**Date:** Wednesday, May 29, 2019 11:27:18 PM

---

Hi Tom McKarns,

Thank you for noticing our chimney swifts, and for mentioning the Swift Night Out with the Detroit Audubon! A similar program has been considered for Ann Arbor, but we haven't moved forward on it.

If you're feeling particularly inspired, one option would be to apply for a Sustaining Ann Arbor Together Grant (SA2T). These are the links to more information:

- <https://www.a2gov.org/departments/city-administrator/Pages/Sustainable-Ann-Arbor-.aspx>
- <https://www.a2gov.org/departments/city-administrator/Pages/Community-Grant-Application.aspx>

Meanwhile, thanks for enjoying the spectacle and spreading the word!

**Subject:** Thanks for preserving the chimney at 415 W. Washington parking lot

Hi,

I just wanted to thank you all for taking the action you did last October to evaluate and hopefully retain the chimney at the 415 W Washington surface parking lot.

Last Sunday night, I took my wife and our exchange student from Germany to the lot, which of course was open and free that evening. We got there shortly after 9 pm and saw a couple dozen chimney swifts high in the air, chattering as they devoured any mosquitos and other flying insects that were around. Within a few minutes, it was clear that they had started circling the chimney, but still high in the air. As we watched, eventually there were more than 100 birds circling. Around 9:25 as night was falling, the swifts began dropping into the chimney. Within about 3 minutes, there were none left in the sky! What a cool spectacle to observe.

I don't think that the swifts are disturbed by the people on the ground, and I can imagine that there would be great interest in people watching them, if they knew they were there. Maybe AA could even start a one night Swift Fest, and celebrate their beneficial presence?

Ann Arbor may want to search out any other old chimneys in town, as possible additional sites for swifts to nest. There are at least two other chimneys I could see from the parking lot, but not sure if they are suitable at this time for nesting.

I highly recommend that you all go to the parking lot late one summer evening just before dusk, and

watch these chimney swifts as they come home for the night from their evening meal. It is really cool to watch. Just another great reason to live here!

Tom McKarns

PS: I am a board member and Treasurer for Detroit Audubon. We have had a Swift Night Out event in years past at a Detroit area chimney where as many as 20,000 swifts roosted.

**Subject:** Bannister Agenda Question -- Guest Services at City Hall  
**Date:** Wednesday, May 29, 2019 11:55:17 AM

---

Dear Mr. Lazarus and Mr. Fournier,

DS-1 19-0604 -- Resolution for Guest Services at City Hall (\$102,500 and extensions through FY23 not to exceed \$417,500):

1. At the May 20 City Council meeting, John Fournier indicated there had been months of planning leading up to the selection of Liberty Security Group. Please elaborate on the discussions about the problems identified and how it was determined that this was the best solution, beyond what is already outlined in Resolution 19-0604? (YouTube video beginning at 2:35 hours, featuring Mr. Fournier at 2:55 hours)
2. Please identify other ways to solve the identified problems (as mentioned by CM Griswold on the YouTube video 2:45 hours).
3. What would be the impact of amending the resolution to include that the authorizations beyond FY19 go back to Council for approval, rather than authorize the City Administrator to extend the contract without approval? Please prepare this amendment for Council consideration.
4. Residents have suggested that this role of "greeter," be fulfilled by local people, as opposed to outsourcing through the Wyandotte firm. Was this option considered, and if so, why was it not selected as a solution? What would be the pros/cons of hiring local people, including current staff members, for this role? One of the benefits would be that local people are likely to be more welcoming than outsourcing this role.

Any other details you could provide about this \$417,500 expenditure would be helpful.

Thanks,  
Anne

Dear Mr. Lazarus,

Would you elaborate on the "non-construction aspects of the SRTS grant" you mention in your email below, and whether the grant money can be directed towards safety improvements?

During "Communications from Council" on June 3, I'd like to give an update on the progress being made toward the safety aspects, including:

- Barton Drive sidewalks (AAPS)
- Barton and Traver intersection
- Additional actions as suggested by staff

Dear Councilmember Bannister:

Thank you for raising the concern below. While the sidewalk project did not receive the necessary support from Council to move forward, there are other safety aspects that we will continue to pursue. There are non-construction aspects of the SRTS grant that I believe will continue. I have also committed to have staff see what can be done at the intersection of Barton Drive and Traver Street, and have spoken to AAPS about repairing the sidewalks along Barton Drive adjacent to the school. I've copied Mr. Hupy, Mr. Hutchinson, and Ms. Allen on this response to seek their advice as to other actions that may be taken as well.

Dear Mr. Lazarus,

I received an email from a resident that there's a lot of misinformation circulating at Northside STEAM this week about "nothing is going to be done" about the safety issues.

Would you reach out to the AAPS and the PTO and let them know City staff's next steps on the project (and copy us, of course)?

I urge you to also focus staff attention on dangerous areas around the school, such as corner of Traver and Barton, and others your team may identify.

Thanks,  
Anne

Thanks Everyone. I look forward to learning more about next steps, especially from City staff, in light of the safety concerns that have been identified.

These two issues are worth repeating:

1. Several neighbors expressed concerns about the intersection of Barton Drive and Traver, and Barton in general, especially during student drop-off and pick-up times.
2. The neighbors near Leaird have requested if they could have their path included in future plans (map attached).

Thanks again,  
Anne

**[External Email Warning]**

**Please note this email originated outside the organization. Use additional caution with links and attachments. Be wary of any outside emails that list a City employee as a sender.**

Thanks for your response Katy. I am sure that Carlene, who put her heart and soul into this project, is relieved to hear that. She was the only commenter to City Council in favor of the project at the last vote. I quoted that one line in your e-mail, that you would work with the City to move forward with the project even if the City votes it down, several times when chatting with City Council members. I am pleased, parents would be pleased, and City Council members would be pleased, to hear that it likely will happen.

I do want to suggest the possibility of one sidewalk for Traver again as an option. I, of course, have made that pitch several times. My estimate for the cost of installing sidewalks on Traver (\$440/foot) was restimated by the City to be \$515 per foot, so the estimated cost is even higher. This should provide an additional reason to consider only one sidewalk. I suspect that an important reason why you insist on having two sidewalks is for ADA reasons - that a disabled person would need to wander in the street to get to the sidewalk on the other side of the street if there was only one sidewalk. Keep in mind that the slope of Traver is steeper than that allowed for an ADA pathway (which is 5%). This could be a reason to waive any ADA argument for requiring two sidewalks. In addition to the expense, Traver has a low density of homes - it is more like a rural road with curbs, although the traffic, while not high, is not low either. Certainly, the design for adding a single sidewalk is completed for Traver.

In the next week or so, we will float some ideas with the City for improving pedestrian safety for Traver since there likely won't be a sidewalk. An MDOT guy lives in our neighborhood and his kids walk to STEAM and he has been following this project, with all the drama, since the beginning. We will likely discuss some of these ideas with him first and maybe get some more ideas before sitting down with the City. Maybe we can work with the City do something less expensive, but somewhat protective, rather than a conventional sidewalk for Traver.

to Colleen, Bryan, [margolis@aaps.k12.mi.us](mailto:margolis@aaps.k12.mi.us), Jane, me

Good Afternoon Lester -

Thank you for reaching out. I wanted to respond to answer your questions below. I have cc'd Jane Allen from the City of Ann Arbor and Liz Margolis from AAPS on the email as well.

First, let me acknowledge the time and energy put in by council members, residents (including yourself), parents, school and city staff prior to and after the grant was issued. It is this type of commitment we find encourage and enable us to continue the program year-to-year.

Any modification must be something that both the city and school(s) agree upon. If a modification were requested, it must still meet the defined scope and the goals of the original planning process. Finally, it must also meet eligibility standards for the program and constructability standards (AASHTO & ADA).

A revision request timeframe is dependent on the context of the request. A simple request for modification could take a few weeks, it could take a few months, or longer. If it requires the entire review process (or if it were something the city were looking at for reapplying) that could take an entire review cycle (4 months or so) or longer.

If the community decided to go through the planning process and re-apply for funding that would not be a grant modification, but would be another application entirely. Which means the community would have to rescind the funding requested and reapply. Because these are federal funds, rescinding a grant may have a negative impact on the municipality if they applied for federal funds in the future.

Finally, when the land use is residential on both sides of the road, we would not accept an application or revision to an application with sidewalk on one side of the road. This applies to the entire length of the of any given sidewalk route being requested. So for example, if it is residential on both sides of the road along a route heading to school and there were three blocks of sidewalk being requested, we would not put in sidewalk along one side for one block and then sidewalk on both sides for the next two blocks. We would expect it to be sidewalk along both sides for that entire route.

**If council/community chooses not to move forward with this project as it stands, we will continue to work with community on the SRTS project to find a solution to continue forward.**

I hope this helps answer your questions. If you have any other questions, please email me back (usually the best way for me to respond as am quite sidelined with meetings this week) and I'll do my best to assist.

Thank you,

Katie

On Tue, May 21, 2019 at 2:54 PM Libby Brooks <[REDACTED]> wrote:

Thanks for the response, Nick.

I'm attaching the first drawing so you can see it in more detail. It only suggests using paint and removable barriers (similar to those used in the crosswalks now) to create a safer pedestrian-student-bike lane, since safety measures have been requested by the parents of the school children.

At the very least, updated paint at the existing crosswalks on the street would be beneficial.

I believe my neighbors have actually requested 2 traffic calming studies on 2 separate occasions. On both accounts, the city said that Traver did not meet criteria.

Just wanted to put ideas out there, as a resident I am willing and eager to help in any way I can to find solutions maximize functionality while meeting the needs of all stakeholders. I am obviously not an expert in civil engineering. I look to the city staff to be creative and innovative in your thinking.

Thank you,  
Libby

Anne,

Yikes! I just looked at the structural evaluation of the chimney, attached with my notes. I think we should ask the engineers for a do-over (no fee from them!), or at least an explanation of their study. The report states that the response of the chimney to wind pressure from the north showed the flexing of the structure with respect to the concrete beam that is between the chimney and the building. The problem is that the diagram shows wind pressure on the chimney from the south, based on the location of the beam. See p. 5.

If wind pressure was to be assessed from the north, the arrow of wind direction would be opposite that shown on the diagram on p. 5.

The flex of the chimney makes sense, but the text of the document and the direction of the wind in the diagram are opposite. I just don't know whether we got the right assessment!!! How will we know? I didn't copy everyone on this, but I will if you want me to.

I am so sorry that I did not notice this earlier!

A second thing: The report recommends repair, by repointing, of the bricks at the top of the chimney, highlighted on p. 6. We (the city) haven't addressed that. I could activate some donation support for the cause, if needed!

Rita

Subject: Chimney Swift Study

Dear Dr. Theisen

I just read with interest articles on the chimney swift issue at 415 W. Washington St. Ann Arbor. [https://www.mlive.com/news/ann-arbor/index.ssf/2018/10/ann\\_arbor\\_to\\_study\\_saving\\_chim.html](https://www.mlive.com/news/ann-arbor/index.ssf/2018/10/ann_arbor_to_study_saving_chim.html) and [https://www.mlive.com/news/ann-arbor/index.ssf/2018/09/group\\_wants\\_to\\_save\\_ann\\_arbor.html](https://www.mlive.com/news/ann-arbor/index.ssf/2018/09/group_wants_to_save_ann_arbor.html) where your name was mentioned.

I am writing to you to appeal for help in gaining access to any guano deposit that may be inside this chimney. My intentions are to continue the research I did for the attached paper; also described on this web page: <http://post.queensu.ca/~pearl/swiftdiet/swiftdiet.html>. This work has important conservation implications for swifts and other aerial insectivores.

Any help pointing me to people that I would need to talk to to get permission to conduct research at this site or other known sites would be much appreciated. I would appreciate any

history of the chimney and its occupation by swifts also.

Thanks very much for your time.

Chris

Denise,

Please add to the beginning of the agenda time for Howard to give an update on the Police Cheif search. He asked for this time today and I don't think anyone would object?

Sorry and thank you!

Thanks, Anne. Could you ask Howard to elaborate on the non-construction aspects of the SRTS grant. Sounds like there is grant \$ to direct towards safety improvements?

Saw Supt. Swift on Friday, and she more/less said that it will be difficult for the City/AAPS to get SRTS' grants in the future. I don't think it's as bad as that, and the City will still be able to compete. -Jane

Dear Councilmember Bannister:

Thank you for raising the concern below. While the sidewalk project did not receive the necessary support from Council to move forward, there are other safety aspects that we will continue to pursue. There are non-construction aspects of the SRTS grant that I believe will continue. I have also committed to have staff see what can be done at the intersection of Barton Drive and Traver Street, and have spoken to AAPS about repairing the sidewalks along Barton Drive adjacent to the school. I've copied Mr. Hupy, Mr. Hutchinson, and Ms. Allen on this response to seek their advice as to other actions that may be taken as well.

Dear Mr. Lazarus,

I received an email from a resident that there's a lot of misinformation circulating at Northside STEAM this week about "nothing is going to be done" about the safety issues.

Would you reach out to the AAPS and the PTO and let them know City staff's next steps on the project (and copy us, of course)?

I urge you to also focus staff attention on dangerous areas around the school, such as corner of Traver and Barton, and others your team may identify.

Thanks,  
Anne

Thanks Everyone. I look forward to learning more about next steps, especially from City staff, in light of the safety concerns that have been identified.

These two issues are worth repeating:

1. Several neighbors expressed concerns about the intersection of Barton Drive and Traver, and Barton in general, especially during student drop-off and pick-up times.
2. The neighbors near Leaird have requested if they could have their path included in future plans (map attached).

Thanks again,

Anne

**[External Email Warning]**

Please note this email originated outside the organization. Use additional caution with links and attachments. Be wary of any outside emails that list a City employee as a sender.

Thanks for your response Katy. I am sure that Carlene, who put her heart and soul into this project, is relieved to hear that. She was the only commenter to City Council in favor of the project at the last vote. I quoted that one line in your e-mail, that you would work with the City to move forward with the project even if the City votes it down, several times when chatting with City Council members. I am pleased, parents would be pleased, and City Council members would be pleased, to hear that it likely will happen.

I do want to suggest the possibility of one sidewalk for Traver again as an option. I, of course, have made that pitch several times. My estimate for the cost of installing sidewalks on Traver (\$440/foot) was restimated by the City to be \$515 per foot, so the estimated cost is even higher. This should provide an additional reason to consider only one sidewalk. I suspect that an important reason why you insist on having two sidewalks is for ADA reasons - that a disabled person would need to wander in the street to get to the sidewalk on the other side of the street if there was only one sidewalk. Keep in mind that the

slope of Traver is steeper than that allowed for an ADA pathway (which is 5%). This could be a reason to waive any ADA argument for requiring two sidewalks. In addition to the expense, Traver has a low density of homes - it is more like a rural road with curbs, although the traffic, while not high, is not low either. Certainly, the design for adding a single sidewalk is completed for Traver.

In the next week or so, we will float some ideas with the City for improving pedestrian safety for Traver since there likely won't be a sidewalk. An MDOT guy lives in our neighborhood and his kids walk to STEAM and he has been following this project, with all the drama, since the beginning. We will likely discuss some of these ideas with him first and maybe get some more ideas before sitting down with the City. Maybe we can work with the City do something less expensive, but somewhat protective, rather than a conventional sidewalk for Traver.

Hey Nick, I want to be sure that we all recall the e-mail that Katie Alexander sent last November - the one which the City has quoted several times that future grants may be in jeopardy if the project fails. In that same e-mail, Katy expressed a willingness to continue to work with the City to fund a SRTS project associated with this school if the first project failed the City Council vote. See the e-mail below.

I copied Katie on this e-mail to allow her to weigh in on this.

to Colleen, Bryan, [margolis@aaps.k12.mi.us](mailto:margolis@aaps.k12.mi.us), Jane, me

Good Afternoon Lester -

Thank you for reaching out. I wanted to respond to answer your questions below. I have cc'd Jane Allen from the City of Ann Arbor and Liz Margolis from AAPS on the email as well.

First, let me acknowledge the time and energy put in by council members, residents (including yourself), parents, school and city staff prior to and after the grant was issued. It is this type of commitment we find encourage and enable us to continue the program year-to-year.

Any modification must be something that both the city and school(s) agree upon. If a modification were requested, it must still meet the defined scope and the goals of the original planning process. Finally, it must also meet eligibility standards for the program and constructability standards (AASHTO & ADA).

A revision request timeframe is dependent on the context of the request. A simple request for modification could take a few weeks, it could take a few months, or longer. If it requires the entire review process (or if it were something the city were looking at for reapplying) that could take an entire review cycle (4 months or so) or longer.

If the community decided to go through the planning process and re-apply for funding that would not be a grant modification, but would be another application entirely. Which means the community would have to rescind the funding requested and reapply. Because these are federal funds, rescinding a grant may have a negative impact on the municipality if they applied for federal funds in the future.

Finally, when the land use is residential on both sides of the road, we would not accept an application or revision to an application with sidewalk on one side of the road. This applies to the entire length of the of any given sidewalk route being requested. So for example, if it is residential on both sides of the road along a route heading to school and there were three blocks of sidewalk being requested, we would not put in sidewalk along one side for one block and then sidewalk on both sides for the next two blocks. We would expect it to be sidewalk along both sides for that entire route.

**If council/community chooses not to move forward with this project as it stands, we will continue to work with community on the SRTS project to find a solution to continue forward.**

I hope this helps answer your questions. If you have any other questions, please email me back (usually the best way for me to respond as am quite sidelined with meetings this week) and I'll do my best to assist.

Thank you,

Katie

On Tue, May 21, 2019 at 2:54 PM Libby Brooks <[REDACTED]> wrote:

Thanks for the response, Nick.

I'm attaching the first drawing so you can see it in more detail. It only suggests using paint and removable barriers (similar to those used in the crosswalks now) to create a safer pedestrian-student-bike lane, since safety measures have been requested by the parents of the school children.

At the very least, updated paint at the existing crosswalks on the street would be beneficial.

I believe my neighbors have actually requested 2 traffic calming studies on 2 separate occasions. On both accounts, the city said that Traver did not meet criteria.

Just wanted to put ideas out there, as a resident I am willing and eager to help in any way I can to find solutions maximize functionality while meeting the needs of all stakeholders. I am obviously not an expert in civil engineering. I look to the city staff to be creative and innovative in your thinking.

Thank you,  
Libby

**Subject:** Re: Traver St Safety measures

Hey Nick, I want to be sure that we all recall the e-mail that Katie Alexander sent last November - the one which the City has quoted several times that future grants may be in jeopardy if the project fails. In that same e-mail, Katy expressed a willingness to continue to work with the City to fund a SRTS project associated with this school if the first project failed the City Council vote. See the e-mail below.

I copied Katie on this e-mail to allow her to weigh in on this.

Lester

to Colleen, Bryan, [margolis@aaps.k12.mi.us](mailto:margolis@aaps.k12.mi.us), Jane, me

Good Afternoon Lester –

Thank you for reaching out. I wanted to respond to answer your questions below. I have cc'd Jane Allen from the City of Ann Arbor and Liz Margolis from AAPS on the email as well.

First, let me acknowledge the time and energy put in by council members, residents (including yourself), parents, school and city staff prior to and after the grant was issued. It is this type of commitment we find encourage and enable us to continue the program year-to-year.

Any modification must be something that both the city and school(s) agree upon. If a modification were requested, it must still meet the defined scope and the goals of the original planning process. Finally, it must also meet eligibility standards for the program and constructability standards (AASHTO & ADA).

A revision request timeframe is dependent on the context of the request. A simple request for modification could take a few weeks, it could take a few months, or longer. If it requires the entire review process (or if it were something the city were looking at for reapplying) that could take an entire review cycle (4 months or so) or longer.

If the community decided to go through the planning process and re-apply for funding that would not be a grant modification, but would be another application entirely. Which means the community would have to rescind the funding requested and reapply. Because these are federal funds, rescinding a grant may have a negative impact on the municipality if they applied for federal funds in the future.

Finally, when the land use is residential on both sides of the road, we would not accept an application or revision to an application with sidewalk on one side of the road. This applies to the entire length of the of any given sidewalk route being requested. So for example, if it is residential on both sides of the road along a route heading to school and there were three blocks of sidewalk being requested, we would not put in sidewalk along one side for one block and then sidewalk on both sides for the next two blocks. We would expect it to be sidewalk along both sides for that entire route.

**If council/community chooses not to move forward with this project as it stands, we will continue to work with community on the SRTS project to find a solution to continue forward.**

I hope this helps answer your questions. If you have any other questions, please email me back (usually the best way for me to respond as am quite sidelined with meetings this week) and I'll do my best to assist.

Thank you,

Katie

Thanks for the response, Nick.

I'm attaching the first drawing so you can see it in more detail. It only suggests using paint and removable barriers (similar to those used in the crosswalks now) to create a safer pedestrian-student-bike lane, since safety measures have been requested by the parents of the school children.

At the very least, updated paint at the existing crosswalks on the street would be beneficial.

I believe my neighbors have actually requested 2 traffic calming studies on 2 separate occasions. On both accounts, the city said that Traver did not meet criteria.

Just wanted to put ideas out there, as a resident I am willing and eager to help in any way I can to find solutions maximize functionality while meeting the needs of all stakeholders. I am obviously not an expert in civil engineering. I look to the city staff to be creative and innovative in your thinking.

Thank you,  
Libby

Libby,

Thank you for your e-mail and your ideas. I have a few quick thoughts that I can share with you on each of the three ideas that you mention below.

1. This is something that our engineers would need to evaluate in more detail to see if it would be an appropriate fit for this location. One thing I would note (and I'm sorry if it shows this in more detail the sketch – I can't really make out any details in the picture) is that constructing such a facility would likely still require the removal of parking from the street in order to provide sufficient width. Offhand, I am also not sure whether or not this concept would trigger a special assessment.
2. This concept has been brought to us before, and we do not feel this provides sufficient safety. Therefore City staff would not support this.
3. The City has a Traffic Calming Program, though which such measures can be implemented. Click [HERE](#) for more details. This program is resident-initiated, so if residents along Traver are interested in pursuing it, the steps outlined on the website should be followed.

**Subject:** A2 STEAM Sidewalk Vote

Dear Councilmember Nelson,

As one of your constituents and the Executive Director of Student & School Safety for the Ann Arbor Public Schools I am writing to you "wearing both of these hat" in regard to your vote last week on the sidewalks for A2 STEAM.

I have taken this week to review how this vote occurred and as we work to any potential next steps I have to share my frustration and disappointment with not only your vote but with the council members lack of understanding at what this project meant to the A2 STEAM neighborhood and the school.

I read your post on this vote and have a few comments to share with you. See my responses to your post below in **red**:

EN: I am familiar with the area of Northside STEAM because I'm one of the families that has contributed to the traffic challenges there. My son takes a bus in the morning, but I often pick him up in the afternoon. I also worked there for a year and biked to the school on weekends when I needed to catch up in my classroom.

LM: I appreciate the fact that you are a parent of this school and a former staff member but these facts and your vote frustrate me even more. I believe you allowed a small group of residents to undermine the safety of not only the neighborhood residents who currently do and want to be able to safely walk along this major street but of the students who could use this avenue to get to and from school. This vote goes against all pedestrian safety best practices and frankly against the goal in this city to create safe and walkable passage. For the residents to claim no students walk this route was frankly unnerving because without sidewalks this is not a safe walking or biking route for student or anyone. I will never forget a conversation I had with a new resident to this area after one of our public meetings on this project. He arrived from Sweden and is employed at the U of M and he shared with me that he could not believe the home he recently purchased did not allow him a safe walking route to work and that sidewalks were missing from this portion of Traver. He does not have children but was hoping to be able to safely walk to his work on North Campus and now had to add 20-30 minutes to his commute to take a safe route to work.

EN: The conditions described by the residents on Traver are real - it's a very steep hill, it's a much less appealing way to approach that school (due to the hill, not lack of sidewalks), and it would be a nightmare as a drop off location for parents in cars. It gives me pause that this

proposal went through a serious process via school committee, but even its proponents acknowledged shortcomings with that process, stakeholders they hadn't included.

LM: When A2 STEAM embarked on this grant professional engineers were engaged from not only the City of Ann Arbor but from Michigan State University to assess best practice outcomes and where deficiencies existed. You acknowledged the hard work of this team but disregard their recommendations. I was not working with the district when this plan was initiated and we realized quickly over a year and a half ago that the neighbors needed to be engaged. To continue with the thread that stakeholders were not engaged is initially correct. But we corrected that over a year and a half ago and have since held numerous meetings at A2 STEAM and at city hall and have held many email conversations with the residents. The city went through at least three redesigns of the plan based on resident input. I have been working very closely with city staff on this plan and many other improvements across Ann Arbor and we have a process in place. But the continued cry of not being engaged from the beginning as the reason to not proceed with these needed safety improvements began to sound hollow after so much work was done to accommodate the resident's suggestions.

EN: If I believed that the impacted residents were simply arguing against an expense, I would not have voted against this. If I thought they were just arguing against losing parking spots, I would not have voted against this. What pushed me over the top was concerns that the plan about to be implemented was not appropriate for the problem they were trying to solve. The school district - in efforts that, I'm told, stretched over years - failed to properly engage the community whose needs they were theoretically aiming to serve.

LM: This is where we disagree. I have been part of these meetings with the residents for over a year and a half. This is about the assessment fee. Many residents even stated that if the city would not charge the assessment they would be more likely to support this project. Additionally the other complaints included the inability to park on the street during winter months when they have to enter their steep driveways and the continued statement that only two A2 STEAM students currently live on this street.

EN: I believe in sidewalks. I absolutely grasp the value of them, for many many reasons (pedestrians, little kids on tricycles, so many good things). This was not a simple or straightforward decision for me, but I thought about how the different areas of our city function differently. E.g. The city has a map of sidewalk gaps, prioritized for completion based on who wants them and how they would be used. On the city's map there are big areas, neighborhoods with no sidewalks, where even the city acknowledges that no one wants them, the city isn't eager to build them. The people who live on Traver and walk their own children to school are in the best position to know how new sidewalks would be used.

LM: Allowing a small group of residents to determine what is best for their neighborhood is frankly self-serving and a dangerous precedent to follow. Will this type of consideration hold true if me and my neighbors on my block decide as a group to not fix our sidewalks creating dangerous safety concerns for walkers? This was a vote in support of opinions held by a few and not for the greater good.

EN: It is unfortunate that people invested so much time in formulating a plan that did not include enough resident input. It is unfortunate that grant money has been lost. I don't feel good about those things, but I felt a responsibility to consider this issue in terms of the specific area. I supported these sidewalks when they were first introduced to City Council, even as residents complained. As this issue dragged on for so many weeks and months, it became clear

to me that the trajectory of efforts weren't moving in a positive direction.

LM: This resolution was extended by your own fellow council members as they delayed and delayed the vote. After many hours of meetings there was no compromise from the residents except for no sidewalks or only one side of sidewalk, not allowed by the grant.

EN: I believe there is still opportunity for a better safety solution. E.g. I hope the city can help residents get a stoplight at Barton/Traver, speed bumps on Traver, sidewalks built on the nearby streets that are more regularly used by neighborhood kids.

LM: We will be meeting with the state and the city in early June but I cannot stress enough that we have lost this part of the grant funds and those will likely not ever be seen again. And while there were arguments as to how this vote impacts future SRTS and TAP funds, I have emails from the Michigan Fitness staff that this will likely have a negative impact. This is new territory for them as they have never had grant funds returned. I am not proud of that fact.

To continue, I believe I was the person you reference in the end of your statement. Yes, we did discuss the Huron crosswalk options but I remember our conversation differently, At that time your response was that this was not in your ward so you were taking advice from council members who represent this ward. I was stunned by this response. I believe it is the responsibility of every council member to educate themselves to the facts via city staff expertise, community input and, of course, your fellow council members.

Additionally your statement that you hope AAPS and the City will work together in the future is absent to what is truly happening between the district and city staff. We have an excellent working relationship. We consult almost daily with the traffic engineering staff and law enforcement. I work daily with law enforcement on safety concerns around our schools including the crossing guard assignments. I work on recommendations for improvements to crossing and signage with city staff and include them in our school safety assessments in terms of drop offs and pick ups which tend to impact traffic around many of our schools.

I am also very discouraged to read your assessment of your recent conversation with the AAPS staff member. This person is dedicated to student safety and our jobs, as district staff, is to advocate for every student in the district and foremost for student safety. To characterize your conversation with her as threatening is disingenuous. If as a city council member you are uncomfortable with public conversations you may need to rethink your public position. As an AAPS staff member I too have had many grocery store and public conversations with community members, not all positive. But I understand my role representing the district and appreciate the feedback and suggestions.

I am hoping to come to your June 2 meeting at Roos Roast so we can continue this conversation.

Being a lifelong resident of Ann Arbor and a 25 year resident of the ward you and Jack Eaton represent, I have to end this email with my total disappointment in what I witnessed at the last city council meeting beyond this "no" vote. The behavior and disrespect between council members went beyond political divides. It was mean spirited and destructive to this community. I hope as a resident that city council will learn to lead on behalf of the city and not for the goal of overturning the current policies initiated by Mayor Taylor. The insults and accusations aimed at city staff and the city manager are reprehensible and I can only see these attacks as political and mean spirited. I do hope every council member will reconsider this

approach and adjust their behavior for the betterment of our city.

I look forward to continue this conversation.

Best regards,

Liz Margolis

Executive Director, Student & School Safety, AAPS

**Please note this email originated outside the organization. Use additional caution with links and attachments. Be wary of any outside emails that list a City employee as a sender.**

Greetings, HHSAB members!

I wanted to share the Washtenaw Housing Alliance's Community Housing Locator job description with you all (attached). This was mentioned at our last HHSAB meeting when we discussed landlord recruitment and retention efforts, and the 3-prong (previously 4-prong ☺) approach that OCED, WHA, and AAHC staff members have been working on to increase the number of landlords that are taking housing choice vouchers in our community.

Please let me know if you have any questions or know of anyone who is interested in applying. We previously did a round of interviews but didn't find the right candidate and will post it again soon.

Thanks!  
Amanda

Amanda Carlisle  
Executive Director  
Washtenaw Housing Alliance (WHA)

## **Community Housing Locator for Washtenaw County Homeless Agencies**

<b><u>Title:</u></b> Community Housing Locator	<b><u>Reports to:</u></b> Executive Director
<b><u>Hours:</u></b> Part-time, 20-25 hours per week	<b><u>Effective Date:</u></b> October, 2018

### **I. OVERVIEW**

The Community Housing Locator, a new position, will work with Washtenaw Housing Alliance member-agencies to increase housing options for people experiencing homelessness through constructive, supportive relationships with landlords, and facilitate rapid placement into permanent housing for individuals and families experiencing homelessness in Washtenaw County. The centralization of housing location services has been hailed as a best practice model in homeless services, championed by the U.S. Department of Urban Development (HUD) and the National Alliance to End Homelessness (NAEH), and implemented by various communities nationwide. Housing location has become an increasingly important aspect of every community's homeless response system, with:

- The decrease in resources for traditional public housing and other affordable housing development;
- The increase in rental subsidy programs and resources that rely on existing private market rental units to house recipients; and,
- The national push to implement best practices in homeless system strategies, that reduce emergency shelter stays and re-house homeless households as quickly as possible.

### **II. PURPOSE**

Rapid Re-Housing (RRH), Permanent Supportive Housing (PSH), and Housing Choice Vouchers (HCVs) are housing programs targeted to homeless households that require tenants to rent units in the private market, with landlords and property management companies. The purpose of this position is to engage landlords as effective partners to preserve and expand quality permanent housing options for people experiencing homelessness, and work with existing homeless service agencies to create a comprehensive landlord engagement and partnership strategy.

### **III. RESPONSIBILITIES**

- A. Lead landlord recruitment efforts, building a reliable pipeline of housing options through sustainable, mutually beneficial relationships;
- B. Work with the Washtenaw Housing Alliance's Housing Coordinators Network to support effective landlord engagement strategies and to update and maintain a housing inventory database;
- C. Develop mutually beneficial agreements with landlords that support securing a reliable and sufficient volume of rental units below Fair Market Rents (FMR), prevent loss of housing for tenants, and minimize risks to units for landlords, using multiple and creative strategies, e.g
  - a. Master-lease agreements

- b. Inclusion of utilities in contracts
  - c. Effective use of risk mitigation agreements and funds
  - d. Flexible screening criteria for people experiencing homelessness and that have barriers that prevent the household from securing housing using common screening criteria
- D. Develop and maintain working relationships with property management companies, government officials, realtors, developers, builders, nonprofits, landlords, professional associations, and other interested stakeholders;
  - E. Conduct educational workshops to support property owners and other community stakeholders on a variety of topics, including on a variety of programs benefits and opportunities to increase awareness of programs that provide affordable permanent and/or supportive housing;
  - F. Work to develop a landlord champion for ending homelessness in the community;
  - G. Serve as a resource for landlords and other community stakeholders concerning many aspects of landlord and tenant relations, including familiarity with landlord/tenant rights;
  - H. Work on maintaining positive experiences for landlords willing to work with homeless service providers by troubleshooting issues as they arise;
  - I. Be responsible for creating print and social media material that can be used by all Washtenaw County agencies that currently provide housing location services; and,
  - J. Perform other duties as required by the position.

This position requires travel in one's own car and will have occasional night or weekend commitments.

#### **IV. QUALIFICATIONS**

The ideal candidate will have:

- A. At least 3 years broad-based experience in relationship development, community development, housing programs, property management, real estate, real estate development;
- B. Bachelor's degree with a major in business, communications, public administration, business management or other related field (Master's preferred);
- C. Excellent verbal and written communication skills;
- D. Effective public speaker and able to deliver presentations regarding various programs to community groups and other interested parties;
- E. Strong personal commitment to prevent and end homelessness;
- F. Knowledge of and adherence to "Housing First" principles and strategies;
- G. Familiarity with government housing programs on federal, state, and local levels. Specifically, HUD, HOME, CoC, ESG, and other Homeless Assistance Programs;
- H. Knowledge of the rental market and the needs and interests of landlords and property management firms;
- I. Ability to work independently, with initiative and resourcefulness;
- J. Ability to work collaboratively with diverse stakeholder groups;
- K. Demonstrated capacity to exercise discretion and sound judgment in general matters and in handling confidential information.

## **V. COMPENSATION AND BENEFITS**

- Compensation will be competitive, based on experience and qualifications.  
Salary [including benefits]: \$30,000-\$35,000/ a year (for 20-25 hours)

## **ABOUT THE WASHTENAW HOUSING ALLIANCE**

The Washtenaw Housing Alliance is a unique coalition of over 30 non-profit and government entities that are committed to ending homelessness in our community. The WHA facilitates, encourages, and monitors this work by providing training and technical assistance to providers to support innovation and best practices, advocating for the needs of people experiencing homelessness or at-risk of homelessness, and supporting the development of more permanently affordable housing.

Please submit your cover letter and resume to Heather Nash at [nashh@washtenaw.org](mailto:nashh@washtenaw.org)  
The deadline for applications is September 21, 2018.

Council Members,

Please respond by Friday May 31.

As required by state statute, the Local Officers Compensation Commission is meeting this year to make its biennial recommendation of compensation for the City's elected officials. They have asked me as staff liaison to gather information from Council members regarding time spent on their Council duties. Please answer the following question as soon as you can, and preferably no later than Friday May 31:

**Approximately how many hours per month do you spend on your job as a City Council member? This would include meetings, committee assignments, constituent meetings/inquiries/communications, and all other Council duties. Please do not include campaign-related activities.**

Contact me if you have any questions. All Council members have been bcc'ed on this email.

**Subject:** RE: Uncivil Discourse

Dear Councilmember Lumm,

Thanks, Jane. I look forward to seeing your email condemning Pat’s constant lack of civility. And, I apologize for my poor communication skills. No sarcasm was intended. I use the *sarcasm font* for that. I was merely pointing out your hypocrisy.” If there is a preferred font for hypocrisy, please let me know for future reference.

Is she not your boss? She has on multiple occasions asserted on social media that she is the leader of your political group, and given the well-known fact that you “find uncivil discourse unacceptable,” I just assumed you would have set the record straight previously had it, in fact, been incorrect. For your convenience, I’ve attached a recent example of her claims in which she also adds that the (corporate) Mayor is arrogant and divisive and that the people he appoints to boards and commissions are crazy, entitled white people.

I have no attack dogs to call off. But, if you send me an example of a personal attack that I (or someone I know) have made that you’d like me to correct or apologize for, I will immediately address it.

Thanks. Have a happy holiday weekend.

Ned

Hi Jane-

I just wanted to make sure you saw this message that your boss posted publicly where she called a local businessman a "sexist piece of garbage" and told him to go "back to the cave and beat your wife for a while," because he criticizes your political actions.

I'm sure you will be sending an email around condemning this and calling for civility shortly.

Thanks for your attention.

FOIA is an excellent addition to our agenda!

This is a comment that I received from a resident:

I would like to understand both the rights and limits of FOIA requests. It doesn't make sense to me that the names and contact info of cc's {residents copied on emails} in regards to communications with council people are be purchased for a price. What about my right of privacy in regards to communication with my council rep? This just like such a waste of time for all involved.

CM Bannister,

Last fall we did not come to an agreement on allowing testing to occur on the bird droppings at this location. There was some concern about safety and granting of access to the site, and so we did not proceed. However, I have reengaged the conversation with staff and we will attempt to resolve these issues once again.

Thanks,  
John

Dear Dr. Theisen

I just read with interest articles on the chimney swift issue at 415 W. Washington St. Ann

Arbor. [https://www.mlive.com/news/ann-](https://www.mlive.com/news/ann-arbor/index.ssf/2018/10/ann_arbor_to_study_saving_chim.html)

[arbor/index.ssf/2018/10/ann\\_arbor\\_to\\_study\\_saving\\_chim.html](https://www.mlive.com/news/ann-arbor/index.ssf/2018/10/ann_arbor_to_study_saving_chim.html) and [https://www.mlive.com/news/ann-](https://www.mlive.com/news/ann-arbor/index.ssf/2018/09/group_wants_to_save_ann_arbor.html)  
[arbor/index.ssf/2018/09/group\\_wants\\_to\\_save\\_ann\\_arbor.html](https://www.mlive.com/news/ann-arbor/index.ssf/2018/09/group_wants_to_save_ann_arbor.html) where your name was

mentioned.

I am writing to you to appeal for help in gaining access to any guano deposit that may be inside this chimney. My intentions are to continue the research I did for the attached paper; also described on this web page: <http://post.queensu.ca/~pearl/swiftdiet/swiftdiet.html>. This work has important conservation implications for swifts and other aerial insectivores.

Any help pointing me to people that I would need to talk to to get permission to conduct research at this site or other known sites would be much appreciated. I would appreciate any history of the chimney and its occupation by swifts also.

Thanks very much for your time.

Sounds good. When would be the due date for the Senior Center in Burns Park? That location seems ideal if there aren't any deed restrictions. I'm worried about building too close to the railroad at the other locations.

Regarding the Ann Arbor Community Center at 625 N Main, it may appear that it's not city owned, but many people who remember the AACCC in the 20th century remember that it was given to Ann Arbor in perpetuity, and the paperwork has disappeared since the 1950's. If you and your team come across any info related to AACCC, please let me know.

Thanks,  
Anne

**Subject:** RE: Senior Center for affordable housing

Hello Anne, Sorry it took so long to get back to you. Your email got buried and I just saw it.

There were deadlines from the previous resolutions that are incorporated into the April 1<sup>st</sup> resolution through a resolved clause.

R-19-110 (721 N. Main) has an August 1 deadline  
R-19-111 (2000 S. Industrial) has a September 1 deadline  
R-19-116 (1510 E. Stadium) has a September 30 deadline

Our thought is to give Council updates of the above properties by these deadlines and then do a working session for all the properties after the Sept 30<sup>th</sup> deadline so that they can be discussed as a group.

Each property is unique and if we look at them together then it will be easier to prioritize them for development. Or, you may decide to sell a property to fund other properties. And if we look at them together, we won't be tempted to try to solve every problem with 1 property, we can be more

thoughtful about the best use for each property.

I believe Howard will be bringing this proposal back to council for a work session in November or thereabouts.

I don't believe the Community Center on Main Street is a city-owned property. If it is, we can find out if there are any city deed restrictions.

Take care,

*Jennifer Hall*

**Subject:** RE: Senior Center for affordable housing

Hello all, that is not a problem to add this property to the list. We can add as many properties as you would like. We are including a review of any deed restrictions in our analysis. There are often use restrictions on parks properties but if this one does not have a use restriction prohibiting residential use, we will complete an analysis like the other properties.

Take care,

**Subject:** RE: Senior Center for affordable housing

Councilmember Bannister:

The resolution Council adopted at its April 1<sup>st</sup> meeting included the following properties: Y-Lot (350 S. Fifth Avenue), Kline Lot (309/335/337 S. Ashley Street and 216 W. William Street, and 104/116/120 William Street), 415 W. Washington Street, 404/406 N Ashley Street, 4th Ave. and Catherine surface parking lot (the Kerrytown parking lot at the northwest corner of 4th Ave. and Catherine), 3400 Block of Platt (3432/3340 Platt Road and 3435/2442 Springbrook Avenue), 721 N. Main, 2000 S. Industrial, and 1510 E. Stadium. Upon discussion with the County Administrator, we are also looking at adding the County-owned properties at Ann & Main, 4<sup>th</sup> and Catherine (across from the City-owned property), and the County Annex Building (4<sup>th</sup> Ave). With your request, we can also add the Ann Arbor Senior Center in Burns Park.

Please let me know if you have any questions or concerns.

**Howard S. Lazarus**

City Administrator

City of Ann Arbor

**Subject:** RE: Senior Center for affordable housing

Okay, I'll take your advice and not do a resolution at this time.

Please confirm whether this is the complete list of city owned properties that are being studied for affordable housing development options for the September 30 deadline:

1. 1510 East Stadium (fire station)
2. 1320 Baldwin Ave (Ann Arbor Senior Center in Burns Park)
3. 721 North Main
4. 2000 S. Industrial
5. 350 S. Fifth (Y-lot) -- this one may be on a separate schedule

Thanks,

Anne

Dear Councilmember Bannister:

I will ask Ms. Hall to add the Senior Center for review along with the other sites, including those the County has offered, so a resolution is not necessary to spur action. It is really up to you if you would like to have a resolution passed to augment the public record on this matter.

Wow! This is serious. Mr Delacourt, will you arrange for this to stop immediately? How can I help? Do we need to ask AAPD to supervise?

What specific rules are they breaking and is there a penalty for recurring violation etc?

Thanks!

Funny to be getting all these messages on another day when they closed the sidewalk! This time, whatever they were doing entailed closing a lane of traffic as well. Which means that my idea of closing a lane of traffic for pedestrians would not work! Where should we walk then with no sidewalk on the other side of the street?

Laura

To: Anne Bannister <[REDACTED]>

Dear Anne,

Last week the builders were doing something on the corner of Nielsen Ct and Maiden Lane, so they closed the entire sidewalk on the Maiden Lane side of the development. You might remember that there is no sidewalk on the other side of the street, which made that busy area, usually well-used by pedestrians, a big problem, a potential danger, since walking in the street is too risky. I had pressed the developers at the beginning of this process with the need to keep that sidewalk open, and I want to make sure that this doesn't happen again.

**Subject:** INVITATION: Joint County Working Session Regarding Gelman Plume, facilitated by Rep. Dingell

**[External Email Warning]**

**Please note this email originated outside the organization. Use additional caution with links and attachments. Be wary of any outside emails that list a City employee as a sender.**

Dear Gelman Stakeholders and elected officials,  
On behalf of the Washtenaw County Board of Commissioners, we invite you to join us for a Joint Working Session of the Washtenaw County Board of Commissioners to discuss the Gelman Dioxane Plume. This will be a joint meeting with members of the Ann Arbor City Council, Scio Township Board of Trustees and the Ann Arbor Charter Township Board of Trustees on Thursday, June 6<sup>th</sup> at 6:30pm. The meeting will be convened by the County as an official publicly-noticed working session and facilitated by Congresswoman Debbie Dingell.

**This meeting will have three primary goals:**

1. **Bring everyone to the table and provide the opportunity for public awareness and input as we move toward taking action.** Working with Congresswoman Dingell, we are convening all elected officials, Gelman lawsuit interveners, and other stakeholders for a public discussion of next steps regarding the Gelman Dioxane Plume. We have had conversations with small groups from our elected bodies and stakeholders but have not invited all members to be at the table at the same time. A joint discussion of the decision-makers will demonstrate that we are more unified than ever, as a community, in tackling this issue.

2. **Publicly discuss and explore a collective call for Superfund Designation on a particular timeline.** Attorney General Nessel and Governor Whitmer need a unified message from our community on what we want regarding next steps if they are going to be helpful to us. This meeting is meant to move us toward that goal. While several jurisdictions have requested Superfund Designation in the past, we hope to discuss a current path forward together, focused on whether we pursue Superfund Designation through a joint letter to the Governor to call on her to request designation, and on what timeline.
3. **Establish Gelman lawsuit legal strategy.** *We will likely* adjourn to closed session. Note: We plan to have a closed session with the full boards of the interveners invited to be in the room, but there is a smaller group of interveners meeting with attorneys to discuss the lawsuit prior to this meeting, so we may amend this plan pending results of the earlier meeting. (Unfortunately, only the lawsuit interveners will be able to participate in this portion.)

**Details:**

- **Title: A Joint Working Session of the Washtenaw County Board of Commissioners, the Ann Arbor City Council, the Ann Arbor Charter Township Board of Trustees, and the Scio Township Board of Trustees to Discuss Dioxane Plume**
  - The full boards/trustees and mayor/supervisor from these bodies are invited to be seated on the dais along with commissioners, with staff only as necessary.
  - We will coordinate procedural matters, such as roll call, and how to enter into closed session, with the other bodies prior to the meeting
- **Date/Time: Thursday, June 6th at 6:30 PM.**
- **Location: MI-HQ, Michigan Innovation Headquarters & 242 Community Church, 648 S. Wagner Rd, Ann Arbor, MI 48103. (This is located on the site previously operated by Gelman Sciences.)**
- **Additional Invitations: These individuals are invited to attend, but would not be listed in the meeting title, and would not be seated on stage during the public meeting**
  - Michigan Elected Officials: Reps. Lasinski, Rabhi, Warren, Peterson, Sens. Irwin and Theis
  - Community Groups: Huron River Watershed Council, CARD, Huron Valley Sierra Club
  - County Representatives: Water Resources Commissioner Evan Pratt, Public Health Officer Ellen Rabinowitz, Environmental Health Director Kristen Schweighoefer
- **Agenda: based on a standard Board of Commissioners Working Session Agenda, inclusive of public comment**
  - Roll Call
  - Public Comment – comments limited to 3 min each
  - Response

- Presentations - actual presentations and format TBD
- Discussion - facilitated by Representative Dingell
- Motion to go into closed session (likely)
- Adjourn

**Three Final Notes:**

1. Given that this is a public meeting and the full Council/Trustees from three municipalities are invited, we have asked that they determine whether a quorum of their body will be attending and work with their attorney to determine if they should post an official meeting notice to ensure compliance with the open meetings act.
2. We know you've had a significant amount of discussion of this issue over the years and more recently. However, in holding this meeting, we hope this public discussion will help all of our entities to chart a path forward, together with a very intentional goal of getting to a unified strategy.
3. This is a public meeting and you are welcome to invite anyone to attend. The auditorium holds 600 people, so we have plenty of space.

Please RSVP to Andrew DeLeeuw at [deleeuwa@washtenaw.org](mailto:deleeuwa@washtenaw.org), and feel free to call or email me directly with directly with any questions or concerns at (989) 751-6287 or [morganj@washtenaw.org](mailto:morganj@washtenaw.org).

Sincerely,

Jason Morgan  
Chair, Washtenaw County Board of Commissioners  
989-751-6287

Dear Anne, Elizabeth, and Kathy,

I want to thank you all for your very helpful and supportive input last night when we were discussing adding two sworn officers.

Elizabeth, your anecdotal story from your ride-along provided a meaningful first-hand appreciation for what it's like for our officers who don't have the luxury of time to be proactive, and, e.g., do a welfare check on someone they might know is in an unsafe environment because they're running from call to call. That was much more powerful than a statistic. Anne, your observation about having officers to proactively investigate domestic violence, criminal sexual conduct, etc. kinds of cases was very meaningful. This am. I randomly looked up other police depts. and am seeing in places, not unlike AA (Cambridge, MA, etc.) that Police Dept's. have Domestic Violence Units, Sexual Assault Units, etc. Years ago we had a drink driving unit -- no more, and of course we still have drunk drivers. This was pointed out to me by a former DC back in 2011 who said, when I asked if a drunk driving unit was necessary, Jane, do you think we still have drunk drivers?

Kathy, your very helpfully chiming in to remind us that this IS also about having the officers to provide traffic enforcement around schools was huge -- w/3 officers assigned to traffic enforcement, this has not been and is not possible.

In the past, John Hiefje, Chris Taylor, et. al. would always use the argument that major crime is down to justify not adding officers. Well, and you obviously get it, it's so much more than murders and rape stats -- it's being able to provide traffic enforcement in/around schools and in the neighborhoods (requests we all receive), having some beat

cops downtown, doing some pro-active/community engagement kind of policing so an officer has time to check on someone who may need help.

So, thank you all so very much for helping to advocate in a very thoughtful, knowledgeable and meaningful way to explain why AA needs a police dept. that can answer these many kinds of requests for service that we know the officers field.

Can not tell you enough what it felt like to finally be able to address some essential community needs last night -- elections do have consequences, for which I am most grateful. :-)

Thank you all, so very much! Jane

Hi all,

Thank you so much for your work and update. I look forward to hearing more when DTE is able to connect with our constituent.

To be clear, when we say "no buzzing was heard," is that with a naked ear or with a noise meter?

Best,  
Zach

**Subject:** [EXTERNAL] RE: High-Pitched Buzz in Neighborhood

Good morning, Councilmember Ackerman:

Molly Luempert – Coy, Regional Manager at DTE, contacted our office today and provided the following update and confirmed that DTE is continuing to work with the customer to investigate the reported high-pitched buzz. A DTE representative visited the site yesterday and confirmed that there is a quiet buzzing at the transformer and that it is working correctly, however the house is located 100 ft. from the transformer and no buzzing was heard outside the house. The customer was not available to meet with DTE yesterday, however DTE is scheduled to meet with her next week because the report is that there is a buzzing in the basement which will be investigated by the DTE supervisor and quality technician. DTE also checked with neighboring customers who reported that they do not hear buzzing. If we receive more information, we will be happy to update you.

Thank you,

**Subject:** High-Pitched Buzz in Neighborhood

Hi Howard,

I am hoping you can point me in the right direction. I met with a constituent this morning who reports a high-pitched electric or mechanical buzz in her neighborhood. She has verified via Nextdoor that others can hear the same. She lives on Anderson near Pattengill School, but residents as far as Georgetown have heard it (hence the copy to Ward 4 colleagues). Apparently, the buzz has been continuous for about eight weeks. I went to her house (and live in the neighborhood), but could not hear it myself. I asked her to follow up with neighbors to identify the precise time it began and the geographic extent.

Our first thought was a DTE/utility issue. Based on some preliminary research, it seems possible the buzz could be caused by 60 Hz line frequency.

This is a first for me, so I was not sure where to begin. But, for those effected, it is a serious quality of life issue.

Please advise.

Best,  
Zach

Dear Anne, Elizabeth, and Kathy,

I want to thank you all for your very helpful and supportive input last night when we were discussing adding two sworn officers.

Elizabeth, your anecdotal story from your ride-along provided a meaningful first-hand appreciation for what it's like for our officers who don't have the luxury of time to be proactive, and, e.g., do a welfare check on someone they might know is in an unsafe environment because they're running from call to call. That was much more powerful than a statistic. Anne, your observation about having officers to proactively investigate domestic violence, criminal sexual conduct, etc. kinds of cases was very meaningful. This am. I randomly looked up other police depts. and am seeing in places, not unlike AA (Cambridge, MA, etc.) that Police Dept's. have Domestic Violence Units, Sexual Assault Units, etc. Years ago we had a drink driving unit -- no more, and of course we still have drunk drivers. This was pointed out to me by a former DC back in 2011 who said, when I asked if a drunk driving unit was necessary, Jane, do you think we still have drunk drivers?

Kathy, your very helpfully chiming in to remind us that this IS also about having the officers to provide traffic enforcement around schools was huge -- w/3 officers assigned to traffic enforcement, this has not been and is not possible.

In the past, John Hiefje, Chris Taylor, et. al. would always use the argument that major crime is down to justify not adding officers. Well, and you obviously get it, it's so much more than murders and rape stats -- it's being able to provide traffic enforcement in/around schools and in the neighborhoods (requests we all receive), having some beat cops downtown, doing some pro-active/community engagement kind of policing so an officer has time to check on someone who may need help.

So, thank you all so very much for helping to advocate in a very thoughtful, knowledgeable and meaningful way to explain why AA needs a police dept. that can answer these many kinds of requests for service that we know the officers field.

Can not tell you enough what it felt like to finally be able to address some essential community needs last night -- elections do have consequences, for which I am most grateful. :-)

Thank you all, so very much! Jane

Ms. Beaudry, Council, These are amendments I will propose for DC-15. Thank you, Jane

1. Amend the last resolved clause to:

*Whereas, the artist has offered to sell the piece to the City at the reduced price of \$35,000, but is requesting a right-of-first refusal if the City decided to remove or destroy the artwork*

2. Add new last whereas clause

*Whereas the City's normal practice and standard purchase agreement for artwork retains the City's right to dispose of the artwork as it sees fit, but not alter the artwork without the artist's permission*

3. Change \$40,000 in the first resolved clause to \$35,000
4. Change \$40,000 in second resolved clause to \$35,000
5. Change \$40,000 in title of resolution to \$35,000

**Date:** Monday, May 20, 2019 4:10:12 PM

---

Dear Mr. Lazarus and Mr. Crawford,

For transparency and communication, would it be possible to update the [Budget Process](#) webpage with the information that CM Lumm's [Resolution 19-0581](#) to address the two citizen surveys passed Council, but then was vetoed?

We could also include that the Taylor/Griswold [Resolution 19-0565](#) also passed on April 1.

I voted yes for both resolutions, with the intention that it would remove the roadblock and help Council and staff move forward with a harmonious, coordinated budget. Unfortunately with the veto, the rug was pulled out from under me.

Is the Budget Process website up-to-date with all the [Work Sessions](#)? Could they be linked to their agendas/presentations?

My records show the budget process actually started December 10, 2018 with the Council Budget Retreat.

Thanks,  
Anne

**Subject:** Re: Fully Fund Sustainability and Climate Action in FY20-21!  
**Date:** Monday, May 20, 2019 3:14:36 PM

---

Dear Jay,

Thank you for your interest and service on the AA Energy Commission.

The budget amendments and spending allocations I am proposing reflect and are responsive to the citizen feedback (from > 1000 taxpayers) provided in response to the County Mental Health and Public Safety millage survey.

As I've explained to Mr. Mirsky, for whom I am, according to John, a disappointment, I value the input taxpayers provided us in response to the millage survey. The spending on climate change initiatives has grown to nearly \$2M, which represents a substantial year over year increase. The City has many other demands for services and programming of merit, and I also firmly believe it is our responsibility to not be singular in our utilization of finite taxpayer resources when the needs and demands are many.

Please know I have worked diligently on the budget proposal, immersed myself in the budget, asked countless questions (approaching 100 budget questions) and take my responsibility for allocating city resources very seriously. I will always do my utmost due diligence, and understand that, for some, as articulated by Mr. Mirsky, this work does not satisfy certain priorities for spending taxpayer dollars.

I am most motivated to address infrastructure, staffing and program concerns and needs that our taxpayers identified as priorities that should be supported with their tax dollars.

Thank you, again, for your interest and service on the Energy Commission.

Kind regards, Jane

On May 19, 2019, at 11:13 PM, Jay Zocher [REDACTED] wrote:

Kathy and Jane,

I am a Ward 2 constituent, and a member of the AA Energy Commission since the beginning of the year. I am echoing John's sentiment below, and urging you to fully fund sustainability and climate action in FY20-21.

I have been attending the Energy Commission since 2017, and have seen firsthand the struggle to make much headway on the Climate Action Plan, with no significant funding.

With climate action being attacked at the national level, and no progress in the divided government state level, in Michigan it is falling to the city level to take a

stand, and send a clear message that the future of this planet to sustain the human species is not something we should take a short-sided view of. If not in Ann Arbor, then where?

Please deliberate carefully on your votes for this budget cycle, and consider the long term precedent that they will be setting.

Thanks,

Jay Zocher

**To:** \*City Council Members (All)  
**Cc:** Lazarus, Howard  
**Subject:** Fully Fund Sustainability and Climate Action in FY20-21!

***We have a climate and environmental crisis, not public safety or pension liability crises! Thus, I encourage you to fully fund sustainability and climate action in FY20-21 according to the City Administrator's proposed budget.***

The most recent IPCC report stated that we have ~ 11 years to take decisive climate action in order to avoid devastating social and environmental consequences. In the last few days we also learned that atmospheric CO2 reached an all-time high of 415 ppm. In addition, a distinguished UN scientific panel just reported that one million plant and animal species are on the verge of extinction due to human activity, including human-induced climate change, where the panel chairperson stated species decline is eroding "the foundations of our economies, livelihoods, food security, health and quality of life worldwide."

Amendment 3, sponsored by CM Lumm, would shift ~ \$96k from sustainability / climate action (and from affordable housing) to policing based on the community survey. The amendment does NOT state that police funding is already almost \$29M per year, is the largest share of the general fund budget, or that Ann Arbor violent crime is down ~ 30% since 2000 and property crime is down ~ 45% since 2000 (see <http://www.cityrating.com/crime-statistics/michigan/ann-arbor.html>) *in spite of the cuts in the police force quoted a whereas clause.* (Note: one would never know this from looking at A2's Sustainability Framework Dashboard.) The amendment also does not mention the results of the 2018 National Citizen Survey where A2 residents responded as follows: 93% have an overall feeling of safety, 98% feel safe in their neighborhood and 96% feel safe in downtown/commercial areas - - better ratings than any other community characteristic (see p. 4 of the report). ***We do not have a public safety crisis; we have a climate crisis!***

Amendment 7, sponsored by CMs Hayner and Eaton, would shift \$88k from sustainability / climate action (and an equal amount from affordable housing plus \$44k from pedestrian safety) to fund the pension liability in FY20. The amendment does not mention relevant metrics from the Financial & Administrative Services Dashboard presented in a budget working session which documents the City has funded 85.9% of its current pension liability, up from 80% in 2013 and its general obligation bond rating is AA+. ***We do not have a pension liability crisis; we have a climate crisis!***

I urge you to budget accordingly.

Dear Council Member - Ward 2 Lumm,

I strongly support Amendment 6 proposed by City Council Member Jeff Hayner to end deer culling operations in FY 2020/21.

The deer cull has always been a faulty, short-sighted plan that wastes taxpayer dollars on needless killing, causing unnecessary controversy and strife.

Data have shown that Ann Arbor is not now, nor has it ever been, overpopulated with deer. This is a known fact.

Here is what else we know:

Culls do *\*not\** reduce the incidence of Lyme Disease.

There are better ways to address concerns around deer/vehicle collisions.

There are humane and inexpensive ways of managing damage to gardens.

The true harm to biodiversity is man-made (99% of the threat of species extinction comes from human action related to pollution, habitat loss and climate change).

Culling should never have been our first step. Ann Arbor City rushed to the decision to cull, without solid information, data and goals -- simply looking for a quick fix in order to protect gardens. More humane, cost-effective strategies were never attempted. This is not just a waste of tax-payer money, but also is a waste of time and attention needed for more pressing matters facing our community.

In addition, the cull causes frustrating park closures and puts sharpshooters right next to our homes, schools and bus stops. Each year, parents and school administrators are forced to tell our kids to steer clear of certain parks and paths because of the use of firearms, while our schools are on lock-down to prevent random gun violence. How do we teach our young people that violence doesn't solve problems when we continue to shoot?

Over the years the cull has grown in expense and intrusion on our daily lives -- and there is no end in sight.

With plans created by an out-of-state private cull contracting company, considerations around cost and burden on the Ann Arbor community are left out of the equation.

Perhaps the most important fact is that whether we love them or hate them, urban deer are here to stay. \*We need sustainable solutions!\* We can pay the price of endless shooting or we can work together as a community to find effective, humane and non-controversial solutions.

Ann Arbor's history of nonviolence, tolerance and respect for nature should guide an approach that focuses on education and peaceful co-existence. Let's work together to create a successful model of urban wildlife conflict management in which we can all be proud.

The \$250,000 budgeted for FY 2020/21 is a total misuse of taxpayer money.

Please use our taxpayer dollars more responsibly to address other pressing City issues like road repairs and improving the safety of crosswalks, and support Amendment 6.

Sincerely,

Ms. Carly Mondry

**Date:** Monday, May 20, 2019 2:52:23 PM

---

Dear Tom,

I'm working on talking points for the amendments tonight:

Amendment 7 -- Are all city millage funds from all sources managed to support the pension liability in this manner? I'd like to support this, especially if its in keeping with city practices. Per emails below, Derek mentioned it back in April.

Amendment 9 -- Streets, Bridges and Sidewalks Millage: Is the reduction adequate to address prior over-charge for the millage, so that taxpayers are essentially made whole for prior over-charges? Was the error in the levy also applicable to 2018 and 2019? What is the dollar amount of the millage to be obtained by 1.9981 mills?

Thanks,  
Anne

**Subject:** Update on Budget for Coordinated Funding

Hi Anne,

I wanted to follow up from our conversation last week about funding for Community Development and to Coordinated Funding. Derek mentioned that a cut was requested from all departments. Derek and I were able to confirm with finance, that those cuts did not end up in the budget presented to council in

regard to the budget for Community Development and Coordinated Funding.

Please let me know if you have any questions!

-Teresa

No cuts -

Hello all, that is not a problem to add this property to the list. We can add as many properties as you would like. We are including a review of any deed restrictions in our analysis. There are often use restrictions on parks properties but if this one does not have a use restriction prohibiting residential use, we will complete an analysis like the other properties.

Take care,

*Jennifer Hall*

Councilmember Bannister:

The resolution Council adopted at its April 1<sup>st</sup> meeting included the following properties: Y-Lot (350 S. Fifth Avenue), Kline Lot (309/335/337 S. Ashley Street and 216 W. William Street, and 104/116/120 William Street), 415 W. Washington Street, 404/406 N Ashley Street, 4th Ave. and Catherine surface parking lot (the Kerrytown parking lot at the northwest corner of 4th Ave. and Catherine), 3400 Block of Platt (3432/3340 Platt Road and 3435/2442 Springbrook Avenue), 721 N. Main, 2000 S. Industrial, and 1510 E. Stadium. Upon discussion with the County Administrator, we are also looking at adding the County-owned properties at Ann & Main, 4<sup>th</sup> and Catherine (across from the City-owned property), and the County Annex Building (4<sup>th</sup> Ave). With your request, we can also add the Ann Arbor Senior Center in Burns Park.

Please let me know if you have any questions or concerns.

**Subject:** RE: Fully Fund Sustainability and Climate Action in FY20-21!  
**Date:** Monday, May 20, 2019 1:49:55 PM

---

Dear John,

Thank you. Like so many climate action spending proponents, I do not know what the magic # is in terms of adequacy of expenditure to address climate change. We're now hovering close to \$2M, and this represents a very sizable year over year increase in funding. Meanwhile, we have many other city priorities that go unaddressed – the same priorities identified by our taxpayers (> 1000) who took the millage survey. Am I to infer that, for you, that citizen feedback is of no consequence/has no bearing on how taxpayers are recommend we direct these millage funds? Obviously, as you well appreciate, I believe that feedback has value.

When you write the Mayor and council on the expenditure of funds, I note that you utilize your City title. Am I to infer that your views are also representative of the City Administrator's?

It's my sense that, if it were possible, you would recommend spending any bit of discretionary/unallocated funding coming into the City (e.g., I know now you also do not think it's important to further fund the city's pension liability) on climate action related initiatives. Is this correct? Given what I suspect is this high bar expectation, I am sorry, but recognize that I will continue to disappoint your expenditure of city funds expectations.

Thank you, Jane

Thank you, John. As always, your feedback is appreciated.

I know you consistently encourage maximizing city financial resources on climate change related initiatives. I understand your passion, and, as is apparent, also believe we cannot ignore other compelling and essential programs, services and infrastructure needs, and hence my efforts to address these needs and priorities as the budget amendments recommend.

I do appreciate that CM's Hayner and Eaton are exercising good fiscal discipline and advocating we budget accordingly, an approach which, I believe, demonstrates important and responsible fiscal stewardship.

Thank you for writing to share your perspective on maximizing climate action spending.

All best, Jane

Sent from my iPhone

On May 19, 2019, at 10:47 AM, Mirsky, John <[JMirsky@a2gov.org](mailto:JMirsky@a2gov.org)> wrote:

***We have a climate and environmental crisis, not public safety or pension liability crises! Thus, I encourage you to fully fund sustainability and climate action in FY20-21 according to the City Administrator's proposed budget.***

The most recent IPCC report stated that we have ~ 11 years to take decisive climate action in order to avoid devastating social and environmental consequences. In the last few days we also learned that atmospheric CO2 reached an all-time high of 415 ppm. In addition, a distinguished UN scientific panel just reported that one million plant and animal species are on the verge of extinction due to human activity, including human-induced climate change, where the panel chairperson stated species decline is eroding "the foundations of our economies, livelihoods, food security, health and quality of life worldwide."

Amendment 3, sponsored by CM Lumm, would shift ~ \$96k from sustainability / climate action (and from affordable housing) to policing based on the community survey. The amendment does NOT state that police funding is already almost \$29M per year, is the largest share of the general fund budget, or that Ann Arbor violent crime is down ~ 30% since 2000 and property crime is down ~ 45% since 2000 (see <http://www.cityrating.com/crime-statistics/michigan/ann-arbor.html>) in spite of the cuts in the police force quoted a *whereas clause*. (Note: one would never know this from looking at A2's Sustainability Framework Dashboard.) The amendment also does not mention the results of the 2018 National Citizen Survey where A2 residents responded as follows: 93% have an overall feeling of safety, 98% feel safe in their neighborhood and 96% feel safe in downtown/commercial areas - - better ratings than any other community characteristic (see p. 4 of the report). ***We do not have a public safety crisis; we have a climate crisis!***

Amendment 7, sponsored by CMs Hayner and Eaton, would shift \$88k from sustainability /

climate action (and an equal amount from affordable housing plus \$44k from pedestrian safety) to fund the pension liability in FY20. The amendment does not mention relevant metrics from the Financial & Administrative Services Dashboard presented in a budget working session which documents the City has funded 85.9% of its current pension liability, up from 80% in 2013 and its general obligation bond rating is AA+. ***We do not have a pension liability crisis; we have a climate crisis!***

I urge you to budget accordingly.

**Date:** Monday, May 20, 2019 11:29:45 AM

---

Dear Linh,

Thank you for writing. To answer your Q re: the AAPD request, we are presented with the Administrator's recommendations and I do not know what, specifically, the Chief recommended to the City Administrator for staffing. I do know, based on various conversations w/the Department what the Chief and his predecessors would recommend, but they have been hesitant to publicly share staffing # recommendations. This recommendation is not being made in a vacuum, and you can be assured that the recommendation to add two officers doesn't come close to achieving what anyone in the AAPD would recommend is necessary.

One example alone, on traffic enforcement, we have 3, sometimes 4 officers assigned. After Justin Tang was hit and killed, you may know that a police officer was assigned to the Gallup/Fuller crosswalk in the a.m.'s and p.m.'s to assist students when crossing at this location. One day I stopped at the crosswalk to thank the officer, one assigned to traffic enforcement. That particular day, the traffic enforcement officer had 60 other calls for service – obviously not remotely achievable/doable. That was not an atypical day in the life of a traffic cop. Again, this is one isolated example of a much larger problem/challenges posed by our low staffing level of sworn officer strength.

With regard to the funding allocations for these budget amendments, I respectfully disagree that the County Mental Health and Public Safety millage funds are not an appropriate source. We have many pressing needs and are each doing what we think is necessary to prioritize and address the challenges the city faces.

Thank you, again, for writing to share your perspective and hope this is helpful.

Sincerely, Jane

**Subject:** Budget amendments 3 and 7

Dear City Council,

I'm writing to express my disappointment over budget amendments 3 and 7, both of which will decrease affordable housing and climate action funding provided by the County Mental Health Millage rebate. Has the AAPD requested additional police hires? If so, on what grounds? How will both amendments bring us closer to addressing our pledge to build 2,787 new affordable housing units by 2035? Is the end goal to entirely disregard the 2017 commitment to use the rebate towards the 40-40-20 pledge? If so, then what are you

proposing as alternative funding measures towards affordable housing, climate action, and pedestrian safety goals? I look forward to understanding why housing advocates continue to find vital funding at risk nearly every month, when thousands of vulnerable community members are on a waitlist for several hundred units.

Sincerely,  
Linh Song, MSW  
Ward 2 Resident

**Date:** Monday, May 20, 2019 11:01:09 AM

---

Thank you very much, Louis! I am also glad to hear that the damage to your property has now been reduced as a result of the city's deer management efforts.

Appreciate your feedback and cost saving recommendations, as well. I think that we will need to continue deer count surveys/fly-overs, and do think that Dr. Courteau's studies of our natural areas help to inform what is required to ensure our natural areas are sufficiently protected and can be sustained. To your point re: how extensively this program has and continues to be evaluated, I will just share that there is no other city program about which I am aware that is evaluated any where near the extent to which this program has been and continues to be evaluated. All the metrics speak for themselves.

Thank you, again, for taking the time to offer your feedback.

All best, Jane

(Am copying City staff who have been involved with this program to make them aware of your observations and recommendations.)

**To:** CityCouncil <CityCouncil@a2gov.org>  
**Subject:** Amendment 6- Amendment to end Deer Culling operations in FY 2020

I wanted to comment on this amendment which I do not support.

Whereas, Activities surrounding Deer Culling operations remain controversial to large segments of the community, who oppose these operations based on cost, denial of access to public parks, use of firearms within city limits and in proximity to residential dwellings, and other moral dilemmas presented by the act; and Whereas, **It remains difficult to quantify and justify the success** of such activities; therefore, RESOLVED, the amount budgeted for Deer Cull activities in the General Fund Building and Rental Services in FY 2020 (\$150,000) be reduced and returned to the general fund balance with direction to the City Administrator to eliminate the planned amount for FY21(\$100,000).

Sponsor: Hayner

I would like to point out that if the council would like to save money than they can greatly reduce the overall cost of the program by eliminating the quantify / feedback elements of the deer management program. This is a well-evaluated program and that cost is due to the small but vocal segments of the community who oppose the operation. Our Deer Management Program is probably one of the most highly evaluated programs in the nation with a survey of citizens, accident data from the Michigan State Police, and fly-over counts, as well as a scientific sampling of the level of deer browsing and consistent, and follow up reports

reviewing the operations and data.

Again I would suggest if the cost of the program is of concern and you want to use the money for other resources than you could greatly reduce costs by removing the following quantifiable elements:

- White Buffalo 2019 Program Results Assessment
- Helicopter flyover estimate survey
- Dr. Courteau's Browse Damage on Public Property Study
- Deer Management Program Evaluation Citizen Survey by Michigan State University Research Center

Thus we could simply maintain and reduce the deer population at a much more reduced cost.

I can also tell you anecdotally that the deer are not as frequently wandering the street of manor drive, Hillsdale and Cloverdale in ward one. Also, I have not seen the extensive browse damage to the plants in my front yard that I used to see prior to the cull activities. I am very pleased with the programs evolution, the results and the response of the city council to issues raised by the community.

Robin:

John Fournier reminded me yesterday at the close of the special session that my statement that we have not talked to any of the Police Chief candidates is not strictly correct, as we have talked to DC Forsberg with regard to his operational responsibilities. More generally, we have not discussed the Police Chief recruitment with him outside of his interview so that the statement is correct as it pertains to his status as a candidate. Please share with the member as you deem appropriate. I have shared this with Ryan Stanton to ensure the public record is correct.

Thank you for the opportunity yesterday for a frank and open discussion. As always, please let me know if I can be of any assistance on this or other matters.

---

Dear Mr. Lazarus,

Please "reply all" and explain what happens with **DS-2 -- 19-0412 -- Resolution to Approve a Contract with MDOT for SRTS \$415,874**, if Resolution 4 confirming the Special Assessment Roll fails?

Although you and I have talked and emailed regularly on "what's happening" with the project, I don't recall information about this standalone vote for the contract with MDOT.

Does it automatically go away if DS-1 fails, or are you planning to go ahead with the project without the Special Assessments?

Please let us know your plans.

Thanks,

---

Thank you, Mr. Lazarus.

Good to know the City did not pay for this political gathering. Could you/someone, at your convenience, share copies of the brochures that were provided at/in advance of this event?

And, any particular reason you copied Jennifer Hall on my communication below? I think, for obvious reasons, it was inappropriate of you to do so. Yes, Ms. Hall, has in the last couple of years become very political, but that message was for you, her supervisor.

Jane

MPT Lumm:

In response to your e-mail question below, I have queried both Ms. Hall and Dr. Stults about the affordable housing and sustainability event that was held in City Hall prior to the May 6<sup>th</sup> Council meeting. Both Ms. Hall and Dr. Stults have confirmed that no City resources were used to pay for the event other than the use of brochures that are used at all public events. All food and music were donated. The only staff support was to provide the tables, which is standard for the use of the atrium (including recently requested Council receptions).

Thank you very much. As you fully appreciate, this really bothers and disappoints me.

It was as I suspected. As I also shared, I never suspected Finance – been at this for so many years, and this is the first time this has happened. So, turns out that when the budget amendments were presented to the Admin. staff, Ms. Hall took it upon herself to disseminate publicly, and that's how CAN was informed, informed before this information was disseminated to council or the public.

She's turned into quite the politician, and took it upon herself to disseminate a CM's work to her network. She sent me an apology, said she is new to this and didn't know it was not made public when she disseminated. I'm sorry, but that excuse just does not fly. She's being inappropriately political, and very unprofessional. Very disappointed that she would do this, but again, she's turned into quite the politician.

Thank you, Jane

Speaking of politics on city time and the city dime, can you tell me who paid for the Aff. Hsg., Climate Change, Ped. Safety shindig (the spread of food, flyers, announcements, literature, staff support) that was hosted before last Monday's council meeting?

**Subject:** Explanation Requested

Mr. Lazarus, Christopher,

Earlier today I was lobbied by CAN about one of my budget amendments. To say I was totally stunned, would be gross understatement.

I find it very troubling that I am being lobbied on one of my budget amendments BEFORE the amendments were even shared with council or published! This has never happened before as long as I've been around, and this is really unacceptable, poor process, and shows a complete and utter disregard for a process that honors and respects a CM's ability to do their jobs with the needed confidence and support from staff. Previously, staff would not take it upon themselves to disseminate information before it was shared with the public and council.

I am very disappointed/frustrated by this, and would very much appreciate your explanation as to how this happened.

Jane

**Subject:** Re: Fully Fund Sustainability and Climate Action in FY20-21!  
**Date:** Sunday, May 19, 2019 7:30:21 PM

---

Thank you, John. As always, your feedback is appreciated.

I know you consistently encourage maximizing city financial resources on climate change related initiatives. I understand your passion, and, as is apparent, also believe we cannot ignore other compelling and essential programs, services and infrastructure needs, and hence my efforts to address these needs and priorities as the budget amendments recommend.

I do appreciate that CM's Hayner and Eaton are exercising good fiscal discipline and advocating we budget accordingly, an approach which, I believe, demonstrates important and responsible fiscal stewardship.

Thank you for writing to share your perspective on maximizing climate action spending.

All best, Jane

Sent from my iPhone

On May 19, 2019, at 10:47 AM, Mirsky, John <[JMirsky@a2gov.org](mailto:JMirsky@a2gov.org)> wrote:

***We have a climate and environmental crisis, not public safety or pension liability crises! Thus, I encourage you to fully fund sustainability and climate action in FY20-21 according to the City Administrator's proposed budget.***

The most recent IPCC report stated that we have ~ 11 years to take decisive climate action in order to avoid devastating social and environmental consequences. In the last few days we also learned that atmospheric CO2 reached an all-time high of 415 ppm. In addition, a distinguished UN scientific panel just reported that one million plant and animal species are on the verge of extinction due to human activity, including human-induced climate change, where the panel chairperson stated species decline is eroding "the foundations of our economies, livelihoods, food security, health and quality of life worldwide."

Amendment 3, sponsored by CM Lumm, would shift ~ \$96k from sustainability / climate action (and from affordable housing) to policing based on the community survey. The amendment does NOT state that police funding is already almost \$29M per year, is the largest share of the general fund budget, or that Ann Arbor violent crime is down ~ 30% since 2000 and property crime is down ~ 45% since 2000 (see <http://www.cityrating.com/crime-statistics/michigan/ann-arbor.html>) in spite of the cuts in the police force quoted a whereas clause. (Note: one would never know this from looking at A2's Sustainability Framework Dashboard.) The amendment also does not mention the results of the 2018 National Citizen Survey where A2 residents responded as follows: 93% have an overall feeling of safety, 98% feel safe in their neighborhood and 96% feel safe in downtown/commercial areas - - better ratings than any other community characteristic (see p. 4 of the report). ***We do not have a public safety crisis; we have a climate crisis!***

Amendment 7, sponsored by CMs Hayner and Eaton, would shift \$88k from sustainability / climate action (and an equal amount from affordable housing plus \$44k from pedestrian safety) to fund the pension liability in FY20. The amendment does not mention relevant

metrics from the Financial & Administrative Services Dashboard presented in a budget working session which documents the City has funded 85.9% of its current pension liability, up from 80% in 2013 and its general obligation bond rating is AA+. ***We do not have a pension liability crisis; we have a climate crisis!***

I urge you to budget accordingly.

Dear Chris, Thank you for your input on the various budget amendments, several of which are mine, so you know my position. :-)

And, a clarification re: the budget approval process. The resolution (40/40/20) was just that, a resolution. You cannot, by charter, amend the budget outside the budget approval process or outside the budget amendment process (8 votes required to amend an approved and adopted budget). Again, the resolution was a recommendation (essentially like any council resolution), and, as such, was and is outside the budget process. Also, resolutions do not bind future council's or circumvent the budget approval and adoption process.

Happy to sit down with you and discuss further.

Thanks again and hope life and work are good! All best, Jane

On May 19, 2019, at 2:33 PM, Christopher Graham [REDACTED] wrote:

Hi, Council Member and Mayor Taylor --

I am realizing that funding to increase pension contributions (A - 7) is proposed to come from last Fall's County millage. That I do not agree with -- those funds should be dispersed in accordance with the vote on this matter, last Fall. That does not mean the City can fail to keep up with these contributions, and I would assume there are provisions (maybe increases) in this year's budget already doing that.

Thank you  
Chris.

On Sun, May 19, 2019 at 10:24 AM Christopher Graham <[REDACTED]> wrote:

Hi, Council Members and Mayor Taylor -

I thought I would comment on the amendments submitted for your budget determinations, briefly:

On A - 1: I would vote yes to increase road funding. I drive Ann Arbor's roads a lot of every working day. I am just stunned at the poor condition of many if not most of them. We simply need to spend more, on an ongoing basis. We have been quite delinquent in not spending adequately (I assume just hoping revenue sharing would return and state road tax increases would arrive. Now we are in trouble).

On A - 2: I agree with Jane that Nixon Road needs prompt attention. It seems as if that work should be done with the development up there (and I assume at least partly paid for by the developers) -- not wait until after the increase in traffic comes arrives.

On A - 3: I have no objection to more Police -- but not paid for by changing the funding formula for County funds approved by voters last Fall. It is difficult to get police officers now (and employees in almost every endeavor), but Ann Arbor should be more appealing to people wanting

to do that than many places.

on A - 4: Absolutely no. The wear and tear on streets by the machines used to pick up leaves is extensive, the mess and danger wet leaves create on streets (often for days or weeks at a time, depending on the timing or leaves down vis a vis reaching neighborhoods), and the contamination of storm sewer drains and then the River by this material are not accounted for in this proposal. If they were the economics tip distinctly the other way on cost effectiveness, the wise use of taxpayer funds. Yes, where homeowner's can't do this alone there is a cost to them for private contractors. Apart from that (a matter regularly complained about), the process has worked well these recent years -- insofar as the City's infrastructure, vehicle safety and environmental quality are concerned. We (as contractors) don't like having to do this either. It is really a pain to haul leaves to Ellsworth Road. All things considered, it is better us than the City. The streets are clean and safe this way.

On A - 5: Yes for more street lights and yes to upgrading them to LED lamps, as funding can be found.

On A - 6: On defunding deer work, definitely no. We need to manage deer on an ongoing basis. That has been made clear from the beginning. We will waste all that we have done over the last four years if we fail on this! Deer populations will very rapidly rebound if we stop. And, there are still areas of the City that have not had adequate attention even yet, where we have not been working and deer are increasing. The City needs to step up to sanction the "protesters" who have significantly impacted the success of this work. And we need to work with AA Township to make exception to their 300 foot setback rule for still Township governed properties within the City's limits. I am not sure there is enough money in the proposed budget to to this work as needed and well. There has been nearly zero transparency in how things will proceed from here.

On A - 7: Yes to pension payments. We are obligated about this. Ann Arbor has done well, we need to continue to do so.

On A - 8: Yes on a pathway on Oakbrook Drive.

Just my two cents.

Thank you.

Chris.

Council,

Thought I'd share this old message (I have more e.g.'s of similar messages re: clogged storm sewers and leaves – also have mega photos, and may send you a couple ... won't overload) to illustrate what occurs when leaves are not picked-up in an orderly, timely fashion, and how this impacts the city storm sewers. When we had leaf pick-up's, leaves would be piled and removed along easements in a timely/scheduled way. Post leaf-pick-up days, the leaves in tree city often remain, despite street sweeping (not intended to remove bulk quantities of leaves) – again, I would be happy to share photos of our leaf clogged drains that I've accumulated over the years.

Please note the date of this message – Spring. Yes, the fall leaves often remain in the gutters/clog sewer drains. Just an FYI and thanks, Jane

Dear , Thanks for your thanks – happy to help, and thanks for following-up on the leaf clean-up. Leaf pick-up is something I've been trying to get the city to resume ... to no avail. When we had pick-ups, the streets would get swept after the pick-up's and random piles didn't seem to exist. Was thinking about this this a.m. when I was looking at this drain and others in the neighborhood. Thanks so much, \_\_\_! All best, Jane

We know that Jeff Hayner is proposing to end the deer management program. This was a surprise to us.

In our opinion, deer management is not something the City can declare victory on and discontinue. It is an ongoing responsibility.

The program has made considerable progress in controlling the herd and developing indicators to guide each year's plan.

Next year's plan is scheduled for formulation in July, following completion of 2018-19 data collection, but a budget placeholder is apparently needed now.

The consequences for making Ann Arbor a deer sanctuary would be dire for residents and the natural areas, as the deer herd once again started to expand.

We anticipate that you will support the proposed budget and vote against CM Hayner's amendment.

I have just written to some of the newer Councilmembers and hope to hear from them directly about their current thoughts on deer management.

Please let us know if you have any questions that staff isn't answering or if there are questions from particular CM's that we should be addressing before the vote.

Thank you very much, Beth! These appointment decisions are where we can have the most impact on the city's future direction. For decades, quite literally, former Mayor John Hieftje and now Mayor Taylor have put people on these Cte's. who agree with and support them, and so recommendations from these Cte's. support their direction, their views, their vision. Over time, the Cte's. have been stacked with their like-minded friends and friends who then have often risen through the ranks to become the next in line for public office.

Voters indicated they wanted change to this direction and grid-lock, and with that comes the needed change in making these appointments.

So, thank you! Jane

Hello Council Members and Mayor Taylor,

I wanted to express my concern with the "appointments to commissions ranters" who are LOUD on social media right now, who think they are entitled to be reappointed.

Yes, these are volunteer positions, but they also have a political nature and we did have an election last fall. The residents spoke up and voted in a new majority on Council. With this new majority does come some change in political views and thoughts.....just like the old majority did, and who is on the commissions now is a representation of that.

There should be change on the Planning Commission. Look what happened with Lockwood. For those of you who never watched the 3 PC meetings, let me tell you that this project was WAY more than 40 units of affordable housing. There were major problems with the site, the size, the environment, the commercialness and YES, THE CHARACTER OF THE NEIGHBORHOOD..... and it was passed through after making consolations and amendments numerous times, not fixing any of the 100 plus problems.....only for City Council to deny.

Planning Commissioners talked it through and around to get development in regardless of the Master Plan recommendations and the existing Single Family Zoning.

**What a waste of everyones time, and it has contributed to a division in this city which is bad right now. I am still being called a racist (and new noun, segregationist) on FB.**

I want to see a change on this commission FOR SURE.

With Master Planning being reviewed, I hope that you will remember that the residents wanted CHANGE in November on City Council and with that comes

change in other areas as well. We aren't as mean or loud on social media like those ranting, but there are many of us too, who want smart development, affordable housing, and to help Ann Arbor grow without changing the neighborhoods in a negative manner. It is possible, let's work together to do it.

Thank you,

**Cc:** Bannister, Anne <ABannister@a2gov.org>; Taylor, Christopher (Mayor) <CTaylor@a2gov.org>  
**Subject:** RE: Planning Commission Appointments

Dear Ken,

It has been my experience that the appointment process is neither time consuming/involved. The Mayor presents his recommendations, and council approves/denies – very simple. Council is granted this authority, so, whether one agrees/disagrees with the outcome, it is a very long established and accepted, previously not a convoluted process. I have served with three Mayors.

I've come to learn that your list of societal challenges has also been curiously woven into some Planning Commissioners' views on individuals who may differ with their recommendations – as an example and most recently, some of my colleagues and residents of single family zoned neighborhoods have been called "racists" for not supporting, e.g., ADU amendments which indisputably redefine sf zoning. Does that actually make someone a racist? Apparently, sadly, and shockingly, in the mind of some Planning Commissioners, it does. This revelation shocked me to the core, and also helps to inform recommendations about the people who are charged with evaluating the redevelopment proposals presented them. We need to rise above the name calling and the charges attributed to those who have views that are not perfectly aligned with the positions one may take on the development proposals (some may view this as opining on "societal challenges") presented them.

I also understand why Jeff would react as he did to your cc'ing Jim Leonard on your communication. That, to me, suggests this is not simply a cordial exchange of ideas, but intended, rather, as a way to embarrass someone. I know you are saying this is about free speech, and who among us doesn't value free speech, but, given the hyperbolic nature of some of the discourse that has erupted over some of the Mayor's appointments, cc'ing Jim Leonard struck me as throwing gas on the fire.

I copied "all" on my response to you, including Jim Leonard since you cc'd him. On the email exchange in which I told you how I intended to vote, I only copied the Mayor.

Thank you for listening and for your service.

Here's to one and all taking a higher, less adversarial ground, Jane

**Subject:** Re: Planning Commission Appointments

Councilperson Hayner,

Thank you for the prompt reply. From your response and that of others, it certainly seems that vetting and approving volunteer candidates for boards and commissions is an involved and potentially time consuming process. So I'm hopeful that input from community members, like myself, will be valued by Council members as a means of developing a broader an understanding of candidates suitability. In my time on Planning Commission there was not a requirement to engage with council members, either individually or at a public meeting as a pre-requisite, but I understand the need to vet carefully and hope there are clearly stated qualifications as well as the recognition that these community volunteers could choose to donate their time and talents to other worthy endeavors.

From my experience on Commission, staff and commissioners have without exception focused on the review of petitions as these relate to existing ordinances and laws. Since the Planning Commission in almost all instances is a recommending body, it is the City Council that exercises ultimate control for approval or denial of petitions. If the outcomes of that process are deemed unsatisfactory, the most effective remedy is to amend the ordinances - not replace commissioners and staff. It is not my intent to politicize this process - a free press is an important part of our democracy that needs to be exercised to be maintained.

Large societal challenges including climate change, affordability, growing economic inequality and structural racism transcend communities, and can only be addressed by individuals in collaboration with communities and institutions. There was no suggestion in my message, but we each must judge our role(s) in addressing or ignoring these problems and live with that. I hope that you, as a prominent community member, value positively engaging on these larger issues, in addition to important local concerns. More than even, it seems crucial that we engage in ways that foster community rather than blame and division.

Thank you for your service to our Community,

Ken Clein  
1st Ward

On Wed, May 15, 2019 at 10:42 AM Hayner, Jeff <[JHayner@a2gov.org](mailto:JHayner@a2gov.org)> wrote:

Dear Mr. Clein,

It is my understanding that their terms have expired, and that there are others who have been waiting to prove themselves in service to the city. As a rule I do not support re-appointments to boards and commissions unless the person(s) seeking the re-appointment is willing to make their case before the body as to why they are the best and only person(s) for that position. I have not heard from either of these commissioners you mention seeking re-appointment, indeed, of the 24+ re-appointments put forward this round, only one has reached out to me to share what they have been working on and asking for my approval of their re-appointment.

I have no real comment on the politics of this issue, that is really up to the Mayor who has the chartered authority to suggest appointments. Certainly you are trying to politicize this matter by cc'ing the Observer, more fodder for Jim Leonard's fictions?

I will say that many residents have expressed their concerns to me over the aspirational nature of some planning commissioners, their divisive political and social media behavior while serving the city, and their obvious biases towards radical increases in density, and against individual motorized transit, single-family zoning, and neighborhoods in general. There are concerns that our planning process is not being done with an open mind, but rather with an agenda that favors developers and real estate agents over residents. These concerns are not without merit.

Furthermore, I reject the suggestion that I am part of any "structural racism" or that I have added in any way to the "growing economic inequality" in our city. Indeed, the Planning Commission and former City Councils need only look in the mirror to see the part they played in perpetuating and exacerbating these very things.

Sincerely,

Jeff Hayner  
Ward 1 City Council

**Cc:** [editor@aaobserver.com](mailto:editor@aaobserver.com)  
**Subject:** Planning Commission Appointments

Dear Mayor and City Council Members,

I recently became aware that two planning commissioners up for re-appointment are encountering strong opposition from a number of Council members and am writing to express my profound disappointment and concern. As the immediate past chair of the Planning Commission, I was fortunate to have had the opportunity to serve with Commissioners Trudeau and Weatherbee for several years and from that experience, can tell you they worked diligently in service of our community.

As you know, service on Commission, like Council requires many hours of preparation in addition to the time spent in public and committee meetings. Commissioners Trudeau and Weatherbee were consistently prepared and participated in discussion with community members in a respectful and thoughtful manner, while helping the Commission to remain focused on the stated community values of sustainability and affordability within the context of the master plan and ordinance.

For this reason I am surprised and dismayed that they might be denied the opportunity to continue service to the community based on political affiliation or used as bargaining chips

by Council members. This type of partisan gaming might be understandable in Washington, but does not belong in Ann Arbor, where the focus should be on bettering the community.

I am not a politician, but believe that our elected officials time would be better used to engage the community in real conversation about how to remain a sustainable and affordable city in the face of climate change, growing economic inequality and structural racism. I hope that upon consideration you will affirm these dedicated individuals to the Commission for another term.

Thank you,

Kenneth Clein  
First Ward

---

Dear Ken,

Thank you, as well. And yes, of course we value community input/endorsements and thank you for sharing your perspective and first-hand experience.

In terms of service on the Planning Commission, I do not think it has ever been challenging to find qualified community members interested in serving on this very desirable committee. The Planning Commission is, I think, indisputably, the most sought after city committee on which to serve, and yet has been outside the reach of so many who have the interest, talent and time to serve. I think we all would like to extend these opportunities for service to members of our community who express interest.

Again, thank you for your feedback, and for your service on the City Planning Commission.

Best regards, Jane

Dear Jane,

Thanks for your prompt reply. I hope that you and other Council members will find value in community input/endorsements. In my experience, Commissioners Trudeau and Weatherbee possess competency, dedication and interest in serving the community. It's not my intention or desire to politicize this process, but it can be challenging to find those with suitable knowledge, experience and interest willing to volunteer for positions that require the amount of time and commitment of the Planning Commission.

Thank you for your service to our Community,

Ken Clein  
1st Ward

On Wed, May 15, 2019 at 10:38 AM Lumm, Jane <[JLumm@a2gov.org](mailto:JLumm@a2gov.org)> wrote:

Dear Ken,

Thank you for writing to speak on behalf of Commissioners Trudeau and Weatherbee. I know service on the city's boards and commissions can be demanding and do not doubt that both Ms.

Weatherbee and Mr. Trudeau have given of themselves, and the time and dedication required to serve responsibly. Their and your service is sincerely appreciated.

And yes, it is my understanding there is not uniform support for their reappointments, and I am aware that this information has been conveyed to Mayor Taylor. I also know that this information was intended to provide for advance notice so that the Mayor and the individuals who may not receive support have an opportunity to respond and provide further direction. I am certain everyone would prefer not to be placed in a position to discuss any one individual's desirability and qualifications to serve out of deference to the individuals who are up for appointment/reappointment. I can understand and appreciate this difficulty for all involved. Many years ago I was in a similar situation. I served on the Parks Advisory Commission briefly, for one term. I was appointed by Mayor Jernigan and supported by council, but not reappointed by Mayor Brater, despite my strong continuing interest and desire to serve. I use this illustration merely to demonstrate that this "situation" posed the current council and Mayor is not rare, unusual/remotely, unique. In fact, I would contend, this was more often the norm when there was a change in guard in the make-up of council. When I served with Mayor Ingrid Sheldon, Ingrid would present candidates' names in advance to determine support. Mind you, Ingrid was a minority mayor (and this would be an understmt.), yet she found a way to present names that received support. It was done thoughtfully and, for the most part, without disagreement and the appointees were not subjected to a public conversation about their qualifications/interest. The same happened for me when I was not to be reappointed, and I accepted the fact that, in my case, politics had reset the table and I was no longer someone who would be considered for PAC or any board/commission service despite my interest. I was not alone. I think because for so many years, the shift in the make-up of council was minimal, appointments were more routine, more "machine-line" – never met with opposition because there was little/no ability to change the outcome. This has changed. And, with change comes a new perspective on many things, including decisions about the best voices to have represent us boards and commissions.

So, fast forward to today's situation. New folks have been elected, and they/we have the authority to vote on a person's appointment. I do not attribute it to politics, after all, everyone except for me is a Democrat, but believe that every one of us has our own philosophical views on city issues, views guided by the concerns and interests of constituents we represent, and I respect that among us, we have differences of opinions (again, largely/primarily informed by the folks who elected us) and an interest in having a diversity of views represented on our boards and commissions. I very much believe that differences of opinion, and diverse representation is a positive and necessary.

For me, many of my appointment decisions will continue to be guided by this view of diversity – e.g., are all voices represented on this bd./commission/committee.

I will refrain from making this personal or political, and am certain, or will assume and would like to think, that these appointment decisions are also not a personal or politically driven decision for my colleagues.

I will write to you, privately, to indicate how I intend to vote on Ms. Weatherbee and Mr.

Trudeau.

Thank you, again, for taking the time to provide your feedback and to write in support of both of these individuals, and thank you for your service on the Planning Commission.

Best regards, Jane Lumm

**Subject:** Planning Commission Appointments

Dear Mayor and City Council Members,

I recently became aware that two planning commissioners up for re-appointment are encountering strong opposition from a number of Council members and am writing to express my profound disappointment and concern. As the immediate past chair of the Planning Commission, I was fortunate to have had the opportunity to serve with Commissioners Trudeau and Weatherbee for several years and from that experience, can tell you they worked diligently in service of our community.

As you know, service on Commission, like Council requires many hours of preparation in addition to the time spent in public and committee meetings. Commissioners Trudeau and Weatherbee were consistently prepared and participated in discussion with community members in a respectful and thoughtful manner, while helping the Commission to remain focused on the stated community values of sustainability and affordability within the context of the master plan and ordinance.

For this reason I am surprised and dismayed that they might be denied the opportunity to continue service to the community based on political affiliation or used as bargaining chips by Council members. This type of partisan gaming might be understandable in Washington, but does not belong in Ann Arbor, where the focus should be on bettering the community.

I am not a politician, but believe that our elected officials time would be better used to engage the community in real conversation about how to remain a sustainable and affordable city in the face of climate change, growing economic inequality and structural racism. I hope that upon consideration you will affirm these dedicated individuals to the Commission for another term.

Thank you,

Kenneth Clein  
First Ward

**Subject:** RE: Lack of Budget Amendments  
**Date:** Thursday, May 16, 2019 7:29:33 AM

---

Anne,

RE: your # 4, I submitted various budget questions to ID the funding for leaf pick-up and, after some back and forth with staff re: #'s, etc., submitted a budget amendment resln. re: leaf pick-up.

RE: the increased composting -- will just share that when this last was proposed, the proposal for increased composting, b/c there is/was no funding source, required a shift to bi-weekly solid waste pick-up. There was big push-back on only picking up trash every other week. No funding source was subsequently ID'ed, and in terms of the Solid Waste Pgm., no changes were proposed to the current pgm. with this year's budget.

---

**Subject:** Lack of Budget Amendments

Dear Mr. Crawford and Ms. Lancaster,

While I had many ideas for budget amendments, unfortunately I got bogged down in following up on resident concerns and FOIA requests, etc. I have two meetings tonight, but may work on amendments more when I get home.

This is a list of some of the ideas I've gathered from residents over my 18 months on Council, that I had hoped to convert into budget amendments:

1. Protection for Heritage Trees -- referencing a [United Nations article](#), the City's webpage on [The Urban Forest](#), a [Stewardship Network webcast](#), and the City's [Urban & Community Forest Management Plan](#) (page 56, Recommendation #4).
2. Environmental Outreach and Education related to the Chimney Swifts at 415 W. Washington.
3. Sidewalk Snow Removal options, including expansion of the [SnowBuddy](#) program.
4. Storm Water Protection through residential leaf pick-up.
5. Improved composting options for residents and businesses, including a request from Food Gatherers.
6. Funding from the City for Community Corrections (I serve on the County/City Community Corrections Advisory Board -- CCAB).
7. Funding for more street lights and illumination at crosswalks (positive contrast lighting that shine on pedestrians faces).
8. Recurring technology updates for the AAPD.
9. Funding for more digital speed signs telling drivers how fast they're traveling.
10. Funding for more EV charging stations for residents.
11. Playground amenities and tiny home projects as suggested by Bach School and Northside STEAM School students.

12. A webpage on a2gov.org where residents may subscribe to any/all Councilmember newsletters.
13. Funding for Communications and coordination across all community departments offering news to residents, including the City's Communication Dept., the Office of Sustainability and Innovation, the DDA, the County, and the AAPS.

Thank you,  
Anne

**Subject:** FW: Council Inquiries - Customer Portal for Water Consumption has been changed

Councilmember Bannister,

Staff shares the following update regarding the water consumption portal.

The current water consumption portal is overdue for replacement and is currently experiencing technical difficulties. IT is currently working to get the new "Aquahawk" system up and running as an enhanced replacement. The estimated soft-launch of this system is set for July 1, 2019.

In the interim, customers interested in receiving their water usage information should contact Customer Service at [customerservice@a2gov.org](mailto:customerservice@a2gov.org) or 734-794-6333.

**Date:** Wednesday, May 15, 2019 1:09:05 PM

---

Would it be possible to track and report to Council on the residents who call or email, and the detail of their concern?

Hopefully there won't be any unpleasant surprises for residents, but nonetheless it will be important to know if there are significant concerns.

Thanks for your help on this important matter.

Anne

**Subject:** FW: Council Inquiries - Customer Portal for Water Consumption has been changed

Councilmember Bannister,

Staff shares the following update regarding the water consumption portal.

The current water consumption portal is overdue for replacement and is currently experiencing technical difficulties. IT is currently working to get the new "Aquahawk" system up and running as an enhanced replacement. The estimated soft-launch of this system is set for July 1, 2019.

In the interim, customers interested in receiving their water usage information should contact Customer Service at [customerservice@a2gov.org](mailto:customerservice@a2gov.org) or 734-794-6333.

From: Vivienne Armentrout [REDACTED]  
Sent: Wednesday, May 15, 2019 12:30 PM  
To: Bannister, Anne; Environmental Commission  
Cc: Hayner, Jeff; Lazarus, Howard; Eaton, Jack; Griswold, Kathy  
Subject: Re: FW: climate action policy and the train station

Thank you, Anne. I like the idea that the Environmental Commission will look at the climate implications of all our policies. I know that the City has now put climate change at the top of our priorities. In my opinion, this should mean that all City activities should be evaluated in that light rather than limiting our activities to a few token solar cells, EV cars, and adjustments to housing via such traditional means as weatherization and energy efficiency in rental dwellings. All of our city programs should be viewed through the lens of the effect of each policy or action on climate change, if we are serious about this.

