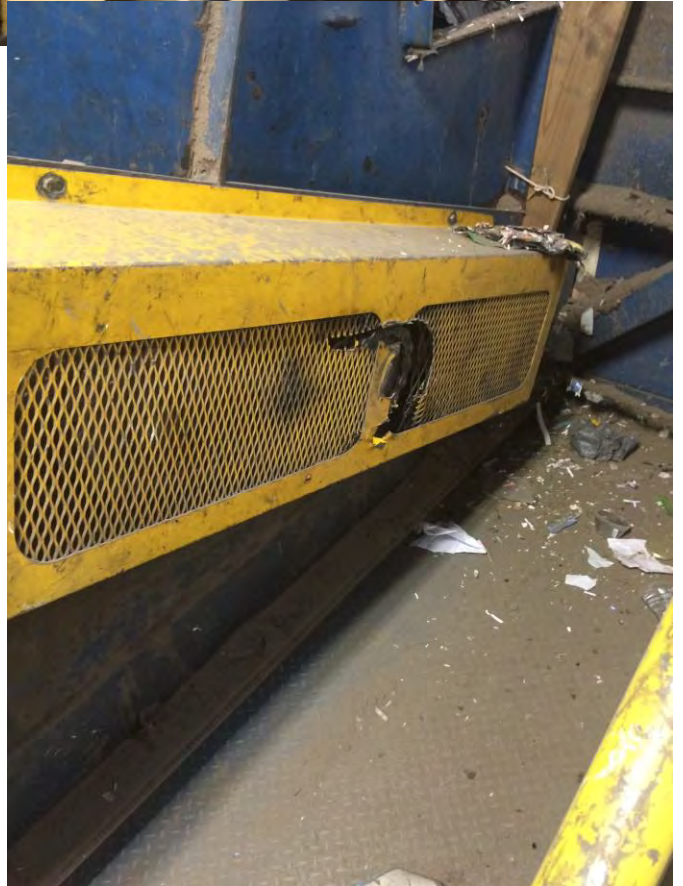

All: Housekeeping – obstructed walkways and stairways [1910.22(a)(1)]

Bottom left: possible clearance issue?

Top: Obstructed aisleways

Bottom: PPE left lying around

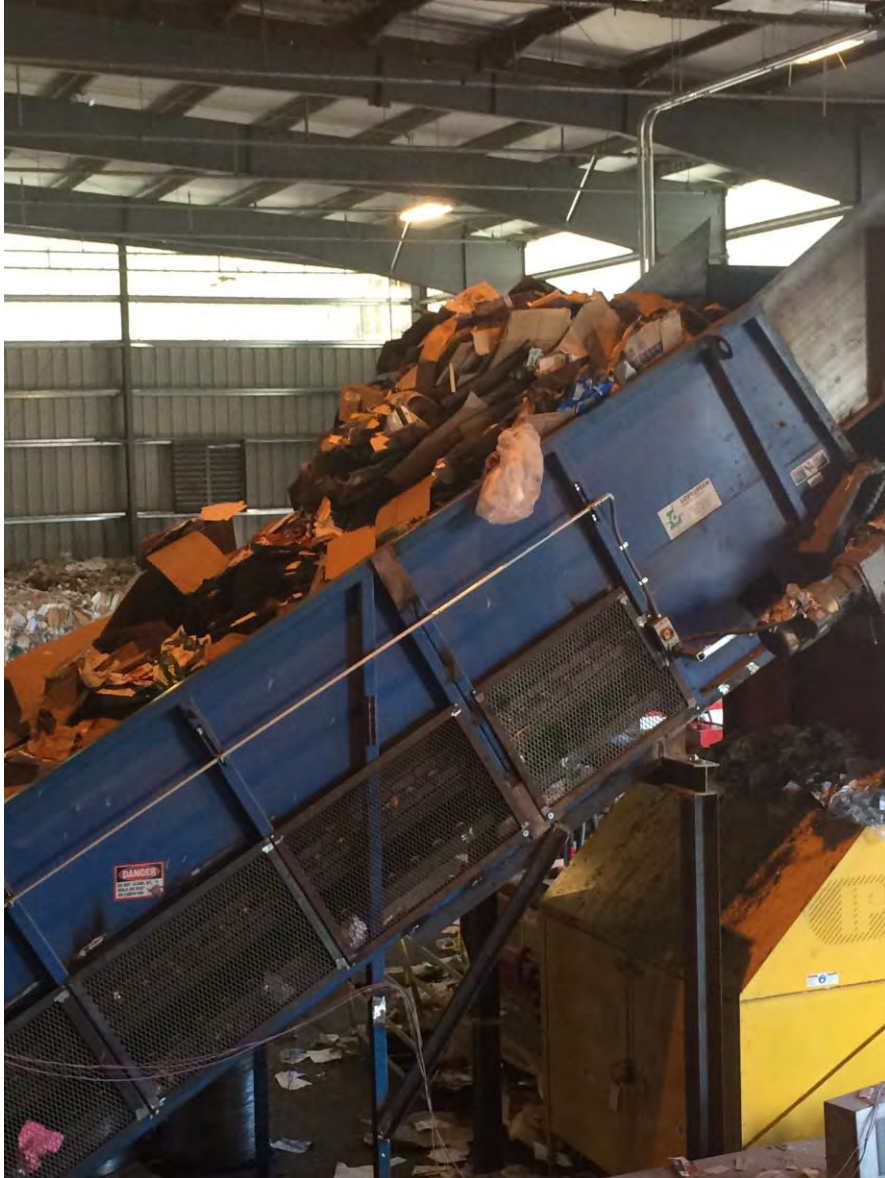

Top left: Looks like the upper motor is missing a guard

Top right: Center motor – guard (top) is not secured to motor.

Bottom left: Panel not secured

Bottom right: Damaged guard

Conveyor overloaded
