On-Street Commercial Loading Zone Permits

Commercial vehicles using the designated commercial loading zones on downtown Ann Arbor streets will be required to have specially-issued permits affixed to the driver-side front window, with enforcement anticipated to begin March 1, 2010. The permits allow vehicles with commercial plates to use the unmetered commercial parking zones up to the time-limit posted at each site. Sale of the permits has been temporarily suspended to provide an opportunity to review suggested changes to the permit use and pricing. Beginning February 1, vehicles using the loading zones in unauthorized ways will receive educational notices regarding the new requirements.

- **Please provide your e-mail (or mailing address and phone number) to receive updates on the status of this program and/or to submit comments to: customerservice@a2gov.org. Thank you.**

The downtown area has been divided into four color-coded quadrants, with annual commercial loading zone permits available for individual quadrants or a citywide loading zone access permit to all quadrants. One "free" commercial loading zone is provided in each quadrant, in addition to free loading areas in the alleys. Please see the map attached below for exact locations.

The commercial parking zone permits will be available from the city's [Customer Service and Payment Center](#), open weekdays, 8 a.m. to 5 p.m. in-person at 220 E. Huron, located diagonally across the street from City Hall. Eligible applicants must provide in-person or by mail a copy of the vehicle commercial license plate registration, a completed Commercial Loading Zone Permit application form, and payment.