The buildings sector and the materials used in new building are a major contributor to greenhouse gas production. According to this estimate (<https://linkprotect.cudasvc.com/url?a=https%3a%2f%2fwww.eesi.org%2ffiles%2fclimate.pdf&c=E.1.sPAnAT7ogpxeN0FucQiYeysyfN6johnLPYjZVodZ-TdOnS-I0VxGlm1NPuXFMSzh7Ap-ggak-J05ETgPJ5Ky8I6T8UlqFC8MbAzhc4KJzkFmCMXN6ts&typo=1>), buildings /exceed/ the contribution of transportation in producing GHG emissions. However, another contribution is the /embodied emissions/ of the materials used. Those are the emissions due to production and transportation of the building materials. It turns out that concrete is a huge fraction of these embodied emissions. Depending on the assumptions one uses, the amount of CO2 released by production of concrete may be nearly on a par by weight with the finished material itself. This reference indicates that "typical" concrete releases 0.9 kg CO2 for every 1.0 kg. ([https://linkprotect.cudasvc.com/url?a=https%3a%2f%2fblogs.umass.edu%2fnatsci397a-ross%2fgreen-building-materials-and-carbon-taxes-on-the-building-sector-reducing-emissions-from-the-built-environment%2f&c=E.1.RfGJHS41OmjzXC9DYGnNSZ6Ti8f9\\_MN1Pu4UbhMI9Exp-UxwyLnFyYQGIdtmGxa4phf-UbgTHwjyGtP7K3x1arXlexDIN04W9yGMComc,&typo=1](https://linkprotect.cudasvc.com/url?a=https%3a%2f%2fblogs.umass.edu%2fnatsci397a-ross%2fgreen-building-materials-and-carbon-taxes-on-the-building-sector-reducing-emissions-from-the-built-environment%2f&c=E.1.RfGJHS41OmjzXC9DYGnNSZ6Ti8f9_MN1Pu4UbhMI9Exp-UxwyLnFyYQGIdtmGxa4phf-UbgTHwjyGtP7K3x1arXlexDIN04W9yGMComc,&typo=1)) (The underlying source for that figure suggests that the ratio can be

changed by incorporating alternative materials.)

Cement is an important source of embodied emissions and in fact most texts list concrete production as one of the three major sources of CO<sub>2</sub> that are contributing to global warming. (The other two are fossil fuel usage and land use changes.) The sources of CO<sub>2</sub> from cement production are "process emissions" (from the chemical process of baking out limestone so that the CO<sub>2</sub> is released to make "clinkers") and "energy emissions" (high heat is needed to make clinkers so fossil fuel or electricity is consumed). I found this source to be useful in understanding the problems and assumptions in measuring emissions.

[https://linkprotect.cudasvc.com/url?a=https%3a%2f%2fwww.earth-syst-sci-data.net%2f10%2f195%2f2018%2fessd-10-195-2018.pdf.&c=E.1.XJVbYAUU056bTCymeChTjw4\\_Okh1WhHAirJWQLD0Q64TVnqrAm-SAYht313v1XJ6Wa0B2nLH6YxfQ9QRmCRE72YMWUiy74czvTzysbIeLk-v7hhEl7peO\\_VN&typo=1](https://linkprotect.cudasvc.com/url?a=https%3a%2f%2fwww.earth-syst-sci-data.net%2f10%2f195%2f2018%2fessd-10-195-2018.pdf.&c=E.1.XJVbYAUU056bTCymeChTjw4_Okh1WhHAirJWQLD0Q64TVnqrAm-SAYht313v1XJ6Wa0B2nLH6YxfQ9QRmCRE72YMWUiy74czvTzysbIeLk-v7hhEl7peO_VN&typo=1) I

used the IPCC ratio of 0.507 tons of CO<sub>2</sub> per ton of clinker for the process emission and the thumbnail (variable) figure of an additional 60% by weight for the energy emission. As indicated in my back-of-the-envelope figures in the prior email below, this yielded me a figure of over 23,000 metric tons ONLY DUE TO CEMENT for building Phase I of the proposed Fuller Road Station. I'm sure that these figures could be adjusted with more scrutiny and by examining the assumptions. But even if I am a factor of 10 off, that would still exceed our supposed yearly goal for emissions.

#### IMPLICATIONS FOR POLICY

As a City, we have two activities that relate to the points I have made about embodied emissions. One is encouragement of dense (and massive) development and the other is construction of municipal facilities. It seems to me that we should at least acknowledge these contributions to our overall community emissions. Whether we want to use this information to change direction is another discussion.

I realize that we have been encouraging developers to adopt LEED standards, which I gather are mostly directed toward energy efficiency. But should we also be looking at material use? The article I cited above points out that steel production generates about 2.9 tons of CO<sub>2</sub> per ton of steel. That is before it even reaches our borders. Then add the cement. Of course then there is transport and energy required during the building process. Shouldn't we be incorporating those estimates into our local CO<sub>2</sub> budgets? The article also mentions the concept of Mass Timber Construction, using wood products. They are limited to low or mid-rise projects, obviously not suitable for 19-story buildings. I believe that The Yard on Main Street may have used that approach - it appeared to be constructed of wood. Maybe there is some teaching possibility there.

You could argue that these are private, not City, projects. But we are evidently going to impose energy efficiency standards for residences on local landlords, and another goal in our "climate change" program is to encourage a Net Zero residence to be built somewhere. These are laudable but very small reductions compared to the CO<sub>2</sub> production involved in a 5-story (or more) new building. And we are using our planning function to make these large buildings possible, as well as supplying them utilities.

Regardless of the approach to private development, surely we should start with re-examining design for municipal buildings. Huge concrete

parking structures do not seem to correlate to our lofty rhetoric.½ At least, for consistency and transparency, we should account for those contributions to the global load.

Mr. Lazarus, Thank you for your prompt response to Jane's request. And to confirm, for similar requests, is Dr. Stults the City's pt. of contact?

The reason I ask is because I thought this was a Solid Waste function/operation, and so, and correct me if wrong, wondering if some Solid Waste responsibilities have now been transferred to Ms. Stults?

Thank you, Jane

**Subject:** Is UM subject to the HDC?  
**Date:** Wednesday, May 15, 2019 10:49:25 AM

---

Dear Mr. Delacourt and Mr. Lazarus,

The OFW has been in active discussion about the UM Board of Regents meeting tomorrow in Dearborn, including the demolition of three historic buildings on Huron Street at Glen.

Is anyone from City staff going to the meeting and would they provide us a preliminary update on what was discussed?

Is UM subject to the local review process in place for historic preservation? At a minimum, it has been recommended that UM be asked to bring to the HDC their proposed plans for demolition and the new design, so that its affect on the local historic district can be discussed and possible feedback given.

These are related links:

**Subject:** RE: Planning Commission Appointments

Dear Ken,

Thank you for writing to speak on behalf of Commissioners Trudeau and Weatherbee. I know service on the city's boards and commissions can be demanding and do not doubt that both Ms. Weatherbee and Mr. Trudeau have given of themselves, and the time and dedication required to serve responsibly. Their and your service is sincerely appreciated.

And yes, it is my understanding there is not uniform support for their reappointments, and I am aware that this information has been conveyed to Mayor Taylor. I also know that this information was intended to provide for advance notice so that the Mayor and the individuals who may not receive support have an opportunity to respond and provide further direction. I am certain everyone would prefer not to be placed in a position to discuss any one individual's desirability and qualifications to serve out of deference to the individuals who are up for appointment/reappointment. I can understand and appreciate this difficulty for all involved. Many years ago I was in a similar situation. I served on the Parks Advisory Commission briefly, for one term. I was appointed by Mayor Jernigan and supported by council, but not reappointed by Mayor Brater, despite my strong continuing interest and desire to serve. I use this illustration merely to demonstrate that this "situation" posed the current council and Mayor is not rare, unusual/ or remotely unique. In fact, I would contend, this was more often the norm when there was a change in guard in the make-up of council. When I served with Mayor Ingrid Sheldon, Ingrid would present candidates' names in advance to determine support. Mind you, Ingrid was a minority mayor (and this would be an understmt.), yet she found a way to present names that received support. It was done thoughtfully and, for the most part, without disagreement and the appointees were not subjected to a public conversation about their qualifications/interest. The same happened for me when I was not to be reappointed, and I accepted the fact that, in my case, politics had reset the table and I was no longer someone who would be considered for PAC or any board/commission service despite my interest. I was not alone. I think, because for so many years, the shift in the make-up of council was minimal, appointments were more routine, more "machine-like" – never met with opposition because there was little/no ability to change the outcome. This has changed.

And, with change comes a new perspective on many things, including decisions about the best voices to have represent us boards and commissions.

So, fast forward to today's situation. New folks have been elected, and they/we have the authority to vote on a person's appointment. I do not attribute it to politics, after all, everyone except for me is a Democrat, but believe that every one of us has our own philosophical views on city issues, views guided by the concerns and interests of constituents we represent, and I respect that among us, we have differences of opinions (again, largely/primarily informed by the folks who elected us) and an interest in having a diversity of views represented on our boards and commissions. I very much believe that differences of opinion, and diverse representation is a positive and necessary.

For me, many of my appointment decisions will continue to be guided by this view of diversity – e.g., are all voices represented on this bd./commission/committee?

I will refrain from making this personal or political, and am certain, or will assume and would like to think, that these appointment decisions are also not a personal or politically driven decision for my colleagues.

I will write to you, privately, to indicate how I intend to vote on Ms. Weatherbee and Mr. Trudeau.

Thank you, again, for taking the time to provide your feedback and to write in support of both of these individuals, and thank you for your service on the Planning Commission.

Best regards, Jane Lumm

**Cc:** editor@aaobserver.com  
**Subject:** Planning Commission Appointments

Dear Mayor and City Council Members,

I recently became aware that two planning commissioners up for re-appointment are encountering strong opposition from a number of Council members and am writing to express my profound disappointment and concern. As the immediate past chair of the Planning Commission, I was fortunate to have had the opportunity to serve with Commissioners Trudeau and Weatherbee for several years and from that experience, can tell you they worked diligently in service of our community.

As you know, service on Commission, like Council requires many hours of preparation in addition to the time spent in public and committee meetings. Commissioners Trudeau and Weatherbee were consistently prepared and participated in discussion with community members in a respectful and thoughtful manner, while helping the Commission to remain focused on the stated community values of sustainability and affordability within the context of the master plan and ordinance.

For this reason I am surprised and dismayed that they might be denied the opportunity to continue service to the community based on political affiliation or used as bargaining chips by

Council members. This type of partisan gaming might be understandable in Washington, but does not belong in Ann Arbor, where the focus should be on bettering the community. I am not a politician, but believe that our elected officials time would be better used to engage the community in real conversation about how to remain a sustainable and affordable city in the face of climate change, growing economic inequality and structural racism. I hope that upon consideration you will affirm these dedicated individuals to the Commission for another term.

Thank you,

Kenneth Clein

Thanks for your report, Vivienne! I'm sharing it with the Environmental Commission for their consideration.

The estimated 23,000 metric tons of GHG emissions to build the train station is stunning.

Vivienne, you might consider speaking during Public Comment at the Environmental Commission meeting on Thursday, May 23 at 7 p.m., or a future meeting.

**Subject:** climate action policy and the train station

I've been following the budgetary decisions on our climate action plans with interest. Obviously we all have a stake in the state of the planet. However, I'm concerned that our policies are not addressing this problem consistently and effectively.

---

Short summary in case you don't want to keep reading: we'll be producing over 10 years worth of GHG emissions with just this one structure. Is that consistent with our policy?

---

One point that I've become more and more aware of through my reading is that building new structures is very costly in emissions. I wonder whether those calculations have been included in our stated community-wide GHG emission figures (which were estimated at 2.21 metric tons of CO2 in 2010, according to the City website).

In reading the Project Narrative and its construction budget (attached) for the Fuller Road Station, I was struck by the amount proposed to purchase concrete, which was \$16,340,000 for Phase I. My thought was, "That's a lot of concrete." But then I wondered what effect that amount of cement production has on greenhouse gas emissions.

You likely know that concrete is an aggregate of cement and other

materials, like crushed rock and sand. According to my sources, it is 22% cement by weight. Thus I was able to estimate the actual amount of cement. (Current (2018) average price is \$126.50 per metric ton and I did not attempt to include any labor or service charges.) I came up with the figure of 28,417 metric tons.

Cement is produced from limestone ( $\text{CaCO}_3$ ) by heating to very high temperatures to drive off the  $\text{CO}_2$  and make  $\text{CaO}$ , which is then the main component of "clinkers", used to make cement. But the "process emission" of  $\text{CO}_2$  makes cement the 3rd main contributor to GHG gases on the planet.

So assuming that my back-of-the-napkin estimate is within some reasonable range, I further calculated that our Phase I train station will contribute 14,408 metric tons only from the chemical reaction, and then it will also require an energy source, probably a fossil fuel, to heat the limestone and make clinkers. Add in the ballpark of 60% more for the kiln heat process, and the total is close to 23,000 metric tons. Compare that to our "community-wide" figure of 2.21, which we have hoped to reduce.

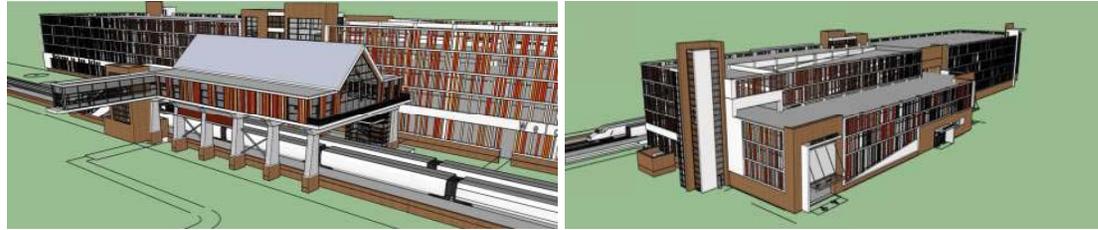

Of course, my comments apply to our tremendous building boom over the last few years as well. And the rest of the structure will also result in emissions during building, not to mention the exhaust from all those cars.

At a minimum, I'd like to see our community estimates fold in all these emissions costs.

Vivienne Armentrout

p.s. I'd be happy to show my work if you want more.

**Date:** Wednesday, May 15, 2019 8:55:54 AM

---

Mr. Lazarus,

Thank you for reaching out.

Just one Q -- in terms of the topic of asset mgmnt., and always a good topic, are you thinking of any specific areas of capital mgmnt. -- just a broad topic, and so wondering if you could provide more detail on what you might have in mind.

Appreciate postponing the Solid Waste discussion to Sept. consistent with Council's direction when everyone will have had time to read the consultant's plan and residents and business folks will be back in town and can engage in the conversation.

Also, would suggest that we keep the culture assessment and investigation on our agenda as standing issues and topics going forward.

Thank you, Jane

Dear Admin Committee Members:

I would like to add as a discussion item for next week's Admin Committee meeting reimagining the topics for the June and September meetings, and the addition of a work session in November as there is currently no scheduled municipal election this year. Council as a whole has respectfully deferred any discussion of solid waste matters until after the members have received the Solid Waste Resource Management Plan and had time to read and digest its content. I believe postponing the discussion on solid waste from June to September is consistent with Council's preferences. I therefore propose that we have a discussion on asset management in June. I also recommend that the topic of the November meeting be affordable housing, as by that time staff is anticipated to have completed the review of the City's property portfolio and provided its report. Scheduling the discussion in November would again provide Council with the time to review and analyze staff's input.

Kindly consider these changes, and I will add this as a topic for discussion at next week's meeting. As always, please let me know if you have any questions or additional thoughts.

Hi all,

I just wanted to follow up on this. A handful of new input from neighbors:

-----

**I'd like the City's help on two fronts: (1) arranging with DTE to examine the transformer in my backyard and more importantly, (2) pressing DTE for information on any changes to the power delivery in this area starting approximately 3 months ago. (The change might have been earlier; that's when it became annoying enough to notice it was happening and ongoing.)**

As you mentioned, we do know that DTE is adding capacity to the grid in this area. A civil engineer suggested that DTE might be pushing through maximum power on existing lines now with the intention of stepping it back later. If I understand what I'm reading correctly, pushing power might result in a "Mains hum"—at either transformers or from the power lines.

-----

**Subject:** High-Pitched Buzz in Neighborhood

Hi Howard,

I am hoping you can point me in the right direction. I met with a constituent this morning who reports a high-pitched electric or mechanical buzz in her neighborhood. She has verified via Nextdoor that others can hear the same. She lives on Anderson near Pattengill School, but residents as far as Georgetown have heard it (hence the copy to Ward 4 colleagues). Apparently, the buzz has been continuous for about eight weeks. I went to her house (and live in the neighborhood), but could not hear it myself. I asked her to follow up with neighbors to identify the precise time it began and the geographic extent.

Our first thought was a DTE/utility issue. Based on some preliminary research, it seems possible the buzz could be caused by 60 Hz line frequency.

This is a first for me, so I was not sure where to begin. But, for those effected, it is a serious quality of life issue.

Please advise.

Best,  
Zach

Subject: Chimney Swift Study

Dear Dr. Theisen

I just read with interest articles on the chimney swift issue at 415 W. Washington St. Ann Arbor. [https://www.mlive.com/news/ann-arbor/index.ssf/2018/10/ann\\_arbor\\_to\\_study\\_saving\\_chim.html](https://www.mlive.com/news/ann-arbor/index.ssf/2018/10/ann_arbor_to_study_saving_chim.html) and [https://www.mlive.com/news/ann-arbor/index.ssf/2018/09/group\\_wants\\_to\\_save\\_ann\\_arbor.html](https://www.mlive.com/news/ann-arbor/index.ssf/2018/09/group_wants_to_save_ann_arbor.html) where your name was mentioned.

I am writing to you to appeal for help in gaining access to any guano deposit that may be inside this chimney. My intentions are to continue the research I did for the attached paper; also described on this web page: <http://post.queensu.ca/~pearl/swiftdiet/swiftdiet.html>. This work has important conservation implications for swifts and other aerial insectivores.

Any help pointing me to people that I would need to talk to to get permission to conduct research at this site or other known sites would be much appreciated. I would appreciate any history of the chimney and its occupation by swifts also.

Thanks very much for your time.

**Subject:** Budget Amendments

Council,

Since we are approaching the May 20<sup>th</sup> meeting where the City budget will be considered, I wanted to remind everyone of the upcoming deadlines and historical process we've followed:

**This Friday (5/10/19)** is the deadline for official *budget questions*. This timing is needed to ensure staff has sufficient time to prepare a written response prior to the May 20<sup>th</sup> meeting.

**Next Wednesday (5/15/19)** is the deadline to provide staff your draft *budget amendments*. Staff needs the amendments in advance in order to review the Resolved clauses to ensure they have the necessary language to implement the desired action, consolidate all amendments into 1 files in the order they were received, and share the consolidated file with all of Council Members by close of business next Friday (5/17/19). Staff is also available to meet with Councilmembers during this time if desired.

It's been Council's practice that Council Members are responsible for the initial drafting of the amendments and if the amendment increases costs, it also identifies an offsetting cost reduction or

confirmed revenue increase.

If you have any questions or concerns, please let me know.

Thanks,  
Tom Crawford

Administration Committee,

As Chair of the Administration Committee, I am communicating to you regarding the below communication from CM Eaton regarding CM Ackerman. The communication was not a sworn complaint, and I am generally treating as a Request for Informal Counseling under Rule 12.

After sending this communication to CM Ackerman, CM Ackerman has communicated with the City Attorney regarding the asserted breach. Following that communication and counseling, CM Ackerman provided below his written assurance that he will treat requests for advice from the City Attorney on state law matters as privileged and confidential, even if the City is not the client.

CM Ackerman having received advice and informal counseling from the City Attorney's office on this matter, my further having counseled CM Ackerman on this matter, and CM Ackerman having supplied his written assurance that he will comply with that advice and counseling, I believe that counseling has been completed and that the matter is closed.

If you have any questions or concerns, please do not hesitate to contact me.

Christopher

Christopher Taylor  
Mayor of the City of Ann Arbor  
301 East Huron Street  
Ann Arbor, Michigan 48104  
734-794-6161

\*\*\*\*\*

*Inbox* Monday, May 06, 2019 10:51 AM

Mayor Taylor,

Thank you for bringing this issue to my attention.

Prior to April 2, I was not aware that communications from council members to the City Attorney regarding State of Michigan law and concerning matters in which the City of Ann Arbor is not the client are subject to attorney-client privilege and/or confidentiality covered in Council Ethics Rule 6.

Now understanding that to be true, you and all members of City Council have my assurance that disclosure of privileged and/or confidential information will not happen again.

Sincerely,

Council Member Ackerman

Zachary Ackerman

Ann Arbor City Council

Ward 3

\*\*\*\*\*

**From:** Eaton, Jack  
**Sent:** Friday, April 19, 2019 3:14 PM  
**To:** Taylor, Christopher (Mayor)  
**Cc:** Postema, Stephen; Griswold, Kathy; Nelson, Elizabeth  
**Subject:** ethics complaint

Mayor Taylor,

I have copied the City Attorney to make him aware of this complaint. I have copied Council Members Griswold and Nelson because they were involved in the original email from me to the City Attorney which is the subject of this

complaint. I have not copied Council Member Ackerman because the procedure in Rule 12 gives the Chair the responsibility of informing the affected Council Member.

Council Ethics Rule 12 provides a method for seeking counseling of a Council member who has engaged in conduct “that are considered a violation of a law, Council Ethics Rules, or Council Administrative Rules, but considered by the Council to be not sufficiently serious to require reprimand.” By this email, I am asking you, in your capacity as Chair of the Administrative Committee, to review the conduct described below to determine whether Council Member Zachary Ackerman has violated Council Ethics Rules and/or state statute governing the conduct of elected officials.

On March 30, I sent an email to City Attorney Postema seeking his legal advice regarding the applicability of the Michigan statute governing removal of local elected officials, MCL 168.327. That statute requires the Governor to “remove all city officers chosen by the electors of a city or any ward or voting district of a city, when the governor is satisfied from sufficient evidence submitted to the governor that the officer has been guilty of ... habitual drunkenness, or has been convicted of being drunk ...”. As a courtesy, I copied Council Member Ackerman. The email to Mr. Postema was in my capacity as a City Council Member seeking his advice in his capacity as City Attorney. I believe that the content of that email is subject to the attorney-client privilege. That privilege belongs to the entire Council and cannot be waived unless done so by a majority vote of the whole Council.

Mr. Postema responded to my inquiry, but the content of that email is privileged and I will not disclose it here. Subsequent to Attorney Postema’s reply to me, he sent another email to the entire Council on the issues raised in my inquiry. I will not discuss that email, but you were a recipient and can review it yourself.

The Council Rules include a rule prohibiting disclosure of confidential information.

#### COUNCIL ETHICS RULE 6 -- IMPROPER USE OF OFFICIAL POSITION – DISCLOSURE OF CONFIDENTIAL INFORMATION

A Councilmember shall not divulge to an unauthorized person, confidential information acquired by virtue of his or her position as a Councilmember until a time that that information becomes public information. Furthermore, a Councilmember may not use confidential information, obtained by virtue of his or her position, for his or her own benefit or for the benefit of any other person or entity. Confidential information is information acquired by a Councilmember in the course of holding public office that is not available to members of the public and which the Councilmember is prohibited to disclose by statute or fiduciary duty or other common law duty.

#### Examples

A Councilmember shall not disclose, for example, the following:

- d) Information or records subject to the attorney-client privilege as set forth in MCL 15.243 (1)(g).

At the April 1 City Council meeting, Council Member Ackerman made a seven-minute statement regarding his arrest, plea deal, absences from Council business and the content of my email communication with the City Attorney. As a member of Council, Mr. Ackerman is not allowed to disclose privileged communication without seeking waiver by the full Council.

I believe Council Member Ackerman’s disclosure of attorney-client communication at the April 1 Council meeting violated Ethics Rule 6 and I ask that you initiate the Rule 12 procedure to make a determination on that subject. To my knowledge, this would be the first time Council Member Ackerman has violated this rule and I ask only that he be counseled according to the Rules.

Thank you,  
Jack

**Date:** Saturday, May 11, 2019 12:05:38 PM

---

Dear Lori,

Thank you for your letter to commend Deputy Chief Forsberg. I understand DC Forsberg, in his capacity since joining the City a year ago (January 2018 DC Forsberg was hired by City Administrator Lazarus) has established working relationships with various community organizations, and appreciate that his interactions with the Neutral Zone have been positive,.

None of us (outside of a phone interview in which I have participated) have met the other outside candidates for this position, and I am certain we will all appreciate meeting all the candidates for this important position. I also hope the community gives all candidates, known and unknown, a fair and equal opportunity to be heard, to be evaluated, and to be recommended for their experience and qualifications for Ann Arbor Chief of Police. Of course DC Forsberg has the added advantage of having worked for the AAPD for a little over a year, and understand why these commendations on his behalf are being provided and are helpful and appreciated.

Hope you can meet the other candidates on May 17<sup>th</sup>, and thank you for providing us your positive reference for DC Forsberg.

Sincerely, Jane Lumm

**Subject:** Police Chief Search - Recommendation

Dear City Council Members:

On behalf the Neutral Zone, I would like to share a recommendation for Jason Forsberg to serve as our next police chief for Ann Arbor.

As the Deputy Chief of Police, Jason Forsberg has provided tremendous support to the Neutral Zone to build trust between our center and the AA police. I have been extremely impressed with his commitment, patience, and open mindedness to build a strategy for deepening youth and police relationships in our community.

I feel confident that his investment in the community combined with his leadership abilities will matter to the NZ and the youth, especially youth of color, in our community. I have included the attached recommendation.

Warmly,  
Lori

Lori Roddy  
Executive Director

---

Yes, thank you for these excellent updates, Hillary. Really appreciate your and wc4eb's important educational efforts.

Coincidentally, I just chased **6** deer from our yard. Saw #19 feasting away on the young shoots of hosta ... the herd darted away quickly when I appeared, and think all were tagged. Obviously, the tags do not stop them at the garden edge, the street edge, .....

Met a 5<sup>th</sup> ward couple last night who live near Jackson Rd. – they were regaling me with their own deer sightings ... in their yard, on their neighborhood streets and sidewalks, etc. The challenge continues, and the information provided the community by WC4EB is important value add.

With my sincere thanks, Jane

Thanks for including the section about Wards 1 and 2 in Ann Arbor!

[YEAR THREE SUMMARY REPORT 2018-19 Deer Research Program](#), White Buffalo to Ann Arbor, Michigan, 20 March 2019

Ann Arbor is a most challenging situation for deer managers; nearly built out and covered by single family homes surrounded by wooded corridors. It is excellent deer habitat with no hunting and no non-human predators. The directives set by the City included improving forest health/regeneration in natural areas, reduction in deer-vehicle collisions (DVCs), achieving 75% satisfaction level of residents, and gathering data to inform future management decisions. The primary objective in 2018/2019 was to assess the complementary effect of lethal management in larger wooded areas proximate to sterilization efforts in dense suburban neighborhoods.

In summary, there are ~21 deer/mile<sup>2</sup> on average in Wards 1 and 2 (233 deer in ~11.1 mile<sup>2</sup>), with obvious concentrations in the Skyline School neighborhood (i.e., "NW neighborhood" in Figure 3). The higher density in the SSA also increased the overall deer density. If interference by protesters had been managed effectively, we would likely have met our goal of 150 deer removed using sharpshooting methods. This would have been ~40 fewer deer in Wards 1 and 2 which would have resulted in ~190 deer, or ~17 deer/mile<sup>2</sup>. There also would be far fewer fawns born that will have to be culled next winter.

## May 2019

[Those deer on your lawn? They're delivering disease-ridden ticks to your doorstep](#), USA Today, May 7, 2019

"The phenomena of deer in more places and in ever-increasing proximity to people is, I think, the largest factor affecting the ticks-in-more-places trend," said Mather, who calls springtime "almost a perfect storm" for ticks. Black-legged ticks that carry Lyme disease "are far and away most responsible for tick-borne diseases," he said. Tick-borne disease cases more than doubled from 2004 to 2016, according to the Centers for Disease Control and Prevention, and Lyme disease accounted for 82% of all cases. Efforts to manage deer have been too little, too late, DeNicola said, and quiet residential areas. What's needed is a paradigm change, DeNicola said, for Americans to view deer less like majestic Bambis and more like health threats that spread diseases.

[Research continues on fatal deer disease](#), Illinois Farmer Today, May 1, 2019

"A real concern is that these prions can build up in the soil and can be incorporated into the roots of plants, and into the vegetative material as well. They don't decay very rapidly. They can remain for period of five years in the soil."

In parts of Wisconsin, it's infecting more than every other adult male in the deer population, Dufford said. The rate has been doubling every four to five years.

## April 2019

[Torrington school bus crashes into tree to avoid deer](#), Fox 61, April 30, 2019

A bus driver told police she swerved to avoid a deer Tuesday morning, crashing into a tree with students on board.

[Three deer crash college baseball game in Cleveland](#), Fox 61, April 30, 2019

In the bottom of the first against Brandeis University, a trio of deer hopped the fence at Nobby's Ballpark in Cleveland. The animals trotted across to left field, where players opened a gate. But the group opted to go back across to the right field fence to make an exit.

[Even in a Michigan outdoor paradise, ticks are a growing public health threat](#), Detroit Free Press, April 29, 2019

Ticks are usually one-third to one-quarter inch in size. They attach themselves to your skin and become engorged on your blood. The state has published a [16-page guide](#) on ticks and preventing tick-borne illnesses.

While ticks tend to be more abundant in counties along the Lake Michigan coast, they also live and have been spotted this spring throughout metro Detroit and many other parts of the state.

One of the illnesses that ticks spread is Lyme disease and in the past two decades, the number of human Lyme disease cases in the state has steadily been on the rise, increasing from about 30 a year to more than 300.

[New Study Highlights Ups and Downs in Tick Management](#), Entomology Today, April 25, 2019  
Bait boxes and “tick tubes” both take advantage of rodent behavior to expose ticks to pesticides. The former takes the common rodent bait box design and adds an extra element: a cloth wick soaked in tick-killing acaricide that the animal must contact on its way in and out of the box. Tick tubes, on the other hand, are filled with cotton—also infused with acaricide—for rodents to use for nesting material. In both cases, ticks that are attached to the rodent host, or attach soon after, die after exposure to the acaricide.

[Blood, Microbiomes And Lyme Disease: For Ticks, Diet Makes A Difference](#), VPR, April 25, 2019  
New research show that a deer tick’s diet – what kind of animal it drinks blood from – can significantly alter the tick’s microbiome. That, in turn can impact whether the tick is likely to pass on pathogens like the ones that cause Lyme disease.

[Port Jefferson plans deer cull, as deer population is estimated at up to 500](#), Newsday, April 23, 2019  
Port Jefferson plans to have its first deer cull next winter to contend with what officials say is a marked increase of bucks, does and fawns in the North Shore village. Village residents are fed up with seeing deer grazing in their yards and crashing into them on Port Jefferson’s narrow, winding roads. She estimated the village has become home to 400 to 500 deer, which congregate mostly in the community’s rustic eastern section near the Port Jefferson Country Club. Some North Shore residents say they have seen 20 to 30 deer at a time, munching on their vegetable gardens, and officials said collisions between cars and deer have spiked in recent years. Garant said about 30 village residents at a recent community meeting were unanimous in supporting the cull.

[Is Sterilization the Answer to Too Many Urban Deer?](#), Sierra Club, April 23, 2019  
DeNicola may be the only person in the country studying whether sterilization is an effective way to reduce urban deer populations. But DeNicola’s efforts seem to be working. His doe sterilization program has been going on in a corner of the city since 2015, and so far the numbers look good. DeNicola has documented a 19 percent decline in the deer population. That’s in keeping with data he has gathered from four other sites around the country that saw major drops after three years of doe sterilization: 34 percent in Cayuga, New York, 20 percent in Fairfax, Virginia, 47 percent on the National Institute of Health campus in Bethesda, Maryland, and 37 percent in a gated community in San Jose, California.

[Michigan is spending \\$4.7 million to fight ‘zombie’ deer disease](#), Detroit Free Press, April 22, 2019  
Mason said the goal is to keep the disease in check, with less than 1% of the deer population infected. When the infection rate breaches 1%, he said, it’s virtually impossible to get rid of it. “You could literally eradicate all the deer in the area, repopulate with deer, and those deer would get sick,” he said.

[New DNR grants target deer disease — before disease targets us](#), Detroit News, April 22, 2019  
The DNR will parcel out up to \$4.7 million in new grants to help protect the state’s deer, elk and moose. Partnering with Michigan State University, the DNR hopes to find new ammunition in the fight against an invariably fatal ailment that could ultimately affect everything the agency does. The vast majority of our resources come from license dollars,” Mason said, “and in a state as deer-centric as Michigan, most of that is deer related. Virtually everything we do for wildlife, game or non-game; for threatened or endangered species; for sensitive habitats — all of that is balanced on our license structure.” If the deer population becomes decimated, he said, so will the DNR budget, taking a toll on “all those things people enjoy.”

[Driver and Passenger Die After SUV Hits Deer and Trees](#), USNews, April 22, 2019  
29-year-old driver and his 27-year-old passenger died when an SUV hit a deer on a state highway, then ran off the road and hit several trees.

[Driver injured after deer crashes into van during rush hour on Route 22](#), LehighValleyLive, April 19, 2019  
A driver suffered minor injuries after a deer ran onto Route 22 during rush hour and crashed into a van.

Gahman was in the left lane when a deer jumped onto the highway and in front of the van near the 15th Street exit, in the South Whitehall Township portion of the highway. The deer ended up crashing through the windshield and landed in the van.

[Ecologist: Brace for return of deer ticks](#), Daily Star, April 18, 2019

"Climate change is one of the factors that causes Lyme disease to expand in its range," Ostfeld said. "It's inducing the ticks and the pathogens to move further to the north, into more inhospitable and harsher climates, into upper elevations, into the mountains in the East, up into Canada, into Pennsylvania, where the climate is a little harsher than it is on the coast. Some of the communities out in western New York are seeing Lyme now where they didn't see any before, and that could become worse."

[The Lyme threat, and how islands are responding](#), IslandInstitute, April 18, 2019

Many of the challenges mainland communities face are exacerbated when faced by an island. After several efforts to eliminate Lyme disease from Monhegan failed, a last-resort plan was put into action: every single deer on the island was dispatched by a sharp shooter. Within a few years, the cases of Lyme disease on the island dropped to almost zero. This method is still the only means of eradicating Lyme disease that has proven effective, and no community has done it since.

[Ability of Two Commercially Available Host-Targeted Technologies to Reduce Abundance of Ixodes scapularis \(Acari: Ixodidae\) in a Residential Landscape](#), J Med Entomology, April 15, 2019

Deployment of Damminix resulted in 27.6 and 20.3% control of questing nymphs in treated areas at 1 yr and 2 yr postintervention, while Select TCS bait boxes provided 84.0 and 79.1% control, respectively. The economics of residential tick control using these products in wooded residential landscapes is discussed.

[Crow Wing Co. deer farm closed, deer euthanized after positive CWD test](#), MPR News, April 18, 2019

All the deer on a Crow Wing County farm where chronic wasting disease was confirmed more than two years ago have been euthanized, the Minnesota Board of Animal Health announced this week. Early this year, a wild doe found about a half-mile from the Merrifield farm tested positive for CWD, increasing concern that the fatal brain disease had spread.

[Quincy man swerves to miss deer, hits tree](#), WTVB, April 17, 2019

Troopers say he swerved to avoid hitting a deer, went off the road and struck a tree.

[Deer don't get Lyme](#), MVTimes, April 16, 2019

"Most ticks acquire the pathogen as larvae and transmit it to new hosts as nymphs," the paper states. "Adult [Ixodes] scapularis, however, depend mostly on deer to mate and for females to obtain a final blood meal."

[YEAR THREE SUMMARY REPORT 2018-19 Deer Research Program](#), White Buffalo to Ann Arbor, Michigan, 20 March 2019

Ann Arbor is a most challenging situation for deer managers; nearly built out and covered by single family homes surrounded by wooded corridors. It is excellent deer habitat with no hunting and no non-human predators. The directives set by the City included improving forest health/regeneration in natural areas, reduction in deer-vehicle collisions (DVCs), achieving 75% satisfaction level of residents, and gathering data to inform future management decisions. The primary objective in 2018/2019 was to assess the complementary effect of lethal management in larger wooded areas proximate to sterilization efforts in dense suburban neighborhoods.

In summary, there are ~21 deer/mile<sup>2</sup> on average in Wards 1 and 2 (233 deer in ~11.1 mile<sup>2</sup>), with obvious concentrations in the Skyline School neighborhood (i.e., "NW neighborhood" in Figure 3). The higher density in the SSA also increased the overall deer density. If interference by protesters had been managed effectively, we would likely have met our goal of 150 deer removed using sharpshooting methods. This would have been ~40 fewer deer in Wards 1 and 2 which would have resulted in ~190 deer, or ~17 deer/mile<sup>2</sup>. There also would be far fewer fawns born that will have to be culled next winter.

[Michigan deer baiting ban would be lifted during hunting season under Senate bill](#), MLive, April 12, 2019

An outright ban on deer baiting and feeding in the Lower Peninsula meant to stave off chronic wasting disease could be reversed under legislation considered by a Michigan Senate panel this week. The

state's Natural Resources Commission approved the ban last year as part of a series of changes to deer hunting rules designed to limit the spread of chronic wasting disease, a contagious and fatal neurological disease found in deer, elk and moose. It went into effect Jan. 31, 2019.

[The disease devastating deer herds may also threaten human health](#), Colorado Independent, April 11, 2019

Scientists are exploring the origins of chronic wasting disease before it becomes truly catastrophic. The mountain lions know that something is wrong. A number of years ago, Swanson and her colleagues studied which deer mountain lions prefer to attack. "The mountain lions were definitely preferentially selecting deer that had chronic wasting disease over those that were negative," she says. "And for most of the ones that they had killed, we had not detected any chronic wasting disease symptoms yet. So certainly the lions were able to key in on far more subtle cues than we were."

Zabel says that a virus might be able to survive for a few hours outside its host. A bacterium might be able to make it for a week or two. A prion, on the other hand, can linger for years — decades, even. To further complicate things, studies have shown that plants can suck up prions through their roots and harbor them in their leaves, potentially infecting the next animal that comes around for a snack.

[Chronic wasting disease increase not a mystery](#), Altoona Mirror, April 11, 2019

according to researchers from Wisconsin, the state with the highest documented cases of CWD and getting worse, their attempt to eradicate deer in CWD zone was a spectacular failure. This is much like results found in last year's culling of 126 deer in Clearfield County — all tested negative for CWD. The root of the CWD problem is the USDA continues to allow the sale and transportation of hoofed ruminant animals (deer, elk and sheep) from documented CWD infected farms, a practice that must be stopped.

[Motorcycle crash with deer injures 2 in rural Bay County](#), Mlive, April 9, 2019

Two people were hospitalized after a deer jumped into the path of the motorcycle they were riding.

[Motorcyclist airlifted after crashing into deer](#), Fox 17, April 7, 2019 GRAND RAPIDS, Mich.

A man is in the hospital after he crashed his motorcycle into a deer.

The rider suffered a severe injury as a result of the crash and was cared for at the scene before he was airlifted to Spectrum Butterworth Hospital in Grand Rapids.

[Co-infections in Persons with Early Lyme Disease](#), Emerging Infectious Diseases, April 2019

In certain regions of New York state, USA, Ixodes scapularis ticks can potentially transmit 4 pathogens in addition to Borrelia burgdorferi: Anaplasma phagocytophilum, Babesia microti, Borrelia miyamotoi, and the deer tick virus subtype of Powassan virus. In a prospective study, we systematically evaluated 52 adult patients with erythema migrans, the most common clinical manifestation of B. burgdorferi infection (Lyme disease), who had not received treatment for Lyme disease. We used serologic testing to evaluate these patients for evidence of co-infection with any of the 4 other tickborne pathogens. Evidence of co-infection was found for B. microti only; 4-6 patients were co-infected with Babesia microti. Nearly 90% of the patients evaluated had no evidence of co-infection. Our finding of B. microti co-infection documents the increasing clinical relevance of this emerging infection.

## Recently Added

\* [Deer disease may some day infect people, expert warns](#), Great Lakes Echo, April 1, 2019

"To date, no evidence indicates that humans are susceptible to chronic wasting disease and there appears to be a good species barrier," Dunfee said. This means the disease isn't likely to spread to new species. But the same was said about mad cow disease, Osterholm said. "It's possible the number of human cases will be substantial, and will not be isolated events," Osterholm said.

\* [Deer cull results in large numbers](#), Montclair Local, March 27, 2019

This year's Essex County deer culling program resulted in high numbers with 99 identified at Hilltop

Reservation and 101 at South Mountain Reservation. A total of 100 unborn deer were also removed, according to the county's report. In addition to culling the deer herd, an aggressive replanting program to accelerate the regrowth of the forests is being undertaken in the reservations. Forty-seven enclosures (42 in South Mountain and five in Eagle Rock) have been installed where native vegetation species have been planted so their seeds can be reintroduced into the area. Eight-foot high fences have been installed and are designed to prevent deer from foraging on the planted areas.

\* [Climate change effects on deer and moose in the midwest](#), J Wildlife Management, March 2019  
Climate change is an increasing concern for wildlife managers across the United States and Canada. Because climate change may alter populations and harvest dynamics of key species in the region, midwestern states have identified the effects of climate change on ungulates as a priority research area. We conducted a literature review of projected climate change in the Midwest and the potential effects on white-tailed deer and moose. Warmer temperatures and decreasing snowpack in the region favor survival of white-tailed deer. In contrast, moose may become physiologically stressed in response to warming, and increasing deer populations spreading disease will exacerbate the problem. Although there is some uncertainty about exactly how the climate will change, and to what degree, robust projections suggest that deer populations will increase in response to climate change and moose populations will decrease. Managers can begin preparing for these changes by proactively creating management plans that take this into account.

\* [Crazed deer tries to jump through windows of Pinckney school](#), ClickonDetroit, Feb 19, 2019  
PINCKNEY, Mich. – A woman captured video of a crazed deer running around an elementary school building and trying to jump through the windows in Pinckney. Cheryl Schlickemayer posted the above video of a deer jumping erratically against the windows of Navigator Upper Elementary School in Pinckney.

\* [WHITE-TAILED DEER IN THE HUDSON VALLEY:History, ecology, and impacts of a keystone species](#), News from Hudsonia, Fall 2018  
White-tailed deer are recognized as “key-stone” herbivores that profoundly affect forest structure and succession; when over-abundant, they tend to reduce the numbers of species and individuals of native forest plants and increase the proportion of non-native plants. Where deer abundance exceeds 15/mi, tree seedling abundance is reduced in many forest types in the northern US. Overabundant deer also affect breeding bird communities, invertebrates that depend on understory plants, squirrel populations (which in turn affect bird nesting success), and tick abundance and the prevalence of tick-borne diseases.

**Subject:** RE: Safety Inspection of Canoe Art at Gallup Park

Mr. Lazarus,

Belated thanks for this follow-up.

RE: adding “do not climb” signage, I fear that my forwarding the Mother’s pics of her two kids sitting in the canoe might have prompted this, and, if this is the case, I am sorry b/c that was not my intent.

This sculpture has been in the park, and sure many kids have climbed, for ~ 4 yrs. I suspect more people have enjoyed exploring the canoes, like the kids I saw last Sat., by touching/climbing into them, and, honestly, this sounds like we might be going overboard just a bit and creating, instead, a “no fun zone”. I’m sure we all want people to continue to enjoy these spaces much like they have been enjoying, and no harm’s resulted.

Instead, could we consider some of the OSHA/ANSI recreation parks signs that recommend “play at your own risk” or, in this case, something to the effect, climbing not recommended/ use care when sitting in the canoe.... Something less off-putting that allows folks and kids to touch and enjoy, and have fun?

Thank you, Jane

**Subject:** Safety Inspection of Canoe Art at Gallup Park

Mayor and Councilmembers:

Several of you expressed interest in the stability of the Canoe Fan sculpture at Gallup Park at last Monday’s Council meeting. As a follow-up, the Parks Department is having “do not climb” signage added at this site, along with the three other sculptures along the river. Safety staff inspected the sculpture, which is built on an engineered concrete slab. The structure supporting the sculpture is substantial and in good condition. We did find that a few bolts at the base of the sculpture that needed to be tightened. Park Operations is addressing this and has generated a recurring work request to conduct a safety inspection annually.

Please let me know if you have any questions or concerns.

**Howard S. Lazarus**

Got it. I found it irritating that the work was done and the decision essentially made... we were just being asked to approve the company's contract. (Guys, this isn't how things used to work.) Honestly, couldn't see the upside of having city staff do this for the reasons provided. All the customer svc./public areas are still open wch is good. Now.... If staff could only get open door access to HR..... that's a whole 'nother story.

**CA-10 - Resolution to Approve a Contract with Liberty Security Group Inc. for Guest Services at the Guy C. Larcom City Hall (\$102,500.00) RFP #19-01**

**Question:** What, who, where did the idea of unarmed door greeters come from?

(Councilmember Ramlawi)

**Response:** Unarmed greeters are a common practice with buildings of all varieties. This is a common option in places where the public is welcomed and there is a desire not to intimidate members of the public and to create an atmosphere that is welcoming to all members of the community. If there is a need for armed personnel, as there sometimes is, the police will still be called to assist with public meetings, events, or other instances. Their location in the Justice Center provides for fast response times and ready access to their expertise should it be needed.

**Question:** Will the persons staffing the “welcome counter” be trained by our city staff?

(Councilmember Ramlawi)

**Response:** The person staffing the counter will be trained both by the company and by our internal staff, who will bring them up to speed on building operations and common issues that they may face. Facilities, the police, the safety office, and IT are all involved in managing this project. The police have been involved in drafting SOP for the front desk so they comport with operating standards required by the department.

**Question:** What are the net financial cost savings by “relieving” trained officers from securing Larcom? (Councilmember Ramlawi)

**Response:** This person will not be relieving trained officers. Police officers will still be called to city hall to provide protection for public meetings and events just as they are now. The greeter is here to help provide access control to the upper floors of the building, to provide direction for visitors who may not know where they should be going, and to monitor activities in the main lobby of the building. The only function that this person will replace from the police is locking up the city hall at the end of the day, which will replace a de minimis amount of time.

**Question:** What will the effect on emergency response time to Larcom be?

(Councilmember Ramlawi)

**Response:** There should be no effect on emergency response time other than that in some instances an emergency call may be placed to 911 faster than if a staff person wasn't monitoring the lobby area. The location of the Police and Fire right next to City Hall provides a situation where response times are excellent to the begin with.

**Question:** Was the idea of an interactive "smart" kiosks explored as an alternative design for guest interaction at Larcom? (Councilmember Ramlawi)

**Response:** This idea was considered early on, however it was considered more desirable to have visitors who come to City Hall interact with a person rather than with a computer. There is a particular benefit to having an individual here for members of the community who may not be tech-savvy or tech-capable.

**Question:** Is there a particular security concern that prompted the idea of hiring a security firm for this location? (Councilmember Eaton)

**Response:** City Hall security has been a staff concern for some time. In addition to national stories about violence directed against institutions and active shooter issues, we have experienced uninvited persons dominating staff time, persons displaying threatening behavior, and persons in inebriated or incapacitated conditions in City Hall, including an incident of drug abuse in a public restroom. Compliance with building code egress requirements has also eliminated the City Attorney's Office from being secured. The building security working group that has been working on this project for the last year included 22 employees, and asked for feedback from each city department on shaping access control policies. Staff response to this project has been overwhelmingly positive. Part of the rationale for this change is to improve security, but that is not all of the rationale for this change. We also think that having a guest services professional in the lobby to welcome visitors will make people feel more welcome in city hall and will improve people's experience when they come here. Many people come to city hall and struggle to locate

the right floor or office for their needs. This staff person will be able to greet them and help them find their way, regardless of where they are going

**Question:** Why are these duties being contracted rather than assigned to a City employee? (Councilmember Eaton)

**Response:** There are companies who specialize in this type of work, and who are able to not only provide personnel for it but who are able to provide training, advising on standard operating procedures for this type of assignment, and can guaranty coverage of the desk if an employee needs to take time off. If we were to cover this operation with internal staff, we would need to hire and train multiple staff members (Likely 4-5) to cover all of the required shifts and provide backup coverage on sick days, vacation, personal time, etc.

**Question: Q1.** Perhaps I missed it or have forgotten, but I can't recall discussing/approving the new "guest services" desk in the Larcom atrium, hiring a security firm to staff the desk, or the new access procedures referenced in the resolution and in the Administrator's April 26<sup>th</sup> memo. Was there a previous resolution council approved or conversation with council about all of these security-related changes? (Councilmember Lumm)

**Response:** Council previously approved \$60,000 in funding for City Hall security in the FY19 budget. While the concept of the project was discussed as part of the FY19 budget, none of the work that has been done so far on this project has been presented to Council because it does not meet the dollar threshold for Council approval. Additionally, Howard Lazarus sent an email to Council on April 26, 2019 detailing the plan for security improvements in the building.

**Question: Q2.** Presenting the proposal (and contract) for council approval to staff a Larcom Atrium desk after the desk has been built seems to be backwards. Can you please comment on that and what happens if council does not approve CA-10?

(Councilmember Lumm)

**Response:** The desk was built separate from the contract. The contract is for the Guest

services staff who will greet visitors, help them find their way in the building, confirm appointments for anyone on floors 3-6, and provide elevator access to those individuals.

If Council does not approve CA-10, the capital improvements will remain in place,

however we will not have Guest Services staff who will be able to complete these functions.

**Question: Q3.** What is the total cost (one-time up-front costs plus ongoing costs) of all of the Larcom security improvements? Are there any other security improvements planned/contemplated beyond what was referenced in the Administrator's memo?

(Councilmember Lumm)

**Response:** The Larcom security improvements have focused on two areas to date, the first being the project to provide ballistic protection to the Customer Service/Building Permits counter on the first floor, and the second being the Guest Services counter in the atrium. The one time up-front costs for both these security improvements is

approximately \$36,000. Ongoing costs for the Guest Services counter, including the staffing contract, are expected to be approximately \$120,000 per year.

The only other security improvement in Larcom that is currently being discussed is the replacement of the Clerk's front counter on the floor 2. This improvement would not only address a security deficiency, but also address an ADA compliance issue with the counter. This improvement is currently in conceptual status and no cost estimate has been prepared.

**Question: Q4.** The Administrator's memo references several access procedural changes and new requirements – visitor sign-in and sign-out required for visitors to floors 3-6; proximity card access only to floors 3-6; staff preparing daily visitor lists for the

security firm; staff escorting visitors in off hours from lobby; staff and visitors wearing identification badges. While I'm sure these changes/new requirements improve security, they also send a message/create a less welcoming environment for visitors. Can you please speak to that? Also, are the changes/new requirements driven by specific incidents or by safety/security concerns expressed by staff? Have staff been given the opportunity to weigh in/shape the new requirements? (Councilmember Lumm)

**Response:** The recommendations are intended to provide access control to floors 3-6, and also to have a greeter in the lobby of city hall who can address questions and direct visitors as they need. Frequently people visit city hall and don't know where they need to go for a meeting or a service. Visitors to city hall walk around the main floor looking for direction every day. The Guest Services contract will alleviate this issue and provide a more welcoming environment for visitors. As far as providing floor access to floors 3-6, this is a security measure to prevent someone from having access to the whole building at will. The main floor and the second floor of the building contain public access functions of the city—the Customer Service desk, the City Clerk's office, the Independent Community Police Oversight Commission office, the Parking Referees, etc. There is a need for members of the public to be able to visit these areas freely. The basement cannot be security restricted for safety reasons. If there was severe weather and employees needed to evacuate to the basement, we would need it to be unlocked. Floors 3-6, however, are less commonly accessed by the public.

City Hall security has been a staff concern for some time. In addition to national stories about violence directed against institutions and active shooter issues, we have experienced uninvited persons dominating staff time and persons in inebriated or incapacitated conditions in City Hall, including an incident of drug abuse in a public

restroom. Compliance with building code egress requirements has also eliminated the City Attorney's Office from being secured. The building security working group that has been working on this project for the last year included 22 employees, and asked for feedback from each city department on shaping access control policies. Staff response to this project has been overwhelmingly positive.

Ultimately, we feel that having a Guest Services desk will help create a more welcoming environment in the city hall by having a person there to greet people and direct them even if they don't need access to floors 3-6. But it should also create a safer, and therefore more welcoming, environment for all visitors by pre-clearing access to some of the floors in the building.

**Question: Q5.** Although we may call this a "guest services" desk, the desk itself and all of the procedural changes are clearly about security. Given that, and assuming the purpose of the sign-in/sign-out is security, why wouldn't all visitors be required to sign-in/sign-out regardless of the floor/office they are visiting? (Councilmember Lumm)

**Response:** Part of the rationale for this change is to improve security, but that is not all of the rationale for this change. We also think that having a Guest Services professional in the lobby to welcome visitors will make people feel more welcome in city hall and will improve people's experience when they come here. Many people come to City Hall and struggle to locate the right floor or office for their needs. This staff person will be able to greet them and help them find their way, regardless of where they are going.

We do not require all visitors to check in because the purpose of the Guest Services staff is not to track all people's movements throughout the building. It is, in part, to control access to the floors where public access is not necessary for most business, and thereby create some security for staff members and visitors who are on those

floors. The 1<sup>st</sup> floor is intended for public access with the customer service counter. The second floor contains the City Clerk's office, the City Council Chambers, the Independent Community Police Oversight Commission and Human Rights office, and the parking referees, all of which are offices that are intended for the public to have free access. Because of safety issues related to extreme weather, we cannot restrict access to the basement in the event that people are required to evacuate to it. However floors 3-6 do not have these similar demands and therefore can be restricted with little interruption to the public's enjoyment of City services.

Another display of inverted power relationships. Ramlawi is correct. City Hall is the people's house. The electorate holds the city's power, which is enormous. We empower them. If the staff feels, and this is really principally about feelings because the crime rate has been declining for many years, what is staff doing that is causing so much anxiety and fear among them? Why aren't they feeling safe? Its interesting that its the Mayor's team that voted for this level of "protection". A guard under these circumstances assumes the role of general intimidator of the people who should be welcome in our hall, our municipal common house. A uniformed guard is not a welcoming figure. Since when is an invitation required to meet with a city staff person? Doesn't staff have open office hours any longer as is our tradition? If the perception is among staff that some people dominate their time, isn't that a sign that staff isn't adequately solving problems, including skillfully interacting with the public in a manner that enables them to get their work done? Aren't there sufficient people already patrolling public spaces including bathrooms? How are these problems at City Hall any more urgent than those at our public libraries? [« less](#)

Mr. Lazarus,

Belated thanks for this follow-up.

RE: adding “do not climb” signage, I fear that my forwarding the Mother’s pics of her two kids sitting in the canoe might have prompted this, and, if this is the case, I am sorry b/c that was not my intent.

This sculpture has been in the park, and sure many kids have climbed, for ~ 4 yrs. I suspect more people have enjoyed exploring the canoes, like the kids I saw last Sat., by touching/climbing into them, and, honestly, this sounds like we might be going overboard just a bit and creating, instead, a “no fun zone”. I’m sure we all want people to continue to enjoy these spaces much like they have been enjoying, and no harm’s resulted.

Instead, could we consider some of the OSHA/ANSI recreation parks signs that recommend “play at your own risk” or, in this case, something to the effect, climbing not recommended/ use care when sitting in the canoe.... Something less off-putting that allows folks and kids to touch and enjoy, and have fun?

Thank you, Jane

**Subject:** Safety Inspection of Canoe Art at Gallup Park

Mayor and Councilmembers:

Several of you expressed interest in the stability of the Canoe Fan sculpture at Gallup Park at last Monday’s Council meeting. As a follow-up, the Parks Department is having “do not climb” signage added at this site, along with the three other sculptures along the river. Safety staff inspected the sculpture, which is built on an engineered concrete slab. The structure supporting the sculpture is substantial and in good condition. We did find that a few bolts at the base of the sculpture that needed to be tightened. Park Operations is addressing this and has generated a recurring work request to conduct a safety inspection annually.

Please let me know if you have any questions or concerns.

**Howard S. Lazarus**

**Date:** Friday, May 10, 2019 1:22:27 PM

---

Thanks, Libby. Agree with Ali's "people's house" description and unfortunate and sad that this is necessary. Copying and highlighting some staff responses re: this below.

Also agree that building desk before vote was not good/proper process, and we were just being asked to approve the security contract. The response was not particularly responsive, and don't recall the FY19 budget providing any detail about city hall security upgrades. The Administrator's memo re: this followed/was simultaneous to the agenda item.

Thanks! Jane

-----

**CA-10 - Resolution to Approve a Contract with Liberty Security Group Inc. for Guest Services at the Guy C. Larcom City Hall (\$102,500.00) RFP #19-01**

**Question:** What, who, where did the idea of unarmed door greeters come from?  
(Councilmember Ramlawi)

**Response:** Unarmed greeters are a common practice with buildings of all varieties. This

is a common option in places where the public is welcomed and there is a desire not to intimidate members of the public and to create an atmosphere that is welcoming to all members of the community. If there is a need for armed personnel, as there sometimes is, the police will still be called to assist with public meetings, events, or other instances.

Their location in the Justice Center provides for fast response times and ready access to their expertise should it be needed.

**Question:** Will the persons staffing the "welcome counter" be trained by our city staff?

(Councilmember Ramlawi)

**Response:** The person staffing the counter will be trained both by the company and by our internal staff, who will bring them up to speed on building operations and common issues that they may face. Facilities, the police, the safety office, and IT are all involved

in managing this project. The police have been involved in drafting SOP for the front desk so they comport with operating standards required by the department.

**Question:** What are the net financial cost savings by “relieving” trained officers from securing Larcom? (Councilmember Ramlawi)

**Response:** This person will not be relieving trained officers. Police officers will still be called to city hall to provide protection for public meetings and events just as they are now. The greeter is here to help provide access control to the upper floors of the building, to provide direction for visitors who may not know where they should be going, and to monitor activities in the main lobby of the building. The only function that this person will replace from the police is locking up the city hall at the end of the day, which will replace a de minimis amount of time.

**Question:** What will the effect on emergency response time to Larcom be? (Councilmember Ramlawi)

**Response:** There should be no effect on emergency response time other than that in some instances an emergency call may be placed to 911 faster than if a staff person wasn't monitoring the lobby area. The location of the Police and Fire right next to City Hall provides a situation where response times are excellent to the begin with.

**Question:** Was the idea of an interactive “smart” kiosks explored as an alternative design

for guest interaction at Larcom? (Councilmember Ramlawi)

**Response:** This idea was considered early on, however it was considered more desirable to have visitors who come to City Hall interact with a person rather than with a computer. There is a particular benefit to having an individual here for members of the community who may not be tech-savvy or tech-capable.

**Question:** Is there a particular security concern that prompted the idea of hiring a security

firm for this location? (Councilmember Eaton)

**Response:** City Hall security has been a staff concern for some time. In addition to national stories about violence directed against institutions and active shooter issues, we have experienced uninvited persons dominating staff time, persons displaying threatening behavior, and persons in inebriated or incapacitated conditions in City Hall, including an incident of drug abuse in a public restroom. Compliance with building code egress requirements has also eliminated the City Attorney's Office from being secured.

The building security working group that has been working on this project for the last

year

included 22 employees, and asked for feedback from each city department on shaping

access control policies. Staff response to this project has been overwhelmingly positive.

Part of the rationale for this change is to improve security, but that is not all of the rationale

for this change. We also think that having a guest services professional in the lobby to welcome visitors will make people feel more welcome in city hall and will improve people's

experience when they come here. Many people come to city hall and struggle to locate

the right floor or office for their needs. This staff person will be able to greet them and help them find their way, regardless of where they are going

**Question:** Why are these duties being contracted rather than assigned to a City employee? (Councilmember Eaton)

**Response:** There are companies who specialize in this type of work, and who are able

to not only provide personnel for it but who are able to provide training, advising on standard operating procedures for this type of assignment, and can guaranty coverage of

the desk if an employee needs to take time off. If we were to cover this operation with internal staff, we would need to hire and train multiple staff members (Likely 4-5) to cover

all of the required shifts and provide backup coverage on sick days, vacation, personal time, etc.

**Question: Q1.** Perhaps I missed it or have forgotten, but I can't recall discussing/approving the new "guest services" desk in the Larcom atrium, hiring a security

firm to staff the desk, or the new access procedures referenced in the resolution and in

the Administrator's April 26<sup>th</sup> memo. Was there a previous resolution council approved or

conversation with council about all of these security-related changes?

(Councilmember Lumm)

**Response:** Council previously approved \$60,000 in funding for City Hall security in the

FY19 budget. While the concept of the project was discussed as part of the FY19 budget,

none of the work that has been done so far on this project has been presented to Council

because it does not meet the dollar threshold for Council approval. Additionally, Howard

Lazarus sent an email to Council on April 26, 2019 detailing the plan for security

improvements in the building.

**Question: Q2.** Presenting the proposal (and contract) for council approval to staff a Larcom Atrium desk after the desk has been built seems to be backwards. Can you please

comment on that and what happens if council does not approve CA-10?

(Councilmember Lumm)

**Response:** The desk was built separate from the contract. The contract is for the Guest

services staff who will greet visitors, help them find their way in the building, confirm appointments for anyone on floors 3-6, and provide elevator access to those individuals.

If Council does not approve CA-10, the capital improvements will remain in place, however we will not have Guest Services staff who will be able to complete these functions.

**Question: Q3.** What is the total cost (one-time up-front costs plus ongoing costs) of all

of the Larcom security improvements? Are there any other security improvements planned/contemplated beyond what was referenced in the Administrator's memo?

(Councilmember Lumm)

**Response:** The Larcom security improvements have focused on two areas to date, the

first being the project to provide ballistic protection to the Customer Service/Building Permits counter on the first floor, and the second being the Guest Services counter in the

atrium. The one time up-front costs for both these security improvements is approximately \$36,000. Ongoing costs for the Guest Services counter, including the staffing contract, are expected to be approximately \$120,000 per year. The only other security improvement in Larcom that is currently being discussed is the replacement of

the Clerk's front counter on the floor 2. This improvement would not only address a security deficiency, but also address an ADA compliance issue with the counter. This improvement is currently in conceptual status and no cost estimate has been prepared.

**Question: Q4.** The Administrator's memo references several access procedural changes and new requirements – visitor sign-in and sign-out required for visitors to floors

3-6; proximity card access only to floors 3-6; staff preparing daily visitor lists for the security firm; staff escorting visitors in off hours from lobby; staff and visitors wearing identification badges. While I'm sure these changes/new requirements improve security,

they also send a message/create a less welcoming environment for visitors. Can you please speak to that? Also, are the changes/new requirements driven by specific incidents or by safety/security concerns expressed by staff? Have staff been given the

opportunity to weigh in/shape the new requirements? (Councilmember Lumm)

**Response:** The recommendations are intended to provide access control to floors 3-6, and also to have a greeter in the lobby of city hall who can address questions and direct visitors as they need. Frequently people visit city hall and don't know where they need to go for a meeting or a service. Visitors to city hall walk around the main floor looking for direction every day. The Guest Services contract will alleviate this issue and provide a more welcoming environment for visitors. As far as providing floor access to floors 3-6, this is a security measure to prevent someone from having access to the whole building at will. The main floor and the second floor of the building contain public access functions of the city—the Customer Service desk, the City Clerk's office, the Independent Community Police Oversight Commission office, the Parking Referees, etc. There is a need for members of the public to be able to visit these areas freely. The basement cannot be security restricted for safety reasons. If there was severe weather and employees needed to evacuate to the basement, we would need it to be unlocked. Floors 3-6, however, are less commonly accessed by the public.

City Hall security has been a staff concern for some time. In addition to national stories about violence directed against institutions and active shooter issues, we have experienced uninvited persons dominating staff time and persons in inebriated or incapacitated conditions in City Hall, including an incident of drug abuse in a public restroom. Compliance with building code egress requirements has also eliminated the City Attorney's Office from being secured. The building security working group that has been working on this project for the last year included 22 employees, and asked for feedback from each city department on shaping access control policies. Staff response to this project has been overwhelmingly positive.

Ultimately, we feel that having a Guest Services desk will help create a more welcoming environment in the city hall by having a person there to greet people and direct them even if they don't need access to floors 3-6. But it should also create a safer, and therefore more welcoming, environment for all visitors by pre-clearing access to some of the floors in the building.

**Question: Q5.** Although we may call this a "guest services" desk, the desk itself and all

of the procedural changes are clearly about security. Given that, and assuming the purpose of the sign-in/sign-out is security, why wouldn't all visitors be required to sign in/

sign-out regardless of the floor/office they are visiting? (Councilmember Lumm)

**Response:** Part of the rationale for this change is to improve security, but that is not all

of the rationale for this change. We also think that having a Guest Services professional

in the lobby to welcome visitors will make people feel more welcome in city hall and will

improve people's experience when they come here. Many people come to City Hall and

struggle to locate the right floor or office for their needs. This staff person will be able to

greet them and help them find their way, regardless of where they are going.

We do not require all visitors to check in because the purpose of the Guest Services staff

is not to track all people's movements throughout the building. It is, in part, to control access to the floors where public access is not necessary for most business, and thereby

create some security for staff members and visitors who are on those floors. The 1<sup>st</sup> floor

is intended for public access with the customer service counter. The second floor contains

the City Clerk's office, the City Council Chambers, the Independent Community Police Oversight Commission and Human Rights office, and the parking referees, all of which

are offices that are intended for the public to have free access. Because of safety issues related to extreme weather, we cannot restrict access to the basement in the event that people are required to evacuate to it. However floors 3-6 do not have these similar demands and therefore can be restricted with little interruption to the public's enjoyment of City services.

Another display of inverted power relationships. Ramlawi is correct. City Hall is the people's house. The electorate holds the city's power, which is enormous. We

empower them. If the staff feels, and this is really principally about feelings because the crime rate has been declining for many years, what is staff doing that is causing so much anxiety and fear among them? Why aren't they feeling safe? Its interesting that its the Mayor's team that voted for this level of "protection". A guard under these circumstances assumes the role of general intimidator of the people who should be welcome in our hall, our municipal common house. A uniformed guard is not a welcoming figure. Since when is an invitation required to meet with a city staff person? Doesn't staff have open office hours any longer as is our tradition? If the perception is among staff that some people dominate their time, isn't that a sign that staff isn't adequately solving problems, including skillfully interacting with the public in a manner that enables them to get their work done? Aren't there sufficient people already patrolling public spaces including bathrooms? How are these problems at City Hall any more urgent than those at our public libraries?[less](#)

FOR IMMEDIATE RELEASE

May 2, 2018

Contact: Councilmember Kathy Griswold  
[kgriswold@a2gov.org](mailto:kgriswold@a2gov.org)

Ann Arbor Councilmembers Announce Exciting Opportunities for Residents to Serve on City Boards and Commissions

From Ann Arbor's Energy Commission and Planning Commission, to the Downtown Development Authority and the AAATA, City Councilmembers Kathy Griswold, Anne Bannister and Elizabeth Nelson invite residents to apply to share their expertise in support of city government.

"There are dozens of immediate and upcoming openings on City boards and commissions, and we're working to promote greater diversity of voices on them. Ann Arbor is full of residents who are qualified in so many areas. It's exciting!" said Griswold, a Democrat elected in 2018 to represent Ward 2. Griswold is one of four Democrats elected in 2018 by Ann Arbor voters eager to see changes to the political landscape.

Two years ago City Council voted to fund a dedicated position in the City Clerk's office to keep track of the over 250 board and commission appointments. Applications are accepted online through the city's

website: <https://www.a2gov.org/departments/city-clerk/Boards-and-Commissions/Pages/default.aspx>

The Ann Arbor City Clerk's office keeps track of board and commission terms and posts upcoming vacancies on the same page of the city's website.

Bannister, Griswold, and Nelson are working to make sure that board and commission vacancies are posted more widely. At Council meetings, Bannister announces appointment opportunities, inviting people to apply. Nelson also spreads the word about these vacancies, sharing the link to the city's website in all her newsletters and on her website.

The process of filling these positions is more collaborative than it ever was before. Since the 2018 election, City Council has adopted a new and improved policy for making appointments: where previously only the Mayor ever saw the pool of applicants, now the whole of Council can see the database of applications. Residents are advised to contact their Ward representative if they have an interest in applying or have already submitted an application.

Presently, the Ann Arbor Art Commission, the Building Board of Appeals, the Center of the City Taskforce, the Commission on Disability Issues, the Downtown Citizens Advisory Council and the Energy Commission are among the boards and commissions with immediate and upcoming openings.

"I appreciate the service of those board and commission members who've served on multiple boards and commissions for extended terms, but in the spirit of inclusion and diversity it's time for the city to more widely recruit residents," said Griswold. "The Downtown Citizens Advisory Council, for instance, has multiple openings and we have thousands of new residents downtown. The DCAC advises the DDA. If you're new to downtown living in Ann Arbor, why not apply?"

Kathy Griswold  
Ann Arbor City Council

**Subject:** Micro Grids

Friends:

Representative Rabhi is co-sponsoring **House Bill 4477** which opens up opportunities for **Solar Micro Grids**. Solar Micro Grids offer significant opportunities to non-municipal utility communities to generate and use solar power. It also opens up the Community Solar option. The following are some of the more critical parts of the proposed bill, (my yellow highlights):

(C) "CRITICAL FACILITY" INCLUDES, BUT IS NOT LIMITED TO, ANY HOSPITAL OR MEDICAL FACILITY THAT PROVIDES LIFE SUPPORT, POLICE STATION, **FIRE STATION, WATER TREATMENT PLANT**, SEWAGE TREATMENT PLANT, PUBLIC SHELTER, CORRECTIONAL FACILITY, EMERGENCY COORDINATION CENTER, MILITARY SITE, RESIDENTIAL FACILITY FOR THE ELDERLY, OR ANY OTHER FACILITY THE COMMISSION DESIGNATES AS CRITICAL.

(D) "EMERGENCY" MEANS WHENEVER THE MACROGRID IS INOPERABLE OR 18 WHENEVER THE POWER QUALITY IN THE MACROGRID IS OUT OF SPECIFICATIONS.

(E) "ISLAND MODE" MEANS THAT A MICROGRID IS IN A STATUS IN WHICH LOADS AND ENERGY RESOURCES WITHIN THE **MICROGRID** ARE ABLE TO OPERATE BUT POWER IS NOT EXCHANGED WITH THE UTILITY-OWNED TRANSMISSION OR DISTRIBUTION NETWORK.

(F) **"MICROGRID"** MEANS A GROUP OF INTERCONNECTED LOADS AND 25 DISTRIBUTED ENERGY RESOURCES WITH CLEARLY DEFINED ELECTRICAL BOUNDARIES THAT ACTS AS A SINGLE CONTROLLABLE ENTITY WITH RESPECT TO THE MACROGRID AND THAT CONNECTS AND DISCONNECTS FROM THE MACROGRID TO **ENABLE IT TO OPERATE IN GRID-CONNECTED OR ISLAND MODE.**

**This bill deserves our attention and support!**

I wanted to say this during or after the meeting but it felt inappropriate and insensitive to do so in front of Mr. Roberts.

Anne--

In the future, I would suggest that you not use phrases like "it's funny you should mention..." or "funny you bring that up" in relation to the mention of suicide particularly as a segue to talk about your agenda items. The mention of suicide or someone's suffering is not "funny" nor is it peculiar, odd, or strange as you may have meant by using that particular turn of phrase. It is tragic and heartbreaking and Mr. Roberts showed that plainly in his telling.

I know we can all be better about our use of language sometimes but this was a particularly difficult one to observe. If anyone has a way of getting in touch with Mr. Roberts, the following link is an information page about a free monthly support group held in town for those who have lost a friend or loved one: [https://afsp.org/support\\_group/ann-arbor-suicide-loss-survivor-support-group/](https://afsp.org/support_group/ann-arbor-suicide-loss-survivor-support-group/)

Best,  
Foster

Mr. Fournier,

Thank you for your apology. Apology accepted.

As must be apparent by now, I had an entirely different impression of [REDACTED] [REDACTED]. In fact, my very favorable impression, which I assumed was shared by Howard and Kim, was such that I said to both of them after the interview concluded, that I wanted to read his book.

As you can also see/appreciate, I am questioning the value placed on participation when there's such a disconnected exchange of information or feedback left unsought. In the end, for me, it was nice to be invited, but an unrewarding experience. I appreciate your kind words about my experience/history, but also appreciate I added no value as my assessment was not a material factor.

Thank you, Jane

MPT Lumm,

I would like to apologize that you were not informed of the decision to not bring the fourth candidate to Ann Arbor for on-site interviews. I can assure you that your participation in the phone interviews did add value

to the process by illuminating issues and areas of focus that otherwise would not have been addressed through your follow up questioning, and your involvement was greatly appreciated. The value you bring is the years of experience and institutional knowledge you have accumulated as a long-tenured member of Council, which is a unique perspective among city leadership.

However, after the interviews concluded the impression of staff was that the fourth candidate's performance in the phone interviews ruled them out from further consideration. That is an opinion that was shared strongly by Howard and Kim. And so, the fourth candidate was not invited to participate.

Nonetheless, I will readily acknowledge that you should have been informed.

Thanks,  
John

**Subject:** RE: Education/Experience Requirements

Hi Christopher,

For me, it ain't and never was about the BA/MA/MS. It's about the process, what has gotten us to where we are now.

---

I was the only CM who showed up for the phone interviews, and I now feel like it was a waste of time. My input, my evaluation, my feedback was not requested (I did dedicate half a day to doing this as I thought it was important), and yes, I was completely taken by surprise that [REDACTED] [REDACTED] was eliminated by Mr. Lazarus. Mr. Lazarus clearly didn't think it was of importance to let me know that he would be eliminated so why on Earth would I not be surprised that the finalist pool of four were not being advanced? Don't you think, wouldn't any one think, that if any of these four candidates would be eliminated, they'd show up to participate in the phone interviews? Of course they would. At the very least, we would have been told/instructed going into these interviews that this was a possibility. And, at the least, you think Mr. Lazarus or HR would have had the most basic courtesy to tell me that any one of these individuals could be/would be or was to be eliminated. No, can't do that. Jane's feedback? Immaterial. Of no consequence. I found out about [REDACTED] [REDACTED] elimination through the PR. That was a stunning disregard for good, helpful and decent communication... 101.

So, lesson learned. What a fool I am. Of course I said to each one of these candidates, that I looked forward to meeting them. Those weren't just words, I meant it. Fool me once...

Jane

**Subject:** RE: Education/Experience Requirements

Hi Jane,

Thanks for this.

I'm glad that staff included the CMs in that part of the process. It will help with interviews, I suspect.

My concern is that I have received reports that staff is accused of adjusting the educational criteria so as to snowplow a candidate.

I do not know these reports to be true.

What I do know to be true is that the BA Required / MA Preferred criteria are identical across the 2015 Search and the 2019 Search.

If the reports are correct, and if CMs are in a position to correct the record, I believe that is important to do so so as to not denigrate staff in the community and as to not cast an inaccurate shadow over the process that identifies the eventual Chief.

Christopher

**Subject:** RE: Education/Experience Requirements

Thanks, Christopher.

I will just share that of the four candidates I interviewed on 4/17/19 (CM's Ramlawi, Grand, Ackerman and I were invited to participate in these interviews; all interviews w/the outside candidates were scheduled by HR as phone interviews and DC Forsberg's interview was planned as an in-person interview), three candidates: Michael Cox, Boston PD Bureau Chief, [REDACTED] and Bryan Jarrell, Prescott Valley, AZ Chief of Police, all have masters degrees. DC Forsberg does not have a masters degree, and so perhaps this is what has contributed to the concern you describe.

Again, it had been my assumption that all four comprised the finalist pool of candidates for everyone's review. I did not know that [REDACTED] was eliminated from consideration until I received the announcement about the community meet and greet. I do not understand what criteria was used to eliminate [REDACTED] from consideration.

Jane

**Subject:** Education/Experience Requirements

All,

I have been told, perhaps inaccurately, that members of the public have been told that staff altered the Chief search Education/Experience requirements so as privilege a candidate. Please see attached the brochures from our 2015 search and our 2019 search. You will see that the treatment of a master's degree is identical.

If reports are true, I'd be grateful for your efforts to correct the record to those who may have been exposed to these false and corrosive statements.

If I have been inaccurately informed about the state of the rumor mill, well it wouldn't be the first time; in that case please forgive this communication.

Christopher

# City of Ann Arbor Chief of Police

## The Community

A bustling downtown and charming neighborhoods make Ann Arbor an ideal place to live, learn and work. As an organization, the City of Ann Arbor's nearly 700 employees provide services to the city's more than 114,000 residents and maintain and enhance the 28 square miles of city limits.

Ann Arbor, known for its acres of trees and progressive environmental initiatives, has something for every interest — performance venues, museums and world-class dining and shopping — from the Ann Arbor Farmers Market and local boutiques to national retailers. Nearly 160 city parks, two city golf courses, two city canoe liveries on the Huron River and endless trails entice residents to enjoy the city's great outdoors.

## Accolades

The city takes pride in the service provided to our citizens and our community's well-earned reputation. Recent honors include:

- 2015 – Highest-paying ZIP code in Michigan, according to U.S. Census data (No. 3), NerdWallet
- 2015 – Best College City (No. 9), among medium-sized cities, WalletHub.com
- 2015 – Park Design of the Year Award (for Veterans Memorial Park Skate Park), Michigan Recreation and Park Association
- 2015 – Innovative Park Resources of the Year Award (for citizen pruner program), Michigan Recreation and Park Association
- 2015 – Nation's Most Innovative Tech Hub (No. 12), Nerdwallet.com
- 2015 - 50 Best College Towns to Live in Forever (No. 20), College Ranker
- 2015 – 10 Most Beautiful Towns in Michigan, Culturetrip.com
- 2015 – Top 20 Municipal Golf Courses in America (Leslie Park Golf Course), Gearpatrol.com
- 2014 – Best Digital City (No. 2) for use of technology to create a seamless environment between government and citizens, eRepublic's Center for Digital Government and Digital Communities Magazine

### **Accolades Continued...**

- 2014- Top Community Well-being, Gallup Healthways
- 2014 – Top 10 Best City for New College Grads (No. 7), Livability.com
- 2014 – Most Educated Cities (No. 1), Forbes.com
- 2014 – Best Places to Live, Money.com
- 2014 – Top 100 Best Cities to Live (No. 13), Livability.com
- 2014 – The 10 Best Midsize Cities to Raise Children (No. 3), MyLife.com
- 2014– The 10 Most Intelligent Towns College Towns in America (No. 1), Zoomtens.com
- 2014 – Top 25 Most Beautiful Cities in America, BudgetTravel.com
- 2014 – Best Cities for Well-Being (No. 6), USA Today and Gallup
- 2014 – Times Higher Education World Rankings (No. 15), University of Michigan
- 2014 – Top 25 Ranked Business and Economics Programs with the Best Return on Investment, University of Michigan, BestValueSchools.com
- 2014 – America's Best Main Streets South Main Street, Ann Arbor, The Huffington Post and Fodor's Travel.

### **Government**

Ann Arbor has a Council-manager form of government. The City Administrator is responsible for managing the operations of the City and reports directly to the City Council. The Police Chief reports directly to the City Administrator.

The City Council consists of the Mayor and ten Council members, two from each of Ann Arbor's five wards. One half of City Council is elected in annual partisan elections. Members serve two-year terms. The Mayor is elected on a partisan ballot every even year. The Mayor is the presiding officer of the City Council and appoints all Council committee members and members of many boards and commissions, with the approval of City Council.

## **The Police Department**

The Ann Arbor Police Department has 122 sworn police officers included in the overall staff of 149. The AAPD is a full-service department with many services and units. These include a detective section, Metro SWAT, hostage negotiation team, under water search and rescue, polygraph, computer forensics, traffic services unit, K9, motorcycle and bicycle patrols, as well as a neighborhood watch and crime prevention unit. The AAPD road patrol is committed to a community-oriented policing philosophy and strives for a high level of community engagement.

### *Mission Statement*

The City of Ann Arbor's mission is to deliver exceptional services that sustain and enhance a vibrant, safe and diverse community.

## **The Position**

The Chief of Police has the overall responsibility for the direction and control of the department. The Chief of Police, as the Chief Administrative Officer of the department, has both the responsibility for the efficient management and operation of the department and the direction and control of its members for the purpose of the effective and efficient enforcement of all laws and ordinances which the police have authority to execute.

The Chief of Police shall keep the City Administrator informed of important events, criminal conditions and unusual occurrences within the City. The Chief shall furnish such statistics and suggestions deemed advisable for the improvement of the police services.

## **Essential Duties and Responsibilities**

- Supervise Deputy Chiefs, Lieutenant in Professional Standards Section, Emergency Manager, and Office Administrator.
- Assume full management responsibility for police department services and activities; recommend and administer policies and procedures.
- Manage the development and implementation of goals, objectives, policies, and priorities for each assigned service area in the department; establish appropriate service and staffing levels; allocate resources accordingly.
- Continuously monitor and evaluate the efficiency and effectiveness of service delivery methods and procedures; assess and monitor workload, administrative and support systems, and internal reporting relationships; identify opportunities for improvement; direct the implementation of changes.
- Develop and/or maintain professional working relationships with other city departments, elected officials and outside agencies, community and university officials, police unions, and media representatives; explain, justify and defend department programs, policies and activities; negotiate and resolve sensitive, significant and controversial issues.

## Essential Duties and Responsibilities Continued...

- Select, train, motivate, evaluate, and promote department personnel; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline and termination procedures; oversee personnel investigations regarding police actions; prepare performance appraisals.
- Plan, direct and coordinate, through subordinate level managers, the work plan of the Police Department; meet with management staff to identify and resolve problems; assign projects and programmatic areas of responsibility; review and evaluate work methods and procedures; meet with all department employees either individually or in groups to discuss work methods and procedures and progress toward meeting goals and objectives.
- Manage and participate in the development and administration of the department budget; direct the forecast of additional funds needed for staffing, equipment, materials and supplies; direct the monitoring of and approve expenditures; direct the preparation of and implement budgetary adjustments as necessary.
- Coordinate the activities of the department with those of other departments and outside agencies and organizations; provide staff assistance to the City Administrator, City Council; prepare and present staff reports and other necessary correspondence.
- Direct regular staff meetings of the department; review activity reports and crime reports and statistics; prepare a variety of reports regarding departmental activities, programs and projects.
- Communicate and interact with a diverse and politically active community.
- Participate on a variety of boards and commissions; attend and participate in professional group meetings, City Council meetings; prepare and present programs for various community organizations; stay abreast of new trends and innovations in the field of law enforcement and community events and activities.
- Participate in firearms training in order to maintain proficiency.
- Respond to and resolve difficult and sensitive citizen inquiries and complaints.

## **Knowledge, Skills and Abilities**

- Operational characteristics, services and activities of a comprehensive law enforcement program.
- Technical and administrative aspects of crime prevention and law enforcement including investigation and identification, patrol, traffic control, records management, care and custody of persons, property and environmental protection.
- Pertinent federal, state, and local laws, codes and regulations.
- Specialized communications equipment.
- Organizational and management practices as applied to the analysis and evaluation of programs, policies and operational needs.
- Safe work practices and procedures.
- English usage, spelling, grammar, and punctuation.
- Modern and complex principles and practices of leadership, program development and administration.
- Advanced principles and practices of municipal budget preparation and administration.
- Principles of supervision, training and performance evaluation.
- Business letter writing and report preparation.
- Advanced law enforcement principles and the criminal justice system.
- Principles and procedures of record keeping.
- CALEA and the accreditation process.
- Applicable union contracts.

## **Equipment**

Computer and software applications, fax machine, copier, telephone, and other miscellaneous office equipment.

## **Education and Experience**

Qualified candidates should have a Bachelor's degree from an accredited university with major course work in criminal justice, police science, public administration or a related field; a Master's degree is preferred. Advanced education and training at the FBI Academy, Southern Police Institute, or similar institution is required.

## **Licensing Requirements**

- Possession of a valid Michigan driver's license.
- Certification as a police officer by the MLEOTC.

## **The Ideal Candidate**

The ideal candidate must possess a minimum of ten years proven experience at a Command Level with at least two years in an Executive Level which include Assistant Chief, Deputy Chief or Chief. Relevant work experience in a City or County of similar or larger size and complexity as Ann Arbor is preferred. The ideal candidate should have experience and knowledge of community policing strategies. It is essential that the incoming Chief of Police has experience working in an environment with complex labor relations and has had proven success in establishing collaborative, diplomatic working relations with labor and employee associations.

The ideal candidate must exhibit strong relationship-building skills in working with the entire organization and the community. Experience with a diverse, highly engaged, university community will be beneficial for the successful candidate. The Chief of Police should be active and visible in the community, personally taking part in civic and community activities and events. The ability to give effective oral presentations and advanced written and oral communication skills are imperative.

The ideal candidate will be skilled in creating a positive atmosphere for employees in the organization and within the Police Department. The ideal candidate must have the capacity and interest to be an effective mentor and leader for staff. Strong collaboration and team building skills will be necessary for this individual to be successful.

The successful candidate must embrace a willingness to be open and transparent. The successful candidate should be approachable and personable and must value integrity and have a strong commitment to ethics.

## **Salary**

The City of Ann Arbor is offering a competitive salary commensurate with experience and a comprehensive benefits package. Relocation assistance will also be available for a successful out of area candidate.

## How to Apply

Applicants should forward a cover letter and resume to:

# POLICE CHIEF

CITY OF ANN ARBOR, MICHIGAN

EXECUTIVE SEARCH PROVIDED BY STRATEGIC GOVERNMENT RESOURCES

*Motto:*

**TO DELIVER EXCEPTIONAL SERVICES THAT SUSTAIN AND ENHANCE A VIBRANT, SAFE AND DIVERSE COMMUNITY.**

## THE COMMUNITY

Ann Arbor is the fifth largest city in Michigan and the county seat of Washtenaw County. The City is located approximately 40 miles southwest of Detroit and covers 28.6 square miles. The City has a population of 121,477 residents who enjoy convenient access to world-class amenities, exceptional schools, and excellent recreational opportunities.

Ann Arbor was founded in 1824 by John Allen of Virginia and Elisha Rumsey of New York; that same year it became the seat of Washtenaw County. The City has continued to experience major growth since it was founded. Beginning with a population of 50, it is now the largest city in Washtenaw County.

Although Ann Arbor lost the competition to become the state capital to the City of Lansing, it did win the University of Michigan. Since the opening of the U of M in 1841, Ann Arbor has emerged as the education capital of the Midwest. The university significantly shapes Ann Arbor's economy as it employs about 30,000 workers, including about 12,000 in the medical center. The City's economy is also centered around high technology, with several companies drawn to the area by the university's research and development infrastructure.

Ann Arbor is known for its globally-inspired cultural offerings and is home to renowned galleries, museums, and arts non-profits, as well as theatrical and musical organizations that offer performances from local, regional, and international artists. Two of the most recognizable traditions are the Ann Arbor Art Fair and Ann Arbor Summer Festival, in addition to a number of other popular community events held throughout the year.

An urban oasis, the City has 159 city parks and 15 parks facilities, including two golf courses designed by legendary architects, two canoe liverys on the Huron River, indoor and outdoor ice rinks, Ann Arbor Skatepark, three outdoor pools, one indoor pool, Ann Arbor Farmers Market, volunteer programs, a senior center, and trails designed for hiking and cross-country skiing.

## THE COMMUNITY CONTINUED

Ann Arbor Public Schools is a top-rated, public school district. It has 17,233 students in grades PK-12 with a student-teacher ratio of 18 to 1. According to state test scores, 66% of students are proficient in math and 70% in reading.

The results of the 2018 National Citizen Survey (NCS) for the City of Ann Arbor revealed that nearly all resident participants (94%) rated the quality of life in Ann Arbor as excellent or good, which is higher than the national benchmark. Furthermore, 84% of the respondents provided a positive rating for the Ann Arbor Police Department. To learn more about the NCS Community Livability Survey, please review the [report](#).

### CITY ORGANIZATION

The City of Ann Arbor operates under the council-manager/administrator form of government. The City Council consists of the Mayor and ten Council members, two from each of Ann Arbor's five wards. One half of City Council is elected concurrent with the state's general election, in partisan elections, with members serving four-year terms. The Mayor is elected on a partisan ballot every four years concurrent with the gubernatorial election. The Mayor is the presiding officer of the City Council and appoints all Council committee members and members of many boards and commissions, with the approval of City Council.

Howard Lazarus has served as Ann Arbor's City Administrator since June 2016, bringing more than thirty years of diverse experiences to the position. He previously served as the Public Works Director for the City of Austin, Texas.

# ABOUT THE POLICE DEPARTMENT

## *Mission Statement:*

**To provide protection and service to all.**

## *Vision Statement:*

**All Ann Arbor police personnel are partners with the public and city administration to help the community successfully fulfill its desired destiny.**

The Ann Arbor Police Department is a full-service department with many services and units. These include a detective section, traffic services unit, K9, and motorcycle and bicycle patrols, as well as a community engagement unit that includes neighborhood watch and crime prevention. The AAPD road patrol is committed to a community-oriented policing philosophy and strives for a high level of community engagement.

In 2018, the Police Department became 1 of 12 agencies in the state of Michigan that are accredited by the Commission on Accreditation of Law Enforcement Agencies (CALEA). The purpose of CALEA and the Accreditation Program is to improve the delivery of the public safety services by maintaining a body of standards that cover a wide range of up-to-date public safety initiatives.

There are 124 sworn police officers included in the overall staff of 151 in the department, with most employees represented by the Ann Arbor Police Officers Association; Command Officers Association of Michigan; Ann Arbor Police Professional Assistants; Police Service Specialists; American Federal, State, County, and Municipal Employees; and Teamsters.

## ABOUT THE POSITION

---

The Police Chief has the overall responsibility for the direction and control of the department and, as the Chief Administrative Officer of the department, has both the responsibility for the efficient management and operation of the department and the direction and control of its members for the purpose of the effective and efficient enforcement of all laws and ordinances which the police have the authority to execute.

The Police Chief reports to the City Administrator, informing him/her of important events, criminal conditions, and unusual occurrences within the City. The Chief furnishes statistics and suggestions deemed advisable for the improvement of police services.

## CHALLENGES AND OPPORTUNITIES

---

The City Council adopted a resolution in October 2018 establishing an Independent Community Police Oversight Commission. The Commission will consist of 11 voting members, one of which will be a youth member, with the inaugural members to be appointed around the same time the Police Chief is selected. The Commission shall provide recommendations to the Police Chief, the City Administrator, and the City Council with respect to matters concerning the department. They will have the ability to review the operations of the Ann Arbor Police Department and aid in the selection of the Police Chief. Ann Arbor's successor Police Chief will need to develop a close working relationship with the Commission as its functional status will be commencing with the appointment of the new Police Chief. A copy of the ordinance establishing the Independent Community Police Oversight Commission can be viewed at: <https://bit.ly/2BrMGhq>

The Police Chief will play an instrumental role in the development of a revised Police Department Strategic Vision that is thoroughly shared with all levels of the organization and with the community to ensure a common understanding of the department's vision, mission, and goals. As part of this process, the department desires to embrace a strong commitment to community policing, increased use of data-driven deployment of personnel, and a commitment to engaging residents and community stakeholders in a proactive and transparent manner.

## CHALLENGES AND OPPORTUNITIES

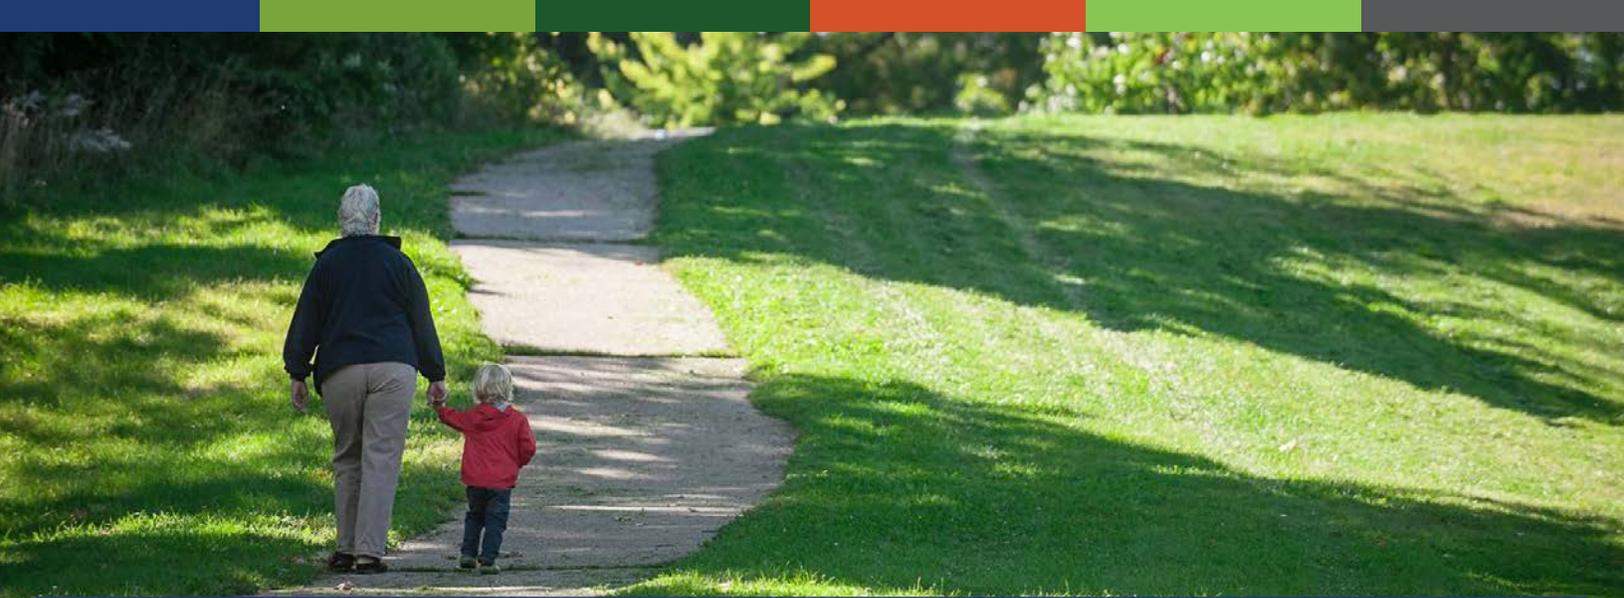

CONTINUED

Following an incident in November 2014, which involved the City's first officer-involved shooting incident in 30 years, resulting in the death of a resident during the response to a disturbance call, the City engaged Hillard Heintze to assess the Ann Arbor Police Department in the Independent Analysis of Community Engagement Practices Study. The study focused on the following five areas within the AAPD:

- Community Engagement & Civilian Oversight
- Citizen Complaints & Discipline
- Commission on Accreditation of Law Enforcement Agencies (CALEA) Readiness
- Personnel Management Practices
- Training

As mentioned above, the department became accredited by CALEA in 2018, and the City has subsequently established the Independent Community Police Oversight Commission. The recommendations from this Commission will likely serve as a foundation for other organizational changes the new Police Chief will face in his or her new role.

## IDEAL CANDIDATE

The City of Ann Arbor seeks a progressive, collaborative, customer service-oriented law enforcement professional to serve as its new Police Chief. The ideal candidate must exhibit strong relationship skills with the entire organization and community and possess high emotional intelligence. The successor Police Chief will need to be comfortable and skilled in establishing a close rapport with the Ann Arbor community and its diverse citizenry, especially as the new Independent Community Police Oversight Commission establishes its footing.

Experience with a diverse, highly-engaged university community will be beneficial for the successful candidate. The next Police Chief must embrace a culture of accountability and transparency. The next Chief should be a transformative inspirational leader who is creative, innovative, and energetic. He or she should have a demonstrated history of developing and maintaining strong interagency coordination and partnerships given the relationship in managing large community and sporting events with the Washtenaw County Sheriff's Department and University of Michigan Public Safety Department.

The Police Chief should be a servant leader and be active and visible in the community, personally taking part in civic and community activities and events. Advanced written and oral communication skills are imperative. The chosen candidate should be approachable, ethical, and personable and possess high levels of integrity and honesty. He or she should be able to establish and articulate a clear strategic vision and direction to the department and to the public.

The selected Police Chief will be skilled in creating a positive atmosphere for employees within the department and throughout the organization. The ideal candidate must have the capacity to be an effective mentor and leader for staff. Strong collaboration and team building skills will be necessary for this individual to be successful. The successor Chief will promote non-violent de-escalation techniques as initial department response by its officers. Discernment skills with an eye to anticipate outcomes and mitigate potential negative unintended consequences will be beneficial.

The chosen candidate should have experience with and knowledge of community policing strategies. It is essential that the incoming Police Chief has experience working in an environment with complex collective bargaining labor relations and a proven track record in establishing collaborative, diplomatic working relations with labor and employee associations. The Chief should also understand how to leverage technology to enhance service and increase efficiency.

## EDUCATION AND EXPERIENCE

The selected candidate must hold a bachelor's degree from an accredited university with major coursework in criminal justice, political science, public administration, or a related field; a master's degree is preferred. Advanced education and training at the FBI Academy, Southern Police Institute, or a similar institution is required.

The next Police Chief must also possess a minimum of ten years of proven experience at a command level, with at least two years of experience at the executive level (Assistant Chief, Deputy Chief, or Chief). Relevant work experience in a similarly sized city or county with the same complexity as Ann Arbor is preferred. Labor/collective bargaining experience is required.

Out-of-state candidates must be licensed or eligible to be licensed to work as a sworn police officer in the State of Michigan. Individuals who have previous law enforcement training and/or experience may seek eligibility for Michigan Law Enforcement Licensure through the Recognition of Prior Training and Experience (RPTE) program. A waiver of mandatory basic police training may be granted to a person who was previously a police officer in Michigan or another state or to a Michigan pre-service candidate who is seeking additional years of eligibility. Out-of-state candidate applications for the RPTE program will not be accepted unless the candidate has completed at least one year of full-time, fully empowered, paid police service following his/her police training. Out of state applicants can view the Michigan Commission of Law Enforcement Standards at: <https://www.michigan.gov/mcoles/0,4607,7-229--148071--,00.html>

## COMPENSATION AND BENEFITS

The City of Ann Arbor offers a highly competitive starting salary depending on qualifications and experience. The City provides a full range of benefits, including health, dental, and vision insurance; life insurance; Retirement Health Reimbursement Account; hybrid pension plan; paid vacation; sick and personal leave; and tuition reimbursement.

Dear Robin,

Thank you for scheduling an emergency meeting of the ICPOC to discuss the police chief recruitment process. I understand your concerns.

I also understand that there may be some confusion about the degree of engagement by the former HR Director in the hiring process. To clear up any confusion, I attach the email exchange from below. As you might reasonably presume, she was the lead person who worked closely with the consultant and the City Administrator (Ms. Wilkerson was his direct report) on the search process.

Thanks again for your leadership on this matter. I will respond to the entire group to RSVP the meeting and to express support for your decision to call a meeting.

Best regards, Jane

Dear CM Lumm,

Yes, all of City Council will be involved in the onsite interview process for the final candidates. The proposed phone interview process that you have been invited to participate in would narrow down the pool to the finalists who would come to A2 and meet everyone.

We will also have interview panels for at least five (5) other groups: Senior Management, ICPOC, Law Enforcement-Legal, AAPD Union leadership and A2 Community members. We are in the process of finalizing who will participate on these various interview panels.

I hope this helps to clarify the process. Please feel free to contact me with any additional questions or concerns and let me know what day/time works best for your schedule.

Thanks!  
Robyn

**Subject:** RE: Police Chief recruitment

Ms. Wilkerson,

Thank you for this update on the police chief hiring process, and for the invitation to participated in the phone interviews. I would very much like to participate.

As you know, I have advocated from the start of this hiring process to provide the community and council (all of council) the opportunity to interview the final pool of candidates. So, to confirm, the phone interviews are to interview all applicants/a pool of applicants? to arrive at a recommended list of "x" # of finalists? Then, would council have the opportunity to interview the candidates, and, would this occur in late April? Also, as in a previous police chief search I participated in, there were several interview panels – a citizen group (made up of 2 citizen reps/ward for a total of 10 people), an AAPD officers group, a council group, and a staff group. I think obtaining this citizen, council, AAPD and staff/other input would provide instructive feedback.

I do recall that when we had these panel interviews, the AAPD panel ranked the internal (was a DC at the time) candidate highly (all "4's from all four, I believe, officers who were selected to participate) and scored all other candidates "0". So, there was an obvious internal bias on the part of the AAPD. At the time, the City hired (City Administrator's recommendation wch was supported by Council) an outside candidate, not the DC.

Thanks again, Jane

Dear CM's,

As you may know, the application process for the Police Chief closed yesterday, March 25<sup>th</sup>.

We have developed a tentative timeline for the selection process that includes phone interviews during the week of April 15<sup>th</sup>.

We would like to invite you to be part of that phone interview process, which would select the final candidates that would be brought to Ann Arbor later in April.

Please let me know your potential availability for the week of April 15<sup>th</sup>. Specifically, what days of the week and times of the day work best for your personal and professional schedules.

Thanks in advance for your participation.

Robyn

Mr. Lazarus,

Thank you for discussing my concerns about the remark attributed to Robyn Wilkerson about me. It was my understanding that she had told AFSCME Local 369 President Curtis Morris that he should not trust me. You explained that Ms. Wilkerson's statement was misunderstood by Mr. Morris. I asked that you request that Ms. Wilkerson write to Mr. Morris to clarify what she said and more importantly what she meant. It is important that employees know that staff has not disparaged a Council member and additionally that it is understood that such statements would not be tolerated.

Again, thank you for looking into this and following up with me.

Best wishes,  
Jack

**Subject:** personnel request

Mr. Lazarus,

I write to express my concerns about a statement attributed to a member of your staff. I ask that you look into this and if confirmed, take action.

I met with Ian Robinson, President of the Huron Valley Area Labor Federation, and Curtis Morris, President of AFSCME Local 369 to discuss contracting of solid waste services. During our discussion, Mr. Morris told me that in a meeting with City staff about contracting services, he mentioned the May 21, 2018 City Council resolution addressing contracting solid waste services. Mr. Morris told me that Robyn Wilkerson, Human Resources Director, said to him that he should not trust Jack Eaton.

If Ms. Wilkerson made this comment, I am extremely disappointed in her lack of professionalism and apparent disrespect for Council. If she made that comment, I hope that you will insist that she offer an apology to me. I also ask, if it is true, that you direct her to inform Mr. Morris that she understands that comment to be inappropriate.

