PROJECT DESCRIPTION

The Building was originally built for the Delta Kappa Epsilon fraternity as a meeting house in 1878. It has been owned by DKE since it was built.

The new Owners, Redeemer of Ann Arbor ministry, is purchasing the building with the intent to restore and restore the building for their use as a campus ministry.

Exterior improvements to the building will include masonry repair and repointing, masonry cleaning, chimney repair and decorative sheet metal repair, eave and fascia board repair, and painting.

In addition, the entry to the building will be made barrier-free accessible with the construction of a new entry walk, new extended entry landing and stairs, and the addition of a barrier-free lift.

At the interior, the partial basement, with crawli space, will be fully excavated and deepened to create an entirely usable basement level.

A new fire rated egress stair will be constructed to provide a single means of egress from the basement level. New barrier-free toilets will be located at the basement level along with a furnace-utility room, elevator, and elevator machine room.

The proposed elevator will service all three floors: basement, first floor and second floor.

A new, second open stair will be constructed to provide access to the second floor meeting (sanctuary) space.

The existing exterior fire escape from the second floor will be reconstructed.