The conduct of your staff reflects directly on your performance. I think it is reasonable for me to ask that you investigate and take appropriate action.

I have copied Council Member Lumm and Mayor Taylor, because they are the senior members of the Council Administrative Committee.

Best wishes,  
Jack

Jack, Kathy,

This makes me very uncomfortable. Not fair/appropriate to have local folks do this at this juncture. You think perhaps DC Fosberg put in a request for this? Don't know what else would precipitate us receiving a recommendation at this juncture since no interviews, no community meetings... have been conducted yet.

This is feeling political, not professional. Which, I gotta say, is a complete turnoff for me. -Jane

Dear Ms. Patino,

Thank you for your letter of endorsement for DC Fosberg based upon your positive interactions w/DC Fosberg.

As you may know, we, i.e., City Council, the Independent Police Oversight Commission, the Ann Arbor Community, have not yet had the opportunity to meet and evaluate the finalist pool of candidates (originally 4, now just 3), so we have not yet begun our assessments. I did have the opportunity to interview three of the four finalist candidates by phone, and DC Fosberg in person. As with all candidates for this position, and obviously recognize that DC Fosberg has the benefit of being the only local candidate with local ties and relationships, I anticipate that we will receive feedback resulting from the candidate meetings and interviews.

Thanks again for writing on behalf of DC Fosberg's application for Chief of Police.

Sincerely, Jane Lumm

**Subject:** Support for Deputy Chief Jason Forsberg

Mr. Lazarus, Mayor Taylor, and City Council Members,

I am reaching out to express my enthusiastic support for Deputy Chief Jason Forsberg. I am

very hopeful he will become our next Chief of Police. Over the past year, DC Forsberg and I have partnered closely to strengthen partnerships between AAPD, Avalon Housing, Community Mental Health (CMH), the Ann Arbor Housing Commission (AAHC), and the Shelter Association of Washtenaw County (SAWC).

DC Forsberg is a leader who believes in community engagement, is responsive, creative, and open minded to models that better serve our most disenfranchised residents. He is quick to respond when needed, and takes accountability in a meaningful way. He's discerning, but not risk averse. He clearly understands that his department is strengthened by partners like Avalon, and has gone out of his way to demonstrate the importance of cultivating relationships with the social service sector throughout the community.

I have spent most of my 13 year tenure with Avalon on the "front lines" where interfacing with AAPD has been an inevitable part of the job. I have immense respect for many officers in the department, and have heard personally from several of them about how much they respect and appreciate DC Forsberg.

After a critical incident at one our properties, DC Forsberg and I came together to develop a more preventative approach to serving our residents, those living at AAHC, and others with behavioral health issues across the community. This resulted in bi-weekly meetings with leadership from CMH, Avalon, AAPD, AAHC, and SAWC. Together, we are looking at cases where AAPD is responding to behavioral health needs, and are shifting that response to CMH or Avalon, where appropriate. We are also collaborating to ensure that the safety of our residents is upheld in ways that protects them, without victimizing them. Our community has long needed a more community based policing model, and under DC Forsberg's leadership, I feel that's truly possible.

I highly recommend Deputy Chief Forsberg be appointed Chief. If I can be of further assistance, or provide you with any other information, please do not hesitate to contact me.

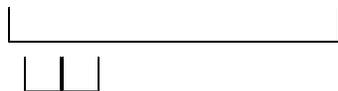

Yours sincerely,

Aubrey

As you may know, we, i.e., City Council, the Independent Police Oversight Commission, the Ann Arbor Community, have not yet had the opportunity to meet and evaluate the finalist pool of candidates (originally 4, now just 3), so we have not yet begun our assessments. I did have the opportunity to interview three of the four finalist candidates by phone, and DC Fosberg in person. As with all candidates for this position, and obviously recognize that DC Fosberg has the benefit of being the only local candidate with local ties and relationships, I anticipate that we will receive feedback resulting from the candidate meetings and interviews.

Thanks again for writing on behalf of DC Fosberg's application for Chief of Police.

Sincerely, Jane Lumm

**Subject:** Support for Deputy Chief Jason Forsberg

Mr. Lazarus, Mayor Taylor, and City Council Members,

I am reaching out to express my enthusiastic support for Deputy Chief Jason Forsberg. I am very hopeful he will become our next Chief of Police. Over the past year, DC Forsberg and I have partnered closely to strengthen partnerships between AAPD, Avalon Housing, Community Mental Health (CMH), the Ann Arbor Housing Commission (AAHC), and the Shelter Association of Washtenaw County (SAWC).

DC Forsberg is a leader who believes in community engagement, is responsive, creative, and open minded to models that better serve our most disenfranchised residents. He is quick to respond when needed, and takes accountability in a meaningful way. He's discerning, but not risk averse. He clearly understands that his department is strengthened by partners like Avalon, and has gone out of his way to demonstrate the importance of cultivating relationships with the social service sector throughout the community.

I have spent most of my 13 year tenure with Avalon on the "front lines" where interfacing with AAPD has been an inevitable part of the job. I have immense respect for many officers in the department, and have heard personally from several of them about how much they respect and appreciate DC Forsberg.

After a critical incident at one our properties, DC Forsberg and I came together to develop a more preventative approach to serving our residents, those living at AAHC, and others with behavioral health issues across the community. This resulted in bi-weekly meetings with leadership from CMH, Avalon, AAPD, AAHC, and SAWC. Together, we are looking at cases where AAPD is responding to behavioral health needs, and are shifting that response to CMH or Avalon, where appropriate. We are also collaborating to ensure that the safety of our residents is upheld in ways that protects them, without victimizing them. Our community has long needed a more community based policing model, and under DC Forsberg's leadership, I feel that's truly possible.

I highly recommend Deputy Chief Forsberg be appointed Chief. If I can be of further assistance, or provide you with any other information, please do not hesitate to contact me.

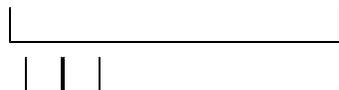

Yours sincerely,

Aubrey

MPT Lumm/CM Ramlawi:

I am forwarding the e-mail below with respect to your roles on the Independent Community Police Oversight Commission (ICPOC), after discussion with Mayor Taylor last night. The interim chair, Ms. Stephens, forwarded concerns about the Police Chief recruitment. Kindly note the former Human Resources Director had no direct role in the recruitment process or down-selection of candidates. I believe Ms. Bennett has administered the process without any undue influence, and that we have identified three exceptional finalists for on-site interviews. We can best determine the path forward after the interviews next week once we get to know the candidates. However as the ICPOC is independent it is up to the members to determine whether or not to schedule a special-called meeting. If they do so, I will be available to respond to any questions they may have.

As always, please let me know if you have any questions or if you would like to discuss the matter further.

**Howard S. Lazarus**

**Cc:** [Taylor@a2gov.org](mailto:Taylor@a2gov.org)  
**Subject:** RE: Special ICPOC meeting

Robin:

The commission is independent, so it is up to you to determine whether or not to schedule a special called meeting. If you do, please work with Denise to find the best time and place. However, kindly consider the following:

- <!--[if !supportLists]-->• <!--[endif]-->The City used SGR, a well-respected recruiter specializing in municipal government, to conduct the search for a new police chief.
  
- <!--[if !supportLists]-->• <!--[endif]-->SGR conducted community interviews, solicited applicants, and down-selected from the ~40 applications received to twelve recommended candidates.
  
- <!--[if !supportLists]-->• <!--[endif]-->Margaret Radabaugh (City Attorney), John Fournier (Assistant City Administrator), Kim Bennett (HR Recruiting Supervisor), and I reviewed the twelve recommended candidates and selected four to undergo a phone screen.
  
- <!--[if !supportLists]-->• <!--[endif]-->Ms. Bennett, Mayor Pro Tem Lumm, and I participated in the phone screen (note that all four Council liaisons to the HRC/ICPOC were invited). Ms. Bennett and I recommended three candidates go forward to face-to-face interviews.
  
- <!--[if !supportLists]-->• <!--[endif]-->There were no changes to the Police Chief job description from the last recruitment.
  
- <!--[if !supportLists]-->• <!--[endif]-->Ms. Wilkerson had no role in identifying or down-selecting candidates.

I believe the process has been open and transparent. There are multiple community-based panels and a meet-and-greet session scheduled as part of the on-site interviews.

Per the City Charter, Council will make the appointment based upon the City Administrator's recommendation.

As always, please let me know if you have any questions or if I can be of further assistance.

**To:** [Taylor@a2gov.org](mailto:Taylor@a2gov.org); Lazarus, Howard <[HLazarus@a2gov.org](mailto:HLazarus@a2gov.org)>  
**Subject:** Special ICPOC meeting

I have been receiving lots of questions and concerns about the HR director and her participation in the Police Chief selection process. I am attempting to schedule a meeting next Tuesday (if we can get a quorum and a place to meet openly) to allow us and the community to understand the process and address any questions/concerns that people may have. I believe that in the interest of transparency, and the commission being viewed by the public as a serious body, this special meeting is necessary. Please let me know your thoughts and if you would be able to make yourselves available for this meeting.

Thanks,

--

**Subject:** May BRC Meeting

**Importance:** High

Dear Brownfield Review Committee Members,

The Broadway Park (DTE-Roxbury Site) Brownfield Plan may be ready to be placed on a BRC agenda in May. Due to the Memorial Day Holiday on Mon. May 27<sup>th</sup>, a special meeting date of that Wed., May 29<sup>th</sup> was previously scheduled, and should be in your calendars.

Please confirm you are available for the May 29<sup>th</sup> special meeting date. As an alternative, provided all necessary reviews and staff reports can be completed in time, please advise as to whether Monday, May 13<sup>th</sup> at 9 a.m. is a time you can meet. While this date may be too early, we'd like to verify availability anyway.

Thank you!

Thank you, Christopher.

Here's my concern, the scope of work, assessment substance and process is being undertaken/under the aegis of Mr. Lazarus, and we were previously told we would receive "reports as appropriate." For various reasons, I do not think this is acceptable.

I've been saying consistently that any assessment of the organization must not be overseen inhouse. By overseen I mean, designed, hired out, etc. To do anything less, is a failure to our staff. I will not get into details here as to why an inhouse overseen/administered culture assessment is problematic, but I'm also not telling you anything that our own city staff would not tell you. We need a set of fresh, outside and objective organizational behavior eyes to right the HR ship. The problems were very pervasive and folks will simply not speak as needed if our own staff, City Administrator et. al. oversee.

Thank you for listening to these concerns. We do need to meet to discuss all this and, specifically, next steps re: the culture assessment prior to the hiring of a firm so that our conversation is not an academic one.

Jane

Thank you, Anne.

Last week CM Eaton recommended and requested the Admin. Cte. meet to discuss next steps (viz., re: the city-wide culture assessment), but I do not believe his recommendation was responded to. I am hopeful a meeting will occur this week.

RE: any official stmts., this will be handled Administratively by Mr. Lazarus. I am very interested, however, in the planning for the culture assessment to ensure that it's conducted to assure staff participation is encouraged – this will require assurances of confidentiality and objectivity (i.e., it cannot be conducted or administered in house – to do that, I am quite certain, guarantees staff will not participate).

Thank you, Jane

Julie, FYI. -Jane

Sorry Jeff. Did not mean to cc: you.

Jane

All, Are we meeting today to discuss the plans for the culture assessment? I know CM Eaton requested an Admin. Cte. mtg. to discuss next steps, and if we could coalesce around a time to meet, it would be appreciated.

Thank you, Jane

Hey Anne,

My name is Ana Longoria and I am a student employee for WEMU with All Things Considered. I am emailing you in regards to the resignation of former HR director, Robyn Wilkerson. I would like to do a phone interview with you to talk about if there are any ideas being thought of by city council to address and prevent this negative type of work place behavior as well as your personal thoughts on the matter. The phone interview would be around 15 minutes of your time.

Thank you for your consideration and I look forward to hearing from you!

Dear Ian and Jack,

Just wanted to update you that at the April 25 Environmental Commission meeting, the WRRMA was recommended for approval to Council.

This is the link to Resolution 19-0859: <http://a2gov.legistar.com/LegislationDetail.aspx?ID=3927700&GUID=AC7BAA20-4A51-4786-A376-7ABDD5A21A62&Options=ID|Text|&Search=wrrma>

The April 25 Agenda is attached, with links to SWRMP presentation.

The April 25 YouTube video: <https://www.youtube.com/watch?v=-6ley0GPNu8>

I raised the questions about the APTIM project not being done, the need to hire union workers, and the one-vote per community being an issue, and the commissioners assured me those issues have been resolved, as per the WHEREAS clauses in Resolution 19-0859.

If you have any other information or concerns, please let me know.

Thanks,

**From:** Dan Ezekiel [REDACTED]  
**Sent:** Friday, May 03, 2019 10:02 PM  
**To:** CityCouncil  
**Subject:** Huron Valley Group statement on Climate Action, Gelman Plume Superfund Designation, and Regional Solid Waste Authority

Dear Mayor Taylor and City Councilmembers,

The Sierra Club's Huron Valley Group is an environmental advocacy group that acts to keep our community's environment safe and clean, a place where people can flourish in harmony with the natural ecosystems with which we are blessed. As such, we would like to share our views on three local issues you have faced and are facing: climate action, the toxic dioxane plume in our groundwater, and joining the regional solid waste authority.

1. The Huron Valley Group would like to thank you for your recent decision to continue funding climate action through the Sustainability Office. We believe that a consistent, dedicated funding source for climate action will pay great benefits to our community as we take our first steps toward a carbon-free future.
2. We endorse Resolution 19-0087 to support designating the Gelman plume as a US EPA Superfund site. Our goal here is to maintain pressure on the polluter to clean up our aquifer towards its original level of purity. The city has pursued the consent decree remedy with the polluter for several decades. However, given Michigan's weak anti-pollution laws, the plume continues to threaten the Huron River, source of most of our city's drinking water. It is clearly time to try a different remedy, under the

aegis of a more powerful, better-resourced agency, operating under a stronger law. We support designation of the plume as a Superfund Site in order to make the polluter liable for a thorough cleanup.

We acknowledge that the Superfund solution is challenging, but we believe it is time to take direct action to clean the contamination rather than continue to watch it expand into Ann Arbor's drinking water source and the sources of neighboring jurisdictions. We understand that resources will be required to address the technical and administrative aspects of cleaning dioxane from groundwater. Our best choice is to move forward and work together with the EPA and Michigan experts.

In the long run, as an environmental advocacy group, our priority is to push Congress to amend the federal Toxic Substances Control Act to use a precautionary principle, requiring *proof of benign effect* before chemicals are introduced into our environment in the first place. We emphasize responsible stewardship, keeping our water resources clean so that communities like Ann Arbor won't have to spend precious resources fighting to clean up our water after it is already contaminated with toxic substances like dioxane (and PFAS).

3.

We endorse the city's joining the county's regional solid waste authority, without further delay. Our vision here is a community which moves toward zero waste, and minimal use of landfills for scrapped materials. The regional authority is modeled on other solid waste authorities within our state, which have successfully brought communities together to reduce the proportion of their solid waste being dumped in landfills. We acknowledge the perceived unfairness of Ann Arbor having only one vote, at par with other, smaller municipalities, but we are reassured that the authority has no power to compel Ann Arbor (or other communities) to incur costs or force action against council's will. Also, each community would be free to continue its own contracts with its own workers (and bear the costs), so there is no issue of forcing Ann Arbor to end its contract with union workers; we support continued union representation of these workers.

As a group spanning Washtenaw and neighboring counties, we support regionalization and local cooperation in meeting environmental challenges. The authority holds the prospect of streamlining educational efforts about waste reduction, standardizing the materials accepted, and possible partner funding contributions for the much-needed rehabilitation of our MRF (or construction of a new, regional one) and drop-off center. We look forward to developing economies of scale in regional waste management by working with neighbors and institutions like the U of M.

As with the Gelman plume, what we have been doing about solid waste is costly and isn't working well. It's time to shift our solid waste emphasis to a larger agency that has shown the will to lead us toward a zero-waste future. We specifically reject the

argument that the city should wait for the APTIM report before joining the local authority. That would result in Ann Arbor not being a charter member of the authority, possible reduced privileges in the future, and would require the unanimous consent of all the charter members of the authority to admit Ann Arbor at a later date. The only thing we risk is a \$5000 membership fee this year. What we have to gain is speedier diversion of more and more of our solid waste stream away from landfills.

All three of these issues are complex and important. It is gratifying to see the work being done to address them. Thank you for your service to our community and your attention to these matters.

Respectfully Yours,

Dan Ezekiel  
Chair, Huron Valley Group  
Sierra Club

**MIDWESTERN CONSULTING**

3815 Plaza Drive | Ann Arbor, MI 48108 | 734.995.0200

Dear Mayor Taylor and City Council,

I wanted to give you a brief update on the status of the Brightdawn Village conditional rezoning request. Last time I communicated with you, the project had just been presented to the Planning Commission. I wrote then that we would explore how we could make our commitment to affordable housing even stronger.

We amended our submission by increasing the term of the affordability restrictions from 15 years, to 99 years.

This means we are requesting 40 units, with 20 restricted to 80% AMI and 20 restricted to 60% AMI, all for 99 years.

Since we were at Planning Commission several months ago, we have not been able to receive any confirmation on when our rezoning request would be placed on an agenda and heard by City Council. In addition, we have not received answers to concerns and questions we have raised.

Attached is a copy of the letter from our attorney to deputy city attorney Kevin McDonald, following up on these issues. I felt it was important to share with City Council and to keep you informed.

Thank you,

Iddo Schwartz

301 E. Huron St., Third Floor  
Ann Arbor, MI 48104

**Re: Brightdawn Village Apartments**

Dear Kevin:

This email follows up on our discussion on April 26 regarding the conditional rezoning request submitted by our client, GloryCrest Burton Road, Inc., for the proposed Brightdawn Village Apartments located at 2805 Burton Road ("Brightdawn Village"). The focus of that discussion was my client's concerns about (1) when the Brightdawn Village rezoning request will be heard by City Council and (2) getting assurances from the City of Ann Arbor that the request will be heard and voted on no later than the June 3 City Council meeting. As you know, the request was originally set to be on the May 6 City Council agenda, but has been delayed ostensibly due to concerns expressed by staff about whether the request would be heard May 6 in light of the number of budget-related items on the agenda for that date. As you and other representatives of the city are aware, the principals of our client are travelling from overseas for the meeting and we need to know whether the request will in fact be on the June 3 agenda and actually heard and acted on by the City Council on that date. The last communication from the city to my client on this issue was an email from Derek Delacourt on April 11. My client has repeatedly followed up with Mr. Delacourt in writing and through phone calls, but has not received further response. At the end of our call on April 26, you stated that you would get back to me that day or Monday, April 29. I have not heard back from you.

My client is beyond frustrated at not being able to secure assurances that its rezoning request will be heard at the June 3 City Council meeting. The frustration is not just the result of recent communications with the city, but is also a cumulative result of repeated delays and lack of transparency by the city relating to the request. On two prior occasions, my client's representatives were informed that the project was on the Planning Commission's agenda, only to fly to Ann Arbor and great expenses and be told at the last minute that the request would be delayed and/or had been removed from the agenda. Despite asking multiple times, my client was not provided an adequate explanation for such delays. More recently, the city informed my client

that the request would be on the May 6th City Council agenda if we submitted all materials by April 5th. My client submitted everything several days in advance, but we then informed that the request would be on the June 3rd agenda, but that even that date was not certain.

Prior to being informed that the request might be moved to a date in June, the engineers working with our client tried multiple times to receive an answer as to whether the project was being placed as promised on the May 6th agenda because we had submitted all requested materials to ensure that date. Although we did not receive the requested response, my client did at that time receive an email from an individual named Brian Smith, who apparently has taken the lead in organizing a protest petition regarding the project and serves as the neighbors' point of contact. Mr. Smith stated in his email that my client's project would be on the agenda in June. He also knew what revisions our client had made to the conditional rezoning application since the Planning Commission recommended denial, information which was not on the city's online system or otherwise publicly available to our knowledge. The fact that Mr. Smith had such non-public knowledge about the request and knew that we would be moved from May 6 to June 3 prior to my client being so informed is extremely concerning.

Further, in the two months since the Planning Commission recommended that the City Council deny the request on March 5, my client has not received any formal statement stating the bases for its recommendation.

I understand that items sometimes get pushed to a later meeting for a variety of reasons. However, the totality of the circumstances here gives rise to a conclusion that my client is not being treated fairly in this process. Particularly when you consider the fact that an opposition group appears to be getting fed information from someone on at the city, including information that has not been shared with my client, there are too many red flags to ignore.

My client's expectations are not unreasonable. We would like assurances that we will be on the June 3 City Council agenda. We would like to know why the Planning Commission recommended denial of the request. We would like to know why opposition groups have information that is not publicly available regarding the request. We would like to be and are entitled to be treated fairly with respect to our rezoning request.

Please contact me to discuss at your earliest convenience.

Sincerely,

WILLIAMS, WILLIAMS, RATTNER & PLUNKETT, P.C.

Dear Ana,

My apologies, but City staff have advised that this is a personnel matter that is best addressed through the City Administration.

I've copied Howard Lazarus and ask that WEMU consider working through him if you'd like to discuss further.

Hey Anne,

My name is Ana Longoria and I am a student employee for WEMU with All Things Considered. I am emailing you in regards to the resignation of former HR director, Robyn Wilkerson. I would like to do a phone interview with you to talk about if there are any ideas being thought of by city council to address and prevent this negative type of work place behavior as well as your personal thoughts on the matter. The phone interview would be around 15 minutes of your time.

Thank you for your consideration and I look forward to hearing from you!

-Ana

**Subject:** MLUP Consultant Selection Process

Hello Mayor and Councilmembers-

After discussion with Administrator Lazarus, Brett Lenart and I are interested in the attached approach to evaluate master plan proposals that have been received in response to the recently issued RFP. This process is comprised of fairly typical steps including evaluation, scoring, interview, and recommendation. We would like to conduct this process with a wider lens of community input, as the nature of this work will be both extensive and impactful to land use policy in the future.

To achieve this, we are proposing the attached process to arrive at a preferred consultant team. As part of this approach, we are asking you as City Council Ward representatives to collaboratively identify a community representative to represent your Ward, and for the Mayor, the City, to serve alongside members of the Planning Commission and City staff to arrive at a preferred consultant, for eventual presentation to you as the Council for final consideration and determination (via a contract award). These community representatives will work to refine scoring criteria, perform evaluation of written proposals, select firms for interviews, and ultimately make a final recommendation for presentation to City Council toward an update to the City's land use policies.

Ideally, Councilmembers would provide us with participants by May 8 , so that we can begin the evaluation process. You can simply provide the name and contact information to me at this email address, and I will follow up with the individuals soon. Both Brett and I are of course happy to address any questions that you have in regard to this proposed process.

It's not often you get a chance to develop a Master Plan and leave an imprint on the community you work/live in, especially one like Ann Arbor. Brett and I are hopeful of building consensus through the MLUP process, we intend this to be a good first step.

Happy planning,

Derek

**Derek L. Delacourt,**

## Master Plan Proposal Evaluation Process

### Stage One: Minimum Qualifications – Complete

---

- Team: Derek Delacourt, Community Services Administrator, Brett Lenart, Planning Manager
- City Staff has performed a preliminary review of proposals and made the determination that 10 of 11 proposals received meet the basic requirements of RFP and proposed scope.
- The 10 proposals that will be evaluated range in cost from \$220,000 to \$652,129.

### Stage Two: Scoring and Selecting Teams for Interviews – May-June 2019

---

- Team:
  - Derek Delacourt, Community Services Administrator
  - Brett Lenart, Planning Manager
  - Missy Stults, Sustainability Director
  - 2 Planning Commissioners from Master Plan Subcommittee
  - Kayla Coleman, Community Engagement Specialist
  - *Tentative - Sue Gott, University of Michigan Campus Planner or other University representative*
  - 6 Community Members
    - One Member appointed collaboratively by Ward Council Members (one appointee per ward), plus one appointed by Mayor, by May 8<sup>th</sup>.
      - For selected community members, it is anticipated that 4 meetings and preparation would total 18 to 35 hours of service, by the end of June, comprised of:
        - One Group Meeting to establish scoring matrix (est. 2-3 hours)
        - Individual review and scoring of 7-10 proposals (est. 7-20 hours)
        - Two Group Meetings to discuss and present scores (est. 6-8 hours)
        - At conclusion of scoring, identify proposals for which to review fee proposal
        - One Group Meeting to finalize recommended proposals, integrate fee proposals, and advance to interviews (est. 3-4 hours)
- Deliverables
  - Develop Scoring Matrix
  - Conduct Review and Score Proposals
  - Set of proposals recommended for interview
  - Share cost proposal for each recommended proposal team

### Stage Three: Interview and Final Selection – June-July 2019

---

For logistical reasons, the actual interview team will be limited to City Staff and Planning Commission representatives. These interviews will be open to the full evaluation group however to continue scoring and evaluation until a final selection is made.

- Interview Team:
  - Derek Delacourt, Community Services Administrator
  - Brett Lenart, Planning Manager
  - Missy Stults, Sustainability Director
  - 2 Planning Commissioners from Master Plan Subcommittee
- Deliverable
  - Recommended Consultant

### Stage Four: Finalization – July 2019

---

- Team
  - Derek Delacourt, Community Services Administrator
  - Brett Lenart, Planning Manager
- Deliverable
  - Final Scope of Services, proposed contract, presentation to City Council

**Subject:** May 6th meeting

Dear council colleagues,

Some sort of apology is in order for my speaking over CM Ackerman at closing council comments time tonight. I realize this was not appropriate behavior, and for that I am sorry.

By way of explanation, although not an excuse, today was a very frustrating day for me, personally. I was deeply disappointed that we choose to not speak, instead of coming to a decision to break the quorum, at our meeting with AG Nessel. (draw straws? seniority? # of CARD mtgs. attended?)

I admit I had zero intention of leaving the room, given my pressing interest in the issue, but had I been better prepared I would have gladly written my questions and comments down for another to articulate on my behalf, and left. That whole situation was quite absurd, and points to our greater dysfunction.

Secondly, on several occasions tonight, by mostly mutual fault, I was not recognized to speak at council on topics of interest to myself and my constituents. I spoke with Mayor Taylor after the meeting about remedies for this; I will be more clear and proactive in asserting my wish to comment, and hope that this is a non-issue moving forward.

Add to that the personal insults, threats of voter vengeance, and gross mischaracterizations of other's positions that are becoming commonplace in our discussions and you have all the makings of a chaotic meeting. So when I heard my attempts to articulate a method for coming to terms with the barrage of board and commission re-appointments we face about to be last-word ridiculed by my colleague, I was not interested in listening. In the future I will simply leave the table.

We have within us, both individually and as a body, enormous capacity for good, and for the most part our actions reflect that. Still - let's get it together folks, lots of people are counting on us to run this near half-billion dollar corporation properly.

Sincerely,

Jeff Hayner

Jeff Hayner

**..Title**

Resolution Directing City Administrator to Take Steps to Organize Meeting with State-Lawsuit Intervenors to Explore Requesting Environmental Protection Agency's Active Involvement with the Gelman Site and its Listing as a "Superfund" Site

**..Memorandum**

The City and its residents have worked for decades to require Gelman to delineate and clean up City ground water contaminated by 1,4-dioxane that originated at the Gelman Sciences Wagner Road facility, and to protect City ground water from further spreading of the Contamination. As part of that effort, the City sued Gelman in state and federal court more than 10 years ago, before agreeing to settle the lawsuit.

Separately, the State has for decades litigated against, and otherwise regulated, Gelman to enforce State environmental laws that apply to the Contamination. Those parties have operated under various versions of a consent judgment over the years.

Following the State's recent tightening of its standards for dioxane groundwater pollution, the City, with others, intervened in the State's ongoing lawsuit against Gelman pending in Washtenaw County Trial Court. Since its intervention was allowed in 2017, the City has engaged in settlement negotiations over a potential new consent judgment. Those negotiations aside, however, the City is simply not satisfied with the progress of the delineation, containment and remediation of the contamination. The City believes that delineation, containment and remediation may be bolstered by EPA's active involvement and enforcement of the Superfund law at this site. At this time, the EPA has a single employee assigned to monitor this situation and work with the State. Unless the EPA's involvement moves beyond the preliminary assessment that it's completed, that employee may be reassigned.

**..Staff**

Prepared by: Kathy Griswold, Councilmember

Reviewed by: Matt Rechtien, Senior Assistant City Attorney

**..Body**

Whereas, The City and its residents have worked for decades to require Gelman to delineate, and clean up City ground water contaminated by 1,4-dioxane (“Dioxane”) that originated at the Gelman Sciences (“Gelman”) Wagner Road facility (the “Contamination”), and to protect City ground water from further spreading of the Contamination;

Whereas, As part of that work, The City sued Gelman in state and federal court more than 10 years ago, and ultimately agreed to settle that lawsuit;

Whereas, The State of Michigan (“State”) has for decades separately litigated against, and otherwise regulated, Gelman to enforce State environmental laws that apply to the Contamination;

Whereas, Following the State’s recent tightening of its standards for Dioxane groundwater pollution, as part of the City’s continuing efforts, it, along with others, intervened in the State’s ongoing lawsuit against Gelman pending in Washtenaw County Trial Court;

Whereas, Since its intervention was allowed in 2017, the City has engaged in settlement negotiations over a potential new consent judgment;

Whereas, Negotiations aside, the City is not satisfied with the progress of the delineation, containment and remediation of the Contamination;

Whereas, The City recognizes that the Contamination may pose a long-term threat to public health and the security of the City’s municipal water system; and

Whereas, The City believes that delineation, containment and remediation of the Contamination may be bolstered by the United States Environmental Protection Agency’s (“EPA”) active involvement and enforcement of the Comprehensive Environmental Response, Compensation, and Liability Act (“CERCLA”), the “Superfund” Act, as it applies to the Contamination;

RESOLVED, That the City Council directs the City Administrator, by July 1, 2019, to take all reasonable steps to convene a meeting with the other State-Lawsuit intervenors to explore requesting EPA’s active involvement with the Gelman site and its listing as a “Superfund” site under CERCLA by, among other things, soliciting a

concurrence letter from the Governor; and,

RESOLVED, That the City Council authorizes the City Administrator to take such further actions that are consistent with the purposes of this resolution.

**To:** CityCouncil <CityCouncil@a2gov.org>; Taylor, Christopher (Mayor) <CTaylor@a2gov.org>  
**Subject:** PLEASE VOTE NO ON ANN ARBOR DEER CULL FUNDING

Mayor Taylor and Council Members,

I urge you to vote NO for continued funding of the Ann Arbor deer cull. This is a wasteful and cruel program that invites weapons into city parks and neighborhoods and sends the message that if you don't like something in your environment, you can simply eradicate it without consequences. It is propped up on anecdotal evidence and the intolerance of a minority of residents who claim to appreciate Ann Arbor's nature and parks, but don't want to see any wildlife in it. Perhaps, the height of irony is that trees and plants have been cut down to make way for bait piles and killing areas. So much for all that talk about ecological balance. I found it particularly egregious that last year's cull included the property of a former council member who had voted for the cull. I still don't understand how the city can legally "improve" private property (including UM) on the taxpayer's dime.

Again, please do not continue to waste scarce resources on this program that has provided absolutely no community benefit (other than perhaps to the three or four people who engineered it).

PS: Councilwoman Lumm, please refrain from having me investigated or forwarding my email to Bernie Banet, Maurita Holland, or any of your other friends at WC4EB.

Thank you.

## **Meet the Candidates for Ann Arbor Police Chief: Reception Wednesday, May 15; Interviews Friday, May 17**

ANN ARBOR, Michigan, May 6, 2019 — Candidates for the Ann Arbor chief of police position will be coming to Ann Arbor to meet City Council, staff and the public. The police chief position is currently vacant, with duties being fulfilled on an interim basis by Robert Pfannes, who will retire May 24 after 21 years of service to the city.

The City of Ann Arbor is hosting a public reception for community members to meet the police chief candidates. The event will take place Wednesday, May 15, 5:30–7:30 p.m., in the Ann Arbor Justice Center lobby. The city will then hold police chief candidate public interviews with City Council Friday, May 17, 9 a.m.–noon at Larcom City Hall, second floor, Council chambers. The Ann Arbor Justice Center and Larcom City Hall buildings are adjacent to one another at 301 E. Huron St.; meter parking is located along Ann Street.

Information on the candidates follows:

 **Michael Cox** has served with the Boston, Massachusetts, Police Department since 1989. He currently is the bureau chief, Bureau of Professional Development superintendent, for the Boston Police Academy, a position he has held since 2018. He previously held the position of deputy superintendent of the Boston Police Department Bureau of Field Services and commander of the operations division. Cox earned a master of business administration from Questrom School of Business – Boston University, Boston, Massachusetts; a master of arts in criminal justice from Curry College, Milton, Massachusetts; and a bachelor of science in business management from Providence College, Providence, Rhode Island.

**Jason Forsberg** is currently deputy chief of the Ann Arbor Police Department, a position he has held since January 2018. Forsberg previously served with the University of Michigan Police Department for more than 20 years, starting as a police officer, then becoming a detective before advancing to sergeant, lieutenant and, ultimately, captain at the Ann Arbor campus. He transferred to the Dearborn campus in 2016, where he served as deputy chief of police before coming to the AAPD. Forsberg earned a bachelor's degree from Skidmore College in Saratoga Springs, New York, and is currently pursuing a master of public administration at the University of Michigan – Dearborn.

**Bryan Jarrell** is currently the chief of police in Prescott Valley, Arizona, a position he has held since November 2013. He started his career with the Southfield, Michigan, Police Department in 1985 where he worked as a police officer/specialist, sergeant in the patrol division, crime prevention and community policing, progressing to lieutenant before becoming deputy police chief for 10 years. Jarrell earned a master's degree in administrative leadership from the University of Oklahoma, and a bachelor's degree in criminal justice, with honors, from Eastern Michigan University.

The city's recruitment process was preceded with community outreach — an online and paper survey as well as public meetings — in December 2018 and January 2019 to help identify the ideal qualities Ann Arbor's new police chief should possess. The city plans to announce a new chief of police later this spring. In the meantime, more information about the recruitment process can be found on the city website at [www.a2gov.org/AAPDChiefRecruitment](http://www.a2gov.org/AAPDChiefRecruitment).

Dear CARD list members,

Below is a link to the draft agenda for tomorrow's quarterly CARD/EGLE (formerly DEQ) meeting. The meeting will start at 10:00 a.m. at Scio Twp. Hall, right next door to the Washtenaw County Western Service Center.

If you have any comments or suggestions for the agenda, please make a comment in the Google document or send me an e-mail. I will bring copies of the final agenda to the meeting.

**Subject:** RE: Please fix the pedestrian crossing between the University of Michigan Nichols Arboretum and the B2B Trail

Dear Kai,

Thank you very much for your letter detailing how this trail has been improperly trespassed and damaged. Your first-hand view of the trail and knowledge about its use is very helpful.

Within the last hour, council received a similar note of concern from another resident, and I am writing to let you know that I followed-up on the questions and concerns raised (similar Q's and concerns) with city and University staff. I am aware that this RR crossing (near the train bridge) has been breached and that some of the trespassers have routinely (it's been removed and repaired many times) cut and removed the wire fencing to create a passage-way between Mitchell Field and The Arb. In terms of the trees that have been damaged, I do not know what caused the damage.

Safe passage connecting the properties (Mitchell Field and The Arb) is needed, and I am hopeful that our City staff and University colleagues can assist with addressing the concerns you are bringing to our attention.

Thank you, again, for writing to bring these concerns to the City and University's attention.

All best, Jane

**Subject:** Please fix the pedestrian crossing between the University of Michigan Nichols Arboretum and the B2B Trail

Dear,

Governor Whitmer, Congresswoman Dingell, State Senator Irwin, State Rep. Rabhi, University of Michigan President Schlissel, Mayor Taylor and Ann Arbor City Council,

My apologies, I cannot find Governor Whitmer or Congresswoman Dingell's email online. If someone is able to forward this to them, then please do so.

In Ann Arbor, there is a trail that runs from the University of Michigan Nichols Arboretum to the B2B trail. This trail crosses over the MDOT railway and it lies right next to the Huron River. For decades, people have crossed at this point and the University of Michigan has developed and maintained trails to that point (see PowerPoint photos). That particular spot does not have any 'no trespassing' signs. There is a 'no trespassing' sign if people try to go onto the nearby train bridge, but there are no, no trespassing signs for those who try to cross at this point. Not only is

it a maintained trail, but UofM even has this trail listed on their maps, as demonstrated by the attached PowerPoint.

I know about this location, because I live in a spot where I have a 24-7 view of this spot. I could take a time-lapse of the spot and show you the thousands of folks who cross it each week. In the span of one hour, as I've been writing this letter, I've watched about two dozen people cross at that point.

However, this trail is being destroyed, as trees have been cut down on purpose to block the trail. I can't cross it. And so, it is alarming to see a city and a University that values pedestrians and trees – to see that entities are working against pedestrian movement and chopping down trees in an effort to do so.

The University and the City are working towards developing a train station nearby that will involve dual high-speed rail-lines. The University and the City are also working to develop a light-rail system that would flow past this location. As those are being developed, it is vital that people also take into account the movement of pedestrians nearby and work towards fixing that problem. I'm not against those developments, but in the course of nearby rail development, it's important to create a legal crossing at this point. If expensive transit is created, but pedestrian/recreational travel suffers, I can easily see the public turning (even more?) against train development in Ann Arbor. If tens (hundreds?) of millions of \$\$ are spent in local train development, but entities destroy a nearby popular pedestrian crossing in the process – the public is not going to like that.

I'm not sure what entity is responsible for fixing this location. I believe that the folks I have emailed in this list have the capacity to find a solution. All of you in some manner could in some way work together to find the money to create a solution – be it a tunnel, a bridge, a railway crossing, etc. I don't know the solution as I'm not an expert in that matter. I do think that the spot could be grandfathered in because it has existed as an (illegal?) crossing for decades. I think the University and the City should be involved as the trail connects to their property and both entities value pedestrian movement. I also think that apart from MDOT, the state and the federal government should be involved as the trail is adjacent to a National Water Trail and it involves a railway.

I'm asking, please.... Fix this problem. Find a solution. Find a way to allow folks to travel legally and safely across at that point.

These are my thoughts alone on a political/environmental matter and they do not represent the opinion of my employer. I oversee this location from my home, and I care.

Thank you for listening to my concern:

Thank you, Mr. Lazarus.

I am aware the University is aware of the concerns and is checking into the situation to come up with a "solution" to this crossing. I appreciate the University's checking into this further and updating us and the community on any remedies. People do cross at this unsafe location on a regular basis, and I know a solution would be appreciated.

Thank you, as well, for any updates, Jane

**To:** Anne Bannister <[REDACTED]>

Dear Anne,

Last week the builders were doing something on the corner of Nielsen Ct and Maiden Lane, so they closed the entire sidewalk on the Maiden Lane side of the development. You might remember that there is no sidewalk on the other side of the street, which made that busy area, usually well-used by pedestrians, a big problem, a potential danger, since walking in the street is too risky. I had pressed the developers at the beginning of this process with the need to keep that sidewalk open, and I want to make sure that this doesn't happen again.

Laura

**Subject:** ADU ordinance changes

Members of the Council,

We just learned today that Council is doing a first reading of a proposed change to zoning ordinances that will significantly relax requirements for ADUs. We found on MLive some reporting (rather limited, as usual) on this issue from last August and fall. Our primary concern as this point is that the proposed change is flying under the radar and has had no significant public notice or input. If only 4 people have spoken about an issue that could potentially affect over 19k properties, then there's been yet another failure to communicate, which leaves Council working in a vacuum with scant feedback from constituents. It is striking that this change is unlikely to make a dent in the affordable housing situation.

It seems that the ordinance would allow ADUs in front yards. Does the public know this? What other consequences might result from the proposed change? The information session organized by Jessica Letaw and the developer from Portland was not disinterested--both are strong advocates for loosening the ADU ordinance. It was also poorly attended. We strongly think that this proposal needs to be better communicated to Ann Arbor residents before any decision is made, and that Planning staff should be asked to hold well-publicized information sessions where the public can learn about the propo and comment. We strongly urge that Council postpone consideration until public outreach and education takes place.

With thanks for your consideration,

John Godfrey & Irma Majer

**Subject:** Proposed changes to the existing Accessory Dwelling Unit ordinance

Council Member Bannister:

I have a few questions regarding the proposed changes to the existing Accessory Dwelling Unit ordinance.

If a considerable number of ADU's are built in our neighborhoods, where will the rain water go? It seems to me that the addition of a significant number of ADU's into our neighborhoods would undo the good work of many, many rain gardens.

Where would ADU residents park their cars? Parking is already a problem in my neighborhood.

What about home maintenance? With no appropriate set-backs, painting, roofing, and foundation work could become difficult.

What about the risk of fire? Currently my house is 10 feet from my neighbor to the west and a little less than 12 feet from my neighbor to the east. If ADU's are built by my near neighbors, wouldn't this increase the chance of a fire that could jump from house to house? Especially in a summer drought?

I believe that the proposed changes to the existing ADU ordinance would degrade my

neighborhood.

Please vote against the proposed changes to the existing Accessory Dwelling Unit ordinance on the May 6 city council agenda.

Kathy Boris

Colleagues, So, was just passing by Gallup and decided to pull into the parking lot to check out the Canoe fan. Often see people in the vicinity. As I was approaching, timing is everything! :-), there was a Mom w/her 2 kids interacting (as in sitting in the fan). I was too late to capture the moment, with permission, but the Mother kindly shared that she had taken some photos and would be happy to share. Enjoy! Jane

As I write, there are 5 new people an two dogs walking around the fan. I'm in the parking lot, so not taking their photo.

Elizabeth,

Thank you for the cc., your assessment, and wow.

I, too, find this angry, hostile and vicious rant, over-the-top unacceptable and, in fact, threatening. It certainly comes across as, unquestionably intended, threatening -- the "are our targets" is alarming, indeed!

In all my years doing this kind of local, grass roots public service, I have never experienced the level of uncivil hostility we are seeing and experiencing today. I copied council and staff on Ned Staebler's insulting MI Talent Agenda mockery because I wanted everyone to know the mark of the man, and it was posted widely on the Internet (as I had noted, it came to me from a friend in FL, she also wanted to know what the MI Talent Agenda was).

Have no idea who Curt Mark is, and hope we never meet. He describes me in such a way that demonstrates he knows NOTHING about me. Perhaps he should check our tax returns?! He seems to think, wrongly, we have significant means. Might he also care that we support many local non-profits? I could go on, but the point is, this harassment, this uncivility, MUST STOP.

Oh, and apparently our residents, when asked how they'd like their tax dollars spent, agree -- fix the roads! He needs the reality check I got last week from the lady on her walker at Glacier Hills.

Thanks again, Elizabeth. -Jane

Hi,

Just thought I would share an email sent to me late last night (see below). I particularly note the phrase "our targets" in the last paragraph.

This stands out as the most astonishingly hostile and threatening email I have received so far. Similar is shared on a regular basis in public forums, about which anyone can posture ignorance. I am sympathetic to Jane's impulse to CC: too many council members in situations like this, but I am cc:ing only those referenced below.

Fresh on the heels of unhinged ranting from Ned Staebler-- seen by ALL of council-- could it possibly be time to disavow some of the wilder garbage being spewed? A lot of anger has been sown, encouraged, and happily tolerated for the sake of promoting the mindset of "OUR targets." To what end?

I appreciate the potential for leadership on this issue.

Elizabeth

Get your shit together, council member. What is it about you & your husband that taught you it was your business to tell your neighbor when he should paint his garage, and what is it about cm ackerman that makes you think you can quietly try to have him removed?

You and i had a bit of a back & forth before it became clear to me that you are simply awful. Ditto your husband & his friend Askins.

Pat lesko is pond scum. And you're on her payroll.

You're pissed at ackerman because he's creative, articulate—better at his job than you.

Bannister (what the fuck does she ever mean?), Eaton (lost by a third. Is intellectually disabled by "the master plan"), and Lumm (she's rich, she's a tightwad—unless roads) are our targets because they're all up in 2020. After that, we come for you,

Sleep well.

**Gelman/Danaher Municipal and Agency Stakeholder Meeting**

**Monday May 6th, 2019**

**9:00 a.m. – 10:30 a.m.**

**Scio Township Board Room**

**827 N Zeeb Road, Ann Arbor 48103**

**Agenda**

**Desired Outcome: Share and coordinate attendees' action plans to ensure best chances of a more effective groundwater remediation/cleanup effort.**

- A. Welcome - Jack Knowles, Scio Township Supervisor
- B. Update and framing, Debbie Dingell, Congresswoman
- C. Michael Berkoff, Remedial Project Manager - Superfund Division - EPA Region 5
- D. Update from EGLE – Dan Hamel, Gerald Tiernan
- E. Stakeholder Response
- F. Next steps

**Date:** 5/6/19

**Time:** 11:00 AM- 12:00 PM

**Location:** 200 North Main Ann Arbor, MI 48104

**Agenda:**

11:00 AM Welcome & Introductions

11:10 AM Lay of the land: local units explain their goals for the cleanup

11:20 AM Attorney General perspective

- history of site
- working with co-plaintiffs
- goals for the cleanup

11:30 AM Discussion:

- Are the AG, EGLE, and the local units aligned in their goals?
- What is the best result that the community could expect based on state law and what is the worst result we could expect from working with the court case and efforts to amend the Consent Decree?
- AG perspective on local community considering a petition for Superfund listing.

11:55 AM Closing remarks & next steps

Christopher, those are wonderful suggestions from the students at Bach Elementary! I've made a list of potential amenities from the letters:

- puppy and toddler parks
- restrooms and drinking fountains
- trash and recycle bins
- a splash pad for hot weather

Count me in, yes! Let's do it at several locations, maybe SA2T grants could help.

**Subject:** Ms Dominick's Class

Friends,

Please see attached some communications I received today during my visit to Ms Dominick's Second Grade Class @ Bach Elementary School. The group had completed a unit on community engagement and so the students had a series of prepared presentations (complete with PowerPoint) regarding potential amenities and improvements to the already "beautiful" and "stupendous" West Park. The presentations were clear and positive and reflected a great deal of thought and work. The questions and discussion afterwards was, as you might suspect, a delight as well.

I hope you enjoy and are inspired by these letters and students as much as me.

MAY 1, 2014

Dear Council Member

I like West Park because

it has a great merry go

round I think would be

better if we added a

toddler park because

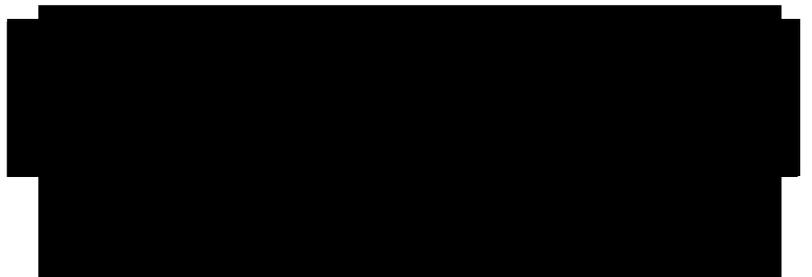

toddlers could get fussy

and sad and hurt when

they don't have a playground

farther size thank you for reading

this letter sincerely

April 30, 2019

Dear City Council Member,

I think West Park is amazing.

I want to add a bathroom

because people need to go to

when they go to the park

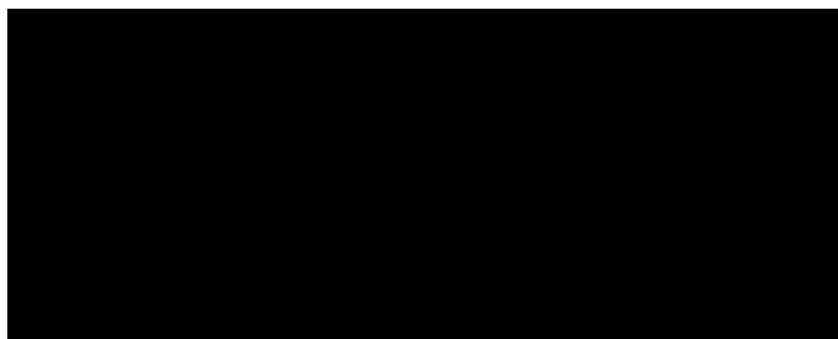

I also think more people would use the park if

there were a bathroom. I hope my request is sensible.

I respect if you don't want to add a bathroom.

Thank you very much for your time.

Sincerely,

April 30, 2019

Dear council member

I Love west Park but

I think we could add a

bathroom. A lot of kids need

to go to the bathroom.

Parents need a place to

change their babies. Lastly,

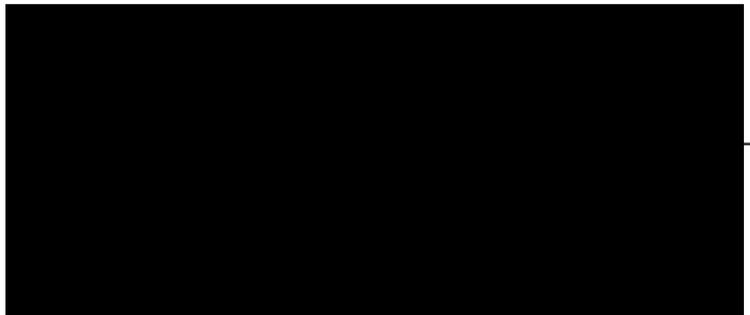

we want to keep people

in the park instead of going

home to use the bathroom.

I hope you sincerely

accept my  
letter.

April 30, 2019

Dear council member,

I LOVE West Park. I think

it should have a toddler park

because toddlers can get fussy

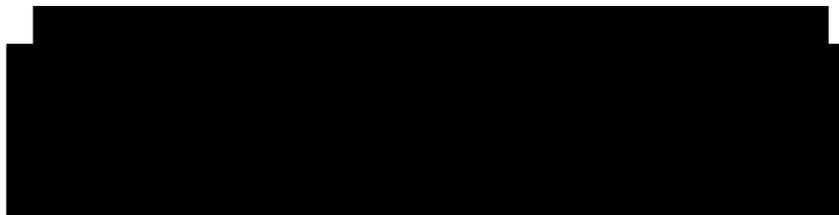

and hurt when they don't

have the right sized

play ground. I hope you will

agree with this idea.

Sincerely,

April 30, 2019

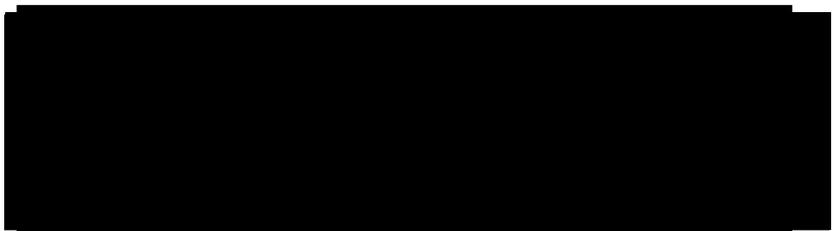

Dear Council Member,  
EVERYONE likes

West Park and  
it would be great  
if we added more  
water fountains.

People need to  
hydrate and it is  
a big park! I hope you

will consider  
my idea.

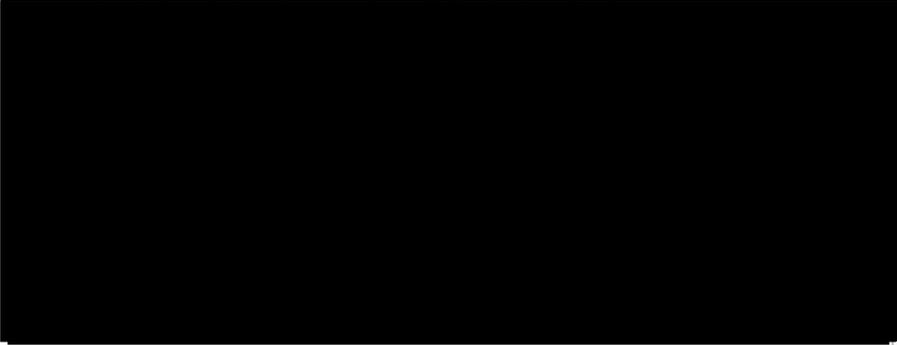

Sincerely,

May 10, 2019

Dear Council Member,  
Max Cichon, Me, would  
like to <sup>(see - show)</sup> improve West  
Park by picking up  
trash. This should  
happen because, it could  
harm animals. Thank  
you for reading my  
letter.

Sincerely,

May 1, 2019

• Dear Council Member,

• I like West Park but I think it needs some improvements. I think it could be better if there were more drinking fountains because people might have to walk far away to get a drink. Also, people and pets need to stay hydrated. Have a nice day!

- Sincerely

April 30-2019

Dear  
Council Member

I enjoy West Park but

we should pick up the trash so

Animals don't get harmed.

They could eat the

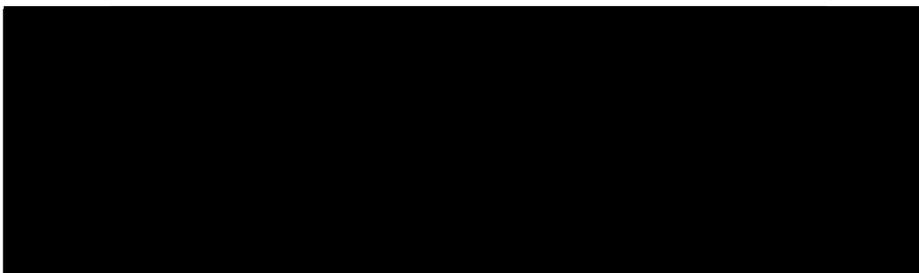

trash and become sick or even

die. Also, they could get stuck

in some of the trash. Thank

you for reading my letter.

Sincerely,

April 30, 2019

---

Dear Council Member

---

I love West Park. I think it would be even better  
if it had more trash cans and recycling bins because  
it is better for the environment. It is also better  
because West park won't look like a landfill and  
then animals won't eat the trash. Thank you for your  
time.

---

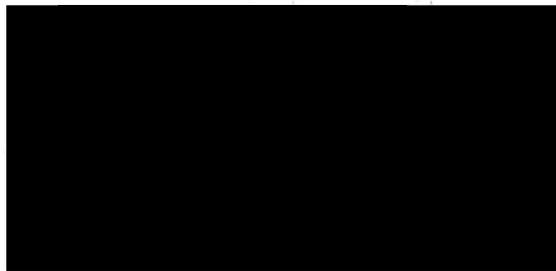

---

---

---

Sincerely,

---

---

April 30, 2019

Dear Council Member,

I love West Park. I think it would be even better if we added more trash and recycling bins because it's much better for the environment.

When there are not enough trash cans, trash

goes all over the place so the park looks like a

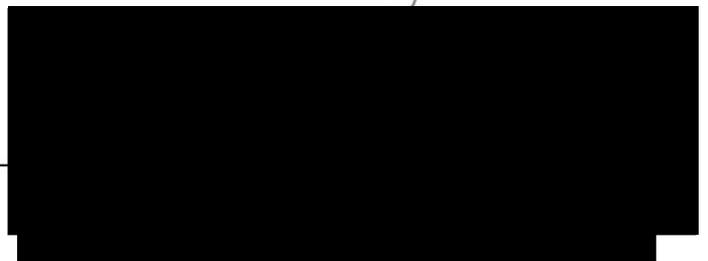

landfill! We can all stay healthy with more trash

and recycling bins. West Park is a very nice place and

it will be even better if we added more trash and recycling bins.

Thank you for your time.

Sincerely,

April 30, 2019

Dear Council Member,

I enjoy West Park very much. Also,

I think it would even more te-

rrific if by adding more trash cans

and recycle bins. Then people with

trash won't litter. I hope you

will consider my idea

Sincerely,

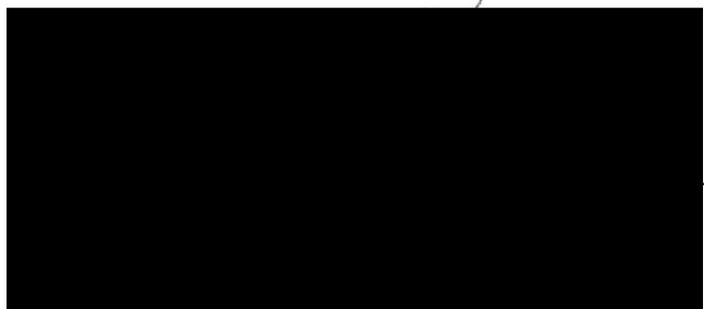

April 30, 2019

Dear Council Member

I love West Park. I think it could  
be even better if it had a Puppy  
Park because it's unsafe for small puppies  
if there are big dogs. Big dogs can crash  
into a small puppy so a puppy park can keep  
them in a certain area. I hope you consider  
my letter.

Sincerely,

April 30, 2019

Dear Council Member,

I love West Park I think it

could be even better if it

had a puppy park because

a lot of people

have puppies or dogs More

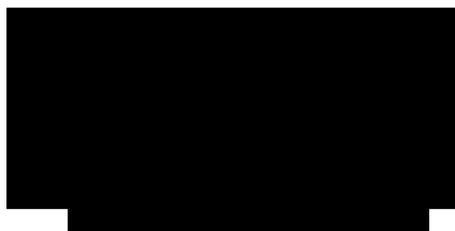

people would come because

it would be safe and fun

for their puppy / dogs I hope you

will consider My Suggestion

Sincerely

April 30, 2019

Dear Council member,

I love West Park. I

think it would be  
MUCH better if we

picked up trash because

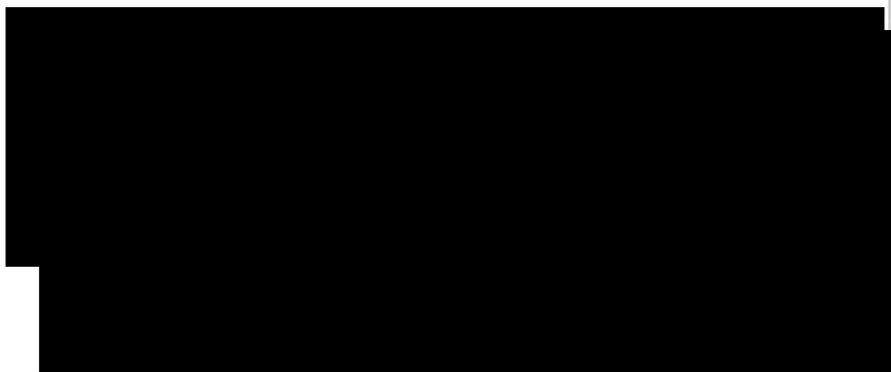

then we won't

step on it. THANK

YOU for reading

my letter!

sincerely,

April 30, 2019

Dear Council Member,

I enjoy and love West  
Park. I think it would be  
even better if we added  
a toddler park because  
then toddlers can enjoy  
and have fun. If we didn't a  
have a toddler park toddlers can  
get hurt. Thanks for your time. I hope  
you consider my suggestion

Sincerely,

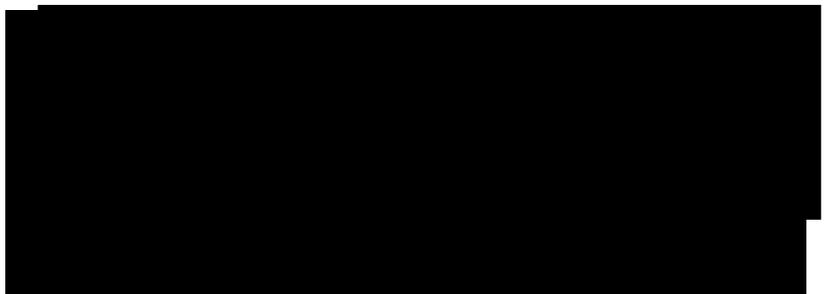

April 30, 2019

Dear Council Member,

West Park is really fun, I think it  
would be even better if you could add  
a puppy park. Then people can let  
their dog off its leash without  
it running away. And dogs can  
play safely. Please read this  
letter.

Sincerely,

April 30, 2019

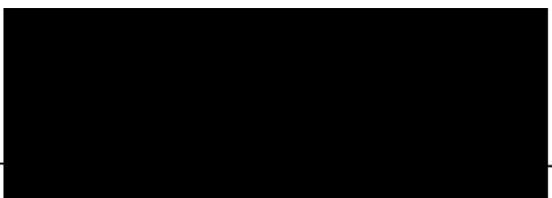

Dear Council Member,

I enjoy West Park.  
I think West Park  
would be better  
if there was a  
splash pad in  
the summer when  
it gets hot it would

be good because you can  
splash in and have  
fun. Thank

Sincerely,

You for  
Reading

  
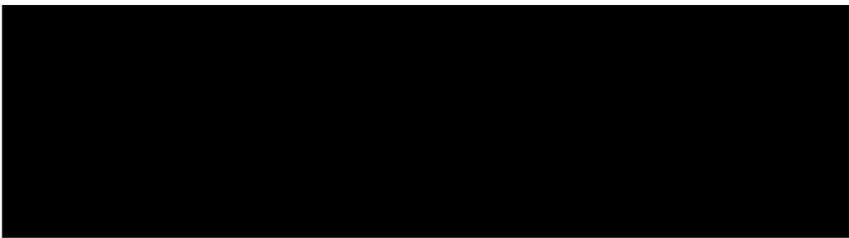

my letter.

April 30, 2019

Dear Council member,

I love West Park. I think it  
would be better if it had a  
Splash pad! There is lots of room  
for one and it is safe for  
every one to play on.  
Thank You so much for  
reading my letter.

Sincerely,

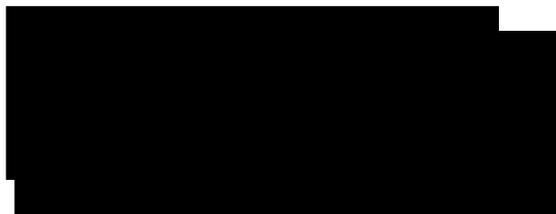

April 30, 2019

Dear council member,

I enjoy West Park. I think  
it could be better if it  
had more drinking fountains  
because what if there was  
a long line and there is only  
one drinking fountain. Thank  
you for reading my letter!

**Cc:** Eaton, Jack <JEaton@a2gov.org>; Nelson, Elizabeth <ENelson@a2gov.org>; Hayner, Jeff <JHayner@a2gov.org>  
**Subject:** Proposed ADU Ordinance Amendments

Dear Mr. Durham,

Thank you very much for taking the time to study the ordinance and to share your concerns about the proposed change to the existing garage requirement and how this could impact an abutting neighbor's property. I also agree that the public process leading up to these changes has been inadequate and it's very important to offer public information meetings to better inform homeowners about the proposed changes and to obtain feedback on these changes.

Councilmember Eaton (copied above) submitted questions about the public engagement process, and staff's responses to CM Eaton's questions, indicating that only four residents spoke at the Planning Commission meeting, and that no other meetings or public hearings were held to inform residents of the proposed changes, tells me that postponing to conduct public and neighborhood meetings (as we did, after we also requested for the first ADU ordinance proposal) should be considered by council. I think it's apparent the public has not been adequately informed of the proposed changes, and its critical they understand what's proposed to understand how it would impact them.

Thanks again for reaching out to make us aware of your concerns and to provide us your helpful input!

Kind regards, Jane Lumm

**From:** Tim Durham [REDACTED]

**To:** Nelson, Elizabeth <ENelson@a2gov.org>; Hayner, Jeff <JHayner@a2gov.org>; Lumm, Jane <JLumm@a2gov.org>  
**Subject:**

Greetings Councilmembers,  
As a supporter of the ADU ordinance, even having begun studying what was required to build

one in my own basement, I found out there is a lot to know before you can even apply for permits, most of which I now know. What I now know have made me put the plans on hold, mostly due to the expense vs. payback timeline.

The proposed **change** to the current requirement (that there must be an existing garage structure) raises thorny issues which I am sure most neighbors do not suspect and so have not considered. How would they feel if all the neighbors abutting their backyard were to add brand new, two story occupied structures (garage with apartment above) surrounding their backyard on all sides? The worst-case scenario will undoubtedly be someone's reality. For that reason, I believe there must be a thorough public process to alert homeowners to what actually is being proposed. If then voters agree to it, fine. But the information must come first.

Therefore, I think the right course, for now, is to vote no on this proposed change until the public have been fully informed.

Best regards,  
Tim J. Durham

**Subject:** Proposed ADU Ordinance Amendments  
**Date:** Friday, May 3, 2019 10:13:40 AM

---

Dear Mr. Durham,

Thank you very much for taking the time to study the ordinance and to share your concerns about the proposed change to the existing garage requirement and how this could impact an abutting neighbor's property. I also agree that the public process leading up to these changes has been inadequate and it's very important to offer public information meetings to better inform homeowners about the proposed changes and to obtain feedback on these changes.

Councilmember Eaton (copied above) submitted questions about the public engagement process, and staff's responses to CM Eaton's questions, indicating that only four residents spoke at the Planning Commission meeting, and that no other meetings or public hearings were held to inform residents of the proposed changes, tells me that postponing to conduct public and neighborhood meetings (as we did, after we also requested for the first ADU ordinance proposal) should be considered by council. I think it's apparent the public has not been adequately informed of the proposed changes, and it's critical they understand what's proposed to understand how it would impact them.

Thanks again for reaching out to make us aware of your concerns and to provide us your helpful input!

Kind regards, Jane Lumm

Greetings Councilmembers,

As a supporter of the ADU ordinance, even having begun studying what was required to build one in my own basement, I found out there is a lot to know before you can even apply for permits, most of which I now know. What I now know have made me put the plans on hold, mostly due to the expense vs. payback timeline.

The proposed **change** to the current requirement (that there must be an existing garage structure) raises thorny issues which I am sure most neighbors do not suspect and so have not considered. How would they feel if all the neighbors abutting their backyard were to add brand new, two story occupied structures (garage with apartment above) surrounding their backyard on all sides? The worst-case scenario will undoubtedly be someone's reality. For that reason, I

believe there must be a thorough public process to alert homeowners to what actually is being proposed. If then voters agree to it, fine. But the information must come first.

Therefore, I think the right course, for now, is to vote no on this proposed change until the public have been fully informed.

Best regards,  
Tim J. Durham

Hi Jeff,

Thanks for your inquiry about these folks and their reappointments. A friend forwarded Linda Diane Feldt's post so I know she's asked folks to contact council on her behalf.

The way the appt. process works is as follows -- the Mayor makes his Bd./commission recommendations to council, and council members vote the Mayoral appointees up/down.

Typically, but not always, the Mayor's appointees are approved. (I've served under 3 Mayor's and will say that for Ingrid Sheldon, who was a "minority" Mayor, appointees were more frequently contested/not approved. Which is not to say Ingrid did not advance qualified people -- she did.)

It is not all that common to not vote for reappointments, but it, again in my experience, has happened and can happen. Again, the Mayor has the authority and it is the Mayor's responsibility to nominate folks, and it is the council's responsibility to approve/not approve.

I cannot predict the vote for Linda Diane, Robert Gordon, Scott Trudeau, or Julie Weatherbee, but am aware that some councilmembers have expressed concerns with some of these prospective reappointments.

I have given the Mayor a heads-up that I am reluctant to support some of these nominees. I appreciate their service and interest, and also, when considering candidates, look for balanced representation on our boards and commissions, and consider this when nominations are presented. I do think that we tend to err on the side of insufficient "balance". Again, an important criterion for me.

Hope this is helpful, and thank you for reaching out.

Best, Jane

Hi Jack,

I meant to ask you what you knew about this after the Transportation Safety Committee meeting on Tuesday but I had to attend a lawyer briefing on the Title IX complaint at 1:45.

Jane and Kathy, I'd appreciate hearing your insight into this matter, or thoughts as my ward's council members.

As you surely know Linda Diane has posted on Facebook that her seat on the Transportation Commission may not be renewed, with the same being true of Robert Gordon, as well as Scott and Julie on the Planning Commission. Is there truth to this claim, and if so, for what reason?

And how common is it for a new council to remove sitting members of commissions?

I know each of these people, though only casually, but I have followed their work closely. I find their service to be knowledge-based, thoughtful, and responsible, and feel the city would benefit from their reappointment.

Of course if this is more rumor than fact, please let me know.

Best,  
Jeff

Mayor and Councilmembers:

As a follow-on to Ms. Bennett's e-mail below, please note the Council interview will be conducted by Council as a whole in the Chambers and will be televised. Based upon input we've received, we concur that having a public session will enhance the transparency of the process. The Independent Community Police Oversight Commission panels will be held in City Hall, so that the interviews will still be on a round-robin basis.

Dear Council Members,

We are currently in the process of finalizing the interview details for the week of May 13<sup>th</sup>. I wanted to share with you where we are at in the process and when you can expect to get additional information regarding the candidates and the interview process.

- <!--[if !supportLists]-->• <!--[endif]-->May 6<sup>th</sup> the press release will go out and will include the candidates' names, headshot and a brief overview of their experience
- <!--[if !supportLists]-->• <!--[endif]-->May 13<sup>th</sup> / 14<sup>th</sup> the Panelist binders will be ready for pick up / delivery
  - <!--[if !supportLists]-->○ <!--[endif]-->The binders will include the interview schedule, job posting / brochure, candidates resume, and interview questions
- <!--[if !supportLists]-->• <!--[endif]-->May 15<sup>th</sup> Meet & Greet in the Justice Center lobby from 5:30 – 7:30pm
  - <!--[if !supportLists]-->○ <!--[endif]-->During this time the community and city employees will have the opportunity to meet the Finalists and ask them questions
  - <!--[if !supportLists]-->○ <!--[endif]-->We are working with the Communications department on communicating this to the public, advertising the event on the cities website
- <!--[if !supportLists]-->• <!--[endif]-->May 16<sup>th</sup> the finalists will interview with the following panel

groups. These interviews will take place at Palmer Commons and each group will have a set of questions to ask each finalists to maintain consistency

<!--[if !supportLists]--> <!--[endif]-->Law Enforcement / Legal

<!--[if !supportLists]--> <!--[endif]-->Police Department Union Presidents

<!--[if !supportLists]--> <!--[endif]-->Service Area Administrators

<!--[if !supportLists]--> <!--[endif]-->Community Members

<!--[if !supportLists]-->• <!--[endif]-->May 17<sup>th</sup> the finalists will interview with the following panel groups. These interviews will take place at the Larcom Building and each group will have a set of questions to ask each finalists to maintain consistency

<!--[if !supportLists]--> <!--[endif]-->Council Members

<!--[if !supportLists]--> <!--[endif]-->ICPOC Members

Thank you for your patience and understanding as we work finalizing the details.

I hope you have a wonderful weekend,

Kim

**Subject:** RE: Q about the "Canoe Fan" sculpture

CM Lumm,

The Canoe Fan is not on an inspection schedule in the way playground equipment is. Periodic maintenance/inspection of the Canoe Fan takes place (e.g. wasp nest removal) as needed. The Canoe Fan, along with the other canoe pieces along the river, is mounted on an engineered concrete foundation that has worked well to keep the piece stable. As to the safety of it for kids to climb I can't really answer. The intended use of it didn't consider such activity.

Thanks,  
Colin

**Subject:** Q about the "Canoe Fan" sculpture

Colin, you may/not know, but I've place a resln. on Monday's agenda directing staff to negotiate with the artist and to come back w/a recommendation for the next council mtg. (May 20<sup>th</sup>) – the rental agreement for the artwork ends May 30<sup>th</sup>. I have been asked if the Canoe Fan is safe for kids to climb. Does Parks/anyone periodically check the condition of this structure to assure it's safe?

Thank you! Jane

FOR IMMEDIATE RELEASE

May 2, 2018

Contact: Councilmember Kathy Griswold

[kgriswold@a2gov.org](mailto:kgriswold@a2gov.org)

Ann Arbor Councilmembers Announce Exciting Opportunities for Residents to Serve on City Boards and Commissions

From Ann Arbor's Energy Commission and Planning Commission, to the Downtown Development Authority and the AAATA, City Councilmembers Kathy Griswold, Anne Bannister and Elizabeth Nelson invite residents to apply to share their expertise in support of city government.

"There are dozens of immediate and upcoming openings on City boards and commissions, and we're working to promote greater diversity of voices on them. Ann Arbor is full of residents who are qualified in so many areas. It's exciting!" said Griswold, a Democrat elected in 2018 to represent Ward 2. Griswold is one of four Democrats elected in 2018 by Ann Arbor voters eager to see changes to the political landscape.

Two years ago City Council voted to fund a dedicated position in the City Clerk's office to keep track of the over 250 board and commission appointments. Applications are accepted online through the city's website: <https://www.a2gov.org/departments/city-clerk/Boards-and-Commissions/Pages/default.aspx> The Ann Arbor City Clerk's office keeps track of board and commission terms and posts upcoming vacancies on the same page of the city's website.

Bannister, Griswold, and Nelson are working to make sure that board and commission vacancies are posted more widely. At Council meetings, Bannister announces appointment opportunities, inviting people to apply. Nelson also spreads the word about these vacancies, sharing the link to the city's website in all her newsletters and on her website.

The process of filling these positions is more collaborative than it ever was before. Since the 2018 election, City Council has adopted a new and improved policy for making appointments: where previously only the Mayor ever saw the pool of applicants, now the whole of Council can see the database of applications. Residents are advised to contact their Ward representative if they have an interest in applying or have already submitted an application.

Presently, the Ann Arbor Art Commission, the Building Board of Appeals, the Center of the City

Taskforce, the Commission on Disability Issues, the Downtown Citizens Advisory Council and the Energy Commission are among the boards and commissions with immediate and upcoming openings.

"I appreciate the service of those board and commission members who've served on multiple boards and commissions for extended terms, but in the spirit of inclusion and diversity it's time for the city to more widely recruit residents," said Griswold. "The Downtown Citizens Advisory Council, for instance, has multiple openings and we have thousands of new residents downtown. The DCAC advises the DDA. If you're new to downtown living in Ann Arbor, why not apply?"

Kathy Griswold

**Subject:** Re: EPA Resolution

Thanks for your advice. I will ask for the revision to the resolution tomorrow.

On Wed, May 1, 2019, 6:12 PM Dan <[REDACTED]> wrote:

Kathy

Overall the Resolution looks very fine.

I have one comment. The Resolved asking the Governor for action should read "...soliciting a Concurrence Letter to USEPA in support of making the Gelman Site into a National Priorities List site." This is the official name of the letter which USEPA must receive from the Governor to move the designation process forward.

Thank you for your leadership.

Very best regards

Dan

**Subject:** EPA Resolution

Hi Dan,

Thanks for your tremendous contribution to this effort. Your resolution was revised by a city attorney and then further revised by outside counsel. The final version is attached and listed as DC-6 on the [agenda for the May 6 council meeting](#). I believe the intent of the resolve clauses is unchanged.

The [Mlive article on the topic](#) is excellent and the vast majority of the comments are supportive. We collected over 100 signatures in support of the resolution at the Earth Day event at Leslie Park and Beth Collins started a MoveOn petition.

Please let me know if you have any recommendations. We need to get support from UM.

Kathy

Have no fear, I am DONE with Mr. Stabler. He has morphed into the poster child of unrelenting, harsh, uncivil, hateful, vitriolic, discourse. I am officially over and out. I do not know what he is talking about. Good thing I don't "do" social media. So to Ned? I say, "UNCLE!"

Have a good evening everyone, and my apologies for dragging you into this over-the-top, angry vitriol. Not good for anyone's mental health, and, they don't pay you for this kind of abuse. Yes, abuse.

If anyone wants to put in a request to Ned to call off the dogs, please do.

Again, my apologies. And, over and out, I promise. Jane

**Subject:** RE: Uncivil Discourse

Hey- happy to 'call a truce' on the unsolicited email chain you started by sending an email to a dozen or city officials disparaging a private citizen for no apparent reason.

BTW- Did I miss the email you sent calling out the A2Indy website for its frequent attacks? Did you just not copy me on the email you sent complaining about Jack Eaton or Elizabeth Nelson for attacking their colleague when he admitted he had a personal health issue that had led him to a DUI? I must have missed the emails you sent about Ali Ramlawi refusing to disavow the support of the leader of a hate group who intimidates and antagonizes Ann Arbor Jews. Maybe I missed your email calling on Steve Ranzini or Tom Wieder to cease their baseless insults of the mayor on social media. I could go on and on and on.

For the record, I'm extremely 'not angry'. I was at a 2<sup>nd</sup> grade 'musical' for most of this exchange, and while it was very cute, a distraction was welcome. It was about a noisy rooster...

If you'd like to learn more about the Michigan Talent Agenda, I recommend you check

out our website ([www.mitalentagenda.com](http://www.mitalentagenda.com)). The agenda is in no way focused on Ann Arbor and was developed by about a dozen people over the course of 2-3 years. You would, of course, know this if you actually did your homework and 'due diligence' as you claim below. I'd suggest a website called Google as a good place to start your research. The url is [www.google.com](http://www.google.com)

I'm glad to hear there are no cabals at work in Ann Arbor. That sounds scary!

That said, I am very interested to know when, how, and why you and your colleagues on council decided to oppose the particular volunteer commissioners you have decided to oppose. Please note, I am not attacking you or your group. I am asking a substantive question as your constituent. You can see that, correct?

It has been alleged that you and your allies have communicated to the Mayor that there are certain people who you will not support for appointment to boards and commissions. I believe the term used was "you don't have the votes," and the reason given was their lack of support for the current council majority. Is this not the case? That, after all, was the substance of the MTA post on Facebook that was so 'mean' that you felt obligated to send a mass email to city officials.

I'll ask again. Was the substance of the post untrue or did you and your colleagues have a conversation (email chain?) where you decided to blackball certain volunteer commissioners?

If it is the case, can you please tell me what criteria were used to determine their unfitness to serve in a volunteer capacity?

Again, Jane, no one is attacking you PERSONALLY. My email from last year – that you ignored, telling one constituent that it had initially been stuck in your spam filter- was polite and factual. The FB post was also factual, though admittedly less polite in tone. If you can demonstrate that the substance of the post is incorrect, I will gladly let an administrator of the page know and ask them to take it down.

I know you have a tough job. I know you are very well meaning and only want the best for Ann Arbor. But, please don't try and deflect my substantive questions by calling them personal attacks. If you feel that my asking why you did something is a personal attack, perhaps the issue is not the questioner or the question, but rather your guilty conscience?

I'll wait for your response. I hope it won't take another year.

To everyone else- sorry you had to be a party to this whole thread. But, if you happen to have copies of Jane's emails calling for her other colleagues to remain civil, please feel free to forward them on...

Ned

**Subject:** RE: Uncivil Discourse

Ned,

Part 3 of ... ?

I doubt that there is anything I can say, do, advocate for, represent, communicate that would serve to convince you that I should be taken seriously. I have always caught the ire and contempt of the Michigan Talent Agenda and been portrayed as someone who is a, paraphrasing, lost cause, someone who does not get it. I will just say that I always do my due diligence, try to ask the hard questions, delve deeply into issues that come before us, and do my utmost to “do my homework”.

While you maintain that I “am unable to argue the merits of the argument”, please know that I take this responsibility of councilmember responsibility very seriously.

I regret that, for you, I am not qualified or capable to argue the merits of an argument. I know there is nothing I can do to earn your support – you have always supported my opponents, and that, of course, is you doing your civic duty and you making a judgement call based on your views.

That's politics. I'm simply arguing, whether or not you see the merit of my argument, for civility in this realm of political discourse.

Thank you, Jane

**Subject:** Re: Uncivil Discourse

Jane,

Your criticisms of the quality of political discourse in our community would be more likely to be taken seriously, if you didn't engage in the exact tactics against others you purport to oppose. Furthermore, it would strengthen your case, if you didn't limit your criticisms to those with whom you disagree politically while giving a pass to your allies.

I'd also like to point out that you have a tendency to accuse your political opponents of "taking the discourse to the gutter" when you are unable to argue the merits of the argument. Case in point: [https://www.mlive.com/news/ann-arbor/2018/05/city\\_official\\_says\\_politics\\_in.html](https://www.mlive.com/news/ann-arbor/2018/05/city_official_says_politics_in.html)

In short, I completely agree that there should be more civil discourse in our politics. However, civility does not mean "turning the other cheek." It means participating in that discourse appropriately. When one group is wont to attack another frequently, civility allows for a response in kind.

I care deeply about this community and will gladly engage in reasonable, fact-based dialogue about it's future. If you're willing to do the same, that's great. But, actions speak louder than words. Please demonstrate the leadership you were elected to provide.

Ned

**Subject:** RE: Uncivil Discourse

Hello, Ned,

My utmost apologies for misspelling your name.

Please read the subject line. My message, on which you were copied, has to do with your lack of civility. I am responding to a post that I received this afternoon from a friend (someone who's also an acquaintance of your's I might add).

Much like the outcome of Proposal A, we have members of our community who cannot accept outcomes of political campaigns. Yes, for many, the world has changed in a disagreeable, unacceptable way, and hence the barbs and uncivil discourse. Don't like the message? Attack the messenger.

There are costs associated with taking the low road and attacking people with impunity, and it's always more productive, I believe, to take the "attract bees with honey" approach, than to go into attack mode.

Your letter to me regarding the Y lot purchase demonstrates an appreciated positive, productive form of discourse, and I thank you for your civility in the approach taken. I, on the otherhand, apparently failed you, and I sincerely apologize and regret that I failed to respond to you. No excuse, and I truly, sincerely apologize. At the time (OK, now sounds like an excuse) we were bombarded with letters from folks writing about the repurchase, and I obviously owe you, most belatedly!, a sincere apology. Certainly your choice to repost this and report me on your Michigan Talent Agenda website/wherever you so choose.

And again, my sincere apologies for not responding to your thoughtful letter about the Y-lot repurchase, and for misspelling your name. Your family is an AA "founding family" with a rich history.

All best, Jane

Hi, Jane.

Thanks for copying me on this email and misspelling my name several times.

I'm just pleased that you finally have emailed me. I assume it's a response to the email below which I sent you as your 2nd ward constituent on April 15, 2018 (that's last year). I'm surprised it took you more than a year to respond, given that you told multiple people you had received it when you responded to their versions of it.

I'll post it again. Might I suggest you use it as an example of the proper way to send correspondence to people with whom you would like to have constructive dialogue.

Thanks for the prompt response...

Ned StaEbler

Dear Councilmember Lumm,

I'm writing today as your constituent. I recognize that as a public servant, you frequently have the difficult and unenviable task of making decisions on matters that are extremely complex. In your quest to best serve the people of Ann Arbor and the Second Ward specifically, you are often forced to balance competing priorities, find empathy with multiple constituencies, and navigate perilous political waters as you do your best to protect the long-term interests of our fair city and its residents.

That is why I feel obliged to write to you about this matter. The repurchase of the "Y-lot" is as simple a decision as any elected official can hope to be confronted with. The arguments in favor of the repurchase are clear and compelling:

It is clearly in the City's best financial interest. The parcel is now

worth millions of dollars more than when it was sold. When it was sold, the purchaser promised to build a building with specific attributes, with the agreed-upon penalty of a City re-purchase right in the event that he failed to build such a structure. The price he paid for the parcel was, of course, lower than what he would have been willing to pay without the re-purchase right. He did not build the structure, and so the right now exists.

There is no credible argument to be made that this repurchase amounts to real estate speculation. Even Mr. Dahlman's attorney, while lambasting the formulaic calculation that gives us the \$9.8 million headline, concedes that it's worth at least \$6 million. My own experience with commercial real estate leads me to believe that the actual value is much closer to \$10 million, if not more. But, regardless, if your only concern were your fiduciary obligation to the City and its taxpayers, you would be compelled to vote to repurchase. Ann Arbor has the legitimate, bargained-for right to purchase a property worth between \$6M and \$9.8M for \$4.2M.

However, in this instance as in most others, there are other factors to weigh. What is different in this case is that those other concerns also point clearly to repurchase.

It has been 5 years since the RFP process for this site. Public needs change over time, and the supply and make up of commercial properties downtown has evolved. Repurchase allows for renewed public control over a strategic central parcel. Undoubtedly, a new process would provide for an updated appraisal of those needs and how they are being met by the market. The result would be a better plan, more closely attuned to the needs of Ann Arbor residents.

Additionally, I understand that you have expressed interest in seeking to attempt to salvage the relationship with the developer in an attempt to prevent the parcel from sitting empty for further years. I think that makes a lot of sense and is a worthy goal. Again, this factor points to voting to repurchase. If the city waives its right to repurchase, it loses much of the leverage it currently has, making it far more likely that the site will sit fallow. On the other hand, beginning the repurchase process increases the pressure on the developer to come to the table to find a resolution.

On the flip side, I have yet to hear a serious argument against repurchase. The excuses given by Jack and Sumi publicly simply don't hold much water. I do not believe that the campaign contributions made by the developer over the years are the reason they voted 'No'. But, given their lack of a remotely plausible explanation and the overwhelmingly clear case for repurchase, I understand why there is so much public speculation about their motives. Similarly, I know you would never be influenced to vote to enrich a developer at the expense of the public by a campaign

contribution. If you do choose to vote 'No', I implore you to make the rationale for that vote known widely, and in that case, I advise you to make a better argument than your colleagues.

Thank you for your continued service to the interests of the people of Ann Arbor.

Mayor Taylor and Council, It has been brought to my attn. (rec'd. this from an AA friend from FL) that apparently the Michigan Talent Agenda, fancy name for the PAC established by Ned Staebler (copied above) to oppose those with whom Mr. Stabler and his cohorts disagree, is all about cut throat, gutter political discourse.

I am, literally (b/c it has a permanent "home", front and ctr. on my desk next to my computer), staring at George Washington's "Rules of Civility & Decent Behaviour in Company and Conversation". Mr. Stabler, highly recommended reading!

Jane

I'd also like to point out that you have a tendency to accuse your political opponents of "taking the discourse to the gutter" when you are unable to argue the merits of the argument. Case in point: [https://www.mlive.com/news/ann-arbor/2018/05/city\\_official\\_says\\_politics\\_in.html](https://www.mlive.com/news/ann-arbor/2018/05/city_official_says_politics_in.html)

In short, I completely agree that there should be more civil discourse in our politics. However, civility does not mean "turning the other cheek." It means participating in that discourse appropriately. When one group is wont to attack another frequently, civility allows for a response in kind.

I care deeply about this community and will gladly engage in reasonable, fact-based dialogue about it's future. If you're willing to do the same, that's great. But, actions speak louder than words. Please demonstrate the leadership you were elected to provide.

Ned

**Subject:** RE: Uncivil Discourse

Hello, Ned,

My utmost apologies for misspelling your name.

Please read the subject line. My message, on which you were copied, has to do with your lack of civility. I am responding to a post that I received this afternoon from a friend (someone who's also an acquaintance of your's I might add).

Much like the outcome of Proposal A, we have members of our community who cannot accept outcomes of political campaigns. Yes, for many, the world has changed in a disagreeable, unacceptable way, and hence the barbs and uncivil discourse. Don't like the message? Attack the messenger.

There are costs associated with taking the low road and attacking people with impunity, and it's always more productive, I believe, to take the "attract bees with honey" approach, than to go into attack mode.

Your letter to me regarding the Y lot purchase demonstrates an appreciated positive, productive form of discourse, and I thank you for your civility in the approach taken. I, on the otherhand, apparently failed you, and I sincerely apologize and regret that I failed to respond to you. No excuse, and I truly, sincerely apologize. At the time (OK, now sounds like an excuse) we were bombarded with letters from folks writing about the repurchase, and I obviously owe you, most belatedly!, a sincere apology. Certainly your choice to repost this and report me on your Michigan Talent Agenda website/wherever you so choose.

And again, my sincere apologies for not responding to your thoughtful letter about the Y-lot repurchase, and for misspelling your name. Your family is an AA "founding family" with a rich history.

All best, Jane

Hi, Jane.

Thanks for copying me on this email and misspelling my name several times.

I'm just pleased that you finally have emailed me. I assume it's a response to the email below which I sent you as your 2nd ward constituent on April 15, 2018 (that's last year). I'm surprised it took you more than a year to respond, given that you told multiple people you had received it when you responded to their versions of it.

I'll post it again. Might I suggest you use it as an example of the proper way to send correspondence to people with whom you would like to have constructive dialogue.

Thanks for the prompt response...

Ned StaEbler

Dear Councilmember Lumm,

I'm writing today as your constituent. I recognize that as a public servant, you frequently have the difficult and unenviable task of making decisions on matters that are extremely complex. In your quest to best serve the people of Ann Arbor and the Second Ward specifically, you are often forced to balance competing priorities, find empathy with multiple constituencies, and navigate perilous political waters as you do your best to protect the long-term interests of our fair city and its residents.

That is why I feel obliged to write to you about this matter. The repurchase of the "Y-lot" is as simple a decision as any elected official can hope to be confronted with. The arguments in favor of the repurchase are clear and compelling:

It is clearly in the City's best financial interest. The parcel is now worth millions of dollars more than when it was sold. When it was sold, the purchaser promised to build a building with specific attributes, with the agreed-upon penalty of a City re-purchase right in the event that he failed to build such a structure. The price he paid for the parcel was, of course, lower than what he would have been willing to pay without the re-purchase right. He did not build the structure, and so the right now exists.

There is no credible argument to be made that this repurchase amounts to real estate speculation. Even Mr. Dahlman's attorney, while lambasting the formulaic calculation that gives us the \$9.8 million headline, concedes that it's worth at least \$6 million. My own experience with commercial real estate leads me to believe that the actual value is much closer to \$10 million, if not more. But, regardless, if your only concern were your fiduciary obligation to the City and its taxpayers, you would be compelled to vote to repurchase. Ann Arbor has the legitimate, bargained-for right to

purchase a property worth between \$6M and \$9.8M for \$4.2M.

However, in this instance as in most others, there are other factors to weigh. What is different in this case is that those other concerns also point clearly to repurchase.

It has been 5 years since the RFP process for this site. Public needs change over time, and the supply and make up of commercial properties downtown has evolved. Repurchase allows for renewed public control over a strategic central parcel. Undoubtedly, a new process would provide for an updated appraisal of those needs and how they are being met by the market. The result would be a better plan, more closely attuned to the needs of Ann Arbor residents.

Additionally, I understand that you have expressed interest in seeking to attempt to salvage the relationship with the developer in an attempt to prevent the parcel from siting empty for further years. I think that makes a lot of sense and is a worthy goal. Again, this factor points to voting to repurchase. If the city waives its right to repurchase, it loses much of the leverage it currently has, making it far more likely that the site will sit fallow. On the other hand, beginning the repurchase process increases the pressure on the developer to come to the table to find a resolution.

On the flip side, I have yet to hear a serious argument against repurchase. The excuses given by Jack and Sumi publicly simply don't hold much water. I do not believe that the campaign contributions made by the developer over the years are the reason they voted 'No'. But, given their lack of a remotely plausible explanation and the overwhelmingly clear case for repurchase, I understand why there is so much public speculation about their motives. Similarly, I know you would never be influenced to vote to enrich a developer at the expense of the public by a campaign contribution. If you do choose to vote 'No', I implore you to make the rationale for that vote known widely, and in that case, I advise you to make a better argument than your colleagues.

Thank you for your continued service to the interests of the people of Ann Arbor.

Ned,

I recommend we call a truce and move on to more productive and worthwhile exchanges and ventures.

You are clearly very angry about innumerable things, and there is no searing logic I could apply to this/any argument to state/ defend "my case" or my positions with which you disagree. I get it. In your view, I am "unable to argue the merits of the argument."

There is no "cabal" at work here. The clear irritant is that the folks who have been duly elected to serve are not conforming or walking in lock step fashion. Whether this suits the Michigan Talent Agenda agenda or not, this is democracy. I am simply urging one and all to critique the message, the position with wch one may disagree with, not disrespectfully torpedo/assault the messenger(s).

Have a good evening, and thank you, Jane

On May 1, 2019, at 6:10 PM, Edward Staebler < wrote:

C'mon, Jane. Christopher, likely the kindest and most respectful person ever elected to public office, pointed our that your political action was weakening the city's legal position, and you hyperbolically and ridiculously attacked him, saying he was taking political discourse into the gutter.

As an aside, he was proven right, and you cost the city hundreds of thousands of dollars.

I'm not sure what your point was in copying all of these public officials on your email to a private citizen. You saw a post on Facebook from a group that I am involved in that you felt was 'mean, ' and rather than addressing the substance of the post - that you are part of a group of councilmembers who keep tabs on what private citizens oppose their candidacies (a fact you affirmed in this thread)- you attacked me and copied multiple people.

If you'd like to address the substance of the post, I'm all for it. How did you and your fellow councilmembers pick which commissioners to blackball from volunteer service? What criteria were used? Did you decide on your list via email or in a group meeting? If a meeting, was a quorum present?

Thanks.

Ned,

Part 3 of ... ?

I doubt that there is anything I can say, do, advocate for, represent, communicate that would serve to convince you that I should be taken seriously. I have always caught the ire and contempt of the Michigan Talent Agenda and been portrayed as someone who is a, paraphrasing, lost cause, someone who does not get it. I will just say that I always do my due diligence, try to ask the hard questions, delve deeply into issues that come before us, and do my utmost to “do my homework”.

While you maintain that I “am unable to argue the merits of the argument”, please know that I take this responsibility of councilmember responsibility very seriously.

I regret that, for you, I am not qualified or capable to argue the merits of an argument. I know there is nothing I can do to earn your support – you have always supported my opponents, and that, of course, is you doing your civic duty and you making a judgement call based on your views. That’s politics. I’m simply arguing, whether or not you see the merit of my argument, for civility in this realm of political discourse.

Thank you, Jane

Dear Councilmember Lumm,

I'm writing today as your constituent. I recognize that as a public servant, you frequently have the difficult and unenviable task of making decisions on matters that are extremely complex. In your quest to best serve the people of Ann Arbor and the Second Ward specifically, you are often forced to balance competing priorities, find empathy with multiple constituencies, and navigate perilous political waters as you do your best to protect the long-term interests of our fair city and its residents.

That is why I feel obliged to write to you about this matter. The repurchase of the "Y-lot" is as simple a decision as any elected official can hope to be confronted with. The arguments in favor of the repurchase are clear and compelling:

It is clearly in the City's best financial interest. The parcel is now worth millions of dollars more than when it was sold. When it was sold, the purchaser promised to build a building with specific attributes, with the agreed-upon penalty of a City re-purchase right in the event that he failed to build such a structure. The price he paid for the parcel was, of course, lower than what he would have been willing to pay without the re-purchase right. He did not build the structure, and so the right now exists.

There is no credible argument to be made that this repurchase amounts to real estate speculation. Even Mr. Dahlman's attorney, while lambasting the formulaic calculation that gives us the \$9.8 million headline, concedes that it's worth at least \$6 million. My own experience with commercial real estate leads me to believe that the actual value is much closer to \$10 million, if not more. But, regardless, if your only concern were your fiduciary obligation to the City and its taxpayers, you would be compelled to vote to repurchase. Ann Arbor has the legitimate, bargained-for right to purchase a property worth between \$6M and \$9.8M for \$4.2M.

However, in this instance as in most others, there are other factors to weigh. What is different in this case is that those other concerns also point clearly to repurchase.

It has been 5 years since the RFP process for this site. Public needs change over time, and the supply and make up of commercial properties downtown has evolved. Repurchase allows for renewed public control over a strategic central parcel. Undoubtedly, a new process would provide for an updated appraisal of those needs and how they are being met by the market. The result would be a better plan, more closely attuned to the needs of Ann Arbor residents.

Additionally, I understand that you have expressed interest in seeking to attempt to salvage the relationship with the developer in an attempt to prevent the parcel from sitting empty for further years. I think that makes a lot of sense and is a worthy goal. Again, this factor points to voting to repurchase. If the city waives its right to repurchase, it loses much of the leverage it currently has, making it far more likely that the site will sit fallow. On the other hand, beginning the repurchase process increases the pressure on the developer to come to the table to find a resolution.

On the flip side, I have yet to hear a serious argument against repurchase. The excuses given by Jack and Sumi publicly simply don't hold much water. I do not believe that the campaign contributions made by the developer over the years are the reason they voted 'No'. But, given their lack of a remotely plausible explanation and the overwhelmingly clear case for repurchase, I understand why there is so much public speculation about their motives. Similarly, I know you would never be influenced to vote to enrich a developer at the expense of the public by a campaign contribution. If you do choose to vote 'No', I implore you to make the rationale for that vote known widely, and in that case, I advise you to make a better argument than your colleagues.

Thank you for your continued service to the interests of the people of Ann Arbor.

Ann Arbor City Council members Cm Jack Eaton, Ali Ramlawi, Jane Lumm for City Council, Anne Bannister, Kathy Griswold, and Jeff Hayner for City Council have begun a witch hunt, targeting advocates of affordable housing, environmental initiatives, transit, and pedestrian and bicyclist safety who volunteer on city boards and commissions.

Their Trumpian political vindictiveness shows their true motivations. Please call the Mayor or your City Council member and urge them to live up to our shared progressive values.

Hello, Ned,

My utmost apologies for misspelling your name.

Please read the subject line. My message, on which you were copied, has to do with your lack of civility. I am responding to a post that I received this afternoon from a friend (someone who's also an acquaintance of yours I might add).

Much like the outcome of Proposal A, we have members of our community who cannot accept outcomes of political campaigns. Yes, for many, the world has changed in a disagreeable, unacceptable way, and hence the barbs and uncivil discourse. Don't like the message? Attack the messenger.

There are costs associated with taking the low road and attacking people with impunity, and it's always more productive, I believe, to take the "attract bees with honey" approach, than to go into attack mode.

Your letter to me regarding the Y lot purchase demonstrates an appreciated positive, productive form of discourse, and I thank you for your civility in the approach taken. I, on the otherhand, apparently failed you, and I sincerely apologize and regret that I failed to respond to you. No excuse, and I truly, sincerely apologize. At the time (OK, now sounds like an excuse) we were bombarded with letters from folks writing about the repurchase, and I obviously owe you, most belatedly!, a sincere apology. Certainly your choice to repost this and report me on your Michigan Talent Agenda website/wherever you so choose.

And again, my sincere apologies for not responding to your thoughtful letter about the Y-lot repurchase, and for misspelling your name. Your family is an AA "founding family" with a rich history.

All best, Jane

*Let your conversation be without malice or envy, for it is a sign of a tractable and commendable nature; and in all cases of passion admit reason to govern.*

Hi, Jane.

Thanks for copying me on this email and misspelling my name several times.

I'm just pleased that you finally have emailed me. I assume it's a response to the email below which I sent you as your 2nd ward constituent on April 15, 2018 (that's last year). I'm surprised it took you

more than a year to respond, given that you told multiple people you had received it when you responded to their versions of it.

I'll post it again. Might I suggest you use it as an example of the proper way to send correspondence to people with whom you would like to have constructive dialogue.

Thanks for the prompt response...

Ned StaEbler

Dear Councilmember Lumm,

I'm writing today as your constituent. I recognize that as a public servant, you frequently have the difficult and unenviable task of making decisions on matters that are extremely complex. In your quest to best serve the people of Ann Arbor and the Second Ward specifically, you are often forced to balance competing priorities, find empathy with multiple constituencies, and navigate perilous political waters as you do your best to protect the long-term interests of our fair city and its residents.

That is why I feel obliged to write to you about this matter. The repurchase of the "Y-lot" is as simple a decision as any elected official can hope to be confronted with. The arguments in favor of the repurchase are clear and compelling:

It is clearly in the City's best financial interest. The parcel is now worth millions of dollars more than when it was sold. When it was sold, the purchaser promised to build a building with specific attributes, with the agreed-upon penalty of a City re-purchase right in the event that he failed to build such a structure. The price he paid for the parcel was, of course, lower than what he would have been willing to pay without the re-purchase right. He did not build the structure, and so the right now exists.

There is no credible argument to be made that this repurchase amounts to real estate speculation. Even Mr. Dahlman's attorney, while lambasting the formulaic calculation that gives us the \$9.8 million headline, concedes that it's worth at least \$6 million. My own experience with commercial real estate leads me to believe that the actual value is much closer to \$10 million, if not more. But, regardless, if your only concern were your fiduciary obligation to the City and its taxpayers, you would be compelled to vote to repurchase. Ann Arbor has the legitimate, bargained-for right to purchase a property worth between \$6M and \$9.8M for \$4.2M.

However, in this instance as in most others, there are other factors to weigh. What is different in this case is that those other concerns also point clearly to repurchase.

It has been 5 years since the RFP process for this site. Public needs change over time, and the supply and make up of commercial properties downtown has evolved. Repurchase allows for renewed public control over a strategic central parcel. Undoubtedly, a new process would provide for an updated appraisal of those needs and how they are being met by the market. The result would be a better plan, more closely attuned to the needs of Ann Arbor residents.

Additionally, I understand that you have expressed interest in seeking to attempt to salvage the relationship with the developer in an attempt to prevent the parcel from sitting empty for further years. I think that makes a lot of sense and is a worthy goal. Again, this factor points to voting to repurchase. If the city waives its right to repurchase, it loses much of the leverage it currently has, making it far more likely that the site will sit fallow. On the other hand, beginning the repurchase process increases the pressure on the developer to come to the table to find a resolution.

On the flip side, I have yet to hear a serious argument against repurchase. The excuses given by

Jack and Sumi publicly simply don't hold much water. I do not believe that the campaign contributions made by the developer over the years are the reason they voted 'No'. But, given their lack of a remotely plausible explanation and the overwhelmingly clear case for repurchase, I understand why there is so much public speculation about their motives. Dear Mr. Delacourt and all,

Thank you for the detail on the First and Second Reading process.

To be more specific about the original question, the concern is that Resolution 19-0722 is a significant change to the ADU ordinance that will impact every single family home (and duplex) ***in ways that the citizens are unaware.*** We'd like to suggest that the City offer greater public notice, public engagement and public input.

If we're planning to spend \$500K to develop a Master Plan, and build consensus and trust throughout the community, shouldn't we start with these ADU ordinance amendments?

This is the link to Resolution 19-0722: <http://a2gov.legistar.com/LegislationDetail.aspx?ID=3929110&GUID=93B03418-196C-479A-8CD4-8C40DF2F2E51&Options=ID%7CText%7C&Search=&FullText=1>

Please "reply all" and let us know if we can back-up and offer greater public involvement.

Thank you,  
Anne

CM Bannister,

This response was prepared by Jackie Beaudry, who is copied:

The proposed ADU ordinance is in First Reading at City Council. If Council passes it at First Reading, a public hearing will be scheduled along with a Second and final Reading of the ordinance. The public hearing at Second Reading will be advertised to the public. At First Reading, on Monday, May 6, members of the public who wish to comment on the item may do so using Public Comment Reserved Time, eComment, or Public Comment General Time.

Thank you,  
John

**Subject:** Braxton Blake objection to ADU revisions without public hearing

Dear Derek Delacourt,

CM Hayner and I have received concerns from residents about a lack of public engagement, public input, and public notice for the ADU revisions.

This is the link to Resolution 19-0722: <http://a2gov.legistar.com/LegislationDetail.aspx?ID=3929110&GUID=93B03418-196C-479A-8CD4-8C40DF2F2E51&Options=ID%7CText%7C&Search=&FullText=1>

This is an email we received earlier today. Would it be possible to include it in the Council packet/record?

Dear Anne and Jeff -

I am strongly opposed to these changes that would allow building in setbacks. I am not against ADUs, but am against this "tweek." At the very least, there should be at least one, detailed public hearing about this change.

Brad

[Braxton Blake](#) [REDACTED]

Would it be possible to include public input and public notice for Resolution 19-0722, so as to avoid any problems at the First Reading at the May 6 Council meeting?

Thank you,  
Anne

**Cc:** Eaton, Jack <JEaton@a2gov.org>; Taylor, Christopher (Mayor) <CTaylor@a2gov.org>; Postema, Stephen <SPostema@a2gov.org>; Fournier, John <JFournier@a2gov.org>  
**Subject:** RE: Follow-Up to HR Director Resignation

Councilmember Lumm:

Upon having the time to read your e-mail below and have the ability to respond and not react, I would like to offer some corrections to your concerns below:

- Specifically, I did not have any knowledge about the exchange of text messages until they were presented to me on April 5<sup>th</sup>. Mr. Lazarus, you stated in one of your recent messages to council and staff re: this matter that this matter “pre-dated” you. That stmt. alone indicates you were aware of the problems in HR. In other words, you cannot have it both ways – you had no knowledge, but you were aware the matter pre-dated you. The ee who provided me the txt messages is not the only city ee who has approached you re: issues in/HR. I will also note that several ee’s who have shared these concerns are no longer in the City’s employ. The HR Director is your direct report, and when I recommended to the ee who shared the txt messages w/me that she follow proper protocol, the response I was given (and the same info. I share with you and Mr. Postema at the 4/5/19 meeting) was that she had approached you and was referred to the City Attny’s. Ofc. She did not follow-up with the City Attny’s. Ofc. b/c she was advised by other city ee’s that that would be futile. Just reiterating what was provided me. Please feel free to confirm anything I am saying here. I also certainly hope there is no retribution taken against the ee who reached out to me to make me aware of the situation in HR. The employee who provided them to you did not give them to me at any time, nor communicate their content or existence in any manner. I’m not just referring to these specific text messages, but the many issues of professional conduct vis a vis HR, about which you had prior knowledge. Upon receipt of the messages, I acted quickly to place Ms. Wilkerson on administrative leave and suspend her access to City facilities and systems. With the assistance of the City Attorney, we quickly commenced an outside review of the interchanges, leading directly to Ms. Wilkerson’s resignation.

- Nowhere in my communication do I mention that you had the messages for 8 days, I only stated that any knowledge or toleration of policy violations should be turned over to me immediately. I stand corrected. I am stating that it took me 8 days from the time I was first contacted by the city ee to the time of our meeting. I probably should have called a meeting sooner, but wanted to gather all the information so that it was properly conveyed.
- The time frame of the text messages you provided ended early in 2018. They ended then because the ee who had access to these txt messages [REDACTED], and upon her return, she was no longer treated as a team member – e.g., [REDACTED] placed in an environment where no departmental colleagues would speak with her, interact w/her, etc. My statement, [REDACTED] [REDACTED] is consistent with my experience with Ms. Wilkerson and the observations of other team members. Have no idea who these other team members are, and this, for me, is an exclamation point of a stmt. [REDACTED] [REDACTED] [REDACTED] [REDACTED]

- As you've correctly stated, I was aware of the longstanding friction that existed among senior staff I was not aware that there was friction among your other staff, just friction between the HR Director and the many staff that had interactions with HR – again, as illustrated by the unprofessional tenor of the txt messages when I arrived. So, you were aware? However, relationships are a two-way street and my intent was to improve behavior among all parties rather than initially take sides without a depth of experience. You can be critical of that approach, but that does not imply any knowledge or toleration of policy violations, nor were any brought to my attention. On this, we do not and will not agree.

[REDACTED]

As always, please do not hesitate to contact me if you have any questions or if I can be of further assistance.

RE: and RFP:

Mr. Lazarus, I've given this some thought, and here's a short list of things I strongly believe must be considered in properly undertaking an assessment:

Mr. Lazarus,

[REDACTED]

I informed you EIGHT days after I received notice from the employee who had also initially contacted you. [REDACTED] I did, as I shared, advise the employee to follow normal city protocol, that this was not my charge, but was told she had no other option, that she reached out to you, but received no audience/interest/support. Knowing this, I also agree that it was my responsibility to report and act upon the information that was provided me, and so I did. I scheduled the meeting to inform you, Mr. Postema, the Mayor and CM Eaton. I also prepared the summary report of the text messages. In total, it took me eight days to provide you the information that was provided me.

[REDACTED]

[REDACTED]

I look forward to a discussion of next steps at the Council Administration Cte. meeting.

Thank you, Jane

Mayor and Councilmembers:

Over the past few weeks, I have informed you of the resignation of Robyn Wilkerson, our Human Resources and Labor Relations Director. The information I have shared has been sparse by necessity, as there are legal and other matters that must be addressed. This message is intended to fill in some of the gaps and provide my thoughts and intentions on the path forward.

On April 5<sup>th</sup>, I became aware of inappropriate communications Ms. Wilkerson shared with a co-worker that violated City policy and did not reflect our expected standards of professionalism or our organizational values. Immediately upon receipt, Ms. Wilkerson was placed on administrative leave pending a review of the circumstances and her

electronic communications and badge access to City facilities were disabled. After we began this process, Ms. Wilkerson tendered her resignation.

During this period, we received a request for the communications under the Freedom of Information Act (FOIA). The response is due back to the requestor today. I am sharing this information with City staff as you receive this message for the because I want Council and staff to have an understanding of the facts and circumstances surrounding the departure of a key staff member before you and staff hear about it through a third party source.

There are a few additional points I would also like to share:

- We are all governed by the same workplace rules, and that regardless of our position, seniority, or service record we are all subject to the same standards of accountability. Our commitment to public service excellence is built upon mutual respect and shared value, and we will always consider breaches of this trust seriously, compassionately, and expeditiously.
- Information from employees or 3<sup>rd</sup> parties that you receive about City staff should immediately and be provided to the City Administrator to ensure timeliness of action and appropriate handling. If you become aware of alleged employee misconduct, I also ask that you do not share that knowledge with uninvolved parties.

As we look to the future, I have initiated and will follow-up on the actions discussed below:

- Assistant City Administrator John Fournier will continue to serve as the acting Human Resources and Labor Relations Director. To the extent necessary, I will assume responsibility for some of his other duties. Kindly note that we are fortunate to have highly skilled professionals in our administrative areas who operate independently at high levels.
- I have directed Mr. Fournier to commence a cultural assessment of our personnel operations using a third party with appropriate experience and expertise as quickly as possible. This assessment will address internal human resources staff perspectives and those of customers of the service unit. The conclusions and recommendations obtained in the final report will form both an action plan and provide the basis for the recruitment of a new HR Director.
- The recruitment of a new HR Director will be an external effort, and most likely involve engaging an outside recruiter. Assuming a start date of mid-June for the recruitment, we can expect that we will have a new Director in

place by mid-to-late October.

As always, please do not hesitate to contact me if you have any thoughts or questions.

Thanks, John. In terms of the next deadline, it's the council deadline that we must meet, so we have a bit more time, I think. Assuming this would come from the Policy Agenda Cte.

Speaking of which, just realizing that I haven't been copying CM Hayner. Mea culpa and very sorry, Jeff!

Thanks again, Jane

MPT Lumm,

Thank you for this report, this also comports with my understanding of the bill. Staff will happily assist in the drafting/review of a resolution for the 5/20/19 council meeting.

I will also note that on the Council agenda Monday night will be the City of Ann Arbor Policy Agenda, which includes the following on page 2:

Oppose any legislation that pre-empts municipalities from regulating so-called "Airbnbs" or short-term rentals.

So, Council will already be considering and hopefully passing a resolution that includes specific opposition to this legislation at the 5/6/19 meeting. Of course, an additional resolution does not harm.

Thanks,  
John

**Subject:** Council Resolution re: Short-term Rental Bill

Dear All,

First, thank you, again, Jennifer, for your helpful assistance with my questions re: this bill.

And Policy Agenda Cte., this a.m. I spoke with Jennifer about this bill and learned the following:

- Today the Cte. is taking testimony and will adopt a "sub-language" version of the bill. According to Jennifer, the "sub" version does not differ from what has been proposed thus far.
- It is unknown when the bill will be reported out of committee, however the earliest next meeting regarding this matter is 5/8/19. Bills from this cte. will be referred to the House Ways and Means Cte.
- Bottom-line per Jennifer, we have, "at least" 3 weeks to respond.

This bill is being sponsored by a Republican House Rep. from Monroe, and it's my understanding the legislation is being promoted by the realtors' PAC – the largest, and very influential, Lansing PAC.

Again, I think it's very important we respond to offer our opposition. Aside from the obvious concerns about relinquishing local control, this bill apparently also creates a loophole to create/permit more short-term rentals.

I have enough information to draft a resolution for the Cte's. consideration for placement on the 5/20/19 council agenda. CM's Eaton and Griswold have expressed support, and so will draft something for the Cte's. consideration, if that is acceptable.

Thank you, again, Jennifer, and all, Jane

Good afternoon, Jennifer,

Thank you for forwarding this MML action alert. I just left you a voice mail message re: this house bill and to ask if you could provide any addt'l. background information. This proposed legislation would undermine local control of an issue that Ann Arbor is now studying and likely will address. In my view, our ability to develop regulations for rental properties is critical.

We have a city council meeting on Monday, May 6<sup>th</sup>, and any information you can expeditiously provide would be greatly appreciated.

Thank you, Jane Lumm  
Ann Arbor City Councilmember

## Important Alert

# Action Needed on Short-term Rental Bill

## House Bill 4046 would preempt local government control

House Bill 4046 is on the agenda of the [House Local Government and Municipal Finance Committee](#) at 12 noon on Wednesday, **May 1**. This legislation, backed by the Michigan Realtors, is an amendment to the Michigan Zoning Enabling Act preempting local government from regulating rentals of less than 28 days.

The League is opposed to this attack on local democracy! We urge you to share your concerns at the hearing:

- **Wednesday, May 1, 12 Noon**, in Room 521 of the Anderson House Office Building, [124 N. Capitol Ave., Lansing, MI 48933](#).

If you're unable to attend in person, please contact committee members and legislators:

1. **Email committee members** (email addresses below)
2. **Copy your email to the committee clerk** (email address below) asking for your comments to be entered into the official committee record
3. **Copy your email to your local Representative and State Senator.**

Your assistance is very important in defeating HB 4046. For more information, please read this [Inside 208 blog](#).

If you have any questions, please contact the League's Jennifer Rigterink at [jrigterink@mml.org](mailto:jrigterink@mml.org) or 517-908-0305.

Mr. Fournier,

Thank you for your response to Council Member Lumm's inquiry. Please note that the Council Rules, as amended February 19, 2019, allow Council member to add items to the agenda at any time, but express a preference for submitting items by 5:00 pm on the Tuesday prior to a Council meeting. Rule 5B includes the following:

Once the City Administrator has submitted the draft agenda to Council, no matter from staff shall be placed on the agenda. Council members may add items to the agenda at any time, but will use best efforts to do so prior to 5:00 p.m. on the Tuesday before the next Council meeting.

The request from Council Member Lumm was timely made and could be added anytime between now and Monday. I hope you will grant her request to add the resolution to the May 6 meeting. It is my understanding that the bill has been reported out of committee and hope that the City can express its opposition through an action of the full Council.

Thank you,  
Jack

MPT Lumm,

Thank you for your note. We will be communicating with the committee chair today to express the city's opposition to this legislation. I appreciate that you have requested a separate council resolution for the May 6<sup>th</sup> Council meeting. I would note that adding a resolution now would violate Council's rules imposing deadlines for the addition of legislation to the agenda. Of course, Council could make an exception to the rule. However, I do not believe there is harm in waiting for the next council meeting as this legislation still has a long way to go in Lansing.

Thanks,  
John

## Important Alert

### Action Needed on Short-term Rental Bill

#### House Bill 4046 would preempt local government control

[House Bill 4046](#) is on the agenda of the [House Local Government and Municipal Finance Committee](#) at 12 noon on Wednesday, **May 1**. This legislation, backed by the Michigan Realtors, is an amendment to the Michigan Zoning Enabling Act preempting local government from regulating rentals of less than 28 days.

The League is opposed to this attack on local democracy! We urge you to share your concerns at the hearing:

- **Wednesday, May 1, 12 Noon**, in Room 521 of the Anderson House Office Building, [124 N. Capitol Ave., Lansing, MI 48933](#).

If you're unable to attend in person, please contact committee members and legislators:

1. **Email committee members** (email addresses below)
2. **Copy your email to the committee clerk** (email address below) asking for your comments to be entered into the official committee record
3. **Copy your email to your local Representative and State Senator.**

Your assistance is very important in defeating HB 4046. For more information, please read this [Inside 208 blog](#).

If you have any questions, please contact the League's Jennifer Rigterink at [jrigterink@mml.org](mailto:jrigterink@mml.org) or 517-908-0305.

**Date:** Wednesday, May 1, 2019 12:23:07 PM

---

Dear All,

First, thank you, again, Jennifer, for your helpful assistance with my questions re: this bill.

And Policy Agenda Cte., this a.m. I spoke with Jennifer about this bill and learned the following:

- Today the Cte. is taking testimony and will adopt a “sub-language” version of the bill. According to Jennifer, the “sub” version does not differ from what has been proposed thus far.
- It is unknown when the bill will be reported out of committee, however the earliest next meeting regarding this matter is 5/8/19. Bills from this cte. will be referred to the House Ways and Means Cte.
- Bottom-line per Jennifer, we have, “at least” 3 weeks to respond.

This bill is being sponsored by a Republican House Rep. from Monroe, and it’s my understanding the legislation is being promoted by the realtors’ PAC – the largest, and very influential, Lansing PAC.

Again, I think it’s very important we respond to offer our opposition. Aside from the obvious concerns about relinquishing local control, this bill apparently also creates a loophole to create/permit more short-term rentals.

I have enough information to draft a resolution for the Cte’s. consideration for placement on the 5/20/19 council agenda. CM’s Eaton and Griswold have expressed support, and so will draft something for the Cte’s. consideration, if that is acceptable.

Thank you, again, Jennifer, and all, Jane

**Subject:** RE: Linda Diane Feldt

Dear Professor Rycus,

Thank you for writing to express your support for and commendation of Ms. Feldt.

As you may know, the Mayor provides council advance notice of his recommended appointments for our consideration, and I did convey some concerns re: prospective appointees. I actually did not weigh-in on Ms. Feldt so do not know the source of your information. I am aware of Ms. Feldt's qualifications and past participation, and am appreciative of both her qualifications and her willingness to serve. I do have concerns about balanced representation on this (transportation) and all civic matters, and this is also a factor I take into consideration when evaluating prospective appointments.

Thank you, again, for writing to advocate for Ms. Feldt's service on the Transportation Commission.

Best regards, Jane Lumm

**To:** Hayner, Jeff <JHayner@a2gov.org>; Lumm, Jane <JLumm@a2gov.org>  
**Subject:** Linda Diane Feldt

I can't understand why you would not recommend Ms. Feldt to continue to serve on the Transportation Commission. She is a highly qualified person who has actively participated in a variety of citizen run committees. I think you need to re-think your position because getting individuals as competent and willing as Ms. Feldt to serve tirelessly is getting to be most difficult. The City needs to consider itself very fortunate that people like her are willing to take on these roles. Once again, I urge you to rethink your position and reappoint Ms. Feldt to the Commission.

Mitchell J. Rycus

---

Thank you, and good to hear.

Earlier this a.m. I sent a note to Chris, Fred, Alice Ehn, et. al. to ask if they heard from the City, and response I rec'd. was "no", and then mid-sentence, Fred chimed in to say he rec'd. your call as he was responding to me. So, thank you!

I know that the Alice Ehn's, Chris Heaton's, Fred Gruber's of the world, folks who've been dealing w/student move-in/move-out for ever, would provide useful feedback for future planning purposes.

Hope the feedback we've provided you has been helpful and appreciated. The tipping of these dumpsters will make for cleaner neighborhoods on graduation wkend. – and help keep the rodent population in better check.

Thank you! Jane

**Subject:** Student Move-Out Day

Mayor and Councilmembers:

I have seen the multiple e-mail exchanges concerning trash pick-up for student move-out on Friday. In response, I have directed Mr. Hupy to provide the additional pick-ups at no cost. We will provide a follow-up communication on the cost impacts, as waiver of fees is a Council action.

As I've mentioned to some of you, our future solicitations of solid waste contracts will incorporate an emphasis on customer satisfaction. I have spoken with Mr. Gruber, and will follow-up with him in the future to glean the benefits of his experience. Please let me know if you have any questions or if I can be of further assistance.

Mr. Fournier,

Thank you. I have been communicating with the Cte. Chair – CM Eaton’s been copied on everything, and I am aware that the deadline is passed, and hence my scramble yesterday.

I just got off the phone with Jennifer Rigertink, and she was very helpful. We have time to weigh-in, and I’ll share what she had to say about this in my next message, wch includes Jennifer. Thanks, Jane

MPT Lumm,

Thank you for your note. We will be communicating with the committee chair today to express the city’s opposition to this legislation. I appreciate that you have requested a separate council resolution for the May 6<sup>th</sup> Council meeting. I would note that adding a resolution now would violate Council’s rules imposing deadlines for the addition of legislation to the agenda. Of course, Council could make an exception to the rule. However, I do not believe there is harm in waiting for the next council meeting as this legislation still has a long way to go in Lansing.

Thanks,  
John

Soooo, all quiet on the Western front. No response from you, Messrs. Lazarus and Fournier in response to my request yesterday for drafting a resln., so will just draft one w/out the requested assistance. Heard from Jack who is supportive of a council resln. – thank you, Jack.

Will draft a stmt. for the Policy Agenda Cte. and know this would be a late add, we didn't receive notice about this legislation until yesterday. Again, reached out for staff support/assistance, but that was met w/silence, except for Jack. If there's not cte. support, as I assumed there would be, I'll do it with Jack's support.

Jane

## Important Alert

# Action Needed on Short-term Rental Bill

### House Bill 4046 would preempt local government control

[House Bill 4046](#) is on the agenda of the [House Local Government and Municipal Finance Committee](#) at 12 noon on Wednesday, **May 1**. This legislation, backed by the Michigan Realtors, is an amendment to the Michigan Zoning Enabling Act preempting local government from regulating rentals of less than 28 days.

The League is opposed to this attack on local democracy! We urge you to share your concerns at the hearing:

- **Wednesday, May 1, 12 Noon**, in Room 521 of the Anderson House Office Building, [124 N. Capitol Ave., Lansing, MI 48933](#).

If you're unable to attend in person, please contact committee members and legislators:

1. **Email committee members** (email addresses below)
2. **Copy your email to the committee clerk** (email address below) asking for your comments to be entered into the official committee record
3. **Copy your email to your local Representative and State Senator.**

Your assistance is very important in defeating HB 4046. For more information, please read this [Inside 208 blog](#).

Soooo, all quiet on the Western front. No response from you, Messrs. Lazarus and Fournier in response to my request yesterday for drafting a resln., so will just draft one w/out the requested assistance. Heard from Jack who is supportive of a council resln. – thank you, Jack.

Will draft a stmt. for the Policy Agenda Cte. and know this would be a late add, we didn't receive notice about this legislation until yesterday. Again, reached out for staff support/assistance, but that was met w/silence, except for Jack. If there's not cte. support, as I assumed there would be, I'll do it with Jack's support.

Jane

Good afternoon, Jennifer,

Thank you for forwarding this MML action alert. I just left you a voice mail message re: this house bill and to ask if you could provide any add'l. background information. This proposed legislation would undermine local control of an issue that Ann Arbor is now studying and likely will address. In my view, our ability to develop regulations for rental properties is critical.

We have a city council meeting on Monday, May 6<sup>th</sup>, and any information you can expeditiously provide would be greatly appreciated.

Thank you, Jane Lumm  
Ann Arbor City Councilmember

## Important Alert

# Action Needed on Short-term Rental Bill

### House Bill 4046 would preempt local government control

House Bill 4046 is on the agenda of the [House Local Government and Municipal Finance Committee](#) at 12 noon on Wednesday, **May 1**. This legislation, backed by the Michigan Realtors, is an amendment to the Michigan Zoning Enabling Act preempting local government from regulating rentals of less than 28 days.

The League is opposed to this attack on local democracy! We urge you to share your concerns at the hearing:

<!--[if !supportLists]-->• <!--[endif]--> **Wednesday, May 1, 12 Noon**, in Room 521 of the Anderson House Office Building, [124 N. Capitol Ave., Lansing, MI 48933](#).

If you're unable to attend in person, please contact committee members and legislators:

<!--[if !supportLists]-->1. <!--[endif]-->Email committee members (email addresses below)  
<!--[if !supportLists]-->2. <!--[endif]-->Copy your email to the committee clerk (email address below) asking for your comments to be entered into the official committee record  
<!--[if !supportLists]-->3. <!--[endif]-->Copy your email to your local Representative and State Senator.

Your assistance is very important in defeating HB 4046. For more information, please read this [Inside 208 blog](#).

If you have any questions, please contact the League's Jennifer Rigerink at [jrigterink@mml.org](mailto:jrigterink@mml.org) or 517-908-0305.

Christopher,

"Reports as appropriate?"

Honestly, that's a "wow". No other way to describe. [REDACTED]

I intend to bring this topic up at the next Admin. Cte. mtg. [REDACTED]

Jane

Christopher,

I would like to know more about the "outside party". Specifically, their experience, track record, and HR and organizational behavior expertise and qualifications for conducting an independent culture assessment. I want to know about the scope of work, [REDACTED]

The last culture assessment that I am aware of was performed by Denison Consulting. I realize Zach works for Denison, so that would represent an obvious conflict. I am researching options.

We need to get this right. [REDACTED]

Mr. Lazarus,

[REDACTED]

I informed you EIGHT days after I received notice from the employee who had also initially contacted you. [REDACTED] I did, as I shared, advise the employee to follow normal city protocol, that this was not my charge, but was told she had no other option, that she reached out to you, but received no audience/interest/support. Knowing this, I also agree that it was my responsibility to report and act upon the information that was provided me, and so I did. I scheduled the meeting to inform you, Mr. Postema, the Mayor and CM Eaton. I also prepared the summary report of the text messages. In total, it took me eight days to provide you the information that was provided me.

[REDACTED]

[REDACTED]

I look forward to a discussion of next steps at the Council Administration Cte. meeting.

Thank you, Jane

Mayor and Councilmembers:

Over the past few weeks, I have informed you of the resignation of Robyn Wilkerson, our Human Resources and Labor Relations Director. The information I have shared has been sparse by necessity, as there are legal and other matters that must be addressed. This message is intended to fill in some of the gaps and provide my thoughts and intentions on the path forward.

On April 5<sup>th</sup>, I became aware of inappropriate communications Ms.

Wilkerson shared with a co-worker that violated City policy and did not reflect our expected standards of professionalism or our organizational values. Immediately upon receipt, Ms. Wilkerson was placed on administrative leave pending a review of the circumstances and her electronic communications and badge access to City facilities were disabled. After we began this process, Ms. Wilkerson tendered her resignation.

During this period, we received a request for the communications under the Freedom of Information Act (FOIA). The response is due back to the requestor today. I am sharing this information with City staff as you receive this message for the because I want Council and staff to have an understanding of the facts and circumstances surrounding the departure of a key staff member before you and staff hear about it through a third party source.

There are a few additional points I would also like to share:

- We are all governed by the same workplace rules, and that regardless of our position, seniority, or service record we are all subject to the same standards of accountability. Our commitment to public service excellence is built upon mutual respect and shared value, and we will always consider breaches of this trust seriously, compassionately, and expeditiously.
- Information from employees or 3<sup>rd</sup> parties that you receive about City staff should immediately and be provided to the City Administrator to ensure timeliness of action and appropriate handling. If you become aware of alleged employee misconduct, I also ask that you do not share that knowledge with uninvolved parties.

As we look to the future, I have initiated and will follow-up on the actions discussed below:

- Assistant City Administrator John Fournier will continue to serve as the acting Human Resources and Labor Relations Director. To the extent necessary, I will assume responsibility for some of his other duties. Kindly note that we are fortunate to have highly skilled professionals in our administrative areas who operate independently at high levels.
- I have directed Mr. Fournier to commence a cultural assessment of our personnel operations using a third party with appropriate experience and expertise as quickly as possible. This assessment

will address internal human resources staff perspectives and those of customers of the service unit. The conclusions and recommendations obtained in the final report will form both an action plan and provide the basis for the recruitment of a new HR Director.

- The recruitment of a new HR Director will be an external effort, and most likely involve engaging an outside recruiter. Assuming a start date of mid-June for the recruitment, we can expect that we will have a new Director in place by mid-to-late October.

As always, please do not hesitate to contact me if you have any thoughts or questions.

# JOIN US ON MAY 6TH

## AFFORDABLE HOUSING, CLIMATE ACTION & PEDESTRIAN SAFETY RECEPTION

WHA, The Ann Arbor Climate Partnership and The Washtenaw Bicycling and Walking Coalition are hosting an Affordable Housing, Climate Action, and Pedestrian Safety Reception on **Monday, May 6th** at 5:30 pm at Larcom City Hall  
301 E Huron St. Ann Arbor, MI 48104

The reception will take place prior to Monday night's Ann Arbor City Council meeting. This event will be open to the public and offers an opportunity for each organization to engage with the public around affordable housing, climate action, and pedestrian safety, and discuss what it means to become a more sustainable and equitable Ann Arbor. In addition, this event will provide a space to engage with local policymakers in meaningful discussion about these topics.

Christopher,

I would like to know more about the "outside party". Specifically, their experience, track record, and HR and organizational behavior expertise and qualifications for conducting an independent culture assessment. I want to know about the scope of work, [REDACTED]

[REDACTED]

The last culture assessment that I am aware of was performed by Denison Consulting. I realize Zach works for Denison, so that would represent an obvious conflict. I am researching options.

We need to get this right. [REDACTED]

On Apr 30, 2019, at 8:29 AM, Lazarus, Howard <[HLazarus@a2gov.org](mailto:HLazarus@a2gov.org)> wrote:

Mayor and Councilmembers:

Over the past few weeks, I have informed you of the resignation of Robyn Wilkerson, our Human Resources and Labor Relations Director. The information I have shared has been sparse by necessity, as there are legal and other matters that must be addressed. This message is intended to fill in some of the gaps and provide my thoughts and intentions on the path forward.

On April 5<sup>th</sup>, I became aware of inappropriate communications Ms. Wilkerson shared with a co-worker that violated City policy and did not reflect our expected standards of professionalism or our organizational values. Immediately upon receipt, Ms. Wilkerson was placed on administrative leave pending a review of the circumstances and her electronic communications and badge access to City facilities were disabled. After we began this process, Ms. Wilkerson tendered her resignation.

During this period, we received a request for the communications under the Freedom of Information Act (FOIA). The response is due back to the requestor today. I am sharing this information with City staff as you receive this message for the because I want Council and staff to have an

understanding of the facts and circumstances surrounding the departure of a key staff member before you and staff hear about it through a third party source.

There are a few additional points I would also like to share:

- We are all governed by the same workplace rules, and that regardless of our position, seniority, or service record we are all subject to the same standards of accountability. Our commitment to public service excellence is built upon mutual respect and shared value, and we will always consider breaches of this trust seriously, compassionately, and expeditiously.
- Information from employees or 3<sup>rd</sup> parties that you receive about City staff should immediately and be provided to the City Administrator to ensure timeliness of action and appropriate handling. If you become aware of alleged employee misconduct, I also ask that you do not share that knowledge with uninvolved parties.

As we look to the future, I have initiated and will follow-up on the actions discussed below:

- Assistant City Administrator John Fournier will continue to serve as the acting Human Resources and Labor Relations Director. To the extent necessary, I will assume responsibility for some of his other duties. Kindly note that we are fortunate to have highly skilled professionals in our administrative areas who operate independently at high levels.
- I have directed Mr. Fournier to commence a cultural assessment of our personnel operations using a third party with appropriate experience and expertise as quickly as possible. This assessment will address internal human resources staff perspectives and those of customers of the service unit. The conclusions and recommendations obtained in the final report will form both an action plan and provide the basis for the recruitment of a new HR Director.
- The recruitment of a new HR Director will be an external effort, and most likely involve engaging an outside recruiter. Assuming a start date of mid-June for the recruitment, we can expect that we will have a new Director in place by mid-to-late October.

As always, please do not hesitate to contact me if you have any thoughts or questions.

**Subject:** Re: TRASH REMOVAL AT STUDENT MOVE-OUT

Jane, and everyone:

No, we are not interested in a post-mortem. We need a pre-mortem.

We need the service this Friday, May 3.

Don't let staff tell you it's too late. They have known about this for years. It should not be necessary, but I am willing to meet TODAY to explain why this is the proper thing to do.

And don't get bogged down with cost issues. We proved long ago that the pilot program saved money overall. Not to mention the cost impact on the Ann Arbor Police Department, which most people don't realize is a part of the equation.

City staff need to be problem-solvers, not excuse-

makers.

Fred

In a message dated 4/30/2019 9:55:12 AM Eastern Standard Time, [JLumm@a2gov.org](mailto:JLumm@a2gov.org) writes:

Thanks for clarifying, Fred. Sounds pretty simple if it's just a matter of servicing the existing campus dumpsters. (Chris, also resending w/you correct email address. My typographical error.) Appreciate your offer to meet and discuss. Think a stakeholder post-mortem after Friday would be very instructive and helpful. Hope, as well, you've all been engaged with the consultant who's developing the Solid Waste Plan – obviously, your feedback and recommendations would be helpful.

Don't think any justification for servicing overflowing trash dumpsters in/around campus on graduation weekend is/should be required. We are a "clean city" afterall, or at least purport to embrace this value. We just need to provide the obviously needed services.

Thanks! Jane

Thank you, Jane.

Unlike Art Fair, additional dumpsters do not need to be placed.

Just service the existing campus dumpsters on Friday.

More info and support for justification available upon request, willing to meet and talk as needed.

Fred

In a message dated 4/30/2019 9:36:33 AM Eastern Standard Time, [JLumm@a2gov.org](mailto:JLumm@a2gov.org) writes:

Messrs. Lazarus, Hupy, Slotten,

What arrangements are in place for student move-out? Are dumpsters scheduled for the critical locations (assume we have a map where dumpsters have been placed for prior student move-out's), and, if not, what is required of the city/us to have the dumpsters placed by Friday (5/3) and tipped? Mr. Heaton references a fee for property owners – what is the fee/dumpster and tip, and what is the total revenue (from fees) and cost for the student move-out solid waste dumpster service?

Background – when the City had a Solid Waste Dept. and a Solid Waste Commission (I served on the SW Comm. for a # of yrs.), we had a Student Move-In and Move-Out Pgm. that provided the needed services. The program was incorporated in the City's long-term Solid Waste Plan (i.e., the 6 year "Integrated Solid Waste Mgmt. Plan" which was periodically updated by the Commission and its citizen ctes.), and I also served, along with Fred Gruber (copied above), on the Student Move-In/Move-Out Task Force sub-cte. Pt. is, this was a long-standing city supported program that effectively provided the needed services. The following is from the 1994-2000 ISWMP,

“The Department should classify student move in/move out time as a special event and deal with the added waste and recyclables generated there accordingly, Service trade-offs could be considered if necessary to set up this service.

Definition of issue: The Solid Waste Department has been providing solid waste collection at special events for a number of years. These events current include the Ann Arbor Art Fairs, the Dexter/Ann Arbor Run, a Taste of Ann Arbor, and other smaller events. The Department bills its cost of service for these events to the organizers.

This year, for the first time, the Department offered recycling services at the Ann Arbor Art Fairs. The recycling services were offered within the existing refuse budget. In addition, there are a number of special events in the city that generate additional waste for the department but do not current have special collections. These include, but are not limited to: student move in/move out and U of M football games.”

The student move in/move out pgm. was created ~ 1994/95 (the MRF became operational in 1995/96).

I don't understand the hiccups in the programming and, given the short time frame to address the concerns outlined by Mr. Heaton – the dumpsters must be in place in 3 days – we don't have the luxury of assessing the program and coming up with the needed long-term fixes. So, with this in mind, can you please expeditiously respond to the first two Q's above? Obviously, we need to do what it takes to provide the needed services asap. I'm certain we all agree it's important to showcase AA as clean city and, especially, for commencement exercises (5/4/19).

Thank you, and thank you Chris! Jane

**Subject:** TRASH REMOVAL AT STUDENT MOVE-OUT

To all who receive this e-mail:

I am a member of the Washtenaw Area Apartment Association (WA3). I write as an individual rental property professional. I supported the letter the WA3 Board of Directors recently sent many of you regarding the loss of dumpster service on the Friday before move-out weekends. Mr. Lazarus forwarded our letter on to decision makers and people responsible for service delivery. We are four days from feeling the impact of inaction. I would like to make one more appeal as time runs out.

The need to address the real world needs of trash collection in the student housing environs has, as far as any of us are concerned, always existed. For decades the City of Ann Arbor understood this. We developed some pretty good practices that expeditiously removed trash from the student neighborhoods. The plan was based on these 4 truths:

1. Best to remove trash quickly so the city looks its best at critical times in the academic calendar.
2. Dumpsters are the best way to get the most trash out of the city the fastest.
3. Trash wilding (a tenant of one building using the trash capacity of another building) is a unavoidable and virtually unmanageable reality in student neighborhoods so don't get bogged down by whether or not trash crossed a property line on its way to a dumpster.
4. Property taxes cover the removal of all trash - including at times of the year that require a non-standard schedule.

The Solid Waste Department's recent failure to recognize these long established truths puts us at odds. As you might imagine there are people in our ranks who remember the past engagements that established the aforementioned 4 truths and are especially annoyed that we're backsliding unnecessarily. I'm one of them.

Solid Waste, to their credit, tried to add back dumpster service Friday before move-out for a fee this year. While they might see that as an generous accommodation they have failed to understand the consequences of the fee. Specifically that it violates Truth #3

regarding trash wilding. AGAIN, AT MOVE-OUT WE SHOULD NOT CARE IF THE TRASH CROSSED A PROPERTY LINE ON ITS WAY TO A DUMPSTER. SOLID WASTE NEEDS TO THINK OF THE DUMPSTER ON MY PROPERTY AS A NEIGHBORHOOD RESOURCE DURING MOVE-OUT - NOT JUST THE RESOURCE OF A SINGLE PROPERTY. WHEN YOU CHARGE ME FOR A TIP THE DUMPSTER CEASES TO BE A NEIGHBORHOOD RESOURCE AND YOU'VE VIOLATED TRUTH #4. FURTHER, THE DROP-OFF STATION AT OAKLAND AND TAPPAN IS A RESOURCE FOR BOTH RESIDENTS AND PROPERTY PROFESSIONALS - NOT JUST RESIDENTS. AS WITH THE DUMPSTERS ON PRIVATE PROPERTY THEY ARE A COMMUNITY RESOURCE AT STUDENT MOVE-OUT. SO THERE IS EVIDENCE THAT WE UNDERSTAND THE NEED FOR COMMUNITY/NEIGHBORHOOD TRASH RESOURCES AT CRITICAL TIMES.

I invite any of you to visit 1335 Geddes or 1025 Packard on 8/18/19 to see what actually happens to a dumpster during student move-out. Friday service creates the capacity to get through the move-out weekend. I don't have May leases so you'll need to look at the end of summer to see what happens on our properties. The move-in process is not dissimilar in that a non-standard schedule is required to address the high trash volume.

Finally, all costs that can be passed on to residents of rental property are passed on to those residents. Years back when the City of Ann Arbor dropped curbside leaf collection it added between \$50 to \$200 per building per year to have a company come and vacuum the leaves off the extension. A pure, undeniable cost push onto property owners of all kinds - not just rental property. In our portfolio of 80 buildings this amounted to about \$6,000 +/- in a new expense with no offsetting reduction in property taxes. Many homeowners and rental owners saw that as government theft of their tax dollars. Further, what rational person wouldn't seek to cover this newly created expense? So at some point the City must face the fact that financially it demands a lot of registered rental property. Sooner or later the next new fee, new requirement or a loss of service (without property tax offset) will be scrutinized and challenged by the taxpayer. You're feeling that challenge now. Perhaps you could rationalize the return of uncharged Friday dumpster service at move-out as a partial offset to the money inappropriately taken when curbside leaf service was dropped without remuneration to the taxpayer OR as a "peace dividend" resulting from taking your tax base vertical! By whatever rationale, please push to restore this critical service - without additional fee - by this Friday, May 3, 2019.

Christopher J. Heaton,

Co-Owner / Property Manager

Mr. Lazarus,

[REDACTED]

I informed you EIGHT days after I received notice from the employee who had also initially contacted you. [REDACTED] I did, as I shared, advise the employee to follow normal city protocol, that this was not my charge, but was told she had no other option, that she reached out to you, but received no audience/interest/support. Knowing this, I also agree that it was my responsibility to report and act upon the information that was provided me, and so I did. I scheduled the meeting to inform you, Mr. Postema, the Mayor and CM Eaton. I also prepared the summary report of the text messages. In total, it took me eight days to provide you the information that was provided me.

[REDACTED]

[REDACTED]

I look forward to a discussion of next steps at the Council Administration Cte. meeting.

Thank you, Jane

On Apr 30, 2019, at 8:29 AM, Lazarus, Howard <[HLazarus@a2gov.org](mailto:HLazarus@a2gov.org)> wrote:

Mayor and Councilmembers:

Over the past few weeks, I have informed you of the resignation of Robyn Wilkerson, our Human Resources and Labor Relations Director. The information I have shared has been sparse by necessity, as there are legal and other matters that must be addressed. This message is intended to fill in some of the gaps and provide my thoughts and intentions on the path forward.

On April 5<sup>th</sup>, I became aware of inappropriate communications Ms. Wilkerson shared with a co-worker that violated City policy and did not reflect our expected standards of professionalism or our organizational values. Immediately upon receipt, Ms. Wilkerson was placed on administrative leave pending a review of the circumstances and her electronic communications and badge access to City facilities were disabled. After we began this process, Ms. Wilkerson tendered her resignation.

During this period, we received a request for the communications under the Freedom of Information Act (FOIA). The response is due back to the requestor today. I am sharing this information with City staff as you receive this message for the because I want Council and staff to have an understanding of the facts and circumstances

surrounding the departure of a key staff member before you and staff hear about it through a third party source.

There are a few additional points I would also like to share:

- We are all governed by the same workplace rules, and that regardless of our position, seniority, or service record we are all subject to the same standards of accountability. Our commitment to public service excellence is built upon mutual respect and shared value, and we will always consider breaches of this trust seriously, compassionately, and expeditiously.
- Information from employees or 3<sup>rd</sup> parties that you receive about City staff should immediately be provided to the City Administrator to ensure timeliness of action and appropriate handling. If you become aware of alleged employee misconduct, I also ask that you do not share that knowledge with uninvolved parties.

As we look to the future, I have initiated and will follow-up on the actions discussed below:

- Assistant City Administrator John Fournier will continue to serve as the acting Human Resources and Labor Relations Director. To the extent necessary, I will assume responsibility for some of his other duties. Kindly note that we are fortunate to have highly skilled professionals in our administrative areas who operate independently at high levels.
- I have directed Mr. Fournier to commence a cultural assessment of our personnel operations using a third party with appropriate experience and expertise as quickly as possible. This assessment will address internal human resources staff perspectives and those of customers of the service unit. The conclusions and recommendations obtained in the final report will form both an action plan and provide the basis for the recruitment of a new HR Director.
- The recruitment of a new HR Director will be an external effort, and most likely involve engaging an outside recruiter. Assuming a start date of mid-June for the recruitment, we can expect that we will have a new Director in place by mid-to-late October.

As always, please do not hesitate to contact me if you have any thoughts or questions.

**Subject:** Re: TRASH REMOVAL AT STUDENT MOVE-OUT

Jane, and everyone:

No, we are not interested in a post-mortem. We need a pre-mortem.

We need the service this Friday, May 3.

Don't let staff tell you it's too late. They have known about this for years. It should not be necessary, but I am willing to meet TODAY to explain why this is the proper thing to do.

And don't get bogged down with cost issues. We proved long ago that the pilot program saved money overall. Not to mention the cost impact on the Ann Arbor Police Department, which most people don't realize is a part of the equation.

City staff need to be problem-solvers, not excuse-makers.

Fred

In a message dated 4/30/2019 9:55:12 AM Eastern Standard Time, [JLumm@a2gov.org](mailto:JLumm@a2gov.org) writes:

Thanks for clarifying, Fred. Sounds pretty simple if it's just a matter of servicing the existing campus dumpsters. (Chris, also resending w/you correct email address. My typographical error.) Appreciate your offer to meet and discuss. Think a stakeholder post-mortem after Friday would be very instructive and helpful. Hope, as well, you've all been engaged with the consultant who's developing the Solid Waste Plan – obviously, your feedback and recommendations would be helpful.

Don't think any justification for servicing overflowing trash dumpsters in/around campus on graduation weekend is/should be required. We are a "clean city" afterall, or at least purport to embrace this value. We just need to provide the obviously needed services.

Thanks! Jane

Thank you, Jane.

Unlike Art Fair, additional dumpsters do not need to be placed.

Just service the existing campus dumpsters on Friday.

More info and support for justification available upon request, willing to meet and talk as needed.

[REDACTED]

Fred

In a message dated 4/30/2019 9:36:33 AM Eastern Standard Time, [JLumm@a2gov.org](mailto:JLumm@a2gov.org) writes:

Messrs. Lazarus, Hupy, Slotten,

What arrangements are in place for student move-out? Are dumpsters scheduled for

the critical locations (assume we have a map where dumpsters have been placed for prior student move-out's), and, if not, what is required of the city/us to have the dumpsters placed by Friday (5/3) and tipped? Mr. Heaton references a fee for property owners – what is the fee/dumpster and tip, and what is the total revenue (from fees) and cost for the student move-out solid waste dumpster service?

Background – when the City had a Solid Waste Dept. and a Solid Waste Commission (I served on the SW Comm. for a # of yrs.), we had a Student Move-In and Move-Out Pgm. that provided the needed services. The program was incorporated in the City's long-term Solid Waste Plan (i.e., the 6 year “Integrated Solid Waste Mgmt. Plan” which was periodically updated by the Commission and its citizen ctes.), and I also served, along with Fred Gruber (copied above), on the Student Move-In/Move-Out Task Force sub-cte. Pt. is, this was a long-standing city supported program that effectively provided the needed services. The following is from the 1994-2000 ISWMP,

“The Department should classify student move in/move out time as a special event and deal with the added waste and recyclables generated there accordingly, Service trade-offs could be considered if necessary to set up this service.

Definition of issue: The Solid Waste Department has been providing solid waste collection at special events for a number of years. These events current include the Ann Arbor Art Fairs, the Dexter/Ann Arbor Run, a Taste of Ann Arbor, and other smaller events. The Department bills its cost of service for these events to the organizers.

This year, for the first time, the Department offered recycling services at the Ann Arbor Art Fairs. The recycling services were offered within the existing refuse budget. In addition, there are a number of special events in the city that generate additional waste for the department but do not current have special collections. These include, but are not limited to: student move in/move out and U of M football games.”

The student move in/move out pgm. was created ~ 1994/95 (the MRF became operational in 1995/96).

I don't understand the hiccups in the programming and, given the short time frame to address the concerns outlined by Mr. Heaton – the dumpsters must be in place in 3 days – we don't have the luxury of assessing the program and coming up with the needed long-term fixes. So, with this in mind, can you please expeditiously respond to the first two Q's above? Obviously, we need to do what it takes to provide the needed services asap. I'm certain we all agree it's important to showcase AA as clean city and, especially, for commencement exercises (5/4/19).

Thank you, and thank you Chris! Jane

**Subject:** TRASH REMOVAL AT STUDENT MOVE-OUT

To all who receive this e-mail:

I am a member of the Washtenaw Area Apartment Association (WA3). I write as an individual rental property professional. I supported the letter the WA3 Board of Directors recently sent many of you regarding the loss of dumpster service on the Friday before move-out weekends. Mr. Lazarus forwarded our letter on to decision makers and people responsible for service delivery. We are four days from feeling the impact of inaction. I would like to make one more appeal as time runs out.

The need to address the real world needs of trash collection in the student housing environs has, as far as any of us are concerned, always existed. For decades the City of Ann Arbor understood this. We developed some pretty good practices that expeditiously removed trash from the student neighborhoods. The plan was based on these 4 truths:

1. Best to remove trash quickly so the city looks its best at critical times in the academic calendar.
2. Dumpsters are the best way to get the most trash out of the city the fastest.
3. Trash wilding (a tenant of one building using the trash capacity of another building) is an unavoidable and virtually unmanageable reality in student neighborhoods so don't get bogged down by whether or not trash crossed a property line on its way to a dumpster.
4. Property taxes cover the removal of all trash - including at times of the year

that require a non-standard schedule.

The Solid Waste Department's recent failure to recognize these long established truths puts us at odds. As you might imagine there are people in our ranks who remember the past engagements that established the aforementioned 4 truths and are especially annoyed that we're backsliding unnecessarily. I'm one of them.

Solid Waste, to their credit, tried to add back dumpster service Friday before move-out for a fee this year. While they might see that as an generous accommodation they have failed to understand the consequences of the fee. Specifically that it violates Truth #3 regarding trash wilding. **AGAIN, AT MOVE-OUT WE SHOULD NOT CARE IF THE TRASH CROSSED A PROPERTY LINE ON ITS WAY TO A DUMPSTER. SOLID WASTE NEEDS TO THINK OF THE DUMPSTER ON MY PROPERTY AS A NEIGHBORHOOD RESOURCE DURING MOVE-OUT - NOT JUST THE RESOURCE OF A SINGLE PROPERTY. WHEN YOU CHARGE ME FOR A TIP THE DUMPSTER CEASES TO BE A NEIGHBORHOOD RESOURCE AND YOU'VE VIOLATED TRUTH #4. FURTHER, THE DROP-OFF STATION AT OAKLAND AND TAPPAN IS A RESOURCE FOR BOTH RESIDENTS AND PROPERTY PROFESSIONALS - NOT JUST RESIDENTS. AS WITH THE DUMPSTERS ON PRIVATE PROPERTY THEY ARE A COMMUNITY RESOURCE AT STUDENT MOVE-OUT. SO THERE IS EVIDENCE THAT WE UNDERSTAND THE NEED FOR COMMUNITY/NEIGHBORHOOD TRASH RESOURCES AT CRITICAL TIMES.**

I invite any of you to visit 1335 Geddes or 1025 Packard on 8/18/19 to see what actually happens to a dumpster during student move-out. Friday service creates the capacity to get through the move-out weekend. I don't have May leases so you'll need to look at the end of summer to see what happens on our properties. The move-in process is not dissimilar in that a non-standard schedule is required to address the high trash volume.

Finally, all costs that can be passed on to residents of rental property are passed on to those residents. Years back when the City of Ann Arbor dropped curbside leaf collection it added between \$50 to \$200 per building per year to have a company come and vacuum the leaves off the extension. A pure, undeniable cost push onto property owners of all kinds - not just rental property. In our portfolio of 80 buildings this amounted to about \$6,000 +/- in a new expense with no offsetting reduction in property taxes. Many homeowners and rental owners saw that as government theft of their tax dollars. Further, what rational person wouldn't seek to cover this newly created expense? So at some point the City must face the fact that financially it demands a lot of registered rental property.

Sooner or later the next new fee, new requirement or a loss of service (without property tax offset) will be scrutinized and challenged by the taxpayer. You're feeling that challenge now. Perhaps you could rationalize the return of uncharged Friday dumpster service at move-out as a partial offset to the money inappropriately taken when curbside leaf service was dropped without remuneration to the taxpayer OR as a "peace dividend" resulting from taking your tax base vertical! By whatever rationale, please push to restore this critical service - without additional fee - by this Friday, May 3, 2019.

Mayor and Councilmembers:

Over the past few weeks, I have informed you of the resignation of Robyn Wilkerson, our Human Resources and Labor Relations Director. The information I have shared has been sparse by necessity, as there are legal and other matters that must be addressed. This message is intended to fill in some of the gaps and provide my thoughts and intentions on the path forward.

On April 5<sup>th</sup>, I became aware of inappropriate communications Ms. Wilkerson shared with a co-worker that violated City policy and did not reflect our expected standards of professionalism or our organizational values. Immediately upon receipt, Ms. Wilkerson was placed on administrative leave pending a review of the circumstances and her electronic communications and badge access to City facilities were disabled. After we began this process, Ms. Wilkerson tendered her resignation.

During this period, we received a request for the communications under the Freedom of Information Act (FOIA). The response is due back to the requestor today. I am sharing this information with City staff as you receive this message for the because I want Council and staff to have an understanding of the facts and circumstances surrounding the departure of a key staff member before you and staff hear about it through a third party source.

There are a few additional points I would also like to share:

- We are all governed by the same workplace rules, and that regardless of our position, seniority, or service record we are all subject to the same standards of accountability. Our commitment to public service excellence is built upon mutual respect and shared value, and we will always consider breaches of this trust seriously, compassionately, and expeditiously.
- Information from employees or 3<sup>rd</sup> parties that you receive about City staff should immediately and be provided to the City Administrator to ensure timeliness of action and appropriate handling. If you become aware of alleged employee misconduct, I also ask that you do not share that knowledge with uninvolved parties.

As we look to the future, I have initiated and will follow-up on the actions discussed below:

- Assistant City Administrator John Fournier will continue to serve as the acting Human Resources and Labor Relations Director. To the extent necessary, I will assume responsibility for some of his other duties. Kindly note that we are fortunate to have highly skilled professionals in our administrative areas who operate independently at high levels.
- I have directed Mr. Fournier to commence a cultural assessment of our personnel operations using a third party with appropriate experience and expertise as quickly as possible. This assessment will address internal human resources staff perspectives and those of customers of the service unit. The conclusions and recommendations obtained in the final report will form both an action plan and provide the basis for the recruitment of a new HR Director.
- The recruitment of a new HR Director will be an external effort, and most likely involve engaging an outside recruiter. Assuming a start date of mid-June for the recruitment, we can expect that we will have a new Director in place by mid-to-late October.

As always, please do not hesitate to contact me if you have any thoughts or questions.

---

Mr. Lazarus,

[REDACTED]

I informed you EIGHT days after I received notice from the employee who had also initially contacted you. [REDACTED] I did, as I shared, advise the employee to follow normal city protocol, that this was not my charge, but was told she had no other option, that she reached out to you, but received no audience/interest/support. Knowing this, I also agree that it was my responsibility to report and act upon the information that was provided me, and so I did. I scheduled the meeting to inform you, Mr. Postema, the Mayor and CM Eaton. I also prepared the summary report of the text messages. In total, it took me eight days to provide you the information that was provided me.

[REDACTED]

[REDACTED]

I look forward to a discussion of next steps at the Council Administration Cte. meeting.

Thank you, Jane

Jack, thanks for your support. Could you, Messrs. Lazarus/Fournier, draft a resln.?

Suggestions:

Maybe a couple of whereas clauses to describe the local rental housing concerns (would toss in a concern re: impact on permanent hsg. availability and affordability along with the impact on neighborhood stability) and in-process plans to address

A stmt. re: the ability to represent and address the community's needs at the local level

RESOLVED clause to convey the City's opposition to HB 4046 for reasons x/y/z

Appreciate any response/assistance! Jane

Good afternoon, Jennifer,

Thank you for forwarding this MML action alert. I just left you a voice mail message re: this house bill and to ask if you could provide any addt'l. background information. This proposed legislation would undermine local control of an issue that Ann Arbor is now studying and likely will address. In my view, our ability to develop regulations for rental properties is critical.

We have a city council meeting on Monday, May 6<sup>th</sup>, and any information you can expeditiously provide would be greatly appreciated.

Thank you, Jane Lumm  
Ann Arbor City Councilmember

**Important Alert**

# Action Needed on Short-term Rental Bill

## House Bill 4046 would preempt local government control

House Bill 4046 is on the agenda of the [House Local Government and Municipal Finance Committee](#) at 12 noon on Wednesday, **May 1**. This legislation, backed by the Michigan Realtors, is an amendment to the Michigan Zoning Enabling Act preempting local government from regulating rentals of less than 28 days.

The League is opposed to this attack on local democracy! We urge you to share your concerns at the hearing:

- **Wednesday, May 1, 12 Noon**, in Room 521 of the Anderson House Office Building, [124 N. Capitol Ave., Lansing, MI 48933](#).

If you're unable to attend in person, please contact committee members and legislators:

1. **Email committee members** (email addresses below)
2. **Copy your email to the committee clerk** (email address below) asking for your comments to be entered into the official committee record
3. **Copy your email to your local Representative and State Senator.**

Your assistance is very important in defeating HB 4046. For more information, please read this [Inside 208 blog](#).

If you have any questions, please contact the League's Jennifer Rigterink at [jrigterink@mml.org](mailto:jrigterink@mml.org) or 517-908-0305.

Fred, A post-mortem is needed so this kind of last minute emergency never happens again. Nothing about this should be difficult/need to be reinvented. As you can see from my communications, I have been very clear that the service needs to be provided Friday, and why, as well, I'm not recommending pre-meetings to discuss the obvious. You DO NOT NEED to explain why this is needed – hmmm, let's see, is more trash generated when students leave town? What have we been doing for 20+ yrs. to handle this trash? [Just do it.](#)

Jane

**Subject:** Re: TRASH REMOVAL AT STUDENT MOVE-OUT

Jane, and everyone:

No, we are not interested in a post-mortem. We need a pre-mortem.

We need the service this Friday, May 3.

Don't let staff tell you it's too late. They have known about this for years. It should not be necessary, but I am willing to meet TODAY to explain why this is the proper thing to do.

And don't get bogged down with cost issues. We proved long ago that the pilot program saved money overall. Not to mention the cost impact on the Ann Arbor Police Department, which most people don't realize is a part of the equation.

City staff need to be problem-solvers, not excuse-makers.

Fred

In a message dated 4/30/2019 9:55:12 AM Eastern Standard Time, JLumm@a2gov.org writes:

Thanks for clarifying, Fred. Sounds pretty simple if it's just a matter of servicing the existing campus dumpsters. (Chris, also resending w/you correct email address. My typographical error.) Appreciate your offer to meet and discuss. Think a stakeholder post-mortem after Friday would be very instructive and helpful. Hope, as well, you've all been engaged with the consultant who's developing the Solid Waste Plan – obviously, your feedback and recommendations would be helpful.

Don't think any justification for servicing overflowing trash dumpsters in/around campus on graduation weekend is/should be required. We are a "clean city" afterall, or at least purport to embrace this value. We just need to provide the obviously needed services.

Thanks! Jane

Thank you, Jane.

Unlike Art Fair, additional dumpsters do not need to be placed.

Just service the existing campus dumpsters on Friday.

More info and support for justification available upon request, willing to meet and talk as needed.

  
Fred

In a message dated 4/30/2019 9:36:33 AM Eastern Standard Time, [JLumm@a2gov.org](mailto:JLumm@a2gov.org) writes:

Messrs. Lazarus, Hupy, Slotten,

What arrangements are in place for student move-out? Are dumpsters scheduled for the critical locations (assume we have a map where dumpsters have been placed for prior student move-out's), and, if not, what is required of the city/us to have the dumpsters placed by Friday (5/3) and tipped? Mr. Heaton references a fee for property owners – what is the fee/dumpster and tip, and what is the total revenue (from fees) and cost for the student move-out solid waste dumpster service?

Background – when the City had a Solid Waste Dept. and a Solid Waste Commission (I served on the SW Comm. for a # of yrs.), we had a Student Move-In and Move-Out Pgm. that provided the needed services. The program was incorporated in the City's long-term Solid Waste Plan (i.e., the 6 year "Integrated Solid Waste Mgmt. Plan" which was periodically updated by the Commission and its citizen ctes.), and I also served, along with Fred Gruber (copied above), on the Student Move-In/Move-Out Task Force sub-cte. Pt. is, this was a long-standing city supported program that effectively provided the needed services. The following is from the 1994-2000 ISWMP,

"The Department should classify student move in/move out time as a special event and deal with the added waste and recyclables generated there accordingly, Service trade-offs could be considered if

necessary to set up this service.

Definition of issue: The Solid Waste Department has been providing solid waste collection at special events for a number of years. These events current include the Ann Arbor Art Fairs, the Dexter/Ann Arbor Run, a Taste of Ann Arbor, and other smaller events. The Department bills its cost of service for these events to the organizers.

This year, for the first time, the Department offered recycling services at the Ann Arbor Art Fairs. The recycling services were offered within the existing refuse budget. In addition, there are a number of special events in the city that generate additional waste for the department but do not current have special collections. These include, but are not limited to: student move in/move out and U of M football games.”

The student move in/move out pgm. was created ~ 1994/95 (the MRF became operational in 1995/96).

I don't understand the hiccups in the programming and, given the short time frame to address the concerns outlined by Mr. Heaton – the dumpsters must be in place in 3 days – we don't have the luxury of assessing the program and coming up with the needed long-term fixes. So, with this in mind, can you please expeditiously respond to the first two Q's above? Obviously, we need to do what it takes to provide the needed services asap. I'm certain we all agree it's important to showcase AA as clean city and, especially, for commencement exercises (5/4/19).

Thank you, and thank you Chris! Jane

**Subject:** TRASH REMOVAL AT STUDENT MOVE-OUT

To all who receive this e-mail:

I am a member of the Washtenaw Area Apartment Association (WA3). I write as an individual rental property professional. I supported the letter the WA3 Board of Directors recently sent many of you regarding the loss of dumpster service on the Friday before move-out weekends. Mr. Lazarus forwarded our letter on to decision makers and people responsible for service delivery. We are four days from feeling the impact of inaction. I would like to make one more appeal as time runs out.

The need to address the real world needs of trash collection in the student housing environs has, as far as any of us are concerned, always existed. For decades the City of Ann Arbor understood this. We developed some pretty good practices that expeditiously removed trash from the student neighborhoods. The plan was based on these 4 truths:

1. Best to remove trash quickly so the city looks its best at critical times in the academic calendar.
2. Dumpsters are the best way to get the most trash out of the city the fastest.
3. Trash wilding (a tenant of one building using the trash capacity of another building) is a unavoidable and virtually unmanageable reality in student neighborhoods so don't get bogged down by whether or not trash crossed a property line on its way to a dumpster.
4. Property taxes cover the removal of all trash - including at times of the year that require a non-standard schedule.

The Solid Waste Department's recent failure to recognize these long established truths puts us at odds. As you might imagine there are people in our ranks who remember the past engagements that established the aforementioned 4 truths and are especially annoyed that we're backsliding unnecessarily. I'm one of them.

Solid Waste, to their credit, tried to add back dumpster service Friday before move-out for a fee this year. While they might see that as an generous accommodation they have failed to understand the consequences of the fee. Specifically that it violates Truth #3 regarding trash wilding. **AGAIN, AT MOVE-OUT WE SHOULD NOT CARE IF THE TRASH CROSSED A PROPERTY LINE ON ITS WAY TO A DUMPSTER. SOLID WASTE NEEDS TO THINK OF THE DUMPSTER ON MY PROPERTY AS A NEIGHBORHOOD RESOURCE DURING MOVE-OUT - NOT JUST THE RESOURCE OF A SINGLE PROPERTY. WHEN YOU CHARGE ME FOR A TIP THE DUMPSTER CEASES TO BE A NEIGHBORHOOD RESOURCE AND YOU'VE VIOLATED TRUTH #4. FURTHER, THE DROP-OFF STATION AT OAKLAND AND TAPPAN IS A RESOURCE FOR BOTH RESIDENTS AND PROPERTY PROFESSIONALS - NOT JUST RESIDENTS. AS WITH THE DUMPSTERS ON PRIVATE PROPERTY THEY ARE A COMMUNITY RESOURCE AT STUDENT MOVE-OUT. SO THERE IS EVIDENCE THAT WE UNDERSTAND THE NEED FOR COMMUNITY/NEIGHBORHOOD TRASH RESOURCES AT CRITICAL**

TIMES.

I invite any of you to visit 1335 Geddes or 1025 Packard on 8/18/19 to see what actually happens to a dumpster during student move-out. Friday service creates the capacity to get through the move-out weekend. I don't have May leases so you'll need to look at the end of summer to see what happens on our properties. The move-in process is not dissimilar in that a non-standard schedule is required to address the high trash volume.

Finally, all costs that can be passed on to residents of rental property are passed on to those residents. Years back when the City of Ann Arbor dropped curbside leaf collection it added between \$50 to \$200 per building per year to have a company come and vacuum the leaves off the extension. A pure, undeniable cost push onto property owners of all kinds - not just rental property. In our portfolio of 80 buildings this amounted to about \$6,000 +/- in a new expense with no offsetting reduction in property taxes. Many homeowners and rental owners saw that as government theft of their tax dollars. Further, what rational person wouldn't seek to cover this newly created expense? So at some point the City must face the fact that financially it demands a lot of registered rental property. Sooner or later the next new fee, new requirement or a loss of service (without property tax offset) will be scrutinized and challenged by the taxpayer. You're feeling that challenge now. Perhaps you could rationalize the return of uncharged Friday dumpster service at move-out as a partial offset to the money inappropriately taken when curbside leaf service was dropped without remuneration to the taxpayer OR as a "peace dividend" resulting from taking your tax base vertical! By whatever rationale, please push to restore this critical service - without additional fee - by this Friday, May 3, 2019.

---

Hi Elizabeth, Jack, Kathy and Jeff (limited by OMA),

Just wanted to highlight that Julie Grand has added two reappointments to the Greenbelt Advisory Commission to the May 6 Council Agenda: <http://a2gov.legistar.com/LegislationDetail.aspx?ID=3928102&GUID=00804A5F-3F67-4E52-9DF1-A2498E52B771&Options=ID|Text|&Search=>

Also related to reappointments:

1. Charlotte Jameson resigned from Energy Commission:  
<http://a2gov.legistar.com/LegislationDetail.aspx?ID=3928103&GUID=4761C729-13D2-4E66-8283-0A5D0812BF5D&Options=ID|Text|&Search=>
2. Chip Smith and I are reappointing Jonathan Overpack to Environmental Commission:  
<http://a2gov.legistar.com/LegislationDetail.aspx?ID=3928099&GUID=A036F4DC-9BEC-4F4E-9EC7-781559E3DD29&Options=ID|Text|&Search=>

With the instructions below and attached, I'm now able to login to Granicus...

Thanks,  
Anne

Friends,

Some of you have asked for increased visibility regarding Board & Commission applications. To this end, Staff has provided us read-access to filed applications per below. THANK YOU!!!

If you choose to wander through these applications, permit me a couple of cautions.

\* OMA considerations naturally apply to discussion of any of these applications.

\* Although these applications are FOIA-able, they contain information that I believe would ordinarily be redacted. Please do not treat these applications as suitable for distribution prior to consultation with Attorney's Office.

\* Without regard to FOIA-ability, I'd ask that you treat these applications as sensitive. We have each of us chosen to subject ourselves to the public discussion, approval, and rejection that accompanies elected office. Although service on Boards/Commission is public and does expose volunteers to comment, there is a different expectation and, often, tolerance, for this element of public life. All the more so for folks who have merely applied to serve, most of whom will by regretful necessity be rejected. This is all to say, as community leaders we have the power to wound by a careless word or critique. Please be cautious.

As ever, please do not hesitate to contact me with any questions you may have.

Christopher

\*\*\*\*\*

Accounts are now set up for all members of the City Council on the Boards and Commissions site. This software is intuitive and see attached a quick start guide to this email, but there are a few quirks. First, the site does not work as intended on Internet Explorer, please use Google Chrome for full functionality. Second, search results may display hundreds of applications dated January 9, 2018, this date is simply the date that the transition to the new software occurred, the City received no applications on that date. Any other issues can usually be overcome as users become familiar with the software.

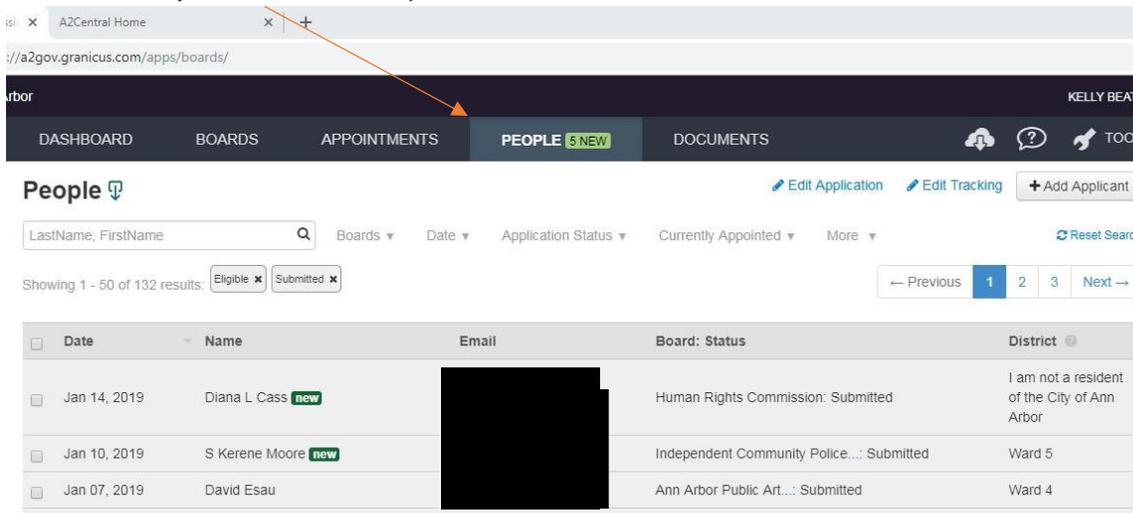

When you are ready to start, simply visit the login page at: <https://a2gov.granicus.com/account/login>, and log in using the appropriate username from the table below with the password [REDACTED]

Full Name	Username
Ali Ramlawi	ARamlawi
Anne Bannister	ABannister
Chip Smith	ChSmith
Christopher Taylor	CTaylor
Elizabeth Nelson	ENelson
Jack Eaton	JEaton
Jane Lumm	JLumm

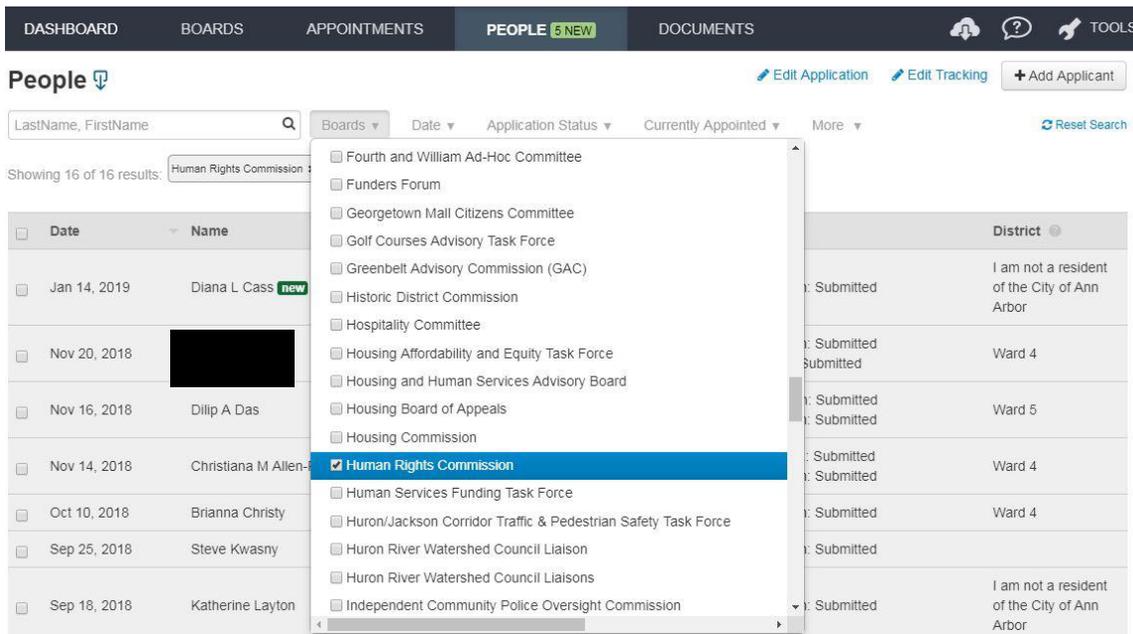

Jeff Hayner	JHayner
Julie Grand	JGrand
Kathy Griswold	KGriswold
Zachary Ackerman	ZAckerman

Steps to sort and view applications.

1. Log onto the Boards and Commissions page:
  - <https://a2gov.granicus.com/account/login>
2. Select the **People Tab** from the top ribbon

3. View Applications on the **People Tab** by using the table.
  - Date = Date application was submitted. Will display “In Progress,” if the applicant saved, but did not finish submitting the application.
  - Name = Applicant Name
  - Email = Applicant Email
  - Board: Status
    - Board is the name of the board, commission, or committee the applicant is applying for
    - Status will be: *Submitted* for new applicants; *Appointed* for current members, or *Archived* for past members.
  - District will list the Ward where each applicant resides.
4. There are many ways to sort applications, clicking on the table headers such as **date** to show the most recent applications is a good start. Other sorting functions use the search ribbon, including the ability to search by board name or applicant name if you are searching for someone specific.

- To view detailed information about an applicant, clicking on any applicants name will open a new frame that contains the full response to application questions and a link incorporated into the application to view the any attached resumes.

**Date:** Tuesday, April 30, 2019 2:01:25 PM

---

Good afternoon, Jennifer,

Thank you for forwarding this MML action alert. I just left you a voice mail message re: this house bill and to ask if you could provide any addt'l. background information. This proposed legislation would undermine local control of an issue that Ann Arbor is now studying and likely will address. In my view, our ability to develop regulations for rental properties is critical.

We have a city council meeting on Monday, May 6<sup>th</sup>, and any information you can expeditiously provide would be greatly appreciated.

Thank you, Jane Lumm  
Ann Arbor City Councilmember

## Important Alert

# Action Needed on Short-term Rental Bill

### House Bill 4046 would preempt local government control

House Bill 4046 is on the agenda of the [House Local Government and Municipal Finance Committee](#) at 12 noon on Wednesday, **May 1**. This legislation, backed by the Michigan Realtors, is an amendment to the Michigan Zoning Enabling Act preempting local government from regulating rentals of less than 28 days.

The League is opposed to this attack on local democracy! We urge you to share your concerns at the hearing:

- **Wednesday, May 1, 12 Noon**, in Room 521 of the Anderson House Office Building, [124 N. Capitol Ave., Lansing, MI 48933](#).

If you're unable to attend in person, please contact committee members and legislators:

1. **Email committee members** (email addresses below)
2. **Copy your email to the committee clerk** (email address below) asking for your comments to be entered into the official committee record
3. **Copy your email to your local Representative and State Senator.**

Your assistance is very important in defeating HB 4046. For more information, please read this [Inside 208 blog](#).

If you have any questions, please contact the League's Jennifer Riggerink at [jrigterink@mml.org](mailto:jrigterink@mml.org) or 517-908-0305.

Fred, A post-mortem is needed so this kind of last minute emergency never happens again. Nothing about this should be difficult/need to be reinvented. As you can see from my communications, I have been very clear that the service needs to be provided Friday, and why, as well, I'm not recommending pre-meetings to discuss the obvious. You DO NOT NEED to explain why this is needed – hmmm, let's see, is more trash generated when students leave town? What have we been doing for 20+ yrs. to handle this trash? Just do it.

Jane

**Subject:** Re: TRASH REMOVAL AT STUDENT MOVE-OUT

Jane, and everyone:

No, we are not interested in a post-mortem. We need a pre-mortem.

We need the service this Friday, May 3.

Don't let staff tell you it's too late. They have known about this for years. It should not be necessary, but I am willing to meet TODAY to explain why this is the proper thing to do.

And don't get bogged down with cost issues. We proved long ago that the pilot program saved money overall. Not to mention the cost impact on the Ann Arbor Police Department, which most people don't realize is a part of the equation.

City staff need to be problem-solvers, not excuse-makers.

Fred

In a message dated 4/30/2019 9:55:12 AM Eastern Standard Time, JLumm@a2gov.org writes:

Thanks for clarifying, Fred. Sounds pretty simple if it's just a matter of servicing the existing campus dumpsters. (Chris, also resending w/you correct email address. My typographical error.) Appreciate your offer to meet and discuss. Think a stakeholder post-mortem after Friday would be very instructive and helpful. Hope, as well, you've all been engaged with the consultant who's developing the Solid Waste Plan – obviously, your feedback and recommendations would be helpful.

Don't think any justification for servicing overflowing trash dumpsters in/around campus on graduation weekend is/should be required. We are a "clean city" afterall, or at least purport to embrace this value. We just need to provide the obviously needed services.

Thanks! Jane

Thank you, Jane.

Unlike Art Fair, additional dumpsters do not need to be placed.

Just service the existing campus dumpsters on Friday.

More info and support for justification available upon request, willing to meet and talk as needed.

[REDACTED]

Fred

In a message dated 4/30/2019 9:36:33 AM Eastern Standard Time, [JLumm@a2gov.org](mailto:JLumm@a2gov.org) writes:

Messrs. Lazarus, Hupy, Slotten,

What arrangements are in place for student move-out? Are dumpsters scheduled for the critical locations (assume we have a map where dumpsters have been placed for prior student move-out's), and, if not, what is required of the city/us to have the dumpsters placed by Friday (5/3) and tipped? Mr. Heaton references a fee for property owners – what is the fee/dumpster and tip, and what is the total revenue (from fees) and cost for the student move-out solid waste dumpster service?

Background – when the City had a Solid Waste Dept. and a Solid Waste Commission (I served on the SW Comm. for a # of yrs.), we had a Student Move-In and Move-Out Pgm. that provided the needed services. The program was incorporated in the City's long-term Solid Waste Plan (i.e., the 6 year "Integrated Solid Waste Mgmt. Plan" which was periodically updated by the Commission and its citizen ctes.), and I also served, along with Fred Gruber (copied above), on the Student Move-In/Move-Out Task Force sub-cte. Pt. is, this was a long-standing city supported program that effectively provided the needed services. The following is from the 1994-2000 ISWMP,

“The Department should classify student move in/move out time as a special event and deal with the added waste and recyclables generated there accordingly, Service trade-offs could be considered if necessary to set up this service.

Definition of issue: The Solid Waste Department has been providing solid waste collection at special events for a number of years. These events current include the Ann Arbor Art Fairs, the Dexter/Ann Arbor Run, a Taste of Ann Arbor, and other smaller events. The Department bills its cost of service for these events to the organizers.

This year, for the first time, the Department offered recycling services at the Ann Arbor Art Fairs. The recycling services were offered within the existing refuse budget. In addition, there are a number of special events in the city that generate additional waste for the department but do not current have special collections. These include, but are not limited to: student move in/move out and U of M football games.”

The student move in/move out pgm. was created ~ 1994/95 (the MRF became operational in

1995/96).

I don't understand the hiccups in the programming and, given the short time frame to address the concerns outlined by Mr. Heaton – the dumpsters must be in place in 3 days – we don't have the luxury of assessing the program and coming up with the needed long-term fixes. So, with this in mind, can you please expeditiously respond to the first two Q's above? Obviously, we need to do what it takes to provide the needed services asap. I'm certain we all agree it's important to showcase AA as clean city and, especially, for commencement exercises (5/4/19).

Thank you, and thank you Chris! Jane

**Subject:** TRASH REMOVAL AT STUDENT MOVE-OUT

To all who receive this e-mail:

I am a member of the Washtenaw Area Apartment Association (WA3). I write as an individual rental property professional. I supported the letter the WA3 Board of Directors recently sent many of you regarding the loss of dumpster service on the Friday before move-out weekends. Mr. Lazarus forwarded our letter on to decision makers and people responsible for service delivery. We are four days from feeling the impact of inaction. I would like to make one more appeal as time runs out.

The need to address the real world needs of trash collection in the student housing environs has, as far as any of us are concerned, always existed. For decades the City of Ann Arbor understood this. We developed some pretty good practices that expeditiously removed trash from the student neighborhoods. The plan was based on these 4 truths:

1. Best to remove trash quickly so the city looks its best at critical times in the academic calendar.

2. Dumpsters are the best way to get the most trash out of the city the fastest.
3. Trash wilding (a tenant of one building using the trash capacity of another building) is a unavoidable and virtually unmanageable reality in student neighborhoods so don't get bogged down by whether or not trash crossed a property line on its way to a dumpster.
4. Property taxes cover the removal of all trash - including at times of the year that require a non-standard schedule.

The Solid Waste Department's recent failure to recognize these long established truths puts us at odds. As you might imagine there are people in our ranks who remember the past engagements that established the aforementioned 4 truths and are especially annoyed that we're backsliding unnecessarily. I'm one of them.

Solid Waste, to their credit, tried to add back dumpster service Friday before move-out for a fee this year. While they might see that as an generous accommodation they have failed to understand the consequences of the fee. Specifically that it violates Truth #3 regarding trash wilding. **AGAIN, AT MOVE-OUT WE SHOULD NOT CARE IF THE TRASH CROSSED A PROPERTY LINE ON ITS WAY TO A DUMPSTER. SOLID WASTE NEEDS TO THINK OF THE DUMPSTER ON MY PROPERTY AS A NEIGHBORHOOD RESOURCE DURING MOVE-OUT - NOT JUST THE RESOURCE OF A SINGLE PROPERTY. WHEN YOU CHARGE ME FOR A TIP THE DUMPSTER CEASES TO BE A NEIGHBORHOOD RESOURCE AND YOU'VE VIOLATED TRUTH #4. FURTHER, THE DROP-OFF STATION AT OAKLAND AND TAPPAN IS A RESOURCE FOR BOTH RESIDENTS AND PROPERTY PROFESSIONALS - NOT JUST RESIDENTS. AS WITH THE DUMPSTERS ON PRIVATE PROPERTY THEY ARE A COMMUNITY RESOURCE AT STUDENT MOVE-OUT. SO THERE IS EVIDENCE THAT WE UNDERSTAND THE NEED FOR COMMUNITY/NEIGHBORHOOD TRASH RESOURCES AT CRITICAL TIMES.**

I invite any of you to visit 1335 Geddes or 1025 Packard on 8/18/19 to see what actually happens to a dumpster during student move-out. Friday service creates the capacity to get through the move-out weekend. I don't have May leases so you'll need to look at the end of summer to see what happens on our properties. The move-in process is not dissimilar in that a non-standard schedule is required to address the high trash volume.

Finally, all costs that can be passed on to residents of rental property are passed on to those residents. Years back when the City of Ann Arbor dropped curbside leaf collection it added between \$50 to \$200 per building per year to have a company come and vacuum the leaves off the extension. A pure, undeniable cost push onto property owners of all kinds - not just rental property. In our portfolio of 80 buildings this amounted to about \$6,000 +/- in a new expense with no offsetting reduction in property taxes. Many homeowners and rental owners saw that as government theft of their tax dollars. Further, what rational person wouldn't seek to cover

this newly created expense? So at some point the City must face the fact that financially it demands a lot of registered rental property. Sooner or later the next new fee, new requirement or a loss of service (without property tax offset) will be scrutinized and challenged by the taxpayer. You're feeling that challenge now. Perhaps you could rationalize the return of uncharged Friday dumpster service at move-out as a partial offset to the money inappropriately taken when curbside leaf service was dropped without remuneration to the taxpayer OR as a "peace dividend" resulting from taking your tax base vertical! By whatever rationale, please push to restore this critical service - without additional fee - by this Friday, May 3, 2019.

**Date:** Tuesday, April 30, 2019 11:34:42 AM

---

Dear Wendy Banka and Mayor Taylor,

Thank you, Wendy, for forwarding the 2011 emails between you two. I agree that Council should study in detail ways to pay for sidewalk gaps other than by Special Assessments.

Mayor Taylor, please let us know your current 2019 thoughts on this issue.

Thank you,  
Anne

On Sun, Apr 28, 2019 at 11:57 AM -0400, "Wendy Banka" [REDACTED] wrote:

Hi Anne -

I apologize for the delay in response.

No, I have not tried any of the suggestions you list in your message below.

Things that I have done:

**1. email to Councilman Taylor in 2011. That exchange is below.**

Well I'll continue to hope that in the future city council also finds a way to complete sidewalks in neighborhoods like mine, without burdening low-income residents.

I wonder, for example, if the city could pay the up-front costs, and be repaid the next time the property is sold, by the new buyer. Without a solution like this, neighborhoods like mine will never get sidewalks, because too many residents can't afford them.

Thanks for your good work. This is an issue I've cared about for some time, and I am very happy to see it addressed.

Best -

Wendy Banka

On Aug 28, 2011, at 9:57 PM, Christopher Taylor [REDACTED] wrote:

Dear Ms. Banka,

Thank you very much for writing back. I appreciate hearing your views on this, and quite agree that it makes sense to spread the cost to all users. The proposal will not fund new sidewalks, I'm afraid, which will continue to be a capital project associated with the property owner.

Thanks again for replying.

Kind regards,

Christopher

On Sun, Aug 28, 2011 at 6:28 PM, Wendy Banka [REDACTED] wrote:

Hello Councilman Taylor,

Just want you to know that I very strongly favor a policy in which sidewalk maintenance becomes the responsibility of the city instead of the homeowner. Sidewalks clearly benefit communities much more than individual homeowners, and it makes sense for the cost of repairs to be shared by all residents, and managed by the city.

I live on Rosedale, a neighborhood with intermittent sidewalks. Will this new policy fund new sidewalks in neighborhoods like mine, such that sidewalks will be continuous throughout the neighborhood? If so, I strongly recommend that you start in

areas adjacent to elementary schools, such as the area around Clonlara on Jewett, which I think also has intermittent sidewalks.

Many thanks!

Wendy Banka  

**2. email to Councilman Taylor and Councilman Kunselman in January 2014, as a member of the Springwater Subdivision Improvements Steering Committee. That exchange is below.**

Thank you.

I think if the city can solve the immediacy of the payment, much of the problem may be solved. For example, if the payment for the sidewalk could be made by the next purchaser of the property, then they could make a free choice as to whether that was worth it to them, and could roll the cost into their mortgage. This would delay payment for the sidewalks, and the city would have to cover that delay. But it would solve the problem of unfairness to residents who have already had to pay for their own sidewalks, while ensuring that even low income neighborhoods have a workable solution to getting sidewalks where they live and raise their families.

I think other solutions are also possible. The important thing is to consider this a problem that is necessary to solve, so that we get to the point of having those discussions and coming up with a solution.

Many thanks -

Wendy Banka

On Jan 28, 2014, at 12:38 PM, Taylor, Christopher (Council) wrote:

Hi Wendy,

Thank you for writing. I'll inquire. Sidewalk funding is a long-term question. The equity issue you raise is a deeply important one. The other side of that conversation is that existing sidewalks have been paid for by private funds and that shifting that system now might be arguably unfair to those residents. This doesn't diminish the

concern you raise, but it is a consideration.

I'll circle back when I hear back from administrator.

Best,

Christopher

**Subject:** Re: Sidewalks in Springwater

Hello again -

I just want to say that I received an email yesterday from Anne Warrow, to inform us that the City Administrator will be preparing a recommendation that sidewalks NOT be constructed in Springwater.

The construction of roads and infrastructure in our neighborhood is expected to last for 25 years or longer. I have already lived here for over 25 years, and I expect that even though this new plan will allow for future sidewalk construction, if sidewalks are not installed as a part of this project, they will not be installed during my lifetime.

In my view it is unconscionable that Ann Arbor will permit it's low income neighborhoods to continue to operate without infrastructure as basic as sidewalks. At some point a policy solution needs to be found to install sidewalks in established neighborhoods, even when those neighborhoods are low income and some residents can not afford to pay for them individually.

This has got to be a solvable problem. Why won't anyone address it?

On Jan 10, 2014, at 12:25 PM, Wendy Banka wrote:

Dear Councilman Taylor and  
Councilman Kunselman,

My name is Wendy Banka. I live on Rosedale Street in the Springwater Subdivision of Ann Arbor's Third Ward, which each of you represent. I am currently a member of the Springwater Subdivision Improvements Steering Committee, which has been considering how the city's plan to improve our streets and (possibly) sidewalks will impact our neighborhood.

The Committee has considered three issues. Two have been resolved to the satisfaction of the committee; under the current plan, all of our streets which are currently 32-34 ft in width will be re-constructed to a 32 ft width,

which is the standard that the city uses for new subdivisions. In addition, to solve problems of storm water run-off, "sand filters" will be constructed as part of the roadway design to filter and slow the movement of storm waters into Mallet's Creek. I think the consensus of the participants of the meeting last night was that these proposed changes are generally acceptable to us, and will likely also be acceptable to most of our neighbors.

It is the third issue which I wish to draw your attention to.

Springwater Subdivision is a low income neighborhood built in a piecemeal fashion; one of its charms is that each home has its own individual story and was not built as part of a housing development. There are no cookie-cutter houses here. While I personally love the individuality of the homes in my neighborhood, I also appreciate that there are other aspects of all neighborhoods that have little to do with individual properties, but instead are about creating a common infrastructure that promotes strong and safe communities. Paved streets, curbs, and stop signs, for example.

"Sand filters" as a part of road design, to reduce phosphorous contamination from storm water run-off. Bike lanes to separate the flow of bicycles from the flow of automobiles, and from the flow of pedestrians. Sidewalks to

separate the flow of pedestrians from the flow of both automobiles and bicycles.

The problem is that although the cost of building this kind of community infrastructure is usually paid for by the community, sidewalks are not.

Instead, the benefits that sidewalks bring to a neighborhood are paid for by individual homeowners. In a neighborhood such as mine, this means that it is impossible to install sidewalks throughout our neighborhood for community benefit, without putting some individual residents in a very difficult financial situation. This is an untenable situation, greatly in need of a policy solution that will create a way for low income neighborhoods to enjoy the same basic infrastructure as the rest of the city, without causing serious financial harm to individual residents.

My understanding is that the issue of whether Springwater Subdivision will have sidewalks will be decided by the Ann Arbor City Council in January or February. I want you to know that as traffic back-ups increase at the intersection of Packard and Platt, we are witnessing greatly increased numbers of automobiles cutting quickly through our neighborhood to avoid that intersection. Since our neighborhood has few sidewalks, those same streets are used for walking and biking by neighborhood residents.

Although this is a clearly dangerous situation, I expect that you will hear that many of my neighbors do not want sidewalks. I have heard repeatedly that it isn't really that residents of our neighborhood don't want sidewalks, but rather that individual residents don't want to - or can't - personally pay for them. Again, I urge you to find a solution that brings this basic level of neighborhood infrastructure to Springwater Subdivision, without unduly harming our low income residents. This is my primary concern, and is the main purpose of this message.

I do have a secondary concern, however, that I hope you both can also help me with. It turns out that you, Councilman Kunselman, are also a resident of Springwater Subdivision, and I believe that your family owns as much as two city blocks, in terms of land size, on the Northwest corner of our neighborhood. At the first public meeting about this project, you questioned my right to attend and to voice my opinion that sidewalks would greatly benefit our neighborhood, since my street would not be among the first to be affected. You also stated that because of the amount of land that you and your father own, the installation of sidewalks in our neighborhood would cost your family tens of thousands of dollars which you cannot afford. My question to both of you is, when does a

personal financial interest in the outcome of a city council decision require a councilman to recuse himself from that decision? If the city has a written policy on such conflicts of interest for members of the city council, I would greatly appreciate receiving a copy.

Many thanks for your time and attention.

Sincerely,

Wendy Banka  
[REDACTED]

Many thanks for your continued attention to this problem.

Sincerely,

Wendy Banka

Dear Wendy Banka,

Thank you for sending your concerns about the need for sidewalks and public safety in the Rosedale Street area. Howard Lazarus, our City Administrator, and I have had several conversations about bringing a resolution before Council to waive the special assessments on risky sidewalk gaps around the city. We are still in discussion on how best to proceed with that process.

In the meantime, please let us know if you've tried any of these suggestions:

- Log crosswalk and public safety concerns on See Click Fix:  
<https://www.a2gov.org/services/Pages/Report-a-Problem.aspx>
- Log a traffic complaint (request for enforcement), also through the above link and directly here: <http://www.surveygizmo.com/s3/1463514/Ann-Arbor-Traffic-Complaint-Questionnaire>
- Email the police directly at: [police@a2gov.org](mailto:police@a2gov.org)

-- Call the Traffic Division at: 734-794-6940

-- Apply for the Traffic Calming Program:

<https://www.a2gov.org/departments/engineering/traffic/Pages/Traffic-Calming.aspx>

To: Bannister, Anne  
Subject: 40-40-20 Funding and Sidewalk Gaps

Dear Council Member Bannister,

I am a resident of a low income Ann Arbor neighborhood that has significant sidewalk gaps. As a result, residents of this neighborhood either don't walk or walk in the street, even during times of the day when cars cut through our neighborhood to avoid the intersection at Packard and Platt Rd. And, it means that young children of this neighborhood practice riding their bikes in the street instead of on sidewalks.

During discussions a few years ago about whether to complete the sidewalks in our neighborhood as a part of street replacements, a decision was made to NOT install sidewalks where missing. This was largely due to difficulties in funding the new sidewalks, as when asked whether new sidewalks would be supported if free, the

overwhelming number of residents said yes.

I am writing to ask whether as part of the 40-40-20 plan to spend new tax money, a part of the funds used for pedestrian and bicycle safety can be dedicated to filling in sidewalk gaps in Ann Arbor. I believe this would make a very big difference in my neighborhood, and there is no other way to solve this problem in low-income neighborhoods where most residents are unable to afford the installation cost of new sidewalks.

Many thanks for your time and attention.

Sincerely,

Wendy Banka

On Apr 30, 2019, at 8:29 AM, Lazarus, Howard <[HLazarus@a2gov.org](mailto:HLazarus@a2gov.org)> wrote:

Mayor and Councilmembers:

Over the past few weeks, I have informed you of the resignation of Robyn Wilkerson, our Human Resources and Labor Relations Director. The information I have shared has been sparse by necessity, as there are legal and other matters that must be addressed. This message is intended to fill in some of the gaps and provide my thoughts and intentions on the path forward.

On April 5<sup>th</sup>, I became aware of inappropriate communications Ms. Wilkerson shared with a co-worker that violated City policy and did not reflect our expected standards of professionalism or our organizational values. Immediately upon receipt, Ms. Wilkerson was placed on administrative leave pending a review of the circumstances and her electronic communications and badge access to City facilities were disabled. After we began this process, Ms. Wilkerson tendered her resignation.

During this period, we received a request for the communications under the Freedom of Information Act (FOIA). The response is due back to the requestor today. I am sharing this information with City staff as you receive this message for the because I want Council and staff to have an understanding of the facts and circumstances surrounding the departure of a key staff member before you and staff hear about it through a third party source.

There are a few additional points I would also like to share:

- **We are all governed by the same workplace rules, and that regardless of our position, seniority, or service record we are all subject to the same standards of accountability. Our commitment to public service excellence is built upon mutual respect and shared value, and we will always consider breaches of this trust seriously, compassionately, and expeditiously.**
- **Information from employees or 3<sup>rd</sup> parties that you receive about City staff should immediately and be provided to the City Administrator to ensure timeliness of action and appropriate handling. If you become aware of alleged employee misconduct, I also ask that you do not share that knowledge with uninvolved parties.**

As we look to the future, I have initiated and will follow-up on the actions discussed below:

- **Assistant City Administrator John Fournier will continue to serve as the acting Human Resources and Labor Relations Director. To the extent necessary, I will assume responsibility for some of his other duties. Kindly note that we are fortunate to have highly skilled professionals in our administrative areas who operate independently at high levels.**

- I have directed Mr. Fournier to commence a cultural assessment of our personnel operations using a third party with appropriate experience and expertise as quickly as possible. This assessment will address internal human resources staff perspectives and those of customers of the service unit. The conclusions and recommendations obtained in the final report will form both an action plan and provide the basis for the recruitment of a new HR Director.
- The recruitment of a new HR Director will be an external effort, and most likely involve engaging an outside recruiter. Assuming a start date of mid-June for the recruitment, we can expect that we will have a new Director in place by mid-to-late October.

As always, please do not hesitate to contact me if you have any thoughts or questions.

Thanks for clarifying, Fred. Sounds pretty simple if it's just a matter of servicing the existing campus dumpsters. (Chris, also resending w/you correct email address. My typographical error.) Appreciate your offer to meet and discuss. Think a stakeholder post-mortem after Friday would be very instructive and helpful. Hope, as well, you've all been engaged with the consultant who's developing the Solid Waste Plan – obviously, your feedback and recommendations would be helpful.

Don't think any justification for servicing overflowing trash dumpsters in/around campus on graduation weekend is/should be required. We are a "clean city" afterall, or at least purport to embrace this value. We just need to provide the obviously needed services.

Thanks! Jane

Fred

In a message dated 4/30/2019 9:36:33 AM Eastern Standard Time, JLumm@a2gov.org writes:

Messrs. Lazarus, Hupy, Slotten,

What arrangements are in place for student move-out? Are dumpsters scheduled for the critical locations (assume we have a map where dumpsters have been placed for prior student move-out's), and, if not, what is required of the city/us to have the dumpsters placed by Friday (5/3) and tipped? Mr. Heaton references a fee for property owners – what is the fee/dumpster and tip, and what is the total revenue (from fees) and cost for the student move-out solid waste dumpster service?

Background – when the City had a Solid Waste Dept. and a Solid Waste Commission (I served on the SW Comm. for a # of yrs.), we had a Student Move-In and Move-Out Pgm. that provided the needed services. The program was incorporated in the City's long-term Solid Waste Plan (i.e., the 6 year "Integrated Solid Waste Mgmt. Plan" which was periodically updated by the Commission and its citizen ctes.), and I also served, along with Fred Gruber (copied above), on the Student Move-In/Move-Out Task Force sub-cte. Pt. is, this was a long-standing city supported program that effectively provided the needed services. The following is from the 1994-2000 ISWMP,

"The Department should classify student move in/move out time as a special event and deal with the added waste and recyclables generated there accordingly, Service trade-offs could be considered if necessary to set up this service.

Definition of issue: The Solid Waste Department has been providing solid waste collection at special events for a number of years. These events current include the Ann Arbor Art Fairs, the Dexter/Ann Arbor Run, a Taste of Ann Arbor, and other smaller events. The Department bills its cost of service for these events to the organizers.

This year, for the first time, the Department offered recycling services at the Ann Arbor Art Fairs. The recycling services were offered within the existing refuse budget. In addition, there are a number of special events in the city that generate additional waste for the department but do not current have special collections. These include, but are not limited to: student move in/move out and U of M football games."

The student move in/move out pgm. was created ~ 1994/95 (the MRF became operational in 1995/96).

I don't understand the hiccups in the programming and, given the short time frame to address the concerns outlined by Mr. Heaton – the dumpsters must be in place in 3 days – we don't have the luxury of assessing the program and coming up with the needed long-term fixes. So, with this in mind, can you please expeditiously respond to the first two Q's above? Obviously, we need to do what it takes to provide the needed services asap. I'm certain we all agree it's important to showcase AA as clean city and, especially, for commencement exercises (5/4/19).

Thank you, and thank you Chris! Jane

**Subject:** TRASH REMOVAL AT STUDENT MOVE-OUT

To all who receive this e-mail:

I am a member of the Washtenaw Area Apartment Association (WA3). I write as an individual rental property professional. I supported the letter the WA3 Board of Directors recently sent many of you regarding the loss of dumpster service on the Friday before move-out weekends. Mr. Lazarus forwarded our letter on to decision makers and people responsible for service delivery. We are four days from feeling the impact of inaction. I would like to make one more appeal as time runs out.

The need to address the real world needs of trash collection in the student housing environs has, as far as any of us are concerned, always existed. For decades the City of Ann Arbor understood this. We developed some pretty good practices that expeditiously removed trash from the student neighborhoods. The plan was based on these 4 truths:

1. Best to remove trash quickly so the city looks its best at critical times in the academic calendar.
2. Dumpsters are the best way to get the most trash out of the city the fastest.
3. Trash wilding (a tenant of one building using the trash capacity of another building) is an unavoidable and virtually unmanageable reality in student neighborhoods so don't get bogged down by whether or not trash crossed a property line on its way to a dumpster.
4. Property taxes cover the removal of all trash - including at times of the year that require a non-standard schedule.

The Solid Waste Department's recent failure to recognize these long established truths puts us at odds. As you might imagine there are people in our ranks who remember the past engagements that established the aforementioned 4 truths and are especially annoyed that

we're backsliding unnecessarily. I'm one of them.

Solid Waste, to their credit, tried to add back dumpster service Friday before move-out for a fee this year. While they might see that as an generous accommodation they have failed to understand the consequences of the fee. Specifically that it violates Truth #3 regarding trash wilding. AGAIN, AT MOVE-OUT WE SHOULD NOT CARE IF THE TRASH CROSSED A PROPERTY LINE ON ITS WAY TO A DUMPSTER. SOLID WASTE NEEDS TO THINK OF THE DUMPSTER ON MY PROPERTY AS A NEIGHBORHOOD RESOURCE DURING MOVE-OUT - NOT JUST THE RESOURCE OF A SINGLE PROPERTY. WHEN YOU CHARGE ME FOR A TIP THE DUMPSTER CEASES TO BE A NEIGHBORHOOD RESOURCE AND YOU'VE VIOLATED TRUTH #4. FURTHER, THE DROP-OFF STATION AT OAKLAND AND TAPPAN IS A RESOURCE FOR BOTH RESIDENTS AND PROPERTY PROFESSIONALS - NOT JUST RESIDENTS. AS WITH THE DUMPSTERS ON PRIVATE PROPERTY THEY ARE A COMMUNITY RESOURCE AT STUDENT MOVE-OUT. SO THERE IS EVIDENCE THAT WE UNDERSTAND THE NEED FOR COMMUNITY/NEIGHBORHOOD TRASH RESOURCES AT CRITICAL TIMES.

I invite any of you to visit 1335 Geddes or 1025 Packard on 8/18/19 to see what actually happens to a dumpster during student move-out. Friday service creates the capacity to get through the move-out weekend. I don't have May leases so you'll need to look at the end of summer to see what happens on our properties. The move-in process is not dissimilar in that a non-standard schedule is required to address the high trash volume.

Finally, all costs that can be passed on to residents of rental property are passed on to those residents. Years back when the City of Ann Arbor dropped curbside leaf collection it added between \$50 to \$200 per building per year to have a company come and vacuum the leaves off the extension. A pure, undeniable cost push onto property owners of all kinds - not just rental property. In our portfolio of 80 buildings this amounted to about \$6,000 +/- in a new expense with no offsetting reduction in property taxes. Many homeowners and rental owners saw that as government theft of their tax dollars. Further, what rational person wouldn't seek to cover this newly created expense? So at some point the City must face the fact that financially it demands a lot of registered rental property. Sooner or later the next new fee, new requirement or a loss of service (without property tax offset) will be scrutinized and challenged by the taxpayer. You're feeling that challenge now. Perhaps you could rationalize the return of uncharged Friday dumpster service at move-out as a partial offset to the money inappropriately taken when curbside leaf service was dropped without remuneration to the taxpayer OR as a "peace dividend" resulting from taking your tax base vertical! By whatever rationale, please push to restore this critical service - without additional fee - by this Friday, May 3, 2019.

Christopher J. Heaton,

**Subject:** RE: TRASH REMOVAL AT STUDENT MOVE-OUT  
**Date:** Tuesday, April 30, 2019 9:36:31 AM

---

Messrs. Lazarus, Hupy, Slotten,

What arrangements are in place for student move-out? Are dumpsters scheduled for the critical locations (assume we have a map where dumpsters have been placed for prior student move-out's), and, if not, what is required of the city/us to have the dumpsters placed by Friday (5/3) and tipped? Mr. Heaton references a fee for property owners – what is the fee/dumpster and tip, and what is the total revenue (from fees) and cost for the student move-out solid waste dumpster service?

Background – when the City had a Solid Waste Dept. and a Solid Waste Commission (I served on the SW Comm. for a # of yrs.), we had a Student Move-In and Move-Out Pgm. that provided the needed services. The program was incorporated in the City's long-term Solid Waste Plan (i.e., the 6 year "Integrated Solid Waste Mgmt. Plan" which was periodically updated by the Commission and its citizen ctes.), and I also served, along with Fred Gruber (copied above), on the Student Move-In/Move-Out Task Force sub-cte. Pt. is, this was a long-standing city supported program that effectively provided the needed services. The following is from the 1994-2000 ISWMP,

"The Department should classify student move in/move out time as a special event and deal with the added waste and recyclables generated there accordingly, Service trade-offs could be considered if necessary to set up this service.

Definition of issue: The Solid Waste Department has been providing solid waste collection at special events for a number of years. These events current include the Ann Arbor Art Fairs, the Dexter/Ann Arbor Run, a Taste of Ann Arbor, and other smaller events. The Department bills its cost of service for these events to the organizers.

This year, for the first time, the Department offered recycling services at the Ann Arbor Art Fairs. The recycling services were offered within the existing refuse budget. In addition, there are a number of special events in the city that generate additional waste for the department but do not current have special collections. These include, but are not limited to: student move in/move out and U of M football games."

The student move in/move out pgm. was created ~ 1994/95 (the MRF became operational in 1995/96).

I don't understand the hiccups in the programming and, given the short time frame to address the concerns outlined by Mr. Heaton – the dumpsters must be in place in 3 days – we don't have the luxury of assessing the program and coming up with the needed long-term fixes. So, with this in mind, can you please expeditiously respond to the first two Q's above? Obviously, we need to do what it takes to provide the needed services asap. I'm certain we all agree it's important to showcase AA as clean city and, especially, for commencement exercises (5/4/19).

Thank you, and thank you Chris! Jane

**Subject:** TRASH REMOVAL AT STUDENT MOVE-OUT

To all who receive this e-mail:

I am a member of the Washtenaw Area Apartment Association (WA3). I write as an individual rental property professional. I supported the letter the WA3 Board of Directors recently sent many of you regarding the loss of dumpster service on the Friday before move-out weekends. Mr. Lazarus forwarded our letter on to decision makers and people responsible for service delivery. We are four days from feeling the impact of inaction. I would like to make one more appeal as time runs out.

The need to address the real world needs of trash collection in the student housing environs has, as far as any of us are concerned, always existed. For decades the City of Ann Arbor understood this. We developed some pretty good practices that expeditiously removed trash from the student neighborhoods. The plan was based on these 4 truths:

1. Best to remove trash quickly so the city looks its best at critical times in the academic calendar.
2. Dumpsters are the best way to get the most trash out of the city the fastest.
3. Trash wilding (a tenant of one building using the trash capacity of another building) is an unavoidable and virtually unmanageable reality in student neighborhoods so don't get bogged down by whether or not trash crossed a property line on its way to a dumpster.
4. Property taxes cover the removal of all trash - including at times of the year that require a non-standard schedule.

The Solid Waste Department's recent failure to recognize these long established truths puts us at odds. As you might imagine there are people in our ranks who remember the past engagements that established the aforementioned 4 truths and are especially annoyed that we're backsliding unnecessarily. I'm one of them.

Solid Waste, to their credit, tried to add back dumpster service Friday before move-out for a fee this year. While they might see that as an generous accommodation they have failed to understand the consequences of the fee. Specifically that it violates Truth #3 regarding trash wilding. **AGAIN, AT MOVE-OUT WE SHOULD NOT CARE IF THE TRASH CROSSED A PROPERTY LINE ON ITS WAY TO A DUMPSTER. SOLID WASTE NEEDS TO THINK OF THE DUMPSTER ON MY PROPERTY AS A NEIGHBORHOOD RESOURCE DURING MOVE-OUT - NOT JUST THE RESOURCE OF A SINGLE PROPERTY. WHEN YOU CHARGE ME FOR A TIP THE DUMPSTER CEASES TO BE A NEIGHBORHOOD**

RESOURCE AND YOU'VE VIOLATED TRUTH #4. FURTHER, THE DROP-OFF STATION AT OAKLAND AND TAPPAN IS A RESOURCE FOR BOTH RESIDENTS AND PROPERTY PROFESSIONALS - NOT JUST RESIDENTS. AS WITH THE DUMPSTERS ON PRIVATE PROPERTY THEY ARE A COMMUNITY RESOURCE AT STUDENT MOVE-OUT. SO THERE IS EVIDENCE THAT WE UNDERSTAND THE NEED FOR COMMUNITY/NEIGHBORHOOD TRASH RESOURCES AT CRITICAL TIMES.

I invite any of you to visit 1335 Geddes or 1025 Packard on 8/18/19 to see what actually happens to a dumpster during student move-out. Hi,

Below is an email from a Ward 4 resident. I am sharing in the hope that you might have suggestions to help the situation? Apparently, a number of neighbors have also been posting concerns on the same topic via A2Fixit.

I appreciate any help!  
Elizabeth

**To:** Elizabeth Nelson <[REDACTED]>

Hi Elizabeth .. Thanks again for well written and informative updates.

My question of the day – Do I use A2 Fixit or another site to report the following observed problems with the Scio Church construction traffic re-route to Greenview – Stadium. Feel free to pass on if you think that works better.

**Observed Problems**

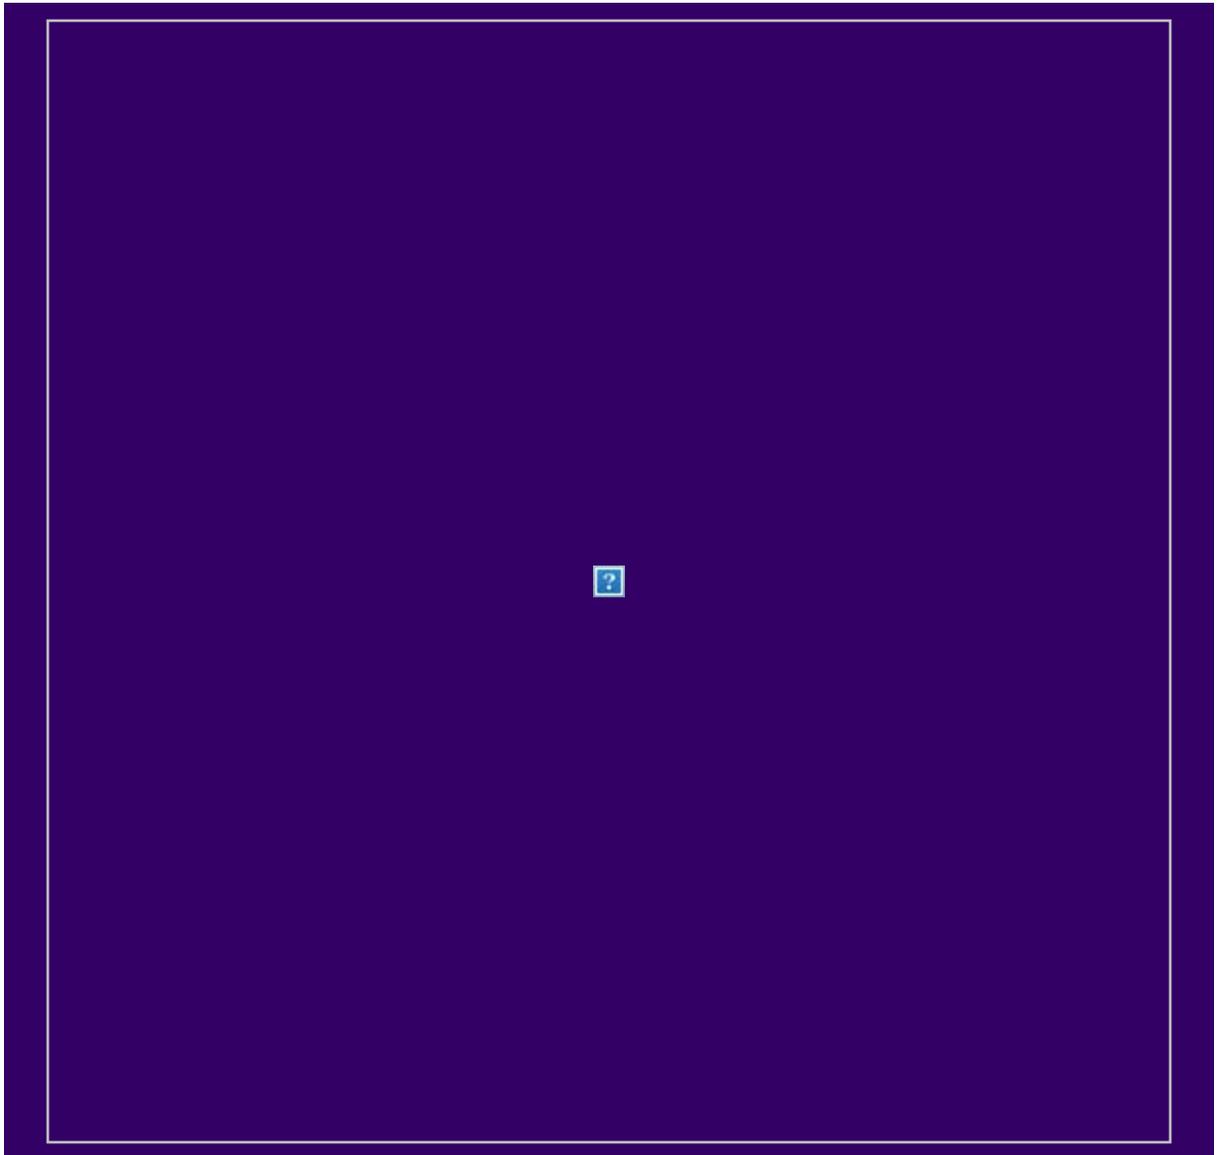

1. Long line of work commuter traffic backups along Greenview to Stadium during morning and evening rush hours blocking driveways. This makes it difficult for residents [many work commuters themselves] to enter/exit driveways. Although I am retired, I have to park my car across the street to make sure I can arrive at appointments on time. **Possible solution** Temporary stop sign/ light on Stadium at Greenview to improve flow of re-routed traffic.
2. Drivers exceeding the Greenview Dr. speed limit which invites accidents while residents are trying to pull out of driveways or school kids crossing the street. **Possible solution** Regular police enforcement or a couple temporary speed bumps along Greenview.

Hope to see you riding your bike in the neighborhood now the spring is peeking out! Dianne

## **Hello neighbors!**

Although it's been two weeks since the last City Council meeting, due to the recent holiday weekend the next meeting will be held **Monday May 6th**. I will be holding my regular coffee hours NEXT Sunday May 5th.

Even though there isn't a Council agenda to review this week, there are a few upcoming events I'd like to make people aware of before I send out my usual newsletter next weekend.

---

## Road Construction Updates

It's the season for road construction, and I post regular updates on my website about projects that affect Ward 4 residents. My posts include links to the City's website, so that you can find more information and contact info.

### **Scio Church construction (including Scio/Seventh intersection)**

As I'm sure many of you have noticed, road construction on Scio Church Road between Seventh and Main resumed, closing the east-bound lane of Scio Church. Construction involves resurfacing Scio Church Road, and completing the sidewalk along the north side of Scio Church Road. This project also includes changes to the Seventh and Scio Church intersection, which was the subject of several public meetings held by City staff.

<https://www.a2inel.com/blog/scio-church-road-construction-begins-april-18th-including-scio-seventh-intersection>

### **Ann Arbor Saline Road lane closures**

A lane in each direction of Ann Arbor Saline Road is closed for local storm sewer, sidewalk and curb work.

<https://www.a2inel.com/blog/ann-arbor-saline-road-construction-begins-april-11>

### **Hoover Avenue, Greene Street, and Hill Street construction starts May 6th**

Road construction on Hoover Avenue, Greene Street, and Hill Street will start on May 6th, and is scheduled to complete in November. This is a big project - I've included a map of the affected area in my post, along with a copy of the letter sent by the City to local residents.

<https://www.a2inel.com/blog/hoover-greene-hill-construction-begins-may-6th>

---

## Public Meetings and Surveys

### Snyder Edgewood Flooding Public Meeting May 1st

There will be another public meeting from City staff to discuss upcoming plans to mitigate flooding that occurs in and around the Snyder and Edgewood intersection.

<https://www.a2inel.com/blog/may-1st-meeting-about-snyder-edgewood-stormwater-improvement-project>

**Wednesday, May 1, 2019 (7:00-9:00 PM)**

Pioneer High School (Cafeteria Annex)

[601 W Stadium Blvd](#)

### Online Survey for Ann Arbor Transportation Plan open until May 20th

The City of Ann Arbor has opened an online survey in preparation for updating the Comprehensive Transportation Plan. The survey will be open until May 20th.

<https://www.a2inel.com/blog/online-survey-for-ann-arbor-transportation-plan-open-until-may-20th>

The survey is available at:

<https://www.surveymonkey.com/r/A2MovingTogether>

---

## Boards and Commissions Applications

Membership on Ann Arbor Boards and Commissions is constantly changing as terms end and appointees step down. We need you! You can find openings at the following link (or contact me directly)

<https://a2gov.granicus.com/boards/w/fe6c5e22e6f4a331/vacancies>

## **Ann Arbor Center of the City Task Force applications accepted until May 31st**

The Ann Arbor City Council is accepting applications for the new **Center of the City Task Force**, created to engage citizens in visioning, long-term planning, immediate and intermittent uses and building toward the final vision for the Center of the City on the Ann Arbor District Library Downtown Branch block.

<https://www.a2inel.com/blog/apply-to-serve-on-the-ann-arbor-center-of-the-city-task-force>

The application is available at:

<http://a2gov.granicus.com/boards/forms/460/apply>

---

## **A reminder about a few city resources:**

**A2 Fix It** This is an online system for alerting the city to problems in your neighborhood (e.g. potholes, graffiti, garbage pickup). This is the city's preferred method for hearing your complaint so they can direct appropriate staff to address it. I'm happy to hear from you, too, but city staff tell me that **the online A2FixIt system is actually the quickest and fastest way to get a response to the problem**. Information about A2FixIt (and explanation of more urgent issues and appropriate numbers to call) is here:

<https://www.a2gov.org/services/pages/report-a-problem.aspx>

**City News and Announcements** This is a helpful link to updates on events and opportunities in Ann Arbor through City Hall:

<https://www.a2gov.org/news/pages/default.aspx>

**City Department Updates** If you have specific interests related to the city's work, e.g. construction projects, deer management, recycling, you can subscribe to receive emailed updates on various topics found here:

<https://www.a2gov.org/services/Pages/E-mailAlertSubscription.aspx>

---

## Additional thoughts...

With time off from City Council, why not see a performance of **FAME The Musical** put on by the wonderful [Pioneer Theatre Guild](#)? I've been fortunate to see some behind-the-scenes preparations, and I can tell you the show will be amazing! We have been involved with PTG for a couple years, and it is a FANTASTIC organization for students, families, and our community.

### **FAME The Musical**

Presented by the Pioneer Theatre Guild

**Pioneer High School (Schreiber Auditorium)**

[601 W Stadium Blvd](#)

Saturday, April 27th @ 7:30pm

Sunday, April 28th @ 2:00pm

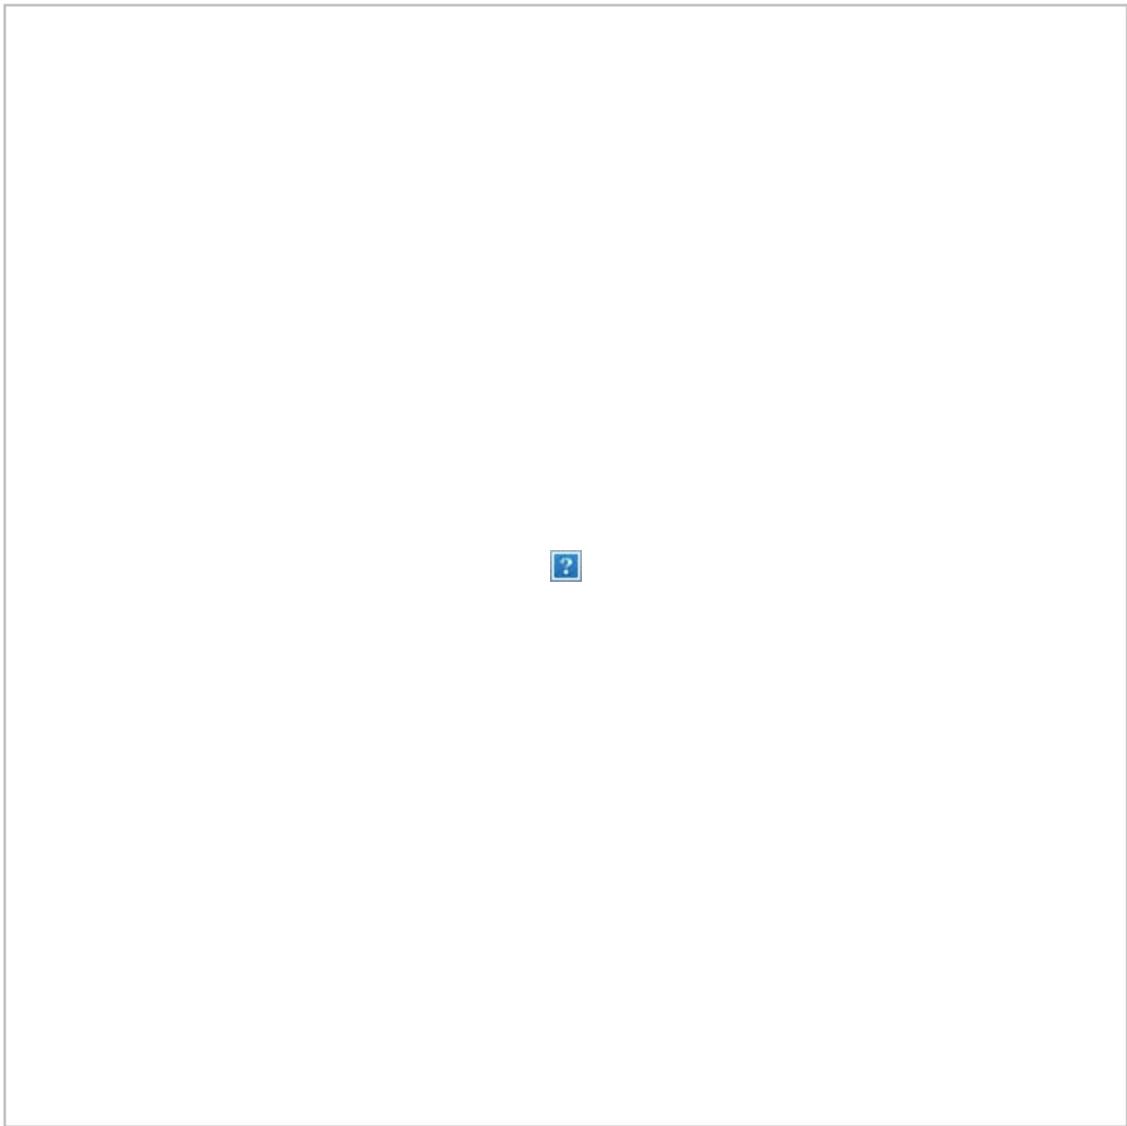

Friday, May 3rd @ 7:30pm

Saturday, May 4th @ 7:30pm

Sunday, May 5th @ 2:00pm

Tickets: \$15/Adults, \$10/Students & Seniors

<https://a2ptguild.org/showdates/#springmusical>

Thank you for helping me represent Ward 4!

Dear Derek Delacourt,

CM Hayner and I have received concerns from residents about a lack of public engagement, public input, and public notice for the ADU revisions.

This is the link to Resolution 19-0722: <http://a2gov.legistar.com/LegislationDetail.aspx?ID=3929110&GUID=93B03418-196C-479A-8CD4-8C40DF2F2E51&Options=ID%7CText%7C&Search=&FullText=1>

This is an email we received earlier today. Would it be possible to include it in the Council packet/record?

Dear Anne and Jeff -

I am strongly opposed to these changes that would allow building in setbacks. I am not against ADUs, but am against this "tweek." At the very least, there should be at least one, detailed public hearing about this change.

Brad

[Braxton Blake](#) [REDACTED]

Would it be possible to include public input and public notice for Resolution 19-0722, so as to avoid any problems at the First Reading at the May 6 Council meeting?

Thank you,  
Anne

**Subject:** Air Bnb

Dear Jeff,

In your spare time (lol) you might want to read this article. I read it yesterday. This Air BnB stuff is happening all over the world, and it displaces vast numbers of people, while hiking up the cost of housing for all. I hope we can get a grip on this in Ann Arbor. The Air BnB industry is destroying communities for profit. It is part of the vast disparity in wealth which is allowing small numbers of people to control local, state, and national economies, and, by extension, the housing stock. We have to put ordinances in place to save Ann Arbor from this.

Chris

---

Hi Katie,

Sorry for the delay. I was waiting for permission to send it from the author, Dan Bicknell.

I plan to meet with Mayor Taylor on Thursday afternoon to discuss this resolution, as well as other issues.

I anticipate edits to this draft and will send you future versions. The resolution will be on the May 6 council agenda. Depending on the outcome of the stakeholder meetings earlier in the day, I may move to postpone it to a later date. However, I am hopeful we will have the votes to approve it that night.

Kathy

Hello Dan,

May I share this resolution with Debbie Dingell's staff? Katie, who attends CARD meetings, and Debbie's Washington chief of staff were at a Medical costs town hall last night with Debbie.

Following a private discussion that Debbie initiated with me, both staff members requested a copy of the resolution. Debbie also mentioned that she is attempting to schedule a stakeholder meeting on May 6.

You are welcome to call me for more information.

Thanks,  
Kathy

Lady & Gents:

Per your request, I prepared the attached draft City Resolution supporting a Gelman USEPA Superfund Site for your review following the templates I generated for Scio Township and Ann Arbor Charter Township and incorporating some statements/facts from the City 2016 court filing to intervene in the court case.

I understand that we will keep this draft between us until the appropriate time.

Can you please review the draft document?

If you have any questions or comments, please call me at your convenience.

Thank you.

**CITY OF ANN ARBOR  
RESOLUTION SUPPORTING THE GELMAN SCIENCES, INC. SITE BE  
DESIGNATED AS A USEPA SUPERFUND SITE**

Resolution adopted at a regular meeting of the City of Ann Arbor City Council held on ---  
-----

PRESENT:

ABSENT:

Whereas, Thousands of residents of the City of Ann Arbor, Scio Township, Washtenaw County, and Ann Arbor Charter Township have been working for over 30 years for the protection of the surface and ground waters of the State from the continuing threat and actual contamination from 1,4-dioxane (dioxane) contamination originating at the PALL Life Sciences, Inc./Gelman Sciences, Inc. (Gelman) Wagner Road facility, and for effective remediation of waters already impacted by the contamination.

Whereas, The Gelman dioxane plume is four miles long and one mile wide and continuing to expand with no effective off-site hydraulic control;

Whereas, The Michigan Department of Environmental Quality (DEQ) has over the many years demonstrated a laissez-faire approach to remediation, lax enforcement, and dismissal of local government and community group input into the cleanup process;

Whereas, Prior litigation by both the State of Michigan and the City of Ann Arbor has not resulted in the remediation of the pollution. MCL 324.20014 requires (among other things) that one who is responsible for a "Releases" of hazardous substances must: (i) "...determine the nature and extent of the Release at the facility"; (ii) "Immediately stop or prevent an ongoing release at the source"; and (iii) "diligently pursue response activities necessary to achieve the cleanup criteria established in [Part 201]..." Despite the requirements of the current Consent Judgment in this case and decades of cleanup activity, those statutory mandates have not been met;

Whereas, The DEQ and Gelman Sciences, Inc. have entered into a 1992 Consent Judgment in the Circuit Court for Washtenaw County with the objectives for Gelman to: 1) "remove, treat and dispose of contaminated groundwater"; and 2) "contain the plume and extract the contaminated groundwater from the aquifers". These efforts have failed. Rather than demand obedience to the 1992 Consent Judgment, DEQ ultimately acquiesced to Gelman's requests for less stringent requirements, and in 2005 amended the Consent Judgment changing the nature of the remediation for complete removal and treatment to a dilution/dispersion strategy through the City. The DEQ has not been able to secure in court a Gelman Site remedy which is consistent with the Consent Judgment objectives or protective of public health and the State natural resources;

Whereas, The DEQ has fostered the establishment of Prohibition Zones to be used instead of active groundwater extraction and treatment, thereby, manifesting a “dilution is the solution” remedy which allows the dioxane plume to expand through the City residential neighborhoods and degrade the State groundwater resources;

Whereas, The DEQ has fostered in the Consent Judgment a groundwater clean-up at the Gelman Site which has allowed and will allow the dioxane plume to migrate into individual residential wells supplying drinking water for hundreds of people;

Whereas, The DEQ has not be able to obtain a Contingency Plan for The City of Ann Arbor drinking water supply should the dioxane plume reach Barton Pond, which supplies 85% of the City drinking water;

Whereas, In 2016 DEQ released the results of a shallow groundwater investigation which discovered dioxane in two test wells located in a City residential area. The static groundwater level in this area of the City is only five to six feet below ground surface, meaning that homeowners, construction workers, and others now risk dioxane exposure;

Whereas, In addition to discovery of dioxane in the shallow groundwater, the dioxane plume continues to spread through the City, despite Gelman’s obligation. Indeed, dozens of monitoring wells have recently recorded their highest ever levels of dioxane and the plume continues to spread;

Whereas, DEQ made the startling admission that, 30 years after the first discovery of the dioxane release, “the extent of the dioxane groundwater contamination...greater than 7.2 parts per billion is unknown”. Nevertheless, the DEQ found that contamination between 7.2 and 85 ppb “is expected to be present beneath many square miles of the City of Ann Arbor occupied by residential dwellings”;

Whereas, Gelman’s remedial efforts have failed to contain or control the dioxane plumes. Monitoring wells have detected “New Contamination” and unforeseen changes in the migration pathway of the known plume;

Whereas, The Consent Judgment, as currently amended, has not sufficiently protected the public or the City. Contamination has been allowed to spread for decades and, despite numerous judgments and promises by Gelman, has not been control, contained or delineated, let alone cleaned-up;

Whereas, The DEQ has not provided proper oversight of Gelman as required in the Consent Judgment nor enforced the Consent Judgment requirements in court against Gelman;

Whereas, In approximately 30 years of remediation efforts, Gelman has removed only an estimated approximately 110,000 pounds, or 13%, of the 850,000 pounds of dioxane it sprayed, dumped, and pumped into the environment. By any account, the Gelman clean-up must be deemed an abject failure;

Whereas, The City was granted Intervener status by the District court in 2017 and the status was upheld against Gelman's challenge in the Appellate and Supreme courts of Michigan in early 2018.

Whereas, Through early 2018 and 2019, the City worked with the other Interveners, Gelman, and DEQ to negotiate changes in the current Consent Judgment which would provide proper protection of public health and the environment. However, neither Gelman nor the DEQ provided good faith efforts to generate a Consent Judgment which would protect water supplies, homeowners, utility workers, and others from potential unacceptable risks to dioxane exposure;

Whereas, Gelman has established over the 30 years since the discovery of the dioxane pollution and expenditure of more than \$10,000,000 on attorney fees, that it is a recalcitrant and litigative polluter unwilling to take the appropriate actions to protect the local water supplies, the public health or the natural resources;

Whereas, The DEQ has stated that any modification to the Consent Judgment will need to contain the dilution/dispersion remedy now in-place to comply with State law.

Whereas, The United States Environmental Protection Agency (USEPA) Superfund Program has a proven track record of obtaining Potentially Responsible Party (PRP) Administrative Orders which protect the public health and the natural resources with the PRP conducting and paying for the remediation under USEPA oversight;

Whereas, The USEPA can issue a federal Administrative Order under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), commonly known as the Superfund Act, to Gelman with favorable USEPA terms and conditions for the proper remediation of the Gelman Site;

Whereas, The USEPA will require effective off-site groundwater remediation to contain and clean-up the dioxane plume to residential drinking water criterion regardless of whether the dioxane plume is in a Prohibition Zone or not;

Whereas, The USEPA will require a monitoring well network which will establish the full extent and magnitude of the dioxane plume;

Whereas, The USEPA will require that Gelman pay for residential well sampling and dioxane analysis at homes immediately down-gradient of the dioxane plume;

Whereas, The USEPA will require the use of state-of-the-art dioxane analytical methods and protocols;

Whereas, The USEPA has the technical, administrative and legal resources to provide high quality oversight of Gelman in the remediation of the Gelman Site with the backing of the US Department of Justice and USEPA Regional Counsel to enforce the Administrative Order;

Whereas, The USEPA offers Community Grants to support public input into the Superfund Site cleanup process; and

Whereas, The DEQ continuing delays and mismanagement of this vast Gelman Site dioxane groundwater contamination plume has caused significant adverse impacts to the community.

NOW, THEREFORE, IT IS RESOLVED, That the City of Ann Arbor City Council supports the Gelman Site being designated as a USEPA Superfund Site under the Comprehensive Environmental Response, Compensation, and Liability Act and that the USEPA be the lead agency;

RESOLVED, That the City of Ann Arbor City Council approves it's City Administrator to support the designation of the Gelman Site as a USEPA Superfund Site;

RESOLVED: That the City of Ann Arbor City Council approves of a City Letter to the Governor of the State of Michigan requesting that the Governor provide a Concurrence Letter to USEPA in support of having the Gelman Site designated as a USEPA Superfund Site consistent with the USEPA CERCLA National Priorities List designation process; and

RESOLVED, That a copy of this resolution be sent to the Washtenaw County delegation to the Michigan Legislature, the Governor of the State of Michigan, the Director of the Michigan Department of Environmental Quality and Congresswoman Debbie Dingell.

AYES:

NAYES:

**RESOLUTION DECLARED ADOPTED.**

---

Christopher Taylor, Mayor

I certify that the foregoing is a true and complete copy of a resolution adopted by The City of Ann Arbor, County of Washtenaw, State of Michigan, at a regular meeting held on ----- that said meeting was conducted and public notice of said meeting was given pursuant to and in full compliance with the Open Meetings Act, being Act 267, Public Acts of Michigan, 1976, and that the minutes of said meeting were kept and will be or have been made available as required by said Act.

## Why are you interested in serving on a board or commission?

Dear Mayor Taylor, I am submitting my application to rejoin the Ann Arbor Human Rights Commission after an absence of three to four years. I'm eager to work again with colleagues so committed to upholding human rights in Ann Arbor. Throughout my adult life, I have agreed with Eleanor Roosevelt that human rights begin at home. People look for dignified, fair and just treatment in their everyday experiences in the everyday places of the city: work, school, in public and in commercial spaces. It is up to committed people to ensure that there are processes in place to hear and work through individual and community concerns regarding social justice issues. Human rights advocacy has been the focus of my work for over two decades. I think it is a field that draws both upon my training and work as a lawyer and my philosophic studies. I hope that my work in organizing a partnership between county government and the community to establish the Washtenaw ID card, shows my collaborative rather than adversarial approach to problem solving. When asked at those mid-career workshops to develop a mission statement, I already have one - so I work on what I hope to achieve in life. I would like it to be said of me that I worked at unraveling historic and current policies that violate the civic and human rights of individuals and communities. I would be honored if you were to give me the opportunity to do this work as a member of the Human Rights Commission. Thank you, Keta Cowan

Question applies to multiple boards

### Are you seeking reappointment as a current member of a board, commission, or committee? \*

None Selected

### Which Boards would you like to apply for?

Design Review Board: Submitted  
 Park Advisory Commission: Submitted

## Interests & Experiences

Question applies to Design Review Board

### If you meet any of the special qualifications for the Design Review Board below, please select the appropriate box(es).

- I am a lanscape architect
- I am an urban planner

Question applies to multiple boards

### Why are you interested in serving on a board or commission?

---

I am interested in using my talents and skills as a planner, designer, community builder and writer to work effectively to make Ann Arbor an even better place to live and work. I am committed to serving the city in a board capacity because I have seen very positive results from both the Design Review Board and the Parks Advisory Commission in the past. I know that I will work as a positive team member on either of these boards and help the public examine projects from as many different perspectives as possible in order to create the best built environment possible in the city.

## **Apply to Serve on the Ann Arbor Center of the City Task Force**

ANN ARBOR, Michigan, April 23, 2019 — The Ann Arbor City Council is accepting applications for the Center of the City Task Force, created to engage citizens in visioning, long-term planning, immediate and intermittent uses and building toward the final vision for the Center of the City on the Ann Arbor District Library Downtown Branch block.

As defined by a resident-initiated City Charter amendment adopted by voters during the Nov. 6, 2018, election, the Center of the City is the city-owned public land bounded by Fifth Avenue, William, Division and Liberty Streets. This section of downtown, the library block, is home to a variety of stakeholders: residential property owners/tenants; small businesses; large businesses and organizations; city-owned properties; and two downtown historic districts.

In order to provide recommendations in collaboration with these numerous stakeholders, the Center of the City Task Force will facilitate a process that will encourage public participation, resulting in a written recommendation to City Council.

The Ann Arbor City Council is accepting applications for the Center of the City Task Force until

5 p.m. on Friday, May 31, 2019. Councilmembers Grand and Hayner will review applications and will present Center of the City Task Force member nominations at the June 17, 2019, City Council meeting with appointments to be finalized at the July 1, 2019, City Council meeting.

To apply, please visit: <http://a2gov.granicus.com/boards/forms/460/apply>

**Date:** Tuesday, April 23, 2019 2:30:20 PM

---

Thanks, Jennifer. If there are any advocacy groups that council routinely receives feedback from, it would be the aff. hsg. and climate action folks – both at council mtgs. (and Amanda Carlisle is very effective at bringing out advocates to speak to all sorts of hsg. related issues whether it's a project like Lockwood, a relatively minor special exception use application like the Jesuits' proposal a few yrs. back (at the time, hsg. advocates were wearing "I heart the Jesuits" stickers), the Library Lot proposal (similarly w/"I heart CORE" stickers), and through email and other social media communications. I know these individuals and organizations are passionate and that's fine and understandable and will also just share that from my perspective, I think with the 40/40/20 proposal the degree of advocacy that we're seeing today is unprecedented. Not criticizing, this is what effective advocacy groups appropriately do and do well, just sharing an observation.

I'm also sharing this observation because earlier today I had a bit of a re-grounding/helpful reminder that there are other voices we rarely do hear from, which is not to say that folks are not equally passionate about other city programs/services/needs – they are. So, my re-grounding? Kathy Griswold and I attended a mtg. at Glacier Hills this a.m. and after the mtg. we received this input from a resident. A lady trailing her walker and headed to the elevator called out to us and asked, "Are you from the City?" We nodded and said, "yes". She then said in a loud voice, "well, we don't like you at all and you're not very popular around here. You're proposing to do something else w/Earhart, and we want our roads fixed." Yes, so there we were, getting appropriately chastised for not fixing the roads. Another priority that, outside of first-hand exchanges like this and the city resident survey, receive less than the requisite council attention.

Just sharing another perspective from Lake Wobegon.

Thanks again, Jane

**Subject:** Conversation about Affordable Housing and Sustainability May 6th

Dear Members of Council -

I wanted to let you know that Washtenaw Housing Alliance and the Ann Arbor Climate Partnership will be hosting a community reception and conversation on May 6th from 6pm – 7pm in the City Hall first floor lobby. This event is intended to bring together members of the public who are interested

in discussing affordable housing and climate action. The purpose of this event is three fold:

1. Provide an opportunity members of the community to share their thoughts on housing affordability and sustainability;
2. Provide an opportunity for the affordable housing and climate communities to come together and start a conversation around what a sustainable Ann Arbor looks like, with a focus on affordability; and
3. Provide space to network with our elected officials and thank them for their continued support for affordable housing and sustainability/climate action.

I hope to see you all there.

**Disclosure of Potential Conflict of Interest**

**Please list any potential conflicts of interest, including the name of each organization with a description of your affiliation. If you have no potential conflicts of interest, please simply state "none."**

none

---

**Demographics**

We are proud of our commitment to equal opportunity. We do not discriminate on the basis of a person's actual or perceived race, color, national origin, gender, or age, in any aspect of our appointment process. Application demographic statistics let the City of Ann Arbor know what shortcomings might exist in efforts to engage the community and recruit residents to participate in government.

**Ethnicity**

Caucasian/Non-Hispanic

**Gender**

Female

I am an award-winning cable TV host and producer (Westchester, NY, 1980's), and now I host "Ward Talk" at CTN (4 1/2 years). My mission as an educator has always been to elicit and share information on important topics so that citizens can form well-founded opinions. When I moved to Ann Arbor in 2010, I took production workshops in the studio, hoping to create my own programs. Circumstances required me to move to Pittsfield Township.

I previously attended an annual conference with CTN staff at the Central States Regional Conference in order to learn more about the role of community cable and how I can support their efforts. This broadened my perspective and appreciation of the many fields of interest that can be shared in the community through TV and on-demand availability.

I support the city of Ann Arbor by paying school and library taxes and by supporting the local businesses. I love the city of Ann Arbor! Having lived in the Boston area and White Plains, NY, I have sought and enjoyed the benefits of living in a community that is rich in education, culture, sports, and citizen engagement for people of all ages.

My volunteer community service includes serving as a Board Director for Woodside Meadows Condominium Association and assisting the Kerrytown Concert House in marketing, office work, and event hosting.

It would be my privilege to serve on the Cable Commission. Thank you for your consideration.

Christopher,

Sorry to weigh-in again on this. Have subsequently learned and been made aware that Scott Trudeau is part of a Transportation Comm. sub-group that wants to revisit the council policy which requires council approval of lane conversion recommendations. That's a wow for me. Doesn't sound like a citizen rep. who understands / respects council policy-setting authority vis a vis a board's "authority", and, therefore a concern. Given this, am reluctant to reappoint Mr. Trudeau.

Christopher, Thank you for providing this list of your proposed reappointments in advance!

Couple of Q's –

- David Santacroce's reappt. to PAC. Sure he's done a good job, but thought it was the plan to not reappoint David to PAC since he was appointed to serve on the ICPOC.
- Scott Trudeau's reappt. to Planning and the Transportation Comm. Have a concern about appointing folks to multiple ctes., particularly high level, popular/in demand ctes. Would prefer to limit folks to a cte. and give others opptys. to serve.
- Julie Weatherbee's reappt. to Planning and the ZBA. Same concern as above. So, a clarifying Q – is Julie's appt. to ZBA as the CPC rep.? If not, my concern is the same as for Trudeau.

Thanks again, Jane

Dear Councilmember Bannister:

Ms. Wilkerson's access to the City's IT system was suspended immediately upon the commencement of her leave of absence. Her badge access was also suspended. These restrictions were put in place over the weekend, so

your concerns about escorting someone out of the building were not applicable. The City property she has in her possession will be returned as appropriate. Kindly remember that in contrast to a private enterprise, City Hall is a public building so that access to public areas cannot and should not be unreasonably restricted.

I have had the responsibility in both public and private sectors to terminate the employment of individuals. In the vast majority of cases, there is no compelling need to make individuals suffer through the embarrassment and emotional trauma of a supervised escort out of a building. Ms. Wilkerson has provided many years of valuable service to the City, and continues to provide assistance as we transition her responsibilities. Regardless of the reasons for her resignation, she has earned the dignity of a respectful departure.

**Date:** Tuesday, April 23, 2019 5:49:22 AM

---

Thank you for the FYI. Apparently, some folks were made aware of her leave, via a Robyn text message, on Sat. -- the day after the Friday mtg. I requested w/Howard and Stephen. Good to know and appropriate that her IT access was suspended immediately.

Appreciate your asking about this interim time -- Howard's initial message re: that was unclear. -Jane

Dear Councilmember Bannister:

Ms. Wilkerson's access to the City's IT system was suspended immediately upon the commencement of her leave of absence. Her badge access was also suspended. These restrictions were put in place over the weekend, so your concerns about escorting someone out of the building were not applicable. The City property she has in her possession will be returned as appropriate. Kindly remember that in contrast to a private enterprise, City Hall is a public building so that access to public areas cannot and should not be unreasonably restricted.

I have had the responsibility in both public and private sectors to terminate the employment of individuals. In the vast majority of cases, there is no compelling need to make individuals suffer through the embarrassment and emotional trauma of a supervised escort out of a building. Ms. Wilkerson has provided many years of valuable service to the City, and continues to provide assistance as we transition her responsibilities. Regardless of the reasons for her resignation, she has

earned the dignity of a respectful departure.

Dear Mr. Lazarus,

Would it be prudent to restrict Ms. Wilkerson's access to the City's email and server? Throughout my career, when a person resigns under duress, they have been escorted out of the building, with a quickness, and all computers, phones, ID badges, etc. are retained by the employer. Perhaps IT could set up a special interim transitional email address for her?

Thanks,  
Anne

**Date:** Monday, April 22, 2019 9:31:44 PM

---

Ali, Obviously you can do whatever you want w/water rates. For me, this has probably been the most frustrating thing I have worked on -- I have been fighting Craig Hupy and co. on this for more than a year, have spent, literally, hundreds of hours studying and asking Q's about the rate structure and the consultant proposals, and put my best foot forward and it was torpedoed by you. Hence my palpable frustration, and why I am not going to continue to bang my head against the wall when it comes to fixing the rate structure so it's equitable.

Re: the UM properties, they're all over the place, but the data shows that their usage peaks seasonally. Again, just review the data.

Comm'l. rates should be tiered like residential, and as they were previously. But, b/c staff said it would too difficult to administer, the seasonal approach was preferred.

Mr. Lazarus,

The neighbors of the problem house at 1209 Hutchins asked me to request a follow up meeting. As you likely recall, we met with the neighbors last year. The neighbors were very impressed with your commitment to help them deal with the significant problems they have endured at 1209 Hutchins. After that meeting, the main trouble maker was incarcerated. The concerns diminished significantly

following that incarceration.

More recently, that individual has been released and has returned to the house at 1209 Hutchins. The neighbors would like to meet with you and staff, including a representative of the police department and City Attorney's office and Council Member Nelson to receive an update on the status of the house and what the City plans to do. We believe that recent activity at the house indicates the problems will resume and persist unless addressed.

Thank you for your attention to this matter.

Best wishes,  
Jack

Christopher, Thank you for providing this list of your proposed reappointments in advance!

Couple of Q's –

- David Santacroce's reappt. to PAC. Sure he's done a good job, but thought it was the plan to not reappoint David to PAC since he was appointed to serve on the ICPOC.
- Scott Trudeau's reappt. to Planning and the Transportation Comm. Have a concern about appointing folks to multiple ctes., particularly high level, popular/in demand ctes. Would prefer to limit folks to a cte. and give others optys. to serve.
- Julie Weatherbee's reappt. to Planning and the ZBA. Same concern as above. So, a clarifying Q – is Julie's appt. to ZBA as the CPC rep.? If not, my concern is the same as for Trudeau.

Thanks again, Jane

Mr. Lazarus and Jack,

Thanks as well for your clarification, Mr. Lazarus, and thank you, Jack, for your follow-up communication. I am hopeful, as well, that City staff understand that during this period her role is limited and she will not be resuming any work responsibilities within City Hall and the broader city organization.

I will also just share that, similar to private practice, in public organizations, when ee's resign/are terminated, the "drill", if you will, is to walk the ee off the work premises and sever the ee's IT access.

Since this impt. step has been taken, I am hopeful that the next steps in the process – viz., the culture assessment – will be undertaken to assist in analyzing the HR operation from our employees' critical perspective.

Thank you both, Jane

**Subject:** Re: Resignation of Robyn Willkerson

Mr. Lazarus,

I was disappointed to learn that Robyn Wilkerson's resignation will not become effective until May 1. It is my hope that Ms. Wilkerson will not be allowed into City Hall in any official capacity. Given the serious nature of her conduct and the widespread knowledge within the building of that conduct, I think it sends a poor message to other employees that she is permitted to have any active role in the organization.

In the private sector, it is considered best practice to escort an employee who has engaged in this kind of conduct out of the building immediately and bar that employee's return. This week, I spoke with a long-time employee who told me it would be impossible for someone who works in the building to not know about her conduct. To welcome her back in any capacity sends the wrong message to the many who are aware of the work culture that surrounded her behavior.

I hope you will reconsider this decision.

Thank you,  
Jack

**Subject:** Re: Blooms Day plan

Hello Howard.

Thank you for your letter and your notice of my disappointment. I thought giving some extra bloom to the Bloomsday and having it include the Library Lot was a good idea. It wasn't my idea and I had nothing to do with the lead timing. Sally proposed it. Will and I agreed to help facilitate --Blooms Day being new to me --and then it got un-proposed. Too bad in my view. We could have made the Library Lot/ Liberty Plaza and the whole commons bloom as a blooming Center of the City, radiating flowers in every direction, celebrating the commons.

As for my anticipated schedule of events for the year... Except for Earth Day and Peace Day I don't plan that far ahead. I've been involved in doing those each year since 2014...This year is the 6th annual. I'm sure some one or ones will continue, if I defer the opportunity in some year to come.

In general, the long lead "60 working day" application requirement should be voided, as unnecessary and unenforced.

Our application for "President's Day" -- What would you do if you were in the Presidency?" soap box -- was 9 day ahead of the actual President's Day Holiday. and there was no problem of approval. Given the very cold weather, we decided to move inside and cancelled the Library Lot event, one day ahead of time, also with no problem. It was an idea thought of in the context of the time...not planned long ahead. Such events should be easily possible if they

don't involve any complicated arrangements.

The basic Earth Day/Peace Day format-- no street closures, no fire, no alcohol, no police need, leave no trace clean-up, close public parking entrance -- should be easily available to any group that envisions a public event and gathering that could make use of the space.

The insurance is a separate question.

We have always provided insurance for our past 10 events,  
(and also a damage deposit, that was never needed.)

I think standard activities should be covered by some standard insurance policy, such as the City carries for its sidewalks and parks and non-park public land.

Having music and a sound stage, a free speech microphone soap box, a place for kids to play, a peace table, a chess board, a "tiny house" to show new ways of living, food, art display . are all ordinary standard things that could and should be able to take place without some special insurance.

This topic needs more discussion, The past practice is un-necessarily onerous to individual ad hoc events and voluntary associations.

I am astounded by the \$60,000 cost of Library Lot maintenance, \$164. dollars a day/365. I wonder what is the actual analysis of that cost, especially if that is the overhead we should actually assume.

Our practice follows the "leave no trace" 100% recycling principle, so none of that clean up cost is attributable to the public uses of which I know. About landscaping and gardening, I'm sure the public we of the commons would be eager to take it on. I believe a gardening working group is ready to assemble.

In terms of a "business plan at our earliest opportunity," there are really two plans:

1. Operations from now until February 28, 2020 when the Taskforce reports, and
2. Long term operating proposal for the Taskforce to consider, for the "Conservancy" to be designated to oversee long term design, fundraising and daily operations. maintenance, programing, etc.

The second question has been long hovering in our agenda, whether the Library Green Conservancy should adapt itself to become a potential operating organization that could receive designation by the Taskforce for site management and development, or whether, on going, we have a different function and a new operating organization is needed. About this we will keep you informed of our discussions.

As for the first, the revenue gathered from Parking since the November Election should be in a "Commons Development Funds" (such as I suggested in the proposed "Activation" Resolution which I sent you), less whatever the costs of collection, maintenance etc... These funds could be used to hire a part time "site manager" as I suggested in the Resolution proposal, or a full time eyes-on-the-park "Ambassador" as I suggested in the Taskforce

discussion, .

I expect our latitude of action is fairly circumscribed until the Taskforce reports...we must live within existing curbs and concrete, no jackhammer brigade and deep plantings. We've been talking about the "Play Everywhere" grant possibility and creating play place, beginning in June. The coming Winter could renew proposals for a Skating Rink. We had submitted a detailed two year business plan for that endeavor in 2013 and 2014, with 50/50 private/public financing, but the DDA Partnership Committee then did not want to consider it. Hopefully they might be more willing now, if there were again a group ready to undertake the voluntary work, for next winter.

if Republic Parking abandons its current responsibility for surface planting and sweeping, if and when cars are not parked there, then it would be the DDA responsibility, until the Taskforce report. The proposed Ambassador, site manager (funded by DDA) would be the Cleaner-upper and Gardner on the spot channeling voluntary contributions where needed in some democratic framework facilitated by the Conservancy.

I hope you will read the original Ann Arbor Community Commons Proposal Response to RFP 743, and the Proposed BIO Ann Arbor, Best Interest Of Ann Arbor draft Resolution and Ordinance of Implementation. 2009 and 2015. These give the perspective I have represented about inclusive democratic participation in the development of the commons.

In my view, unless the City Council determines in a public way to activate the space and to let people know about the opportunity, and unless DDA is encouraged to see the community development of the Center of the City as now part of their mission, and not an unwelcome imposition upon the "never a park" old thinking, my experience suggests that not much new is likely to happen until the Taskforce Report is done. .

Earth Day Week Openings are coming up and likely Peace Day in the Fall and the existing practice is likely good enough for whatever else might come up.

I hope you will include notice of the Downtown Earth Day Week Openings in your public notices. Let me know if you have any questions.

...and I do hope you and Carol will come by sometime on Easter afternoon or Earth Day and be part of the experience,

with best wishes

Alan

On Wed, Apr 10, 2019 at 10:05 AM Lazarus, Howard <[HLazarus@a2gov.org](mailto:HLazarus@a2gov.org)> wrote:

Dear Mr. Haber:

Thank you for copying me on your email concerning the Blooms Day Plan. I understand your disappointment, but I also find it necessary to ask for your assistance in providing better planning and advance notice for events you wish to hold on the Library Lot site. While DDA has been flexible and generous in granting waivers for the associated costs, it is still the burden of the user to provide for insurance and other costs. It is not reasonable to expect the City to be able to accommodate requests late in the planning process, nor should you consider our request for advance notices to be unsupportive. The overall process would be greatly enhanced if you could provide your anticipated schedule of events for the coming year.

The DDA's estimated cost for lighting, landscaping, and litter runs approximately \$60,000 per year, and these costs are paid out of parking revenues. As the conversion of the surface use from a parking lot to a community space proceeds, the Library Green Conservancy must assume the burden for all or a significant portion of costs of its operations and maintenance. I look forward to seeing your approach laid out in a business plan at your earliest opportunity.

**Subject:** Re: Blooms Day plan

I'm disappointed by this decision...The original idea seemed easy to accomplish and beneficial to all,

and already drawing additional interest. All that was necessary was to change the location information on the city web site, and contact the Republic Parking gardening crew for their participation, should they wish.

I don't see how "in light of Alan's proposal" ...for guidelines on the general activation of the space...should have any bearing on the good idea of this one particular activation, nor what "outstanding questions" are especially problematic. With a month plus of planning time I'm sure activation of Liberty Plaza could have been maintained well...as part of the inclusive "commons."

Oh well. I wish I understood the whys and therefores.

Alan

Susan and Howard,

A quick update: I spoke with Will Hathaway earlier this afternoon and we both agreed, in light of Alan's proposed resolution communicated this morning that we should wait on trying to do anything different this year with the already-planned Bloomsday event on May 18th. While the idea was well-intentioned, there are just too many outstanding questions and not enough time to pull together a well-coordinated event. Please feel free to call me if you would like to discuss further.

Many thanks,

Sally

**Subject:** RE: Blooms Day plan

Hi Will,

I had the opportunity to discuss your plan with both Howard Lazarus and Susan Pollay over the weekend. I was able to answer some of your questions and learned about a few concerns; none of which seem unsurmountable to me but need to be communicated. Herewith a recap:

1. Except for Sonic Lunch, the Bloomsday Event is the only annual programmed event at Liberty Square and the DDA does not want to lose this opportunity to activate the site.
2. That said, Susan has agreed to allow for programming on the library surface lot for Bloomsday-related activity as long as Library Lane remains open for AADL pick-ups and drop-offs.
3. Republic Parking holds the contract for landscaping at all parking lots, including the library surface lot, so Susan does not anticipate there needs to be sprucing up of the existing landscaping outside of the Republic contract.
4. While the DDA funds the Bloomsday event itself, the Parks Department and GIVE 365 handle all logistics.

Given the above, could you provide more details on what specific activities you would like to organize on the library lot for a Bloomsday-related event? I can then help coordinate logistics with Colin Smith in the Parks Department.

Thanks,

Sally

Sally and Howard,

It was good to talk with you last week. Alan and I have given further thought to Sally's idea for relocating the Blooms Day event to the Library Lane area. We are pleased to share with you the attached memo describing the plan we suggest for this relocation. We look forward to working with you to refine and implement the plan.

- Will

April 4, 2019

To: Howard Lazarus, Sally Petersen

From: Will Hathaway, Alan Haber

**Re: Blooms Day at Center of the City, Saturday, May 18, 2019**

On 1/24/19 Sally first suggested the idea of relocating the annual *Blooms Day* event to the surface of the Library Lane structure. We met with Sally on 2/27/19 and then with both Howard and Sally on 3/27/19. During these meetings we had the opportunity to talk further about the idea. Based on those discussions, we are providing the following plan in response to Sally's proposal.

The *Blooms Day* page on the City's website describes the Saturday, May 18 event. Here is the link:

<https://www.a2gov.org/departments/Parks-Recreation/GIVE365/Pages/A2DowntownBloomsDay.aspx>

The event is scheduled from 9:00am to 11:00am and consists of spring cleanup and gardening at various downtown locations followed by a pizza lunch. Liberty Plaza has been announced as the central location. Volunteers are given free parking in Library Lane structure during the event. It seems doable to move the location, but we need to change the website and other marketing. Here is our plan:

### **1. Consultation with Partners**

First we should talk with the three *Blooms Day* partner organizations: the **Downtown Development Authority**, the **State Street Association**, and **GIVE 365**. Are there other partners? Do we need to recruit more partners? The existing partners will anticipate the issues raised by the relocation. For example, will we need more tables and chairs because of the lack of benches at the Library Lane site?

## 2. Focus on Library Lane Area

We propose additional efforts to transform the Library Lane area. There are two target areas: a) street level of the Library Lane structure and street and b) adjoining properties.

a) What are the DDA's current plans for beautifying the Library Lane site and what more can be done? There are multiple beds and as many as seven, large planters on the Library Lane site. What does the DDA's contract for grounds maintenance include? How can the current plan for Library Lane landscaping be enhanced? What improvements could occur as part of *Blooms Day*? For example, hanging planters suspended from light poles? The planters look as if they could benefit from fresh paint. How else might the physical space be "dressed up?"

b) Neighbors can play a role in beautifying the area. We propose a special outreach to the adjacent properties (e.g. First Martin, UM Credit Union, AADL, Earthen Jar, Chela's, Jerusalem Garden... all these neighbors will be approached and invited to participate by fixing up their grounds, particularly the area facing toward the Library Lane site. We are ready to assist with this outreach to neighbors as appropriate. Question: what if anything can we offer to encourage neighbor participation?

## 3. Volunteer Recruitment

The Library Green Conservancy and the Ann Arbor Committee for the Commons will make a concerted effort to recruit *Blooms Day* volunteers from among our members. The opportunity to help beautify the Library Lot will be motivational! Below is a message that GIVE 365 is currently circulating to recruit volunteers:

### **[A2 Blooms, Saturday, May 18, 9-11a.m.](#)**

Join us for the 30th annual Ann Arbor Downtown Blooms Day. In partnership with the Downtown Development Authority and State Street Association, we will be planting flowers and beautifying downtown parks and flower beds. To sign up, contact us at [volunteer@a2gov.org](mailto:volunteer@a2gov.org) or 734.794.6445.

Dear Mr. Lazarus,

Would it be prudent to restrict Ms. Wilkerson's access to the City's email and server? Throughout my career, when a person resigns under duress, they have been escorted out of the building, with a quickness, and all computers, phones, ID badges, etc. are retained by the employer. Perhaps IT could set up a special interim transitional email address for her?

Thanks,  
Anne

---

**From:** Eaton, Jack  
**Sent:** Friday, April 19, 2019 3:14 PM  
**To:** Taylor, Christopher (Mayor)  
**Cc:** Postema, Stephen; Griswold, Kathy; Nelson, Elizabeth  
**Subject:** ethics complaint

Mayor Taylor,

I have copied the City Attorney to make him aware of this complaint. I have copied Council Members Griswold and Nelson because they were involved in the original email from me to the City Attorney which is the subject of this complaint. I have not copied Council Member Ackerman because the procedure in Rule 12 gives the Chair the responsibility of informing the affected Council Member.

Council Ethics Rule 12 provides a method for seeking counseling of a Council member who has engaged in conduct “that are considered a violation of a law, Council Ethics Rules, or Council Administrative Rules, but considered by the Council to be not sufficiently serious to require reprimand.” By this email, I am asking you, in your capacity as Chair of the Administrative Committee, to review the conduct described below to determine whether Council Member Zachary Ackerman has violated Council Ethics Rules and/or state statute governing the conduct of elected officials.

On March 30, I sent an email to City Attorney Postema seeking his legal advice regarding the applicability of the Michigan statute governing removal of local elected officials, MCL 168.327. That statute requires the Governor to “remove all city officers chosen by the electors of a city or any ward or voting district of a city, when the governor is satisfied from sufficient evidence submitted to the governor that the officer has been guilty of ... habitual drunkenness, or has been convicted of being drunk ...”. As a courtesy, I copied Council Member Ackerman. The email to Mr. Postema was in my capacity as a City Council Member seeking his advice in his capacity as City Attorney. I believe that the content of that email is subject to the attorney-client privilege. That privilege belongs to the entire Council and cannot be waived unless done so by a majority vote of the whole Council.

Mr. Postema responded to my inquiry, but the content of that email is privileged and I will not disclose it here. Subsequent to Attorney Postma's reply to me, he sent another email to the entire Council on the issues raised in my inquiry. I will not discuss that email, but you were a recipient and can review it yourself.

The Council Rules include a rule prohibiting disclosure of confidential information.

#### COUNCIL ETHICS RULE 6 -- IMPROPER USE OF OFFICIAL POSITION – DISCLOSURE OF CONFIDENTIAL INFORMATION

A Councilmember shall not divulge to an unauthorized person, confidential information acquired by virtue of his or her position as a Councilmember until a time that that information becomes public information. Furthermore, a Councilmember may not use confidential information, obtained by virtue of his or her position, for his or her own benefit or for the benefit of any other person or entity. Confidential information is information acquired by a Councilmember in the course of holding public office that is not available to members of the public and which the Councilmember is prohibited to disclose by statute or fiduciary duty or other common law duty.

#### Examples

A Councilmember shall not disclose, for example, the following:

d) Information or records subject to the attorney-client privilege as set forth in MCL 15.243 (1)(g).

At the April 1 City Council meeting, Council Member Ackerman made a seven-minute statement regarding his arrest, plea deal, absences from Council business and the content of my email communication with the City Attorney. As a member of Council, Mr. Ackerman is not allowed to disclose privileged communication without seeking waiver by the full Council.

I believe Council Member Ackerman's disclosure of attorney-client communication at the April 1 Council meeting violated Ethics Rule 6 and I ask that you initiate the Rule 12 procedure to make a determination on that subject. To my knowledge, this would be the first time Council Member Ackerman has violated this rule and I ask only that he be counseled according to the Rules.

Thank you,  
Jack

**Subject:** High-Pitched Buzz in Neighborhood  
**Date:** Friday, April 19, 2019 11:20:24 AM

---

Hi Howard,

I am hoping you can point me in the right direction. I met with a constituent this morning who reports a high-pitched electric or mechanical buzz in her neighborhood. She has verified via Nextdoor that others can hear the same. She lives on Anderson near Pattengill School, but residents as far as Georgetown have heard it (hence the copy to Ward 4 colleagues). Apparently, the buzz has been continuous for about eight weeks. I went to her house (and live in the neighborhood), but could not hear it myself. I asked her to follow up with neighbors to identify the precise time it began and the geographic extent.

Our first thought was a DTE/utility issue. Based on some preliminary research, it seems possible the buzz could be caused by 60 Hz line frequency.

This is a first for me, so I was not sure where to begin. But, for those effected, it is a serious quality of life issue.

Please advise.

Best,  
Zach

**Date:** Friday, April 19, 2019 8:22:50 AM

---

Dear Mr Lazarus — I may need your help today, making sure the portable toilet stays on the Center of the City through Blooms Day and beyond. Ultimately a compostable toilet would be good, for the climate education message it conveys. Would you agree?

Thanks for your help and we hope you and Mrs Lazarus will join us! — Anne

**To:** Hahlbrock, Jada  
**Cc:** Pollay, Susan  
**Subject:** Re: Earth Day 2019

Jada, How can it be?

It seems the best idea to let there be an accessible public toilet accessible on the public space.

Our Earth Day Week Event considers to get an accessible public toilet for 2 days, however the standard contract allows us have it for a month, indeed, until Bloomsday in May, when again a public event should have a public toilet, though, like us, the people then can use Public Library, when it is open, and the public Bus Station, when it is open.

Better there be a public toilet, even when there isn't an event. Better not to impose the Ann Arbor public on the other jurisdictions, the AADL and AAATA, to pay for public pooping, so to speak, beyond their missions, so to speak..

The public space, owned by the City of Ann Arbor, identified as the Center of the City, should have a Public Toilet. Earth Day Week is willing to provide it for a month.

Please. Accept the offer, See how it works . Put a camera on the area, if worried. The little alley area it would be in is a good enough place. Get some experience and information about a public toilet. It is part of the future.

The future I imagine for public toilet is a "composting toilet," producing "humane" as a salable commercial product..producing a positive revenue stream and also teaching about the cycles of life, etc. ...(part of unpacking the parking lot to put up paradise). In the short run we have to start from where we are, and think better. Where we are is accessible porto-potty in the alley.  
..offered for a month, Be glad...through Bloomsday, Saturday, March 18..

So please reconsider. I am eager for a better message..

And if in fact the public toilet were to become a problem, rather than something new to be resisted, because it might become a problem, then it could then be removed, picked up by the company, before the contract is out.

But if it were no problem then it could just be there, and be good for some people who might need of a public toilet in the Center of the City.

And after a month, you can consider whether it was a positive service, and whether to continue providing an accessible public toilet , on your own dime, so to speak.

Alan, for the Earth Day Week openings

**Subject:** Earth Day 2019

Mr. Haber,

Happy spring. Our office will be open until 5 pm this afternoon. Please feel free to drop off the deposit check at any time today.

Republic Parking staff will close and barricade the Library Lane surface lot Saturday evening so the lot is clear for your use on Sunday morning. They will also bag the 3 requested meters on Library Lane. If you need to reach Republic Parking this weekend please call 734-761-3582 or 734-761-7235.

Please note the event will only be permitted to take place within the Library Lane surface parking lot. Areas within the Library Lane structure are strictly off limits for anything other than vehicle parking, and must not be used by event organizers or participants for event activities or staging, equipment storage, or overflow.

Your request for the lot is for Sunday and Monday. Event equipment and paraphernalia of any kind may not be left on site overnight. The DDA will not be responsible for safeguarding or

securing this equipment. Republic Parking will need all items removed so they can open the lot on Tuesday morning.

Thank you and best wishes for a great event. Looks like the weather will be beautiful.

**Subject:** Re: 1209 Hutchins

Mr. Lazarus,

The neighbors of the problem house at 1209 Hutchins asked me to request a follow up meeting. As you likely recall, we met with the neighbors last year. The neighbors were very impressed with your commitment to help them deal with the significant problems they have endured at 1209 Hutchins. After that meeting, the main trouble maker was incarcerated. The concerns diminished significantly following that incarceration.

More recently, that individual has been released and has returned to the house at 1209 Hutchins. The neighbors would like to meet with you and staff, including a representative of the police department and City Attorney's office and Council Member Nelson to receive an update on the status of the house and what the City plans to do. We believe that recent activity at the house indicates the problems will resume and persist unless addressed.

Thank you for your attention to this matter.

Best wishes,  
Jack

**Date:** Tuesday, April 16, 2019 11:13:15 AM

---

I am forwarding your email to our city administrator Howard Lazarus to evaluate this change from the city's perspective. This traffic pattern was never considered in the previous 50 years of Huron H S's existence, thus a more comprehensive transportation engineering study is warranted along with considering the environmental impact.

Kathy Griswold

Dr. Swift,  
Thanks for the reply, but I can sense the repetitions of broken record:  
- not long enough  
- policing

**"A: As demonstrated in the information above, the buses that serve Huron will not fit along the Fuller Rd. loop. This option was tested by OHM and not considered functional."**

Please tell me the truth. When did OHM test? Which is more important? Hundreds of people waste their precious time or designating the route for imaginary assumption and not using the route practically. Ask anyone who was on Huron Pkwy loop about how many school buses on Huron Pkwy entrance loop at the same time. From my experience, there were 7 or fewer buses (certainly 17 buses are not on the loop at the same time for AM commute).

**"it has been the experience by the traffic safety experts to refrain from changing drop-off and pick-up plans between the morning and afternoon."**

I know several middle schools have different locations between morning and afternoon school buses including Clague Middle School.

We are talking about high school students. If middle school students can handle different location, high school students certainly can handle different location.

Posted sign says "authorized vehicles (school buses and staff vehicles) only between 7 AM - 4 PM". Do you think this makes sense? Are the buses staying on Huron Pkwy Loop all day?

Why are you refusing to take survey?

On Tuesday, April 16, 2019, 3:52:11 AM PDT, Swift, Jeanice <swift@aaps.k12.mi.us> wrote:

Hello Jinkoo Lee,

Thank you for reaching out again to share your concerns with the morning and afternoon traffic adjustments implemented at Huron High School this school year.

As you are aware, these adjustments were made in achieving the priority of improving student safety following a lengthy traffic study of the overall traffic patterns on this large campus, in response to several traffic accidents and 'close calls' that unfortunately have resulted in student injuries and a student death over previous years.

AAPS and the Huron High leadership team appreciate the families who have followed the new drop-off and pick-up plan, adjusting their schedules and also looking seriously at other options such as walking, biking, car pools and using the AAATA busses to get to school.

Encouraging fewer single car student drop-offs will positively impact the number of cars currently using the Fuller Rd. loop. All of these options are creating a safer campus for our students.

We will continue to look at ways to improve traffic flow on this campus, yet we are committed to the redesign that separates

car drop off and bus traffic, and we are confident that this plan, though it may require some additional time from drivers, is effective to achieve the priority goal of improved safety. We know, with continued adjustment, this process will improve each year.

I have included below a more detailed response offered by Liz Margolis, AAPS Student and School Safety Officer, as you have copied many who may not be aware of the extensive background we have this year on this issue. The response from Ms. Margolis below also includes your questions and responses, if you scroll down.

I appreciate your reaching out today to share your concerns, and we will be out at Huron to reinforce and support all to follow the traffic guidelines as we continue to work together to keep our students safe each day.

Sincerely,

Jeanice K. Swift

3 vehicles while making left turn from Huron Pkwy to Fuller Rd), drop off students on ***In response to Mr. Jinkoo Lee's April 15, 2019 concerns and suggestions with the traffic plan instituted Fall 2018 at Huron High School.***

Submitted by Liz Margolis, Executive Director, Student and School Safety

**Background:**

Huron High School has seen an increase in car drop-offs and pick-ups over the past few years along with fewer student drivers. This traffic increase created a higher amount of bus and car traffic converging at the Huron Parkway entrance loop especially during the morning drop-off time.

Huron High's administration has had an ongoing concern about the safety hazards at the Huron Parkway entrance witnessing many close calls between cars, buses and students. In the past few years Huron High's administration have witnessed at least two students who were hit by cars at this location as the cars volleyed for a drop-off spot as well as near misses between cars and buses as they weaved in and out of the traffic loop. Additionally, buses frequently got blocked from entering the Huron Parkway loop and were forced to drop students off along Huron Parkway.

AAPS engaged OHM traffic safety experts to observe and make recommendations to address

these safety concerns. OHM was on-site for their observation and review late winter, 2018. The OHM team was led by Mr. Stephen Dearing who has over 35 years of traffic safety experience specifically on school campuses.

**The traffic safety plan developed by OHM hoped to achieve:**

- Separation of bus and car traffic at drop-off and pick-up – a traffic safety best practice on school campuses for the safety of pedestrians, cars and buses.
- Improved pedestrian safety especially for students who walk, bike or take the AAATA and arrive via the Huron Parkway entrance.
- Better control of car traffic during drop-off and pick-up times.

**OHM's short-term recommendations included:**

- Move all bus service to the NE (Huron Parkway) side of the school and exclude all cars from this area.
  - o *Note: for the 17 regular and 5 special needs buses and 3 lift vans you assume 40' per bus and 30' per van. This equates to 970' of needed loading space. The Huron Parkway entrance has 960' with sidewalk. The Fuller Rd. loop has 810' of space making it inadequate to hold all buses.*
- Improve signage at Huron Parkway entrance - *Do Not Enter Authorized Vehicles Only 7am-4pm.*
- Continue to allow staff to park in the Huron Parkway staff lot – they have been assigned a parking permit for their car.
- Direct all parent drop-off and pick-up to the Fuller Rd. loop.

**What has gone well?**

*"Last year was unsafe with comingling of buses and cars. Students getting out on both the driver and passenger sides of the car in between cars and buses created a very unsafe situation," said Dr. Schwamb, Huron's Principal. "In any school that I have been employed at buses and cars are always separated."*

- After the first day of school there were improvements daily in student drop-off times along the Fuller Rd. loop as parents adjusted their schedule to allow up to 10 additional minutes to get through the light at the Huron Parkway/Geddes/Fuller intersection.
- Dr. Schwamb reported that student tardy numbers were actually decreased the first three weeks of school this year compared to the same weeks last year.
- We have seen a much safer drop-off and pick-up on Huron's campus by separating the buses and cars. Students who walk, bike or take the AAATA are also able to more easily

navigated across Huron Parkway into the northeast side of school without having to maneuver through car and bus traffic.

- Dr. Schwamb reports that not one parent approached her or her administrative staff about the new traffic plan during Huron's curriculum night.
- Huron PTO is interested in forming car pools to reduce drivers and have voiced their understanding of why this traffic plan was instituted.
- The city of Ann Arbor changed the timing of the traffic signal at the Fuller Rd. exit near the student lot and OHM reports this timing works well.
- AAPD helped the first week and appeared many times after throughout the at both entrances and continues to monitor with assistance when they are available.
- We added another school shuttle bus at Clague to handle the increase in students at this boarding location. This takes additional private cars off the drop-off and pick-up loop.

#### **How we addressed the issues**

- For the first three weeks Huron and district staff were out at both entrances directing traffic and waving cars on past the Huron Parkway entrance (excluding staff). Having staff out at these two locations encouraged parents to follow the new plan.
- When Huron administration were unable to continue to be at the Huron Parkway or Fuller Rd. locations due to commitments inside the school, Community Assistants were assigned to the Fuller Rd. loop to direct parents to pull ahead to allow for more cars to drop-off along the loop.
- Starting in November 2018 through to winter break the district engaged a school crossing guard to come to the Fuller Rd. loop to guide drivers to the end of the loop to allow for more cars to move more quickly off Fuller Rd. Signs were provided to encourage this drop-off strategy.
- OHM conducted another assessment on September 18 and recommended additional signs to encourage pulling up further in the loop. These signs were ordered and placed along the fuller Rd. loop. With these additions, cars move much quicker through the queue and allow for faster drop-offs and pick-ups. OHM also reminded us that change takes a year and next year's 9<sup>th</sup> grade families will know only this drop-off plan and follow the directions. It may take a few years until for parents to comply since we are asking them to change their drop-off behavior.
- An additional Stop Sign was installed at the West Fuller Rd. entrance/exit at the three-way stop by the athletic and student parking area. While drivers seem to be able to

navigate this area fairly smoothly the additional Stop Sign created a more measured exit/entrance at this location.

- The city implemented changes in signal operations to balance queue lengths at the intersections of Huron Parkway/Geddes and Fuller. Traffic queues typically dissipated at around 2:50pm. City staff continued monitoring the condition during morning school peak and made some additional adjustments in the signal timing.

#### **Responses to Mr. Lee Questions (AAPS answers are in Green)**

**Q.** AAPS refuses to implement a **better approach (route 17 buses to use Fuller Rd entrance instead of hundreds of personal vehicles)** to address mingling of buses and personal vehicles on Huron Pkwy Entrance Loop during AM commute.

**A:** **As demonstrated in the information above, the buses that serve Huron will not fit along the Fuller Rd. loop. This option was tested by OHM and not considered functional.**

**Q.** Hundreds of vehicles are routed to drive through the intersection between Huron Pkwy and Fuller/Geddes Rd and then Fuller Rd entrance to get to Huron High School; These vehicles used to use Huron Pkwy entrance to Huron High School. **Wasting precious morning commute time (at least 10 more minutes), wasting gasoline and polluting the air** while waiting to get a green light on Geddes Rd and Huron Pkwy (both directions) at the intersection between Huron Pkwy and Fuller/Geddes Rd on every school day. Frustrated drivers who go through red lights (typically Huron Pkwy, or use Huron Pkwy entrance.

**A.** **While the change in drop-off and pick-up routing did increase traffic along Fuller Rd., AAPS worked closely with the city to change the light sequence at the Huron Parkway/Fuller/Geddes intersection and parents adjusted their drop-off times to allow for the added traffic.**

**Huron families began receiving communications in the spring of 2018 before that school year ended of the new plan. Communications continued through the summer and prior to the start of school year reminding families of the new plan and advising parents to build in extra time. If “frustrated drivers” ran red lights they are at risk of being cited by the Ann Arbor Police.**

**We have seen an increase, especially this spring, of parents using the Huron Parkway entrance to drop-off students violating the posted signs and again creating dangerous situations for Huron students while cars intermingle with buses.**

**Q.** It takes at least 10 more minutes more than the last school year to get to Huron High School due to new traffic flow policy at Huron High School; **This policy affects hundreds of vehicles of Huron High School parents/students and commuters to University of Michigan/VA hospital/Ann Arbor downtown business on every school day morning.**

**A.** **It does take some extra planning on the part of parents with the new safer drop-off plan. Many have adjusted their timing to allow for this change. We know that traffic is**

**heavy along this corridor in the mornings and afternoons. The addition of Huron drop-off traffic lasts about 10 minutes in the morning.**

**Q. Question to AAPS:** Why buses are not routed through the intersection between Huron Pkwy and Fuller/Geddes Rd and Fuller Rd entrance in order to separate buses and personal vehicles? There are only 17 buses vs hundreds of personal vehicles.

**A. We have answered this question many times. There is not enough room along the Fuller Rd. loop to hold all AAPS buses that service Huron. This includes buses for special education students and students who are transported in vans.**

### **Responses to Mr. Lee's Recommendations**

**1.** Route the buses through the intersection for morning commute and keep the afternoon buses the same as the current; there are 17 school buses instead of hundreds personal vehicles.

Fuller Rd loop is enough to handle morning commute buses unlike afternoon commute (Huron Pkwy loop: 927 ft for 17 buses in the afternoon; Fuller Rd loop: 736 ft which can handle 13 buses simultaneously; there are about 7 or fewer buses while unloading students and waiting typically at the same time due to different arrival time and leave for middle school students)

**A: This is not a correct assumption. Also, it has been the experience by the traffic safety experts to refrain from changing drop-off and pick-up plans between the morning and afternoon. This recommendation is not an option.**

**2.** At worst case, school buses can wait at Gallup Park parking lot on the other side of Fuller Rd (right next to the traffic light at Huron High School entrance on Fuller Rd)

**A: AAPS does not own Gallup Park and we will not have student crossing Fuller Rd. to reach the buses. Additionally, the buses operate on a tiered routing system so the High School buses serve the elementary students directly after they drop-off the high school students. This recommendation is not an option.**

### **Final Thoughts**

AAPS and the Huron High Administrators appreciate the families who have followed the new drop-off and pick-up plan, adjusting their schedules and also looking at other options such as walking, biking, car pools and the AAATA. Encouraging fewer single car student drop-offs will positively impact the number of cars currently using the Fuller Rd. loop. All of these options are creating a safer campus for our students.

We will continue to look at options on this campus to help with the traffic but we are confident that this plan is working, after some adjustments, and will improve each year.

On Mon, Apr 15, 2019 at 5:35 PM Jinkoo Lee [REDACTED] wrote:

This is Jinkoo Lee, a parent at Huron High School.

I am writing this e-mail to community leaders (board members of PTO's of Huron High School/Claude Middle School/Tappan Middle School, trustees of Ann Arbor Public Schools, Council members of Ann Arbor City, Police Officers of Ann Arbor, University of Michigan, VA hospital and [mlive.com/annarbor](http://mlive.com/annarbor)) for your support so that AAPS will change the traffic flow policy at Huron High School.

I will describe the problem and a better solution below along with pdf attached with several pictures. You can just scan the bold font writing to get the main points. AAPS officials are cc'd to this e-mail. If you reply your thoughts to all recipients, AAPS will understand the severity of the problem and (I hope) will change the policy.

Appreciating your inputs to this issue,  
Jinkoo

+++++++ problem and a better solution ++++++

**Problem:** Huron High School Traffic Policy for 2018-19 school year has caused **severe traffic jam at the intersection between Huron Pkwy and Fuller/Geddes Rd** by not allowing personal vehicles to use Huron Pkwy entrance. AAPS refuses to implement a **better approach (route 17 buses to use Fuller Rd entrance instead of hundreds of personal vehicles)** to address mingling of buses and personal vehicles on Huron Pkwy Entrance Loop during AM commute.

What has been happening since 2018-19 school year's new traffic flow policy at Huron High School

- Hundreds of vehicles are routed to drive through the intersection between Huron Pkwy and Fuller/Geddes Rd and then Fuller Rd entrance to get to Huron High School; These vehicles used to use Huron Pkwy entrance to Huron High School
- **Wasting precious morning commute time (at least 10 more minutes), wasting gasoline and polluting the air** while waiting to get a green light on Geddes Rd and Huron Pkwy (both directions) at the intersection between Huron Pkwy and Fuller/Geddes Rd on every school day
- **Frustrated drivers go through red lights (typically 3 vehicles while making left turn from Huron Pkwy to Fuller Rd), drop off students on Huron Pkwy, or use Huron Pkwy entrance**
- It takes at least 10 more minutes more than the last school year to get to Huron High School due to new traffic flow policy at Huron High School; **This policy affects hundreds of vehicles of Huron High School parents/students and commuters to University of Michigan/VA hospital/Ann Arbor downtown business on every school day morning**

The reasons AAPS gave me for the changes

- Huron Pkwy entrance and loop at Huron High School is very crowded and unsafe because of mingling school buses and personal vehicles
- External safety consultant was hired to improve the traffic flow and recommendation was to route personal vehicles through the intersection between Huron Pkwy and Fuller/Geddes and Fuller Rd entrance to Huron High School

**Question to AAPS:** Why buses are not routed through the intersection between Huron Pkwy and Fuller/Geddes Rd and Fuller Rd entrance in order to separate buses and personal vehicles? There are only 17 buses vs hundreds of personal vehicles.

**Answer by AAPS:** **Fuller Rd loop is not long enough for 17 buses (BUT LONG ENOUGH for 13 buses and typically 7 or fewer buses are on the loop for unloading and waiting simultaneously for AM commute);** Just **inconvenience for students' safety** (There is a **better way to accomplish students' safety without bad side effects**. Hundreds of people are wasting 10's of minutes every school day and wasting gasoline/polluting the air due to severe traffic jam/longer route; People who caused this waste should be treated as criminals; **If this policy continues, what would the accumulated cost to the whole society be (probably millions of dollars)?** It is not just inconvenience.)

My recommendations to AAPS, which have been ignored for several months

- Route the buses through the intersection for morning commute and keep the afternoon buses the same as the current; there are 17 school buses instead of hundreds personal vehicles
- Fuller Rd loop is enough to handle morning commute buses unlike afternoon commute (Huron Pkwy loop: 927 ft for 17 buses in the afternoon; Fuller Rd loop: 736 ft which can handle 13 buses simultaneously; there are about 7 or fewer buses while unloading students and waiting typically at the same time due to different arrival time and leave for middle school students)
- At worst case, school buses can wait at Gallup Park parking lot on the other side of Fuller Rd (right next to the traffic light at Huron High School entrance on Fuller Rd)
- Experiment routing buses through the intersection for a week
- Take the survey about the new traffic policy

Huron High School Zone (**Close to 60% of population lives north side of Fuller/Geddes Rd; This population previously used Huron Pkwy Entrance**); The attached pdf has picture showing school zone.

There are **only 2 roads to Huron High School: Huron Pkwy and Fuller Rd**; As Huron Pkwy entrance has not been allowed, personal vehicles have to go through intersection between Huron Pkwy and Fuller/Geddes Rd. **Probably 80% of Huron High School population have to use the intersection.** Those **20% of population belong to bus riders and walk-to-school.** The attached pdf has a picture showing roads at Huron.

Huron Pkwy Entrance Loop Distance: 927 ft (enough for 17 buses for PM commute in current use); The attached pdf has several pictures.

Fuller Entrance Loop Distance: 736 ft (enough for 13 buses simultaneously for AM commute; typically 7 or fewer buses on the loop at the same time)

Just in case Gallup parking lot can be used for waiting buses overflow (Rarely used early in the morning)

Thank you very much, Robert. I am, sorry, no other way to describe, astonished at Mr. Fournier's response. There is no conceivable way to finance these kinds of private improvements, and I do know, or at least I thought I knew!, that staff is of the same view. Honestly, I don't know "who's on first" as Mr. Fournier expresses an opinion that many of his city staff colleagues do not share. We could, I suppose, raise water rates through the stratosphere for one and all to replace privately owned infrastructure (mind you, we're already increasing utility rates by orders of magnitude higher than inflation, and I am hearing from some folks that we are going to price them out of their homes/force them to move out of town).

So, thank you for your voice of common sense, Robert! God knows, it's needed and appreciated.

Gratefully, Jane

Dear Mr. Fournier, CM Bannister, and CM Hayner

Spending tens of millions of city dollars to replace private owners waterlines with no testing showing any health risk is beyond careless in terms of fiduciary responsibility. I quote " It's not a bad thing" to spend many, many millions of dollars upgrading PRIVATE steel water lines, with no shown health risk. Why should the city pay to replace homeowners waterlines?

Many homes, about half, in Ann Arbor have elevated radon levels, so they have a 7 in 1,000 chance of developing lung cancer. A very high risk. The city doesn't fix this for every homeowner with this risk, even though it is thousands of times more of a risk for citizens of Ann Arbor than our galvanized steel waterlines. And the remedy doesn't cost thousands of dollars per home, but only about \$850 per home. It is up to individual homeowners to decide to protect themselves.

There is no evidence that the city paying homeowner costs to replace the waterlines will "protect the integrity and safety of our water system". Therefore, city policy doesn't require we spend this massive amount.

In addition, these private waterlines are NOT part of the city infrastructure and not the city's responsibility.

And, why not replace galvanized steel water lines inside people's houses? Both the outside water line and the interior water line are THE RESPONSIBILITY OF HOMEOWNERS. No difference between the two.

If the city is required to/deciding to replace the outside steel lines, by the same logic used the city would REQUIRED TO to replace the continuing galvanized steel water lines inside the home.

I am hoping for some common sense here. Homeowner owned waterlines are not part of the city's infrastructure. Use our tax dollars for other water issues, such as replacing ancient city owned water and waste lines, working with the dioxane issue, and/or the PFAS issue.

I await a response. Thank you.

Robert Frank

CM Bannister,

The city's policy agenda, adopted by the Council, requires us to pursue state policies that protect the integrity and safety of our water system and this action by the state does do that. While I do appreciate and agree with Mr. Frank's general concern for the expenditure of public money, the professional opinion of staff is that it is not a bad thing to require our infrastructure to be upgraded to an objectively better and safer standard.

I believe, otherwise, that the constituent may be asking for your opinion on these matters. I hope the above information is helpful in shaping it.

Best,  
John

Good morning Yousef, Jeff and city council members.

This is Robert Frank, a constituent of yours in Ann Arbor. I am writing to you because I understand the state is requiring that all homeowner owned water supply lines that connect from the city street main to the house meter will have to be replaced at city expense if they are galvanized steel lines if they had a few inches long flexible lead connection at any time in the past. Other than these very short lead lines, the Ann Arbor water system did not use lead water lines. The cost to Ann Arbor will be many millions of dollars. This is very different than the situation in Ypsilanti, Flint, Detroit and many other Michigan cities where rather than a few inches long, the entire water supply line from the street to the house is lead. Also, importantly, there is no testing to show that these tiny lead connectors have caused any lead contamination for Ann Arborites.

This is a poor choice for spending limited dollars on something that has no health effect for Ann Arborites, or, worst case scenario, the very smallest risk.

I reiterate, this state requirement for municipalities in Michigan may make sense in many other communities, but not in Ann Arbor.

What can be done to address this with the state legislatures and the state environmental department.

These many millions of dollars can be used more effectively in Ann Arbor.

Thank you for your time and consideration. Awaiting replies.

Robert Frank

---

Mr. Lazarus,

Copying you on this thread re: the City's position on replacing private leads/lines. I would appreciate your clarification on the city's position on this requirement, and, if it is the city's view that it is appropriate to replace this privately owned infrastructure, could you offer your insight as to what public infrastructure projects will be impacted. I am assuming, of course, that we can not "do it all".

Thank you, Jane

**Subject:** RE: E-newsletter Followup

Thank you very much, Robert. I am, sorry, no other way to describe, astonished at Mr. Fournier's response. There is no conceivable way to finance these kinds of private improvements, and I do know, or at least I thought I knew!, that staff is of the same view. Honestly, I don't know "who's on first" as Mr. Fournier expresses an opinion that many of his city staff colleagues do not share. We could, I suppose, raise water rates through the stratosphere for one and all to replace privately owned infrastructure (mind you, we're already increasing utility rates by orders of magnitude higher than inflation, and I am hearing from some folks that we are going to price them out of their homes/force them to move out of town).

So, thank you for your voice of common sense, Robert! God knows, it's needed and appreciated.

Gratefully, Jane

**Subject:** Water Rate Resolutions (C-3 and DC-5) on Monday's Council Meeting Agenda

Mayor, Council,

On tonight's Council meeting agenda, there are two water rate items (C-3 and DC-5) that are inter-related. This purpose of this note is to suggest a change to the agenda sequence and to clarify the process moving forward should DC-5 pass.

### Sequence of C-3 and DC-5 on Agenda

C-3 applies an across-the-board 6% increase (effective July 1, 2019) to the re-structured water rates adopted July 2018 that are currently in place.

DC-5, however, is a resolution that would result in changing the specific rates to which the 6% is being applied for FY20. If DC-5 passes, it renders C-3 moot (i.e. the specific rates contained in C-3 are no longer valid). Given that, it seems to make sense to act on DC-5 first rather than spend time discussing C-3 only to have it potentially rendered moot later in the meeting. If DC-5 fails, then Council can proceed with C-3 as is.

### Process/Next Steps if DC-5 Passes

It's important to understand that passing DC-5 does NOT impact our ability to pass a revenue-generating water rate increase effective July 1<sup>st</sup> for FY20 (should that be Council's pleasure) .

If DC-5 passes, implementing it requires that staff/Stantec calculate the specific "base" rates prescribed in the resolution to which the across-the-board 6% increase for FY20 would be applied. With the existing model, it shouldn't be a big deal to perform that "base" rate calculation and the 6% is just simple math so first reading of the FY20 rate ordinance could be May 6<sup>th</sup> with second reading May 20<sup>th</sup> -- well before the July 1<sup>st</sup> effective date.

I've added another resolved clause to DC-5 to be more explicit about the process/next steps. The added resolved clause states:

**"RESOLVED**, that City Staff prepare and present for council consideration a revised water rate ordinance as prescribed above no later than the May 6, 2019 Council meeting".

The revised resolution with this addition has been posted on Legistar.

Again, passing DC-5 does not impact water system revenues or the city's ability to implement a revenue-generating rate increase July 1<sup>st</sup> – what it does is alter the rates within (not between) customer classes.

I plan to propose flipping the agenda sequence Monday night for these two water-rate items and wanted to provide a heads-up on that and the rationale.

Thanks, Jane

**Attachments:** [RE A2STEAM- follow-up from last week..msg](#)  
[FW SRTS Requirements for Sidewalks on Both Sides of the Street..msg](#)

---

Dear Mr. Lazarus and all,

Thank you for re-sending the email communications from July and October 2018 (now more than 8 months old).

The emails talk about how sidewalks on one side of Traver would be "less competitive" for grant funding and outside the Scope of Work of the original proposal, but given the opposition to the project, seem worth pursuing. The emails also talk about geographical and topographic constraints that warrant one sidewalk, which seem like they should apply to the significant added expense of working with the steep slope on Traver Road (see request #4 below for cost breakdown).

Based on the conversations between Councilmembers and residents at last night's Caucus session, these are questions we hope staff will address:

1. **Would it be possible to update and strengthen the advocacy that staff members have done on the City's behalf with MDOT?** Given that nearly 100% of the residents subject to the Special Assessment oppose the project, thus potentially requiring 8-votes of Council, would it be possible for yourself or staff to reach out to MDOT and make a more significant effort to advocate and negotiate on behalf of the City to consider "going back to the drawing board" with this project. Valuable suggestions we've received from residents include removing sidewalk requirements on Brookside and Traver, or compromising with one-sidewalk on Traver, and adding sidewalks for the students coming from the Leaird Road area (as per Evan Pratt's email).
2. Please refer to your email from March 16 where you reported on your positive relationship with **Demetrius Parker, the new MDOT University Region Engineer**. Would you email/call him and let us know his thoughts on this challenging SRTS project? Given the likely 8-vote requirement and, in my opinion, high likelihood of failure of the SRTS project at that time, its of great importance that we (including staff) do everything within our power to advocate/negotiate a way to obtain the grant funding and meet the requirement of public support for the project.
3. What is your opinion of the concern that future SRTS grants for Ann Arbor could be jeopardized if the Brookside and Traver sidewalks are installed, and then data shows that students are NOT using them? Residents have reported to us that most students who are walking/biking to school (about 35% of enrolled students according to AAPS data) are using Pear Street. **Would it jeopardize future grants if it came to light that this \$400,000 was used for sidewalks in general, and not for "safe routes to school"?**
4. Residents have noted that **the \$400,000 grant actually doubles the cost of the project for taxpayers**. Please provide your thoughts and a summary of the cost breakdown which shows how the grant dollars have created a situation where we are installing too much sidewalk in the wrong areas.
5. Carlene Garcia-Colvn presented a map last night from the Nov. 18, 2013 City of Ann Arbor Non-motorized Transportation Plan Update 2013, Figure 5.1E. Near-term Opportunities. This map shows numerous sidewalk and bikeway improvements citywide. **Please provide your thoughts on where the current SRTS project fits within the list of these priorities. Also, I don't see Brookside figuring at all on this map.**
6. Dicken School area is currently meeting on a new SRTS project. Please comment on the concern that residents potentially subject to a Special Assessment for sidewalks, are not included in the process. This was a "lesson learned" from the Northside STEAM project. What can be done to be sure that these residents are included?

Thanks for everyone's help as we seek a better outcome.

**Subject:** RE: MDOT two sidewalks and eight vote requirements?

Dear Councilmember Bannister:

I have attached two e-mail chains providing communications with the Michigan Fitness Foundation, the agency that administers MDOT's Safe Routes to School Program. In addition to these e-mails, staff has had several verbal contacts with MFF pursuant to your questions.

Chapter 13 of the City Code addresses Special Assessments. Section 1:290 provides for the following: "Any person aggrieved by the special assessment roll or the necessity of the improvement may file objections to the roll in writing with the Clerk prior to the close of the hearing. The written objections shall specify in what respect the person believes him or herself aggrieved. No original assessment roll shall be confirmed except by the affirmative vote of 8 members of the Council if prior to the confirmation written objections to the proposed improvement have been filed by the owners of property which will be required to bear over 50% of the amount of the special assessment."

I have included Ms. Beaudry and Mr. Rechten so they are aware of your interest, and they remain your best points of contact concerning process and code requirements.

Thank you for your interest, and please let us know if you have any other questions or concerns.

**Subject:** MDOT two sidewalks and eight vote requirements?

Dear Mr. Lazarus,

Please provide to us a written statement from MDOT about whether they require two sidewalks for the Northside STEAM SRTS project, especially in light of the strong opposition from the residents.

In the Post Script below, an email exchange with the Michigan Fitness Foundation is provided, but an official confirmation directly from MDOT is needed.

Please provide documentation of any emails or conversations with MDOT or Michigan Fitness Foundation, where staff has advocated on behalf of residents for the desired only one sidewalk on Traver and no sidewalk on Brookside. There is concern about jeopardizing our grantee relationship with MDOT if/when the project fails. We would like confirmation that significant actions have been taken to

communicate with MDOT about the challenges to the project, including the numerous suggestions that have been provided by residents, and that you have tried everything within your powers to negotiate on our behalf to save the grant funding and fix this broken project.

Resolution 19-0567 is back on the attached Agenda for April 15 (bottom of page 11):

<http://a2gov.legistar.com/LegislationDetail.aspx?ID=3895284&GUID=35A5675E-1759-4898-B73D-220CCD3AEE6E> Please confirm how many votes are currently required and the process to require eight votes, if not already required. There is confusion over the process, including any requirements to the format and the deadline for the signatures. If you have a template, please send it us.

Please voluntarily offer any additional information that would assist us as we try to work together to fix this broken project and avoid unnecessary lawsuits from the residents.

Sincerely,

Anne Bannister

P.S. An excerpt from the Agenda Responses (attached, pages 10 - 12):

**CA-14 - Resolution No. 3 Establishing a Public Hearing on May 6, 2019 for the Northside STEAM Safe Routes to School Sidewalk Gap Special Assessment Project**

**Question:** Has staff received a written statement from the MDOT confirming that this project requires sidewalks on both sides of Traver Road?  
(Councilmember Eaton)

**Response:** Yes. This issue was verified by Colleen Synk, the MDOT Safe Routes to Schools Grant Coordinator for this area, in a July 9, 2018 email, and shared with residents and City Council at that time. Ms. Synk's e-mail states, in part, "The SRTS grant funding for Michigan follows a complete streets policy. Applying for sidewalk on one side of the street would make the application less competitive for funding.

Applications that do propose sidewalk on only one side of the street are carefully reviewed throughout our process for the context specific reasons for a scope of work which is outside what we generally consider eligible. To my knowledge, the proposals where we awarded funding to put in sidewalk on one side were zoned as either industrial or agricultural. Further, putting sidewalk in on both sides of these projects did not increase connectivity or was not feasible give topographic constraints. None of these situations would apply to the

residential context of the A2STEAM project, thereby making sidewalks on both sides of a street a requirement to remain competitive for funding.”

A resident reached out to the Michigan Fitness Foundation and spoke to Colleen’s colleague Max Fulkerson, and claimed he said something contrary to that in a phone conversation in October 2018. However, when he was questioned about his response, he had the following to say in an October 22, 2018 email: “Hi, Colleen. The statements attributed to me are not exactly what I said or how I said it. It seems like the resident selected statements I made and then took them out of context, left off caveats, and twisted my words to fit her agenda.

I agree with all your statements, Colleen. My message was consistent with yours. I cited some unusual examples when sidewalks on both sides of the street would not be required, based on geography or land use, but the resident drew the wrong conclusions.”

**Question:** Regarding CA-14, can you please confirm the assessment amounts have been developed using the standard methodology used in other sidewalk gap projects? (Council member Lumm)

**Response:** Yes, the assessment amount utilized the methodologies outlined by current City Code and past sidewalk gap projects. To compute the proposed special assessment amounts, the cost of construction (e.g. cost of contractor mobilization, sidewalk grading, concrete, the base sand or aggregate, restoration, and other similar items) is estimated based on the proposed work. To that value we then subtract the value of any outside funding (SRTS Grant or STP funds), and add the estimated costs of inspection/testing/administration for a total assessable cost. The assessable cost is then divided by the total length of sidewalk being installed to obtain the cost per lineal foot of sidewalk installed. Un-assessable amounts of project costs, if any, are then determined and labelled on the assessment role as City Share Non-

recoverable. Corner parcels are assessed 100% for their frontage length and 50% of the side length.

**Question:** Why was this being on the April 1 agenda not mentioned/discussed by Mr. Lazarus and Mr. Hupy when we met on March 27? Please keep everyone (residents and Councilmembers) better informed about "What's Happening?", not only with the MI Fitness Foundation/MDOT process, but also with the City Council process in the face of a nearly unanimous objection to the project as written. Please confirm the process for the residents to file an objection with the City Clerk, and whether a super majority of 8 votes on Council

will then be required at May 6th. What will or will not happen if the April 1 and May 6 vote fails? I believe I've asked for this information many times, but as a reminder, please voluntarily share any and all information you think Councilmembers and residents would like or need to know about this project, given the strong objection to it by the impacted residents. (Council member Bannister)

**Response:** The inclusion of this resolution (Resolution No. 3 of 4) on the Council agenda is a procedural item and is needed in order to set the public hearing to allow the public to formally comment of the proposed special assessment roll and to allow Council to take action to confirm or annul the roll on May 6 (Resolution No. 4 of 4).

Objections to a special assessment roll are set forth under City Code Section 1:290, which provides:

“Any person aggrieved by the special assessment roll or the necessity of the improvement may file objections to the roll in writing with the Clerk prior to the close of the hearing. The written objections shall specify in what respect the person believes him or herself aggrieved. No original assessment roll shall be confirmed except by the affirmative vote of 8 members of the Council if prior to the confirmation written objections to the proposed improvement have been filed by the owners of property which will be required to bear over 50% of the amount of the special assessment.”

If objections were submitted, staff would need to review them for compliance with the Code and add up the assessment value on all objecting owners' properties to determine whether it totaled over 50% of the whole assessment, thus triggering the 8-vote requirement at the May 6 meeting.

City Code section 1:289 requires Council to set a hearing on the proposed roll. If the April 1 vote fails, Council will need to select another date for a public hearing. If the May 6 vote (Resolution 4) to confirm the assessment fails, then the project would be underfunded by the amount of the special assessment. In addition, the City would not execute the City/State agreement to receive the grant funds nor award the project under the June 7 state bid letting for grant-funded projects. Note, if the City elects to not utilize the state/federal grant funds for this project, it will most probably have an adverse effect on the City receiving TAP grant funding for the next two fiscal years.

Hi Jane,

The SRTS grant funding for Michigan follows a complete streets policy. Applying for sidewalk on one side of the street would make the application less competitive for funding.

Applications that do propose sidewalk on only one side of the street are carefully reviewed throughout our process for the context specific reasons for a scope of work which is outside what we generally consider eligible. To my knowledge, the proposals where we awarded funding to put in sidewalk on one side were zoned as either industrial or agricultural. Further, putting sidewalk in on both sides of these projects did not increase connectivity or was not feasible give topographic constraints. None of these situations would apply to the residential context of the A2STEAM project, thereby making sidewalks on both sides of a street a requirement to remain competitive for funding. Additionally, the A2STEAM application was not reviewed with a scope of work containing a sidewalk on one side of the street (outside of the infill that addresses gaps in the network). Any one side of the street sidewalk would need to be reviewed with this consideration.

While I know the City is looking at parsing down the scope of work, it sounds like it may be more than I first thought from our prior emails and calls. Please keep the following in mind as you continue to find solutions for the concerns raised at the public meeting. Changes to the scope of work would have to follow the complete street policy or it would likely mean the application either would go through a more extensive review process than the one I outlined in my email on 7/5/2018 or be resubmitted all together if the scope of work were dramatically changed.

Please let me know if you have any follow-up questions regarding any of the above.

Colleen,  
One question that came up after the meeting was the SRTS Grant's requirement for sidewalks on both side of the road of a selected section:

\* "What effect did applying for a grant from a group that encourages sidewalks on both sides of the road have? (Is it a requirement or a strong suggestion? Are waivers possible?) "  
Can you help me answer this question? Is it an actual requirement?"

Hi Jane,

Thanks for sharing the plan of action and what you have been able to determine this far. I'll make sure to touch base with you next Friday, July 13th to see what alternative the City will be pursuing. As you can, please document the agreement of the school's SRTS committee with the City on the alternative when you meet next Thursday.

On the grant side, I'll need enough detail about the selected alternative (a scope of work overview description) to ensure it provides connectivity and other focuses of the program's mission. We'll want to have this before Friday, July 27. From there, I'll work on moving this to a CC after I've confirmed one last time that the school SRTS committee members and the City are in agreement with the overview of the scope of work.

Subject: RE: A2STEAM- follow-up from last week.

Colleen,  
We met today to discuss the scope of the project and the results of the meeting on June 26, 2018. We would like to decrease the overall construction costs to about \$700K, so our total Project costs are between \$900K and \$1M to make the special assessment costs lower while best utilizing the Grant. The design team is going to be looking at two alternatives; one including the top ranked locations by SRTS Committee, and one with the most length of sidewalk to be covered by the Grant. We will be introducing those alternative to SRTS next Thursday, so we might know Friday, July 13th.

Hi Jane,

I hope the holiday yesterday treated you well!

I'm touching base because last we talked, you mentioned the City was going to take a week (perhaps longer given the holiday) to do a little more analysis of the numbers and work given the feedback from the public on the project- particularly it's expense. I know Carlene and the others on the team are waiting to hear on that before proceeding. Carlene has been keeping me abreast about the concerns and conversations taking place, but I hope she is also able to get this information to you as well. Please let me know if I can be of assistance in any way.

Hi Jane,

Yes, the statements and comments I made on the A2STEAM application pertaining to complete streets policies and the eligibility/competitiveness of a proposed scope of work with sidewalk on one side of a street remain accurate.

Directly below is my colleague, Max's, response to reviewing the statements you received from a resident which were attributed to him.

HI, Colleen. The statements attributed to me are not exactly what I said or how I said it. It seems like the resident selected statements I made and then took them out of context, left off caveats, and twisted my words to fit her agenda.

I agree with all your statements, Colleen. My message was consistent with yours. I cited some unusual examples when sidewalks on both sides of the street would not be required, based on geography or land use, but the resident drew the wrong conclusions.

To: Colleen Synk <CSynk@michiganfitness.org>  
Cc: Redinger, Cynthia <CRedinger@a2gov.org>; Hutchinson, Nicholas <NHutchinson@a2gov.org>  
Subject: SRTS Requirements for Sidewalks on Both Sides of the Street.

Colleen,

You have continually told me and Cynthia that sidewalks are required on both sides of the street when applying for the SRTS Grant. However, you did clarify the issue in an email on July 9, 2018, stating: The SRTS grant funding for Michigan follows a complete streets policy. Applying for sidewalk on one side of the street would make the application less competitive for funding.

Applications that do propose sidewalk on only one side of the street are carefully reviewed throughout our process for the context specific reasons for a scope of work which is outside what we generally consider eligible. To my knowledge, the proposals where we awarded funding to put in sidewalk on one side were zoned as either industrial or agricultural. Further, putting sidewalk in on both sides of these projects did not increase connectivity or was not feasible give topographic constraints. None of these situations would apply to the residential context of the A2STEAM project, thereby making sidewalks on both sides of a street a requirement to remain competitive for funding. Additionally, the A2STEAM application was not reviewed with a scope of work containing a sidewalk on one side of the street (outside of the infill that addresses gaps in the network). Any one side of the street sidewalk would need to be reviewed with this consideration.

However, a resident spoke to Max Fulkerson a couple weeks ago, we he stated the following:

Last week, I made some inquiries with the Michigan Department of Transportation and was referred to Max Fulkerson, who is the Contract Coordinator for the Safe Routes to School program for Michigan. I've attached a brief summary of his view of the factors to be taken into account in a Safe Walks to School plan. In summary, there is no "requirement" for two sidewalks. Decisions on sidewalks are "context dependent" in that they take into account not only numbers of children needing to cross roads but also traffic patterns and traffic calming programs, and the environment—such questions as the impacts on trees and shrubs ("a consideration if there is public input"), landscape, privacy. It is precisely such contexts that were not addressed during the development of the STEAM sidewalks plan in 2016-2017. To my knowledge, no property owner on the 1600 block of Traver was involved in developing this plan.

Appendix: Phone Conversation with Max Fulkerson, Contract Coordinator for Safe Routes to School, State of Michigan, October 11, 2018

Max Fulkerson told me first, that in residential neighborhoods, there is no requirement for two sidewalks but they are "advised where children need to cross;" second, that recommendations are made on the basis of a walking audit carried out by the team responsible for a Safe Walks to School Plan, and that it is the "communities" that make the choices about priorities for sidewalks; third, that proposals for two, one, or no sidewalks are "context dependent" in the sense that they should take account of: 1) numbers of children needing to cross the road; 2) traffic patterns and traffic calming programs; 3) Trees and shrubs—"a consideration where there is public input." Fulkerson said that he thought that "tree cutting should be minimal. It would come up only if there are safety needs."

Does your statement still hold true, or can you respond to Max's statements? Resident's in the Northside

STEAM SRTS project are implying I am lying to them.

Thank you,

Jane K Allen, P.E.

**Subject:** Water Rate Resolutions (C-3 and DC-5) on Monday's Council Meeting Agenda  
**Date:** Monday, April 15, 2019 10:03:06 AM

---

Mayor, Council,

On tonight's Council meeting agenda, there are two water rate items (C-3 and DC-5) that are inter-related. This purpose of this note is to suggest a change to the agenda sequence and to clarify the process moving forward should DC-5 pass.

### **Sequence of C-3 and DC-5 on Agenda**

C-3 applies an across-the-board 6% increase (effective July 1, 2019) to the re-structured water rates adopted July 2018 that are currently in place.

DC-5, however, is a resolution that would result in changing the specific rates to which the 6% is being applied for FY20. If DC-5 passes, it renders C-3 moot (i.e. the specific rates contained in C-3 are no longer valid). Given that, it seems to make sense to act on DC-5 first rather than spend time discussing C-3 only to have it potentially rendered moot later in the meeting. If DC-5 fails, then Council can proceed with C-3 as is.

### **Process/Next Steps if DC-5 Passes**

It's important to understand that passing DC-5 does NOT impact our ability to pass a revenue-generating water rate increase effective July 1<sup>st</sup> for FY20 (should that be Council's pleasure) .

If DC-5 passes, implementing it requires that staff/Stantec calculate the specific "base" rates prescribed in the resolution to which the across-the-board 6% increase for FY20 would be applied. With the existing model, it shouldn't be a big deal to perform that "base" rate calculation and the 6% is just simple math so first reading of the FY20 rate ordinance could be May 6<sup>th</sup> with second reading May 20<sup>th</sup> -- well before the July 1<sup>st</sup> effective date.

I've added another resolved clause to DC-5 to be more explicit about the process/next steps. The added resolved clause states:

**"RESOLVED**, that City Staff prepare and present for council consideration a revised water rate ordinance as prescribed above no later than the May 6, 2019 Council meeting".

The revised resolution with this addition has been posted on Legistar.

Again, passing DC-5 does not impact water system revenues or the city's ability to implement a revenue-generating rate increase July 1<sup>st</sup> – what it does is alter the rates within (not between) customer classes.

I plan to propose flipping the agenda sequence Monday night for these two water-rate items and wanted to provide a heads-up on that and the rationale.

Thanks, Jane

**Subject:** RE: Meeting with Sen. Irwin and AG Nessel  
**Date:** Monday, April 15, 2019 8:39:24 AM

---

I don't think there is any fear of quorum due to the nature of the discussion, but if there is, I want to make it clear that I will be attending. This matter affects us all, it's not just a 5<sup>th</sup> Ward problem, and folks who plan on attending should be those with something to add to the conversation, based on the latest site status and newest information on all parts of this complex issue.

Jeff Hayner

**Subject:** Meeting with Sen. Irwin and AG Nessel

Good morning Council Members,

Senator Irwin would like to extend an invite for you to join him with Attorney General Dana Nessel on **Monday, May 6<sup>th</sup> at 11:00 AM** to discuss the Pall-Gelman Dioxane Plume. This meeting will take place at the Washtenaw County Administration building in the executive conference room. Please let me know if you are able to attend.

Best,

**Annie Somerville**  
Legislative Aide

State Senator Jeff Irwin

# FY20/21 New Funding Programs

Howard S. Lazarus, City Administrator  
April 15, 2019

# Introduction

This document provides the details associated with the allocations of new funding for the FY20 budget year. In FY20, the City projects \$4,257,239 in new funding opportunities will be available to support the community priorities identified in the chart below. These totals include the \$2,200,000 in County Millage Rebate funds, \$1,917,239 from General Fund sources, and a dedication of \$140,000 from the Street Millage.

PROGRAM AREA	FY20 NEW FUNDING
Safe Drinking Water/Water & Sewer Infrastructure	\$574,200
Community Mental Health	349,800
Street Resurfacing and Repair	345,400
Affordable Housing	880,000
Additional Police Funding	444,839
Climate Action	880,000
Pedestrian Safety Projects	750,000
Other *	33,000
<b>TOTAL NEW FUNDING</b>	<b>\$4,257,239</b>

\*The allocation to "Other" will be considered non -departmental and reserved for uses as -needed in the other Program Areas.

# Introduction

The document also provides the details associated with the allocations of new funding for the FY20/FY21 Financial Plan. For each program area, the following information is provided .:

- Initiative/Project Name
- Strategic Goals Supported
- Scope of Work
- Lead and Partner Agencies
- Funding Allocated
- Outcome(s)

The outcomes provided employ the SMART (specific, measurable, achievable, relevant, and time -based) goals approach as Council has requested . In several areas, the allocations are shared among two or more agencies . In those cases, the partner entities are also listed . These interrelations are displayed on a subsequent page .

# Relationship of Initiatives to Strategic Goals

New funding initiatives are drawn from the strategic goals Council discussed at the December 2018 and January 2019 budget workshops and the Citizen Survey completed in March 2019. The relationships between the funding initiatives and strategic goals are provided in this table.

- Safe Drinking Water/Water & Sewer Infrastructure
- Community Mental Health
- Street Resurfacing and Repair
- Affordable Housing
- Climate Action
- Pedestrian Safety Projects

	Safe, Welcoming, and Engaged Community	Ensure a Financially Stable City Government	Promote Responsible Economic Development	Protect the Environment	Build and Maintain Sustain Infrastructure Systems	Collaborate with Community Partners

Climate Action	•			•	•	•
Pedestrian Safety Projects	•				•	

# Safe Drinking Water/Water and Sewer Infrastructure

# Safe Drinking Water/Water and Sewer Infrastructure

**Initiative/Project** : Barton and Superior Dam Repairs

**Strategic Goals Supported** : Ensure a financially stable City government .  
Protect the environment as responsible stewards of natural resources .  
Build and maintain sustainable infrastructure systems .

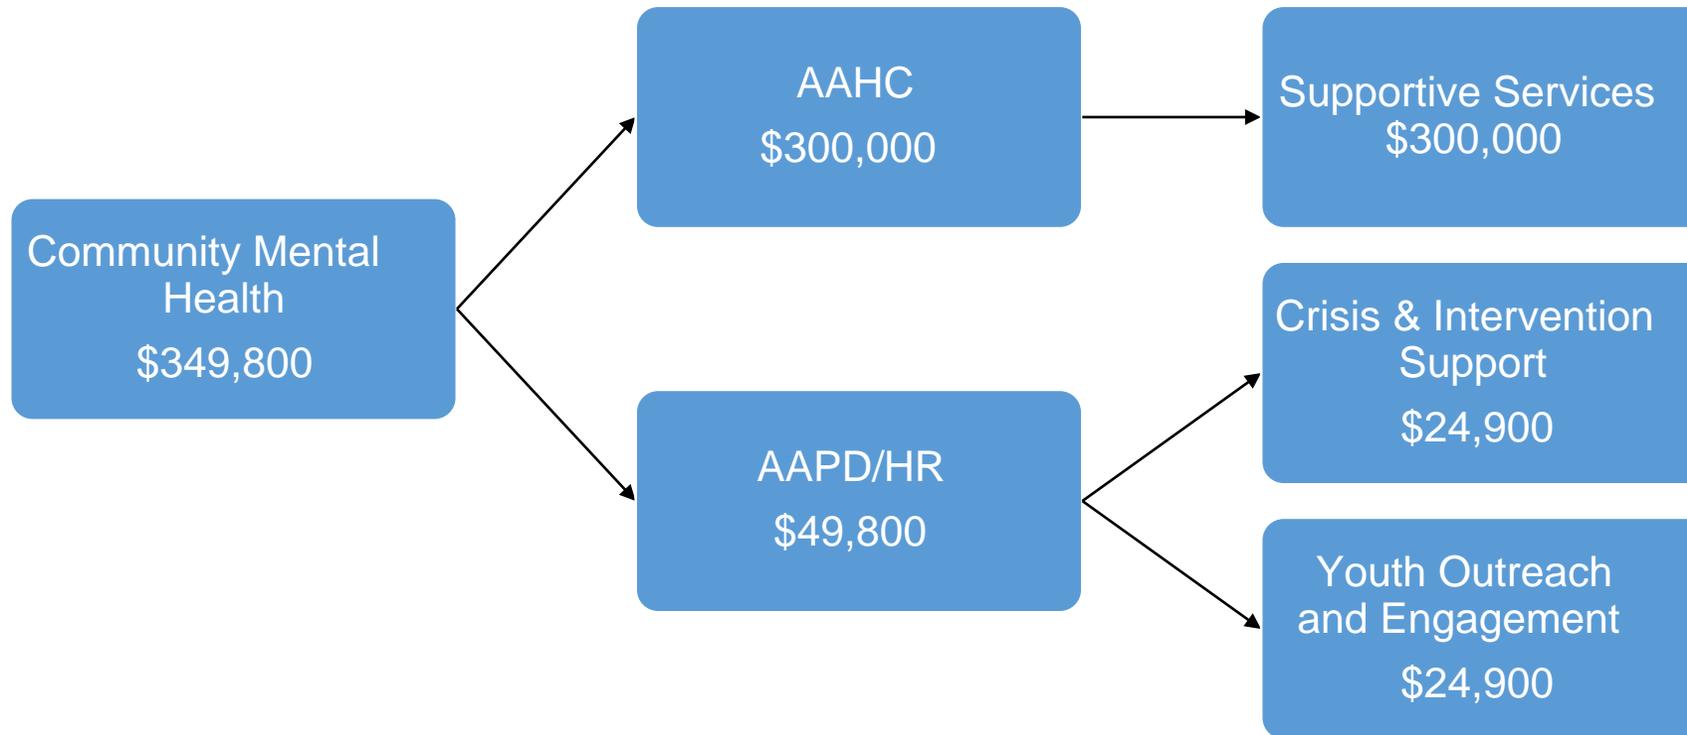

**Scope** : The City faces substantial expenses in the repair of the Barton and Superior Dams and over the coming years, beginning with ~\$2.2M in FY22. The dams serve both water supply and hydropower functions, and the repairs for each function are interrelated. The City's General Fund is responsible for 50% of the cost of work, and allocation of this portion of the millage rebate (\$ 574,200 ) to this function will mitigate the need for additional allocations or identification of other financial resources in the immediate future.

**Partner Agencies/Units** : Water Unit (Lead), Office of Sustainability and Innovation (OSI )

**Allocation** : Staff recommends that \$574,200 be placed in a reserve fund in FY20 and FY21 to accrue funds to meet this need .

**Outcome(s)** : Repairs to the dams to meet water supply and FERC requirements beginning in FY22.

# Community Mental Health

# Community Mental Health

**Initiative/Project** : Additional Supportive Services at Ann Arbor Housing Commission Facilities

**Strategic Goals Supported** : Enable a safe, welcoming, and engaged community .  
Collaborate with community partners to enhance quality of life .

**Scope** : The Ann Arbor Housing Commission (AAHC) has a shortfall of ~\$520,000 in its ability to provide supportive services for its residents. These services include administration of its Federal voucher program, eviction prevention, crisis management, community building, quality of life/family stability services, and case management to households with a history of homelessness.

**Partner Agencies/Units** : AAHC (Lead), Avalon, Food Gatherers, Community Action Network, and Peace Neighborhood Center.

**Allocation** : The City Administrator's budget recommendation allocates \$300,000 to complement the \$220,000 that will be drawn from the Affordable Housing allocation (see Slide 14) to meet the \$520,000 requirement.

**Outcome(s)** : AAHC staff will report on the services delivered to its residents using these funds on a quarterly basis to the Health and Human Services Advisory Board (HHSAB).

# Community Mental Health

**Initiative/Project** : AAPD Crisis Intervention Assistance and Stabilization Services

**Strategic Goals Supported** : Enable a safe, welcoming, and engaged community .  
Collaborate with community partners to enhance quality of life .

**Scope** : The Ann Arbor Police Department (AAPD) responds to domestic disputes, sexual assaults, and other incidents that require support from social service agencies with specialized expertise. The need to augment AAPD's capabilities in these areas was the subject of many discussions during the deliberations of the Police Advisory Task Force, and can be expected to be a focus area of the Independent Community Police Oversight Commission. Providing additional access to mental health and related providers was also a recommendation from several community mental health advocates.

**Partner Agencies** : AAPD (Lead), AAHC, Avalon Housing, Washtenaw County Community Mental Health

**Allocation** : The City Administrator's budget recommendation allocates \$ 24,900 to this initiative. The allocation is above the \$444,839 the City Administrator is proposing for additional police funding (discussed on Slides 17 -20).

**Outcome(s)** : Support co -response to emergencies where mental health is a factor. AAPD staff will report quarterly on the services accessed and the outcomes achieved to support future consideration of permanently adding this allocation to future budgets.

# Community Mental Health

**Initiative/Project** : Youth Outreach and Engagement

**Strategic Goals Supported** : Enable a safe, welcoming, and engaged community .  
Collaborate with community partners to enhance quality of life .

**Scope** : In collaboration with Neutral Zone, the City is seeking to create a program to engage at -risk youth in a job -creation and career building program. Expanding youth outreach and engagement opportunities was a recommendation from community mental health advocates.

**Partner Agencies** : Human Resources (Equity & Inclusion)(Lead ), OSI, AAPD, Neutral Zone

**Allocation** : The City Administrator's budget allocates \$ 24,900 to this initiative.

**Outcome(s)** : The pilot initiative will produce a financially sustainable program that provides transformative life experiences through training and job placement in public and private sector opportunities. Success will be measured by the number of at -risk youth served and the ability to raise private funding to sustain the program .

# Street Resurfacing and Repair

# Street Resurfacing and Repair

**Initiative/Project** : Resurface and repair pavements and related components

**Strategic Goals Supported** : Build and maintain sustainable infrastructure systems .

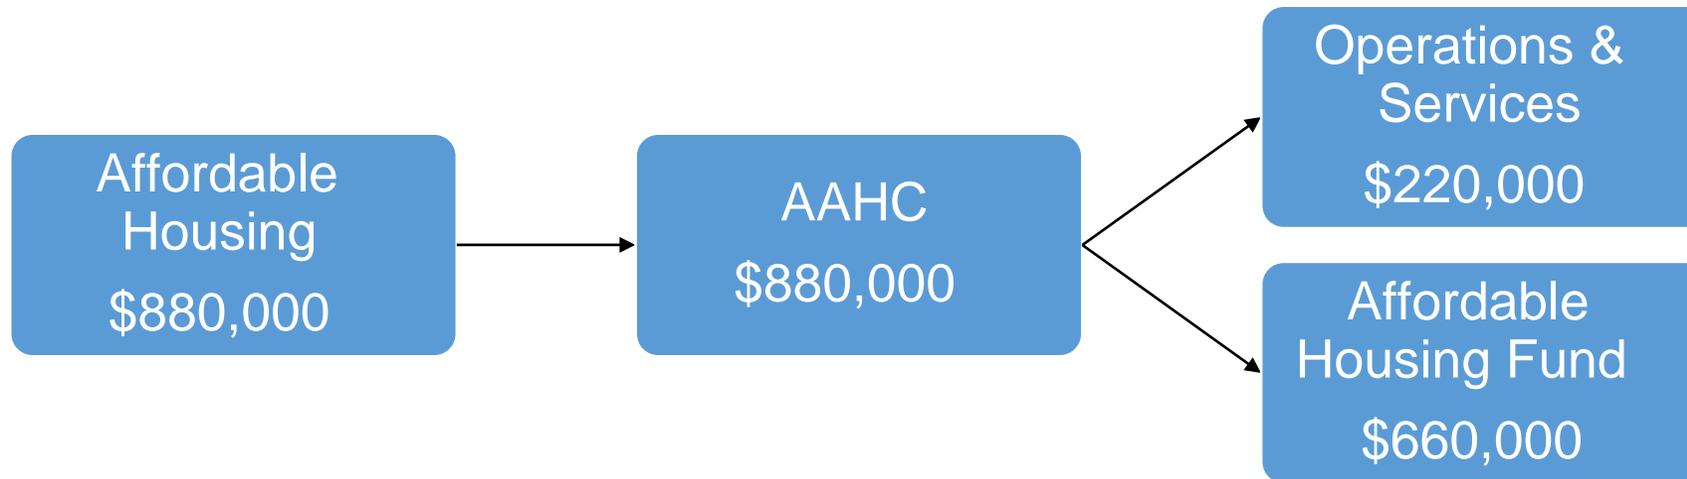

**Scope** : Funding will enhance monies available from other sources, including state gas tax (Act 51) revenues and dedicated millage funds.

**Partner Agencies** : Public Services (Engineering)

**Allocation** : The City Administrator's budget allocates \$345,400 to this initiative.

**Outcome(s)** : The allocation of funds will contribute to achieving the goal of 80% of our pavements in good condition (rating of  $\geq 7$ ) by 2025. Project lists for street repairs are provided separately as part of the Public Services Work plan. The goal for FY20 is to complete  $\geq 80\%$  of work indicated.

# Affordable Housing

# Affordable Housing

**Initiative/Project** : Additional Supportive Services at Ann Arbor Housing Commission Facilities

**Strategic Goals Supported** : Enable a safe, welcoming, and engaged community .  
Collaborate with community partners to enhance quality of life .

**Scope** : Ann Arbor Housing Commission (AAHC) has a shortfall of ~\$520,000 in its ability to provide supportive services for its residents. These services include administration of its Federal voucher program, eviction prevention, crisis management, community building, quality of life/family stability services, and case management to households with a history of homelessness.

**Partner Agencies/Units** : AAHC (Lead), Avalon, Food Gatherers, Community Action Network, and Peace Neighborhood Center.

**Allocation** : The City Administrator's budget recommendation allocates \$220,000 to complement the \$300,000 that will be drawn from the Community Mental Health allocation (Slide 8) to meet the \$520,000 requirement. The allocation of 25% of the County Millage rebate to operations is consistent with the recommendation from the HHSAB.

**Outcome(s)** : Provided on next page

# Affordable Housing

Initiative/Project : Additional Supportive Services at Ann Arbor Housing Commission Facilities (CONT.)

Outcome(s) : The most common indicator tracked across all on-site service providers and programs (Avalon, Peace Neighborhood Center, Community Action Network, SOS, and Washtenaw County Community Mental Health) is housing retention:

- Housing Retention = 85% of households stayed housed in the past year
- Income = 90% of households maintain or increase their income in the past year.

Households participate in supportive services which can include case management and client centered treatment plans, support groups, substance abuse treatment, life skills, health, financial literacy, and conflict management. AAHC seeks the following outcomes:

- >65% of clients demonstrate progress in reaching client -centered goals in the past year
- >70% of households participate in supportive services

Food Gatherers provide meals, and the most quantitative outcomes are the numbers of meals/people served.

# Affordable Housing

**Initiative/Project** : Contribution to the Affordable Housing Fund

**Strategic Goals Supported** : Enable a safe, welcoming, and engaged community .  
Ensure a financially stable City government .  
Build and maintain sustainable infrastructure .  
Collaborate with community partners to enhance quality of life .

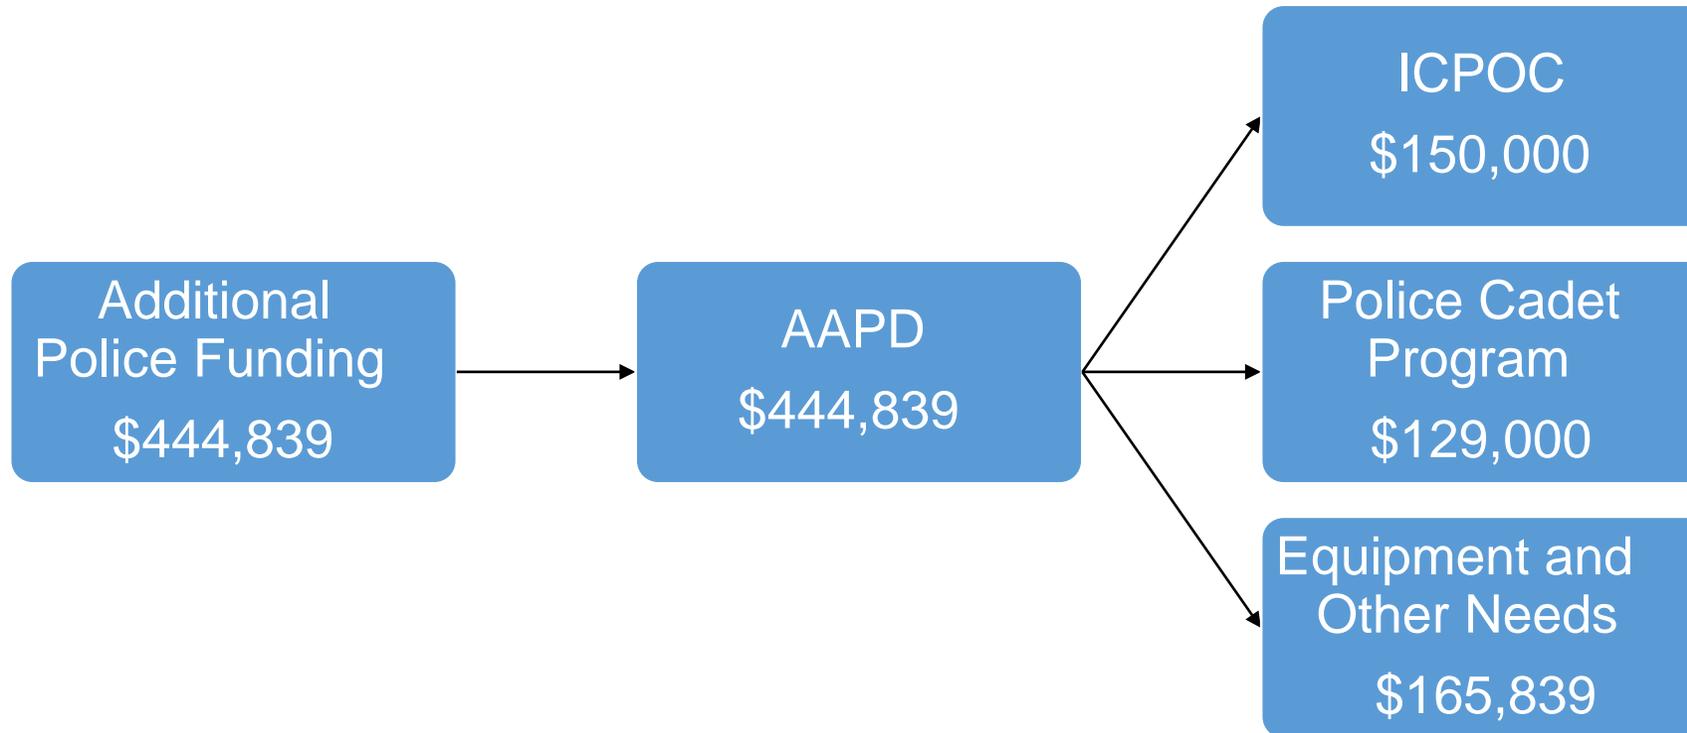

**Scope** : The Affordable Housing Fund lacks sufficient resources to meet or exceed the delivery of the additional units per year addressed in 2015 Washtenaw County Housing Affordability and Economic Equity Analysis.

**Partner Agencies/Units** : AAHC (Lead), Avalon, Washtenaw County Department of Community and Economic Development

**Allocation** : The City Administrator's budget recommends an allocation of \$660,000 to be placed in the Affordable Housing Fund. The allocation of 75% of the designated 40% of the County Millage rebate to the Affordable Housing Fund is consistent with the recommendation from the HHSAB.

**Outcome(s)** : Avalon has 2 projects for which it will be requesting funding from the AAHF: \$600,000 for Phase II of Hickory Way which is 36 units, construction to be completed in FY21, and \$60,000 for a duplex on Glendale they just acquired that needs renovations, which will be completed in FY20. A total of 38 units.

# Additional Police Funding

# Additional Police Funding

**Initiative/Project** : Funding for the Independent Community Police Oversight Commission (ICPOC)

**Strategic Goals Supported** : Enable a safe, welcoming, and engaged community .  
Collaborate with community partners to enhance quality of life .

**Scope** : In FY19 City Council passed an ordinance creating the ICPOC. Members of Council, with the assistance of the Human Rights Commission (HRC), have recruited Commissioners to served three year terms. The ICPOC will be formed and organized as FY19 comes to a close, and will be fully active in FY20.

**Partner Agencies/Units** : ICPOC (Lead), City Administrator's Office, AAPD, HRC

**Allocation** : The City Administrator's recommended budget provides \$150,000 in new funding to support the ICPOC. Of this total, ~\$100,000 is required for personnel services (Management Assistant) and ~\$50,000 is available for the ICPOC members to support the work plan it develops.

**Outcome(s)** : The following outcomes are anticipated:

- Recruit and hire a Management Assistance to support the ICPOC and HRC (completed).
- Participate in the recruitment of a new Police Chief (in -progress)
- Develop a Work Plan for the ICPOC, including usage of the \$50,000 allowance for other expenses.

# Additional Police Funding

**Initiative/Project** : Police Cadet Program

**Strategic Goals Supported** : Enable a safe, welcoming, and engaged community .  
Collaborate with community partners to enhance quality of life .

**Scope** : AAPD leadership and representation have proposed the implementation of a Police Cadet program to serve two primary purposes. First, the creation of two police cadet positions will provide AAPD with a competitive advantage in recruiting in an increasingly competitive environment, especially among underrepresented demographic groups. Second, using the cadets to relieve sworn officers of appropriate administrative duties will enable AAPD leadership to redeploy these resources to field operations.

**Partner Agencies/Units** : AAPD (Lead ), Human Resources and Labor Relations

**Allocation** : The City Administrator's budget recommended budget provides \$129,000 in new funding to provide for the personnel costs of program.

**Outcome(s)** : The following outcomes are anticipated:

- Hire and retain two police cadets.
- Track the future progress of the cadets through the police academy and their hires as AAPD officers.
- Obtain feedback on the program of AAPD officers and the cadets.

# Additional Police Funding

**Initiative/Project** : Equipment Purchases

**Strategic Goals Supported** : Enable a safe, welcoming, and engaged community .  
Collaborate with community partners to enhance quality of life .

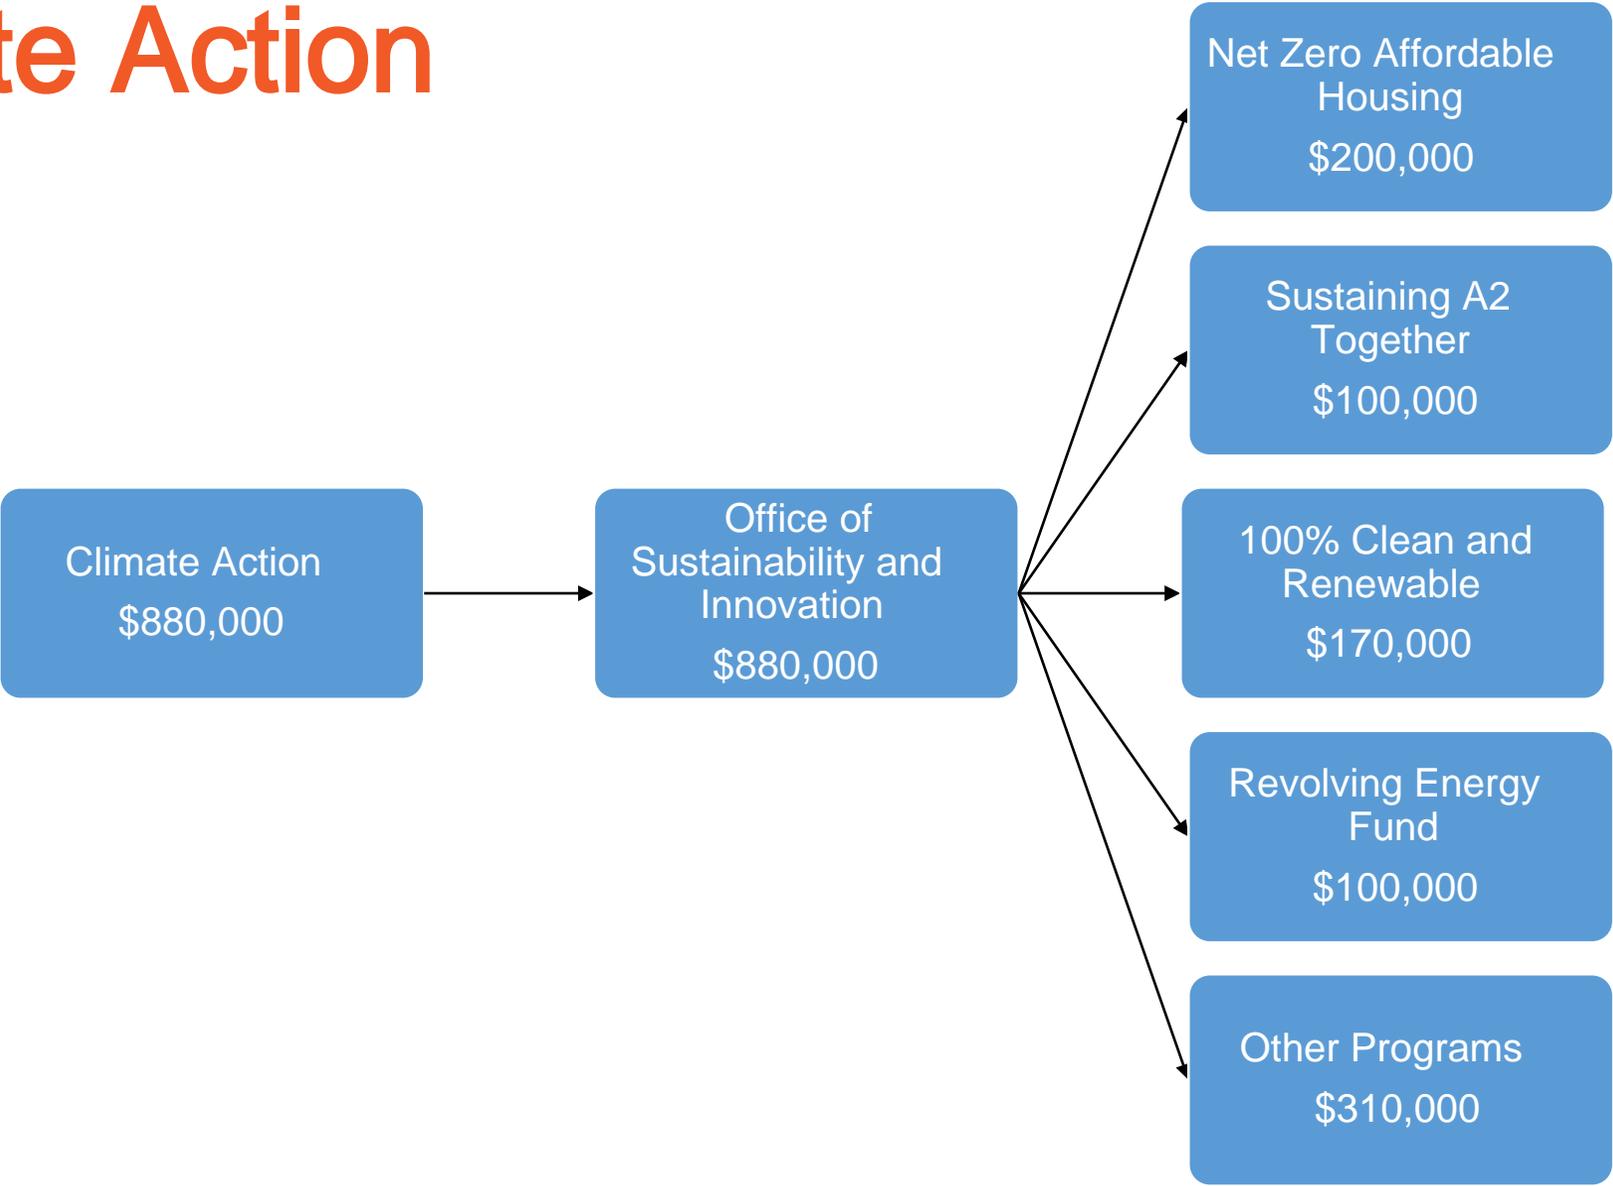

**Scope** : AAPD has non -recurring requirements for equipment (e.g. new body cameras, Taser replacements, microphones for motor cycle helmets), computer mapping, and data storage needs in FY20.

**Partner Agencies/Units** : AAPD ( Lead ), Purchasing, IT

**Allocation** : The City Administrator's budget recommended budget provides \$165,839 to meet these needs.

**Outcome(s)** : AAPD will report on the status of procurement and receipt of the items on a quarterly basis.

# Climate Action

# Climate Action

**Initiative/Project** : Net Zero Affordable Housing

**Strategic Goals Supported** :

- Enable a safe, welcoming, and engaged community .
- Protect the environment as responsible stewards of natural resources .
- Build and maintain sustainable infrastructure .
- Collaborate with community partners to enhance quality of life .

**Scope** : Every affordable housing site in the City of Ann Arbor should be net zero energy through the installation of on-site solar or access to community solar systems and improvements in operating efficiencies. Through the collaborative efforts of multiple partners, AAHC residents will see the health and economic benefits of moving to renewable energy systems.

**Partner Agencies/Units** : Office of Sustainability and Innovations (OSI)( Lead), AAHC, UM Battery Lab, Detroit Edison (DTE), US Housing and Urban Development (HUD), other external parties.

**Allocation** : The City Administrator's recommended budget provides \$200,000 to support Net Zero Affordable Housing improvements

**Outcome(s)** : All affordable housing complexes and units are energy positive or neutral by 2035. Incremental goals include creating one net zero energy affordable housing site during FY20 and five by 2025. Objective indicators include the following: 15% reduction in energy usage at renovated sites; 50% of energy use powered by local renewable sources; 90% of impacted residents have improved experiences; and 5% - 8% reduction in AAHC operating costs by 2035.

# Climate Action

**Initiative/Project** : Sustaining Ann Arbor Together (SA2T) Community Micro -grant Program

**Strategic Goals Supported** :

- Enable a safe, welcoming, and engaged community .
- Protect the environment as responsible stewards of natural resources .
- Build and maintain sustainable infrastructure .
- Collaborate with community partners to enhance quality of life .

**Scope** : This program provides small grants to residents, schools, local nonprofits, and local businesses to advance sustainability -related activities in Ann Arbor's right of way (i.e., streets, sidewalks, parks, etc.). The program has \$100,000 to award annually on a competitive basis. Grants are reviewed on a rolling basis with feedback provided to help strengthen applications.

**Partner Agencies/Units** : OSI (Lead); Nonprofit organizations serving Ann Arbor residents; neighborhood associations; University of Michigan faculty and students; Ann Arbor Public Schools; and all city departments, especially community outreach specialists.

**Allocation** : The City Administrator's budget recommended budget provides \$100,000 in support of SA2T.

**Outcome(s)** : Ten grants submitted starting in FY20 and FY21; \$100,000 allocated per year starting in FY20.

# Climate Action

**Initiative/Project** : 100% Clean and Renewable Energy for Municipal Operations

**Strategic Goals Supported** :

- Enable a safe, welcoming, and engaged community .
- Protect the environment as responsible stewards of natural resources .
- Build and maintain sustainable infrastructure .
- Collaborate with community partners to enhance quality of life .

**Scope** : City Council has established the goal of having all municipal operations run on clean and renewable sources of energy by no later than 2035. To do this, we will electrify natural gas dependent infrastructure, do deep energy efficiency audits and retrofits on City buildings, install on-site renewable energy, and explore regional renewable energy sources. In the first few years of this strategy, we focus on the buildings that make up about 75% of municipal energy consumption.

**Partner Agencies/Units** : OSI (Lead); Public Services, Fleet and Facilities, Parks and Recreation, City contractors

**Allocation** : The City Administrator's recommended budget provides \$170,000 in support of this initiative, distributed to professional services (\$25K); materials and supplies (\$20K); and equipment (\$125K).

**Outcome(s)** : Complete energy audits for the 10 largest City facilities in FY20 and install energy improvements in 5 of these facilities in FY21. The conversion of City energy use from non-renewable to renewable sources will be tracked annually.

# Climate Action

**Initiative/Project** : Revolving Energy Fund

**Strategic Goals Supported** :

- Enable a safe, welcoming, and engaged community .
- Protect the environment as responsible stewards of natural resources .
- Build and maintain sustainable infrastructure .
- Collaborate with community partners to enhance quality of life .

**Scope** : The Revolving Energy Fund is an internal account established to pay for the upfront cost of energy efficiency and renewable energy improvements, which are paid back through energy savings.

**Partner Agencies/Units** : OSI (Lead); All Other City Agencies

**Allocation** : The City Administrator's recommended budget provides \$100,000 for the Revolving Energy Fund.

**Outcome(s)** : The overall goal is to increase the energy efficiency of City operations by a minimum of 15% by 2025. The interim goal is to achieve a 10% energy reduction in the City's five largest facilities by the end of FY21.

# Climate Action

**Initiative/Project** : Other Programs

**Strategic Goals Supported** : Enable a safe, welcoming, and engaged community .  
Protect the environment as responsible stewards of natural resources .  
Build and maintain sustainable infrastructure .  
Collaborate with community partners to enhance quality of life .

**Scope** : Other programs addressed are Green Housing Rental, Resilience Hubs, Time of Marketing, Green Buildings Challenge, Aging in Place Efficiently, Weatherization Expansion, and Efficiency and Solar in the Community. These programs are further defined on the following pages.

**Partner Agencies/Units** : See following pages

**Allocation** : The City Administrator's budget recommended budget provides a combined total of \$310,000 for these initiatives. Funding may be reallocated among these initiatives depending upon how progress and feasibility are evaluated throughout the year.

**Outcome(s)** : The outcomes for these projects are detailed on the following pages.

# Climate Action

**Initiative/Project** : Green Rental Housing

**Scope** : This program improves energy efficiency and reduces energy bills for renters by adding energy efficiency requirements into the existing City rental licensing process, thereby ensuring that every rental unit in Ann Arbor meets a minimum energy efficiency performance standard. Training, rebates, and financing support are provided to landlords to support the transition to more energy efficiency rentals.

**Partner Agencies/Units** : OSI (Lead), Rocky Mountain Institute, Urban Sustainability Directors Network, University of Michigan's Beyond the Diag student off-campus housing program, Washtenaw Area Apartment Association, Ann Arbor Housing Commission, Michigan Saves, and Detroit Edison (DTE).

**Outcome(s)** : Rental efficiency standard established by end of FY20; Ordinance in place in FY22; No net increase in rents 3 years after ordinance effective date.

# Climate Action

## Initiative/Project : Resilience Hubs

**Scope :** Resilience hubs are community -serving facilities augmented to support residents and coordinate resource distribution and services before, during, or after a disaster. At their core, resilience hubs are about shifting power to communities and increasing community /neighborhood capacity. Resilience hubs operate at the nexus of climate mitigation, climate adaptation, and equity and strive to enhance and improve community sustainability and resilience through a bottom -up approach centered on co -development and leadership.

**Partner Agencies/Units :** OSI; Residents ; Local businesses; Emergency Manager; Community -Based Organizations; City's Communications Team; Police; Fire; Finance and Procurement; Washtenaw County Department of Community and Economic Development; City Planning; Washtenaw County Health Department; City's Farmer's Market Manager; Volunteer solar team; City's Public Works team; City's Legal team; City's Transportation Manager; Local community institutions; City's Parks and Recreation Department; and others as co -determined with the community in which each hub resides.

**Outcome(s) :** First resilience hub designed by end of FY20. At least partial implementation of resilience hub by FY21. Second resilience hub under design by end of FY21; 200 additional residents have emergency preparedness kits by end of FY21.

# Climate Action

**Initiative/Project** : Time of Marketing

**Scope** : This residential program requires home owners to disclose a Home Energy Score before they put their home up for sale. The energy disclosure gives potential buyers a more holistic sense for what the financial costs are for purchasing and living in any given home, thereby allowing them to make a more informed decision about whether or not a particular home is right for them. The program helps home buyers and home sellers access the information, programs, and financing needed to improve the efficiency of residences.

**Partner Agencies/Units** : Office of Sustainability and Innovations, Ann Arbor Energy Commission Time of Marketing Ordinance subcommittee, Ann Arbor Planning Commission.

**Outcome(s)** : Creation of a “time -of-marketing” / Home Energy Score Awareness ordinance in FY20; 1,000 homes disclose their energy usage publicly by 2021; residential greenhouse gas emissions have dropped 2% by 2021.

# Climate Action

**Initiative/Project** : Green Business Challenge

**Scope** : This program encourages, assists, and recognizes our businesses for engaging in more sustainable behaviors by providing technical assistance, guidance, and recognition to Ann Arbor businesses who voluntarily sign up to become more sustainable and lower their environmental footprint. While the program continually evolves, at its core the program focuses on: energy efficiency; renewable energy usage; waste reduction and material reuse; environmentally preferable purchasing (including buying local and non-toxic materials); water conservation; and supporting alternative transportation usage.

**Partner Agencies/Units** : OSI (Lead); Ann Arbor -Ypsilanti Regional Chamber of Commerce; Ann Arbor SPARK; City Public Works; City Public Services; Detroit Edison; Consumers Energy; Ecology Center; Huron River Watershed Council; Michigan Saves; Local banks; the Ann Arbor Downtown Development Authority; GetDowntown; Ann Arbor 2030 District; Portfolio Manager team at the Environmental Protection Agency; and Ann Arbor Area Transportation Authority. Ann Arbor Energy Commission Time of Marketing Ordinance subcommittee, Ann Arbor Planning Commission.

**Outcome(s)** : By the end of FY21 a Green Business Challenge program has been designed in partnership with the community . Fifty (50) local businesses participate in the Challenge by 2025; Collectively, businesses participating in the Challenge have reduced their energy consumption by 10%, increased waste diversion by 10%, reduced water consumption by 10%, eliminated single-use plastics, and removed 50% of toxic material from their businesses.

# Climate Action

**Initiative/Project** : Aging in Place Efficiently

**Scope** : The Aging in Place Efficiently program helps low -income seniors age in their homes for longer by providing physical and energy efficiency improvements to their residences. More specifically, this program integrates energy efficiency improvements into a wide variety of existing services currently available to seniors in our community.

**Partner Agencies/Units** : OSI (Lead); Local aging organizations; energy efficiency experts; Michigan Saves; Dr. Tony Reames; Ypsilanti CAPABLE team; Detroit Edison (DTE); Ann Arbor Housing Commission; Housing Bureau for Seniors; and the Ann Arbor Senior Center.

**Outcome(s)** : Number of seniors registered for program; 15% reduction in energy usage in 21 low -income seniors homes by 2021; sustainable funding source identified for the program

# Climate Action

**Initiative/Project** : Weatherization Expansion

**Scope** : Through this program, the City of Ann Arbor expanded weatherization support, especially for low income homeowners, increasing the uptake of existing weatherization services and raising income limits to qualify more Ann Arbor homeowners for free or low -cost energy efficiency improvements .

**Partner Agencies/Units** : OSI (Lead); Michigan Saves, Ann Arbor Meals on Wheels, Detroit Edison (DTE), and Consumers Energy.

**Outcome(s)** : Creation of a weatherization expansion initiative for Ann Arbor residents; and 12 Ann Arbor homes weatherized through this expansion by the end of FY 2020

# Climate Action

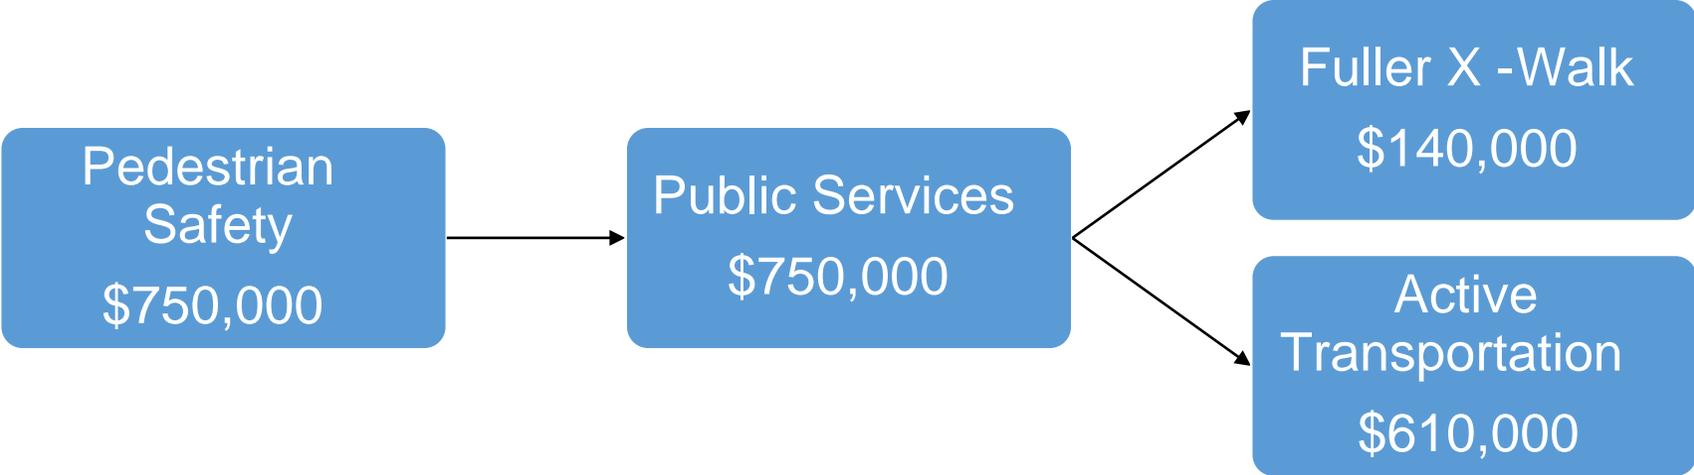

**Initiative/Project** : Efficiency and Solar in the Community .

**Scope** : This program combines a number of efforts under one umbrella to stimulate energy efficiency and renewable energy installations in the Ann Arbor community. The three primary elements of this work are: 1) a centralized concierge service that provides streamlined access to energy efficiency and renewable energy programs; 2) group renewable purchasing (including electric vehicle group buys); and 3) a constant drum beat of community events focused on energy efficiency and renewable energy .

**Partner Agencies/Units** : OSI (Lead); Detroit Edison (DTE); Michigan Saves; Ann Arbor Energy Commissioners; Consumers Energy; Local realtors; and Local landlords.

**Outcome(s)** : Create a concierge program with associated tools and marketing materials by end of FY20; At least 100 households served by the concierge by end of FY21; a 5% reduction in community -wide emissions by 2025 (based on 2000 figures ).

# Pedestrian Safety

# Pedestrian Safety

**Initiative/Project** : Fuller Crosswalk

**Strategic Goals Supported** : Enable a safe, welcoming, and engaged community .  
Build and maintain sustainable infrastructure .

**Scope** : Council passed Resolution R -19-118 at its March 18, 2019 meeting requesting that the City Administrator construct improvements at the current crosswalk on Fuller Road from the entrance to Gallup Park to the combined use trail adjacent to Huron High School prior to the start of the 2019 -2020 school year. The scope of work includes minor widening of the road, installation of a pedestrian refuge island, markings, signage, and a rectangular rapid flashing beacon (RRFB). The estimated cost is \$140,000.

**Partner Agencies/Units** : Public Services (Engineering)(Lead), Ann Arbor Public School System

**Allocation** : The City Administrator's budget recommended budget provides \$140,000 from the Street Millage Fund to provide for the estimated cost.

**Outcome(s)** : The road modifications, signage, signalization (RRFB), and markings required to complete the crosswalk improvements will be installed in FY20.

# Pedestrian Safety

**Initiative/Project** : Active Transportation/Pedestrian Improvements

**Strategic Goals Supported** : Enable a safe, welcoming, and engaged community .  
Build and maintain sustainable infrastructure .

**Scope** : The scope of work includes lighting improvements, crosswalk upgrades, school zone signs and signalization, beacons and flashers, designated bicycle facilities, and other related items.

**Partner Agencies/Units** : Public Services (Engineering)(Lead), Ann Arbor Public School System

**Allocation** : The City Administrator's budget recommended budget provides \$440,000 from the County Millage Rebate per Council policy and an additional \$170,000 from other General Fund sources to address the designated scope of work.

**Outcome(s)**: The priority locations for lighting, crosswalk, and other improvements are contained in separate communications with Council. Public Services has the goal of completing  $\geq 80\%$  of the work provided in the FY20 plan. Other outcomes to be tracked include changes in driver stopping behavior and changes in crash totals involving pedestrians and cyclists.

**To:** CityCouncil  
**Subject:** Council speaking rules and public hearings...

I touched on this at Caucus, but for those of you who weren't there I figured I'd send an e-mail.

Anyway, I wanted to bring up some issues with Council's speaking rules and how they impact the public's ability to speak at meetings. Currently, it often feels like a mad scramble at 8am on Monday's before a Council meeting to get those reserved time slots, particularly when there is a contentious agenda item without a public hearing. As a result, it can be hard to get on the agenda, and becomes impossible if you spoke recently or want to speak on a non-agenda item. And it can also be difficult if you have multiple issues you want to speak to without public hearings.

With that said, could Council consider expanding public hearings to more agenda items? As it stands, it mostly only includes ordinances, leaving out resolutions. In San Diego, I saw they take the approach of having public comment on each agenda item, and a non-agenda comment period but limiting time to 1 minutes. There obviously may be many other possible approaches as well - San Diego is just one I mentioned because I'm familiar with it. I know we have the caucus meeting, but it seems not all councilmembers regularly attend these. And general time is frequently very late at night (with meetings often going past midnight) and is too late when an item has already passed.

On that topic, I feel like Council should also look at finding ways to make their meetings more efficient. They are quite late as it is, and adding more public hearings would obviously impact the length. One idea would be to enforce stricter parliamentary procedure. If you need extra time, it would perhaps be a good idea to schedule an additional meeting (perhaps on non-Council Monday nights as needed) rather than have one that goes super late. Obviously these are somewhat conflicting goals, though I think both are worth looking into.

Hope you look into this - wanted to bring it to your attention, but figured it was a bit to “in the weeds” to bring up at public comment of a regular Council meetings.

I can ask Annie Somerville from Senator Irwin's office... but do you think any other members of Council might put up resistance? The intention might have been just the elected officials, and a new, bigger room might have to be arranged. I've copied CM Eaton, in case he has any advice about OMA issues, etc. — Anne

**Cc:** Lester Wyborny; Tom Stulberg; Eaton, Jack; Hayner, Jeff; Griswold, Kathy; Higgins, Sara; Allen, Jane (Engineering); Hupy, Craig; Hutchinson, Nicholas; ASomerville@senate.michigan.gov; SenJlIrwin@senate.michigan.gov; Williamson, John  
**Subject:** MDOT two sidewalks and eight vote requirements?

Dear Mr. Lazarus,

Please provide to us a written statement from MDOT about whether they require two sidewalks for the Northside STEAM SRTS project, especially in light of the strong opposition from the residents.

In the Post Script below, an email exchange with the Michigan Fitness Foundation is provided, but an official confirmation directly from MDOT is needed.

Please provide documentation of any emails or conversations with MDOT or Michigan Fitness Foundation, where staff has advocated on behalf of residents for the desired only one sidewalk on Traver and no sidewalk on Brookside. There is concern about jeopardizing our grantee relationship with MDOT if/when the project fails. We would like confirmation that significant actions have been taken to communicate with MDOT about the challenges to the project, including the numerous suggestions that have been provided by residents, and that you have tried everything within your powers to negotiate on our behalf to save the grant funding and fix this broken project.

Resolution 19-0567 is back on the attached Agenda for April 15 (bottom of page 11):  
<http://a2gov.legistar.com/LegislationDetail.aspx?ID=3895284&GUID=35A5675E-1759-4898-B73D-220CCD3AEE6E> Please confirm how many votes are currently required and the process to require eight votes, if not already required. There is confusion over the process, including any requirements to the format and the deadline for the signatures. If you have a template, please send it us.

Please voluntarily offer any additional information that would assist us as we try to work together to fix this broken project and avoid unnecessary lawsuits from the residents.

Sincerely,

Anne Bannister

P.S. An excerpt from the Agenda Responses (attached, pages 10 - 12):

**CA-14 - Resolution No. 3 Establishing a Public Hearing on May 6, 2019 for the Northside STEAM Safe Routes to School Sidewalk Gap Special Assessment Project**

**Question:** Has staff received a written statement from the MDOT confirming that this project requires sidewalks on both sides of Traver Road?  
(Councilmember Eaton)

**Response:** Yes. This issue was verified by Colleen Synk, the MDOT Safe Routes to Schools Grant Coordinator for this area, in a July 9, 2018 email, and shared with residents and City Council at that time. Ms. Synk's e-mail states, in part, "The SRTS grant funding for Michigan follows a complete streets policy. Applying for sidewalk on one side of the street would make the application less competitive for funding.

Applications that do propose sidewalk on only one side of the street are carefully reviewed throughout our process for the context specific reasons for a scope of work which is outside what we generally consider eligible. To my knowledge, the proposals where we awarded funding to put in sidewalk on one side were zoned as either industrial or agricultural. Further, putting sidewalk in on both sides of these projects did not increase connectivity or was not feasible give topographic constraints. None of these situations would apply to the residential context of the A2STEAM project, thereby making sidewalks on both sides of a street a requirement to remain competitive for funding."

A resident reached out to the Michigan Fitness Foundation and spoke to Colleen's colleague Max Fulkerson, and claimed he said something contrary to that in a phone conversation in October 2018. However, when he was questioned about his response, he had the following to say in an October 22, 2018 email: "Hi, Colleen. The statements attributed to me are not exactly what I said or how I said it. It seems like the resident selected statements I made and then took them out of context, left off caveats, and twisted my words to fit her agenda.

I agree with all your statements, Colleen. My message was consistent with yours. I cited some unusual examples when sidewalks on both sides of the

street would not be required, based on geography or land use, but the resident drew the wrong conclusions.”

**Question:** Regarding CA-14, can you please confirm the assessment amounts have been developed using the standard methodology used in other sidewalk gap projects? (Council member Lumm)

**Response:** Yes, the assessment amount utilized the methodologies outlined by current City Code and past sidewalk gap projects. To compute the proposed special assessment amounts, the cost of construction (e.g. cost of contractor mobilization, sidewalk grading, concrete, the base sand or aggregate, restoration, and other similar items) is estimated based on the proposed work. To that value we then subtract the value of any outside funding (SRTS Grant or STP funds), and add the estimated costs of inspection/testing/administration for a total assessable cost. The assessable cost is then divided by the total length of sidewalk being installed to obtain the cost per lineal foot of sidewalk installed. Un-assessable amounts of project costs, if any, are then determined and labelled on the assessment role as City Share Non-

recoverable. Corner parcels are assessed 100% for their frontage length and 50% of the side length.

**Question:** Why was this being on the April 1 agenda not mentioned/discussed by Mr. Lazarus and Mr. Hupy when we met on March 27? Please keep everyone (residents and Councilmembers) better informed about "What's Happening?", not only with the MI Fitness Foundation/MDOT process, but also with the City Council process in the face of a nearly unanimous objection to the project as written. Please confirm the process for the residents to file an objection with the City Clerk, and whether a super majority of 8 votes on Council will then be required at May 6th. What will or will not happen if the April 1 and May 6 vote fails? I believe I've asked for this information many times, but as a reminder, please voluntarily share any and all information you think Councilmembers and residents would like or need to know about this project, given the strong objection to it by the impacted residents. (Council member Bannister)

**Response:** The inclusion of this resolution (Resolution No. 3 of 4) on the Council agenda is a procedural item and is needed in order to set the public hearing to allow the public to formally comment of the proposed special assessment roll and to allow Council to take action to confirm or annul the roll on May 6 (Resolution No. 4 of 4).

Objections to a special assessment roll are set forth under City Code Section 1:290, which provides:

“Any person aggrieved by the special assessment roll or the necessity of the improvement may file objections to the roll in writing with the Clerk prior to the close of the hearing. The written objections shall specify in what respect the person believes him or herself aggrieved. No original assessment roll shall be confirmed except by the affirmative vote of 8 members of the Council if prior to the confirmation written objections to the proposed improvement have been filed by the owners of property which will be required to bear over 50% of the amount of the special assessment.”

If objections were submitted, staff would need to review them for compliance with the Code and add up the assessment value on all objecting owners' properties to determine whether it totaled over 50% of the whole assessment, thus triggering the 8-vote requirement at the May 6 meeting.

City Code section 1:289 requires Council to set a hearing on the proposed roll. If the April 1 vote fails, Council will need to select another date for a public hearing. If the May 6 vote (Resolution 4) to confirm the assessment fails, then the project would be underfunded by the amount of the special assessment. In addition, the City would not execute the City/State agreement to receive the grant funds nor award the project under the June 7 state bid letting for grant-funded projects. Note, if the City elects to not utilize the state/federal grant funds for this project, it will most probably have an adverse effect on the City receiving TAP grant funding for the next two fiscal years.

indeed, Wow.

I wish you would introduce a Resolution for the City to support and encourage citizen participation in these opportunities to gather and meet one another, and to accept an invitation to the Mayor, or his representative, to speak on Earth Day relevant concerns, especially City vision on Climate Change mitigation and adaptation policies.

Howard somehow sets himself as the definer of what is Successful and protector of the City Brand.

Why he would speculate that we would not have insurance, I don't know, when I had just written him we always have had insurance and would have for this program. I raised questions about the onerous effect of the insurance requirement and that for ordinary programs of gathering there should not be the requirement, a topic for more discussion..

Our previous discussions had been quite amiable. This letter was nasty. Someone or some thing got to him.

I presumed familiarity and invited him and his wife to the program.

as for success:

If 50 people come together and passer bys stop in and music and talk is gong on and children playing in a place to play, that seems pretty successful. if some clear things are said and heard, that is even more successful. More people could come, who knows, they always have

if the invited speakers come, it will be even more successful. If the Observer notice and face book gather wider notice, if the weather is good, who knows. It could be fun and unexpected.

We're not planning Hash Bash...just a day in the park and conscious talk and hopefully good relating. It requires no city staff help at all... except a positive attitude and sending out notice

through the communication system

Introducing a Resolution to take notice of this 6th Annual Downtown Earth Day observance and to encourage participation will at least give an opportunity for a "yes" to actually using the Central Park and Civic Center Commons voted in the November Election. . And a "no" will say something too.

Please do, someone. See what happens. Maybe unanimity. Maybe controversy will draw a crowd.

If it is on the agenda, I will certainly be at the meeting to answer questions, if there are any.

I hope you will. Best wishes

Alan

Councilmembers:

I am writing to share my concerns about the Earth Day event below and the overall approach to transforming the public perception of the Library Lot from a parking lot to the vibrant and sustainable City Center Commons now envisioned in the City Charter. In general, the lack of planning and attention to detail is troubling and may damage the City's image as follows:

- I am not comfortable with re-sharing the information below as the organizer does not have a I am not yet certain that the event organizers have provided the necessary insurance or deposits necessary to hold an event on the site. DDA has verbally agreed to waive any fees, a necessary condition but not sufficient by itself.
- I do not have confidence that the events described below will take place. I remind you that the organizer had put forward an equally ambitious plan for Presidents Day which never

materialized. The City should be protective of its “brand” and not be affiliated with an event until there is reasonable assurance it will be successful.

- It is inappropriate for a third party to state that this event is the “Opening Inauguration of the Center of the City Central Park and Civic Center Commons.” That should rightly be a City event officiated by our elected body. There remains a goodly amount of work to be performed legally and financially, as well as coordination with AADL before we are ready to make this type of dedication.

- The organizers have no website from which our social media outlets can “re-share” information. The launching of a website is a reasonable indicator that these events are credible.

The bottom line is the organizers have to make the transition from advocates to responsible and equal partners. That means providing their planned schedule of events with sufficient lead time to properly plan and execute the events – working with City staff and not around them.

My recommendation is to proceed with care. I have often used the carpenter’s credo to “measure twice and cut once.” I think that is most appropriate in this case, and is protective of your standing as representatives of the City. As always, please reach out to me if you have any questions or to discuss your concerns.

**Subject:** Re: A2Commons Activation of the Center of the City Commons: Draft Resolution

Dear Mr Mayor and City Council Members,

In behalf of Downtown Earth Day Week Openings organizers, I invite you all to participate in the Earth Day activities on Easter Sunday afternoon and Monday April 22, International Earth Day, in the Center of the City. We hope you, Mr. Mayor, or someone you might designate, will speak on Ann Arbor City vision in dealing with Climate Change and policies of mitigation, adaptation and sustainability.

We hope you will let the people of Ann Arbor and of your Wards know of this program. There will be other speakers and open mic times, as well as music and opportunities for conversation. A Spring day or two in the park, helping inaugurate the old Library Lot as a new Central Park and Civic Center Commons, inviting picnics, play, sociability and some serious thinking together. ...good for Easter afternoon and Earth Day Monday,

We hope you will issue an "Earth Day Declaration and Proclamation, drawing attention to some of the questions needing serious thinking together.

Earth Day Week concludes the next Sunday, April 28 at the Leslie Science Center. The whole week could be a time encouraged for deep reflection on our relations with the earth and the ethics and obligations of stewardship.

This voluntary citizen endeavor, the 6th annual, in the Center of the City is a good opportunity for the Council and Mayor to offer leadership and focus on these challenging questions, and a healing in our own relationships among ourselves.

We are putting together the program scheduling beginning of next week. Please let me know, Mr. Mayor, if you would like to speak, and be willing, or a representative, and roughly when or whens are possible times, and likewise other Council members.

Behind the scene at the HashBash, all our Congressional and State elected officials agreed to speak, though I haven't heard back their confirmations yet. ...it was a heady time full of enthusiasm and passion. Other speakers are and will be invited.

Suggestions appreciated.

Hoping you find this invitation inviting and will give it your affirmative attentions.

Do not hesitate to call with questions, should you have any.

With all good wishes

Alan Haber,  
for the Earth Day Week Downtown Openings working group.

On Mon, Apr 8, 2019 at 9:32 PM alan haber <[redacted]> wrote:

Hello City Council and Mayor, ..and Administrator, Clerk, Attorney and Community Service Staff and Downtown Development Director.

As you know, I am one of the eager ones, ready to un-pave the parking lot to put up paradise, and make the very best of what is possible in the center of our City.

I am glad for your unanimous affirmation of the Taskforce process to help develop a long term plan with all the voices at the table.

Before the long term, though, there is now,

The surface parking lot land use was re-purposed, via the City Charter Amendment, now to be a "commons," called the Center of the City, phasing out

the "temporary use" of the roof of the Underground Parking Structure as a surface parking lot, and phasing in community use of the public space.

The "draft" Resolution, below, trying to be practical, suggests the elements I think need emphasis, encouraging activation now, of the Library Lane Lot as an available community space for public use, until the Taskforce report might suggest different procedures,

As many of you know, I am involved in the Earth Day Week Downtown Openings April 21 -22, as I and many have been for the last 5 years on the Library Lot, and also in September for Peace Days . Downtown Earth Day is a good event. I want you to co-sponsor it. The point, though, is that many more such activities of fun and community benefit could take place in this Center of the City space .

This Resolution tries to let all Ann Arbor know of the opportunity, and make it easy for groups to make use of the space.

I hope one or more or all of you will put it on your next Agenda for affirmation, ...or just pass it onto the City Administrator to implement, with no need for a vote on obviously good and timely ideas..

Thank you for your attentions. I would, of course, appreciate hearing your ideas and how to make this activation even better.

Alan Haber.

\*\*\*\*\*  
\*\*\*\*\*

RESOLUTION: Activation of the Center of the City Commons for Public Use.

Whereas the Taskforce Resolution on long term plan development is scheduled to report on February 28, 2020, 10 months away, and

Whereas Proposal A directs that the City owned property be developed...beginning now, as well as in 10 months, and

Whereas there are many possible beneficial and safe community uses of the parking lot surface area that could take place before any long term plan is developed and agreed for the overall complex and full extent of the public land designated as the Center of the City, and

Whereas many ideas have been suggested that community or special groups might bring to the "Center of the City", such as ...

- Blooms Day, 3rd Saturday in May
- 4th of July after the parade party
- art fair art instead of parking
- comic opera theater
- flea market
- used book fair
- wood workers and carvers showl
- toymakers show and play day
- tiny house design show and tell
- gardeners show and plant
- food cart and cook gathering
- green fair extension
- festival of ideas
- any of which and others could be positive community experiences on the now parking lot, and

Whereas the imaginations and desires of the people are likely a good gauge of the potential for community uses, and hence valuable for the observation by the Taskforce, and

Whereas possible coordination needs created by the imaginations and desires of all Ann Arbor might require at least a part time "site manager" staff person, until a long term plan is in place, and

Whereas funds have been collected by DDA for parking on the surface lot since November 6, 2018, when it was designated as Central Park and Civic Center Commons

Therefore. the City Council determines to encourage "activation" of the Library Lot surface, even before the Taskforce report is completed, and

The City Council directs City Communications staff to make known in a special message to the people of Ann Arbor, addressed (in so far as possible) to all Ann Arbor community organizations, groups and clubs, neighborhood associations, arts and theater groups, ethnic

groups, youth groups, schools, and the public, announcing:

1. that the Library Lane Parking Lot is now available for public use for public programs of community interest.
2. that groups can schedule program use through the City Community Services Office, as has been the case for special non-competitive events, for a modest fee, \$34 to coordinate with public safety services and electric connection
3. that during the time of such programs public parking will be closed on the surface lot, and
- 4 that Liability Insurance for such public events will be provided within the City and DDA general Liability Insurance policies for activity on public land, with the exception of events serving alcohol or involving pyrotechnics, or hazardous materials or activities, in which case separate Liability Insurance will be required of the program organizers..

The City Council directs that funds collected for parking on the Library Lane Surface Lot, since November 6, 2018 and on going, shall for held in a "Commons Development Fund" for development of the Center of the City Central Park and Civic Center Commons, after deduction for any overhead costs for collecting the parking revenue, and

The City Council requests the City Administrator, in coordination with DDA, to find funds to finance and hire a part time "site manager," until the Taskforce report is submitted.

Dear Councilmember Bannister:

Earlier today I sent a copy of a file containing the new funding initiatives in my FY2020 proposed budget. The document described the following

program items related to your inquiry:

- Community Mental Health - Additional Supportive Services at AAHC Facilities (\$300,000)
- Community Mental Health – AAPD Crisis Intervention Assistance and Stabilization Services (\$24,900)
- Community Mental Health – Youth Outreach and Engagement (\$24,900)
- Affordable Housing – Additional Supportive Services at AAHC Facilities (\$220,000)
- Affordable Housing – Contribution to the Affordable Housing Fund (\$660,000)
- Climate Action – Net Zero Affordable Housing (\$200,000)
- Climate Action – Sustaining Ann Arbor Together (SA2T) Community Micro-Grant Program (\$100,000)
- Climate Action – Green Rental Housing (from \$310,000 in Other Programs)
- Climate Action – Resilience Hubs (from \$310,000 in Other Programs)
- Climate Action – Aging in Place Efficiently (from \$310,000 in Other Programs)
- Climate Action – Weatherization Expansion (from \$310,000 in Other Programs)
- Climate Action – Efficiency and Solar in the Community (from \$310,000 in Other Programs)
- Pedestrian Safety – Fuller Crosswalk (\$140,000)
- Pedestrian Safety – Active Transportation/Pedestrian Improvements (\$610,000)

In addition to these programs, the FY20 budget continues to provide for the following:

- Community development funding in the Community Services budget of \$6,614,016, inclusive of OCED and AAHC (including the County millage rebate of \$880,000 described above).
- Sobriety Court, Veterans Court, Indigent Defense through funds the 15<sup>th</sup> District Court obtains. Total 15<sup>th</sup> District Court funding totals \$5,358,087.

Finally, it is important to note that 38% of the County Public Safety and Mental Health Millage (~\$3.5M) from Ann Arbor taxpayers directly funds Washtenaw County Community Mental Health.

**Subject:** RE: Thank You for Supporting Services for People Living with  
Mental Health Issues!

Dear Mr. Lazarus,

On Saturday morning April 13 from 10 AM - 12 noon at the Washtenaw County offices at 200 North Main, there will be a panel discussion about mental health services and funding. Councilmember Chip Smith and I are on the panel, along with Andy Labarre and Glenn Nelson.

In addition to Councilmember Lumm's email below, please provide any updates you're considering for the City Administrator's budget.

For example, have you or staff had any communications with these community partners about how the City could work together with them on data-driven solutions for services and funding?

1. UMHS Psychiatric Emergency Service -  
- <https://medicine.umich.edu/dept/psychiatry/patient-care/psychiatric-emergency-service>
2. UM Depression Center -- <https://www.depressioncenter.org>
3. UM Health Services for Students -  
- <https://www.uhs.umich.edu/mentalhealthsvcs>
4. UM Regional Alliance for Healthy Schools -- <https://umhs-rahs.org>
5. 15th District Court, Judge Karen Quilan Valvo -  
- <https://www.a2gov.org/departments/15D/Pages/default.aspx>
6. Neutral Zone -- <https://www.neutral-zone.org>
7. AAPS -- <https://www.a2schools.org/domain/2965>
8. AAPS Board of Education -- <https://www.a2schools.org/Domain/275>
9. Law Enforcement -- AAPD, WCSO, and UM DPSS

As we seek to define and explore mental health services, it has also come to light that some initiatives like affordable housing, affordability and financial security, and wellness programs can all touch on mental health. For example, several of us attended the meeting yesterday at the Leslie Science and Natural Center for the new Playscape Project. As we learned on the tour, the playscape will be designed for universal access and with special features for children on the autism spectrum. Please speak to ways that these types of projects might figure into your thinking about mental health issues.

Thanks for your input!

**Cc:** Alice Carter; Glenn Nelson  
**Subject:** RE: Thank You for Supporting Services for People Living with Mental Health Issues!

Thank you for your kind thanks and words of support, Alice and Glenn. Your advocacy was critical, particularly given that you were challenged by such well-organized advocacy groups.

The thought that we're just giving the mental health money back to the County (and not necessarily used in the City) is nonsense. As I suspect you know, the City of AA allocates \$1.3M to roughly 15 local non-profits, and many/most provide mental-health related support services. I just looked at this FY budget, and here are some of the agencies we're now

funding that might be potential recipients of this new funding, if included in the City Administrator's budget:

Avalon Housing, Inc.  
Barrier Busters Actions Group  
Catholic Social Services of Washtenaw  
Child Care Network  
Community Action Network  
Domestic Violence Project, Inc.  
Home of New Viswion  
Jewish Family Services of Washtenaw County  
Michigan Ability Partners  
Ozone House, Inc.  
Peace Neighborhood Center  
Perry Nursery School of An Arbor  
Salvation Army of Washtenaw County  
Shelter Assn. of Washtenaw County  
UM-AA Meals on Wheels  
UMHS- Housing Bureau for Seniors  
The Women's Center of Southeastern Michigan  
Washtenaw Assn. for Community Advocacy  
Washtenaw Community Health Organization – Agency  
Washtenaw County Community Mental Health

So, as you can see and well appreciate, there are many possible applications for the utilization of these mental health funds. If you and the Citizens for Mental Health & Public Safety would like to offer any suggestions/recommendations for how these funds can best advance mental health services where most needed, I know we would welcome your input.

And, how very kind of you to say our votes helped lessen our citizens' cynicism and increased their trust – your words are empowering, and mean so very much!

Utmost thanks to you, Glenn and Alice and all your friends and colleagues who have worked so hard to ensure that these funds are allocated as our citizens want and need.

Jane

**Subject:** Thank You for Supporting Services for People Living with Mental Health Issues!

Council Members Ackerman, Bannister, Eaton, Griswold, Lumm,  
Nelson and Ramlawi,

Thank you for your support for DC-4 as amended, a.k.a. the Lumm Resolution, at last night's (4/1) City Council meeting! Assuming the City Administrator follows your direction and Council members approve this component of the budget, the \$355,000 allocated to mental health services will improve the lives of a significant number of Ann Arbor citizens. In addition, your actions demonstrate to voters that you understand many of them voted for improving mental health services when they supported the County Millage. Your vote helped lessen cynicism and increased trust among citizens.

Our citizens group will disseminate information about your good work in support of those living with mental health issues. Thanks again.

Sincerely,  
Alice Carter and Glenn Nelson  
Co-Chairs  
Citizens for Mental Health & Public Safety

**Subject:** RE: Two local Earth Day celebrations this month!

Councilmembers:

I am writing to share my concerns about the Earth Day event below and the overall approach to transforming the public perception of the Library Lot from a parking lot to the vibrant and sustainable City Center Commons now envisioned in the City Charter. In general, the lack of planning and attention to detail is troubling and may damage the City's image as follows:

- I am not comfortable with re-sharing the information below as the organizer does not have a I am not yet certain that the event organizers have provided the necessary insurance or deposits necessary to hold an event on the site. DDA has verbally agreed to waive any fees, a necessary condition but not sufficient by itself.
- I do not have confidence that the events described below will take place. I remind you that the organizer had put forward an equally ambitious plan for Presidents Day which never materialized. The City should be protective of its "brand" and not be affiliated with an event until there is reasonable assurance it will be successful.
- It is inappropriate for a third party to state that this event is the "Opening Inauguration of the Center of the City Central Park and Civic Center Commons." That should rightly be a City event officiated by our elected body. There remains a goodly amount of work to be performed legally and financially, as well as coordination with AADL before we are ready to make this type of dedication.
- The organizers have no website from which our social media outlets can "re-share" information.

The launching of a website is a reasonable indicator that these events are credible.

The bottom line is the organizers have to make the transition from advocates to responsible and equal partners. That means providing their planned schedule of events with sufficient lead time to properly plan and execute the events – working with City staff and not around them.

My recommendation is to proceed with care. I have often used the carpenter’s credo to “measure twice and cut once.” I think that is most appropriate in this case, and is protective of your standing as representatives of the City. As always, please reach out to me if you have any questions or to discuss your concerns.

Dear Councilmember Bannister:

Earlier today I sent a copy of a file containing the new funding initiatives in my FY2020 proposed budget. The document described the following program items related to your inquiry:

- Community Mental Health - Additional Supportive Services at AAHC Facilities (\$300,000)
- Community Mental Health – AAPD Crisis Intervention Assistance and Stabilization Services (\$24,900)
- Community Mental Health – Youth Outreach and Engagement (\$24,900)
- Affordable Housing – Additional Supportive Services at AAHC Facilities (\$220,000)
- Affordable Housing – Contribution to the Affordable Housing Fund (\$660,000)
- Climate Action – Net Zero Affordable Housing (\$200,000)
- Climate Action – Sustaining Ann Arbor Together (SA2T) Community Micro-Grant Program (\$100,000)
- Climate Action – Green Rental Housing (from \$310,000 in Other Programs)
- Climate Action – Resilience Hubs (from \$310,000 in Other Programs)
- Climate Action – Aging in Place Efficiently (from \$310,000 in Other Programs)
- Climate Action – Weatherization Expansion (from \$310,000 in Other Programs)
- Climate Action – Efficiency and Solar in the Community (from \$310,000 in Other Programs)
- Pedestrian Safety – Fuller Crosswalk (\$140,000)
- Pedestrian Safety – Active Transportation/Pedestrian Improvements (\$610,000)

In addition to these programs, the FY20 budget continues to provide for the following:

- Community development funding in the Community Services budget of \$6,614,016, inclusive of

OCED and AAHC (including the County millage rebate of \$880,000 described above).

- Sobriety Court, Veterans Court, Indigent Defense through funds the 15<sup>th</sup> District Court obtains. Total 15<sup>th</sup> District Court funding totals \$5,358,087.

Finally, it is important to note that 38% of the County Public Safety and Mental Health Millage (~\$3.5M) from Ann Arbor taxpayers directly funds Washtenaw County Community Mental Health.

**Subject:** RE: Thank You for Supporting Services for People Living with Mental Health Issues!

Dear Mr. Lazarus,

On Saturday morning April 13 from 10 AM - 12 noon at the Washtenaw County offices at 200 North Main, there will be a panel discussion about mental health services and funding. Councilmember Chip Smith and I are on the panel, along with Andy Labarre and Glenn Nelson.

In addition to Councilmember Lumm's email below, please provide any updates you're considering for the City Administrator's budget.

For example, have you or staff had any communications with these community partners about how the City could work together with them on data-driven solutions for services and funding?

1. UMHS Psychiatric Emergency Service -- <https://medicine.umich.edu/dept/psychiatry/patient-care/psychiatric-emergency-service>
2. UM Depression Center -- <https://www.depressioncenter.org>
3. UM Health Services for Students -- <https://www.uhs.umich.edu/mentalhealthsvcs>
4. UM Regional Alliance for Healthy Schools -- <https://umhs-rahs.org>
5. 15th District Court, Judge Karen Quilan Valvo -  
- <https://www.a2gov.org/departments/15D/Pages/default.aspx>
6. Neutral Zone -- <https://www.neutral-zone.org>
7. AAPS -- <https://www.a2schools.org/domain/2965>
8. AAPS Board of Education -- <https://www.a2schools.org/Domain/275>
9. Law Enforcement -- AAPD, WCSO, and UM DPSS

As we seek to define and explore mental health services, it has also come to light that some initiatives like affordable housing, affordability and financial security, and wellness programs can all touch on mental health. For example, several of us attended the meeting yesterday at the Leslie Science and Natural Center for the new Playscape Project. As we learned on the tour, the playscape will be designed for universal access and with special features for children on the autism spectrum. Please speak to ways that these types of projects might figure into your thinking about mental health issues.

Thanks for your input!

Anne Bannister  
Ward One Councilmember

**From:** Lumm, Jane  
**Sent:** Wednesday, April 03, 2019 9:51 AM  
**To:** a2MentalHealth Millage; Bannister, Anne; Griswold, Kathy; Ackerman, Zach; Eaton, Jack; Nelson, Elizabeth; Ramlawi, Ali  
**Cc:** Alice Carter; Glenn Nelson  
**Subject:** RE: Thank You for Supporting Services for People Living with Mental Health Issues!

Thank you for your kind thanks and words of support, Alice and Glenn. Your advocacy was critical, particularly given that you were challenged by such well-organized advocacy groups.

The thought that we're just giving the mental health money back to the County (and not necessarily used in the City) is nonsense. As I suspect you know, the City of AA allocates \$1.3M to roughly 15 local non-profits, and many/most provide mental-health related support services. I just looked at this FY budget, and here are some of the agencies we're now funding that might be potential recipients of this new funding, if included in the City Administrator's budget:

- Avalon Housing, Inc.
- Barrier Busters Actions Group
- Catholic Social Services of Washtenaw
- Child Care Network
- Community Action Network
- Domestic Violence Project, Inc.

Home of New Viswion  
Jewish Family Services of Washtenaw County  
Michigan Ability Partners  
Ozone House, Inc.  
Peace Neighborhood Center  
Perry Nursery School of An Arbor  
Salvation Army of Washtenaw County  
Shelter Assn. of Washtenaw County  
UM-AA Meals on Wheels  
UMHS- Housing Bureau for Seniors  
The Women's Center of Southeastern Michigan  
Washtenaw Assn. for Community Advocacy  
Washtenaw Community Health Organization – Agency  
Washtenaw County Community Mental Health

So, as you can see and well appreciate, there are many possible applications for the utilization of these mental health funds. If you and the Citizens for Mental Health & Public Safety would like to offer any suggestions/recommendations for how these funds can best advance mental health services where most needed, I know we would welcome your input.

And, how very kind of you to say our votes helped lessen our citizens' cynicism and increased their trust – your words are empowering, and mean so very much!

Utmost thanks to you, Glenn and Alice and all your friends and colleagues who have worked so hard to ensure that these funds are allocated as our citizens want and need.

Jane

**Cc:** Alice Carter <[REDACTED]> Glenn Nelson <[REDACTED]>

**Subject:** Thank You for Supporting Services for People Living with Mental Health Issues!

Council Members Ackerman, Bannister, Eaton, Griswold, Lumm, Nelson and Ramlawi,

Thank you for your support for DC-4 as amended, a.k.a. the Lumm Resolution, at last night's (4/1) City Council meeting! Assuming the City Administrator follows your direction and Council members approve this component of the budget, the \$355,000 allocated to mental health services will improve the lives of a significant number of Ann Arbor citizens. In addition, your actions demonstrate to voters that you understand many of them voted for improving mental health services when they supported the County Millage. Your vote helped

lessen cynicism and increased trust among citizens.

Our citizens group will disseminate information about your good work in support of those living with mental health issues. Thanks again.

Sincerely,  
Alice Carter and Glenn Nelson  
Co-Chairs  
Citizens for Mental Health & Public Safety

**Subject:** New Funding Programs - Resolution R-19-136

Mayor and Councilmembers:

I am forwarding the attached document, 190415 – New Funding Programs, in response to the direction Council provided in the enacted resolution R-19-136, Resolution Directing the City Administrator to Provide Additional Funding in the FY20/21 Budget and Financial Plan to Address Affordable Housing, Climate Action, and Pedestrian Safety and Provide SMART Outcomes. The document is provided in Power Point format to better serve as a reference document for you, as well as to form the basis for any presentations you for which you may wish to use it. We will also attach it as a City Administrator’s Communication and post it on the City’s web site.

I want to express my appreciation to all staff members and partners who provided input, as we seek to operate openly and transparently, with accountability for the resources our community has so generously provided.

**Howard S. Lazarus**

Kathy, I wrote about this in this and last year's evaluations. He does not acknowledge or change. And, this behavior permeates across the organization. Sometimes I actually find myself wondering, why have a council. In many ways, we are an impediment to Mr. Lazarus and his staff, and there is no amt. of counseling that will change this behavior.

This council/administrator "dynamic" began with the tenure of Mr. Lazarus. I never experienced this with any of his predecessors.

**Subject:** FW: Earhart Road Safety Improvements Open House

Mr. Lazarus,

On April 2<sup>nd</sup>, I met with Mr. Hupy, Mr. Hess and w/Ms. Seyfarth to discuss the Earhart Rd. project and community meeting format – Ms. Redinger did not attend, and so it was not my impression or understanding that Ms. Redinger would be involved in / had a role to play in tonight's meeting. So, I was quite surprised to discover that it was Ms. Redinger who followed-up with Glacier Hills to set up a 2<sup>nd</sup> community meeting and who, I presume, will be the lead/represent the City at this open house. Is this the case?

As you know, yesterday I sent a request to schedule a mtg. for Glacier Hills, only to find out Ms. Redinger scheduled a mtg. (w/out notice, before/after scheduling, of CM Griswold/myself). Who is the lead on this project? Ms. Redinger, Mr. Hess, Mr. Hutchinson, Mr. Hupy? and is who will be conducting the mtg. tonight? If the lead is actually Ms. Redinger, why did she not participate in the 4/2 mtg.

A lot of this feels like a game of chess – and not knowing who's on first. And, the lack of notice of the meeting with Glacier Hills is that just oversight, or purposeful.

In the 4/2/19 meeting message it was stated, "This is a project that implements the City's Master Plan and serves the goals of increased safety and mobility options." What that message failed to recognize is that this/any master plan recommendation is not actionable without council approval. This came up in my meeting when Ms. Seyfarth stated, this is in the master plan. To which I tried to explain that master plan recommendations are not actions, but require council approval. This gets to a core council/staff policy issue and role that continues to be disregarded. I use this example to again illustrate the council and staff "role" concern that I continue to bring to your attention. It is awkward and not enjoyable to be continually put in the position of trying to make the case for understanding and respect for the role of a councilmember.

Thank you for listening, Jane

Hello Jane,

Thank you for your quick response! I talked today to Cynthia Redinger, and we agreed upon the date Tuesday April 23<sup>rd</sup> at 10am for a meeting at Glacier Hills in our Hanson Room. I hope that might work for your schedule too.

Thank you for your service for our community!

Dear Lin,

Thank you very much for reaching out on behalf of your Glacier Hills' residents' interest in the proposed Earhart road safety and conversion (to one lane) changes that the City is contemplating. Your invitation to come to Glacier Hills to speak to residents about this matter is greatly appreciated, and I know that the participation of your residents would be greatly facilitated by having an open house at Glacier Hills.

I will follow-up with the City Administrator and City Engineering staff to see what can be arranged. At the least, I know CM Griswold and I would be happy to meet with any interested residents when most convenient, but I also know that it would be most helpful to have engineering staff available to address technical questions and concerns.

If you could suggest some times over the next couple of weeks that would be most convenient for your residents, it would be very helpful.

I'll circle back when I hear back from our City engineers as to their availability.

Thanks again for helpfully reaching out, and all best, Jane Lumm

Hello,

We would like to provide our residents the opportunity to share their ideas and feedback regarding the Earhart Road Safety Improvements, as this major artery runs in front of their home. And in order to promote this, we are wondering if we could invite you to come to Glacier Hills to speak to our residents about this matter. Many of our residents would like to participate, but some of them would find it difficult to get to the open house at Green Hills. I would be happy to work with you to set up a meeting here at Glacier Hills.

Thank you,

**Subject:** Re: FW: Two local Earth Day celebrations this month!

Thanks, Anne. I wonder why he didn't include it.

What about a Resolution for next Monday for the City to join in co-sponsoring the Earth Day Week Downtown openings, April 21-22, and encouraging public participation?

What about an "Earth Day Declaration" from the City Council that the Mayor could read.

We are inviting the Mayor to speak, of course, and other Council members.  
I gave you, Jack, Jeff and Elizebeth your invitations, behind the scene at the Library.

Debbie Dingell said she wouldn't miss it, which I take as a yes...still to confirm..  
Jeff Irwin and Yousef Rabhi both agreed...perhaps influenced by the haze in the air.

The program is evolving, as it will until its over. last leaflet .4 below. Let me know any questions you might have.

---

Thank you, Mr. Hupy, for sending this information. While I fully applaud having a designated project manager to ensure appropriate control of the work, I'd like to suggest that staff try copying CM Hayner and myself in all emails and communications related to this matter. I don't anticipate that it will become overwhelming, and it's worth a try, as the role of the Councilmember is to engage with residents and be aware of their concerns.

While residents "in the know," are aware of who their elected representatives are, all too often it comes to light that some think Sabra Briere is still their representative. If staff could copy CM Hayner and me, especially on valuable feedback and questions from residents, that would improve communications and Public Service Excellence, especially on a large \$4.4 million dollar project like this one.

Council Member Bannister,

The City has designated a project manager (Jane Allen) as the single point of contact for this project to ensure appropriate control of the work in all communications. While we can provide the resident contact list and respect the role of elected officials in representing the public, we remind Councilmembers that it is inappropriate for them to insert themselves into the execution of the project.

Attached is the listing from GIS with owner mailing address. The email distribution list for this project contains many people other than neighbors. You can access it by going to Public Folders in Outlook; all Public Folders; Public Services; Engineering; Engineering Contact List; Other Misc; Longshore LIOAA Water Main Project.

The City website already has a page dedicated to City Council with your contact information. (<https://www.a2gov.org/departments/city-council/Pages/Home.aspx>)

The simple cost breakdown is as follows:

Water System	\$ 3,786,000
Street, Bridge, and Sidewalk Millage	\$ 660,000

Parks Department  
Special Assessment  
Total Revenue

\$10,200  
\$7,300  
\$4,463,500

**Subject:** Re: Longshore, Indianola, Ottawa, Argo, Amherst Water Main Project Schedule

Thanks for the update. Would it be possible to send Hayner and me a list of the neighbors impacted, including all of their contact information (name, address, email, phone)?

Would you send them our contact information, as their representatives, in the email and postcard?

Please also send (or direct me to the project webpage) the cost breakdown for this project.

Just trying to get up to speed on this!

Thanks,  
Anne

Good morning everyone,

I just wanted to updated everyone on the Contractor's proposed schedule for the construction coming to Longshore, Indianola, Ottawa, Argo, and Amherst.

Fonson will begin placing "No Parking" signs at the end of next week. They plan to install them all at once, but cover the ones not needed. Once the signs are uncovered for 48 hours, they will become enforceable and you could get towed if your vehicle is in the way. The following are the streets / dates anticipated:

1. Phase 1A; 1500 Longshore to 1614 Longshore Friday April 12 to Friday May 24
2. Phase 1B; Argo (1500 Longshore to 719 Argo) AND Chandler (1500 Chandler to 1505 Chandler) Thursday May 2 to Monday June 3
3. Phase 1C; Ottawa (1503 Ottawa to 600 Indianola) AND Indianola (1520 Longshore to 718 Indianola) AND Chandler (1510 Chandler to 1601 Chandler) Monday May 13 to Saturday June 29
4. Phase 1D; Amherst (1614 Longshore to 809 Amherst) AND Chandler (1611 Chandler to 1711 Chandler) Monday June 10 to Monday July 15
5. Phase 1E; Longshore (1610 Longshore to 2000 Longshore) Monday July 8 to Friday August to Friday August 30

Within those timeframes, they will install water main, transfer services, and pave the roads. Then they will set up the detour of Pontiac Street and make the connections at Argo, Indianola, and Amherst.

If you have any questions, please contact me.

*Please let me know if you no longer wish to receive updates to this project, which I plan to make every Friday during construction.*

Dear Mr. Lazarus,

On Saturday morning April 13 from 10 AM - 12 noon at the Washtenaw County offices at 200 North Main, there will be a panel discussion about mental health services and funding. Councilmember Chip Smith and I are on the panel, along with Andy Labarre and Glenn Nelson.

In addition to Councilmember Lumm's email below, please provide any updates you're considering for the City Administrator's budget.

For example, have you or staff had any communications with these community partners about how the City could work together with them on data-driven solutions for services and funding?

1. UMHS Psychiatric Emergency Service -- <https://medicine.umich.edu/dept/psychiatry/patient-care/psychiatric-emergency-service>
2. UM Depression Center -- <https://www.depressioncenter.org>
3. UM Health Services for Students -- <https://www.uhs.umich.edu/mentalhealthsvcs>
4. UM Regional Alliance for Healthy Schools -- <https://umhs-rahs.org>
5. 15th District Court, Judge Karen Quilan Valvo -  
- <https://www.a2gov.org/departments/15D/Pages/default.aspx>
6. Neutral Zone -- <https://www.neutral-zone.org>
7. AAPS -- <https://www.a2schools.org/domain/2965>
8. AAPS Board of Education -- <https://www.a2schools.org/Domain/275>
9. Law Enforcement -- AAPD, WCSO, and UM DPSS

As we seek to define and explore mental health services, it has also come to light that some initiatives like affordable housing, affordability and financial security, and wellness programs can all touch on mental health. For example, several of us attended the meeting yesterday at the Leslie Science and Natural Center for the new Playscape Project. As we learned on the tour, the playscape will be designed for universal access and with special features for children on the autism spectrum. Please speak to ways that these types of projects might figure into your thinking about mental health issues.

Thanks for your input!

**Cc:** [Alice Carter](#); [Glenn Nelson](#)  
**Subject:** RE: Thank You for Supporting Services for People Living with Mental Health Issues!

Thank you for your kind thanks and words of support, Alice and Glenn. Your advocacy was critical, particularly given that you were challenged by such well-organized advocacy groups.

The thought that we're just giving the mental health money back to the County (and not necessarily used in the City) is nonsense. As I suspect you know, the City of AA allocates \$1.3M to roughly 15 local non-profits, and many/most provide mental-health related support services. I just looked at this FY budget, and here are some of the agencies we're now funding that might be potential recipients of this new funding, if included in the City Administrator's budget:

- Avalon Housing, Inc.
- Barrier Busters Actions Group
- Catholic Social Services of Washtenaw
- Child Care Network
- Community Action Network
- Domestic Violence Project, Inc.
- Home of New Viswion
- Jewish Family Services of Washtenaw County
- Michigan Ability Partners
- Ozone House, Inc.
- Peace Neighborhood Center
- Perry Nursery School of An Arbor
- Salvation Army of Washtenaw County
- Shelter Assn. of Washtenaw County
- UM-AA Meals on Wheels
- UMHS- Housing Bureau for Seniors
- The Women's Center of Southeastern Michigan
- Washtenaw Assn. for Community Advocacy
- Washtenaw Community Health Organization – Agency
- Washtenaw County Community Mental Health

So, as you can see and well appreciate, there are many possible applications for the utilization of these mental health funds. If you and the Citizens for Mental Health & Public Safety would like to offer any suggestions/recommendations for how these funds can best advance mental health services where most needed, I know we would welcome your input.

And, how very kind of you to say our votes helped lessen our citizens' cynicism and increased their trust – your words are empowering, and mean so very much!

Utmost thanks to you, Glenn and Alice and all your friends and colleagues who have worked so hard to ensure that these funds are allocated as our citizens want and need.

Jane

**Subject:** Thank You for Supporting Services for People Living with Mental Health Issues!

Council Members Ackerman, Bannister, Eaton, Griswold, Lumm, Nelson and Ramlawi,

Thank you for your support for DC-4 as amended, a.k.a. the Lumm Resolution, at last night's (4/1) City Council meeting! Assuming the City Administrator follows your direction and Council members approve this component of the budget, the \$355,000 allocated to mental health services will improve the lives of a significant number of Ann Arbor citizens. In addition, your actions demonstrate to voters that you understand many of them voted for improving mental health services when they supported the County Millage. Your vote helped lessen cynicism and increased trust among citizens.

Our citizens group will disseminate information about your good work in support of those living with mental health issues. Thanks again.

Sincerely,  
Alice Carter and Glenn Nelson  
Co-Chairs  
Citizens for Mental Health & Public Safety

**Subject:** Re: DC-5 on Monday April 15 agenda

Thanks for responding Jane. We are going to have to disagree on much of this. My hope is that others on council will explain to the public how and why the original restructuring was done. It was not to transfer costs between customer classes. It was to input more equity into the system where each customer class paid a water rate in line with how much it costs the city to deliver water to them (each class). Those are 2 different things completely. I still say your statement is false. I also do think you should use the correct term which is non-residential so that the public is not confused. Non-residential is the term currently in our ordinance.

Quite frankly, implementing or not implementing tiers in the non-residential class is not really a concern of mine. Nor is reorganizing the tiers in the residential class. I simply care about multifamily. So if multifamily is not up for discussion, then I probably won't speak on it unless I feel there is some kind of last minute switch to put it in the resolution.

However, I do think it is a waste of effort and time to tier the non-residential. The same amount of estimated revenue has to be collected for the entire class overall, whether it is tiered or not. Some customers will pay more some pay less depending on the tiering or the average rate. You don't earn any more revenue through tiering, you just earn more data points. Mr. Hupy can correct me on that if that is not true. If the point is to encourage conservation then that is another story

As for the residential, the true question to answer is whether council wants to use the tiering system to encourage conservation. If yes, then a residential customer pays more per CCF if they use a much larger volume of water beyond the average (18cf). If not, then you use an average flat rate like is implemented in multifamily. The only difference is that multifamily does not have irrigation or swimming pools on their indoor water meter while residential customers do, so the average flat rate has to be higher than the multifamily rate in general.. A flat rate causes the lower level water users to pay more because of the averaging of much higher users in with them. So with tiering, are lower water users awarded with a lower rate because they use less water and conserve, or do high users get penalized because they use way beyond the average. Tomato, tomato.

Irony would be to implement tiering in the non-residential class to encourage conservation for peak usage reasons, but removing most of the tiering in the residential class and having lower level users carry some of the peak users burden. Just my 2 cents.

Thanks for responding,  
Diane

On Wednesday, April 10, 2019, 3:31:32 PM EDT, Lumm, Jane <JLumm@a2gov.org> wrote:

Dear Diane,

Thank you for your note on DC-5 for Monday's Council meeting.

You indicate the 2<sup>nd</sup> whereas clause is "utterly FALSE". It is not false – rather it simply states two facts.

First, is the fact that the result of the re-structuring action was to transfer costs between customer classes. Of course it did – that's a fact - and because it's the most significant resulting impact on our residents of the re-structuring action, I felt it was and is worth a mention.

Second, that whereas clause also states the cost penalties charged to the higher-volume residential users were increased substantially. The fact is that the re-structuring more than doubled the top tier residential rate (from \$5.89 per CCF to \$14.08 per CCF) and also more than doubled the low-to-high range in residential rates (prior to July the range was 3.8 times from high to low; with re-structuring it is almost 8 times). More than doubling the top rate and the range of rates is a substantial increase – and that's also a fact that significantly impacts residents I felt was and is worth noting.

You make the leap that stating these facts somehow makes an equity statement of some kind. It doesn't.

I agree, Diane, that words do matter, and this whereas clause you have such a problem with simply states facts to provide important context. The clause says absolutely nothing – explicitly or implicitly - about equity or appropriateness. It says nothing about subsidies. It makes no judgement statement or reference of implication whatsoever – it simply states two facts related to the result of the re-structuring.

Reasonable people can disagree about the appropriateness/equity of the re-structuring and its specifics (that's fine, and I recognize you're passionate about this issue Diane), but I think your leap to the conclusion that this whereas clause is doing anything other than just stating two facts is misplaced.

Please feel free to speak at the meeting Monday (and I suspect you will), but I will not be changing this whereas clause.

As for using "commercial" rather than "non-residential", I did that intentionally because it's the terminology that's been used throughout the many months of discussion and terminology folks recognize. I suspect you probably already knew that, but just in case, I'll be clear the intent here is not to adopt tiering for multi-family which you clearly object to. When the actual rate ordinance comes to council to implement these rates (assuming DC-5 passes), the new terminology will be used.

In your discussion of customer classes and tiering, you are correct that whether or not some form of tiering/differential pricing is adopted in one customer class does not impact the other customer classes.

In DC-5, adopting seasonal pricing or a peaking pricing mechanism for commercial (non-residential) will not impact the residential or multi-family classes.

What your discussion misses, however, and the reason I (and others) believe seasonal pricing or a peaking pricing methodology is appropriate for commercial (non-residential) customers is that an underlying premise of the re-structuring is that peaking and seasonal demand drives system costs and it is inconsistent to reflect that phenomenon in residential pricing, but not commercial (non-residential) pricing, especially considering the fact that the peaking impacts on the system are larger for commercial (non-residential) than for residential.

I certainly agree Diane that residents need the facts and proper language in any resolution. I work hard to

do that in all my resolutions and believe that's exactly what they have in DC-5.

Again, I do recognize there can (and will) be differences in views on policy and strategy and that's fine, but I don't agree with your general conclusion that the resolution contains mistakes and inaccuracies that need to be cleared up, and I don't agree with your specific conclusion that the second whereas clause is false. So, I won't be making any changes to DC-5, and the terminology (commercial vs non-residential) will be handled in the ordinance if DC-5 passes.

Hope this is helpful, and thank you for writing, Jane Lumm

**To:** CityCouncil <CityCouncil@a2gov.org>; Lazarus, Howard <HLazarus@a2gov.org>  
**Cc:** Hupy, Craig <CHupy@a2gov.org>  
**Subject:** DC-5 on Monday April 15 agenda

Dear Councilmembers and City Administrator Lazarus,

I would like to have some clarity on DC-5 the Water rate resolution that CM Lumm is bringing forward at the next council meeting on April 15, 2019. I see some "mistakes" or inaccuracies in the resolution and was hoping that they could be cleared up soon so that the residents of Ann Arbor can have the facts before this resolution is considered at council. I do not feel a resolution written in this manner should be considered without the proper language in it.

I hope that either CM Lumm, the City administrator, or another councilmember can verify or correct the following:

- The second whereas clause states.

"The effects of the re-structuring were to shift approximately \$2M annually in cost from multi-family customers to single-family residential customers and to substantially increase the cost penalties charged to higher volume single-family residential water users including customers with large families;"

This is utterly FALSE. There was no shift in costs from Multi-family to residential. Multifamily was paying more than their fair share of the cost for multifamily water service. An equity review was done showing that Multifamily was paying more than their fair share and residential was paying LESS than their fair **share for the cost to deliver water to their respective class.**

Stating that there was a cost shift implies that residential customers would now be subsidizing multi-family when the exact opposite was happening for years. This was an equity review not a cost shift. Words matter and this is not just semantics. Please correct this in the resolution so that the public is not given alternative facts.

- In the 7th Whereas clause, CM Lumm uses the term Commercial, when she actually means non-residential. The Arcadis proposal referenced 2 alternatives for non-residential. Commercial was the old language when mufti family was included. I would like clarification on this and the correction made to state non-residential.

- The resolved clause also incorrectly states commercial when I think she means non-residential. Please change.

- If Cm Lumm intends to include Multifamily in with this new tiering for what she labels commercial, council needs to realize that it would be impossible to do and completely inequitable. Our meters have more than one customer on them. You can't calculate peak usage per customer when we share meters. Our collective bill would always be charged at the highest tier even though we may have 6, 10, 15 or more homes being serviced off one meter. In addition, most peak usage (all?) is due to seasonal differences which basically means lawn irrigation and swimming pools(?). Multifamily complexes have a separate meter to cover those items where they are charged a higher water rate. We don't need a tier system because of the higher separate water only rate (an additional meter) that is charged for the same issues that attribute to the peaking in the residential class (irrigation/swimming pools). An average flat rate is a more equitable way to serve multifamily.

- I would also like clarification on the following because I don't believe that some on council understand the following. Is this a correct statement/assumption?

Each CLASS needs to cover the cost of their water delivery separately. Whether there are tiers within each class with accounting for peak usage, it has no bearing on the cost that another class incurs. Rearranging costs within the tiers only affects that ONE CLASS. If you implement or don't implement tiering for peak usage in the non-residential (what is currently labeled commercial in the resolved clause), the residential class will not benefit or be harmed in any way. Each class must cover the cost of water service for their entire class.

Eg; If you have 2 groups of 5 people with a \$100 charge where each person uses a different amount of water

One group can average it and split it up equally (\$20/person), while the other group can tier it with the goal of encouraging conservation to use less water (\$30/ person 1, \$25/ person 2 and 3, \$10/person 4 and 5. But in the end each group pays a total of \$100. The actions of one group (class) does not impact the other group.

Please let me know if these changes can be made.

Thank you,

Diane Giannola

Dear Diane,

Thank you for your note on DC-5 for Monday's Council meeting.

You indicate the 2<sup>nd</sup> whereas clause is "utterly FALSE". It is not false – rather it simply states two facts.

First, is the fact that the result of the re-structuring action was to transfer costs between customer classes. Of course it did – that's a fact - and because it's the most significant resulting impact on our residents of the re-structuring action, I felt it was and is worth a mention.

Second, that whereas clause also states the cost penalties charged to the higher-volume residential users were increased substantially. The fact is that the re-structuring more than doubled the top tier residential rate (from \$5.89 per CCF to \$14.08 per CCF) and also more than doubled the low-to-high range in residential rates (prior to July the range was 3.8 times from high to low; with re-structuring it is almost 8 times). More than doubling the top rate and the range of rates is a substantial increase – and that's also a fact that significantly impacts residents I felt was and is worth noting.

You make the leap that stating these facts somehow makes an equity statement of some kind. It doesn't.

I agree, Diane, that words do matter, and this whereas clause you have such a problem with simply states facts to provide important context. The clause says absolutely nothing – explicitly or implicitly - about equity or appropriateness. It says nothing about subsidies. It makes no judgement statement or reference of implication whatsoever – it simply states two facts related to the result of the re-structuring.

Reasonable people can disagree about the appropriateness/equity of the re-structuring and its specifics (that's fine, and I recognize you're passionate about this issue Diane), but I think your leap to the conclusion that this whereas clause is doing anything other than just stating two facts is misplaced. Please feel free to speak at the meeting Monday (and I suspect you will), but I will not be changing this whereas clause.

As for using "commercial" rather than "non-residential", I did that intentionally because it's the terminology that's been used throughout the many months of discussion and terminology folks recognize. I suspect you probably already knew that, but just in case, I'll be clear the intent here is not to adopt tiering for multi-family which you clearly object to. When the actual rate ordinance comes to council to implement these rates (assuming DC-5 passes), the new terminology will be used.

In your discussion of customer classes and tiering, you are correct that whether or not some form of tiering/differential pricing is adopted in one customer class does not impact the other customer classes. In DC-5, adopting seasonal pricing or a peaking pricing mechanism for

commercial (non-residential) will not impact the residential or multi-family classes.

What your discussion misses, however, and the reason I (and others) believe seasonal pricing or a peaking pricing methodology is appropriate for commercial (non-residential) customers is that an underlying premise of the re-structuring is that peaking and seasonal demand drives system costs and it is inconsistent to reflect that phenomenon in residential pricing, but not commercial (non-residential) pricing, especially considering the fact that the peaking impacts on the system are larger for commercial (non-residential) than for residential.

I certainly agree Diane that residents need the facts and proper language in any resolution. I work hard to do that in all my resolutions and believe that's exactly what they have in DC-5.

Again, I do recognize there can (and will) be differences in views on policy and strategy and that's fine, but I don't agree with your general conclusion that the resolution contains mistakes and inaccuracies that need to be cleared up, and I don't agree with your specific conclusion that the second whereas clause is false. So, I won't be making any changes to DC-5, and the terminology (commercial vs non-residential) will be handled in the ordinance if DC-5 passes.

Hope this is helpful, and thank you for writing, Jane Lumm

**Cc:** Hupy, Craig <CHupy@a2gov.org>  
**Subject:** DC-5 on Monday April 15 agenda

Dear Councilmembers and City Administrator Lazarus,

I would like to have some clarity on DC-5 the Water rate resolution that CM Lumm is bringing forward at the next council meeting on April 15, 2019. I see some "mistakes" or inaccuracies in the resolution and was hoping that they could be cleared up soon so that the residents of Ann Arbor can have the facts before this resolution is considered at council. I do not feel a resolution written in this manner should be considered without the proper language in it.

I hope that either CM Lumm, the City administrator, or another councilmember can verify or correct the following:

- The second whereas clause states.

"The effects of the re-structuring were to shift approximately \$2M annually in cost from multi-family customers to single-family residential customers and to substantially increase the cost penalties charged to higher volume single-family residential water users including customers with large families;"

This is utterly FALSE. There was no shift in costs from Multi-family to residential. Multifamily was paying more than their fair share of the cost for multifamily water service. An equity review was done showing that Multifamily was paying more than their fair share and residential was paying LESS than their fair **share for the cost to deliver water to their respective class.**

Stating that there was a cost shift implies that residential customers would now be subsidizing multi-family when the exact opposite was happening for years. This was an equity review not a cost shift. Words matter and this is not just semantics. Please correct this in the resolution so that the public is not given alternative facts.

- In the 7th Whereas clause, CM Lumm uses the term Commercial, when she actually means non-residential. The Arcadis proposal referenced 2 alternatives for non-residential. Commercial was the old language when mufti family was included. I would like clarification on this and the correction made to state non-residential.
- The resolved clause also incorrectly states commercial when I think she means non-residential. Please change.
- If Cm Lumm intends to include Multifamily in with this new tiering for what she labels commercial, council needs to realize that it would be impossible to do and completely inequitable. Our meters have more than one customer on them. You can't calculate peak usage per customer when we share meters. Our collective bill would always be charged at the highest tier even though we may have 6, 10, 15 or more homes being serviced off one meter. In addition, most peak usage (all?) is due to seasonal differences which basically means lawn irrigation and swimming pools(?). Multifamily complexes have a separate meter to cover those items where they are charged a higher water rate. We don't need a tier system because of the higher separate water only rate (an additional meter) that is charged for the same issues that attribute to the peaking in the residential class (irrigation/swimming pools). An average flat rate is a more equitable way to serve multifamily.
- I would also like clarification on the following because I don't believe that some on council understand the following. Is this a correct statement/assumption?

Each CLASS needs to cover the cost of their water delivery separately. Whether there are tiers within each class with accounting for peak usage, it has no bearing on the cost that another class incurs. Rearranging costs within the tiers only affects that ONE CLASS. If you implement or don't implement tiering for peak usage in the non-residential (what is currently labeled commercial in the resolved clause), the residential

class will not benefit or be harmed in any way. Each class must cover the cost of water service for their entire class.

Eg; If you have 2 groups of 5 people with a \$100 charge where each person uses a different amount of water

One group can average it and split it up equally (\$20/person), while the other group can tier it with the goal of encouraging conservation to use less water (\$30/ person 1, \$25/ person 2 and 3, \$10/person 4 and 5. But in the end each group pays a total of \$100. The actions of one group (class) does not impact the other group.

Please let me know if these changes can be made.

Thank you,  
Diane Giannola

**Subject:** MDOT two sidewalks and eight vote requirements?  
**Date:** Wednesday, April 10, 2019 3:17:40 PM  
**Attachments:** [4-15-19%20Agenda.pdf](#)  
[Agenda%20Responses%204-1-19%20FINAL.pdf](#)

---

Dear Mr. Lazarus,

Please provide to us a written statement from MDOT about whether they require two sidewalks for the Northside STEAM SRTS project, especially in light of the strong opposition from the residents.

In the Post Script below, an email exchange with the Michigan Fitness Foundation is provided, but an official confirmation directly from MDOT is needed.

Please provide documentation of any emails or conversations with MDOT or Michigan Fitness Foundation, where staff has advocated on behalf of residents for the desired only one sidewalk on Traver and no sidewalk on Brookside. There is concern about jeopardizing our grantee relationship with MDOT if/when the project fails. We would like confirmation that significant actions have been taken to communicate with MDOT about the challenges to the project, including the numerous suggestions that have been provided by residents, and that you have tried everything within your powers to negotiate on our behalf to save the grant funding and fix this broken project.

Resolution 19-0567 is back on the attached Agenda for April 15 (bottom of page 11): <http://a2gov.legistar.com/LegislationDetail.aspx?ID=3895284&GUID=35A5675E-1759-4898-B73D-220CCD3AEE6E> Please confirm how many votes are currently required and the process to require eight votes, if not already required. There is confusion over the process, including any requirements to the format and the deadline for the signatures. If you have a template, please send it us.

Please voluntarily offer any additional information that would assist us as we try to work together to fix this broken project and avoid unnecessary lawsuits from the residents.

Sincerely,

Anne Bannister  
Ward One Councilmember

P.S. An excerpt from the Agenda Responses (attached, pages 10 - 12):

**CA-14 - Resolution No. 3 Establishing a Public Hearing on May 6, 2019 for the Northside STEAM Safe Routes to School Sidewalk Gap Special Assessment Project**

**Question:** Has staff received a written statement from the MDOT confirming that this project requires sidewalks on both sides of Traver Road?

(Councilmember Eaton)

**Response:** Yes. This issue was verified by Colleen Synk, the MDOT Safe Routes to Schools Grant Coordinator for this area, in a July 9, 2018 email, and shared with residents and City Council at that time. Ms. Synk's e-mail states, in part, "The SRTS grant funding for Michigan follows a complete streets policy. Applying for sidewalk on one side of the street would make the application less competitive for funding."

Applications that do propose sidewalk on only one side of the street are carefully reviewed throughout our process for the context specific reasons for a scope of work which is outside what we generally consider eligible. To my knowledge, the proposals where we awarded funding to put in sidewalk on one side were zoned as either industrial or agricultural. Further, putting sidewalk in on both sides of these projects did not increase connectivity or was not feasible give topographic constraints. None of these situations would apply to the residential context of the A2STEAM project, thereby making sidewalks on both sides of a street a requirement to remain competitive for funding."

A resident reached out to the Michigan Fitness Foundation and spoke to Colleen's colleague Max Fulkerson, and claimed he said something contrary to that in a phone conversation in October 2018. However, when he was questioned about his response, he had the following to say in an October 22, 2018 email: "Hi, Colleen. The statements attributed to me are not exactly what I said or how I said it. It seems like the resident selected statements I made and then took them out of context, left off caveats, and twisted my words to fit her agenda."

I agree with all your statements, Colleen. My message was consistent with yours. I cited some unusual examples when sidewalks on both sides of the street would not be required, based on geography or land use, but the resident drew the wrong conclusions."

**Question:** Regarding CA-14, can you please confirm the assessment amounts have been developed using the standard methodology used in other sidewalk gap projects? (Council member Lumm)

**Response:** Yes, the assessment amount utilized the methodologies outlined by current City Code and past sidewalk gap projects. To compute the proposed special assessment amounts, the cost of construction (e.g. cost of contractor mobilization, sidewalk grading, concrete, the base sand or aggregate, restoration, and other similar items) is estimated based on the proposed work. To that value we then subtract the value of any outside funding (SRTS Grant or STP funds), and add the estimated costs of inspection/testing/administration for a total assessable cost. The assessable cost is then divided by the total length

of sidewalk being installed to obtain the cost per lineal foot of sidewalk installed. Un-assessable amounts of project costs, if any, are then determined and labelled on the assessment roll as City Share Non-

recoverable. Corner parcels are assessed 100% for their frontage length and 50% of the side length.

**Question:** Why was this being on the April 1 agenda not mentioned/discussed by Mr. Lazarus and Mr. Hupy when we met on March 27? Please keep everyone (residents and Councilmembers) better informed about "What's Happening?", not only with the MI Fitness Foundation/MDOT process, but also with the City Council process in the face of a nearly unanimous objection to the project as written. Please confirm the process for the residents to file an objection with the City Clerk, and whether a super majority of 8 votes on Council will then be required at May 6th. What will or will not happen if the April 1 and May 6 vote fails? I believe I've asked for this information many times, but as a reminder, please voluntarily share any and all information you think Councilmembers and residents would like or need to know about this project, given the strong objection to it by the impacted residents. (Council member Bannister)

**Response:** The inclusion of this resolution (Resolution No. 3 of 4) on the Council agenda is a procedural item and is needed in order to set the public hearing to allow the public to formally comment of the proposed special assessment roll and to allow Council to take action to confirm or annul the roll on May 6 (Resolution No. 4 of 4).

Objections to a special assessment roll are set forth under City Code Section 1:290, which provides:

“Any person aggrieved by the special assessment roll or the necessity of the improvement may file objections to the roll in writing with the Clerk prior to the close of the hearing. The written objections shall specify in what respect the person believes him or herself aggrieved. No original assessment roll shall be confirmed except by the affirmative vote of 8 members of the Council if prior to the confirmation written objections to the proposed improvement have been filed by the owners of property which will be required to bear over 50% of the amount of the special assessment.”

If objections were submitted, staff would need to review them for compliance with the Code and add up the assessment value on all objecting owners' properties to determine whether it totaled over 50% of the whole assessment, thus triggering the 8-vote requirement at the May 6 meeting.

City Code section 1:289 requires Council to set a hearing on the proposed roll. If the April 1 vote fails, Council will need to select another date for a public hearing. If the May 6 vote (Resolution 4) to confirm the assessment fails, then the project would be underfunded by the amount of the special assessment. In addition, the City would not execute the City/State agreement to receive the grant funds nor award the project under the June 7 state bid letting for grant-funded projects. Note, if the City elects to not utilize the state/federal grant funds for this project, it will most probably have an adverse effect on the City receiving TAP grant funding for the next two fiscal years.

SUBJECT: Council Agenda Responses

DATE: April 1, 2019

---

**AC – 2 – Memorandum from City Administrator – Response to Resolution R-18-291 – Resolution to Support Once Community Initiative and Ongoing Equity – FY19Q3 Report – March 29, 2019**

**Question:** Report mentions selection of an outside consultant – what is the anticipated cost for this, what is the scope of work and where is the money coming from? (Councilmember Hayner)

**Response:** The anticipated cost for the outside consultant is \$156,000, with \$59,000 in FY20 and the balance divided between FY21 and FY22. The scope of work is as follows:

## **YEAR ONE – PHASE 1 - ASSESSMENT**

- Consultant Site Visit to City of Ann Arbor
- Conduct one-on-one Stakeholder Interviews (number TBD)
- Review of employee data, demographics, and documents
- Administer Assessments (Culture Audit, Leadership, Cultural Competence)
- Analyze data from all Assessments and Create Reports
- Administer online Inclusion & Engagement Survey to all staff
- Analyze data from Inclusion & Engagement Survey and Create Report
- Conduct Focus Groups
- Analyze Results/Create Report of Findings from Focus Groups
- Present all Findings, Trends, Deficiencies, and Recommendations to the City

At the conclusion of Phase 1, the City will determine whether or not to move forward with the following work:

## **YEAR TWO/THREE – PHASE 2 – CONSULTATION, DEVELOPMENT, AND IMPLEMENTATION**

- Consult with the City of Ann Arbor on the development of a long-term *Equity, Diversity & Inclusion Strategic Plan and Implementation*—based on all findings and recommendations—facilitate (3 Strategic Planning sessions with key stakeholders sharing best practices and trends)
- Consult on the establishment of the Diversity & Inclusion City Staff Committee
- Develop a public statement of principle regarding equity, diversity and inclusion for the City of Ann Arbor
- Develop and execute a training and education strategy that will increase the awareness, knowledge, and skills for 700+ staff, City Council, and City boards and commissions as it pertains to diversity, equity, and inclusion
- Develop competencies that reflect the City of Ann Arbor's diversity, equity and inclusion public statement and goals tied in with City Strategic Plan
- Final report on recommended next steps for implementation (briefing session)

The funding would be provided from the City's General Fund.

**Question:** Was this mandated by the County and are there any restrictions on where the money comes from? Can Millage “rebate” money be used to fund this project? (Councilmember Hayner)

**Response:** This was not mandated by the County. It is a response to Resolution # R-18-291 passed by City Council to Support One Community Initiative and Ongoing Equity Work. Funding for this project needs to come from unrestricted money. Both the General Fund and the County Millage are unrestricted as funding sources.

**AC – 3 – Memorandum from City Administrator: Water Rate Alternatives – Revenue Requirements – March 29, 2019**

**Question:** Has either consultant determined per-capita water use? (Councilmember Hayner)

**Response:** The Residential End Uses of Water, Version 2, published in April of 2016 by the Water Research Foundation, states 36.7 gallons per capita per day for typical indoor domestic use and was utilized by Stantec in their final Cost-of-Service report

**Question:** Can per-capital water use across all residential and multi-family users be determined in the absence of sub-metering? Can it be estimated? (Councilmember Hayner)

**Response:** No, we have no means to estimate per-capita water use across residential and multi-family classes.

**CA - 4 - Resolution to Extend the Contract with CLI Concrete Leveling Inc. (“CLI”) (Bid No. 4523) for the 2019 Sidewalk Repair Program (\$74,450.00**

**CA – 5 – Resolution to Extend the Contract with Doan Construction Company for the 2019 Sidewalk Repair Program (\$658,511.54)**

**CA – 6 - Resolution to Award a Construction Contract to Precision Concrete, Inc. for the 2019 Sidewalk Repair Program (\$147,001.00)**

**Question:** Regarding CA-4 through CA-6 (Sidewalk repair program contracts), the sum of these three contracts is about \$900K. Now that we are in the 2<sup>nd</sup> 5-year repair cycle, is this roughly what you expect for the annual costs going forward? (Councilmember Lumm)

**Response:** The total cost of the Sidewalk Program includes repairs, but also concrete work for other projects that utilize different funding sources. Other funding sources include ACT 51 monies for major and local ramp requests, the County Millage for RRFB work, a HSIP grant, AAATA support, MDOT force account work, and City Millage money set aside for School Safety projects. These requests for additional work, most probably,

will vary in future years as well as the needed amount of funding from any particular funding source. The City Millage set aside for sidewalk repairs alone is \$750K and includes inspection and testing costs. Consequently, about \$568K of the \$900k represented by the three contracts will be used to maintain our existing sidewalk system. This amount is carried forward in future years of the CIP for this project as well. Once we expend the currently budgeted monies, any remaining sidewalk repairs needed in the 2019 areas will be moved to the 2020 construction season, and the budget for future years will be re-evaluated, if needed.

**CA-5 – Resolution to Extend the Contract with Doan Construction Company for the 2019 Sidewalk Repair Program (\$658,511.54)**

**Question:** Where does this year's spending compare to past years? (Councilmember Ramlawi)

**Response:** Doan's contract amount for 2019 (\$658,511.54) is about 60% of the 2018 contract (\$1,057,320.54.)

**Question:** What % does this amount comprise of the total amount collected from the dedicated millage? (Councilmember Ramlawi)

**Response:** Approximately 60% (\$750K of \$1.249M) of the total budget for the 2019 Sidewalk Program comes from millage that is dedicated for sidewalks, the total budget includes contracts for performing cutting of sidewalk slabs to eliminate trip hazards and lifting settled sidewalk slabs to restore vertical continuity along the sidewalks, as well as funds for the removal and replacement of sidewalk slabs that cannot be repaired utilizing the aforementioned repair strategies. It is also necessary to include monies for the inspection/testing/administration of all three contracts. Other funding sources include ACT 51 for major and local ramp requests, the County Millage for RRFB work, a HSIP grant, AAATA support, MDOT force account work, and City Millage money set aside for School Safety projects.

**Question:** What is the prognosis on our 5 year cycle plan? On target? ahead? Or behind? (Councilmember Ramlawi)

**Response:** All areas in the 2018 plans were completed, but we went over budget by 13.7% in order to perform all needed work. In 2019, we will work on areas 2019-04, 2019-03, 2019-02 and 2019-01 in that order until the budget is met. This may mean leaving some sidewalk repairs until 2020. Once we reach our approved budget, any remaining sidewalk repairs needed in the 2019 areas will be moved to the 2020 construction season, and the budget for future years will be re-evaluated as needed.

**Question:** How much impact could the city potentially have if we renewed the Sidewalk maintenance Millage but used the proceeds to fill in sidewalk gaps throughout the city? (Councilmember Ramlawi)

**Response:** In order to use the City's Street, Bridge, and Sidewalk Millage to fill sidewalk gaps throughout the city, City Code which requires property owners pay for the first installation of new sidewalks, curb and gutter, asphalt paving, and other similar improvements would have to be revised. It would also be necessary to revise the specific language of the ballot proposal to specifically authorize these expenditure as well. Engineering currently has created planning level cost estimates of approximately \$200-\$300 per linear foot to fill sidewalk gaps. The estimated cost of completing sidewalk gaps can vary considerably between sites depending site topography, utility issues, constructability concerns, and other similar issues. It is currently estimated that there are approximately 789,000 feet of sidewalk gaps currently within the City. Engineering estimates that to complete all sidewalk gaps with cost between \$157M to \$236M. As a result, of the \$750K dedicated to sidewalk repair in 2019 from the City Street, Bridge, and Sidewalk Millage, this would complete about 2,200 feet (2.7% of total gaps) after inspection/testing costs are included. Additionally, if all funds were diverted to completing sidewalk gaps, no sidewalk repairs would be completed in any given year unless additional monies were set aside for this work.

**Question:** Are there current comparisons to spending on sidewalk maintenance and the impact that spending would have if used on sidewalk gaps instead? (Councilmember Ramlawi)

**Response:** As stated above, new sidewalks would cost about \$200-\$300 per linear foot, or \$1000-\$1500 for a 5' x 5' slab. The current prices from the Sidewalk Program are \$232.50/slab to replace 4 inch sidewalks, \$53/slab to lift/leveling sidewalk, and \$49/slab to cut vertical displacements "steps" between sidewalk slabs.

**Question:** Does the sidewalk maintenance "tool- box" fix or address issues residents report of depressions in the sidewalk paths which collect water and later freeze in winter time that significant injury when ice patches then get covered by a thin coat of snow? (Councilmember Ramlawi)

**Response:** Yes, all repairs needed to our existing sidewalk system in a given year would be treated with trusted repairs methods involving replacing, lifting/leveling, or cutting sidewalk. Depending on the degree of depression in any given scenario, the slab(s) could be lifted to promote drainage to the lawn extension. If the sidewalk is NOT the problem, but the ground adjacent to the sidewalk is too high, the resident would be notified that they would have to correct the drainage problem for the safety of the travelling public.

### **CA – 6 – Resolution to Award a Construction Contract to Precision Concrete, Inc. for the 2019 Sidewalk Repair Program (\$147,001.00)**

**Question:** Also on CA-6, the cover memo indicates that the "prices for this work went up from previous years." How much did the prices go up, and since Precision Concrete was

the only responsible bidder on the RFP, how did staff determine the price is fair/reasonable? (Councilmember Lumm)

**Response:** The price/slab rose from \$35.90 to \$49.00. Although is an increase, the previous price was from the 2016 contract that was extended twice. Staff feels the current price is still fair/reasonable, especially as we asked for a 5 year cost guarantee. Note, the trimming of protruding sidewalk edges is still much cheaper than replacing a slab in its entirety (currently \$232.50/slab). If in future years staff feels that the price is not fair/reasonable, then we have the option of not extending the contract into future years and this aspect of the work could be re-bid. However, Engineering believes at this time that \$49/slab represents good value to the city.

**CA – 8 – Resolution to Approve a Professional Services Agreement with TTL Associates Incorporated for Material Testing Services for the Longshore, Indianola, Ottawa, Argo, Amherst Water Main Replacement Project (\$78,870.00)**

**Question:** Regarding CA-8, I recognize that TTL Associates was considered one of the five qualified firms in last year's RFP, but how does their fee structure compare with the others? (Councilmember Lumm)

**Response:** The fee schedules for the five qualified firm are attached. It can be seen that TTL's hourly cost, which is the majority of the cost in the construction and material testing PSAs from all consultants, matches two other consultants and is only \$1.60/hour higher than the average hourly rate of all other qualified consultants. This difference in cost reflects about \$1,500 to this PSA, or 1.89% of the PSA's total price and compares favorably with the remaining testing firms.

**CA – 10 – Resolution to Approve a Five-Year Collaboration Agreement with Community Action Network for Operation of Bryant and Northside Community Centers (\$150,000.00 in FY2020 with 3% Annual Increases Thereafter)**

**Question:** Why is Park Tree maintenance not done by our own forestry department? (Councilmember Hayner)

**Response:** With Park Operations returning to Parks, the funding for Parks Forestry came with, but not staff or equipment as they are primarily focused on ROW trees and funded from Storm. Parks staff can still call on City Forestry staff for work – they will just charge their time to Parks.

**Question:** What is the source of funds used to pay for this project? (Councilmember Hayner)

**Response:** Over the last five years Park Forestry expenses averaged about \$500,000 so the contract amount of \$450,000 fits within that and available funding. Park and natural areas maintenance funds come from the general fund and the parks millage.

**CA-11 - Resolution to Approve a Five-Year Collaboration Agreement with Community Action Network for Operation of Bryant and Northside Community Centers (\$150,000.00 in FY2020 with 3% Annual Increases Thereafter)**

**Question:** Regarding CA-11, I appreciate the detailed explanation in the cover memo on why it was decided to not conduct an RFP for these services and support the recommendation to renew the agreement with CAN, but can you please provide a bit more information on the \$20K (15%) increase in fee (the cover memo indicates there was not any increases in the prior agreement – how many years was that)? (Councilmember Lumm)

**Response:** The previous agreement with CAN was for five years. As mentioned, there was not an annual increase included in that agreement. During those five years, CAN has increased programs and services provided to the community. Additionally, CAN's fixed expenses have continued to increase during that time.

Staff are recommending a 15% increase to the start of the contract, equivalent to a 3% per year increase in the previous contract. The annual increase in the new contract addresses CAN's rising costs and reduces the potential for increases in future agreements.

**CA – 12 – Resolution to Approve Revised Bylaws of the Park Advisory Commission and an Amended Agreement between Friends of the Ann Arbor Skatepark and the City of Ann Arbor**

**Question:** The PAC bylaws change in Section 5.4 might have a typo – shouldn't it say "a PAC (member)..."? (Councilmember Hayner)

**Response:** Yes, this is a typo that will be corrected in the final version.

**CA – 13 - Resolution to Approve and Ratify an Agreement with the Ann Arbor Area Transportation Authority for the 2019 Bikeshare Program (\$50,000.00)**

**Question:** What has been the total cost to Date that the City of Ann Arbor has spent on bike sharing programs, including the DDA? (Councilmember Ramlawi)

**Response:** To-date, the City has expended \$147,000 on the bike sharing program.

**Question:** What years has the program been operational? Have there been any years that lapsed? If so, what years and why? (Councilmember Ramlawi)

**Response:** The systems was operational, partially or fully from 2014 to 2017. Service lapsed last year and the AAATA is working to restore the program. The program lapsed due to the decision of replacing the operator, the time necessary to understand program obligations of the Federal funding agencies, and procurement of a new contract operator.

**Question:** Are there any metrics in place to measure carbon offsets with the program? (Councilmember Ramlawi)

**Response:** Yes, the Carbon offset for the Bikeshare program from 2014 through 2017 operating seasons was 129,6420 lbs.

**Question:** Are there discussions with scooter companies which may look @ combining docking stations? (Councilmember Ramlawi)

**Response:** The contract with Shift allows for them to introduce innovation, such as e-scooters, e-bikes and dockless, elements into their program. At this time the emphasis has been on relaunching the docked bicycle system and moving forward from there.

**Question:** What have been the “take a ways” from past problems? (Councilmember Ramlawi)

**Response:** Bikeshare in Ann Arbor can serve local trips. The level of utilization in the limited “University/near Downtown” geography cannot sustain the program absent significant sponsorship. The current contractor with an experienced operator to both operate and market the system provides the opportunity to minimize the need for future public subsidy.

**Question:** What fund does the 50k come from? (Councilmember Ramlawi)

**Response:** The General Fund Operating Budget.

**Question:** When the Sustainability budget amendment was proposed in October 2018, it included funding for the bike share program and that proposal required 8 votes. Why doesn't this expenditure require 8 votes? (Councilmember Eaton)

**Response:** This item does not request a budget amendment; therefore, does not require 8 votes.

**Question:** What fiscal year 2019 budget item will these funds be drawn from? (Councilmember Eaton)

**Response:** The funding will be drawn from the City Administrator's contingency funds.

**Question:** Will the program be changed in any significant way compared to the operation that failed? (Councilmember Eaton)

**Response:** The program is intended to be reintroduced at the same locations with the same equipment. The major change is the operator and the experience of the new operator. The initial system was the first of its kind in Michigan and was operated by the Clean Energy Coalition, a local non-profit. They had interest in clean transportation and were willing to operate the system. Their day to day operations were adequate, however, the CEC was challenged in securing marketing and sponsorship for the system. The bikeshare program partners, Ann Arbor area Transportation Authority (AAATA), Ann Arbor Downtown development Authority (AADDA), University of Michigan (U- M) and the City opted to seek another operator in an attempt to reduce the need for public subsidy for this program.

**Question:** Regarding CA-13, can you please provide data (if available) on usage volume for the Bikeshare Program? Also, the cover memo indicates that the DDA selected a new operator (Shift Transit) for the program. Does Shift Transit operate/manage other Bikeshare programs elsewhere, and can you please provide information on their track record and how successful their programs have been? (Councilmember Lumm)

**Response:** See attached information.

**Question:** Also on CA-13, can you please remind me the rationale behind the respective program funding shares (City, DDA, UM)? (Councilmember Lumm)

**Response:** This was an agreed upon partnership with the U-M and local governments each responsible for 50% of the public support. The locations of the stations represent that community university partnership.

**Question:** How many bikes are being deployed by this program this next operating season? (Councilmember Hayner)

**Response:** 13 Station 125 bicycles

**Question:** Who is responsible for collecting usage data? (Councilmember Hayner)

**Response:** The new operator, Shift, will provide ongoing metrics, including carbon offset data, going forward.

**Question:** Can we view last season's usage data if it was collected and available? (Councilmember Hayner)

**Response:** Please see attached information.

**Question:** Section (4.3) has a possible typo – “the Provide”? (Councilmember Hayner)

**Response:** This will be corrected to “provider” as a Scrivener’s error.

**Question:** What is the average revenue per ride? Will this program ever be self-sufficient? (Councilmember Hayner)

**Response:** The revenue per ride is estimated at about \$3.00 per ride. The likelihood of the program being fully self-sufficient is pretty low, as every bikeshare system (including dockless) involves some sort of subsidy whether through public channels or venture capital. But we can and do expect that there is more opportunity to bring sponsorship revenue to the system.

**Question:** Did this program fail in the past, and if so, why did it fail and why/how is it back now? Have there been any changes to the program since it may have failed? Are bikes safer than bird scooters, and if so, how could this be communicated to the public? (Councilmember Bannister)

**Response:** The program has been partially successful. Creation of a new mode of transportation has occurred. Several years of bike share system operation has occurred. The shortcoming in the operational model was the inability of the operator to both operate the system and generate public and private sponsorship support to offset costs. Retaining an experienced operator with a proven track record can allow for the system to achieve its financial goals.

**Question:** Are bikes safer than Bird scooters, and if so, how could this be communicated to the public? (Councilmember Bannister)

**Response:** Data are not readily available to respond with side-by-side comparisons. One issue is that private bikeshare and e-scooter companies don’t necessarily release accident data. Additionally, these new forms of micro-mobility may not be reported accurately/consistently by law enforcement agencies. It also may be the case that an accident involving a scooter may not have been caused by the scooter, so it makes determining the cause very difficult. From industry reports, there have been 2 deaths of people riding a bikeshare vehicle nationwide going back to 2007. Media reports have shown 2-3 deaths of people riding electric scooters since scooter sharing was launched in the US. Evidence suggests that both modes of travel have incredibly small mortality rates and pose little risk to the safe enjoyment of the right of way.

**CA-14 - Resolution No. 3 Establishing a Public Hearing on May 6, 2019 for the Northside STEAM Safe Routes to School Sidewalk Gap Special Assessment Project**

**Question:** Has staff received a written statement from the MDOT confirming that this project requires sidewalks on both sides of Traver Road? (Councilmember Eaton)

**Response:** Yes. This issue was verified by Colleen Synk, the MDOT Safe Routes to Schools Grant Coordinator for this area, in a July 9, 2018 email, and shared with residents and City Council at that time. Ms. Synk's e-mail states, in part, "The SRTS grant funding for Michigan follows a complete streets policy. Applying for sidewalk on one side of the street would make the application less competitive for funding."

Applications that do propose sidewalk on only one side of the street are carefully reviewed throughout our process for the context specific reasons for a scope of work which is outside what we generally consider eligible. To my knowledge, the proposals where we awarded funding to put in sidewalk on one side were zoned as either industrial or agricultural. Further, putting sidewalk in on both sides of these projects did not increase connectivity or was not feasible give topographic constraints. None of these situations would apply to the residential context of the A2STEAM project, thereby making sidewalks on both sides of a street a requirement to remain competitive for funding."

A resident reached out to the Michigan Fitness Foundation and spoke to Colleen's colleague Max Fulkerson, and claimed he said something contrary to that in a phone conversation in October 2018. However, when he was questioned about his response, he had the following to say in an October 22, 2018 email: "Hi, Colleen. The statements attributed to me are not exactly what I said or how I said it. It seems like the resident selected statements I made and then took them out of context, left off caveats, and twisted my words to fit her agenda."

I agree with all your statements, Colleen. My message was consistent with yours. I cited some unusual examples when sidewalks on both sides of the street would not be required, based on geography or land use, but the resident drew the wrong conclusions."

**Question:** Regarding CA-14, can you please confirm the assessment amounts have been developed using the standard methodology used in other sidewalk gap projects? (Councilmember Lumm)

**Response:** Yes, the assessment amount utilized the methodologies outlined by current City Code and past sidewalk gap projects. To compute the proposed special assessment amounts, the cost of construction (e.g. cost of contractor mobilization, sidewalk grading, concrete, the base sand or aggregate, restoration, and other similar items) is estimated based on the proposed work. To that value we then subtract the value of any outside funding (SRTS Grant or STP funds), and add the estimated costs of inspection/testing/administration for a total assessable cost. The assessable cost is then divided by the total length of sidewalk being installed to obtain the cost per lineal foot of sidewalk installed. Un-assessable amounts of project costs, if any, are then determined and labelled on the assessment role as City Share Non-recoverable. Corner parcels are assessed 100% for their frontage length and 50% of the side length.

**Question:** Why was this being on the April 1 agenda not mentioned/discussed by Mr. Lazarus and Mr. Hupy when we met on March 27? Please keep everyone (residents and Councilmembers) better informed about "What's Happening?", not only with the MI Fitness Foundation/MDOT process, but also with the City Council process in the face of a nearly unanimous objection to the project as written. Please confirm the process for the residents to file an objection with the City Clerk, and whether a super majority of 8 votes on Council will then be required at May 6th. What will or will not happen if the April 1 and May 6 vote fails? I believe I've asked for this information many times, but as a reminder, please voluntarily share any and all information you think Councilmembers and residents would like or need to know about this project, given the strong objection to it by the impacted residents. (Councilmember Bannister)

**Response:** The inclusion of this resolution (Resolution No. 3 of 4) on the Council agenda is a procedural item and is needed in order to set the public hearing to allow the public to formally comment of the proposed special assessment roll and to allow Council to take action to confirm or annul the roll on May 6 (Resolution No. 4 of 4). Objections to a special assessment roll are set forth under City Code Section 1:290, which provides:

"Any person aggrieved by the special assessment roll or the necessity of the improvement may file objections to the roll in writing with the Clerk prior to the close of the hearing. The written objections shall specify in what respect the person believes him or herself aggrieved. No original assessment roll shall be confirmed except by the affirmative vote of 8 members of the Council if prior to the confirmation written objections to the proposed improvement have been filed by the owners of property which will be required to bear over 50% of the amount of the special assessment."

If objections were submitted, staff would need to review them for compliance with the Code and add up the assessment value on all objecting owners' properties to determine whether it totaled over 50% of the whole assessment, thus triggering the 8-vote requirement at the May 6 meeting.

City Code section 1:289 requires Council to set a hearing on the proposed roll. If the April 1 vote fails, Council will need to select another date for a public hearing. If the May 6 vote (Resolution 4) to confirm the assessment fails, then the project would be underfunded by the amount of the special assessment. In addition, the City would not execute the City/State agreement to receive the grant funds nor award the project under the June 7 state bid letting for grant-funded projects. Note, if the City elects to not utilize the state/federal grant funds for this project, it will most probably have an adverse effect on the City receiving TAP grant funding for the next two fiscal years.

**B – 1 – An Ordinance to Amend Title VI (Food and Health) of the Code of the City of Ann Arbor by Adding a New Chapter 73 (Two-Cycle Power Equipment) (ORD-19-08)**

**Question:** Regarding B-1, in response to my question at first reading, it was indicated that the ordinance had been provided to the DDA. Does the DDA (or downtown businesses) have any comments/suggestions on the ordinance? (Councilmember Lumm)

**Response:** The DDA shared the draft ordinance with the four downtown area associations so they could share it with their members, as well as with a variety of large downtown property owners, and included a mention in its monthly newsletter. DDA also reached out directly to a contractor who provides maintenance services for several downtown clients, and he indicated that he will acquire electric leaf blowers by the deadline. A single business owner contacted the DDA to express his concern that 2-stroke gas engine leaf blowers are the most effective way to clean debris like cigarette butts and wrappers, and by outlawing them there may be an added accumulation of debris on downtown sidewalks.

**Question:** Also on B-1, it was suggested during the discussion at first reading that the City may be exempted from the ordinance. Please explain what the rationale would be for treating the City differently than downtown property owners (businesses and residents)? Could you please provide the language that would exempt residential neighborhoods? (Councilmember Lumm)

**Response:** The current proposed ordinance has no exemption for the City. If an exemption for the City in some manner is proposed by amendment, then the rationale would need to be provided by the sponsor. Staff could then analyze any given rationale. Adding an exemption would require the ordinance to return to first reading. The DDA boundaries do not include what might commonly be considered whole “residential neighborhoods” that could easily be exempted or distinguished, such as by zoning district. Residential uses are permitted in all zoning districts in the DDA (except maybe in some PUDs), but there are very few parcels that are limited to residential zoning only.

**Question:** At the March 28 Environmental Commission meeting, Jennifer Lawson gave an excellent presentation and this issue came up in the Q & A. She mentioned that she may have data on the sludge that's collected downtown from the storm drains, such as dirt and cigarette butts, etc. Is it possible to know the magnitude of the contaminants that are going into the storm drains downtown? (Councilmember Bannister)

**Response:** Currently, the City's street sweeping debris and catch basin debris is collected and gathered in a central location before hauling to the landfill. The material is not separated by area collected nor have we sampled the material collected downtown. If desired, a sieve analysis could be completed on the debris collected to classify the amount and type of debris from the streets and catch basins. This analysis

would take several months turnaround time, to collect the samples and have them processed at a laboratory.

## **DC – 2 – Resolution Establishing Center of the City Task Force**

**Question:** The application and selection process for potential task force members is not spelled out, nor is it given dates and deadlines for completion. Will the charged members (PAC representatives CM Grand And CM Hayner) define this process, or is there a standard process in place? (Councilmember Hayner)

**Response:** Applications would be collected through the City's normal application process, available online at the City Clerk's Boards and Commissions page. The second resolved clause provides for certain qualifications of members, but beyond that the selection of candidates, including the timing, is left to the discretion of the PAC Council liaisons and, ultimately, the City Council as a whole.

**Question:** What are the potential budget impacts of this task force formation, and are any costs considered "inside" costs, that is, is there any need for outside hiring to complete the assignments? (Councilmember Hayner)

**Response:** An estimate of \$175,000 has been provided. The majority of the funding provides for staff time, with a small allowance for outside services if needed to supplement staff effort. The estimate may need to be revised once the Task Force meets and establishes its scope of work.

## **DC-3 - Resolution Directing the City Administrator to Provide Additional Funding in the FY20/21 Budget and Financial Plan to Address Affordable Housing, Climate Action, and Pedestrian Safety and Provide SMART Performance Outcomes**

**Question:** If this is unrelated to the millage rebate, unconnected from the millage rebate, does this resolution give any direction as to the spending of the millage rebate or is it assumed to revert to the 40/40/20 split from the 2017 resolution? (Councilmember Nelson)

**Response:** This resolution does not restrict where the source of funds should come from to pay for the identified priorities.

**Question:** John Mirsky, the Administrator's sustainability advisor, informed some Councilmembers that the Fiscal Year 2019 sustainability office cost is about \$810,000. Is that correct? (Councilmember Eaton)

**Response:** The FY2019 amended budget includes \$805k in recurring expenditures across multiple funds and \$250k in General Fund non-recurring expenditures.

**Question:** Please provide information regarding what efforts the sustainability office has made in reducing carbon emissions, so far in this fiscal year. How much carbon emission reduction has been accomplished? (Councilmember Eaton)

**Response:** Funding was provided this current year to support the AAHC on the renovation of the Broadway Apartments using a “net-zero” energy approach. This year the Office has been actively planning and laying the foundation for the new programs we hope to roll-out in FY20. Some notable actions taken to-date are highlighted in the enclosed quarterly report, which we plan to provide to Council on a quarterly basis moving forward. In terms of greenhouse gas reductions, because the Office has historically not been funded, the vast majority of the work this year has had to focus on planning, coalition building, and laying the foundation for new programmatic efforts.

**Question:** Please provide information regarding what efforts the sustainability office plans to make in reducing carbon emissions, in the remainder of this fiscal year. How much carbon emission reduction will be accomplished? (Councilmember Eaton)

**Response:** The Office will continue to evaluate all new City fleet purchases; update the Environmentally Preferable Purchasing Policy; create an energy strategy and engage DTE in implementing that strategy; continue working on a time of marketing and EV readiness ordinance; convene landlords and tenants to serve on our green rental housing working committee; undertake extensive public outreach, especially around solar and resilience hubs; advertise and grant awards through the Sustaining Ann Arbor Together grant program; continue partnering with AAHC to identify energy efficiency, electrification, and renewable energy options at the Platt Road development and all future affordable housing sites; continue working with the University of Michigan to identify collaboration opportunities; and continue laying the foundation needed to successfully launch the programs identified for support in the FY20 and FY21 budget request.

**Question: Q1.** The first resolved clause directs that funding for FY20 for the three items be at specified amounts over “a FY18 baseline (increased by an appropriate indicator for inflation) (“Baseline Funding”)”. Please provide the FY18 “Baseline Funding” amounts for the three categories (affordable housing, climate action, and pedestrian safety) and what the inflation increases are to determine the FY20 “Directed Funding Amount”. Also, what inflation factor will be applied in increasing the amounts for the FY21 Plan? (Councilmember Lumm)

**Response:** FY2018 budget includes \$160k for Affordable Housing and \$177k for Climate Action. Pedestrian Safety Improvements are typically project related expenditures and are a subset of a project’s total expenditures. Consequently, a historical amount is not available. When Council recently requested these figures for FY2019 and forward, staff manually pulled projects to estimate a portion that could be tied to pedestrian safety. The City Administrator’s FY2020 recommended budget has not been finalized, so an inflation factor is not yet known.

**Question: Q2.** DC-3 does not specify a funding source, just that the funding amounts be included in the FY20 budget (and FY21 financial plan). What funding source will be used - General Fund (fund code 0010); County Mental Health Millage (fund code 0100); or some other fund(s) – and in what amounts for each of the three categories? (Councilmember Lumm)

**Response:** The City Administrator’s FY2020 recommended budget has not been finalized.

**Question: Q3.** In staff’s March 8<sup>th</sup> response to my budget questions, it was indicated that there is \$4,638,182 included in the FY20 budget plan (and \$3,115,700 in FY21) for pedestrian safety-related items. Will the \$440,000 identified in DC-3 for FY20 and FY21 be incremental funding beyond the \$4,638,000 and \$3,115,700? (Councilmember Lumm)

**Response:** The \$440k is included in the above amounts as a recurring expenditure.

**Question: Q4.** In staff’s February 26 response to my Audit Committee questions, it was indicated that the DDA has formally committed to providing \$745,000 in funding to support affordable housing at 350 S. Fifth Avenue. Is that \$745,000 only available for 350 S. Fifth Avenue or could it be used to support other affordable housing? Also, please confirm that the \$880,000 identified in DC-3 is in addition to the DDA spending on affordable housing? (Councilmember Lumm)

**Response:** At its November 7, 2018 meeting the DDA unanimously voted to approve a resolution committing \$745,000 from its DDA Housing Fund “to realize the goal of a substantial number of affordable/workforce housing units created by the redevelopment of the 350 S. Fifth Avenue lot.”

**Question: Q5.** On November 19, 2018, Council approved \$250,000 in spending for sustainability/climate action items. How does that (if at all) impact the FY20 spending amount for climate action-related initiatives under DC-3? (Councilmember Lumm)

**Response:** The \$250k in FY2019 was one-time funds so does not impact FY2020.

**Question: Q6.** The final resolved clause of DC-3 states that “City Council further directs the City Administrator to submit with the FY20/21 Financial Plan appropriate SMART objectives”. The term “Financial Plan” (rather than budget) is typically used for the 2<sup>nd</sup> year of the budgeting cycle, but I’m assuming the objectives are to be provided along with this FY20 budget proposal – is that correct? (Councilmember Lumm)

**Response:** Correct.

**Question: Q7.** Similarly, the language in the 2<sup>nd</sup> resolved clause isn’t perfectly clear. It states that for FY21, the Directed Funding will be included in the “FY2021 budget plan.” Does that mean the FY21 Plan as part of the current deliberations or does it mean include

the Directed Funding when the Administrator submits his budget proposal a year from now for FY21? (Councilmember Lumm)

**Response:** Staff anticipates the City Administrator's recommended budget to include funding for both FY2020 and FY2021.

**Question: Q8.** The sixth whereas clause of DC-3 states that, "This resolution does not ratify, modify, or have any bearing whatsoever on Council Resolution R-17-356." Does that mean the Administrator continues to consider that 40/40/20 resolution from 2017 to be the Council Policy on the matter? (Councilmember Lumm)

**Response:** This is a resolution from Council. The sponsor can clarify the intent of the language.

**DC-3 - Resolution Directing the City Administrator to Provide Additional Funding in the FY20/21 Budget and Financial Plan to Address Affordable Housing, Climate Action, and Pedestrian Safety and Provide SMART Performance Outcomes**

and

**DC-4 - Resolution Providing FY20 Budget Policy Direction Consistent with the Results of the Community Survey on the Recommended Allocation of the 2017 Washtenaw County Mental Health and Public Safety Millage Proceeds of \$2.2M Annually**

**Question: Q9.** In a March 18 memo to city council, the City Administrator indicated that the revenue forecasts for FY20 and FY21 were both being increased by \$600,000 and the Administrator stated further that "my recommended budget will most likely set aside the majority of this new funding toward capital construction needs we anticipate occurring in FY21 and beyond. These projects will include, but are not limited to, repair of our hydropower facilities and dams, upgrades and repairs to parks bridges, and fire station improvements. We also want to be prepared in the event an economic downturn adversely impacts the status of our long term unfunded obligations (primarily pensions and OPEB)." Please reconcile that statement with the indications to council members that "we can do it all"? (Councilmember Lumm)

**Response:** The City Administrator indicated that Council's priorities as expressed in the allocation of the County Millage rebate and the March 25, 2019 Survey Results can be accommodated in the FY20 and FY21 budgets. The recommended budget will seek to address, at some level, all of the items mentioned above.

**Question: Q10.** Also related to other spending requirements, it was indicated at the February 25<sup>th</sup> Work Session that the FY20 budget would essentially represent a "business as usual" approach to Solid Waste and that – at that point – the ongoing funding requirements weren't known. Do we have any better sense now of what the incremental

expenditure requirements will be in FY20 and FY21 for solid waste, recycling and composting? (Councilmember Lumm)

**Response:** No. Staff is now waiting for the completion of the Solid Waste Resource Management Plan update.

**Question: Q11.** In terms of the General Fund for FY21, the Work Session presentation on February 11<sup>th</sup> (slide 11) projected a general fund deficit in FY21 of \$277,000. What is the projected surplus/deficit for FY21 if both DC-3 and DC-4 were passed and funded? (Councilmember Lumm)

**Response:** The City Administrator's FY2020 recommended budget has not been finalized. This question will be included as a budget question after the final recommended budget is presented on April 15<sup>th</sup>.

**Question: Q12.** At the Council retreat in December, slide 7 showed General Fund scenarios going forward and projected General Fund deficits ranging from about \$5M to in excess of \$10M were indicated. How much have the recently identified improvements in revenue reduced those deficit projections? (Councilmember Lumm)

**Response:** The City Administrator's FY2020 recommended budget has not been finalized. This question will be included as a budget question after the final recommended budget is presented on April 15<sup>th</sup>.

**Question: Q13.** If both DC-3 and DC-4 should pass, one interpretation would be that the 40/40/20 categories would be funded consistent with DC-3 and the other priorities funded at the amounts consistent with DC-4. That would result in total spending of \$3.7M (or \$1.5M over the \$2.2M in county millage proceeds). Can you please confirm my math is correct, and is that how staff would interpret passage of both DC-3 and DC-4? If not, how would staff interpret passage of both and what would be the expenditure amounts for all 8 of the priorities? (Councilmember Lumm)

**Response:** Yes the math is correct as is your interpretation of Administrator's understanding of Council's priorities. However, the City Administrator's FY2020 recommended budget has not yet been finalized and is reliant upon Council reconciling these resolutions.

**Question: Q14.** If both DC-3 and DC-4 should pass, what would be the funding source(s) and amounts in each source in FY20 for each of the items -- General Fund (fund code 0010); County Mental Health Millage (fund code 0100); or some other fund(s)? (Councilmember Lumm)

**Response:** If both resolutions pass, the FY20 budget would appear as follows:

Safe Drinking Water/Water - \$574,000  
Community Mental Health - \$349,800

Street Resurfacing and Repair - \$345,500  
Affordable Housing - \$880,000  
Additional Police Funding - \$444,839  
Climate Action - \$880,000  
Pedestrian Safety Projects - \$540,000  
Other - \$33,000

These are projections of incremental funding. However, the City Administrator's FY2020 recommended budget has not been finalized and changes may occur. Additional detail on the application of these funds will be provided with the budget submittal.

**Question: Q15.** If both DC-3 and DC-4 pass, and one-time revenue sources are used to fund the expenditures in FY20 (such as the one-time Risk/Insurance fund rebates), what will the funding sources be in FY21 and are they one-time or recurring? (Councilmember Lumm)

**Response:** The Financial Plan for FY20 and FY21 employs both recurring, non-recurring sources of funds to meet the objectives. However, as previously stated, the City Administrator's FY2020 recommended budget has not been finalized.

**Question: Q16.** At the budget work session February 11<sup>th</sup>, slide 10 indicated that FY20 expenditures in the General Fund would be increasing by 4.1% over FY19. What is the year-to-year increase in GF expenditures (1) if just DC-3 passes (2) just DC-4 passes and (3) if both DC-3 and DC-4 pass - and how do those year-to-year expenditure increases compare with anticipated inflation for FY20? (Councilmember Lumm)

**Response:** The City Administrator's FY2020 recommended budget has not been finalized. This question will be included as a budget question after the final recommended budget is presented on April 15<sup>th</sup>.

**Question:** Why are these commitments being considered outside of the budget process? Is this typical of the budget process to make early commitments of general fund dollars? (Councilmember Hayner)

**Response:** Typically the City Administrator recommends a budget and Council amends the recommended budget at their 2<sup>nd</sup> meeting in May. The information is provided in response to pending Council resolutions and is intended to assist Council in finalizing its policy guidance.

**Question:** Budget Issues -- Jennifer Lawson gave an excellent presentation to the Environmental Commission on March 28 and mentioned that Leaf Pick Up could have a significant impact on Green House Gas Emissions. Please provide details on why we don't have leaf pick-up, what would need to happen to have it back, which budget it would come from, etc. please just share everything Council and residents might want to know

about this issue. For Resolution DC-4 please describe which funds are Enterprise, millage and/or General Funds, etc. (Councilmember Bannister)

**Response:** A direct correlation to Greenhouse Gas Emissions from Leaf Pick Up has not been stated by City staff. However, City staff have made a direct correlation from a Leaf Pick Up Program to the impact of water quality. Leaf debris that enters the storm drains by runoff causes water quality issues in the receiving waters of the state (i.e. Huron River). Because the City's entire storm drains outlet to the Huron River, they are a direct conduit for leaf debris and any materials that are in the debris materials. The decomposition process of leaf debris depletes the oxygen from within the river, causing a detriment to the aquatic population and habitat.

The City switched from two seasonal street leaf collections to weekly bagged leaf pick up in 2010. Benefits of the switch included cost savings (calculated in 2014 to be \$285,000/year), improved Stormwater quality, cleaner streets, reduced impact to bicyclists, reduced street flooding, more frequent and consistent collection, and the ability to collect a variety of yard waste items, such as small branches, pumpkins and food waste. Yard waste collection, including leaf collection, is part of the solid waste budget.

In 2014 the City evaluated the cost to implement a twice-per-fall street leaf collection. At that time budget impacts were estimated at \$406,000 for purchase of equipment and \$293,000 in recurring annual costs.

Regarding the source of funds, this question should be directed to the Council sponsor should respond.

**DC-4 - Resolution Providing FY20 Budget Policy Direction Consistent with the Results of the Community Survey on the Recommended Allocation of the 2017 Washtenaw County Mental Health and Public Safety Millage Proceeds of \$2.2M Annually**

**Question:** Are there unfunded budget line items that need money in the categories of safe drinking water initiatives or water and sewer infrastructure improvements? If rebate money was allocated to those two areas, what would be the benefit? (Councilmember Nelson)

**Response:** Rates are established to provide for the needs of the systems: Water, Sewer, and Stormwater. However, additional infrastructure needs exist at the Barton Dam, which serves dual purposes in providing our water supply and generating hydroelectric power. If funding were allocated, this would be a high priority area in need of funding and it would benefit every customer of the system.

## **DC – 5 – Resolution Directing the City Administrator to Collaborate with the Ann Arbor Housing Commission to Provide Coordinated Analysis on the Feasibility of City-Owned Properties as Potential Locations for Affordable Housing**

**Question:** Regarding DC-5, if this resolution passes, what impacts (if any) does that have on the resolutions related to city-owned properties/affordable housing council adopted at the last council meeting? (Councilmember Lumm)

**Response:** Our understanding is that these resolutions would be incorporated into the direction provided in DC-5.

**Question:** Also on DC-5, can you please remind me how much space (approx. sq. ft.) does the AAHC need and how much of that is office-related, storage etc? (Councilmember Lumm)

**Response:** The AAHC needs approximately 6000SF office space and file storage, 2000 SF of Public space which includes the Lobby/meeting rooms/public restrooms 4000 SF Maintenance work space and supplies storage and 2000SF for maintenance vehicles and equipment storage.

**Question:** The Whereas clause listing the possible properties for discussion omits the Library Lot and Liberty Plaza, which Prop A would seem to have brought into play for a discussion of the uses of all city owned property on that block. Can these 2 properties be added for consideration under the current city charter? (Councilmember Hayner)

**Response:** The Library Lot and Liberty Plaza can be added for consideration, but any use of these properties for affordable housing will need to be consistent with “an urban central park and civic center commons” as required by Section 1.4 of the Charter, and possibly the restriction on the sale of City parks or property acquired for a park without voter approval as required by Section 14.3(b) of the Charter.

**Question:** Has the city ever considered creating many small opportunities for affordable, city-owned housing by carving our spaces on the edges of other city-owned properties like parks and nature areas? Would the city charter allow for this? (Councilmember Hayner)

**Response:** We do not believe that the City Council has ever formally considered this, although the idea has been discussed over the years. The City Charter does not address the use of land for affordable housing specifically, but the potential use of a park and nature area would need to be reviewed for consistency with Section 14.3(b) of the Charter which restricts the sale of City parks or property acquired for a park without voter approval. The City would also want to evaluate each property for any other use restrictions such as a deed restriction.

**Question:** A review of Jennifer Hall's spreadsheet list of 10 city owned properties shows in Column J ("Relevant Plans") that 2000 and 2050 South Industrial are "Not Recommended for Residential" and 721 N. Main does NOT show that the Treeline Trail is also working in this parcel. Can the spreadsheet be updated to elaborate on these discrepancies? How do these discrepancies harmonize with the resolutions passed by Council at the March 18 meeting about affordable housing on these parcels? Column V ("Railroad Noise Hazard"), shows a YES all the way down; how is Stadium Drive Fire Department in the railroad noise hazard? Please elaborate on what Council and residents might need to know about "railroad noise hazard," including whether it impacts the ability to get shared funding from other sources. Is railroad noise similar to flood plains and flood ways, when it comes to shared funding? (Councilmember Bannister)

**Response:** The spreadsheet was created to do a quick initial analysis of each site to see what needed further analysis. Several different staff people added information and it is in very draft form and has not been vetted in any way. A full staff analysis will include more detailed information for each site. The previous Council Resolutions are compatible with this resolution because this resolution just adds more sites to the staff analysis. The column that states "not recommended for Residential" is not a staff recommendation, it is part of the existing master plan and can be rezoned. Staff are aware that the Main street and Washington sites are also being discussed for the Treeline Trail. A part of the analysis that is not completed yet is to look at all the various city plans to see what sites have been identified in other plans.

The Railroad Noise Hazard is related to the noise assessment that must be completed if federal funds are used. Federal regulations require an Environmental Assessment to be conducted if federal funds are used for a new construction or acquisition and/or rehabilitation for an affordable housing project. Federal regulations do not prohibit a project from being built next to a railroad but the noise from the railcars must be factored into a noise assessment. The noise assessment must include an analysis of the noise from a railroad within 3,000 feet of the site, major roads within 1,000 feet of a site and airports within 15 miles of the site. The analysis will determine whether the noise exposure is at an acceptable level and whether mitigation can bring the noise levels to an acceptable level. If it is at an unacceptable level and cannot be mitigated to an acceptable level, the project will not get funded with federal funds. The Stadium Drive property is just under 3,000 feet from the railroad that crosses State street near Stimson and therefore the noise from that railroad must be included in the noise assessment. The noise assessment does take into account the distance from the railroad.

Likewise, an analysis of a development's location related to wetlands, floodplains and floodways on the property, must be included in the federal environmental assessment. Therefore, it is important to conduct an Environmental Assessment very early in the project planning phase. Attached is a copy of the federal Environmental Assessment which shows all the factors that have to be analyzed as well as a noise assessment worksheet.

**DC-6 - Resolution Regarding Community Engagement and Approval Processes for City Related Improvement Projects**

**Question:** Question from a constituent: to make this equal-opportunity public engagement, could the Community Engagement Toolkit be applied to lane additions as well? In recent history, has the city added a lane on any streets in Ann Arbor? (Councilmember Nelson)

**Response:** Yes, the Community Engagement Toolkit will be used to develop the engagement strategy for lane addition projects. To staff's recollection, there has not been a road widening project in the past 5 years.

**Fee Proposal for Construction Materials Testing Services  
2018 & 2019 Construction Projects (RFP #18-02)  
Ann Arbor, Michigan**

To Whom It May Concern:

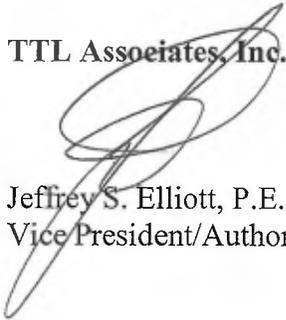

TTL Associates, Inc. (TTL) is submitting our fees for Material Testing Services for the 2018 and 2019 Construction Materials Testing Services program under this separate cover.

Enclosed are the Cost Proposals as requested in the Request for Proposal for Construction Materials Testing Services for the City of Ann Arbor 2018 and 2019 Construction Projects.

We appreciate the opportunity to submit on this contract, and look forward to working with you. If you have any questions or require further information, please feel free to contact us.

Sincerely,

**TTL Associates, Inc.**

Jeffrey S. Elliott, P.E.  
Vice President/Authorized Negotiator

**Re: Cost Proposal in response to RFP No. 18-02  
The City of Ann Arbor  
2018 and 2019 Construction Materials Testing Services**

To Whom It May Concern:

Testing Engineers & Consultants, Inc. (TEC) an Ann Arbor based, Certified Woman Business Enterprise, is pleased to submit the enclosed Cost Proposals for the various upcoming projects in the City of Ann Arbor. The proposals will remain in effect for a minimum of one hundred and twenty (120) days.

TEC has successfully completed multiple projects for the City of Ann Arbor and other local public agencies such as City of Saline, YCUA and Washtenaw County Road Commission. We are excited about the opportunity to continue working on the upcoming 2018 and 2019 Construction Projects. The enclosed cost proposals are estimates based on the schedule and scope of the work described in the RFP. All fees were arrived at independently and have not been disclosed prior to the submission.

As a long time Ann Arbor business, we appreciate the opportunity to assist the City in which we live and work. Thank you for your consideration.

Sincerely,

RE: City of Ann Arbor  
RFP No. 18-02 2018 & 2019 Construction Materials Testing Services  
PSI Proposal No. PO-0379-232320

Mr. Spencer:

Enclosed please find two (2) copies of the cost proposal submitted by Intertek-PSI (Professional Service Industries, Inc.) to provide materials testing services to the City of Ann Arbor for the proposed 2018 & 2019 City of Ann Arbor Construction Projects. We have received **Addendum No.1** in its' entirety, which has been incorporated in our response. This proposal will remain valid for up to a period of 90 days from the date of submittal.

PSI has provided the requested services to the City on various projects in the past, and our staff has valuable experience in interacting with and understanding the needs and expectations of the City of Ann Arbor. In addition to the City of Ann Arbor, PSI has provided similar services to numerous municipal clients in metro Detroit, providing the testing services in accordance with their requirements and submitting the required documentation of our findings.

PSI appreciates the opportunity to provide our services and we look forward to continue working with the City of Ann Arbor. Please feel free to contact us should you require any additional information.

Respectfully submitted,  
**PROFESSIONAL SERVICE INDUSTRIES, INC.**

Concrete Cylinder Mold, Cure, Pickup, and Compressive Strength Test <sup>(4)</sup>	Each	\$ 12.00	472	96	96	90	24	304	120	0	120	96	160	80	1658	\$ 19,896.00
Sieve Analysis	Each	\$ 80.00	9	4	1	3	2	5	3	3	3	3	3	4	43	\$ 3,440.00
Modified Proctor Test	Each	\$ 180.00	9	4	1	3	2	5	3	3	3	3	3	4	43	\$ 7,740.00
HMA Volumetric Test <sup>(3)</sup>	Each	\$ 250.00	80	15	9	12	0	9	12	3	3	0	3	60	206	\$ 51,500.00
PG Binder Verification Test	Each	\$ 275.00	0	3	3	0	0	0	3	0	0	0	0	0	9	\$ 2,475.00
Review Concrete or Asphalt Mix Design	Each	\$ 90.00	10	7	5	6	5	7	7	7	7	5	5	5	76	\$ 6,840.00
<b>Total Price</b>											<b>\$</b>	<b>598,176.00</b>				

**Notes:**

<sup>(1)</sup> Unit prices for all technician service items shall include all vehicle costs, equipment costs, project management, and office support, including engineering review and secretarial services. No minimum hour charge will be paid, unless work for the day is cancelled by the City without advance notice. Minimum "cancellation charges" will be limited to four hours. This item shall be used for all cylinder and sample pickups.

<sup>(2)</sup> Overtime rates shall be applied only to hours worked beyond an eight (8) hour workday (Monday through Friday) or to any hours worked on Saturdays. Double-time rates (2 times the straight time rate) shall be applied to hours worked on Sundays and City holidays.

<sup>(3)</sup> Includes sieve analysis, VMA, VFA, G<sub>mm</sub>, G<sub>200</sub>, air voids, percentage of crushed material, fines to binder ratio, and percent of asphalt. Results to be submitted to the City within 5 business days of placement.

<sup>(4)</sup> The City will require 4 cylinders be molded per sample location, unless otherwise specified.

<sup>(5)</sup> This item shall also include Project Manager and/or Project Engineer time for attending preconstruction meetings, construction progress meetings, and any other meetings as requested by the City.

## ASSUMPTIONS

CTI would like to make one notation on the prices provided in Attachment A. Regarding the Annual Sewer Lining Project, the project scope referenced Acceptance Testing for flexural strength testing (ASTM D790) and delamination testing (ASTM D903) of the cured-in-place resin sewer piping system. No information was provided as to the quantity of testing in the RFP. CTI cannot do this testing in-house; however, we ship samples to our subcontractor to perform the testing. The description and cost breakdown for each test is as follows:

- **ASTM D903 - Peel (180°) or Stripping Strength of Adhesive Bonds** for \$450 per material.

We prefer the contractor prepares the samples, they would have to be laid out on a rigid surface, a minimum of (10) specimens are required. If we prepare the samples, you would have to provide the substrate, and the material size would be 20" x 12". Additional specimen preparation costs TBD. **Safety Data Sheets (SDS) are required for the materials to be tested.**

- **ASTM D790 - Flexural Properties** for \$270 per material at ambient temperatures, \$570 for elevated temperatures, \$710 for low temperatures. Five (5) Specimens are tested, we request at that the contractor provide at least six (6). The ASTM D790 standard specifies a support span-to depth ratio of 16:1 (Span=16 times depth of specimen). If specimens are greater than 0.125", the specimen width shall not exceed one fourth the support span. Specimens must be long enough to allow for an overhang of 10% of the larger of support span on each end or 0.25" on each end. Estimated test temperature range is -65°C to 275°C. **Safety Data Sheets (SDS) are required for the materials to be tested.**

# OFFICE OF SUSTAINABILITY AND INNOVATIONS HIGHLIGHTS

November 2018 - February 2019

ACCOMPLISHED	CATEGORY
<b>100% CLEAN AND RENEWABLE ENERGY POWERING MUNICIPAL OPERATIONS</b> (Goal: 100% of City Operations are Powered by Clean and Renewable Energy by 2035)	
Worked with Ann Arbor Housing Commission to identify energy efficiency and solar energy potential at Broadway development, design the RFP for processional services.	Planning
Initiated volunteer solar program with the goal of leveraging volunteer labor to lower the cost of solar installations. Goal is to have first volunteer installed solar installation by the end of the summer at Fire Station 6.	Resident Resources & Engagement
Participated in Bloomberg Philanthropies Renewable Energy Accelerator Boot Camp and began holistic renewable energy strategy for City operations and full community.	Training and Development & Planning
Initiated a 100% clean and renewable sub-committee of the Energy Commission.	Sustainable City Operations & Planning
Secured University of Michigan School of Environment and Sustainability 18-month Master project on carbon pricing.	Sustainable City Operations & Planning
Drafted request for proposals (RFP) for natural gas hedging for the water and wastewater departments.	Sustainable City Operations
Hosted a Sustainability visioning session with interested City staff.	Sustainable City Operations & Planning
Hosted four Sustainability Lunch and Learns (25 average attendees).	Sustainable City Operations & Training and Development
Developed analysis for how to get to net zero energy at the Broadway site of the AAHC (part of our net zero energy affordable housing program).	Sustainable City Operations & Planning
Currently updating our greenhouse gas emissions inventory for 2016, 2017, and 2018.	Sustainable City Operations
<b>GREEN FLEETS POLICY</b> (Goal: 25% Greenhouse Gas Emissions Reduction Target by 2025, related to 2017 Baseline Levels)	
Co-leading City's Green Fleets Team, including: developed process for removing low use vehicles from fleet, reviewing all city fleet purchases, getting staff to test drive an electric vehicles (EV), and preparing for the City's first EVs.	Sustainable City Operations
Helped City buy 3 new Chevy Bolt electric vehicles (EVs) and EV chargers.	Sustainable City Operations
<b>ENVIRONMENTALLY PREFERABLE PURCHASING</b> (Goal: Encourage the Purchase and Use of Materials, Products, and Services that Best Align with the City's Fiscal, Environmental, Climate Change, Community, and Performance Goals)	
Conducted staff-wide training on the City's Environmentally Preferable Purchasing Policy.	Sustainable City Operations & Training and Development
Revising the City's Environmentally Preferable Purchasing Policy to add in more aggressive environmental and local requirements.	Sustainable City Operations
Assisting Fire Department with assessing their historic purchasing practices and finding more environmentally friendly options.	Sustainable City Operations

<b>25% REDUCTION IN COMMUNITY-WIDE EMISSIONS BY 2025</b> <b>(Goal: 25% Reduction in Community-Wide Greenhouse Gas Emissions by 2025)</b>	
Participating in 2030 District formation.	Engagement
Completed Urban Sustainability Directors Network / Rocky Mountain Institute cohort on setting energy efficiency standards as part of the rental licensing process. This is groundwork for our Ann Arbor Green Rental Housing pilot.	Planning
Completed Solar Faithful project (31kw of new solar capacity installed within the region and 342kw of additional installations in the short-term pipeline). We also submitted a grant application to the Department of Energy for \$100,000 to expand the program to nonprofits within the community.	Engagement and Grants
Organizing Power Hours in collaboration with Michigan Saves and DTE (3 will be held between mid-March and April).	Engagement
Participating in the Solid Waste Resource Management Planning process.	Engagement
Submitted \$300,000 grant application to the Ann Arbor Area Community Foundation and Partners for Places to design and initiate an Aging in Place Efficiently Program.	Grants
Initiated an electric vehicle (EV) readiness sub-committee of the Energy Commission to help prepare an EV readiness ordinance while also working internally to identify locations for solar powered EV car charging.	Planning
Appointed to serve as a liaison to the University of Michigan Carbon Neutrality Commission.	Engagement
Created a new sub-committee of the Energy Commission to work on a time of marketing (home energy disclosure) ordinance.	Planning
Appointed to serve on the Michigan Municipal League's Energy and Environment Sub-Committee.	Engagement & Collaborations
Secured University of Michigan ENV391 undergraduate students for the semester to support our planning of the green rental housing pilot program.	Planning
Initiated conversations with DTE around renewable energy opportunities.	Resident Resources
Participated in Bloomberg Philanthropies Renewable Energy Accelerator Boot Camp and began holistic renewable energy strategy for City operations and full community.	Training and Development & Planning
Initiated a long-term collaborative relationship with UM's BlueLab team to receive assistance on a variety of projects including community outreach and green rental housing program.	Collaborations & Planning

<b>ONE COMMUNITY: ADVANCING RACIAL EQUITY IN WASHTENAW COUNTY</b> <b>(Goal: Creating a Just and Equitable Community for all Washtenaw County Residents)</b>	
Secured a small equity grant to hire Dr. Tony Reames to review the Office of Sustainability and Innovation's work plan and the City's Climate Action Plan to identify areas where equity could be more holistically integrated.	Grants & Collaborations
Collaborating with IT to develop a visualization tool on climate change and socio-economic variables that can be integrated into all city decision making.	Training and Development
Started planning for second round of race and equity training via the Urban Sustainability Directors Network / Government Alliance on Race and Equity program for staff and community members.	Training and Development
Participated in selection of City's potentially new Diversity, Equity, and Inclusion consultant.	Sustainable City Operations

<b>AN ENGAGED COMMUNITY</b> <b>(Goal: Ensure Our Community is Strongly Connected Through Outreach, Opportunities for Engagement, and Stewardship of Community Resources)</b>	
Hosted a Sustainability Forum on climate change and health on January 17 <sup>th</sup> (46 attendees).	Engagement
Hosted a Sustainability Forum on climate change adaptation on February 19 <sup>th</sup> (96 attendees).	Engagement
Awarded two Sustaining Ann Arbor Together (SA2T) grants: A2 Steam for a K-8 Solar Curriculum and Leslie Science and Nature Center for a nature-based playground (award ceremony for this is coming soon). Have also worked with nearly a dozen individuals about potential applications to the program.	Grants and Engagement
Hosted a Community Climate Conversation in December around the 4th U.S. National Climate Assessment.	Engagement
Initiating re-design of City's Sustainability website.	Resident Resources
Continued to provide full support for the City's Energy and Environmental Commissions.	Engagement & Collaborations

<b>ENHANCED COMMUNITY RESILIENCE / SOCIAL COHESION</b> <b>(Working Goal: All Residents are Prepared for Shocks and Stressors and Bounce “Forward” After Disruption)</b>	
Appointed President-Elect of the Board of Directors for the American Society of Adaptation Professionals.	Engagement & Collaborations
Secured 3-week Center for Social Engaged Design (CSED) student support to conduct work related to resilience hubs.	Grant & Collaborations
Secured a small grant to work with peers to develop a resilience hub community engagement strategy.	Collaborations
Initiated discussion with University of Michigan about acquiring pertinent climate information for integration into City’s Capital Improvement Planning process	Collaborations
Collaborating with IT to develop a visualization tool on climate change and socio-economic variables that can be integrated into all city decision making.	Training and Development

**U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**  
WASHINGTON, DC 20410-1000

This Worksheet was designed to be used by those “Partners” (including Public Housing Authorities, consultants, contractors, and nonprofits) who assist Responsible Entities and HUD in preparing environmental reviews, but legally cannot take full responsibilities for these reviews themselves. Responsible Entities and HUD should use the RE/HUD version of the Worksheet.

## Noise (CEST Level Reviews) – PARTNER

<https://www.hudexchange.info/programs/environmental-review/noise-abatement-and-control>

### 1. What activities does your project involve? Check all that apply:

- New construction for residential use

NOTE: HUD assistance to new construction projects is generally prohibited if they are located in an Unacceptable zone, and HUD discourages assistance for new construction projects in Normally Unacceptable zones. See 24 CFR 51.101(a)(3) for further details.

→ Continue to Question 4.

- Rehabilitation of an existing residential property

NOTE: For modernization projects in all noise zones, HUD encourages mitigation to reduce levels to acceptable compliance standards. See 24 CFR 51 Subpart B for further details.

→ Continue to Question 2.

- None of the above

→ If the RE/HUD agrees with this recommendation, the review is in compliance with this section. Continue to the Worksheet Summary below.

### 2. Do you have standardized noise attenuation measures that apply to all modernization and/or minor rehabilitation projects, such as the use of double glazed windows or extra insulation?

- Yes

**Indicate the type of measures that will apply (check all that apply):**

- Improved building envelope components (better windows and doors, strengthened sheathing, insulation, sealed gaps, etc.)
- Redesigned building envelope (more durable or substantial materials, increased air gap, resilient channels, staggered wall studs, etc.)
- Other (explain below)

[Click here to enter text.](#)

→ If the RE/HUD agrees with this recommendation, the review is in compliance with this section. Continue to the Worksheet Summary below and provide any documentation.

- No

→ Continue to Question 3.

3. **Complete the Preliminary Screening to identify potential noise generators in the vicinity (1000' from a major road, 3000' from a railroad, or 15 miles from an airport).**

**Describe findings of the Preliminary Screening:**

[Click here to enter text.](#)

→ *Continue to Question 6.*

4. **Complete the Preliminary Screening to identify potential noise generators in the vicinity (1000' from a major road, 3000' from a railroad, or 15 miles from an airport).**

**Indicate the findings of the Preliminary Screening below:**

- There are no noise generators found within the threshold distances above.

→ *If the RE/HUD agrees with this recommendation, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide a map showing the location of the project relative to any noise generators.*

- Noise generators were found within the threshold distances.

→ *Continue to Question 5.*

5. **Complete the Noise Assessment Guidelines to quantify the noise exposure. Indicate the findings of the Noise Assessment below:**

- Acceptable: (65 decibels or less; the ceiling may be shifted to 70 decibels in circumstances described in §24 CFR 51.105(a))

**Indicate noise level here:** [Click here to enter text.](#)

→ *If the RE/HUD agrees with this recommendation, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide noise analysis, including noise level and data used to complete the analysis.*

- Normally Unacceptable: (Above 65 decibels but not exceeding 75 decibels; the floor may be shifted to 70 decibels in circumstances described in 24 CFR 51.105(a))

**Indicate noise level here:** [Click here to enter text.](#)

**Is the project in a largely undeveloped area<sup>1</sup>?**

- No → *The project requires completion of an Environmental Assessment (EA) pursuant to 51.104(b)(1)(i).*

- Yes → *The project requires completion of an Environmental Impact Statement (EIS) pursuant to 51.104(b)(1)(i).*

→ *Work with the RE/HUD to elevate the level of review. Provide noise analysis, including noise level and data used to complete the analysis.*

*Continue to Question 6.*

- Unacceptable: (Above 75 decibels)

**Indicate noise level here:** [Click here to enter text.](#)

---

<sup>1</sup> A largely undeveloped area means the area within 2 miles of the project site is less than 50 percent developed with urban uses and does not have water and sewer capacity to serve the project.

***The project requires completion of an Environmental Impact Statement (EIS) pursuant to 51.104(b)(1)(i). Work with HUD or the RE to either complete an EIS or obtain a waiver signed by the appropriate authority.***

*→ Continue to Question 6.*

- 6. HUD strongly encourages mitigation be used to eliminate adverse noise impacts. Work with the RE/HUD on the development of the mitigation measures that must be implemented to mitigate for the impact or effect, including the timeline for implementation.**

- Mitigation as follows will be implemented:

Click here to enter text.

*→ Provide drawings, specifications, and other materials as needed to describe the project's noise mitigation measures.*

*Continue to the Worksheet Summary.*

- No mitigation is necessary.

**Explain why mitigation will not be made here:**

Click here to enter text.

*→ Continue to the Worksheet Summary.*

### **Worksheet Summary**

Provide a full description of your determination and a synopsis of the information that it was based on, such as:

- Map panel numbers and dates
- Names of all consulted parties and relevant consultation dates
- Names of plans or reports and relevant page numbers
- Any additional requirements specific to your program or region

**Include all documentation supporting your findings in your submission to HUD.**

Click here to enter text.

**Environmental Assessment Factors** [24 CFR 58.40; Ref. 40 CFR 1508.8 &1508.27] Recorded below is the qualitative and quantitative significance of the effects of the proposal on the character, features and resources of the project area. Each factor has been evaluated and documented, as appropriate and in proportion to its relevance to the proposed action. Verifiable source documentation has been provided and described in support of each determination, as appropriate. Credible, traceable and supportive source

documentation for each authority has been provided. Where applicable, the necessary reviews or consultations have been completed and applicable permits of approvals have been obtained or noted. Citations, dates/names/titles of contacts, and page references are clear. Additional documentation is attached, as appropriate. **All conditions, attenuation or mitigation measures have been clearly identified.**

**Impact Codes:** Use an impact code from the following list to make the determination of impact for each factor.

- (1) Minor beneficial impact
- (2) No impact anticipated
- (3) Minor Adverse Impact – May require mitigation
- (4) Significant or potentially significant impact requiring avoidance or modification which may require an Environmental Impact Statement

Environmental Assessment Factor	Impact Code	Impact Evaluation
<b>LAND DEVELOPMENT</b>		
Conformance with Plans / Compatible Land Use and Zoning / Scale and Urban Design		
Soil Suitability/ Slope/ Erosion/ Drainage/ Storm Water Runoff		
Hazards and Nuisances including Site Safety and Noise		
Energy Consumption

Dear Mr Lazarus,

Please respond directly to Dennis Ondreyka and Jane Klingsten about their email below.

Please also confirm what process has been established to handle all the concerns and feedback for this project.

Will Brian Slizewski be the lead staff person and main point of contact, or should residents also email Mr Hutchinson, Mr Hupy and yourself?

Councilmembers should of course always be copied, and kept updated and in the loop.

Thanks,

Anne

**Subject:** Re: DhuVarren Road Project

Hello Jane, Jane and everyone else,

Thank you for your email. I finally found our Foxfire 2 Master Deed. A copy of the cover page dated February 2, 2003 is attached. Again, I want to emphasize to all of our elected City officials, especially those that didn't attend the meeting last week, that Foxfire 2 has its own Master Deed and is not a part of the original Foxfire Condominium development agreement from 1994. It's a very poor reflection on the City and its elected officials to not know their constituents or their neighborhoods and to pretend otherwise just to squeeze additional assessment dollars out of them. First, I will repeat that unless the adjacent properties to Foxfire 2 such as the City's Dhu Varren Woods and Nature Area, the Mennonite House, the Korean Church, the Carrot Way apartments, Food Gatherers, and the Leslie Park Circle development are assessed for this side-walk to nowhere, then Foxfire 2 should like-wise be exempt as well. Not only does Foxfire 2 not have any property frontage on Dhu Varren where this side-walk is being installed, Foxfire 2 and all of its homes are located further West of the proposed side-walk expansion than any of its exempt neighbor properties. We are not a part of the older, original Guenther developments listed in the proposed easement and it would be as ridiculous and illegal taxing a separate Guenther

development located elsewhere in the City, as it would be taxing Foxfire 2. I ask that you all take some responsibility for this incredible mistake and that Foxfire 2 homeowners be exempted from this unfair and illegal assessment.

Thank you,

Dennis

President

Foxfire 2 Homeowners Association

Dennis,

I met you at the sidewalk meeting. Do you have a copy of your Master Deed and amendments? Can you send me a copy or let me review on?

If not, you can get them off of the County Register of Deeds? I can send you info on how to find it if you need.

FoxFire 2 is a separate condo project and Plat #410. As long as you don't have an assessment clause in your Master Deed, you should NOT be assessed as you are not adjoining to DhuVarren.

Your condo project is named "FoxFire 2". Your registered plat, sub plan, and condo project are all correctly refer to it as "FoxFire 2." The year 2000 development agreement has a typo. Referring to it as "FoxFire phase 2" will confuse people.

CM Kathy Griswold may talk to the City Attorney today to help CM Anne Bannister who is out of town. I'll copy here along with Jeff and Anne who couldn't make it last night, but are aware and concerned.

**Subject:** DC-5 on Monday April 15 agenda

Dear Councilmembers and City Administrator Lazarus,

I would like to have some clarity on DC-5 the Water rate resolution that CM Lumm is bringing forward at the next council meeting on April 15, 2019. I see some "mistakes" or inaccuracies in the resolution and was hoping that they could be cleared up soon so that the residents of Ann Arbor can have the facts before this resolution is considered at council. I do not feel a resolution written in this manner should be considered without the proper language in it.

I hope that either CM Lumm, the City administrator, or another councilmember can verify or correct the following:

- The second whereas clause states.

"The effects of the re-structuring were to shift approximately \$2M annually in cost from multi-family customers to single-family residential customers and to substantially increase the cost penalties charged to higher volume single-family residential water users including customers with

large families;"

This is utterly FALSE. There was no shift in costs from Multi-family to residential. Multifamily was paying more than their fair share of the cost for multifamily water service. An equity review was done showing that Multifamily was paying more than their fair share and residential was paying LESS than their fair **share for the cost to deliver water to their respective class.**

Stating that there was a cost shift implies that residential customers would now be subsidizing multi-family when the exact opposite was happening for years. This was an equity review not a cost shift. Words matter and this is not just semantics. Please correct this in the resolution so that the public is not given alternative facts.

- In the 7th Whereas clause, CM Lumm uses the term Commercial, when she actually means non-residential. The Arcadis proposal referenced 2 alternatives for non-residential. Commercial was the old language when mufti family was included. I would like clarification on this and the correction made to state non-residential.
- The resolved clause also incorrectly states commercial when I think she means non-residential. Please change.
- If Cm Lumm intends to include Multifamily in with this new tiering for what she labels commercial, council needs to realize that it would be impossible to do and completely inequitable. Our meters have more than one customer on them. You can't calculate peak usage per customer when we share meters. Our collective bill would always be charged at the highest tier even though we may have 6, 10, 15 or more homes being serviced off one meter. In addition, most peak usage (all?) is due to seasonal differences which basically means lawn irrigation and swimming pools(?). Multifamily complexes have a separate meter to cover those items where they are charged a higher water rate. We don't need a tier system because of the higher separate water only rate (an additional meter) that is charged for the same issues that attribute to the peaking in the residential class (irrigation/swimming pools). An average flat rate is a more equitable way to serve multifamily.
- I would also like clarification on the following because I don't believe that

some on council understand the following. Is this a correct statement/assumption?

Each CLASS needs to cover the cost of their water delivery separately. Whether there are tiers within each class with accounting for peak usage, it has no bearing on the cost that another class incurs. Rearranging costs within the tiers only affects that ONE CLASS. If you implement or don't implement tiering for peak usage in the non-residential (what is currently labeled commercial in the resolved clause), the residential class will not benefit or be harmed in any way. Each class must cover the cost of water service for their entire class.

Eg; If you have 2 groups of 5 people with a \$100 charge where each person uses a different amount of water

One group can average it and split it up equally (\$20/person), while the other group can tier it with the goal of encouraging conservation to use less water (\$30/ person 1, \$25/ person 2 and 3, \$10/person 4 and 5. But in the end each group pays a total of \$100. The actions of one group (class) does not impact the other group.

Please let me know if these changes can be made.

Thank you,  
Diane Giannola

Dear Sir or Madam:

My name is Ting Zhao. I am living at Foxfire, 2420 Tamarack Ct. I discussed with my husband Bo Wen. Both of us decline to support the sidewalks project.

We did not see it is useful for our community. We live there for four years. We have never walked on Due Varren street.

What we concern more is that there is more theft in Forxfire. It will be easier for non-resident to get to our property.

Please take our opinion into consideration and stop the construction. Thanks a lot.

Best regards,  
Sincerely yours,  
Ting

**Subject:** Public Meeting Notice: Dhu Varren Sidewalks Special Assessment Project April 3, 2019

Dear Nixon Area Alliance,

The City of Ann Arbor Engineering Unit will hold a public meeting from 6:30 to 8:30 p.m. in the Multi-Purpose Room at Clague School, 2616 Nixon Road, on Wednesday, April 3, 2019. This meeting will provide information on the Dhu Varren Road Sidewalk Project from Omlesaad Dr. to the Nixon Farm developments. During this meeting, the City will provide a description of the proposed work, and provide information about the cost estimates and special assessments. All are

welcome to attend and provide feedback.

If you have questions or need more information, please contact:

Brian Slizewski, P.E.

734-794-6410 x43607

[BSlizewski@a2gov.org](mailto:BSlizewski@a2gov.org)

All persons are encouraged to participate in public meetings.

Accommodations, including sign language interpreters, may be arranged

by contacting the City Clerk's office at 734.794.6140; via email to:

[cityclerk@a2gov.org](mailto:cityclerk@a2gov.org); or by written request addressed and mailed or

delivered to:

City Clerk's Office

301 E. Huron St.

Ann Arbor, MI 48104

Requests made with less than two business days notice may not be able to be accommodated.

Thanks, Jack! Happy to have you on board... and also why I sent that heads-up note to you, Kathy, Ali to get your bounce. Was scrambling late yesterday to meet the new deadline ... after finally putting that other resln. to bed. Thanks for all your help w/that! The way Taylor and HL were spinning the rationale for the recommendation -- totally diverting it from the evaluation, was really outrageous. So, thanks for getting Kathy to go with the the editorialized, "just the facts" version.

Hi,

I apologize for not responding sooner. I can forward this concern to city staff and try to get an answer. For what it's worth, I remember this process of city marking from years ago, when the policy of repair and replacement was the financial responsibility of the homeowners on my street. I know that the city assessment of what's needed and sometimes seem not-quite-right. I hear you.

I'll let you know what I hear back—

Elizabeth

On Thursday, April 4, 2019, 8:15 PM, Brian and Linda Dabrowski [REDACTED] wrote:

Hi Jack and Elizabeth,

My name is Linda Dabrowski, and I'm a Ward 4 resident [REDACTED]

I'm writing because when the sidewalks were repaired in our neighborhood previously (last year, the year before?), the contractor tore up lawns with his or her machinery. I made a point (nicely) at the time to let them know that I expected they wouldn't drive machinery or whatever it was that tore up the grass in my neighbor's yard, in my yard, and thankfully they respected my request.

I just noticed that several sidewalk panels outside my house are marked for either replace (R) or level (L). I'm concerned that the contractor is going to do the same thing as in prior years in terms of not being careful with machinery and its impact on the grass. I'm already planning to notify the contractor as soon as I see him or her of my expectation regarding my grass, but I also wanted to raise this concern with my council members. In addition, it appears that some of the panels marked R or L are somewhat suspect in whether they actually need to be R or L'd.

So I'm making you both aware of two concerns - one that the contractor(s) take appropriate care not to harm grass or yards, and second, potentially questionable sidewalk panels marked for replacement or leveling.

Thanks for listening,  
Linda

**Date:** Wednesday, April 10, 2019 8:08:21 AM

---

Dear Sir,

Good Question! I was not on Council when this was passed, but I have received numerous complaints from residents that our laws are not properly formed, and that we have taken a "hands-off" approach to many controversial doings in our community by simply deferring to state law on the matter. That may be the case for Pedal Bars, as they are considered "Vehicles for Hire" which are covered by state law - local municipalities are prohibited from further regulation of same, and Open Container laws, which apply to motor vehicles under state law and only pedestrians under local law. I will look into this, thanks for your interest.

Sincerely,

Jeff Hayner  
Ward 1 City Council

Subject: Pedal Tavern and open consumption

Members of the City Council of Ann Arbor,

I am a City Councilor At-Large from Easthampton, Massachusetts. Despite the glitz of Boston, Western Massachusetts, and particularly our fair city of 16,000 is really the crowned jewel of the Commonwealth, but I digress.

Easthampton is home to a bike path, The Manhan Rail Trail. This is part of a network of bike paths connecting to neighboring towns, with plans to connect all the way to Connecticut.

We have been approached by an individual who would like to operate a "pedal tavern" on our bike path. Despite having three breweries on the route, he would like to be able to allow BYOB on the vehicle. Our current open container laws explicitly would not allow this, and he would like ordinance written for his business to allow open container on this vehicle.

There are a variety of other concerns with the operation of the pedal tavern, but the proposal or ask to amend our open container laws for this purpose is certainly one of the biggest issues.

I reviewed ORDINANCE NO. ORD-16-11, and other than prohibiting the driver from being intoxicated, I did not see any other mention of consumption while on a quadricycle. I reviewed Ann Arbors's open container laws, and it appears that your city also has open container restrictions in public places and ways.

How were you able to offer municipal legislation in order to allow BYOB on your similar vehicles in town. I am not particularly in favor of this in our setting, but in the interest of the mechanisms of municipal legislation, I would like to perform my due diligence and research what other cities have done via ordinance to allow these types of business to operate.

Much thanks

Owen Zaret

**Subject:** RE: Brightdawn Village Project - Meeting Request  
**Date:** Wednesday, April 10, 2019 12:00:09 AM

---

Dear Brian and all,

I wanted to e-introduce a small sampling of the neighborhood leaders who have organized their neighborhoods on other projects, in hopes that we all might be aware of recurring problems and themes, and consider lending our support. The informal list includes:

- Brian Smith -- Brightdawn Village Project in Ward 3 (Midwestern Consulting)
- Tom Stulberg, Laura Strowe, and Mary Underwood -- 1140 Broadway in Ward 1 (Morningside)
- Ken Garber -- Cottages at Barton Green in Ward 1 (Trinitas)
- Lester Wyborny -- Northside STEAM Safe Routes to School in Ward 1 (sidewalks)
- Beth Collins -- Lockwood Senior Living Facility in Ward 5
- Jeff and Chris Crockett -- Old Fourth Ward Association in Ward 1

Everyone is invited to this meeting on Tuesday, April 23, from 7 - 9 PM in the little chapel at St. Andrews Church, 306 N. Division Street:

The April 23rd meeting of the Old Fourth Ward Neighborhood Association will be an informative conversation on planning in Ann Arbor. A discussion panel will include Brett Lenart, Ann Arbor's Planning Manager, Derek Delacourt, the Community Services Administrator, and Alex Milshteyn, a local realtor who is currently serving as Chair of the City Planning Commission. Association member Norm Tyler will moderate this "community conversation."

Panel members first will give their thoughts on the role of planning as a city service, and then participate in an open conversation with the audience. We hope this will be a first step in encouraging residents to have greater engagement in the master planning process.

Thanks everyone for your service to our city.

Good afternoon to you, as well, Brian, and thank you for, again, helpfully reaching out.

It was gracious of you and your Forestbrooke neighbors to take the time to meet with us to enlighten us to your concerns, and know we all appreciate your time.

Appreciate the clarification of your position and concerns with regard to the rezoning, and that the change in the affordability terms do not reduce the proposed # of units/increased density/up-zoning, so your previous concerns stand. I do not support the rezoning for the reasons you have so helpfully and clearly articulated.

Thanks so much again for all your and your neighbors' helpful input, and all best, Jane

**Subject:** Fw: Brightdawn Village Project - Meeting Request

Good afternoon all,

I hope this email finds you well. I am reaching back out to you to update you on what I know regarding the Brightdawn Project, which each of you have so graciously met with the Forestbrooke neighbors in the last few months. It is my understanding from Chris (see the email exchange below), that this matter will now not come before City Council until early June. Furthermore, after the Planning Commission meeting, where PC voted (based on recommendations from City Staff) to unanimously recommend to City Council to reject the proposed rezoning on Burton Road, the Developer has modified its position on its affordable housing commitments to what you see below. However, City Staff, and many of those on Planning Commission did not vote to deny rezoning based upon the Project's affordable housing commitment, but because rezoning was in contradiction to the Master Plan (which calls for the property to be down zoned back from R4B to R1C, not up-zoned to R4D), and was an unreasonable burden on the existing neighborhood.

As we have repeatedly voiced when we have met with each of you individually, our primary concern here is not with the affordable housing commitments but the increased density and its impacts on the existing neighborhood, including traffic. The neighbors determination to seek denial of rezoning, is unchanged. We are hoping to continue to convey this message to all of you, as well as the other City Council members. If this proposed change from the Developer in any way changes your thoughts on the Project, all we would ask is that you let us, the impacted neighbors, know so that we may continue the conversation with you. Otherwise I know you are all very busy. Thanks again for your time and hope to see you all soon.

All the best,

Brian Smith

Hi Brian,

This item will not be heard at the 4/15 City Council Meeting due to timing issues. At the earliest it will be in May. Feel free to contact me for updates on this project. Tom Covert proposed the following for the affordable housing:

20 units restricted to 60% AMI for a term of 99 years

20 units restricted to 80% AMI for a term of 99 years

There are not changes proposed to the number of units or layout of the site. Let me know if you have any questions.

Good afternoon Chris, I hope this note find your well. I was surprised to get the email below from Tom Covert @ Midwestern. Has something changed in the project that you are aware of that I should know

about? I have been operating under the impression that Brightdawn would be headed to City Council (with the recommendation from Staff and Planning Commission to deny the rezoning request) around April 15th for a first reading. Not sure what the developers intent is here, but would be interested in any insight you may have before I respond to Tom.

Thanks in advance. Brian Smith

Brian –

Good morning.

The Schwartz Family would like to know if you and a small group of the neighbors would be interested in meeting again to discuss the project. The meeting goal would be to review ideas for making a better project with the understanding that there is full intent to realize a project at the site.

We would like to consider meeting the evening of April 24<sup>th</sup>?

Please advise if you and a small group would be interested in this meeting here at the Midwestern Consulting offices?

Thank you for your consideration

Tom

**Subject:** 4/15/19 City Administrator Employment Agreement Resolution - for City Council 4/15/19 special session agenda

Ms. Beaudry,

Please add the attached resolution to the 4/15/19 city council special session agenda. I am requesting on behalf of the City Administration Cte.

Thank you, Jane

Proposed Resolution to Amend the Employment Agreement for City Administrator Howard S. Lazarus

Whereas, The Employment Agreement between the City of Ann Arbor and the City Administrator Howard S. Lazarus dated May 9, 2016 calls for the City to conduct an annual performance review using mutually agreed upon criteria and allows for a review of the terms of the agreement and change by written agreement.

Whereas, The Council Administration Committee's current performance evaluation of Howard S. Lazarus was based on preliminary material received, including anonymous evaluations from City Council Members, his direct reports, as well as other related information;

Whereas, The City Administrator Council Administration Committee has reviewed the performance evaluations and provided a written evaluation and recommendation for salary adjustment; and

Whereas, The City Council believes providing equitable and sustainable compensation is critical to retaining employees that are essential to the City's ability to perform at levels expected by residents and taxpayers;

Whereas, The City Administrator is one of only two direct reports to the City Council, the other being the City Attorney;

Whereas, The City Administrator is responsible solely to the City Council;

Whereas, The City Administrator is responsible for the executive management of the highly diverse operations of the City of Ann Arbor and provides leadership, vision, and direction to City Departments, implements City Council policy, and works with City Council and administrative staff to craft strategic and financial planning objectives;

Whereas, The City Administrator position is one of significant responsibility and leadership;

Whereas, The City Administrator has provided effective and engaged leadership to the City over the past year in many areas, including sustaining and enhancing a vibrant, safe, and diverse community; and

Whereas, The City Administrator currently earns a base salary of \$223,600.00

Whereas, the 2018 Consumer Price Index for Detroit-Ann Arbor-Flint (now known as Detroit-Warren-Dearborn) for all consumers as reported by the Bureau of Labor Statistics was 2.4%; and

Whereas, 2.4% of the City Administrator's base salary is Five Thousand Three Hundred and Sixty Six Dollars (\$5,366);

RESOLVED, that the employment agreement between Howard S. Lazarus and the City of Ann Arbor be amended as follows:

Section 4 of the Agreement be amended to provide a one-time lump sum payment of Five Thousand Three Hundred and Sixty Six Dollars (\$5,366) payable prior to May 15, 2019;

RESOLVED, That the Council Administration Committee place the final written performance evaluation in the City Administrator's personnel file; and

RESOLVED, That the Employment Agreement be amended to reflect the above Resolved Clauses and that the Mayor and City Clerk are authorized to execute the amendment.

Sponsored by: Mayor Taylor, Councilmembers Grand, Griswold

**As Amended by Ann Arbor City Council on April 15, 2019**

**Subject:** Stabbing 319 S Fifth Ave - 19-13929

All,

Patrol was called to 300 block of S Fifth Ave for a reported stabbing. This location is the underground parking structure near the library and BTC. Officers arrived and located the victim on the lower level of the structure. He was found with multiple stab wounds to the leg and back. Officers on scene applied a tourniquet to the victim and he was transported to UM Mott Hospital.

Initial information at this time is suspects are two males in their upper teens and may be acquaintances with the victim. They have not been located at this time but detectives are reviewing several surveillance videos of the suspects near the location before and after the assault.

Detective Bureau is on scene and investigation is underway.

VICTIM – 15 y.o. male, His current condition is stable.

I/Chief Pfannes

**Subject:** RE: Leave of Absence  
**Date:** Monday, April 8, 2019 5:19:05 PM

---

Mr. Lazarus and all,

I just called the ee who contacted me to let her know that the documents were delivered. Our conversation was short and sweet.

I was surprised to learn, however, that Ms. Wilkerson sent a txt to a former city ee on Saturday in which she apparently stated: (1) she was being placed on admin. leave and (2) a current ee and your's truly were cited as the cause. I have not seen this txt message, but the "whistleblower" ee read RW's message (it was passed along to the current ee from a former ee). As was just shared by the current ee, she "thought this would be handled confidentially." I requested a copy of this message and will share if provided FYI.

Jane

Mr. Lazarus,

The ee who contacted me re: this matter also provided a file containing Ms. Wilkerson's txt messages re: the ee's illness. The file contains 9 messages w/a former city ee about the current ee's illness. They were shared w/me to illustrate HIPPA violations. I did not include this in the other background I provided, and it was unintentional on my part – this was an oversight, and I can also provide you this file.

Dear WBWC,

Thank you for writing.

As I’m sure you appreciate, I wrote and introduced this resolution (Resolution Regarding Community Engagement and Approval Process for City Related Improvement Projects), and so will do my best to respond to your concerns.

- This is a “new policy”: Although recent lane reduction and other road reengineering decisions have been made administratively (e.g., Maple Road – no neighborhood input/advance notice; Prairie bumpouts – no neighborhood advance notice, Bluett traffic calming, simultaneous, but separate City/AAPS processes), prior to the current City Administration approach, the community and city council were consulted and included in these road reengineering discussions.

As an example of good public process, I would point to the Jackson Avenue lane conversion, a lane conversion recommendation contained in the council approved 2009 Transportation Plan Update. Transportation Plan recommendations, like all planning document recommendations, are not approved actions, and so, in 2012, Project Mgmt. prepared a resolution supportive of the project for council approval. Council properly reviewed and voted on the lane reduction recommendation, and council’s decision was informed by significant public input. To inform the Jackson Ave. conversion, MDOT and the City held a public meeting well in advance of the project – the meeting was advertised broadly in the AANews, on the MDOT website, through mass emails, MDOT Facebook, MDOT’s AA Twitter acct., and by MDOT’s placing meeting

announcement signs on Jackson Ave. So, unlike the Maple Rd. project, it was not advanced administratively without community or city council notice/engagement. I will also note that federally funded projects require public input, a proper and good governance best practice in my view.

My 7/2/18 “Resolution Regarding Citizen Input and Process for City Street-related Improvement Projects” reinstated this council review and approval action, but was amended by former CM Kirk Westphal to delete the following: “City Council directs the City Administrator to seek Council approval prior to implementing any lane reduction actions on major street corridors.” Again, the 7/2/18 and 4/1/19 recommendations were and are intended to reinstate what had previously been the approval process, prior to the current Administration’s removal of council from approving lane reduction and other significant road reengineering decisions.

For similar reasons, on Oct. 1, 2018, council rejected the staff-proposed revisions to the Traffic Calming program in part because the staff recommendations eliminated the requirement for council approval. (Council approval was an important step in the prior traffic calming plan.)

The City Administrator voiced concerns because, and as he has demonstrated, he prefers these actions to be undertaken administratively, and a two week delay/postponement would have, conveniently, excluded council from a proposed Earhart Rd. lane conversion decision.

I appreciate that the resolution to reinstate and require council approval of Transportation Plan and other road re-engineering plan recommendations passed and that, in going forward, the community and staff will be provided available crash and traffic flow data and utilize public meetings to obtain public input. These types of street-related improvement actions – whether it’s road diets, bumpouts, or moving crosswalks – impact neighborhoods and are actions that neighborhoods and residents have strong feelings about. It is our responsibility to seek, understand and address citizen input, and why, in my opinion, the administrative approach is not acceptable. We never had a council discussion about removing council from these road re-engineering conversations, it just became the new administrative approach and therefore necessitated re-establishing the former policy/approach.

I do not believe community engagement in these decisions resulted or will result in poor process or unsafe or unsatisfactory outcomes, and our city council and community should be viewed as value add, not a detriment to decision-making.

Thank you, again, for writing and for sharing your perspective on the pro’s and con’s of citizen and elected officials’ engagement.

Best regards, Jane Lumm

**Subject:** New Road Diet Policy NOT does not follow national norms

Dear Mayor Taylor and Ann Arbor City Council,

Last Monday, April 1st Council voted (on a split 7-4 vote) in a favor of a new policy which would require that *"the City Administrator must seek Council approval prior to implementing any lane reduction actions on major streets/corridors."* WBWC, and many of our supporters, wrote to you prior to your vote that we were concerned about the consequences this new policy would have on achieving our community goals (as established through the non motorized transportation planning process) of making our roads safer for bicyclists and pedestrians. Indeed, your own City Administrator voiced concerns and asked for a two-week delay in order to acquire feedback from the City staff about this proposed new policy. However, again on a split vote, Council decided it was in the City's best interest to ignore the advice of its own paid, professional staff and to implement a new policy with no research and no professional guidance. We are incredibly disappointed both with this new policy and the approach some members of Council took in adopting this new policy. WBWC would have been able to support some of the recommendations contained within the resolution. We too agree that the community engagement and communications process needs ongoing improvement. When both the cars-first and biking/walking public feel frustrated about project outreach/engagement, it's clear something is broke. However, we continue to believe that the above policy will not improve citizen engagement and will quite likely not make Ann Arbor safer for bikers and walkers.

Last week, in effort to better understand how other communities approach this issue, WBWC surveyed cities all across the US via an online survey posted to the Association of Bicycling and Pedestrian Professionals (APBP) list serve. Respondents were required to provide the name of their city and answer whether their city required road diets to be approved by City Council (the resolution language was included in the survey). Respondents were also allowed the opportunity to provide additional comments. As of this morning (4/8/19), our survey had eleven responses from US cities. Of the eleven cities that responded only one, Philadelphia, reported that they had the same policy as Ann Arbor. And the respondent commented, ***"This is perhaps the biggest issue we face in making streets safer. Changing this policy would literally save lives."*** Respondents, from the following cities -- Detroit (MI), Denver (CO), San Jose (CA), City of Redwood City (CA), Olympia (WA), Knoxville (TN), Atlanta (GA), Tempe (AZ), Seattle (WA), Cambridge (MA)-- , all reported that they did not have a required policy. One respondent even noted that they were not *"Not familiar with any municipality that has adopted this or similar restrictions anywhere in the US or Canada."*

Following the results of this survey, WBWC continues to be incredibly concerned about the direction Council is headed with regards to active transportation policy. Council does not appear to be following national norms or seeking input from the city's knowledgeable transportation staff. While at times it can be good to have a distinct policy that pushes a city to be a leader in a policy area, this policy seems to fall squarely in the category of policies other cities find dangerous. We urge you to reconsider the policy you have recently set and instead look at other mechanisms for improving citizen engagement in transportation planning.

Sincerely,  
Board of Directors

Washtenaw Bicycling and Walking Coalition

We never had a council discussion about removing council from these road re-engineering conversations, it just became the new administrative approach and therefore necessitated re-establishing the former policy/approach.

I do not believe community engagement in these decisions resulted or will result in poor process or unsafe or unsatisfactory outcomes, and our city council and community should be viewed as value add, not a detriment to decision-making.

Thank you, again, for writing and for sharing your perspective on the pro's and con's of citizen and elected officials' engagement.

Best regards, Jane Lumm

**Subject:** New Road Diet Policy NOT does not follow national norms

Dear Mayor Taylor and Ann Arbor City Council,

Last Monday, April 1st Council voted (on a split 7-4 vote) in a favor of a new policy which would require that "*the City Administrator must seek Council approval prior to implementing any lane reduction actions on major streets/corridors.*" WBWC, and many of our supporters, wrote to you prior to your vote that we were concerned about the consequences this new policy would have on achieving our community goals (as established through the non motorized transportation planning process) of making our roads safer for bicyclists and pedestrians. Indeed, your own City Administrator voiced concerns and asked for a two-week delay in order to acquire feedback from the City staff about this proposed new policy. However, again on a split vote, Council decided it was in the City's best interest to ignore the advice of its own paid, professional staff and to implement a new policy with no research and no professional guidance. We are incredibly disappointed both with this new policy and the approach some members of Council took in adopting this new policy. WBWC would have been able to support some of the recommendations

contained within the resolution. We too agree that the community engagement and communications process needs ongoing improvement. When both the cars-first and biking/walking public feel frustrated about project outreach/engagement, it's clear something is broke. However, we continue to believe that the above policy will not improve citizen engagement and will quite likely not make Ann Arbor safer for bikers and walkers.

Last week, in effort to better understand how other communities approach this issue, WBWC surveyed cities all across the US via an online survey posted to the Association of Bicycling and Pedestrian Professionals (APBP) list serve. Respondents were required to provide the name of their city and answer whether their city required road diets to be approved by City Council (the resolution language was included in the survey). Respondents were also allowed the opportunity to provide additional comments. As of this morning (4/8/19), our survey had eleven responses from US cities. **Of the eleven cities that responded only one, Philadelphia, reported that they had the same policy as Ann Arbor.** And the respondent commented, ***"This is perhaps the biggest issue we face in making streets safer. Changing this policy would literally save lives."*** Respondents, from the following cities -- Detroit (MI), Denver (CO), San Jose (CA), City or Redwood City (CA), Olympia (WA), Knoxville (TN), Atlanta (GA), Tempe (AZ), Seattle (WA), Cambridge (MA)-- , all reported that they did not have a required policy. One respondent even noted that they were not *"Not familiar with any municipality that has adopted this or similar restrictions anywhere in the US or Canada."*

Following the results of this survey, WBWC continues to be incredibly concerned about the direction Council is headed with regards to active transportation policy. Council does not appear to be following national norms or seeking input from the city's knowledgeable transportation staff. While at times it can be good to have a distinct policy that pushes a city to be a leader in a policy area, this policy seems to fall squarely in the category of policies other cities find dangerous. We urge you to reconsider the policy you have recently set and instead look at other mechanisms for improving citizen engagement in transportation planning.

Sincerely,  
Board of Directors  
Washtenaw Bicycling and Walking Coalition

Dear CM's,

As you may know, the application process for the Police Chief closed yesterday, March 25<sup>th</sup>.

We have developed a tentative timeline for the selection process that includes phone interviews during the week of April 15<sup>th</sup>.

We would like to invite you to be part of that phone interview process, which would select the final candidates that would be brought to Ann Arbor later in April.

Please let me know your potential availability for the week of April 15<sup>th</sup>. Specifically, what days of the week and times of the day work best for your personal and professional schedules.

Thanks in advance for your participation.

Robyn

Per the request of Kirk Profit:

## **[MEDC Announces Site Readiness Program](#)**

The Michigan Economic Development Corporation announced Wednesday a \$1.5 million grant program aimed at increasing the number of available properties ready for business development.

Under the Michigan Site Readiness Program, cities or public entities would be able to apply for grants of up to \$100,000 to assist with the development or improvement of industrial sites.

The purpose, MEDC CEO Jeff Mason said in a statement, is make more industrial sites more attractive for potential development and business growth.

"The resources provided through the Site Readiness Program underscore the innovative approaches we are taking to foster business creation and expansion here in Michigan," Mr. Mason said.

Acceptable uses for grants include site development studies, site material development, site implementation and land assembly activities. The MEDC recommends interested applicants having a local match that will be taken into consideration when reviewing grant proposals. The deadline for applicants is May 1.

Dear news media and community:

Several projects are planned that will result in lane closures on East Huron Street between Third and Glen streets, beginning Tuesday, April 9 and lasting into July. The city also notes that, to help ensure traffic flow is maintained as much as possible, stopping and standing on East Huron Street during lane closure(s) will be strictly prohibited and enforced. Please see the news release, below and [online](#), for details.

We hope you will share this notice with your audience.

## **Notice of Temporary Traffic Control Plan: East Huron Street (Third to Glen), Tuesday, April 9– July 2019**

### **Location and Limits of Affected Area:**

Huron Street from Third Street to Glen Street.

### **Description of Work:**

Three separate projects will be under construction concurrently.

<!--[if !supportLists]-->• <!--[endif]-->The Downtown Development Authority (DDA) will be undertaking a streetscape improvement project from Third Street

to South Division Street. This work includes new sidewalks, permeable pavers, street and pedestrian lighting, landscaping and trees. Work will begin Tuesday, April 9. More information can be found here:  
[www.peoplefriendlystreets.org/huron-project/](http://www.peoplefriendlystreets.org/huron-project/)

• DTE Energy will be replacing a gas main from Fourth Avenue to Thayer Street. Work is set to begin Monday, April 15 on the south side of Huron and will require the closure of two lanes of traffic from Main Street to Thayer.

• The University of Michigan will be making infrastructure improvements associated with the Power Center. This work will also take place on the south side of Huron and will require closure of one lane of traffic from Fletcher to Glen Street.

**Temporary Construction Traffic Control Plan:**

Beginning Tuesday, April 9, eastbound traffic will be narrowed to one lane from Third Street to Glen Avenue. Westbound traffic will be narrowed to one lane from Fletcher to Main Street.

**All vehicles, including delivery vehicles, will be prohibited from standing or stopping on Huron Street while lane closure(s) are in effect. Violators will be towed and/or ticketed.**

Pedestrian through-traffic will be maintained on one side of the street at all times. Pedestrian access into businesses will be maintained with the use of temporary surfaces (e.g., rubber mats).

To maintain the safety of all, please reduce speeds and drive cautiously through work zones. We thank you in advance for your patience.

## Ann Arbor Approves Climate Funds

### Thank You!

Thank you for responding to our call-to-action on climate change. On Monday night, in a 7-4 vote, Ann Arbor City Council approved a resolution that will fund climate action for two years. The City will be allocating \$880,000/year to initiatives that will reduce greenhouse gas emissions and prepare the city for a changing climate.

The Council decided to use general funds, rather than the county public safety millage rebate as the source for this funding. As a result, climate action has secure funding for two years rather than the 8-year sustained funding the millage would have provided. While it is disappointing to lose the sustained funding, a 2-year commitment to climate action is a place to start and build upon.

HRWC also supports Council's approval of \$880,000/year for affordable housing and \$440,000/year for pedestrian safety. These are all priorities for Ann Arbor citizens and

are inter-related.

It was great to see many of you at caucus on Sunday night and on Monday at the Council meeting. Filled to standing room only, the audience was a sea of green in support of climate action. Additionally, thanks to those who wrote or called their council members. Many council members stated in their comments on the subject that they have received hundreds of calls and emails about the issue.

**The final step is now the budget approval which will happen in May. Please help us continue to hold our council members accountable for climate action.** The health of the Huron River is intimately tied to the health of our climate. Thank you for your support and advocacy.

*Climate change threatens the health of the Huron with declining water quality and more erratic flows. HRWC's Climate Change projects are helping watershed communities and the river adapt to changing climate conditions in the Huron. [LEARN MORE.](#)*

**Subject:** RE: CM Ackerman issue

Ryan:

You have asked me to comment on statements made by CM Ackerman at a Council meeting. I note that the specific statement addresses a posting by Councilmember Nelson. While I ordinarily do not comment on these matters, because my office is referenced in the statement below, I believe it to be appropriate to comment on it under the circumstances. As I understand it reviewing the actual statement, the statement made was that “In a blog post you [CM Nelson] implied that by not disclosing my arrest, I may have been under immense pressure from the Ann Arbor City Attorney and the Ann Arbor Police Department. That they may have used my charge and sentence as a bargaining chip in attempt to subvert the oversight commission.”

I cannot comment on what conclusions are drawn or intended by CM Nelson from the statements in her post. That is most properly asked of her. Likewise, I cannot comment on what Councilmember Ackerman believed her blog post to imply to him. That is for CM Ackerman to explain. **However**, as a factual matter, and because she has consented to my verification of our discussions below: in my discussions with CM Nelson, she has never accused my office or the Ann Arbor Police Department of doing anything in this matter, with respect to the oversight commission or anything else. As a factual matter, this matter evidently arose in and was prosecuted by another jurisdiction entirely. As a factual matter, and relatedly, the Ann Arbor City Attorney Office and the AAPD are not involved in “charging” and “sentencing” of a matter in another jurisdiction. As a factual matter, the blog post at issue never specifically identifies or accuses the Ann Arbor City Attorney Office or the Ann Arbor Police Department of anything.

Finally, you have asked about allegations of conflicts below. I cannot comment on what a Councilmember believes to be a conflict for that Councilmember or in viewing another Councilmember’s situation. As a factual matter, Conflicts of Interests for Councilmembers are governed under the Council Ethics Rules 1 – 4. These rules outline the procedures and reasons for excusal from voting on matters before the Council.

In the interest of transparency, I am cc’ing both Councilmember Nelson and Councilmember Ackerman on this statement, so there is no confusion on what my statement is on this matter.

**Subject: Re: CM Ackerman**

The SITUATION represents a conflict. It is impossible to know anything (and I

don't claim to know anything) about what conflicts could exist because nothing has been revealed. E.g. If, hypothetically, council is regulating marijuana dispensaries and someone finds out I have a brother who wants to open one in Ann Arbor, it's open season for people to explore how my votes on this issue impact my brother, what motivated me, it's fair for people to question it, question my choice not to share that as a possible conflict. I'm not saying that CM Ackerman was legally required to reveal anything. He may technically not have been. I am saying that this particular issue was so sensitive, it would have been the right thing to do. I've not heard him acknowledge even the sensitivity of the issue, I've only heard him insist that it is a medical condition that warrants privacy.

> On Apr 2, 2019, at 6:55 PM, Elizabeth Nelson <> wrote:

>

> Hi,

> I just talked to CM Griswold about a conversation you had about CM Ackerman. On the chance that whatever story might be reported without my input, I thought I would clarify a few problematic statements made last night that, unfortunately, were not refuted. I find it very uncomfortable to hear my words twisted but even more uncomfortable to have to directly contradict the person who intentionally twisted them. I have cc:ed Mr. Postema because he can verify the following:

>

> -- Contrary to statements made by CM Ackerman, I have never implied or suggested that anyone in our city attorney's office or our city police department (or any corresponding departments in Novi) put pressure on CM Ackerman. Contrary to CM Ackerman's statement, I have never implied that anyone from our police department or any department in our government or the city of Novi's government "put pressure on" him in any way. CM Ackerman said that I "implied" that "they may have used my charge and sentencing as a bargaining chip in an attempt to subvert the oversight commission." This bears no relation to anything I have ever written or stated to anyone.

>

> I have publicly shared the message I sent last week to Mr. Postema, outlining my concern that this situation (concealing a crime, conviction, and sentencing while doing council work related to how such things happen for others) put CM Ackerman under significant pressure: internal pressure, personal pressure. I presume that is where these statements from Ackerman came from, but it is an outrageous twisting of my words. The tone of my message to Mr. Postema was not an accusation but a plea for legal advice, which he acknowledged as reasonable. Staff do not need CM Ackerman defending their professionalism because I did not question it. In this incident, I never accused anyone of being unprofessional except for CM Ackerman himself.

>

> During our meeting break last night, I shared my frustration about these mis-statements with Mr. Postema, clarified that I have never implied or suggested anything like what CM Ackerman stated.

>

> -- Contrary to statements made by CM Ackerman, inquiries made about the state statute regarding removal were not inappropriate or a case of targeting someone with whom you disagree on policy. It is entirely legitimate for us to ask Mr. Postema about the validity of a statute like that. Mr. Postema is our legal counsel and he is meant to answer such inquiries for us. Mr. Postema has encouraged us to seek counsel from him, as it is his job. This was a topic, also, that Mr. Postema and I discussed during the meeting break last night.

>

> I regret that these very significant mis-statements were not refuted last night by me or anyone else. I appreciate that CM Ackerman is in a very vulnerable position right now and in the moment last night, it felt like he didn't need one more problematic behavior pointed out. On balance, I figured that the small number of people who might believe his mischaracterizations about me, CM Eaton, and CM Griswold were far outweighed by the number of people who are shocked and disappointed by his actions. However, if an article is to be published, I now see the risk of Mlive inadvertently amplifying his mis-statements.

>

> I would note: I am perfectly willing to state that I think CM Ackerman should resign. Our local ordinance re: removal of council members is inadequate in a situation like this, the circumstance are too unique -- we don't typically deal in issues so sensitive to the very nature of policing, bias, and white privilege. If Council had spent the last three months debating nothing but sidewalks and affordable housing, this would not be so upsetting to many in our community. We now see the muddling of issues, suggestions that a crime is the same as a health issue, that the stigma around drunk driving (i.e. poor judgement, irresponsible behavior) is the same as a stigma around a medical condition. Many community members have reached out to me, frustrated that they are hearing these false equivalencies.

>

> I trust Mr. Postema to forward this as he sees fit or share whatever insights he feels do not violate his attorney-client privilege.

>

> Thanks for your time.

>

> Elizabeth Nelson

Good afternoon all!

I am pleased to announce that Denise Jeanes will join the City next Monday, April 8<sup>th</sup>, as the Management Assistant supporting the Human Rights Commission and the Independent Community Police Oversight Commission. Her office will be located on the 2<sup>nd</sup> floor, first on the right off the elevator. Kindly stop by and welcome her to the A2 team!

Over the coming weeks, Ms. Jeanes will face the formidable task of standing up and supporting the new ICPOC, as well as establishing relationships with the HRC. All of our support will be critical in achieving success on these tasks, and I want to thank you in advance for your assistance and welcoming spirit.

**Subject:** Brightdawn Site Plan Q

Good morning, Messrs. Lenart and Cheng,

Writing about the Brightdawn site plan and a change which has been brought to my attn. The change is not site plan changes (i.e., to # of units, site plan design, etc.) but is a change to the term of affordability, from 15 to 99 years, for the 40 proposed units of affordable housing (20 units at 60% AMI and 20 units at 80% AMI). Sounds like a "sweetener" on the part of the developer to get approval for 160 vs. 120 units – the addition of 40 units is, if I'm understanding the concerns

correctly, the primary concern of residents who have addressed the Planning Commission and written council.

I know the CPC denied this project and not sure when it's coming to council, and so my Q is, given the change proposed, will the site plan be again reviewed by the Planning Commission for their approval/denial prior to coming to council?

Thanks, Jane

Mr. Lazarus,

I would like to schedule a meeting to discuss a personnel matter, and would like to meet on Friday if at all possible and doable for you. By way of this message, I am also inviting Mr. Postema, Mayor Taylor and CM Eaton as this is a matter about which they should also be informed.

If you could suggest some times for meeting on the 5<sup>th</sup>, I would be most grateful. I would suggest reserving up to 90 minutes.

Thank you, Jane

Thanks, Kathy. Thanks also for the shot across the bow. As you can see, I took a similar approach. Would be outrageous if he did this, and also don't get it -- he got his 40/40/20. If he does this, so much for working w/him on anything. Given the make up of council, think he and CM Lazarus need us.

Thank you for your kind thanks and words of support, Alice and Glenn. Your advocacy was critical, particularly given that you were challenged by such well-organized advocacy groups.

The thought that we're just giving the mental health money back to the County (and not necessarily used in the City) is nonsense. As I suspect you know, the City of AA allocates \$1.3M to roughly 15 local non-profits, and many/most provide mental-health related support services. I just looked at this FY budget, and here are some of the agencies we're now funding that might be potential recipients of this new funding, if included in the City Administrator's budget:

- Avalon Housing, Inc.
- Barrier Busters Actions Group
- Catholic Social Services of Washtenaw
- Child Care Network
- Community Action Network
- Domestic Violence Project, Inc.
- Home of New Viswion
- Jewish Family Services of Washtenaw County
- Michigan Ability Partners
- Ozone House, Inc.
- Peace Neighborhood Center
- Perry Nursery School of An Arbor
- Salvation Army of Washtenaw County
- Shelter Assn. of Washtenaw County
- UM-AA Meals on Wheels
- UMHS- Housing Bureau for Seniors
- The Women's Center of Southeastern Michigan
- Washtenaw Assn. for Community Advocacy
- Washtenaw Community Health Organization – Agency
- Washtenaw County Community Mental Health

So, as you can see and well appreciate, there are many possible applications for the utilization of these mental health funds. If you and the Citizens for Mental Health & Public Safety would like to offer any suggestions/recommendations for how these funds can best advance mental health services where most needed, I know we would welcome your input.

And, how very kind of you to say our votes helped lessen our citizens' cynicism and increased their trust – your words are empowering, and mean so very much!

Utmost thanks to you, Glenn and Alice and all your friends and colleagues who have worked so hard to ensure that these funds are allocated as our citizens want and need.

Jane

Council Members Ackerman, Bannister, Eaton, Griswold, Lumm, Nelson and Ramlawi,

Thank you for your support for DC-4 as amended, a.k.a. the Lumm Resolution, at last night's (4/1) City Council meeting! Assuming the City Administrator follows your direction and Council members approve this component of the budget, the \$355,000 allocated to mental health services will improve the lives of a significant number of Ann Arbor citizens. In addition, your actions demonstrate to voters that you understand many of them voted for improving mental health services when they supported the County Millage. Your vote helped lessen cynicism and increased trust among citizens.

Our citizens group will disseminate information about your good work in support of those living with mental health issues. Thanks again.

Sincerely,

Alice Carter and Glenn Nelson

**Subject:** request to meet regarding crosswalk ordinance

Thanks for your response Elizabeth. I don't serve on the Transportation Commission, so I won't be a part of that discussion. I am requesting to speak to you as a board member of the Washtenaw Bicycling and Walking Coalition and would love to share with you a lot background information and discuss the issue with you directly. WBWC advocated for the adoption of our more protective crossing ordinance and has sought to protect it for the last 9 years. I would hope you might be interested in engaging with someone on our board directly on this topic that is knowledgeable about the issue. WBWC is quite opposed to your resolution, but we'd rather discuss with you why we are before launching a campaign against it.

On your other point, I do not believe WBWC has spread misinformation. Sometimes a different perspective is characterized as misinformation and one-on-one discussions can help to break down barriers in miscommunication. The best way I know of to develop productive working relationships is to meet, discuss, listen, and try to understand each others views. I suspect we're not that far apart on the issues as you might suspect.

On a side note, I stepped down as Senior Transportation Policy Advisor because I saw that the role was viewed unfavorably by you and some others on Council. I have tried to take steps personally not to muddy the waters between different roles and I'm hoping that you're open to trying to develop a positive working relationship WBWC.

However, if you do not feel like this is a good use of your time, I understand. Thank you for your consideration of the request.

All the best,

Erica Briggs

Hi,  
I'm sorry this got buried—I got wound up in planning spring break (then going away!) and then behind on email.

I meet one-on-one with probably five or six people a week (resident advocates, community leaders) on various topics like this, I recognize the value of it. (Over the last three months, I must have met one-on-one or two-on-one with a dozen climate action advocates!) I really do try to make myself available for conversations like this when people reach out but I'm also looking for the most productive outlets. To be honest, when I'm aware of where and how folks have spread misinformation (for this I include oversimplification that is misleading, rhetoric that is unnecessarily hostile), I am reluctant to engage. You are the first person to fall into this category and also reach out to me, so I guess I'm.... surprised? I appreciate that it's "political" to frame and characterize issues narrowly and strategically, but it really is harder to have constructive conversation with that as a starting point.

Right now, re: looking at the crosswalk law language, I'm looking forward to conversation among a subcommittee of the Commission on Disabilities Issues and I am totally open to wherever that conversation leads. My understanding is that there's similar conversation to happen within the Transportation Commission and you are a part of that. The language/phrasing of this law is probably the least impactful of any policy shifts that might happen, it's primary value for me is in telegraphing our willingness as a city to acknowledge that current strategies are inadequate. If revisiting the language pushes us in the direction of more effective public awareness around crosswalk safety, conversations about how to make pedestrians safer, that would be a positive outcome. I'm told that even suggesting that these conversations happen is like putting a "loaded gun on the table" (this is a direct quote from one of the eleven people sitting at our council table). I simply don't view conversation that way and I am very reluctant to inject that kind of rhetoric in any of our public policy debates.

Nothing is happening quickly or suddenly and at the moment I'm focused on the piece of this that impacts disabled residents. I would suggest maybe that if, after a bit more discussion in your wheelhouse (transportation commission), you still have specific concerns, let's meet then. I'm eager for conversation that I can have among the members of Disability subcommittee, see what feedback happens there.

I appreciate you reaching out and I apologize about you having to loop back again. I always thank people when they do that because it is legitimately easy on my end for email to get buried!

Elizabeth

**Subject:** Re: climate action spending

Hi Mark,

My vote against the Taylor/Griswold resolution (DC-3) was not a vote against climate action. My vote was based on process and substance.

I believe it is poor budget process to address the three issues - climate action, affordable housing, and pedestrian safety - outside of the normal budget process. The Taylor/Griswold resolution made the important step of removing the Public Safety and Mental Health millage from the debate and instead identified how much will be spent. Nonetheless, it did so outside of the deliberations on all of the other spending needs the City has.

As for the substance of the Taylor/Griswold resolution, it results in little new climate action spending. The resolution sets a baseline level of spending on climate action from the fiscal year (FY) 2018 budget. The City spent \$177,000 on climate action in FY 2018. The resolution requires the FY 2020 budget to add at least \$880,000 to that baseline amount for a total of about \$1,057,000. For comparison, the City budgeted about \$560,000 in recurring climate action funding (of a total \$805,000 in sustainability funding) and \$250,000 in non-recurring climate action funding representing a total \$810,000 for FY 2019. The Taylor/Griswold resolution that I voted against creates an impression of greatly increased climate action spending but actually only increases climate action spending by \$247,000.

When these matters are discussed without consideration of the details and nuances, it is really just political posturing, not substantive debate. The efforts to portray that resolution as meaningful climate action was really just greenwashing, making something seem more environmentally sound than it really is. I believe that climate action is too important for these polarizing tactics.

I will repeat, the urgency of the issue requires that we measure our actions on what we actually accomplish rather than how much we spend. I encourage you to read what the office of sustainability has accomplished so far this year with its \$805,000 in recurring funding. I have attached a document staff provided to me in response to my question about the accomplishments in this fiscal year. I'm not sure what impact the spending has had, so far.

Best wishes,  
Jack

Dear Commissioners Hayner, Lumm, Eaton and Ramlawi:

I was deeply saddened by your vote last night against climate funding in Ann Arbor. I was especially pleased, however, to see that *both* of my Ward 3 representatives joined in to support this worthy effort.

I have worked in energy efficiency and renewable energy since 1975 at the local, county, state and federal levels. I did my first government-related Community Energy Management program with the City of Kalamazoo in the early 80's. My long career in energy has given me a perspective and insight into how to effectively craft and implement energy-related public policy.

Within this context, I believe that Ann Arbor has a *unique opportunity at present* to make a real difference in climate change and quality of life and economic security. As this vote illustrates, for the most part, we have public policy makers on City Council who support climate action, a supportive, qualified, experienced and *honorable* City Administrator who understands climate change risk mitigation and a new and highly regarded Manager of Sustainability and Innovation (Missy Stults). We also have a *deep-bench* of qualified volunteers on our Environmental and Energy Commissions. We also have qualified volunteers and NGO's ready to roll-up their (our) sleeves and dirty their (our) hands getting the job done (e.g., installing solar panels on our fire stations and city buildings).

Finally, we have what I've been waiting for the most... *enlightened and awakened youth* who are shocked to learn that public policy makers have cavalierly failed to address climate change risks! I turn 71 this year and am relieved to know that finally, someone is at my back, ready and qualified to take over pushing this gigantic and heavy climate-change rock up this cultural shift mountain.

*Full sustainability is within our reach.* Now, more than ever, it *only* requires each of us to either *lead, follow or get out of the way.* I respectfully encourage you to rethink your stand on climate change funding and sustainability-related public policy for our community.

Respectfully yours,

Mark Clevey (Ward 3)

Dear Sir,

With all due respect, I reject your assertion that any vote taken well in advance of the actual budget deliberations and actual budget vote represents a vote “against climate funding in Ann Arbor.” A quick look at the voting record will show that when votes were taken to support our city’s Climate Action Plan - with actionable items, like the placement of solar panels on AAHC properties, the purchase of electric vehicles in keeping with the city’s Green Fleets efforts, or the renewing and extending of the Sustainability Grants program –I voted in favor of these projects.

Furthermore, I have enough respect for our City Administrator to know that he will be bringing forward a budget that adequately addresses our Climate Action Plan and Sustainability efforts, balanced with our other real needs (clean water, affordable housing, infrastructure maintenance etc.) without being directed by virtue-signaling council resolutions.

Don’t fall victim to the politicization of Climate Change in Ann Arbor. You seem like you have the right background to find better ways to move the conversation forward than by insulting those of us who are struggling to make up for YEARS of neglect and Greenwashing around these issues.

Sincerely,

Jeff Hayner  
Ward 1 City Council

Thank you for your input, Dan. And, I would respectfully ask that you and your fellow environmental advocates, not race to judgement by calling folks who differ with the 40/40/20 recommendation, or spending a million plus of city tax dollars on climate action funding as "climate deniers". That's a sure fire way to minimize a nuanced and complex discussion/issue and those with whom there's granular (as opposed to epithetical) differences and analyses. That's too much, I'm right, you're wrong, and nothing you have to say on this matter is material because you are a "Climate Denier." That slams the door shut on any thoughtful exchange of ideas.

Thank you for listening, as well. –Jane Lumm

Dear Mayor and Council,

I proofread my previous email too hastily, and it includes an error. I should have begun: "As you know, the Huron Valley Group endorsed retaining 40/40/20...." We never met after the Taylor/Griswold proposal was launched, so we couldn't have endorsed it. Though the error didn't affect the substance of my email, I apologize for it.

Sincerely,

DE

On Sun, Mar 31, 2019 at 8:56 PM Dan Ezekiel <[REDACTED]> wrote:

Hi, Mayor and Council,

As you know, the Huron Valley Group has endorsed the Taylor/Griswold proposal. This letter is from me personally, not representing the Sierra Club.

I want to share some context from my own experience about why it makes sense to provide consistent, predictable funding for climate change mitigation (besides the fact that it's just the right thing to do).

When there is consistent, predictable funding for a purpose, it often leads to opportunities for additional funding. As two examples from my own experience:

1. Because the voters of Ann Arbor voted to tax ourselves for the Greenbelt, it opened numerous opportunities for outside matching funds. For example, for years we got the lion's share of all the Federal Department of Agriculture PDR matching money for the whole state. When the Great Lakes Restoration Initiative was announced, we had plenty of "shovel-ready" projects to show them, and once again, our area got far more than "our share" of that money. Also, townships approved millages that probably would never have

passed had it not been for Ann Arbor voters leading the way (and the county amended its millage to include PDR for farmland). Thus, the voters' willingness to provide a predictable funding source became itself a magnet for funding from other sources.

2. I'm currently working with the Ann Arbor Public Schools to repair its long-neglected recycling program. We've been working on this for about a year and a half. When the lame-duck legislature gave the DEQ a huge, unexpected appropriation for grant money for recycling infrastructure, our schools were ready and waiting, with projects already partly underway and ready to accept a large grant, for which we've now applied.

Climate denial can only last so long. There is every chance that there will be a new federal administration in place in early 2021 (let us fervently hope!) It seems quite likely to me that, at that point, there will a large-scale federal initiative to reduce greenhouse gas emissions nationwide, with federal matching funds available. If we start planning and beginning to fund some of this work on our own (as we should anyway!), we might be in position to garner a large amount of matching funding for these purposes before long, much more so than if we only fund climate change projects piecemeal and one at a time....

While I would have personally preferred 40-40-20 for the life of the county millage, I urge you all to vote yes for the Griswold/Taylor compromise, the best chance to establish a secure funding source for climate change mitigation and to set ourselves up for possible matching funding down the line as our program really gears up.

Thanks for listening,

DE

**Subject:** Proposed Amendment to DC-5  
**Date:** Monday, April 1, 2019 3:11:11 PM

---

Good Afternoon,

As liaison to the AAHC, I was quite interested in DC-5. I noticed that a great deal was being asked of staff at the city and county, but that there were not any dollar amounts attached to the resolution. I had a brief conversation with Ms. Hall this afternoon. With 10 properties, we are asking the county to provide a great deal of environmental assessment, which has significant implications for federal funding. Ms. Hall also thought that having a basic understanding of each property's zoning would help guide our decision making going forward.

Here's the amendment. I would be pleased to add a whereas clause or two if the sponsors would find that useful.

Resolved, that an amount not to exceed \$75,000 is allocated for a zoning analysis (unit density, footprint, parking, and setbacks) and preliminary environmental assessment.

I welcome your (individual) feedback.

Best,  
Julie

**Subject:** RE: Please reject Resolution 19-0581  
**Date:** Monday, April 1, 2019 1:12:44 PM

---

Dear John,

Thank you for writing. The survey was conducted to obtain citizen feedback on our taxpayers' priorities for how their millage tax proceeds (\$2.2M annually) should be allocated. And yes, mission accomplished, residents indicated their preferences, and this resolution allocates the \$2.2M as the survey recommends. There are no "current funding levels" for the 40/40/20 allocations as these recommendations were the result of a council resolution – i.e., the budget was not amended and the FY20/21 budgets will not be presented until 4/15 and will not be approved until mid-May (at the earliest).

The city budget adoption protocol is defined by City Charter, and the resolution I presented, provides guidance (i.e., budget policy direction) on the \$2.2M. The City Administrator is responsible for presenting the City budget. After the budget is presented, Council has the authority to amend and adopt. Any actions that precede the adoption of the city budget are simply policy directives – and this includes resolutions like the 40/40/20 directive which you support. The approaches are identical.

What you consider ill-conceived remedies, I call, listening to and respecting taxpayer input on how our taxpayers would like their tax dollars invested. This isn't Jane Lumm's \$, it belongs to the taxpayers, and they have spoken, whether some of us like and support the results, or not.

I will always stand for representing the voices of our taxpayers, and the survey provides us the needed feedback.

Thank you for writing, John, to express your disagreement with this resolution.

All best, Jane

**Subject:** Please reject Resolution 19-0581

Please reject Resolution 19-0581: "Resolution Providing FY20 Budget Policy Direction Consistent with the Results of the Community Survey" (Sponsor: Lumm)

Council member Jane Lumm had stated her intentions with this survey were to better understand resident preferences. Instead, she has developed a resolution that directly applies the average survey results to budget making regardless of current funding levels, current progress in those areas, or resident understanding of those issues only days after the survey results were shared. Is this really an appropriate approach to policy making and budgeting?

Council member Lumm has long sought to address the challenges of the 2017 county millage language with ill-conceived remedies. While I have long respected her commitment to a thorough analysis of budget making, I am left stunned by this resolution.

Please let us move forward with supporting the important work of mental health, public safety, affordable housing, climate action, pedestrian safety.

Thank you,

John Callewaert

Thank you, Susan.

Obviously, we will have to agree to disagree on the allocation of these millage proceeds. Because the ballot referendum question was silent on the usage and allocation of these funds, the City conducted a statistically valid survey of residents to ask our taxpayers how they would like their millage tax dollars spent. The resolution which you oppose reflects our taxpayers' input on how they would like these funds allocated.

Thank you for your interest in this and other city matters, and it was also good of you to take the time to address council at the Lockwood development public hearing. On that issue as well, I respect your rationale and view, and our differences of opinion.

Kind regards, Jane

Super Road Diet Man (Jeff, AKA Kirk Westphal) sent out an email to his email list writing about this and encouraging folks to write us to vote it down.

**From:** Rory Neuner [REDACTED] >  
**Sent:** Monday, April 1, 2019 10:44 AM  
**To:** CityCouncil <CityCouncil@a2gov.org>  
**Subject:** Oppose Resolution 19-0610

Dear honorable members of City Council and Mayor Taylor,

I am writing to express my strong opposition to resolution 19-0610, sponsored by Council members Lumm, Eaton, and Griswold, which to my understanding, would require all road diets to be approved by City Council.

I moved to Ann Arbor 1.5 years ago specifically because of the quality of life afforded by a walkable, bikeable, transit-friendly community. No other community in the State of Michigan offers what Ann Arbor does in this regard, in my opinion. Yet, we can do even better. In fact, it is imperative that we do -- we are living in a time when climate change is threatening the viability of our future -- and emissions from car-related transportation is a major contributing factor. We need to find ways to make Ann Arbor *safer and more friendly* to people who walk, bike, and take transit, not less so.

The City of Ann Arbor hires qualified planners and engineers to make analyses and to lead robust public engagement processes. In an era where bureaucrats are often unnecessarily vilified, I think we should do the opposite -- trust them. The idea that we would hijack these thoughtful, engaged processes because we have a few change-averse residents that loudly bang the table is, to me, quite dangerous.

In addition, the idea that we would more highly scrutinize only those projects intended to lower traffic speeds and improve safety for vulnerable pedestrians and cyclists is contrary to the City's complete streets ordinance, and anathema to the values of protecting those who have less resources than the privileged few.

I respectfully request you to oppose this resolution.

Rory Neuner

**To:** [Higgins, Sara](#)  
**Cc:** [Hayner, Jeff](#); [Lazarus, Howard](#); [Eaton, Jack](#); [Griswold, Kathy](#)  
**Subject:** Bannister Agenda Questions  
**Date:** Monday, April 1, 2019 10:02:16 AM

---

Dear Ms. Higgins,

Thanks for processing my Agenda Questions:

1. CA-13, 19-0386 -- Bikeshare Program \$50,000 -- Did this program fail in the past, and if so, why did it fail and why/how is it back now? Have there been any changes to the program since it may have failed? Are bikes safer than bird scooters, and if so, how could this be communicated to the public?
2. CA-14, 19-0567 -- Northside STEAM SRTS Resolution No. 3 -- Why was this being on the April 1 agenda not mentioned/discussed by Mr. Lazarus and Mr. Hupy when we met on March 27? Please keep everyone (residents and Councilmembers) better informed about "What's Happening?", not only with the MI Fitness Foundation/MDOT process, but also with the City Council process in the face of a nearly unanimous objection to the project as written. Please confirm the process for the residents to file an objection with the City Clerk, and whether a super majority of 8 votes on Council will then be required at May 6th. What will or will not happen if the April 1 and May 6 vote fails? I believe I've asked for this information many times, but as a reminder, please voluntarily share any and all information you think Councilmembers and residents would like or need to know about this project, given the strong objection to it by the impacted residents.
3. PH-1, 19-0465 -- Two-Cycle Power Equipment -- At the March 28 Environmental Commission meeting, Jennifer Lawson gave an excellent presentation and this issue came up in the Q & A. She mentioned that she may have data on the sludge that's collected downtown from the storm drains, such as dirt and cigarette butts, etc. Is it possible to know the magnitude of the contaminants that are going into the storm drains downtown?
4. DC-2, 19-0284 -- Center of City Task Force -- Please add me as a co-sponsor
5. DC-3 and DC-4 -- 19-0565 and 19-0581 -- Budget Issues -- Jennifer Lawson gave an excellent presentation to the Environmental Commission on March 28 and mentioned that Leaf Pick Up could have a significant impact on Green House Gas Emissions. Please provide details on why we don't have leaf pick-up, what would need to happen to have it back, which budget it would come from, etc. please just share everything Council and residents might want to know about this issue. For Resolution 19-0581 please describe which funds are Enterprise, millage and/or General Funds, etc.
6. DC-5, 19-0605 -- Potential Locations for Affordable Housing -- Please add me as a co-sponsor. A review of Jennifer Hall's spreadsheet list of 10 city owned properties shows in Column J ("Relevant Plans") that 2000 and 2050 South Industrial are "Not Recommended for Residential" and 721 N. Main does NOT show that the Treeline Trail is also working in this parcel. Can the spreadsheet be updated to elaborate on these discrepancies? How do these discrepancies harmonize with the resolutions passed by Council at the March 18 meeting about affordable housing on these parcels? Column V ("Railroad Noise Hazard"), shows a YES all the way down; how is Stadium Drive Fire Department in the railroad noise hazard? Please elaborate on what Council and residents might need to know about "railroad noise hazard," including whether it impacts the ability to get shared funding from other sources. Is railroad noise similar to flood plains and flood ways, when it comes to shared funding?

Thanks.  
Anne

Hey Jen,

Any reason the kerrytown surface lot isn't on your list of properties that could be used for affordable housing? My understanding is the the Eaton/Nelson resolution simply is a list of properties that you provided.

I'd like to amend the resolution to include the kerrytown lot, unless you have concerns.

Chip

**Subject:** Admin Committee -- Requests for Discussion

Hi Kathy, Jack and Jane,

Would I be welcome to sit-in on the 4 p.m. Admin Committee today?

These are my current concerns:

1. **Agendas:** Would staff print 20 or so Meeting Agendas for the Council Caucus meetings? Currently Councilmembers have to print and collate them one at a time on the little printer in the Council alcove.
2. **Wireless Printer:** Would it be possible for Councilmembers to have a wireless printer in the alcove? This would allow more than one Councilmember to print at a time, and also allow Councilmembers to print from Council Chambers and pick up their documents from the alcove.
3. **Lockers:** Would it be possible for Councilmembers to have a safe place, such as a locker or other secure location, to keep their laptops at City Hall?
4. **RFI:** The RFI process is a wealth of data about what residents are asking their

Councilmembers. Would it be possible for Councilmembers to see the same data that the Administrator's Office receives? Currently we receive a minimal snapshot of data and the full report would be more useful in our pursuit of Public Service Excellence.

5. **Staff Response to Resident Emails:** For use with the RFI process and other inquires email inquires from residents to Council, would it be possible for staff to respond to the resident, to acknowledge receipt of their email and send a standard response from a "Letter Library"?
6. **Letter Library:** Would it be possible for a Letter Library to be created to answer Frequently Asked Questions from residents? Here is a sample that I sent to a resident on March 12:

Dear (resident name),

Thank you for contacting the City. Would you copy and paste your two issues into SeeClickFix, our online form to submit and track issues?

This is the link: <https://www.a2gov.org/services/Pages/Report-a-Problem.aspx>

This is the email for customer service: [customerservice@a2gov.org](mailto:customerservice@a2gov.org), from this link: <https://www.a2gov.org/services/Pages/Home.aspx>

Thank you,  
(City Council, or Howard Lazarus, etc.)

Thanks!

**Subject:** Admin Committee -- Requests for Discussion

Hi Kathy, Jack and Jane,

Would I be welcome to sit-in on the 4 p.m. Admin Committee today?

These are my current concerns:

1. **Agendas:** Would staff print 20 or so Meeting Agendas for the Council Caucus meetings? Currently Councilmembers have to print and collate them one at a time on the little printer in the Council alcove.
2. **Wireless Printer:** Would it be possible for Councilmembers to have a wireless printer in the alcove? This would allow more than one Councilmember to print at a time, and also allow Councilmembers to print from Council Chambers and pick up their documents from the alcove.
3. **Lockers:** Would it be possible for Councilmembers to have a safe place, such as a locker or other secure location, to keep their laptops at City Hall?
4. **RFI:** The RFI process is a wealth of data about what residents are asking their Councilmembers. Would it be possible for Councilmembers to see the same data that the Administrator's Office receives? Currently we receive a minimal snapshot of data and the full report would be more useful in our pursuit of Public Service Excellence.
5. **Staff Response to Resident Emails:** For use with the RFI process and other inquires email inquires from residents to Council, would it be possible for staff to respond to the resident, to acknowledge receipt of their email and send a standard response from a "Letter Library"?
6. **Letter Library:** Would it be possible for a Letter Library to be created to answer Frequently Asked Questions from residents? Here is a sample that I sent to a resident

on March 12:

Dear (resident name),

Thank you for contacting the City. Would you copy and paste your two issues into SeeClickFix, our online form to submit and track issues?

This is the link: <https://www.a2gov.org/services/Pages/Report-a-Problem.aspx>

This is the email for customer service: [customerservice@a2gov.org](mailto:customerservice@a2gov.org), from this link: <https://www.a2gov.org/services/Pages/Home.aspx>

Thank you,  
(City Council, or Howard Lazarus, etc.)

Thanks!  
Anne

Tom, Derek,

Forwarding FYI. CWD has now been detected in 8 lower peninsula MI counties, including Jackson County which is just west of Washtenaw County. Perhaps this is something we should be monitoring going forward?

I did hear from one homeowner who reached out about a severely emancipated deer on their property-- it was concerning, as well, because the sighting was in the summer so there was plenty to eat.

Think this is something we need to stay on top of as we go forward.

Thanks, Jane

Councilmember Eaton:

Thank you for the additional feedback, which I will incorporate. My draft to you was a first attempt to "narrow the canvas." Leaving the property at 1<sup>st</sup> and William was an unintentional omission, so I will add it back in. Ms. Hall's feedback is consistent with your desire to prioritize, so I will incorporate that as well.

**Subject:** Re: request for resolution on City-owned property

Mr. Lazarus,

Thank you for having staff prepare a resolution to address the City-owned properties that might be used for publicly-owned affordable housing.

I had hoped that the resolution would call upon staff to make recommendations on how the properties should be prioritized for consideration of development as affordable housing. I would prefer that Council be advised on which properties would be easiest and best used. Rather than have Council direct staff on which property to develop first, I would like to have staff advise Council on which property or properties present the best opportunity and what order of priority should be used to consider each property.

I also note that the resolution omitted First Ave (1st and William), 216 W William St. Has that property been eliminated from consideration?

Thank you and your staff for your attention to this matter.

Best wishes,  
Jack

**Subject:** request for resolution on City-owned property

Mr. Lazarus,

The March 18 Council meeting included discussion of three properties as potential sites for affordable housing (DC-5, DC-6, and DC-11). Staff responses to Council Member's agenda questions included a feasibility analysis for 10 City-owned properties (attached). I believe that having individual Council Members select properties for action rather than having staff rank the entire list of potential sites does not follow best practices. Had I known in advance that 10 sites were available, I would have asked for staff input on which properties should be selected for action.

I would appreciate it if you would prepare a resolution for me to introduce at the next Council meeting to direct Housing staff to rank the 10 properties to identify which properties should be given priority in our efforts to build affordable housing on City-owned land. Ideally, that resolution will reference the March 18 resolutions and direct staff to take a broader view in an initial review of potential affordable housing sites when following up on the evaluation of those three sites (721 N. Main, 2000 Industrial, and 1510 E. Huron).

I have copied Council Member Nelson because she indicated a desire to look at our properties in a more comprehensive review than the three resolutions achieved. I have copied Jennifer Hall to keep her informed of my request for input from her office. It is not my intent to add to the Housing office's work load unless it serves their purposes.

Thank you,  
Jack

Mr. Lazarus,

Thank you. To be honest, I am not sure what you're talking about. This resolution simply says we, council, are going to approve these actions – as we previously did (e.g., Jackson Rd.) and as we do with MANY decisions that have underlying engineering, technical aspects.

It has been my experience that for the vast majority of the council resolutions that I have introduced since you have been City Administrator, you have either tried to preempt or ask for postponement, objected, and/or opposed (and written council to express your opposition), to my policy initiatives. So, your request is consistent and to be expected.

Please feel free, as I know you will, to express your objections on Monday. Mr. Gerhart, again, I want this on Monday's agenda, and I expect to see it when you publish the final agenda at the end of the day, today.

Thank you, Jane

**Subject:** RE: Resolution Regarding Community Engagement and Approval Processes for City Street-Related Improvement Projects

MPT Lumm:

I am requesting that you defer this resolution until the April 15<sup>th</sup> meeting to provide time for us to work collaboratively on the language, as I disagree with much of its tone and content. I believe as written it may improperly inject Council into engineering safety decision decisions. If you still desire to have this introduced as presented at Monday's Council meeting, I will object and ask the Council defer until we have an opportunity to review it in greater detail.

I understand your perspective, especially as it relates to the Earhart proposal, but that project is not time-sensitive. Provided the opportunity and courtesy for review and discussion, I believe we can come up with a resolution that is more positive and workable.

Please let me know before the 4:30 cut-off for the agenda tomorrow. Thank you for your consideration.

**Subject:** Resolution Regarding Community Engagement and Approval Processes for City Street-Related Improvement Projects

Mr. Gerhart, Ms. Higgins, Please add this resolution to the 4/1/19 council agenda. Thank you very much, Jane

### **Resolution Regarding Community Engagement and Approval Process for City Street-Related Improvement Projects**

Whereas, public engagement and citizen participation are core values of Ann Arbor government, and pedestrian safety (particularly near schools), reduced vehicle speeds in neighborhoods, and smooth traffic flow/limited congestion on major corridors are all quality of life considerations important to Ann Arbor residents/neighborhoods; and

Whereas, in the Spring of 2018, there were three city street-related projects/initiatives (Maple Road lane reduction, bumpouts on Prairie, Bluett Traffic Calming) where community engagement/communication was inadequate or non-existent; and

Whereas, in an effort to improve community engagement and citizen participation in city street-related projects impacting neighborhoods, City Council approved resolution R-18-275 *Resolution Regarding Citizen Input and Process for City Street-Related Improvement Projects* on July 2, 2018 which directed the City Administrator to “develop and implement a process for street improvement actions (excluding routine street repair, maintenance, re-surfacing) that ensures up-front neighborhood input is obtained and notification is provided prior to implementation of any permanent street improvement”; and

Whereas, the City staff response to resolution R-18-75 (Communication Item AC-2 for October 1, 2018 Council meeting) outlined the community engagement process for the several types of street improvements that was largely based on the City’s Community Engagement Toolkit which provides general guidance and wide latitude to city staff with regard to the nature, breadth, and timing of citizen engagement; and

Whereas, prior to approval of resolution R-18-275 on July 2, 2018, Council amended the initial resolution on a split vote to eliminate the 3<sup>rd</sup> resolved clause which stated, “City Council directs the City Administrator to seek Council approval prior to implementing any lane reduction actions on major streets/corridors” and to eliminate a related whereas clause stating that actions such as lane reductions that can impact traffic flow and congestion are quality-of-life policy questions that should be decided by City Council; and

Whereas, city staff’s proposed revisions to the City’s Traffic Calming program presented to Council in October 2018 would have removed City Council from the approval process, but Council did not approve that proposal and the updated Traffic Calming process that Council ultimately adopted retained Council approval as a requirement; and

Whereas, lane reductions/”road diets” are a street treatment that can improve safety, but can also adversely impact traffic flow and congestion and because of the inherent tradeoff, several “road diets” implemented, proposed, or suggested have been met with significant community

pushback/opposition including:

- Mixed reviews on the recently implemented “road diet” on Maple Road
- MDOT’s rejection of the proposal to permit on-street parking on Huron Street (effectively a “road diet”) during certain hours of the day
- Strong opposition to the “road diets” on Washtenaw Avenue that were included as part of the *Re-Imagine Washtenaw* Plan and on Huron Parkway (between Geddes/Fuller and Plymouth) that was suggested by council members

Whereas, the City has completed a review of potential locations for additional “road diets” and its February 15<sup>th</sup> recommendation presented to the City’s Transportation Commission on February 20<sup>th</sup> recommended “road diets” to accommodate bicycle lanes at the following locations:

- Earhart Road (4 to 2 vehicle lanes from US#23 to S. Waldenwood Dr. including installation of roundabouts at the Earhart/Glazier intersection and the Earhart/Waldenwood intersection)
- Green Road (4 to 2 vehicle lanes north of Commonwealth to US-23 and narrowing the 4 vehicle lanes south of Commonwealth to Plymouth)
- Liberty Street (narrowing the 4 vehicle lanes from Maple Rd to Stadium Blvd)
- Oakbrook Drive (elimination of the center left-turn vehicle lane from AA-Saline Rd to Main St)
- South Industrial (narrowing vehicle lanes from Stadium to Stimson and 4 to 3 vehicle lanes south of Stimson)
- Traverwood Drive (elimination of the center turn lane from Huron Pkwy to Plymouth Rd)

Whereas, several neighbors have expressed strong reservations/concerns regarding the impact the Earhart Rd “road diet” may have on the already problematic Glazier Way approach at the intersection of Glazier/Earhart (currently rated a “D” level of service during peak hour) and the February 15<sup>th</sup> staff report indicated that “The Glazier Way approach at the intersection of Glazier Way and Earhart Road has a level of service of E/F during the peak 15 minutes of the day and a level of service of D for the remainder of the peak hour); and

**RESOLVED**, that City Council believes lane reductions/”road diets” are quality-of-life policy decisions requiring tradeoffs that should be decided by the elected officials (not city staff) and City Council directs the City Administrator to seek Council approval prior to implementing any lane reduction actions on major streets/corridors;

**RESOLVED**, that while City Council recognizes that not all street improvements are equal and warrant the same level of community engagement, it is City Council’s expectation that city staff will follow-through on the verbal commitments made last July and in the formal response to resolution R-18-275 to improve citizen participation, and going forward, will demonstrate a tendency towards broader, more up-front participation in its determination of the appropriate level of neighborhood participation and application of the Community Engagement Toolkit;

**RESOLVED**, that for the Earhart Road Safety Improvements Meeting April 11<sup>th</sup>, and for all future public meetings regarding lane reductions/”road diets”, city staff will provide the public all available data regarding anticipated safety/crash improvements and traffic flow/level of

service impacts, and city staff will utilize the public meetings to obtain resident input to inform any specific road diet recommendation.

**Subject:** RE: Tell City Council- No Backsliding on Climate!

To whom it may concern at the HRWC,

Your advocacy letter contains incorrect/misleading information. City Council has not approved a City budget which allocates the funds as you describe below, and so we are not “removing” funding from the City budget. The 40% “allocation” of \$880K was a council recommendation that was approved by a non-binding resolution of council, not a budget amendment/approved city budget action – two very different actions.

As you know, the City conducted a statistically valid survey of our residents to ask our residents how they would like their \$2.2M in County Mental Health and Public Safety Millage tax dollars spent (this Q was critically important because the millage proposal was silent on the uses of these funds). While climate action was ranked the lowest community priority for the expenditure of these funds, on a positive environmental note, and, one which should be well-received by the HRWC, our citizens placed a high, taxpayer funded value on support for initiatives to ensure safe drinking water, and improvements to the City’s water and sewer infrastructure. As I know the HRWC appreciates, sewer system infrastructure failures impact the Huron River and why, as well, investing in ensuring safe drinking water would, I would presume, also be a shared HRWC value and funding priority.

Thank you,

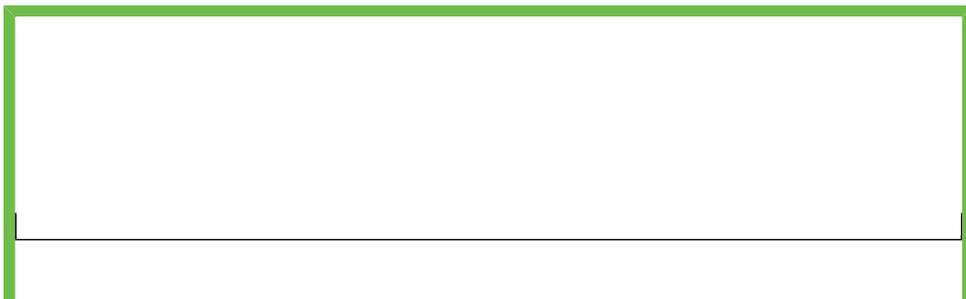

Jane Lumm  
Ann Arbor City Councilmember

# Tell City Council- No Backsliding on Climate!

## Climate Action for Ann Arbor Citizens

**City Council will vote next Monday April 1 on funding for climate action. They need to hear from you!**

Eighteen months ago, the City of Ann Arbor created its first significant source of funding for climate action – to finally make good on the City’s visionary 2012 climate action plan, and on its 2017 declaration that Ann Arbor was still committed to the goals of the Paris Climate Agreement.

Unfortunately, the City Council is now re-considering. Some community activists have lobbied City Council members to re-purpose the climate funds for other projects, and one Councilperson has proposed a measure to throw out the City’s climate funding commitment. It is currently unclear where most of the Ann Arbor City Council stands on the issue.

Next Monday, on April 1 at 7:00pm City Council will consider two resolutions --the Taylor/Griswold Climate funding resolution that will fund climate initiatives and an alternative anti-climate resolution that will remove funding earmarked for climate action.

**Please attend the meeting (and wear green to show your support of climate action), sign-up to speak during the public comment, or write or call your council members. Tell city council to fully fund its climate action work.**

Here are the details behind this call to action: In 2017, the City resolved to allocate its \$2.2 million annual County public safety rebate to climate action (40%), affordable housing (40%), and pedestrian safety (20%). Those funds are first becoming available later this year, and they’re projected to generate \$880,000 per year for climate action – **the first significant and sustained source of funds ever allocated to the City’s climate action plan.** (To date, the City has never devoted more than 0.2% of its total budget to climate action.)

The City Administrator’s proposed budget would spend the \$880,000 on important climate programs, all of which are based on successful programs in other communities, and all of which have clear and measurable goals. These are detailed on the website but a few include:

- Net Zero Energy Affordable Housing Program
- 100% Municipal Clean and Renewable Energy Strategy
- Efficiency and Solar in the Community
- Electric Vehicle Infrastructure
- Green Rental Program

But now that there’s real money on the table, City Council is having second thoughts. In response, Mayor Christopher Taylor and Councilperson Kathy Griswold are sponsoring a resolution to change the funding mechanism but retain the City’s budget commitment to climate action. We’re hoping this resolution can build a Council consensus behind significant, long-term, climate funding. Unfortunately, another Councilperson has pledged to bring an alternative resolution to undo the City’s climate commitment altogether, leaving the City’s climate agenda underfunded.

The Huron River Watershed Council is a member of the Ann Arbor Climate Partnership (A2CP), a group of organizations and individuals working to ensure the implementation of Ann Arbor’s Climate Action Plan. **We’ve developed background materials—an [activist toolkit on the A2CP site.](#)**

Please visit the [A2CP website](#) for additional information and [easy take-action links](#) to contact your councilperson.

**Subject:** Coming MLive Article  
**Date:** Wednesday, March 27, 2019 11:52:24 AM

---

Colleagues,

In the coming hours, MLive will publish an article about my arrest for drunk driving on January 2, 2019. I wanted to make sure you heard from me before the press. In this note, I would like to express three sentiments:

First, it was completely irresponsible of me to get behind the wheel of a car. By doing so, I put others in danger. There is no explaining that away. I am sorry for those actions.

Second, I did not disclose this issue in the hope -- perhaps a false hope -- that I could live this private part of my life privately. I consider this a private part of my life because these events were a wake up call that I had a serious, and now diagnosed, health issue -- Severe Alcohol Dependence.

Third, I took and still take this issue incredibly seriously. I have not had a drink since that night. And, I am committed to being able to say that on my death bed decades from now. Immediately after my arrest, I sought resources to better understand and address my issue. Michigan Medicine assessed and diagnosed me with Severe Alcohol Dependence and referred me to outpatient treatment at St. Joseph's. Through the months of January and February, I benefited from the terrific work of mental health professionals and support groups. It has been an eye-opening and inspirational to see the extent and strength of the Ann Arbor recovery community.

If you would like to talk more, I am happy to speak with any of you. My personal cell phone number is

██████████  
Best,  
Zach

Per the request of Kirk Profit:

## **[Whitmer Says State Will Set PFAS Action Standard](#)**

**[Governor Gretchen Whitmer](#)** directed the PFAS Action Response Team to begin a review of drinking water standards for polyfluoroalkyl and perfluoroalkyl substances and the Department of Environmental Quality to start the rules process to hold the results of that review.

The move brought general support from legislators, broad support from the environmental community but some caution from chemical producers.

Ms. Whitmer put a short timetable for having new regulations in place, with the MPART science advisory workgroup having until July 1 to review current and proposed PFAS standards and make recommendations. Stakeholder input on the proposed rules would be complete by October 1.

"All Michiganders deserve to know that we are prioritizing their health and are working every day to protect the water that is coming out of their taps," Ms. Whitmer said in a statement announcing the coming rules. "As a result, Michigan will begin the process to establish PFAS drinking water standards that protect public health and the environment."

Ever since the PFAS crisis hit with major contamination problems in northern Kent County, Parchment and near the old Wurtsmith Air Force Base in Oscoda, pressure has built for the state to set a PFAS standard. The federal government has an advisory threshold of 70 parts per trillion, but it triggers no action if exceeded.

And Ms. Whitmer said, "Michigan has long advocated that the federal government establish national standards to protect the nation's water from PFAS contamination, but we can no longer wait for the Trump administration to act."

DEQ spokesperson Scott Dean said MPART is scheduled to create the science advisory workgroup on April 4. He said draft administrative rules would be prepared after the workgroup completes its work around October 1.

The DEQ issued its request for rulemaking ([ORR #2019-035](#)) on Tuesday for approval by the Office of Regulatory Reinvention and then public hearing and promulgation. Ms. Whitmer's proposed deadlines could shave many months from the usual rules process.

The rules would eventually go to the Legislature for review through the Joint Committee on Administrative Rules, but the Legislature cannot block them.

Senate [Majority Leader Mike Shirkey](#) (R-Clarklake) said in a statement the chamber would give the rule due diligence through the rules process but also would ensure sufficient funds to find and clean up any PFAS contamination.

"Michigan leads the nation in assessing and mapping water sources for the presence of PFAS. Our citizens deserve certainty regarding their water supplies and the state has acted quickly to measure and identify areas where PFAS related chemicals are present," Mr. Shirkey said. "Additionally, the state has helped facilitate actions intended to ensure access to safe drinking water for citizens in areas where questionable levels of the chemical were identified. Going forward, it is imperative that government rely on scientific research and facts to establish standards for drinking water."

The proposals saw general bipartisan support from legislators who issued statements Tuesday.

"Governor Whitmer's decision to begin developing PFAS drinking water standards is good news for every family and community in our state. Enforceable standards based on the best science available put us on the right path — one that holds polluters accountable, deters further contamination and keeps the hardworking people of Michigan safe," [Sen. Winnie Brinks](#) (D-Grand Rapids), minority vice chair of the Senate Health Policy and Human Services Committee, said in a statement.

"I applaud Governor Whitmer building on the work performed by the Michigan PFAS Action Response Team (MPART) over the past 15 months in working to protect the safety of our state's drinking water and the health of all Michigan families," [Rep. Sue Allor](#) (R-Wolverine), chair of the House Appropriations Natural Resources and Environmental Quality Subcommittee, said in a statement. "I have supported PFAS investigation every step of the way and urge the governor's commission to seek sound, science-backed policies that hold up to rigorous scrutiny. Michigan families deserve firm answers they can trust."

"Governor Whitmer has taken an important step to continue better protecting the health of all Michigan families. Top experts have dedicated 15 months of careful scientific investigation, research and management, and I urge the governor's new commission to continue this record of putting forward sound, peer-reviewed scientific recommendations. It is my hope that, through attentive and rigorous research and policies, we will be able to put the minds of Michigan families at ease," [Rep. Jim Lilly](#) (R-Park Township) said.

The Michigan Chemistry Council noted that the state's drinking water review found little PFAS contamination in public water sources and urged leaving rulemaking to the U.S. Environmental Protection Agency.

"The Michigan Chemistry Council believes that our state must heed sound science when considering new drinking water standards. We encourage a careful review process that accounts for the numerous determinations and their potential ramifications. Today's announcement leaves many questions unanswered, including which PFAS compounds will be proposed for regulation and on what basis of risk assessment," MCC Executive Director John Dulmes said in a statement.

Environmental groups, though, hailed the plan.

"The science is clear that the 70 parts per trillion (ppt) health advisory level for PFOS and PFOA is not sufficiently protective of the health and well-being of Michigan residents," Michigan Environmental Council Energy Policy and Legislative Affairs Director Charlotte Jameson said in a statement. "For years communities across Michigan have been calling on our state government to set a drinking water standard for these toxic chemicals that is grounded in science and protective of human health. We thank Governor Whitmer for listening to the concerns of Michigan residents and continuing to prioritize protecting our water by setting in motion a process to study the science around PFAS and set a drinking water standard."

"For too long, Michigan residents have faced uncertainty about whether the water coming from their taps is safe for their families to drink. By requesting an administrative rule-making process to set a Maximum Contaminant Level (MCL) for PFAS chemicals, Governor Whitmer has shown that she is ready to put Michigan families and our drinking water first," Mary Brady-Enerson, Michigan director for Clean Water Action, said in a statement.

"People across this state have been calling for action on toxic contamination in our drinking water, and today the governor responded with important steps to protect our water and public health," Bob Allison, deputy director of Michigan League of Conservation Voters, said. "This is not a partisan issue and we know legislative leaders are committed to standing together to address this threat to Michigan's way of life and our economy."

## **Commission Recommends Against Pot Blood Test To Show Impairment**

Setting a standard on the amount of Tetrahydrocannabinol – the chemical in marijuana that makes a person high – that causes impairment could fail to detect drivers who are impaired and could inappropriately flag unimpaired drivers, a report released this month said.

The Impaired Driving Safety Commission, created in 2016, recommended in its report to the Legislature that no limit of THC be established to show impairment and said road side sobriety tests should be used instead.

"Based on the total body of knowledge presently available, the commission finds there is no scientifically supported threshold of (THC) bodily content that would be indicative of impaired driving due to the fact that there is a poor correlation between driving impairment and the blood (plasma) levels of (THC) at the time of blood collection," the report says.

The commission found THC blood levels rapidly decrease after use, which could underestimate the levels at the time a person was driving. At the same time, long-term cannabis users can see THC levels remain above 1 ng/ml; for 48-72 hours after use, meaning the state's current no tolerance policy could falsely conclude a person is impaired.

Regular users of cannabis also respond differently to the same dose of THC than infrequent users, the commission said.

"The implications of tolerance to cannabis are that lower blood (THC) levels in infrequent users may result in impairment that would only be experienced at higher (THC) levels by regular cannabis users," the report says.

The commission recommended sobriety tests that involve a person being instructed to follow the movement of a light or finger with only their eyes, walking nine heel-to-toe steps then turning and walking back to the starting point and one leg stand where a person raises one leg and holds it for six seconds.

The commission also recommended expanding the drug recognition expert training program as there are only 160 drug recognition experts in the state, with some counties that do not have one within their jurisdiction.

All licensed officers should also complete the 16-hour advanced roadside impaired driving enforcement training program designed to increase an officer's ability to observe and identify signs of driver impairment, the commission recommended. Currently, 20 percent of licensed officers have gone through the training.

On blood THC levels, the report said behavioral measures of impairment are often negatively related to blood levels. It said peak blood levels occur very quickly after smoking but are often associated with no behavioral deterioration. The effect of THC causing impairment occurs more slowly as THC blood levels drop, the report said.

The report said drug-involved crashes gave increased 44 percent in Michigan from 2013 to 2017. Drug involved fatal crashes have increased 56 percent, the report said. However, specific drug tests were not available for drivers in 95 percent of the crashes, the report said.

The report also said cannabis users are likely to drive more cautiously (keep more space between cars and drive slower) after using the drug than they are when they drive sober. The report said that is contrary to what drunk drivers do.

Other states and Canada have set driving thresholds for THC. Colorado, Montana and Washington have 5 ng/ml limits. Nevada and Ohio have 2 ng/ml limits and Pennsylvania has 1

ng/ml limit, the report said.

Colorado's limit is considered a "reasonable inference" that a person is impaired, but it can be rebutted by the defendant in legal proceedings with evidence to the contrary.

In Canada, a person with a THC levels between 2 and 5 ng/ml would see lesser penalties than a person driving with THC levels above 5 ng/ml. Canada also has a hybrid offense of impaired driving with a THC level greater than 2.5 ng/ml and a blood alcohol concentration of 0.05.

---

## **State To Greimel: You Must Register As Lobbyist**

An inquiry by former Rep. Tim Greimel, the new lobbyist for AFSCME Council 25, to the Department of State on whether he as a member of the union needed to register with the state as a lobbyist had raised the specter of opening up a huge loophole depending on how the department ruled, but the department in an interpretative statement said Tuesday Mr. Greimel must register.

The lobbying act allows for a member of an organization registered to lobby to avoid registering if that member does not separately qualify as a lobbyist under the act.

Lobbyists were closely watching how the Department of State ruled. There was some speculation that if the department said Mr. Greimel as a member of AFSCME did not need to register, a flood of lobbyists would obtain memberships in their organizations so they also could evade registration.

In an [interpretative statement](#) issued Tuesday, the department said the membership exemption only applies to those who did not separately qualify as a lobbyist. This means that when members of an organization on their own accord engage in lobbying, they do not need to register.

"However, an individual employed by AFSCME Council 25 for the specific purpose of lobbying cannot avoid registration as a lobbyist agent," the department said. "Your lobbying activities are distinct from those of other union members who may volunteer to occasionally take leave from their regular job duties to engage in lobbying. As the legislative director, you are employed and compensated by AFSCME Council 25 for the specific purpose of lobbying. Once your compensation or reimbursement for lobbying exceeds the monetary threshold, you are required to register as a lobbyist agent."

**Date:** Tuesday, March 26, 2019 10:28:35 PM

---

You've done your homework, Jane, and I think I want to co-sponsor and am just mulling it over.

The spending priorities from the survey are not that far off from the 40/40/20, just different labels for what constitutes climate action, pedestrian safety, etc.

I'm also interested in your thoughts on how to coordinate with the \$100M general fund budget. For example, I strongly support a new master planning process, but \$500K seems like too much money. I'd like less unrestricted funds being spent throughout the year.

I'm available to meet in person, or at Caucus on Sunday night, to discuss the whole budget more thoroughly.

Thanks!  
Anne

---

**Resolution Providing FY20 Budget Policy Direction Consistent with the Results of the Community Survey on the Recommended Allocation of the 2017 Washtenaw County Mental Health and Public Safety Millage Proceeds of \$2.2 million Annually**

Whereas, on November 7, 2017, Washtenaw County voters approved an eight-year Mental Health & Public Safety Millage that will provide the City of Ann Arbor with \$2.2M annually in unrestricted revenue which, after reflecting normal taxable value growth, will total approximately \$20 million over the eight-year period; and

Whereas, on September 18, 2017, City Council adopted a resolution stating it was Council's intent to utilize the Mental Health & Public Safety Millage proceeds for the duration of the eight-year millage 40% for affordable housing, 40% for climate action programs, and 20% for pedestrian safety; and

Whereas, the actual millage ballot language did not contain any reference to Council's proposed allocations and the extent to which voters were aware of the proposed allocations is not clear; and

Whereas, the City's receipt of an incremental and unrestricted revenue stream of this magnitude is unprecedented and given the lack of clarity on resident preferences, City Council determined it would be both appropriate and informative to seek input from taxpayers on their preferences regarding how the new revenue should be utilized; and

Whereas, on November 19, 2018, City Council adopted resolution #18-1909 to conduct a survey of Ann Arbor residents to assess their preferences on how the millage proceeds should be spent, and on December 17, 2018, City Council re-affirmed its desire to conduct the millage proceeds survey by adopting resolution #18-2118 which provided specific guidance on the citizen survey; and

Whereas, the resident survey was a closed, representative, and statistically-valid survey with over 1,000 residents participating and the results of the survey were tabulated and analyzed by National Research Center Inc. and reported to Council on March 22<sup>nd</sup>; and

Whereas, the survey asked participants how they would allocate the \$2.2 million in funds if it were up to them and the average allocations based on all respondents were:

1. Additional funding for mental health services (15.92% or \$350,240)
2. Additional funding for street re-surfacing and repair (15.65% or \$344,300)
3. Fund initiatives to ensure safe drinking water (14.82% or \$326,040)
4. Provide support for affordable housing (12.59% or \$276,980)
5. Fund improvements to water and sewer infrastructure (11.31% or \$248,820)
6. Additional public safety funding to the Police (10.03% or \$220,660)
7. Funding to meet goals of Ann Arbor's Climate Action Plan (9.83% or \$216,260)
8. Fund pedestrian safety projects (8.36% or \$183,290)

All other (1.48% or \$33,050)

Whereas, the proposal to allocate the millage proceeds 40% to climate action programs, 40% to affordable housing, 20% to pedestrian safety is inconsistent with resident preferences:

- 40/40/20 does not provide any additional funding for the three areas residents prioritized highest (mental health services, road repair, safe drinking water) and allocates 100% of the revenue to areas that residents prioritized lower (affordable housing at #4, climate action #7, and pedestrian safety #8)
- 40/40/20 concentrates this new revenue in just three areas while the vast majority of survey respondents indicated the new revenue should be spread across more priority areas in smaller amounts with very, very few respondents allocating more than 30% to any one area;

Whereas, the City Administrator is scheduled to present his FY20 budget recommendation to City Council for consideration on April 15<sup>th</sup> and staff have indicated there is adequate time to incorporate input from the survey in that recommendation if Council direction is provided April 1<sup>st</sup>; and

Whereas, City Council believes aligning spending with community priorities is an essential element of good governance and - unlike the annual \$100 million General Fund budget - there is definitive, timely, statistically valid data with regard to spending preferences for this new, incremental revenue stream from the County's Mental Health and Public Safety Millage.

**RESOLVED**, that City Council directs the City Administrator to include in the FY20 budget proposal the following allocations for the \$2.2 million in County Millage proceeds: \$355,000 for mental health services; \$350,000 for street re-surfacing and repair; \$330,000 for safe drinking water initiatives; \$280,000 for affordable housing; \$250,000 for water/sewer infrastructure

improvements; \$225,000 for public safety/police; \$220,000 for climate action programs; \$190,000 for pedestrian safety projects;

**RESOLVED**, that these County millage proceeds allocations for FY20 be held as placeholders in the FY21 financial plan pending Council's determination of appropriate allocations during the FY21 budget development cycle.

**Jackie, Stephen, Anissa, Sara,**

**Here's the resolution I referenced in my March 21<sup>st</sup> email. Please make sure this is on the agenda for Monday. Thanks, Jane**

---

**Resolution Providing FY20 Budget Policy Direction Consistent with the Results of the Community Survey on the Recommended Allocation of the 2017 Washtenaw County Mental Health and Public Safety Millage Proceeds of \$2.2 million Annually**

Whereas, on November 7, 2017, Washtenaw County voters approved an eight-year Mental Health & Public Safety Millage that will provide the City of Ann Arbor with \$2.2M annually in unrestricted revenue which, after reflecting normal taxable value growth, will total approximately \$20 million over the eight-year period; and

Whereas, on September 18, 2017, City Council adopted a resolution stating it was Council's intent to utilize the Mental Health & Public Safety Millage proceeds for the duration of the eight-year millage 40% for affordable housing, 40% for climate action programs, and 20% for pedestrian safety; and

Whereas, the actual millage ballot language did not contain any reference to Council's proposed allocations and the extent to which voters were aware of the proposed allocations is not clear; and

Whereas, the City's receipt of an incremental and unrestricted revenue stream of this magnitude is unprecedented and given the lack of clarity on resident preferences, City Council determined it would be both appropriate and informative to seek input from taxpayers on their preferences regarding how the new revenue should be utilized; and

Whereas, on November 19, 2018, City Council adopted resolution #18-1909 to conduct a

survey of Ann Arbor residents to assess their preferences on how the millage proceeds should be spent, and on December 17, 2018, City Council re-affirmed its desire to conduct the millage proceeds survey by adopting resolution #18-2118 which provided specific guidance on the citizen survey; and

Whereas, the resident survey was a closed, representative, and statistically-valid survey with over 1,000 residents participating and the results of the survey were tabulated and analyzed by National Research Center Inc. and reported to Council on March 22<sup>nd</sup>; and

Whereas, the survey asked participants how they would allocate the \$2.2 million in funds if it were up to them and the average allocations based on all respondents were:

1. Additional funding for mental health services (15.92% or \$350,240)
2. Additional funding for street re-surfacing and repair (15.65% or \$344,300)
3. Fund initiatives to ensure safe drinking water (14.82% or \$326,040)
4. Provide support for affordable housing (12.59% or \$276,980)
5. Fund improvements to water and sewer infrastructure (11.31% or \$248,820)
6. Additional public safety funding to the Police (10.03% or \$220,660)
7. Funding to meet goals of Ann Arbor's Climate Action Plan (9.83% or \$216,260)
8. Fund pedestrian safety projects (8.36% or \$183,290)

All other (1.48% or \$33,050)

Whereas, the proposal to allocate the millage proceeds 40% to climate action programs, 40% to affordable housing, 20% to pedestrian safety is inconsistent with resident preferences:

- 40/40/20 does not provide any additional funding for the three areas residents prioritized highest (mental health services, road repair, safe drinking water) and allocates 100% of the revenue to areas that residents prioritized lower (affordable housing at #4, climate action #7, and pedestrian safety #8)
- 40/40/20 concentrates this new revenue in just three areas while the vast majority of survey respondents indicated the new revenue should be spread across more priority areas in smaller amounts with very, very few respondents allocating more than 30% to any one area;

Whereas, the City Administrator is scheduled to present his FY20 budget recommendation to City Council for consideration on April 15<sup>th</sup> and staff have indicated there is adequate time to incorporate input from the survey in that recommendation if Council direction is provided April 1<sup>st</sup>; and

Whereas, City Council believes aligning spending with community priorities is an essential element of good governance and - unlike the annual \$100 million General Fund budget - there is definitive, timely, statistically valid data with regard to spending preferences for this new, incremental revenue stream from the County's Mental Health and Public Safety Millage.

**RESOLVED**, that City Council directs the City Administrator to include in the FY20 budget proposal the following allocations for the \$2.2 million in County Millage proceeds: \$355,000 for mental health services; \$350,000 for street re-surfacing and repair; \$330,000 for safe drinking water initiatives; \$280,000 for affordable housing; \$250,000 for water/sewer infrastructure improvements; \$225,000 for public safety/police; \$220,000 for climate action programs; \$190,000 for pedestrian safety projects;

**RESOLVED**, that City Council encourages the City Administrator to consider the community input obtained from this millage proceeds survey as well as the budget priority survey conducted last Fall in developing the City's roughly \$100 million General Fund budget proposal for FY20;

**RESOLVED**, that these County millage proceeds allocations for FY20 be held as placeholders in the FY21 financial plan pending Council's determination of appropriate allocations during the FY21 budget development cycle.

Thanks, Stephen. These look like good preliminary goals to me, especially the metrics (urgent). See you on Thursday at 7 PM.

On Mon, Mar 25, 2019 at 9:26 AM -0400, "Stephen Colby Brown" <[browns6887@att.net](mailto:browns6887@att.net)> wrote:

Fellow Environmental Commissioners:

These are preliminary SMART goals from the Solid Waste Working Group:

- 1) Define comprehensive, reliable metrics and data collection processes for solid waste operations Citywide by June 1. Metrics are a problem for all of the City's declared Sustainability Goals, and proper data will be foundational regardless of the ongoing SWRMP process.
- 2) DRAFT a Zero-Waste vision for the City, incorporating elements of the APTIM/SWRMP and WRMMA outcomes as inputs. The City has posted a "Zero-Waste" declaration in 2016, with no meat or action to it. APTIM has declared this outside the scope of their contract.

These are more like recommendations for City operations, without a clear role or SMART goal for the A2EC defined as yet:

- 3) Restart the City's MRF in 2019. How can the A2EC help?
- 4) Sunday organics and recycling collections Downtown. This comes up consistently as best practices for Downtown Alleys, and urgent requests from businesses themselves. Coordination with DDA, the City, and the SWRMP/APTIM process would be required to first accept this as a goal and then define A2EC's role to facilitate this.
- 5) Extending the "More Carts/More Compost" project to all 45 residential collection routes in 2019. Businesses served by the City could be included. How can the A2EC help make this happen?

Please reply to ALL with your comments by Thursday AM, to help our working group deliver the best recommendations this Thursday.

Steve

**Subject:** Re: SRTS limitation on shared vs. Federal funding

The first sentence of the first paragraph suggests that he does not know what he is talking about concerning SRTS. It does not require a law degree to interpret that SRTS provision to mean that SRTS projects require 100 percent federal funding. Rather than grapple with the conflict, he simply says that it is old law. The problem is that "old law" is still in the transportation law (Title 23) and still applies.

I think that he is right that the new law could supercede the earlier law that established SRTS. The quandry is that SRTS projects must be funded 100% by federal dollars, yet the funding used for the project does allow for shared funding for projects, including sidewalks. But this project is not just a random sidewalk project, it is a SRTS project.....

Lester

**Date:** Monday, March 25, 2019 3:31:02 PM

---

Wednesday at 2 PM works in my schedule. I look forward to discussing the CIP and how it relates to sidewalk gap prioritization, scoring criteria, cost estimating and programming.

There may be opportunities to enhance the data collection through customer service, RFI, SeeClickFix and other communications with residents. This would take additional time and possible delays of current sidewalk programming, but would help with the master planning and budgeting, and have a positive impact on mobility, connectivity, and safety.

I've copied CMs Griswold and Eaton, in the event their schedules permit participation.

Thank you,

Anne Bannister

**Subject:** RE: Sidewalk gaps in Broadway neighborhood/ "Bridge, Street, and Sidewalk Millage"

Dear Mr. Lazarus,

In addition to my email on March 21 on this subject, I also am just now finding your email from March 15 below. These are my responses:

- Yes, let's aim to have a resolution on the agenda for the April 1 meeting.
- Yes, let's meet to discuss the existing sidewalk gap prioritization, scoring criteria, cost estimating and programing from CIP. I'm available in the afternoon next week on Monday, Wednesday or Friday.
- A resolution involving a 250 hour comprehensive look at funding approaches nationwide would not be of interest.
- With regard to the Leaird ROW, please provide greater clarity on what "integrate the work into our sidewalk program" means in terms of the timeline.
- I would like to kindly but firmly object to your statement that the Northside STEAM project was a "neighborhood originated effort." The impacted neighbors (those on Traver, Brookside, and Pear) are quite firm and unanimous that they were not involved until 2 years into the process, after which most all of the plans had already been finalized. Except for the Pear neighbors, who were fortunate enough to be deleted from the plan, the Brookside and Traver neighbors remain in strong and active opposition to the two-sidewalk SRTS plan, so much so, that I do not think Council has the 8 votes needed to pass Resolution 4 of the project.

Please let me know if you and/or staff are available to meet next week.

Anne Bannister  
Ward One Council Member

**Subject:** RE: Sidewalk gaps in Broadway neighborhood/ "Bridge, Street, and Sidewalk Millage"

Dear Councilmember Bannister:

Thank you for your follow-up below. I'm responding with some thoughts for your consideration:

- At this time, the draft resolution (as written) has not been added to the agenda. We need your concurrence to post it, however if you would like to amend it I recommend that you defer until the April 1<sup>st</sup> meeting so we can collaborate on some of the changes. My sense is that this is not time critical to the point where a two-week delay would be harmful. Kindly note that currently there are fourteen items from Council on Monday's agenda, so waiting until April 1<sup>st</sup> would also provide the "space" for Council to have a less pressured discussion of your initiatives.
- The sidewalk gap prioritization that staff has provided includes a scoring criteria for public requests. Staff would welcome the opportunity to meet with you and explain how the prioritization was performed.
- Staff has performed the cost estimating and programming for the higher priority sidewalk gaps and this data is in the CIP. Staff would also welcome the chance to walk through this with you.
- The draft resolution I provided for you directs that I respond back with a comprehensive look at alternative funding approaches. This direction will require a review of City ordinances, peer City approaches, eligible and the current special assessments that exist. It will also require the submittal of potential ordinance changes. The level of effort estimate of 250 hours appears reasonable, and it is important the Council be aware of how this request would align with the many other requests that we have received.
- I have spoken with Evan Pratt about the Leaird ROW, and followed-up with Mr. Hutchinson. Staff will reassess the pathway and integrate the work into our sidewalk program. Unfortunately, as we've discussed previously, we cannot integrate new elements into the Northside STEAM SRTS grant. Per Council direction, staff has submitted the last set of drawings that incorporate community input to MDOT. I do remind you that the Northside STEAM project was a neighborhood-originated effort, and one of the first things staff did once the project was transitioned to the City was to hold a public meeting.

Please let Ms. Higgins and me know if you still want to place the resolution I provided to you on the agenda prior to this afternoon's posting requirement per Council rules. As always, do not hesitate to contact me if I can be of further assistance.

**Subject:** RE: Sidewalk gaps in Broadway neighborhood/ "Bridge, Street, and Sidewalk Millage"

Dear Evan Pratt, Craig Hupy, and Howard Lazarus,

Thank you, Mr. Pratt, for sending these useful suggestions.

Mr. Hupy and Mr. Lazarus, please respond to the details outlined below (see also attachment).

This is a brief summary, not meant to replace the information shared by Mr. Pratt:

1. Please help identify a City department responsible for rehabilitation and maintenance of the connection between Leiard St and Plymouth Road.
2. Please consider funding a City-wide sidewalk gap program that addresses areas meeting certain criteria. (Mr. Lazarus, please prepare the draft resolution to bring this question before Council for the March 18 meeting. Based on our previous discussions, perhaps a draft including the 250 hours staff time, etc., is already prepared).
3. May we have an inventory of the citywide sidewalk gaps, including scoping them into "low cost" vs. "major project" issues, ideally based on resident feedback?
4. Please update us on the Broadway sidewalk gaps, including outreach to UM for their long stretch of land in the area, and AAATA.
5. With regard to the SRTS grants, particularly for Northside STEAM, is there a way the City can work with MDOT/Fitness Foundation to let them know that we have a situation where the Brookside/Traver Road neighbors don't want all of the features of the grant proposal, while residents in a nearby neighborhood would be pleased to support rehabilitation of the Leiard ROW?

Thank you,

Anne Bannister

**Subject:** Sidewalk gaps in Broadway neighborhood/ "Bridge, Street, and Sidewalk Millage"

Hi

I am following up based on our conversation earlier this year about two related items that are occasionally a topic of concern and conversation in the general area of the Broadway neighborhood, and likely analagous to situations around the City.

I understand that for my second item, there is currently a property owner obligation that the City should not completely absorb. But I keep wondering if there might be a way to identify criteria and a threshold where the overall benefit to the non-motorized system drives strategic investment.

1. Please help identify a City department to be responsible for rehabilitation and maintenance of the connection between Leiard St and Plymouth Road. This was a smooth, safe walking and biking corridor for decades but has been steadily becoming a greater liability to the City each year - this is not a property owner obligation. This corridor provides access for an average-sized neighborhood to the bus stop(s) at Plymouth and Barton as well as STEAM at Northside.
2. Please consider funding a City-wide sidewalk gap program that addresses areas meeting certain criteria. Perhaps a stakeholder group can identify that criteria. I note three different situations of ownership and diminishing likelihood of private investment in each.

Neither of these issues represent major funding commitments, and would represent provision of more direct, safe pedestrian access that is currently not available to the neighborhood. On the first item, the current alternative is to walk over a mile in one direction or the other to get to the bus stop at Barton and Plymouth. On the second item, a high volume of pedestrians walk on Broadway Street at the gap locations, particularly problematic at night and near the top of a hill with limited sight distance for drivers.

Both of these items are eligible for federal transportation funding, though it would likely require a partnership of the City and the AAATA. Pedestrian access within 1/2 mile of bus stops are eligible for federal aid transportation funding that is open only to transit agencies.

There doesn't appear to be a program/department/budget keeping inventory of all the gaps and scoping them into "low cost" vs. "major project" issues, or whatever categories are appropriate. Wondering if there could be a program similar to the residential street resurfacing program but for sidewalk gaps.

Regardless of the amount dedicated to such a program, defining the problem allows one to fill

the gaps that matter most the soonest, representing a great benefit to residents small and tall.

**Broadway gaps:**

You will see on the document that the sidewalk gaps are of 3 types. The largest is on U of M property. A short section is in front of two residential multiple properties and another short section is along the rear of a commercial parcel. From my understanding, the current strategy is to wait for the property owner to put in the sidewalk. This may be appropriate in some situations, but I believe that zero funding is not in the City's best interest. These different situations should be evaluated based on the benefit to in the City system, the estimated cost, and the likelihood that the property owner would voluntarily "fill the gap" within a defined timeframe, maybe 10 years.

**Leiard Road background:**

When Leiard Road was "cut off" from Plymouth quite some time ago, the right of way was truly abandoned - to the point where trees grow on the former road surface, and the remaining road surface has steadily deteriorated. However, this corridor has continued to be an important and reasonably "busy" path, including for neighborhood students walking to school. Unfortunately, it seems that no department at the City is responsible for it's upkeep and it has slowly deteriorated into what could be considered a safety liability.

While a long range goal might be to also provide an ADA compliant pathway, in the short term it would be relatively easy to rehabilitate the existing steep pathway so it no longer has the gullies, roots, loose stones, and vegetation that are trip hazards for pedestrians. Staff could likely determine if the steep terrain in this area would allow for a formal ADA exemption if necessary for the near term improvement though I'm sure we'd all agree that safe, direct access for all would be desirable to strive for in the long term.

For several years I have attempted to determine the right staff member to bring this up to, but have been unsuccessful, possibly because these issues do not fit with existing defined programs and/or funding evaluations. As I mentioned verbally, I'm sure the example I provide is not unique to the Broadway area. I have included the item in different surveys about City services over the past 8-10 years and spoken to multiple Planning Directors in that timeframe (since the CIP recommendations are a responsibility of Planning) but the issue hasn't found a home. Again, I'm sure others have this issue.

I also responded during the stakeholder outreach process for the Safe Routes to School project at STEAM, probably 18-24 months ago, specifically to suggest rehabilitation of the Leiard right-of-way, but was told in an email that the SRTS budget could not address the issue by the volunteer who reached out. I can't speak to that but if there is a place where funds have been obtained and residents are not interested in a sidewalk, people in the neighborhood would be pleased to support consideration for rehabilitation of the Leiard ROW.

Thank you

Evan Pratt

Memo

To: City Council Member Anne Bannister  
City Council Member Jeff Hayner

From: Jan BenDor, Licensed Master's Social Worker  
Date: March 25, 2019

Re: Ann Arbor Police misconduct in elder abuse case at Atria Park senior residence

Summary: On March 12, the Ann Arbor Police interfered with the liberty of two senior citizens based on the officers' lack of understanding of a document. The Police sided with the landlord to prevent them from moving, allowed them to be locked in, and the Police ejected two Patient Advocates with legal documentation as Power of Attorney for Health Care. The Police should have helped escort the seniors safely out of the building to their waiting transport.

Don and Marcia MacMullan are 94 year old longtime residents of Ann Arbor who had been living in Atria Park on Plymouth Road for assisted living services. Don is a well-known architect and Marcia retired as Social Worker for the Juvenile Court. They are both wheelchair bound as the result of injuries. I am a 40-year family friend and the Durable Power of Attorney for Mrs. MacMullan. She in turn has Durable Power for her husband. I am also a Licensed Master's Social Worker and a mandatory reporter of abuse and neglect under state law.

The MacMullans were highly dissatisfied with Atria due to rough treatment by aides, noisy environment, lack of staffing, and poor response to their needs. They gave notice to Atria and asked me to find them better housing appropriate to their medical conditions. I did so, consulting

with the state registry of licensed facilities, and located a well-rated licensed adult care home with a high level of care, and two rare openings. Don and Marcia approved this move, and several of their friends came in to help them pack.

On March 12, the MacMullans were ready to move. They were dressed and in their wheelchairs. Transport vans were waiting, and the movers were scheduled to follow with furniture and boxes. I and my husband, Michael-David, also a Durable Power for Mrs. MacMullan, were set to wheel them to the elevator.

Suddenly, the Director of Atria, Jody Thompson, burst in waving a paper and yelled that the MacMullans were not going to move. He claimed he had a court order from an attorney, Julie Dunbar. (She represents four adult children in California Washington State with claims to the Family Trust.) In fact, he could present no court order, only a letter from Dunbar. There was no guardianship document in effect and no basis for Thompson's action. Nonetheless, Thompson locked the elevator to prevent the MacMullans from departing. He also called the Ann Arbor Police.

Two Ann Arbor Police cars arrived, with four officers in full gear, and they insisted on first hearing the story by Thompson. When I attempted to provide the MacMullans' documents, the officer in charge glanced down, refused to read the Durable Power, waved his hand and stated, "This is a civil matter. You will have to resolve it in court. You have to leave." He did not appear to seek any advice from the Police Chief or legal department, and ejected me and my husband who were lawfully at Atria as invited guests of the MacMullans. We were not allowed to say farewell or even to use the restroom.

This violent episode was extremely stressful for Don and Marcia. They stated they had been "shanghai'ed." Marcia later phoned me because she feared I was in jail. When asked by a friend the next day if they were ok, Don replied emphatically, "NO." Mrs. MacMullan became ill and ended up in the St. Joe emergency room on March 14. On March 16, I attempted to check on Marcia and found her asleep in mid-day—not a usual event. One of the aides told me that she had been "extremely depressed."

Had the Police played their proper role, they would have supported the MacMullans who were under imminent threat from their landlord. Instead, these disabled seniors were subject to false imprisonment, deprived of their friends and advocates, and caused to suffer harm. Because of the aborted move, they stand to lose their reservation at the adult care home, which will be an irretrievable loss of their deposit and the rare opportunity.

As a mandatory reporter, I called the Michigan Elder Abuse Hotline and filed a detailed report dated 3/13/2019. I named the Ann Arbor Police, Jody Thompson, and Julie Dunbar as perpetrators of elder abuse. This report is available via a FOIA request to the state.

**Subject:** RE: Sidewalk gaps on State Street  
**Date:** Saturday, March 23, 2019 1:09:32 PM

---

Ryan, thanks. One concern and something we would need to understand is what impact the State Street project (for water mains, stormwater improvements, etc.) would have on sidewalks and other new infrastructure should these elements be installed prior to the State Street project. Installing water mains, etc. is a big deal and often involves removal of/encroachment into sidewalks and other existing “facilities”. Can think of some recent projects (e.g., Geddes Ave., Nixon) where the work (for Geddes, water mains, sewer, stormwater infrastructure) entailed encroachment into existing sidewalk et. al. infrastructure. Similarly, w/Nixon, ITC’s work alone (installing duct banks along the perimeter of Nixon) required ripping out brand new sidewalks (that were installed as part of the Toll Bros. project) and some existing sidewalks as part of the installation.

I don’t think it makes sense to sink a lot of \$\$\$ into installing new infrastructure (whether it’s sidewalks...) when it likely would have to be replaced as a result of a subsequent infrastructure project. On this, timing seems to be the issue and why, I suspect, the sidewalk gaps in this area are planned to be coordinated with the bigger South State Street project – but can ask. Thanks, and Go Blue! Jane

**Subject:** Sidewalk gaps on State Street

I’m curious if any of you have plans/goals to try to move up filling the big sidewalk gaps on South State between Eisenhower and Ellsworth any time in the next couple years or so?

Per the following city staff comment on A2 Fix It, the city’s current plan is to leave the area unfriendly to pedestrians/cyclists for about another decade until funds are available for a larger corridor overhaul. In the meantime, there are wide open grassy areas along the east side of State where it appears sidewalks could be installed now.

“State Street (Oakbrook to Ellsworth) Improvements will include sidewalk construction to eliminate gaps. The first phase of the state Street project will be from Oakbrook to the I-94 ramps, currently planned in 2028. Significant funding is required as the project includes pavement expansion, water mains, stormwater improvements, and active transportation elements such as filling sidewalk gaps and creating bike lanes.”

Teresa,

Feel free to reach out any time on this to Karen or I. The present status is the HHSAB approved \$660k of the \$880k portion of the county millage to go to the AHF. The City Administrator’s recommended budget has not been completed yet but that’s the status of what’s been presented by staff to-date. There are no other recurring sources of revenue planned that I’m aware of for the AHF.

Separately, AAHC gets \$160k recurring funding plus \$220k from the millage (per the HHSAB recommendation).

Thanks,  
Tom

Hi Zach and Anne,

The HHSAB included in their quarterly work plan a request for a quarterly update on the status of the Affordable Housing Fund. I'll take care of the expenditures but I wanted to know if you had any updates as to whether or not there is additional funding being considered for the fund. Last year there was a \$100,000 contribution to general fund.

Thanks for any updates!  
-Teresa

**Subject:** Millage survey and FY20 Budget  
**Date:** Saturday, March 23, 2019 11:15:33 AM

---

Mr. Lazarus,

Looking for a clarification on what assumptions are now being assumed for the FY20 budget and FY21 plan with regard to affordable housing allocations.

I am aware that the HHSAB is recommending (apparently they voted, but, like any Cte., their vote is advisory and this decision is a council decision, so nothing is "approved") the following with regard to the county mental health and public safety millage proceeds (40% / \$880K):

\$660K = AHFund  
\$220K = AAHC

To reconfirm, your budget proposal will not reflect the input of the citizen millage survey without council instruction, correct? In the absence of this instruction, is it your intent to allocate millage funds for affordable housing as noted above?

Thank you for any clarification you can provide.

Jane

---

Dear Mr. Lazarus,

In addition to my email on March 21 on this subject, I also am just now finding your email from March 15 below. These are my responses:

- Yes, let's aim to have a resolution on the agenda for the April 1 meeting.
- Yes, let's meet to discuss the existing sidewalk gap prioritization, scoring criteria, cost estimating and programming from CIP. I'm available in the afternoon next week on Monday, Wednesday or Friday.
- A resolution involving a 250 hour comprehensive look at funding approaches nationwide would not be of interest.
- With regard to the Leaird ROW, please provide greater clarity on what "integrate the work into our sidewalk program" means in terms of the timeline.
- I would like to kindly but firmly object to your statement that the Northside STEAM project was a "neighborhood originated effort." The impacted neighbors (those on Traver, Brookside, and Pear) are quite firm and unanimous that they were not involved until 2 years into the process, after which most all of the plans had already been finalized. Except for the Pear neighbors, who were fortunate enough to be deleted from the plan, the Brookside and Traver neighbors remain in strong and active opposition to the two-sidewalk SRTS plan, so much so, that I do not think Council has the 8 votes needed to pass Resolution 4 of the project.

Please let me know if you and/or staff are available to meet next week.

Anne Bannister  
Ward One Council Member

Dear Councilmember Bannister:

Thank you for your follow-up below. I'm responding with some thoughts for your consideration:

- At this time, the draft resolution (as written) has not been added to the agenda. We need your concurrence to post it, however if you would like to amend it I recommend that you defer until the April 1<sup>st</sup> meeting so we can collaborate on some of the changes. My sense is that this is not time critical to the point where a two-week delay would be harmful. Kindly note that currently there are fourteen items from Council on Monday's agenda, so waiting until April 1<sup>st</sup> would also provide the "space" for Council to have a less pressured discussion of your initiatives.
- The sidewalk gap prioritization that staff has provided includes a scoring criteria for public requests. Staff would welcome the opportunity to meet with you and explain how the prioritization was performed.
- Staff has performed the cost estimating and programming for the higher priority sidewalk gaps and this data is in the CIP. Staff would also welcome the chance to walk through this with you.
